Every year the University of Illinois awards one scholarship to each of the recognized colleges in Illinois. This year's award to the college is presented to Miss Patricia Stahlheber, a senior from Belleville.

The cash award is not announced until April 1st, but Miss Stahlheber is eligible to be a candidate for the award.

Since she has been a student at Southern, Miss Stahlheber has been majoring in French, with double minors in Spanish and English. She is also a member of the Victory Corps, president of the Future Teachers of America, secretary of Sigma Tau Delta, and a member of the Girls' Rally.

Maxine McCaw

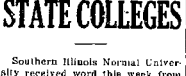

Eight Methodist students from Southern will attend the Illinois Methodist Student Movement Conference which is being held at the St. Paul Methodist church in Chicago, Ill., on February 23, 24 and 25. The theme of the Illinois Methodist Student Movement Conference will be "The Christian Way." What is it? Why follow it? What can I do now? What are the resources? These questions will be discussed at the conference.

The Illinois Methodist students will also be attending a service by campus program. It is being proposed at the Methodist Student and Southern, Rev. John McCaw, at Southern, that Carbondale may have the honor to entertain the Illinois Methodist Student Movement Conference in the not too distant future.

PROPOSED BUT RESTORED TO STATE COLLEGES

Maxine McCaw

Southern Illinois Normal University received word this week from Dr. Chester P. Lay, president of the college, to the effect that the State Budgetary Commission has restored the proposed \$300,000 slash in the budget for the five state teachers' colleges and normal universities for the forthcoming biennium. The budget for the five state schools will not be cut, and will be the same as that previously approved by the State Teachers' College Board. Included therein is \$1,800,000 in additional financing against the general revenue fund, for Southern Illinois Normal University in the 1945-46 biennium.

President Lay, upon receiving this news, immediately called a meeting of the faculty on February 21, 22 and 23. He was very glad to hear of the restoration of the budget for the five state schools, and that this would be a great relief to the state teachers' colleges and normal universities for the forthcoming biennium. Reverend John E. McCaw, of the Student Christian Foundation, presided at the annual S.I.N.U. Brotherhood banquet.

Brotherhood banquet Wednesday night in the college cafeteria, was the first of the series of events for Brotherhood Week. The text of the speech dealt with how easy it is to feel inter-racial brotherhood just one week out of the year, how hard it is to practice being a real person all the time.

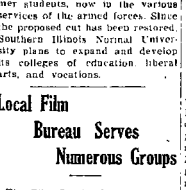

Miss Virgie Hershberger, president of the Dunbar Society, presided at the banquet, during the evening for approximately 75 guests.

Dr. Charles P. Lay, accompanied by Mrs. David McCaw, and Dr. John E. McCaw, were in charge of the banquet. They were accompanied at intervals through the evening.

ANNOUNCEMENT BY PRESIDENT LAY CONCERNING PHYSICAL EDUCATION

"To help build a sound mind and a sound body" for all our students is an important ideal and goal on which the faculty can agree, including the staff in men and women physical education classes. The faculty and the community are approaching a decision which requires some time. It is our intention to make full use of the facilities of all staff members in the physical education field.

Mr. Allen at Carbondale has been assigned the responsibilities of director of intercollegiate athletics. It is only the natural recognition of Southern Illinois Normal University for his outstanding record this year in both football and basketball. The National Interscholastic basketball tournament at Kansas City next month will have direct participation of the Illinois Normal University's team as the chosen representative of all the Illinois intercollegiate Athletic Conference. He desires and will continue to receive the full and enthusiastic support of all Southern Illinois Normal University in connection with Physical Education as well as that of the staff.

Mr. Martin's duties, responsibilities, and title are limited at the present time to the direction of intercollegiate athletics. Because of his spring and fall seasons are approaching and because all educators anticipate the greatly increased scope of activities within the field of Physical Education as the war ends, we are now making plans for new and added responsibilities to maximize use of Coach Leland F. Long's highly talented executive ability, and reserves. Any announcements on such matters must come later.

HOME FRONT FASCISM

"Millions of Gentiles Banded Together to Preserve the Gentle Way of Life" this was the caption at the bottom of a sheet of stationery sent out by the Gentle Cooperative Association to businessmen throughout the United States.

Investigating, the Egyptian found that the Gentle Cooperative Association was organized in January, 1944, and according to the managing director, Eugene Flinterfrat, "Just grew, like Topsy."

An inspection of the official paper of the organization, Gentle News, clarified some of the aims of this ultra-nationalistic organization. On page 5 of the March, 1944, issue, the principles, aims and purposes of the association are listed. They are in part as follows:

- 1. I believe I am a Real American, and as such, will do all in my power as a Gentle-American to win the war first on the home front or in the service.
2. I believe all GENTILE interests may best be served with a GENTILE peace after victory is won by the United Nations.
3. I believe my GENTILE interests will best be served by my boosting my worthy, fellow GENTILE, and by patronizing GENTILE Business Establishments.
4. I believe, as a good GENTILE, that I should first offer my business or interest in a business to a GENTILE when I desire to sell or assure GENTILE ownership and all its advantages to me and my fellow GENTILES.

A skillful bit of propagandizing is handled on the front page by means of circles showing an estimated 90% Gentile population who own or control only 40% of the business in the United States. This was corroborated in an editorial in the June, 1944, issue of Gentle News which stated, "What, they ask (that is, the Gentiles) should another group which represents only about 10% of the population reach out like an octopus for more and more of the country's business?"

In a pamphlet entitled "Jews in America" the editors of Fortune magazine undertook an impartial survey of the charge that Jews own America. They found that Jews do not dominate the American scene. There is no basis whatever for the suggestion that the Jews monopolize United States business and industry.

The association has not been without legal troubles, as evidenced by the fact that an attempt was made by the State of Illinois to revoke the charter of the association. In what appears as a back-to-the-wall defense, the Gentle News called the Assistant Attorney General of Illinois, Albert J. Meserov, a Jew, being the worse name they could think of, since he charged that the organization is subversive and un-American.

Not stopping with merely attacking Jews, the Gentle News and its publisher have attacked what they call "Dangerous Gentiles". In the December, 1944, issue of Gentle News, Dr. Preston Bradley, famed liberal clergyman, member of the Teachers' College Board, and chairman of the Chicago Council Against Racial and Religious Discrimination was listed as a "dangerous Gentile".

This incongruous situation exists, while smearing the Jews and other broadminded Americans, the Gentle News has the intestinal fortitude to print editorially (January 1945): "As all Gentile News readers know the Gentle News does not and will not attack the Jews or any other group, race or religion." To point out how closely they adhere to this policy, the mass sedition trail of certain fascists which has been in session for several months in Washington, is called "persecution of the Gentiles by Jews."

- 1. Stamp out Anti-Semitism.
2. Stamp out Anti-Semites.
3. Preserve the GENTILE business enterprise of the nation.
4. Glorify the GENTILE, in business, politics, etc.
5. Correct the economic picture so that GENTILES control business enterprises.

The Gentle Cooperative Association is one of many un-American organizations still existing which foment intolerance and hatred. It is undemocratic and smacks of Hitler techniques used against the Jews. Such injudicious propaganda perverts and distorts the minds of those who do not understand or have not looked deeply into the minority problems of the United States. Such literature leads to closed minds. It is anathema to freedom, for when hatred is based on misconceptions the person possessing such a prejudice cannot be free, for his thoughts are colored, distorted and unjust, and unChristian.

It is important to students at Southern to know that such subversive organizations do exist and are attempting to pollute the minds of Americans; it is also important to know that there are others who are fighting to correct the poisoned thoughts and who seek for equality for all mankind whether he be Negro, Jewish, Indian, English, American, Russian, French, etc. Such men are fighting fascism on the home front while our servicemen die to wipe out this fanatic ideology on other fronts.

VOICE OF S.N.U.I.

Dear Editor: I have been having many doubts about the camp that there will be no Spring vacation due to transportation difficulties and competition. In the first place most of the students will go home anyway, and in the second place after such a harassing term, most students will be ready for a well-earned vacation. I cast my vote for the previously scheduled Spring vacation. A. H.

Dear Editor: I am of the opinion that the students of this school take the things too much for granted, and spend their time complaining about what they would like to have, instead of doing it. We have a good example when we do have a school function such as the all-school party Friday night, we go, have a good time, and then we complain about it. Instead of praising those responsible for it, I'd like to express my appreciation here and now for the good time we had. I think that if other students who were there would stop to consider, they would echo my sentiments. I am, of course, hoping for more of such entertaining school times. Sincerely, ED JENSON.

Dear Editor: Are we or are we not going to have a spring vacation? I've heard rumors to both effects. The least they could do is let us know.

Most of the students have already made plans for that well-earned week. A large number of them have made arrangements to work that week. You must remember that that extra week's salary means a new Easter outfit or a vacation later on would be swell, but everyone has planned to have the usual time.

Just what is the idea behind the business, anyway? If it is to help from crowding transportation, that is the reason for all. Practically all of the students at Southern are local ones. Anyway, practically all of the big universities have having their usual vacations. Why can't we have ours? A STUDENT.

Dear Editor: I would really like to voice my opinion in print, but I have been encouraged to do so in the past week by the apparent success of them have made arrangements to work that week. I was sent to our state representative at Springfield concerning the cut in the teachers' college pay, and against the vacation. I was sent home concerning additional funds for the coming week. Therefore, it is my humble opinion that the cut in the teachers' college pay is a bad idea, and I am sure that there are various arguments both for and against the vacation, and it seems that the most widely voiced argument for the cut is that of congested traffic and limited parking facilities. This, I am sure, can be easily eroded. Most students intend to go home one of those week-ends anyway, and many will not take the vacation. Therefore the cutting out of the vacation will not only not help the burden on transportation, it may even increase it.

Sincerely, ONE OF MANY

(Editor's note: The following is a plea for spring vacation.) Dear Editor: I am a young man, fancy lightly turn to thoughts of woo. Women's thoughts stray that way. Give us a week-one week we give. While one heart is young and gay.

Later when we grow much older, We'll think of those little things. But now this spring—we're hungry. Give us this week so we might play. N. R.

Dear Editor: Never having much to say, I have in the past hesitated to voice my beliefs about anything happening in the world. But for the first time I want to put in my two cents worth on the matter concerning a spring vacation. No doubt you will have heard that the school is having a matter of transportation and that most of the students will be going home at least one or maybe two on the week-end anyhow. My argument or statement in believing that we should continue having the spring vacation is that the one who has the most to lose are the students and we here in the student body as well as myself a classmate to work and offset the expense of reentering for the third term. If we had a week's vacation we could work any vacation, many of our students would be tired hard to "fringe up" that \$13.75. But with a week's vacation we could work and then when the third term begins we would not be out so much expenses with no extra income. Good for thought. "DOUGHLESS."

"VALLEY OF DECISION"

BUT IT ISN'T SO

Fallacies of Prejudice on Race and Religion BY JAMES M. YARD (Reprinted from International Journal of Religious Education)

Table with 2 columns: 'They Say' and 'But the Facts Are'. Under 'They Say' is 'Jews control nearly all the newspapers in the country and have too much influence on public opinion.' Under 'But the Facts Are' is 'The great newspaper chains... are all owned and controlled by non-Jews. Quite as important, the great news distributing agencies... are owned by non-Jews. The only Jewish-owned newspaper of any importance is the New York Times.'

Washington is full of Jews who are trying to run the government. A survey shows that of the governmental employees in Washington only 4 percent (about the average for the country as a whole) are Jews. Many of these, however, are lawyers and are concentrated in bureaus frequented by business men. They serve in subordinate positions and have no more influence on governmental policies than other minor employees. The only Jews in the government who have real power are Treasurer Morgenthau and Justice Brandeis.

Jews control the movies and the entertainment business; that is why so many show are anti-Semitic in character. In the beginning of the movie industry when no expected the movies to amount to much, and few cared to invest any money in them, they were run by non-Jews. At present the movie industry is owned by the great Wall Street banks, most of which are non-Jewish. Many of the most talented actors and producers are Jewish. There is an evidence that they are less religious than non-Jewish theatre people.

Jews are discreditable as neighbors; they take advantage of Jews who cheat in business are noisy and greedy. Some Americans find themselves discreditable because their customs are strange. In this sense some Jews are discreditable to people who cannot tolerate differences. Many friendly people have found Jews to be the best of neighbors. Some Jews cheat in business, but so do some Christians. No many of the men who go to prison for working habits or indulging in foolishness are Jews. Some Jews are aggressive. Modern psychologists know that aggressiveness is the usual reaction to frustration. Jews by countries have been oppressed and persecuted. The natural reaction to oppression is aggressiveness. When the frustration is removed, aggressiveness subsides.

The actual persecution was carried out by the Roman government. Some Jews were hostile to Jesus. On the other hand, all his followers at the time of his crucifixion and for a long time thereafter were Jews. The early church was completely Jewish. The New Testament was written by Jews. The say that "The Jews" killed Jesus is untrue and untrue. Furthermore, to brand present-day Jews (two thousand years after the event as "Christ killers" makes no sense. "Spiritually we are all Semites," is probably true. Our roots are in the Old Testament and the Synagogue. Anti-Semitism in the modern world turns out in the end to be Anti-Christian.

The great fortunes of America are in the hands of non-Jews; Rockefeller, Mellon, DuPont, Morgan, Ford and many others. There are comparatively few Jews in the upper brackets. A few Jews own considerable wealth. The vast majority of Jews belong to the middle class or the poor.

Dear Editor: I believe that it is only fair to give a week's vacation to the students of Southern. We need it. Many of the students are now going to school twelve months a year and never get a vacation except during the Christmas season. Many of the students are now going to school twelve months a year and never get a vacation except during the Christmas season. Many of the students are now going to school twelve months a year and never get a vacation except during the Christmas season. I am a tired, overworked man. I am a tired, overworked man. I am a tired, overworked man.

Dear Editor: Perhaps now that students have experienced writing to their representatives and senators with the degree of success as was evidenced by the fact the \$300,000 slash was not made, they will be encouraged to voice their protests against our measures. As one faculty county sponsor said last Thursday, it is only when we fight that we get anything, and we here in the southern Illinois area have organized to fight for or against few important issues. Perhaps there will be the incentive for more and bigger battles! E.D.

REAPPORTIONING NEEDED IN ILLINOIS

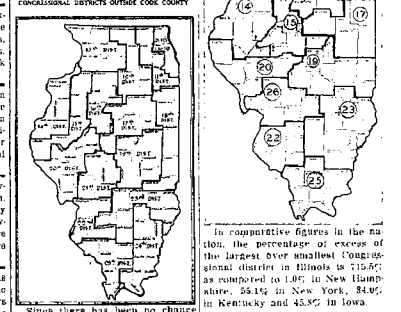

The revival of the reapportioning issue in present session of the State Legislature has once again become a live problem provoking comment and controversy from downstate representatives and upstate newspapers. The impending fight interestingly enough cuts across party lines and for once the Chicago Tribune is found opposing the proposals of Governor Dwight H. Green which are called "radical" and "dangerous."

The need for re-mapping of Illinois is due to the fact that more than half of the residents of Illinois live in the Chicago area, but the present reapportionment gives downstate Illinois control of the general assembly. A reapportionment of Illinois would reverse this picture. Under the new proposals, Chicago would be given more assembly votes because of population factor, while downstate representation would be cut down. Every previous attempt to break the hold that so-called rural or downstate Illinois has on the general assembly has failed.

In an effort to acquaint the students at Southern with the factual information regarding the problem of reapportionment in Illinois, a brief summary of the study made by the Research Department of the Illinois Legislative Council follows: (Note: This report was prepared in part by Willis G. Swartz, Head of the Government Department at Southern, who served on the Council's research staff during the summer of 1944, and also by Dr. Orville Alexander, on leave-of-absence and serving as Assistant Director in the Research Department of the Illinois Legislative Council.)

Congressional Redistricting in Illinois The last division of the State of Illinois into Congressional districts was made in 1801. At that time the state was entitled to 25 Congressmen. Under the reapportionment act of 1911 Illinois was entitled to 27 members, and since no new division was made by the General Assembly, the two additional Congressmen were elected at large. The state continued to elect two Congressmen from the state at large until the Congressional reapportionment following the 1930 census, when the number of Illinois Congressmen was reduced from 27 to 26, thus leaving one Congressman at large and the other 25 to be elected from the districts established in 1911.

The suggested proposal for re-mapping would give Cook county 13 districts instead of the present 16. There are other plans for division of district being considered. The basis of the population they are entitled to 14 of the 26 Congressmen. In Cook and Lake counties one Congressman is elected for every 418,444 persons, while in downstate counties one Congressman is elected for every 247,250 persons.

Since there has been no change in boundaries in Congressional districts for 44 years, there is naturally a great variation in the population of these districts. As a result of the fact Cook county is under-represented in the House of Representatives, Cook and Lake counties have 55% of the population but have only 16 of the 26.

Senatorial Redistricting in Illinois The State of Illinois was divided according to the Constitution written in 1870 into 51 Senatorial districts, which territory is continued and compact, bounded by county lines. A provision was made that should have only 16 of the 26.

SOUTHERN HEADED FOR IAC HONORS

MAROONS HAVE TOUGH WEEKEND IN STORE; PLAY EASTERN TONIGHT; DEKALB TOMORROW

SOUTHERN IS ONLY UNDEFEATED CAGE TEAM IN THEIR LEAGUE

By CLETIS HISE
Egyptian Sports Editor

Nineteen-forty-five Intercollegiate Athletic Conference honors will be determined this week-end when the Southern Maroons play their last two league games at Eastern Friday night and at DeKalb Saturday night.

Southern, now leading the conference with six wins and no losses, and undefeated in state competition, will meet a strong Charleston team, which they defeated 43-31 in an earlier engagement, tonight.

Important Game Tomorrow
The final outcome of this game, while important as far as a win and loss record is concerned, will not be the deciding game of the conference. Should Southern lose this one they would still have as good a record as the Northern Hawks of DeKalb.

It will be the game with Northern tomorrow night which will tell the final story. Should the locals win both games the record would be the first time in several years that any team has won the conference with an undefeated record. Southern defeated Northern 43-30, in the first round of play.

Sheffer Back in Line-up
Martin will have the services of Don Ray Sheffer, Ziegler, early season high score man, back in the lineup this weekend. Sheffer, who has played less than five minutes in the last six games, suffered a recurrence of an old knee injury earlier this season. Although Sheffer is not on hand for both games, it is only logical that Martin will probably have him until tomorrow night's game, unless he absolutely has to pit him against Eastern.

Probable Starting Five
The probable starting lineup for Southern tonight will be Don Ray Sheffer and Don Harmon as guards, Sam Milosevich as center and Earl Robert and LeVino Cullum as forwards. The night's starting five will probably be the same with the exception of Sheffer, who will take Robert's place.

I.A.C. Standings	W.	L.	Pct.
Southern	6	0	1.000
Northern	1	5	.837
Eastern	2	5	.286
Old Normal	3	5	.286

SINU WHIPS MACOMB 65-41 LAST SATURDAY IN FINAL HOME TILT

Southern retained its lead in the Illinois Intercollegiate Athletic Conference basketball race last Saturday night when they registered a 65-41 victory over Western of Macomb in the local's last home game of the season.

The first 30 minutes of the game was anybody's ball game, as Bob Jains of Western scored 12 points to keep his team neck-to-neck with the Maroons. During the last five minutes of the initial half, however, the locals found the basket and began rapping up a lead which gave them a 27-11 point halftime lead.

Sam Milosevich and LeVino Cullum of Southern really began to put in the opening minutes of the second half and the locals were soon far ahead of Western.

It was in this last period that Cullum racked up 21 points to lead both teams in scoring. Milosevich compiled 15 points for the Maroons.

APPOINTMENT ANNOUNCED BY NORMAL BOARD MONDAY

The appointment of head basketball and football coach Glenn "Abe" Martin to the position of Director of Athletics, which has been vacant since the death of Brigadier General William McAndrew three years ago, was confirmed this week by the Illinois State Normal School Board during its Springfield meeting Monday.

Martin, an outstanding figure in Illinois college athletic circles, came to Southern in the fall of 1932 as assistant football coach. The following year he became head football coach and took over the basketball squad at the death of McAndrew.

While a student here at Southern, Martin was active in athletics and upon his graduation in 1932 played professional football with the Chicago Cardinals for one year.

Before coming to this campus, Martin distinguished himself as an outstanding state prep coach. In his five years as a high school coach, he took five cage teams to the sectional tournaments. In 1932 he returned to his home town of Fairfield, Illinois, to take over the position of basketball and football coach. This year he started his own Fairfield cage team to its first sectional tourney.

In 1937 "Abe" moved to Pontiac, Illinois, to head another team in the sectional and the following year repeated his record with the Princeton, Illinois team. This team was one of the state's outstanding teams and was defeated by Streator in the sectional.

In his years of coaching he has coached many outstanding players, many of whom have made their mark in college athletics.

Martin has also compiled an enviable record while cage coach at Southern. Last year the Maroons overcame all kinds of handicaps and finished second in the Illinois Intercollegiate Athletic Conference race. Because of this achievement Fred Young, Sports Editor of the Bloomington Pantagraph called Martin "the coach of the year."

Martin's work in football has also been very commendable. While in high school he played on Fairfield's first undefeated grid team in 1925. In 1925 Martin coached football team at Fairfield which was the only undefeated and untied high school team in Illinois in the year. He also established fine venues in the other high schools in which he coached.

Among the past seasons his college football team was one of the Midwest's best. It was defeated by Northern of DeKalb 14-12 in the championship game of the I.A.C.

Martin's new duties will not be new to him as he has previously served as Athletic Director in the high schools in which he has coached.
