U. S. I.

CARBONDALE, ILLINOIS, FRIDAY, FEBRUARY 19, 1943

VOLUME 24

## TO NAME STADIUM FOR M'ANDREW

### SINU Quota of Airmen Doubled for Month of March

#### Anthony Hall Will Provide Housing Facilities for Men

President Roscoe Pulliam of Southern Illinois Normal University announced today that Anthony Hall, women's dormitory, will be vacated within the next two weeks to provide housing facilities for 250 Army Air Corps cadets, who will arrive on the campus March 1.

Established in 1913 at a cost of \$75,000 for thirty years Anthony Hall has been the center of social life on Southern's campus. The eighty women students now living at the hall quarters, which, over the past three decades, have symbolized friendliness and sociability at Southern. However, as a part of S. I. N. U.'s endeavor to aid the nation's war effort in all ways possible, the college is turning over not only the hall quarters, but also the past three years' construction, together with the college's academic facilities. The college administration emphasized the fact that the training of aviation cadets would in no way interfere with the regular teacher training program.

S. I. N. U. has been selected by the United States War Department as one of two hundred and eighty-one colleges and universities qualified to train army aviation cadets. Last week it was announced that the contingent of the cadets would arrive at Southern on March 1, with another group following on April 1. Word has since been received from the War Department that a contingent of 250 trainees will be sent to the campus on March 1, this rendering it necessary for the college to provide living quarters for those men on two weeks' notice.

Dr. R. A. Srott of the S. I. N. U. Chemistry department will serve as general coordinator of the program. Dr. F. C. Warren of the Education department will be in charge of the academic education program. Miss Colita Kaezitz, director of the new college cafeteria, will serve as dietitian for the trainees, meals will be served in Anthony Hall until completion of the cafeteria on March 1. Dr. V. H. DeWitt of the Physical Education department will supervise the recreational program of the trainees. The Marion airport, within driving distance of Carbondale, will be used to provide flight instruction for the cadets as their basic training advances.

**Open House Tonight**  
As a final gesture, the girls at Anthony Hall will have an open house of honor and presented the boys and students of S. I. N. U. may have one last look at Anthony Hall in its original state. It will be in the use of the army for the duration.

#### TEN CPT BOYS RECEIVE WINGS WEDNESDAY; BRINGS TOTAL TO 150

Ten CPT boys received their wings in a ceremony held in the Men's Gymnasium last Wednesday night. Major Hugh Mitchell was the guest of honor and presented the boys with their decorations for their first solo flight. Southern has now trained a total of almost 150 men in their pilot training program.

The boys are: William Deaton, Maxell Egan, Robert Herb, Wendell Maxwell, Edward W. Wayne, Don Donald Patterson, Sam Noyes, Myron Hancock, and George E. Kleck.

#### Benefit Performance 'On Borrowed Time' Is Next Friday

Next Friday night, Feb. 26, when Southern's Little Theatre presents its benefit show for the Navy Relief Society, local theatre goers will have their first opportunity to see a legitimate stage performance of Paul O'NEILL TIME.

All who have seen the movie version will recall that the story centers around "Gramps" Nontarup's efforts to retain custody of his grandchild and to rear him. The role of Gramps is being ably carried by Charles Hamilton, veteran of many successful theatrical performances. Much of the pathos of the play is provided by the scenes between "Gramps" and his small charge, "Bud" (Nova Wollard).

The collecting force in the plot is the person of Demostria Rife (Sylvia Lello) who uses every means at hand to try to "buy" and so obtain his legacy.

Mr. Brick is Gramps' ally. "Gramp" would be forced to fight the hostile alliance of "Gramp" (Nancy French), his wife, dies before she can give him any help, but it is Mr. Brick, (David McIntosh), the dramatist's conception of death, who really proves to be old Mr. Northrup's staunchest ally. And it is only because "Gramps" is able to get in touch with the famous apple tree where he is obliged to remain until "Gramps" lets him down.

The fantastic idea of death in apple tree and its effect upon the plot provide much of the charm of the play. Neither the science of medicine in the person of the family physician, Dr. Evans, (John Wiley) nor the law in the person of the family attorney, Mr. Pilbeam, (Thomas Williams) and the sheriff, (Kenneth Niehaus) can break the power of the apple tree hold on Mr. Brick.

A notable effort, Marcia Gies (Rosemary O'Neil), who comes to keep house for "Gramps" after grandy's death, supplies the romantic interest in the play.

The melodramatic aspect is found in one thrilling scene in which "Gramps" and his effort to prove that death has taken a holiday, about the superintendent, Mr. Gilmann, (Gene Morgan) of the state hospital, and indirectly proves his point.

**Conclusion Has Audience Appeal**  
How "Gramps" Brick finally gets up from the apple tree provides the final scenes of one of the most famous and humanly appealing plays ever to be produced on the S. I. N. U. stage.

Tickets for the performance are available at the center (referred to as "Cine-Vick drug store, Hewitt's, Walgreen's and Eastmeyer's). On the campus the ticket sale is in charge of James Clinton, Student Council president, for the convenience of students and for many regulars who attend the weekly play at a central point, probably second floor of the Main building.

#### ART STUDENTS TO VISIT ST. LOUIS TOMORROW

A group of art students from the recreation classes of the Art department are to make a gallery tour in St. Louis tomorrow, February 20. Each year, at some time, the art department sponsors a trip to St. Louis.

This year, owing to transportation difficulties, students and cars were both ineffective as the group is leaving by train. The morning will be spent at various wholesale drapery and furniture houses for the benefit of the Interior Decorating classes. The rest of the afternoon will be spent at the Art Institute where the Pan-American exhibit is currently displayed.

#### No Enlisted Reserves To Be Called Before March 8th

#### Many To Be Able To Continue Education at Gov't. Expense Under Army Institute Plan

According to an announcement received this week, students leaving for the armed forces and former students already in the armed forces are urged by Southern Illinois Normal University to take advantage of the opportunities available for them to continue their college education. These advantages may be roughly grouped under the following four divisions:

1. By assignment to the Army Specialized and Navy College Training program:

a. After a period of basic military training Army men may apply for the technical training to be provided in colleges under Army supervision. Credit for much of the work done by a man, while in the Army Specialized Training Corps, may be transferred to the college of the trainee's selection.

b. Navy Reserve men will be transferred to the Navy College Training program and other men 17 to 21 years of age may apply for training under this program. Those accepted will then be placed on active duty and assigned to a college, where they will follow a course of study under supervision of the Navy. The courses will be taught in the main by college faculty and credit earned may be transferred to Southern Illinois Normal University to count on a degree to be granted by this college.

2. By participation in all specialized training opportunities:

a. Basic six week military training is being offered in order to discharge one semester's work in military science, health education, and physical education or electives (about 12 quarter hours).

b. Technical training in both Army and Navy is given, which may be credited in elements, mathematics, industrial education, etc., credit to be based on achievement examinations given for the Army and Navy under the sponsorship of the Army Institute.

d. Ground courses in Air Corps training such as meteorology and navigation.

e. Meteorology training in all three classes, which includes work in mathematics, physics, geography, history, military drill and physical education.

f. By correspondence courses to the Art Institute.

Although Southern Illinois Normal University does not offer correspondence work, credits earned from other recognized universities associated with the Army Institute and for many regular Army Institute courses will be granted upon transfer to this college.

4. By work in foreign universities and schools.

This work may be recognized on the basis of the usual channels of transfer of credit or on the basis of the Army Institute's recognition plan. The armed forces are sponsoring the development of appropriate examinations in order to provide institutions with evidence as to the educational accomplishments of men and women in the service. The armed forces, through the Army Institute, have already set up a committee of testing experts who are devising tests both to determine the appropriate classification in secondary school or college, and to measure the accomplishment in college studies. Upon the completion of training, colleges to which students wish to

#### Navy V-1, V-7, Men Not to Be Taken For Service Until July 1

According to the information received by the Faculty Armed Services representative this week, no Southern Illinois Normal University men in the enlisted reserves of the Army, Navy, or Marines on a deferred status will be called to active duty before the end of the present winter term. As nearly as can be determined, the Reserve men will be called as follows:

1. Men in the Army Enlisted Reserve Unassigned will be subject to call fourteen days after the close of the present winter term with certain exceptions. Sophomore, junior, and senior men in the Enlisted Reserve who are studying in chemistry, mathematics, or physics, and all Reserve men who are premedical students including dental and veterinary will be permitted to complete the spring term in an inactive status.

The Army specialized training program will be closed to those with regular call after the completion of basic military training.

2. Men in the Army Air Corps Enlisted Reserve will have their deferred status terminated after the end of the winter term. This probably means that they will be subject to call on short notice.

3. Men in the Navy V-1 and V-7 classes will probably not be called to active duty before July 1. All of the V-1 plans and the Marine Reserve will be absorbed into the Navy college training program after the completion of the summer term.

4. Although there has been no definite information on the call to active duty for the Marines, it is expected that the men in the Navy V-1 and V-7 classes.

Men in the Enlisted Reserves of the Army, Navy, and Marines are reminded that they are expected to remain in school until called for active duty. The Enlisted Reserves also warned that they must maintain a three-point average for the winter term and must pass fifteen hours in order to remain in good standing. It is recommended that Reserve men who will be in school the spring term complete as much credit as possible for graduation as possible. College credit may be obtained for training in the armed forces in many cases so that some men will be able to complete a degree on this credit. However, one could not count on being able to satisfy such requirements in this way.

transfer are to be provided with transcripts of work done and all records obtained, just as colleges now furnish to each other. A student who desires credit for any of this training should make certain that he takes all tests recommended so that his college may have a complete record when he returns to it.

The curriculum committee at its regular meeting February 10, 1943, voted that credit should be allowed toward a degree for any of the work which takes all the recommended credit earned to the registrar a transcript through the regular channels of the Army Institute. The amount of credit allowed toward the degree is then to be determined by the graduation committee. Additionally, the committee has suggested that the office of the registrar

#### THIS WEEK AT SOUTHERN A NEWS SUMMARY

##### NEWS:

College stadium is unofficially designated as McAndrew Field this week by President Pulliam. General McAndrew passed away last Thursday night.

Southern's quota of pre-flight aviation cadets has been doubled by the Army this week. All 250 men are to be housed at Anthony Hall. Complete encampment of the cadets is expected by the end of next week.

The curriculum committee of S. I. N. U. is planning to vote on some far-reaching revisions of the educational program as it is now in effect at Southern. Among these are the proposed freshman English requirement and an examination method by which more advanced students may be excused from taking unnecessary requirements.

A front page article carries some news of great importance for all reserve men. Namely, that no student now enrolled in some branch of the college (enlisted reserve) may be called before the end of Winter term. Also, that reserve men may now continue their education at government expense if they show a reasonable amount of scholarship.

The "Little Gallery" will have its long postponed exhibit of Bohrer paintings next Sunday afternoon.

The cooperative concert series will present for its fourth concert of the season, the Marriage of Figaro, March 16.

##### FEATURES:

**Southern Sauter.**  
This World of Music.  
Doctor Barton tells Egyptian reporter of the important part meteorology is now playing in this global war. U. S. of Promises.  
seeds, weather reports to Colorado for use of airlines.

##### SPORTS:

A triangular gym meet with Minnesota University will be held in the men's gym tomorrow night at 8:00. Charles and Southern are now tied for leadership in the Illinois Inter-collegiate Athletic Conference.

Southern quintet will play Cape Girardeau this season at Cape Girardeau tomorrow night. Martin will act as mentor.

#### WPB Asks Students and Housewives to Save Cans

The War Production Board and the salvage committee of the local Civilian Defense Council are cooperating in a program to encourage housewives and students who do light housekeeping to salvage their tin cans emptied of vegetables, soups, fruits, and other goods. John I. Wright, civilian defense coordinator, is preparing to distribute folders with instructions show to treat tin cans for salvage.

According to the WPB, "tin is an important metal in industry, and principal sources of it are completely cut off by war. Tin is used in many war industries. Tin is required for the millions of food cans needed to feed our troops in the field or our crews at sea. Tin cans have never been salvaged commercially to any large extent. Therefore, patriotic volunteer effort is necessary. Cooperate with your salvage committee, defense council, and neighborhood authority to meet monthly quota is 1,000 pounds of well "prepared" tin cans per 1,000 population.

How to prepare cans for collection:  
1. Wash cans thoroughly after emptying contents. Remove paper labels.

GENERAL McANDREW

#### CURRICULUM COMMITTEE TO REVISE REQUIRED SET-UP; VOTE MARCH 8

Two far-reaching revisions, one applying to the English requirement, and the other pertaining to provision of proficiency examinations for all Junior-College general scholastic requirements, have been discussed and approved by the curriculum committee at its first regular meeting, March 10.

The first revision, which was requested by the English department, would abandon the present two-hour rhetoric courses for freshmen and revert to the former system of three hours required credit in this field with three three-hour freshman courses. The present three-hour compulsory advanced rhetoric course would become an elective under the new plan.

In requesting three additional hours of freshman rhetoric, the English department, presented the following arguments:

(1) "When our students come to us they have not had sufficient training in formal grammar to be able to justify membership of Southern at a total of thirty years. During that time he turned out many winning teams. Although, in latter years, he had at other times been the mentor of every sports squad at the school."

Mr. McAndrew was known on the campus as "Mac" and those who associated with him in his easy camaraderie of athletics always called him by that name. He was grief in the gym, yet everyone recognized his good naturedness and generosity.

His Other Attributes  
"Mac" had other sides, too. He was a genuine humanitarian. President Pulliam, in delivering his eulogy, told of how in the depth of the depression, before federal relief was provided, MacAndrew accepted the chairmanship of the Jackson County Relief Board. In this task, which was a painful one offering no recompense of any kind, "Mac" worked long nights seeking to help those in need. And, only a few weeks ago when floods threatened Carbondale.

(Continued on page 3)

#### Normal School Board To O. K. Dedication

The S. I. N. U. athletic field and stadium was unofficially named McAndrew stadium this week in honor of the late William McAndrew, who worked hard and patiently for many years to have it erected. Gen. McAndrew died suddenly on February 12th.

President Roscoe Pulliam, speaking in eulogy of McAndrew at assembly last Tuesday, said that the stadium, completed three years ago, will stand as a "monument to a great man's vision, planning, and perseverance." Gen. McAndrew brought about the erection of the stadium virtually single-handed and on his own initiative and responsibility. Most citizens of southern Illinois habitually called the stadium McAndrew Stadium during "Mac's" lifetime. However, a ruling of the public works administration under which the stadium was constructed banned naming such projects for living persons. This, it was explained, was to prevent political exploitation on the part of sponsoring organizations who might have been instrumental in its construction. Now that Mr. McAndrew is no longer living, President Pulliam declared that he will take the necessary steps to have the name "McAndrew Stadium" approved by the State Normal Board next May.

General McAndrew died last Thursday night of unannounced causes after an illness of only a few days. A public funeral service was conducted at Shryock Auditorium last Sunday with Rev. Charles Partee and Dr. Richard L. Beyer, both of the college faculty, in charge. Over 1,000 people from southern Illinois paid their final respects to the deceased at this service.

Here in 1887 in Lawrenceville, Illinois, William McAndrew had been a member of Southern for a total of thirty years. During that time he turned out many winning teams. Although, in latter years, he had at other times been the mentor of every sports squad at the school.

Mr. McAndrew was known on the campus as "Mac" and those who associated with him in his easy camaraderie of athletics always called him by that name. He was grief in the gym, yet everyone recognized his good naturedness and generosity.

His Other Attributes  
"Mac" had other sides, too. He was a genuine humanitarian. President Pulliam, in delivering his eulogy, told of how in the depth of the depression, before federal relief was provided, MacAndrew accepted the chairmanship of the Jackson County Relief Board. In this task, which was a painful one offering no recompense of any kind, "Mac" worked long nights seeking to help those in need. And, only a few weeks ago when floods threatened Carbondale.

#### Shryock Has Picture 'Four Nuns on Macadam' Accepted For Art Exhibit

Burnett H. Shryock, head of the Art Department, received notice this week of the acceptance of his picture, "Four Nuns on Macadam" for the Central Illinois Artists' Association show at the Art Institute in Decatur. The work is one of his better known works, having appeared in The American Show of Painters and Sculptors at the Art Institute in Chicago. It is also in the American Library of Color Slides.

The show is booked to run for about six weeks in Decatur, after which it will go on tour for several months.

### Hot or Cold, Americans' Fighting Spirit Is the Same

"The time is now near at hand which must probably determine whether Americans are to be freed or slaves. The fate of unborn millions will now depend, under God, on the courage and conduct of this army."  
—George Washington

There's a contrast in climate between America's equatorial battlefronts of today and the Valley Forge where Washington fought 105 years ago, but the spirit of the soldiers is the same. Americans who fight or train in steaming jungles, on hot deserts, or even in the Arctic areas of Alaska and Iceland, may well heed the words of the general who led the first U. S. soldiers into battle.

### TWO SOUND PROPOSALS

The Curriculum Committee now has before it two sound proposals which will vote on at its next meeting on March 19. One of them—the one which would re-establish the nine-hour English requirement for freshmen in place of the present thirty-six—seems to us so clearly called for by the facts as to make it almost beyond argument. The other, which would set up proficiency examinations under which qualified students could gain exemption from taking any of the numerous junior-college scholastic requirements, is a long considered method of mitigating hardships which the heavy load of such requirements imposes upon the better students.

Thus, in requesting the revision in its freshman courses, the English department cannot possibly be accused of the sin of departmental imperialism, and it would be unfair to make it a charge. There is no more fundamental and vital function of education than the development of the human powers of reading, writing, and understanding. The existence of every branch of learning is vitally dependent upon them, as the complaining departments on this campus must have known, and as the army now having difficulties with its officer candidates has emphatically proved. Since, under the free elective system, specialization takes place on the basis of knowledge or aptitude level, it is of the utmost importance that preparation for this specialization should undergo a development and a strengthening of the basic skills of the mind. Therein lies the soundness of the proposal to intensify the English requirements in the junior-college level.

The English department has been subjected to many complaints and much criticism on the score that students at S. I. N. U. seem lamentably weak in their command of the English language. To this the department answered that it was being forced to work under a handicap in that it properly, thorough course of study could be carried out in three terms of two-hour-a-week classes. This is a sensible argument, especially in view of the fact that the vast majority of American colleges and universities require at least six semesters for the quarter hours of "freshman English." When it is remembered that the sophomore tests given on this campus reveal a noticeable deficiency in English among S. I. N. U. students as compared with similarly ranking students nationally, there can be no serious questioning of the advisability of more, rather than less emphasis upon this all-important subject in the curriculum.

As to the second of the examination plan, the chief objection is that it would be a load to many students who frequently have to pass two or three papers over elementary material which is already mastered. This is simply a way of cutting out waste in education and helping better students to proceed at a more rapid pace. Many universities have this type of program, and it is not a novelty but an accepted practice. As in the other case, the Curriculum Committee will be on a solid ground if it votes to institute this change, and it is to be hoped that it will.

### THE CADETS ARE COMING!

About all that can be said concerning the 250 air force cadets who are to arrive at S. I. N. U. for training on March 1st that they are coming and that they will be well taken care of. Anthony Hall has vacated to make room for an added 125 who were not expected until a month later. The cafeteria is being rushed to completion, and plans for instruction according to army standards are rapidly taking form.

the army's representatives of the merits of S. I. N. U. If more men are allocated here later it will be but an added testimonial to their efforts.

### SOME UNPROHIBITED READING ON PROHIBITION

The prohibition issue is under discussion not only in Carbondale and on this campus but throughout the entire nation. THE EGYPTIAN considers that a sensible approach to the problem of liquor control necessitates a calm and careful study of the whole prohibition movement. The following list of articles appearing in some of America's widely circulated periodicals is offered to our readers as containing information and arguments serving to expose the highly emotionalized "dry" campaign for the unbound and unwarranted truth it is.

"Samples of Liquor," Newsweek, August 10, 1942.

"Right and Wrong Way to Stop Whiskey," Life, October 19, 1942.

"What the Army Drinks," J. W. Wadsworth; Collier's, December 19, 1942.

"Can Volstead Stage a Comeback?" Nation, November 12, 1942.

"Clash of Prohibition Stalks in Wake of Youth Draft Bill," Newsweek, November 2, 1942.

"Never Prohibition Again!," R. M. LaFollette, Atlantic Monthly, January, 1943.

## DARK MUSINGS

By EARL BROOKS

### CASTE SYSTEM AMERICANA

The Negro finds a special place reserved by common consent of Christian America and waiting for him. His place is below the rest. The principle legal and social tool of the American caste system is the device called segregation. Segregation exists in many forms but the basic distance, subordination, and compulsion are greatly present. The caste system demands these things, and the purpose of segregation is the perpetuation of the caste. The minority groups must be kept apart from the upper class. Their way of living, freedom, and even thought is to be subordinated to that of their superiors in the caste system. It is voluntary or compulsory, the dictates of the caste must be obeyed.

At one time, it is true, America made a futile attempt to solve the basic question of racial contacts. The Yankee-Kelley feud served only to increase the friction between groups. Reconstructionists and their legislation evidently did more harm than good. The apparent results were more segregation, discrimination, oppression, and murder of the minority groups. The American people lapsed into a passive frame of mind: "Segregation is bad; discrimination should not be so

what?" Everyone refused to do anything about it. Every one continued to follow the same old pattern of caste and discrimination.

**BROTHERHOOD WEEK**

Today there is a new movement afoot. Today—this day—is the beginning of a new movement for better racial understanding, for elimination of America's caste system. The week from February 19 through February 26 is nationally known as Brotherhood Week. It is a week devoted to the study of factors affecting group relationships, psychology, culture, race, religion, history, economics, politics, and propaganda. An attempt is being made to arouse democratic America from its slumber, and to plug it again as a symbol of equality and freedom.

Before you say this is probably a good thing and lay it aside, I say—Stop! You have no right to dismiss the challenge of Brotherhood with a shrug. The American caste system must be broken. You have a right to enjoy for a single hour the completeness of life in a racially divided world. The warfare against caste has no neutral grounds. Everyone takes an active part. He who is not against it is for it.

### BOOKS IN REVIEW

By DELBERT HAMILTON

**NIGHT SHIFT**

At twenty-four Marjita Wolf is one of America's most promising novelists. Less than two years ago her *Harpoon* prize winning "Whistle Stop" gave the reading public a powerful low-down on life in a small Michigan town. Now Miss Wolf has written "Night Shift" (Random House, \$2.75) a long, twisting story of a booming industrial city.

Sally Oats and her sister, Pety, the two major characters, are alike only in their generosity. Sally is a young married woman, hard-working, sincere, struggling to support her children. Pety is a night club singer, a fancy free driftier who has "been around."

een, lovable old restaurant owner; Johnny O'Brien, the factory worker; Gloria, his beautiful-but-dumb wife—the list of vivid personalities could go on and on. The story shows a great deal of unity by Miss Wolf's insistence on playing up minor characters. One marvels at her ability. Miss Wolf apparently knows more about the human animal than most writers do—in her first two books she has presented enough material for a dozen novels.

In spite of its greater length (62 pages) "Night Shift" is a finer novel than "Whistle Stop." It is a fascinating story—and dramatic, horrible in places. It is good writing that puts no punches.

**ABOUT IT AND ABOUT AFTER CASABLANCA**

By TOM STEPHENSON

After the spectacular conference in Casablanca during which great decisions were made on global war strategy, both Prime Minister Churchill and President Roosevelt, instead of going directly to their respective capitals, made important visits. The President visited Liberia in Africa and Brazil in South America. The Prime Minister went to Turkey and has spent some time in Cairo, Egypt.

The Churchill mission to Turkey may justifiably be regarded as very important. Despite the fact that the Prime Minister warned us against too optimistic speculation regarding the military significance of the agreements reached there, the understanding with Turkey will mean tremendous possibilities. The fact that Turkey was willing to receive Churchill immediately after the historic conference at Casablanca implies that not only are the Turkish sympathies with us,

but their confidence is in us, too. Actually, it is a sort of diplomatic slap on the Nazi face.

Turkey will fight rather than grant passage to Axis forces either to our country or through the Dardanelles. Thus Hitler's strategy of breaking through into the Near East is further blocked. It is to be hoped that the Turkish-British rapprochement will eventually lead to even closer Turkish cooperation in the fight against Fascism. If their state of benevolent neutrality would reach the stage whereby the Turks allowed United Nations supplies to cross the Black Sea to Southern Russia it would greatly shorten our supply lines and our reliance on ships for our other battle areas. Better yet would be Turkish permission to use her soil as a springboard for an attack into the Balkans, part of the "soft underbelly of the Axis." This, of course, would amount to active participation on the part of Turkey and this is one of the things Churchill meant when he warned against too optimistic speculation. Nonetheless, it is something to be hoped for.

The President's visit to Brazil is equally important. Brazil is

## ABOUT IT AND ABOUT

an important factor in safeguarding the trans-Atlantic bridge of supplies to North Africa and South Russia. Remember that it is only 1300 miles from the "belly" of Brazil to the west coast of Africa and that a cooperative Brazil is tremendously important in combatting the Axis submarine menace. Think how much greater the task would be if Brazil were an ally of our cause as is Argentina. Fortunately for us, Brazil keeps things as we do and is an active member of the United Nations. The aid Brazil is giving us in this war is invaluable and thus it was indeed gratifying to learn that President Roosevelt and President Vargas had reached full agreement on hemispheric strategy and that President Vargas had been informed of the great decisions of Casablanca.

Such events as these show plainly how the world is shrinking. When an important problem confronts the leaders of two or more nations they get together, in spite of the added hazards of wartime, and solve the problem. This is much more effective than discussions through ambassadors and envoys and inevitably points to a closer union between the peoples of the world.

FROM THE DRY CAMP

Dear Editor:

We of the "Dry" camp appreciate very much the fair-mindedness of the Egyptian in allowing us to present our side of the prohibition controversy. We still have arguments, information and opinions to present for your examination, however. The issue at stake is not the social Order, which is a form of local prohibition. This is somewhat different from National Prohibition, which the "Wets" so vigorously attack as being (fall of inherent evil). National Prohibition itself, however, came into existence after more than a century of agitation, study, and experiment upon the part of those interested in solving the ever-present problem, and then was repealed by the 21st amendment, which came into existence upon the discovery of the Depression. But we have not time and space here to defend National Prohibition, although we feel it can be defended adequately, if such becomes necessary in our campaign. Concerning Local Option, Governor Homer signed the Optium Law for Illinois in 1935, against the protests and entreaties of the "Wets", and had quite a bit to say at the time about how Local Option was the way to handle the liquor situation.

The "Dry" movement is gaining headway. Sentiment for Prohibition in the U. S. is steadily rising, according to Gallup Public Opinion surveys, is becoming more and more alarmed, and is spreading money and using propaganda freely in an effort to check the rising anti-liquor drive. Churches and church periodicals deplore the damning results of the whole liquor industry, as well as the waste in money and manpower resulting therefrom. Sentiment among newspapers and magazines that do not advertise liquor and therefore are not more or less directly influenced by liquor interests is growing toward or already is to the effect that the liquor situation is the most dangerous sabotage to our national defense and war efforts, and perhaps one of Hitler's best allies. I suppose I will be branded as a "retrogressive" or "reactionary" or something such as have been necessary during every battle of beer or other liquor consumed as a beverage is a help to Hitler and the Japanese in their war efforts.

Many in Carbondale are of the opinion that the Local Option election here will go "dry" when it is brought to a vote. I am happy to report that we have received necessary number of voters' signatures on petitions to insure that the proposition will be voted upon in the spring elections—both in the township elections and in the city elections. We also have received news that our neighboring towns of Carterville, Elkhart, Marion, Eldorado, and Harrisburg are engaged in Local Option campaigns.

The solution of the liquor problem by prohibition is based upon the theory that there will be no drunkenness if there is no drinking, and that drinking will be discouraged and less rampant if it is prohibited by law. Total abstinence is generally recommended by Prohibitionists. Temperance Workers, and those in sympathy with temperance, have not been entirely successful in their campaign for the individual to follow in regard to the question of drinking liquors containing alcohol. Prohibition has an interesting history, both in its development and trial periods. Undoubtedly we shall hear more of it.

Sincerely yours,  
VICTOR PINLEY.

### WORLD'S GREATEST NEWSPAPER?

Dear Miss Editor:

It was with interest that I read the editorial arguments of the Chicago Tribune which urged that the position of a "University of Southern Illinois."

For some time I had been reading "the world's greatest newspaper" with apprehension I rather feared (shy-connances) which would result if it took the wrong side of the fence. As time passed, however, there gradually came the realization that this milestone decision would be our career move by staying on the other side of the fence. Every hunter knows that a skunk is just as apt to drive the righteous from the woods as it drives a snarer.

Now that the "world's greatest newspaper" has stated its position, I have a strange feeling of contentment. It is as though a great storm has passed. Why? Perhaps it is because I recall the political campaign of 1932, 1935, and 1940, when the Tribune betrayed the Republicans by supporting their candidates. Perhaps it is because I recall how the Tribune splashed isolationism all over the middle-west, crying out in vague and esoteric terminology about the comparative safety of the American routine.

Justified as I am over the future of the U. S. I. U. I cannot help but view with sympathy the plight of its opponents. Surely they must now realize the hopelessness of their resistance. VIVA La Tribune, our opponents have been betrayed.

VICTOR HICKEN.

## THE CASE FOR U. S. I.

**SOUTHERN ILLINOIS NORMAL UNIVERSITY SHOULD BE CONVERTED INTO THE UNIVERSITY OF SOUTHERN ILLINOIS BECAUSE . . .**

- I. The people of Southern Illinois do not have the educational opportunities available to other citizens of the state.
- II. Many young people in Southern Illinois do not especially want to teach, but cannot afford to go elsewhere for advanced training in their special fields.
- III. The people of Southern Illinois need and deserve an educated leadership.
- IV. Southern Illinois is a region worth developing.
- V. The people of Southern Illinois need and deserve vocational training.
- VI. The people of Southern Illinois need and deserve a center for preserving and developing the cultural life of the region.
- VII. Southern Illinois Normal University can no longer honestly function as a school for teacher training only.
- VIII. The whole state of Illinois would benefit from improved opportunities for education in Southern Illinois.
- IX. Conversion now would cost little.
- X. The post-war period will bring new problems to the region—problems which only a university can handle and which it must prepare now to solve.
- XI. The best place in which to keep Illinois abreast of broad educational advance is Southern Illinois, for it offers unique opportunities for regional services, experimentation, and pioneering developments.

# THIS WORLD OF MUSIC

**By BEETHOVEN**

With the dissolving of the WPA a number of instrumental ensembles are finding themselves without backing. Here is the story of one, the Capizol Dance Orchestra, a group of six blind players. During the seven years of its existence as many as thirty blind musicians have played in the unit at one time or another. About two-thirds of them have been graduates from the New York Institute for the Education of the Blind, and they have learned their repertory either through Braille music or records. The unit has played more than 8,000 times in concerts and for radio broadcasts and has supplied music for social gatherings, dances, and more recently, for workers in defense plants. The group will try to stay together as a commercial band. It has changed its name to the Musical Bombardiers because of its previous work in defense factories, where it hopes to continue playing.

A recent issue of the Moscow News tells the story of one of Russia's most famous quartets, the Beethoven String Quartet, which was founded twenty years ago at the Moscow Conservatory. The group first came together as students in order to perform a piece by Vasil Shirinsky, who played the second violin part. After that the four young men went separate ways, each pursuing a career as a solo recitalist. Yet they came together from time to time and their joint performances began to occupy more and more time and attention. They have given three cycles of Beethoven's quartets and have done much contemporary chamber music.

"Capousachi," an epic poem for orchestra by Carlton Cooley, will receive its first Philadelphia hearing at the concert of the Philadelphia orchestra, under Eugene Ormandy today and tomorrow.

**OFF THE PLATTER:**

Trape collectors who are fond of the music of Sibelius have two of his symphonies at their disposal among the new recordings of the month. The "First in E minor" is played by the New York Philharmonic orchestra, directed by Artur Schnabel, Columbia 3455. The 13th recording. The Seventh in C is performed by the St. Louis Symphony orchestra under the leadership of Vladimir Golschmann (Victor DM-822, three 13-inch records).

Neither symphony is exactly identical to American listeners; the music of Sibelius has become a staple of our orchestral repertories throughout the land. The First has had several domestic recordings—by Eugene Ormandy and the Minneapolis Symphony and by the same conductor at the height of the Philadelphia orchestra has, being of recent vintage. Robert Kozlowsky, the Polish conductor, made a recording with an unnamed orchestra quite some time ago for Columbia, and it may be that the new version is planned to replace it.

The Seventh has not been recorded in this country before. It has been available only in Set No. 2 of the Sibelius Society, where it has an excellent performance by Serge Koussevitzky and the Boston Broadcasting Corporation orchestra. But Set No. 2 is a three album set that embraces the Third symphony as well as the Seventh and purchases have not been able to purchase the latter without the former. The recording is the first of the Seventh alone; another is on the way from Columbia.

**FIRST AND LAST**

The First and Seventh are, of course, Sibelius's first and last efforts in this form, as far as the pub-

## LOCAL BOARDS BEGIN CALLING REGISTRANTS TO ALL SERVICES

Carrying out the executive order of December 5, 1942, which called for a cessation of enlistments in the armed forces, local boards on February 1 began to furnish all men between the ages of 18 and 35 registered to fill combined calls for the Army, Navy, Marine Corps, and Coast Guard.

All registrants ordered to report for induction by local boards heretofore will be delivered to jointly operated induction stations, where they will be physically examined by military and Navy personnel. The particular instructions regarding registrants agreed upon by the War and Navy Departments will be appportioned to the service.

Advicing local boards of the new program, Selective Service Headquarters, said that all men previously classified as available for military service will be sent to jointly operated induction stations, it will be the responsibility of the Army and Navy personnel at the joint induction stations to assign the individual registrant to the particular service to which he appears to be best qualified. However, at the induction stations, registrants will be given the fullest consideration practicable, in the event that no vacancies are available in the preferred service, registrants will be assigned to the service in which the military assignment board at the joint induction stations finds them best fitted.

Registrants may apply for induction in advance of their order numbers through their local board by completing the Selective Service Form which indicates the service to which they prefer assignment and will be assigned to that service insofar as they are qualified and vacancies exist.

**World War I Drafts**

In the last World War, the Navy and Marine Corps obtained men through Selective Service in October and November of 1918, although it was not until that time they had enlisted their manpower. The Navy obtained 2,254 men through Selective Service, while 4,529 were inducted by the Marine Corps.

Under the present program the Registrar, Secretary of War and the Secretary of the Navy will be consulted and each call placed on the states and the local boards will be a combined call for a stated number of men.

At the induction station, where they will be physically examined by Army and Navy personnel, special standards agreed to by both services will prevail in the selection of men ordered up to fill the call and those registrants who meet the requirements will be classified accordingly. This proportionate assignment will be made whether the call is filled or not. For example, in the combined call the Army asked for 2000 men and only 1000-1500 men were available, the Navy's call would be assigned 6000 men, or four-fifths of its original call.

This appointment applies only to those who meet the physical standards agreed upon by both the Army and the Navy, which are higher than those now applied by the Army. If after the appointment of general service men on a particular date the Army decides to accept some registrants previously rejected, the Navy will be permitted to meet the higher standards, it may do so. Registrants not accepted by either service will be returned to local boards for reclassification.

**Southern Knights Have Initiation Monday**

The Southern Knights fraternal organization will hold its Winter term initiation next Monday night at 9:00 o'clock at the Little Theatre.

At this initiation Squares will be made Knights. Pledges will be made Squares, and Pledges in present service to Southern will be accepted as new pledges. This initiation has been set up three weeks because most of the fellows expect to be gone at the end of the next term. It is imperative that all Knights, Squares, and Pledges be present. Please keep in mind that the Southern Knights organization is a voluntary group, pledged to Service of Southern. Any fellow interested in serving his school may appear at the Little Theatre at 9:00 Monday night. He will be welcomed as a Southern Knights Pledge.

## ARE WE D

Mrs. Ota Thomas, formerly of the Speech Department, S. I. N. U., and C. Wesley Reynolds, 1942 graduate of S. I. N. U., were married Wednesday, February 17, in New York City.

Miss Thomas left her position here at Southern after Christmas to join the faculty at Hunter College in New York City. She was unable to begin work immediately as the school was being moved, so she accepted a position with Time, Inc., acting as a press correspondent, but during the week she began teaching at Hunter this week.

Miss Thomas studied at the University of Iowa, receiving her doctorate degree there under the tutelage of Dr. A. Craig Baird. She began teaching at S. I. N. U. in the fall of 1941 and took charge of the debate team as well as sponsoring other organizations such as the

Speakers' Bureau and the Girls' Rally.

Mr. Reynolds was very active and outstanding while on the campus. He majored in mathematics and economics and was a member of Kappa Delta Pi, honorary education fraternity; Kappa Phi Kappa, professional education fraternity; Phi Sigma Upsilon, Southern Knights; Future Teachers of America; and the Student Council. He was president of the Kappa Delta Pi and the F. T. A. and vice of the Southern Knights. He was a member of Southern's debate team and was selected last year as one of the outstanding students. He worked in the office of the registrar.

Mr. Reynolds graduated from officers' training in the Navy at Columbia University in New York City shortly before his marriage. He will leave for Washington, D. C., March 7, to further training.

## Scarab to Contain Material of High Calibre

Despite the falling enrollment and a previous lack of interest, this year's Scarab, student literary magazine, promises to be of an equal or even higher calibre to last year's publication. Material was slow in coming, but most of the best material arrived at the last minute, one of the judges stated.

Last year the Scarab was distributed free of charge and many students were not sufficiently interested to even pick up their copies. This year the English faculty, Signal Tau Delta, was not entirely certain whether or not publication could be maintained. It was decided to continue publication but to sell the copies. In order to make the venture successful, it was necessary to create interest among the students and this was sought by contests for material.

### The Contests

There were two contests: one for the student body in general with three divisions, poetry, essays, and short stories, and appropriate prizes were offered for each. The other contest was between freshmen there are classes only the best themes being chosen and turned in by the teachers. Both contests have yielded material of a high quality.

The contest especially worthy of notice: Some of the work was quite finished and showed a comprehension and awareness of the surroundings that was quite surprising. The short stories were varied, both in length and theme, and the essays were quite good.

**Judges**

Judges for the contests are: Mrs. Elizabeth McDavid, chairman; Mr. Sherman Barnes, Miss Middleton Smith, Mr. Douglas Lawson, and Miss Gaila Hankla. These judges have been selected from other than the English department in order to provide a variety of tastes in the judging.

Date of publication of the Scarab is as yet not known.

## BROROD'S POSTPONED 'LITTLE GALLERY' EXHIBIT TO BE OPENED SUNDAY

**By JAMES GRAVES**

The Aaron Brodrow show will have its official opening Sunday, February 22. A much postponed event, it has been waiting for this. This show, the first exhibition show we have had since the Little Gallery began several months ago, is interesting for several reasons. The main reason is that this is the first public exhibition of the work that Mr. Brodrow has been doing in our own community. Many of us who have not been able to follow the work of our artist in residence as it progressed have looked forward to this exhibit with eagerness. And what reaction to our community is evident in this show? Evidently Mr. Brodrow thought this was a fruitful place to paint or he would never have taken the time and expense of the paintings show a depth of perception and understanding of we dry rotters and of the community we live in.

**'Subtle Interpretations'**

There is always a danger in mentioning the names of certain painters in a show of this sort. For instance, if I mention that one of the paintings is of H. O. Gibbs' store, many of my readers will look at the picture with a mental image of what has been interpreted by the artist. They judge the painting, therefore, more on the basis of the artist's interpretation of the composition rather than the more subtle interpretation of the scene which the artist intended. A painting of a landscape is a reduction to some particular medium (in this case, oil) the impression of the scene on the mind of the artist. If the artist happens to see three or four more doors in a house than we do, we cannot say that he is "seeing" incorrectly.

**Exhibit is Representative**

Suffice it to say that the show is a representative show of the work of our artist-in-residence since he has been on our campus. One rather regrettable thing concerning the show is that, since it is a one man show, you should be able to see some of the earlier works and periods of the artist. In this case, however, only a few of the works done by Mr. Brodrow in his earlier periods. But, as the name implies, this is a "Little" gallery. What more can we ask?

## STADIUM NAMED FOR McANDREW; TO SEEK OFFICIAL APPROVAL

(Continued from page 1)

The area over which his division of the state militia had jurisdiction, the General took personal supervision of arrangements for the relief of the likely flood sufferers. The flood never came but "Mac" already had been warned by doctors against over-exercising, could not have known that. His death, according to President Pullman's belief, was undoubtedly brought on by the strain of that period.

Although he had tried every way known to him to get into active service in this war as he had in the last (from which he emerged as a captain), "Mac" was turned down because of a weak heart. But, in the words of President Pullman, "he stood as much in the service of his country as if he had gone down on the battlefield."

Concluded the President: "A really great and magnanimous man has passed from our midst. We shall miss him in the days to come, there are too few like him."

rather than after," they come to a vote.

## 'Marriage of Figaro' Is Next Concert Of Coop Series

The fourth and concluding concert of the 1942-43 Columbia Concerts series will be presented March 15 when the English translation of Mozart's 'The Marriage of Figaro' arrives in Carbondale.

Performed by the Nine O'Clock Opera company, a full-time group, the opera has acquired a streamlined cast as necessitated are eliminated and the story is condensed. The bridge of 150 years is spanned by The Narrator in the person of an otherwise minor character, Antonio, the gardener. Ordinarily, the orchestra consists of 15 members. Mozart's complete opera will be in modern dress with a minimum of scenery. Piano accompaniment will take the place of the usual orchestra.

**First Produced in 1784**

The libretto by Lorenzo Da Ponte is based upon Beaumarchais' famous comedy first produced as a farcical sensation in 1784 in Paris. Subordinate to the lively plot itself is the germ of the idea of that time crystallizing in France, the expression of the common people.

The opera, first performed in Italian at the opera founded upon the French play with a setting in Spain.

**Sequel to 'Barber of Seville'**

This opera, although written prior to Rossini's 'Barber of Seville', is really a sequel to it. Indeed, Susanna is the only added character of any importance. The relation of the two operas is that in 'The Marriage of Figaro' the Count, who in 'The Barber of Seville' was pursuing Susanna, is now first of his country and is casting around for a new wife. Susanna's wife and Figaro's betrothed. The Count is hindered somewhat by the presence of a page, Cherubino, whom he ships off to the army with a commission of captain. The role of the page is to travesty part as traditional to the plot, however, after a general mix-up and happy for the three couples concerned.

**Mozart's Music Retained**

However condensed this presentation may be, Mozart's music is retained. Each scene as Figaro's marital solemnity and in Act I, Cherubino's flawless suavity. Voi che sapete in Act II, and Susanna's 'Dove sono' in Act III, and Susanna's 'Act IV, and Deb. vien non tardar in Act IV, are included.

The cast includes Helen Van Loan as Susanna, Hugh Thompson as Figaro, Vera Weikel as Cherubino, George Britton as the Count, Allen Stewart, Bill Bastin, and Luan Street as the Countess.

1. Open cans, bottom as well as top. You may bend in tops and bottoms, or if you have completely removed ends, just insert them.
2. Flatten cans by stepping on them firmly. Do not hammer them.
3. Keep your prepared cans in a suitable container, separate from trash, until collection day for your district. Basket, box, or barrel are suitable containers.
4. Paint, oil, varnish, floor-poolish, or coneshaped cans are not wanted for salvage because fat interferes with the re-working process. Greasy metal cans are not worth saving, but coffee cans and any others as listed above are badly needed and should be salvaged.

ACP—Recording sessions of classes taught by practice teachers is a new and an excellent training introduced at Depauw university.

KING NEPTUNE SELECTED AS HONORARY MEMBER OF SINO RURAL LIFE CLUB

By LORRAINE DITZLER King Neptune, the 207th, red-haired, blue-eyed, Herford sea god, departed from Carbondale...

ETC. (From Other Colleges)

The S. T. C. Hit Parade Is on the Way... New gags—new music—new songs and songsters—all rolled into the best production ever to play behind the footlights of S. T. C....

Stamp Dance Given to Encourage Building for Bonds... The Women's League and the University club were joint sponsors of a War Stamp dance which was given in McCormick gymnasium Friday, February 12...

Albert Spalding, Violinist, Appeared Monday... Albert Spalding, one of America's foremost concert violinists, appeared at the College auditorium last Monday evening as the second performer of the 1942-43 Cape Girardeau concert season.

43 Sagamore Queen Got Crown at Hop... The 1943 Sagamore Queen of campus beauty and charm was crowned with the traditional diadem of the Sagamore, College yearbook, at the annual Winter all-school dance which was held in the student center Friday night, February 12.

Dekalb Library Has Collection of Pamphlets, Articles on War Rationing... Are you confused about rationing; the point system of rationing? The library, foreseeing confusion on this subject, has collected pamphlets, magazine articles and other miscellaneous matter for your convenience.

King Neptune was brought to Carbondale by the war bond committee of the Elks Club, in cooperation with the Jackson county war savings staff. The Elks presented certificates of recognition to those people who made bids for the pig.

DR. BARTON DESCRIBES NECESSITY OF METEOROLOGY IN PRESENT CONFLICT

Weather—the Old Reliable of 'Eaton conversation—can win or lose a war! So important has wartime weather, its observation, and prediction, become that since Pearl Harbor five institutes have been formed for the sole purpose of producing much needed meteorologists—vital in conducting a winning war and in keeping a hard-earned peace. Those eye-opening first months of war disclosed a serious shortage of meteorologists in the United States...

Has Come Into Own But not only in time of war is the meteorologist important; in times of peace he will keep the high position today's crisis made for him. Prof. Thomas F. Barton, head of the geography department at Southern Illinois Normal University, believes that meteorology in this country has at last come into its own. "Meteorology is here," he declared. "Everyone now fully realizes the far-reaching possibilities of aviation after the war, but few understand that with aviation meteorology is synonymous. The meteorologist has become an important actor in the prospect of a more extensive use of the airplane in the future. Today meteorologists are essential to efficiently operated airports and air water bases—from which bombing, strafing raids originate and convoy attack; tomorrow they will be important in the development and the safe maintenance of air transportation."

Why Geography? Why the rigid censorship of weather data by the war department at present? Dr. Barton accounted for the necessary secrecy in this respect by explaining the term "weather secrets." "Weather," he said, "is the state of the atmosphere over the United States soon becomes weather over the Atlantic, over England, and ultimately over the Mediterranean. Enemy meteorologists knowing that a "storm" rages in a certain place at a certain time can, by calculation, predict the weather over their objective and delay or hasten their attack accordingly. It can be seen, then, that such vital information must be withheld from the enemy."

The tremendous importance of keeping weather information secret becomes more apparent when it is realized that the enemy will go to great lengths to secure such data. Dr. Barton added that strange submarine activity off the Atlantic coast has recently led American observers to believe that it is German action for the purpose of making weather recordings. The enemy, it can be fairly certain, would much rather obtain the same data in an easier manner if possible.

Much Progress in Last 5 Years The last five years have seen tremendous, much needed advancement in the field of meteorology. The 1911-1915 bureau in this country depended upon the same weather maps used during the Civil War. Far behind the rest of the world, meteorologists in the United States did not join the International Weather Council until 1918. Now books on meteorology published before 1935 are dated, obsolete. Pearl Harbor did more than anything else to further emphasize the necessity for the modernization American meteorology so urgently needed.

Our Weather Station This new emphasis has had its influence on the Weather Station—greatly needed by public—located here on the S. I. N. U. campus. Every six hours weather observations are made by student readers, and the information forwarded to Deaver, Colo., from where it is issued by wire to commercial airports. The local station is operated by the government as Second United States Airway Weather Station. It is well equipped with the necessary pressure and wind instruments, thermometers, wet and dry bulb apparatus, maps, charts, and other supplementary equipment.

Here students, interested in meteorology, are trained as readers; four past readers are now in the service in that capacity. And fifteen other boys have been sent into meteorological careers from this S. I. N. U. department in the past.

Principal employers of meteorologists are the government (Civil Service) and airlines. All Forest Rangers must be part-time meteorologists. The participants in the army air program which will soon swing into action, will be required to accumulate 60 hours credit in T. F. Barton's department which now occupies a position of stressed importance in relation to the war effort and post-war planning.

Southern to Offer Two Summer Sessions Southern Illinois Normal University in Carbondale is offering two summer sessions open this year to four-month students. The first session will start in June and terminate on July 16. The second term begins on July 19 and lasts until August 27. Students desiring credit for the summer term in Southern have been making every possible attempt to meet with the present war emergencies. Numerous technical courses have been devised. In addition to refresher courses for returning teachers, who are attending college again to help alleviate the present teacher shortage. Therefore, the high school graduate's role in the summer school curriculum has assumed a great deal of added importance. Realizing that most high school students will go directly to college upon graduation, Southern has prepared to attract students to the boys, which are directly conducive to their specific preparation prior to entering the armed services. The girls will be able to prepare for industrial positions with little difficulty for Southern is offering an intensive machine shop training course which may be completed within two weeks.

To meet the emergency created by the war the Physiology and Health Education department has designed a special summer offering of courses and programs for disease prevention and the correction of physical deficiencies. This should be especially interesting to girls who are considering nursing training.

Tournaments Sponsored Tournaments in recreational sports are being sponsored by the Physical Education department. Events include badminton, archery, bowling, ping-pong, tennis, and golf. Carbondale is well-situated for summer sports, with the Crab Orchard Lake within driving distance of the campus, and Giant City State Park close by.

On The Social FRONT

Courtview Co-op Last Tuesday evening after dinner, from 5:30 to 6:30, Courtview Co-op sponsored a special "Write Letters for the U. S. I." session at the Co-op House. As a special service, the Co-op furnished all writing materials, paper, and envelopes, and took care of the mailing and stamping. In addition to this, there were updates on duty to increase the output of letters, while other students dictated letters or presented suggestions. The special committee in charge consisted of John Wiley Gene Ulrich and Bill Beninger.

Fi Kappa Sigma The Pi Kappa Sigmas entertained their 14th formal Valentine dance and buffet supper last Saturday evening at 9:00 p. m. in the Little Theatre and Lounge of the Old Science Building.

Inter Co-op Party The Inter Co-op Picnic Party will be held tonight at 8:00 in the Student Lounge. All members of the various cooperative houses are invited to attend. Refreshments will be served, and prizes awarded for high scores.

Williams Attends Public Information Council Meeting in Chicago Tommy Williams, director of publicity at Southern, attended a meeting of the Public Information Council last Monday at the Morrison hotel in Chicago. Other members of the Council attending were Mr. Paul Street of Northern, Mr. Dr. D. H. Hall of Western, Macomb, Ill., William Zeigel of Eastern, Charleston, and Mrs. Gertrude M. Hall of Old Normal, Normal. The Council is composed of the publicity directors of the five state teachers' colleges.

Plans Made Plans were discussed concerning the coming year's work. The official meeting was preceded by an informal discussion about the methods and procedures hitherto employed by the various colleges in publishing their institutions. Tentative plans were formulated for the publishing of co-op news stories and advertisements. Specific plans were made for the next issue of the Education Today magazine which the Council publishes. The relation of the Public Information Council to the Illinois Education Association and other similar educational organizations was discussed. Mrs. Hall of Old Normal served as chairman of the group.

Another meeting is to be held before the beginning of the summer session, followed by a meeting of the publicity directors together with the presidents of the five Normal schools sometime during the summer.

BUY UNITED STATES WAR BONDS AND STAMPS

For the Best in Milk and Ice Cream CITY DAIRY Phone 608

By LORRAINE DITZLER Vernon Snead cuts a clear picture of meteorological school at University of Chicago, from which several S. I. N. U. fellows have graduated and which several are attending now. Geography and mathematics seem to be the needed background subjects. Says Snead: "We get plenty of work to do, sometimes being on a steady go for sixteen solid hours. We have four hours of lecture each morning except Mondays when we take our weekly exams. We also have four hours of laboratory work, grams, cross sections of the atmosphere, etc. Some days we have four hours of radiologic laboratory, and of course callisthenics and other minor duties each day. The junior class has to do the mark for the seniors sometimes. They have to let us know that windows must be clean inside and out for inspection in the morning, so my roommate and I shall add that to our list of duties as housemaids. About the only things that could be desired farther (in the dormitory) are breakfast in bed and mail service."

Topnotch instructors (who speak in terms of differential equations) are engaged in the field. The Dr. Rossby is described as "only second to Bjerknes, the father of modern meteorology," by Snead. Apparently the group is well satisfied, as all feel that after the war is over their training can be applied to the advancing field of aviation.

At Camp Hood, Jack Howell describes a recent trip to the University of Texas in Austin: "Texas University is quite lovely. With the royalties they receive from their oil lands they just add a new building to their campus. You can see they are not cramped for class room space." Jack is an assistant instructor in the Tank Destroyer School, department of Tactics.

Cadet Charles Holmes of the Flying Egyptians does perhaps the best job who happens to be fighting from this end of the line, is greatly heartening. "Not only does such support and kindness make for happier—therefore better—fighters, the spirit which prompts you is one which is indispensable to victory. I know we have that spirit. Not knowing how or when or where any of us will meet again, I want to wish all of you the best of good fortune for the future we are fighting to create."

FELLOWSHIP OPPORTUNITY The United States Public Health Service has announced this week that twenty fellowships at \$100 per month for 12 months, plus tuition, are now available to Bachelor of Science graduates or its equivalent who meet certain standards. The funds for these awards are being granted by the W. K. Kellogg Foundation and the scholars will lead to a Master's degree in Public Health at the University of North Carolina.

Minimum educational qualifications for the fellowships are: Bachelor of Science degree, or equivalent, from a recognized college or university, with major emphasis upon: a. The basic health medical sciences such as physics, chemistry, biology, and physiology. b. Education, with emphasis upon educational psychology, and the social sciences. Any Southern student, who is interested in one of these fellowships should see Dr. Hlariche immediately.

ACP—Nine hundred searchers present are assigned to the naval training school for electricians at Purdue University.

ARROW BROADLYN STRIPES are High, Wide and Handsome Here's the new Arrow shirt that's making fashion news in the March Esquire. Its stripes are so handsome, its soft madras so fine, that it's sure to be one of your favorites. And fine as it is, there's lots of laundry mileage built into it. Being an Arrow, it has the exclusive advantages of faultless Arrow collar styling... the Mitoga figure-fit, and an Arrow designed tie, shorts and handkerchief that were especially originated for it by America's ace designers. Come in, there's lots of color varieties to select from, and a complete range of collar styles and sleeve lengths. SHIRT \$2.25 TIE \$1 SHORTS 75c HANDKERCHIEF 50c I. V. WALKER & SONS For ARROW shirts

WAR BOND Q. Does an album filled with Stamps automatically become a Bond that will mature in 10 years? A. No. It must be exchanged for a Bond, and it will bear no interest until it is so exchanged. Q. Can payment of a War Savings Bond be made to the receiver or trustee in bankruptcy of the estate of a member of the family? A. Yes, when bankruptcy or insolvency has been adjudicated, and request for payment has been duly executed. Q. Can I authorize my employer to set aside portions of my salary each pay day until enough is accumulated to buy a War Savings Bond? A. Yes, if your employer has installed a Pay-Roll Savings Plan. More than 24 million wage and salary earners are saving their money this way. Q. Can I invest a lump sum in War Bonds and receive from the investment a return in the nature of an annuity? A. No. The purchase of each War Savings Bond is a separate transaction. Each Bond is dated as of the first of the month in which payment for it is received by an authorized issuing agent, and matures exactly 10 years from that date. Remember—the longer you keep War Bonds, the more valuable they become.

Southern to Offer Two Summer Sessions Southern Illinois Normal University in Carbondale is offering two summer sessions open this year to four-month students. The first session will start in June and terminate on July 16. The second term begins on July 19 and lasts until August 27. Students desiring credit for the summer term in Southern have been making every possible attempt to meet with the present war emergencies. Numerous technical courses have been devised. In addition to refresher courses for returning teachers, who are attending college again to help alleviate the present teacher shortage. Therefore, the high school graduate's role in the summer school curriculum has assumed a great deal of added importance. Realizing that most high school students will go directly to college upon graduation, Southern has prepared to attract students to the boys, which are directly conducive to their specific preparation prior to entering the armed services. The girls will be able to prepare for industrial positions with little difficulty for Southern is offering an intensive machine shop training course which may be completed within two weeks. To meet the emergency created by the war the Physiology and Health Education department has designed a special summer offering of courses and programs for disease prevention and the correction of physical deficiencies. This should be especially interesting to girls who are considering nursing training. Tournaments Sponsored Tournaments in recreational sports are being sponsored by the Physical Education department. Events include badminton, archery, bowling, ping-pong, tennis, and golf. Carbondale is well-situated for summer sports, with the Crab Orchard Lake within driving distance of the campus, and Giant City State Park close by.

# Triangular Gym Meet With Minnesota Tomorrow Night

## VIEWING THE Intramurals

By HAROLD SHANAHAN  
The Spirits of 76 winners over the Portland Sigma Beta Mu Tuesday night, will meet Cape Delta Alpha in the finals of the intramural basketball tournament at 6:15 p. m. Thursday night. This game is a preliminary for the Southern-Charleston chess at 8:00 p. m. Thursday night.  
The Spirits' sister by Gene Clawd, former Southern football star, have played the finals by virtue of a 37-19 victory over the Chi Delta Club, Monday night, and their stunning upset of Sigma Beta Mu Tuesday night, 33-23.  
K. D. A. enters the finals by virtue of Monday night's victory over Moody's White Kids, 25-19, and a 21-20 rout of the Jerks on Tuesday evening.

## SOUTHERN WILL PLAY CAPE INDIANS FOR 4TH TIME THIS SEASON SAT.

S.I.N.U. will travel to Cape Girardeau Saturday morning preparing to meet the Indians that night in the fourth meeting of the two teams this season. Carbondale has won all three games played thus far, winning at home by scores of 53-43 and 62-40. They won at Cape in an overtime battle by a 47-42 margin.

**Will Lose Echols**  
The Maroons will be without the services of Gene Echols and possibly Don Sheffer in the game tomorrow night. Echols broke his index finger at DeKalb and will be out for the rest of the season while Sheffer took his pre-induction army physical exam on Tuesday. Sheffer may use his 7-day furlough period to be there for the game but it is very doubtful if he plays. Roy Ragsdale has taken Echols' position in the starting lineup and Calvin Collins, freshman from Du Quoin, is counted on to replace the valuable Sheffer. Football coach, Abe Martin will handle the team tonight and for the rest of the season. He will try to guide Southern to victory just as late head basketball coach, William McAndrew had been doing in most of the Maroon games.

### Cape Out For Blood

Cape will probably be tougher than ever on this last battle for two reasons. They are playing on their home court and they will be out to wipe-out some of the humiliation they have endured because of the three times on their record. The Indians captured top honors in the M. I. A. C. "A" division at all the conference games.

Jack Klosterman, former Centralia high school star, will probably start at one of the guard spots for the Missouri outfit. He did a great job of rebounding and "feeding the ball" in the last clash with Southern. His rebounding will probably be "Paul" Russell, Carl Howard, ratty center, will be at the pivot spot. Belvins and Halch Anderson will probably start at the guard spots. Anderson will be remembered by S.I.N.U. fans as the "foxing" red-head who continually came up with most of the loose balls in the February 2 game at Carbondale.

### Probable Lineups

**SOUTHERN**  
Selection: Moody—forward, Millsbaugh—center, Emery, Hays—guards.

**CAPE**  
Belvins, Anderson—forwards, Hoff—center, Russ-1, Klosterman—guards.

Southern will end the season with Southern Teachers of DeKalb as their foe Saturday night, February 27. This will be a conference game and probably will have an important bearing on the championship of the M. I. A. C.

The postponed game with Illinois State Normal will probably be scheduled for some night next week.

## Parkview Lodge Is 1943 Inter-Coop Ping-Pong Champ

Parkview Lodge, the "dark-horse" entry in the Inter-Cooperative Ping-Pong league for this year, turned out to be the victors in the closely-contested league for the 1943 season. Parkview over House of \$10, 71 (Coop. Courtyard Coop. and Lentz Hall) in succession to clinch the championship. In general, the champions displayed a well-balanced squad, even though some of their players were comparatively inexperienced.

Last year the winning team was House of \$88, now known as Courtview Coop.

The gold loving cup, symbol of the inter-coop championship, was turned over to Parkview Lodge by Courtview Coop.

Other co-operative houses which entered teams in the league were 701 Coop, House of \$10, Delta Coop and Lentz Hall.

For or comrade thanks for anything whatsoever to be sure a record is made of it, and to remember those individuals who can vouch for the amount and treatment.

3. When home on leave or furlough and in need of medical attention, get a statement from the nurse or doctor who attended the service, man or woman, and send copy to superior officer.

4. Be sure and take out service men's insurance.

If these four things are done, much trouble and many questions of doubt will be eliminated in years to come.

## BOXING-WRESTLING TOURNAMENT ENTRIES MUST APPLY BEFORE 25th

Anyone who wishes to enter Southern's 16th Annual Boxing and Wrestling tournament must do so before 2:00 p.m. on Friday, February 25. Entries will take place at 4:00 p.m. on February 25. The attention of the preliminary bouts and again at 4:00 p.m. on March 1. The attention and night of the finals.

A greater interest in this year's tournament should be in the air because of the need for more success, to help the Allies win this war. This is why many more names should be added to the small list of contestants named thus far.

Some men have been holding out and not wanting to enter the tournament. It is requested for you to do this because publicity interest on the entrants needs to be started as soon as possible. News of the meet should be spread to surrounding towns and counties in news entries are needed to build publicity.

These are the entries recorded so far:

**Boxing**  
135—M. J. Smith.  
135—W. J. Smith.  
145—W. J. Smith.  
145—M. J. Smith.  
165—None.  
175—D. M. Smith.

**Wrestling**  
115—G. W. B. B.  
125—None.  
135—Sacks.  
145—Blackwell Akin, Esler.  
155—Larkie.  
165—None.  
175—R. C. Cook.  
185—M. J. Smith, E. H. Twoody, Bill Malmky, last year's heavyweight boxing champion, will not compete this year. He was drafted into the army earlier this week.

## IMPORTANT NOTICE FOR THOSE HAVING RELATIVES IN THE PRESENT WAR

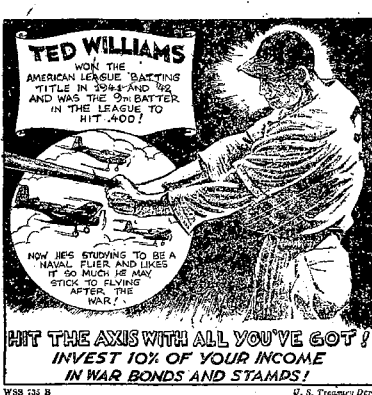

The Congress of the United States has always tried to provide help for those men and women who during times of war are injured as a result of the service in one of the armed services. That policy will be continued.

In the previous years some men and women who were entitled to be given hospitalization, compensation, pensions, etc., have not been able to qualify for the reason they did not have records of their injury or sickness. SOME OF THE FILES IN BOTH THE WAR AND NAVY DEPARTMENTS HAVE BEEN KNOWN TO BECOME LOST. With millions and millions of files it is a wonder more of them are not lost, so play it safe. Keep a file for the injury or sickness. SOME OF THE FILES IN BOTH THE WAR AND NAVY DEPARTMENTS HAVE BEEN KNOWN TO BECOME LOST.

1. Keep every letter that they send home, no matter how non-essential they might be.

2. The next time that you write, tell the person in the service to be certain that every time a nurse, doc

## SPECIAL BULLETIN REPORTER ON THE RAMPADE

By BOB EATON  
If I knew of a friend who wanted a little pen, I would entrust to him this plot which I thought up out of my own untrained, fragments-of-a-idea, and erratic mind.

I would suggest that it be entitled "Orientation Cyclopedia" or something similar. It would involve the mid-adventure "call it development" if you will) of a single character—a hero who has the misfortune to possess the general dimensions of a full American, yet sub shoulders that person's very own handling or upholstery of any sort, warts and his primary aim only on betterment and betterment.

One of the main factors which attributed to the defeat of Southern in this highly important contest was the ineffectiveness of their last break. The starting lineup for S. I. M. U. was: Sebastian, Moody, Erick, Ragdale, and Millsbaugh.

**Verdie Cox Honored**  
Verdie Cox, former student of Southern and renowned tennis and basketball player, was selected as a member of Bay Area Basketball Writers' Association all-star team, an aggregation chosen from among players participating in the Kegan Pavilion and Civic Auditorium competition. Verdie is a "Hank" Luster was the unanimous choice of the writers' association.

Verdie Cox is now a member of the Coast Guard and is stationed at Alameda, California.

## OPENING ROUND GAMES LAST THURSDAY NIGHT PRODUCED THESE RESULTS:

White Kids 17, Harwood Hall 13; Breyeville 29, Rodgers 19; Chi Delta Club 24, Danbars 17.  
Monday night, besides the Spirits' win over the Chi Delta and K. D. A.'s defeat of the White Kids, two other games were played.  
Rayeville 29, Sigma Beta Mu 32; N. E. A. 23.  
Tuesday night, semi-final games were held with the Spirits knocking out the Sigma Betas and K. D. A.'s dropping the Jerks. The Spirits' half against Sigma Beta Mu and held a 12 point margin at the half. They held that 12 point margin throughout the second half and Sigma Beta Mu tasted defeat. Edwards kept the grade with 5 baskets and 4 foul shots for 11 points. Bill Macklesky garnered 7 points for the Beta with 3 baskets and one gritty shot.

K. D. A. stepped out to a 14-6 halftime lead in their semi-final encounter with the Jerks and easily held their lead for the remainder of the game.  
Tuesday night, the Spirits' half against the Jerks with 11 points out and Heuricks led the Jerks with 9.

**Probable starting lineups for the final game will be:**  
K. D. A.: Butler and Vaughn, forwards; Wallace, center; Brown and Donnach, guards; Keefe and Edwards, forwards; McCraig, center; Crawshaw and Dillow, guards.

## SPECIAL BULLETIN

Spirits beat Kappa Beta Alpha 32-19. Edwards and Spirits is top scorer with 20 points. Harry Vaughn of K.D.A. garnered 10 points.

## GOPHERS AND MAROONS TO MATCH PROWESS AT EIGHT P.M. IN MEN'S GYM

Tomorrow night, a triangular gym meet will be held at Carbondale with the teams involve being S.I.N.U., the University of Minnesota, and the Minnesota Freshmen. The meet starts at 8:00 p.m.  
Last year, Minnesota defeated the Maroon gymnasts at Carbondale by a very close margin, 428 1/2-426. The Gophers also placed second in the Big Ten conference behind a well-balanced Illinois gym team. In a dual meet, between the Gophers and Illinois gymnasts, Illinois gained a very close decision. The Gophers are among the best three teams in the Big Ten year after year and usually gain a high national rating.

**Both Squads Depleted**  
Should the Maroon and Big Ten squads have been depleted very much and they lack the experienced talent which dominated last year's event. Minnesota intended to bring a full varsity team for tomorrow night's meet but the last two week's extremely rainy weather has depleted their varsity team. He will be made up of a full varsity representation and thus he will bring his freshman squad with him. This freshmen outfit is reportedly very strong and may capture the meet.

**Grossman to Perform For Gophers**  
Frank Grossman will be the Gopher top performer now that Berg has left for the service. Berg will be remembered by Southern fans as a standout performer in last year's dual meet when Grossman was out of school last year and therefore wasn't in the dual meet against S.I.N.U. In 1941 he won 4th place on the pikes in the National All-Around meet.

## CHARLESTON, S.I.N.U. NOW TIED FOR IAC LEAD

By HAROLD SHANAHAN  
Western Teachers' (Maroon) defeat of Eastern Teachers' (Charleston) served as a welcome omen to the conference hopes of Southern's basketball team. The Maroons' defeat dropped them into a tie with Southern for the Illinois Intercollegiate Athletic Conference lead, each with a three win two lost record. The two leaders clash Thursday night at Carbondale for a conference lead.

Northern Teachers of DeKalb, by virtue of their 57-47 verdict over Southern, are now only a half game out of first place with two wins and two losses. The Huskies were distinguished by two newcomers against S.I.U. In the process of forward Roger Irving of DeKalb and guard Gene Speck of Rockford. Speck was one of the stars on Rockford Illinois' high school state championship team of 1940.

Normal has won two games and lost three, and Western has won three and lost four. Both teams are within easy striking distance of the winners, being only one game behind.

Captain John Sebastian, diminutive forward of the Maroons, places the individual scores in conference play with 31 points in five games. He played three left to play his nearest rival is Ray Peter. Janky center from Maroon, who has scored 80 points in seven games. But the Leatherheads' conference scores in conference games remaining to catch Sebastian.

Besides the Southern-Maroon clash this week, DeKalb will try their bid for championship honors in a game with Normal Friday night and again Saturday night.

Normal has won two games and lost three, and Western has won three and lost four. Both teams are within easy striking distance of the winners, being only one game behind.

**Conference Standings**  
S I U  
Southern (Charleston) 3 2  
Eastern (DeKalb) 3 2  
Normal 2 2  
Western (Maroon) 2 4

**Leading Scores in the I.A.C.**  
Player Games T.P. P.

# Life in the WAAC

### Some questions and answers of interest to every patriotic college woman

#### The drilling sounds so strenuous!

Nonsense! The most beautiful women in America today are the girls in khaki! Some calisthenics and drilling are vital to general good health, discipline and tuned-up reflexes. After a few weeks at Fort Des Moines, Daytona Beach or the new Fort Oglethorpe training center you'll feel better than ever in your life.

#### Maybe I wouldn't like the work?

People are happiest doing what they do well. Every effort is made to place you where your service will count most toward final Victory. You may have some latent talent that will fill a particular need for work interesting and new to women—such as repairing the famous secret bomb sight, rigging parachutes, operating the fascinating new electronic devices—or driving an Army jeep over foreign terrain.

#### Then I have a chance to learn something new?

Yes, indeed. And the list of WAAC duties grows constantly. The training and experience you get in the WAAC may equip you for many stimulating new careers opening up for women.

#### What are my chances of promotion?

Excellent. The Corps is expanding rapidly and needs new officers, both commissioned and noncommissioned. Those who join now have the best chances. All new officers now come up through the ranks. If qualified, you may obtain a commission in 12 weeks after beginning basic training.

#### What is the age range and other requirements?

Very simple. You may join if you are a U. S. citizen, aged 21 to 44, inclusive, at least 5 feet tall and not over 6 feet, in good health—regardless of race, color or creed. But the Army needs you now—don't delay! Total War won't wait!

**Linguists needed.** If you speak and write Spanish, Portuguese, Chinese, Japanese, Russian, French, German or Italian, see your local Army recruiting office now. You are needed for interpreting, cryptography, communications.

#### First of all, is the WAAC really needed?

Empathically yes! Already the President has authorized the Corps to expand from 25,000 to 150,000. The Air Force and Signal Corps have asked for thousands of WAAC members to help with vital duties. Both Ground Force and Services of Supply are asking for thousands more. Members of the WAAC may be assigned to duty with the Army anywhere—some are already in Africa and England.

#### Can the WAAC really help win the war?

The whole idea of the WAAC is to replace trained soldiers needed at the front. If American women pitch in now to help our Army (as women in Britain, Russia and China do), we can hasten Victory—and peace.

#### What can my college education contribute?

College training is important equipment for many WAAC duties too long to list. Cryptography, drafting, meteorology, laboratory work, Link trainer and glider instructing, for example. If you are a senior you may enroll at once and be placed on inactive duty until the school year ends. See your WAAC faculty adviser for more details.

#### But can I live comfortably on WAAC pay?

There are few civilian jobs in which you could earn clear income, as WAAC enrolled members do, of \$50 to \$130 a month—with all equipment from your toothbrush to clothing, food, quarters, medical and dental care provided. WAAC officers earn from \$150 to \$333.33 a month.

## Women's Army Auxiliary Corps

For further information see your nearest U. S. ARMY RECRUITING AND INDUCTION STATION

### COLLEGE RADIO NEWS

#### INVITATION TO LEARNING?

There's always something to be learned, the CBS Department of Education has discovered. One of its leading programs, "Invitation to Learning," receives considerable fan mail addressed to "Imitation of Learning," and "Irritation to Learning."

"People's Platform" has recently acquired such names de radio as "People's Platform" and "Living Art" to substituting communication addressing to "Dying Art." Recently a South American student in applying for his Ph. D., said he was a graduate of Columbia network's "School of the Air of the Americas," whereupon the South American school wrote to Leon Levine, assistant CBS director of Education, to ask for the students "school credits."

#### CBS PROMOTES VICTORY GARDENS

To assist in the government's drive called to effect by the president, CBS is devoting a portion of its Saturday "Garden Gate" program to talks by the nation's agricultural leaders.

Andrew S. Wing of the National Victory Garden Institute warned people recently that in the time taken to get together and plan group gardens if they are to have an adequate supply of vegetables and fruits.

#### INTRODUCING DOUG EDWARDS

Douglas Edwards is the new voice on Columbia's "The World Today" and "Report to the Nation" replacing John Day, crack news reporter who leaves shortly to join the London News Bureau.

The 25-year-old Edwards is an Ada, Okla., product, went to Troy High school in Alabama and then attended the University of Alabama, Emory University in Atlanta and the University of Georgia Evening School.

#### WILL PAY \$2000 FOR RADIO SCRIPTS

The sponsor of "Dr. Christian," starring Jean Herscholt, has just announced the second "The Christian Award," which pays \$2000 for the best scripts submitted, suitable for the popular Wednesday night radio drama.

Other scripts also may be purchased by the sponsor for sums of from \$50 to \$350. The competition is open to both amateurs and professionals. Since the close of 1942 "Dr. Christian Award" scripts by 31 authors have been purchased for use on the program. Of these authors, 11 had never had a radio play accepted and 11 had never sold an item of work. Full details on the 1013 contest are given in a folder sent on request to interested writers who address "The Dr. Christian Award," 17 State Street, New York City. All scripts entered in the competition must be received by midnight, March 31, 1943.

### CAMPUS BULLETINS

LOST: A Green Eversharp fountain pen. Call 563K. Reward.

FTA MEETS  
There will be a meeting of the FTA Monday night at the regular time (8:00 p. m. to 9:00 p. m.) Hal Hall of University High will talk on Teacher Training. New Journals will be distributed at this meeting. All students are invited to attend and members are especially asked to be present since Miss Barber at the last meeting of the term. The place of meeting is M210.

Three girls are needed to serve as waitresses at Anthony Hall March 1. Any students interested should see Miss Barber at Anthony Hall or call 407 immediately.

### COUNCIL MINUTES

February 8, 1943.  
The meeting of the Student Council held on Feb. 8, 1943, was presided over by the president, James Clifton. Those present were James Clifton, James Wilson, Grahafe Crichton, Sarah Lou Cooper, Julius Swazya, Dean Isbell, Elaine Steinheimer, Nancy Lee Freeman, Nick Mosevich, Dora Haynes, Roy Rasmussen, Don McMillan, Dee Karner. Absent were Henry Hinkley, Helen Marberry, and Dorothy Rush.

The minutes of the previous meeting were read and approved. Nancy Freeman made the motion that the bill for \$5.50 to Bonnie Heller for cutting stools of the tables and addresses of the subscribers to the Egyptian be accepted and paid. James Wilson seconded the motion, which passed unanimously.

At the request of the Council of Administration, the Council discussed the time which they thought the students preferred for Spring Vacation. Dean Isbell moved that we recommend to the Council of Administration that, hereafter, Spring Vacation be between the Winter and Spring terms. The motion was seconded by Grahafe Crichton and passed unanimously.

It was agreed to postpone the USF dance and carnival because of the LIJ' ABER dance.

The meeting was adjourned.

ON MUSIC SERIES  
NEW CBS. FEB. 16  
A series of chamber-music concerts, presented in cooperation with the Mannes School of Music is to be broadcast over Columbia network Tuesdays beginning February 16, at 9:30 p. m. (EWT.)

The World We Want to Live In is a new film in our library.

### Brotherhood Week To Be Observed On Campus February 19-26

The week beginning Feb. 19, and ending on the 26th, has been designated as World Brotherhood week. Brotherhood week on the campus is being observed chiefly by the international banquet which is to be held Thursday evening, Feb. 25, beginning at 7 o'clock in the Little Theatre.  
Prior to this year, the international banquet has always been held on Feb. 12, but due to the establishment of a World Brotherhood week, it was believed that the banquet would have added emphasis if held during the week, Feb. 19-26.  
A prominent Negro, Mr. Carey, from Chicago, has been secured as speaker of the evening. Other features are not fully arranged as yet. Tickets for the banquet go on sale Friday, Feb. 19.  
Also, a radio program is being planned to emphasize World Brotherhood, on Wednesday at 5 o'clock. The program will consist mainly of a round-table discussion on World Brotherhood, and participating in the discussion will be representatives of the Jewish, Catholic, and Protestant faiths, the three most dominant of the campus. As a special feature, the Roland Hayes chorus will sing.
