ROLLO WALTER BROWN TO BE ON CAMPUS FEBRUARY 29th

Mr. Rollo Walter Brown will be on the campus Tuesday, February 29th, to address the student body at the weekly assembly. His topic for the address will be "A World We Can Create." Mr. Brown's talk for the special appeal in that he is a clear and lively speaker, more interested in getting across his message than in impressing them to his own point of view. He has been called the most individual of American individualists. This he says, is because he simply insists on being human, and believes that every other human being in like manner ought to have opportunity to be as much of himself as possible.

LITTLE GALLERY DISPLAYS "WHAT IS GOOD DESIGN"

By PAT SCHULTZ
February 22nd opened an exhibition of useful household objects under the title "What is Good Design," in the Little Art Gallery on second floor of Main Building. The show was assembled by the Art Council of the National Museum of Modern Art. The exhibition arrived early and was displayed before a large crowd of people from 9:00 a. m. until 5:00 p. m. Monday through Friday. If the groups are interested in continuing out on Saturday or Sunday, they may contact Mr. Barnett Shryock by mail and telephone arrangements to have someone in attendance.

The design of useful objects is a blending of several elements: the principle concerned in their design are: Function: What is the object for? Material: What is the object made of? Technique: How is it made? The appearance of the finished object will be affected by each of these elements, and the designer is employed to make the best of each. The appearance of the finished object will be affected by each of these elements, and the designer is employed to make the best of each. The appearance of the finished object will be affected by each of these elements, and the designer is employed to make the best of each.

Among the objects in the first group, FUNCTION, are such as a hand saw, a hammer, knives, shears and a selection of other tools. The design of these objects is a blend of form and function. The following girls were chosen for the part: Betty Meyer, Nancy Kester, Neola Peterson, Jeanne Krohn, Betty Burpo, Frances Benson, Doreen Blom, Dorothy Ruth, Martha Moe, Barbara, Phyllis McGarry, Jeanette Langsdorf and Ellen Schaefer.

S.H.S. BOARD EDITS JOURNAL

The Southern Illinois Historical Society published the first issue of the Journal last week, and copies of it were mailed to members of that organization.

Mr. John L. Wright, who is all associated with the Department of History, made the board that edits the Journal. For more than four years the Historical Society has sent to its members a mimeographed bulletin, but now the Journal will appear in printed form four times each year.

Each issue will contain news of the society, its members, and activities; it will present one research article in each number.

DR. J. W. HARRIS CO-AUTHOR OF ENGLISH HANDBOOK

The Oxford University Press of New York and London has announced the publication of a new book, "A Handbook of English," co-authored by Dr. J. W. Harris and Dr. J. W. Harris.

The new Oxford book, which was started about two years ago when the three teachers were busy with the publishing of "College Students Have Me!", is a leading professional work in the field of English teaching.

RED CROSS DRIVE IS OFFICIALLY OPENED THIS WEEK ON THE CAMPUS

The American Red Cross Drive which began here on Southern February 21, is well under way. Pi Kappa Sigma was the first of the organized groups to contribute their quota of \$50. Other pledges are coming in every day, and solicitors are approaching students, not in organized groups, this week and next to solicit personal contributions. Remittance to your dollar in hand when a solicitor knocks at your door and wear the tag given you when you contribute your dollar. It is known that you are supporting the Red Cross.

I AM PRIVATE ENTERPRISE

This is the title of a pamphlet put out by the National Industrial Information Committee, mouthpiece for N.A.A. It was first published, and incidentally, logical in its presentation of big business' attitude toward freedom of enterprise that we quote it here (with our own comment) for the reading pleasure and amusement of Southern. The pamphlet was written by Florian B. Decas, an N.I.I.C. member.

I am the spirit of Private Enterprise.

Wherever I have existed, freedom of mind and body have existed.

(Wherever I have existed, out-throat competition and freedom to starve have existed)

Wherever I have been murdered by collective laws and government strangulation freedom of mind and freedom of body have existed.

(Wherever I have been murdered by the collective laws and government strangulation freedom of mind and freedom of body have existed.)

(Wherever I have been murdered by the collective laws and government strangulation freedom of mind and freedom of body have existed.)

(Wherever I have been murdered by the collective laws and government strangulation freedom of mind and freedom of body have existed.)

VOICE OF S. I. N. O.

Dear Editor—

I am ever your employee, thank you. I have just received your issue which was Southern, too. I am glad to hear of your growth. I have never seen you before, but I am sure you are a fine one. I am sure you are a fine one. I am sure you are a fine one.

I am sure you are a fine one. I am sure you are a fine one. I am sure you are a fine one. I am sure you are a fine one.

I am sure you are a fine one. I am sure you are a fine one. I am sure you are a fine one. I am sure you are a fine one.

I am sure you are a fine one. I am sure you are a fine one. I am sure you are a fine one. I am sure you are a fine one.

JAPANESE POWER

As for the suggestion that they march single file—

I believe it would be better for all concerned if you got together and work out some such thing as an anti-race law. After those are set out, we can talk about our own little affairs again.

DO YOU BELIEVE IN BROTHERHOOD

This is National Brotherhood Week. As a student, a future citizen, a Christian, a lover of true democracy, how much does the word BROTHERHOOD mean to you?

Striking the keynote of the Christian principle, Dr. Douglas Lawson presented a stimulating address on THE FUTURE OF BROTHERHOOD at the annual banquet held last night. The salient points of the address, which could serve to guide you in your own individual thinking on the problem, are: There is only one race: THE HUMAN RACE. Man sprang from one cradle of civilization, hence there is only one species of human beings. Through all ages and of whatever race, man responded to the same impulses: desire for recognition, the same gamut of emotions, self expression, whether good or bad, and has lived to make ultimate the goal of HUMAN HAPPINESS. There will be no happiness for man unless he looks beyond his own selfish interests.

There are three possible solutions to the race problem," said Dr. Lawson. "First, majority rule, subjecting the minority group; second, continue in a semi-democratic state; or, third, improve democracy through a long process of education given equally without discrimination."

In conclusion Dr. Lawson stated that America needs more God-fearing people to bring about the democratic process. The solution lies in education, in the same gamut of universal education, then, we can work out our mutual problems.

As students this is your problem. What can you do? First, examine your beliefs, bring them to light, analyze them, and if you are a true believer in democracy and the principle of brotherhood, then, the next step is to apply those beliefs. This is your philosophy:

We have tomorrow bright before us like a flame. Yesterday night-gone thing, a sun-down name. And down today, broad arch above the road we roam. We march.

—Langston Hughes.

DARK MUSINGS

NO ONE loves America and all doing their best to make things look like it stands for more than a life. Now the soldiers were so much as the Negroes do. However, their only criticism made was on their morale. There have been no hard work—work that makes it possible to have new roads, new houses, food, and clothing. It is not on the front but in the shops, factories, in the different plants of business, some doing large tasks and others doing small tasks but doing the same thing. Take the laborers that are found at work when new machinery is being introduced. Who does the mixing, the concrete, the operation of the machine? The applying of the mixture to the forming a smooth layer of material to be laid and walking easier for all of the people who pass that way? There may be a few men in the group, but in a few cases only. The majority of the faces seen will be those of Negroes, that is accepted and made into the work of the nation. They are able to do their part to make this a better place to live in the future. In our own time we find Negroes as janitors. They do their jobs and do them well. They are not doing their best to help to promote good. Although the work is not easy at all times, they do it without complaint. They know that that one can do it better than they can. It is their part to help to make this a better place to live in.

In spite of the segregation and lack of equality shown to Negroes, they are trying to do the best of business as successful as possible. They know that unless they do their best they will lose the business firms which will become lower and this will force the managers to get goods of cheaper quality. They know that they are doing good stores, movies, and the cafes as well. If quantity overrules quality, Negroes will be able to have the situation reversed.

Take all of these things into consideration, it is plain as can be seen that the Negroes are the ones who have the right idea of love for their country, they are the ones who have the rights of a democratic country.

IN THIS CORNER

By PAT BARFIELD

That peculiar snore snuffing that sounds like midnight oil burning hectic days have become almost always during this time of a term, the entire campus has begun to hum with the somewhat unfamiliar sound of snoring during the night hours.

The newly arrived spring weather is almost unnoticed — it's only something through which our hearts from class to the library to the next one who is coffee or coke "pleckup" can be had.

Over the coffee, strained faces, "Listen I gotta write a term paper, read two government books, and finish a notebook all TOMORROW!"

"Listen I gotta write a term paper, read two government books, and finish a notebook all TOMORROW!"

"Listen I gotta write a term paper, read two government books, and finish a notebook all TOMORROW!"

THE DEFENSE AGAINST A BAD IDEA IS A BETTER IDEA; THE DEFENSE AGAINST A HALF TRUTH IS A TRUTH; THE DEFENSE AGAINST PROPAGANDA IS EDUCATION; AND IT IS IN EDUCATION THAT DEMOCRATS MUST PLACE THEIR TRUST.

—William F. Russell.

DOLLAR PATRIOTS TURN ALTRUISTISTS

"The American Legion can no longer be called dollar patriots," said William Macaulay of Olney, Illinois during his speech at Shryock Auditorium outlining the "Bill of Rights for World War II veterans." In an entirely altruistic program, the Legion is attempting to "do something for the kids in this war."

For two and a half years, the American Legion has asked for an executive order getting up a Veterans administration but to no avail. They are now asking Congress to do what an executive order did not do.

The "Bill of Rights" is being sponsored by eight Senators (four Republicans and four Democrats) and by John Rankin and Edith Rodgers in the House. The bill provides the following:

- 1. Adequate hospitalization (Note: The American Medical Association and other reactionary groups among them the Illinois State Medical Society is attempting to scuttle the Wagner-Dingell-Murray Social Security bill which would provide not only hospitalization for returning veterans but also for their dependents.)
 - 2. Unemployment compensation (also provided for in the Wagner-Dingell-Murray Social Security bill.)
 - 3. Vocational training. (Provided for by the Thomas bill which contains essentially all the provisions the President asked for in October.)
 - 4. Opportunity to complete education (provided for in Thomas bill.)
 - 5. Mustering out pay. (The Federal government has just passed a Mustering out pay bill and it is now in operation.)
 - 6. Loan money at reasonable rate of interest for farms and homes.
 - 7. Favorite employment. (Note: The Legion did not state any plan of employment, how it was to be provided, whether through private channels or through a public works program.)
- Essentially this is a fine bill. However, the question arises as to who shall administer this gigantic program. It is to be placed under the supervision of a Veterans Administration which would be run by the American Legion? Or would the program be broken down and administered by the agencies of government best qualified to handle them?
- Mr. Macaulay reiterated again and again that it is the obligation of the Federal government to provide these needs, which is very true. We wonder, however, if it is the duty of the Federal government to provide hospitalization, education, mustering out pay, employment, unemployment compensation, then is it not true that the Federal government should also be responsible for setting up a Federal ballot enabling the soldiers to vote. It must be remembered that the American Legion, who is doing so much for the "kids" in this war, has failed to make a stand for a Federal Soldier Vote Bill. Their absence has been conspicuous.

MISSIONARY NAME

Along with their other pastur plots, the National Association of Manufacturers have devised a blue-print whereby the Hottentots can now have a gallon of milk instead of a proposed quart.

If a Hottentot will exert himself and collect a few more coconuts than he normally does, he can sell them for a farm. With this plan he can scratch the soil and cultivate a plow. With the proceeds from the farm he can buy a cow. Then he can strip old Bossy of her health giving milk twice a day and get his own gallon of milk, and perhaps even more than he can sell to less enterprising Hottentots.

The whole program is designed to instill in the Hottentot cur "religion" of profits. You may think that the job of collecting a few more coconuts would ruin the Hottentot's taste for milk. On the contrary, the Hottentot need not worry about that, because private enterprise can make plows in such quantities that even Hottentots can buy them.

Indeed the prospect for the Hottentots looks bright, that is, if the N. A. M. can send their missionaries into the deep heart of Africa and get enough converts.

DAVID MCINTOSH TO GIVE VOICE TO RECTAL TODAY AT INDIANA STATE

A former convict, David McIntosh, A. M. of Carletonville, a member of the V-12 Navy unit at Indiana State, will present tonight a play entitled "The Slave Ship" at the Indiana State Auditorium in Terre Haute, Indiana. He has had a long and hard life. He has been in prison for 10 years and has had to suffer a great deal of physical and mental suffering. He is now a member of the V-12 Navy unit at Indiana State and is studying for a degree in Business Administration. He is also a member of the Student Body and College Symphony orchestra, playing the violin.

Mrs. Ernestine Cox, student from West Point, will accompany him. The program is being presented by the Student Body. The play is a drama about the slave trade and is a powerful statement against slavery.

Dear Editor—

Many complaints concerning the play of the Student Body. Although here in Southern have reached my ears during the few months I have attended 312121.

Some of these complaints were justifiable, but many were with only logical basis. In my opinion, the play was well done.

Now comes the criticism that I quit. When I have some my sense to rolling down to Rio-German. Sen. Fever—Andrews, Satter, Logan, Wiggins, Green and Dragon—Noman. Green of the Open—LaPorte.
