ISN'T IT A SHAME! Isn't it a shame that only one of the above five lovely candidates can succeed Sherry Craig as ROTC Queen this Saturday. Above are the five finalists in the contest for the right to become 1957 ROTC Queen. They are: Back row, Joan Arensmann, Marie Hohlfeld, Carol Chambers, and front row, Janet Ozburn and Mary Jane Chaney.

Election Of Military Ball Queen Scheduled Today

By Warren Talley

Instead of the usual Tuesday "dave night," and "to the red march," routine, Southern's AF-ROTC cadets will today participate in a more pleasant type of "drill period."

The entire wing of cadets will congregate in Shryock Auditorium at 10 a. m. to select the new queen of the Military Ball. The new queen will reign over all AF-ROTC activities for the coming school year, replacing the retiring beauty, Miss Sherry Craig of Five Remain.

This year's royalty will emerge from the final five of the original 16 candidates. The final five are: Janet Ozburn, Du Queen junior; Marie Hohlfeld, Brookport sophomore; Carol Chambers, Morton sophomore; JoAnn Arensmann, Metropolitan junior; and Mary Jane Chaney, Carbondale junior.

Although the voting will be concluded this morning, the identity of the new queen will not be revealed until the night of the evening.

A program of entertainment has been planned for this morning's meeting, presented by Southern's AF-ROTC Singing Squadron and the Arnold Air Society.

Dance Profit To Go Into Loan Fund

Extra funds for girls could be a means for girls to obtain show fare, or it might prove to be helpful on a program that spring dress that they have been talking so much about. The money will become available to the students of Woody Hall.

Proceeds from the dance, that Woody Hall will give after the SIU - Western Illinois basketball game February 23, will be used to set up a special petty cash loan for the girls at Woody, according to Miss J. Brackendridge.

The loan fund will be set up through the Student Loan director, Dr. Erwin Stasch. He will issue the money to Woody Hall students on the same basis as the regular SIU student petty cash loans are issued.

There will be a 40 cent charge for couples and 25 cents admission for tags.

The course is intended to give a great deal of practical work for the state institutions in this area. Joy thinks that the present set up is one of the best in the country and that a student who finishes the two-year course will have a wealth of knowledge in dental technology.

Ellington to Play

Music for the annual Military Ball will be presented by Duke Ellington and his orchestra. The Duke will also present an all-school concert before the stately formal dance.

The orchestra of renowned jazz pianist Duke Ellington recently played for the annual ball of the Williams Straton of Illinois. The colorful entertainer is a veteran of many European tours and has made discs for many of the major recording companies.

Ellington played a command performance for the members of Eisenhower and his cabinet at the White House Correspondent Dinner.

Advance tickets for the concert and Ball may still be purchased by mail or from any member of the Angel Flight or Arnold Air Society. Advance tickets for the Ball are \$3 per couple, with the discount costing \$3.25 per couple the night of the dance.

Advance tickets are \$1.25 per person for the concert, and \$1.50 for each individual for the Ball. Tickets may be purchased by mail from AF-ROTC, detachment 205, Military Ball Ticket Sales, SIU, Carbondale, Ill.

VTI Gets Better Dental Program

V.T.I. has an improved laboratory and a new instructor of dental technology to give a more complete program in dental technology.

The instructor is William A. Joy, who comes here from five years at the Kansas City Dental College. Joy spent many years in the

Geology Club

The regular January meeting of the Geology Club will feature a talk by Dr. Howard Stains, assistant professor of geology.

Dr. Stains will speak on "Organic Evolution" and will trace the systematic evolution of animals from lower to higher animals.

The meeting will be held Jan. 23, at 7:00 p. m. in room 213, Old Main.

There will be a short business meeting and the public is invited to attend.

APO Initiates 5 Members

Five Alpha Phi Omega pledges became active members Thursday night at the formal initiation banquet at Tom's dining room near De Soto.

The outstanding pledge award was given to Ken Ostead for superior service to the national service fraternity.

Following the initiation, Lt. Col. Emmett E. Cockrum spoke to the group concerning the activities of the local scout council in the Egyptian river to the Ohio river.

Present at the dinner was Warren Stroake, president of the APO in 1948 when it was formed.

Also the group talked of plans for the spring vacation horseback trail which extends from the Mississippi river to the Ohio river.

Previous trail trips have been survey ones to determine the best route. In the spring, approximately 15 members of APO will lead the way with machetes and axes. The trail is similar to the Appalachian Trail.

Council Discusses Leader Camps, Refugee Student

Fahni Dahdah, president of International Relations Club, appeared at the meeting to give a progress report on the refugee student fund program. Donations thus far have been: Student Council, \$200; Sa-gawah, girls' organized house, \$8; Kappa Alpha Psi, fraternity, \$5; and Men's Residence Halls Council, \$50.

Max Malone, reporting for the refugee student committee, said the joint committee, made up of members of the Student Council and International Relations Club, is preparing a letter to be sent to organizations on campus and downtown, asking for contributions.

The Council discussed the late registration and program-change fees problem brought before the Council last week. Les Schneider was appointed to see if a program could be set up whereby the students would decide whether or not the student had a valid excuse for not paying a late registration fee.

Seniors To Give Recital Thursday

Ronald Mitchell and Arnold Ross, seniors majoring in music education, will appear in a recital Thursday at 8:15 p. m. in the Laboratory Auditorium.

Ross and Mitchell are concert pianists. They will present a program of repertoires for concert solo with piano accompaniment. Each of the Seniors in the music department appear in a recital as partial fulfillment of the requirements for their degree. Those in the field of education appear in a recital with another music education major.

The accompanists on the program will be Paul Wolters, and Gary Wittlich for Mitchell, and Derenda Taylor for Ross. Ross and Mitchell will participate in two brass groups with the Ohio river.

Name Changes Approved For 2 Groups

Nu Delta Sigma and Alpha Sigma Epsilon were named approved by the Student Council recently for a local society and a local fraternity.

As a result of their national society Delta Sigma Epsilon has been on campus choice to remain as a local society and chose the name of Delta Sigma.

The group, about two weeks ago, brought their case to the S. C. University, found that another national organization had the right to the name Delta Sigma.

As a result 37 articles of the society voted to change the name to Nu Delta Sigma and submit it to the Student Council for approval.

The approval was granted.

This week the local society is building its first formal rush of the school year since it could not hold one in the fall due to its attempt to obtain a release from its national to remain as a local.

The group of Nu Delta Sigma is Sigma Phi Epsilon Colony was the fraternity whose change in name was approved by the Student Council.

The group was to have been inducted as members of the Sigma Phi Epsilon, national fraternity early in December of last year but due to a conflict between University regulations and those of the national, the group was denied a charter.

The local group's 22 activities voted to submit the name of Alpha Sigma Epsilon to the Student Council. The Student Council approved the name change.

This Saturday Alpha Sigma Epsilon will initiate 11 pledges at its chapter house at 306 West College.

The local group was first began on Oct. 16, 1955 when it was recognized as Alpha Sigma. Following preliminary plans for forming national the group changed its name to Sigma Phi Epsilon.

Ron Goldsmith is president of Alpha Sigma Epsilon.

Both Nu Delta Sigma and Alpha Sigma Epsilon are currently making plans for national affiliation.

Drill Team Gives Show At High School

A fancy and precise SIU AF-ROTC Drill Team was received warmly, last week, in Trenton, Ill., where they provided the half-time entertainment at the Trenton High School, January 11, basketball game.

The Drill Team's performance included a nine-minute routine consisting of figure movements, and also a comedy group made up of a few of the Drill Team members.

The Commandos of the Drill Team, Cadet First Lieutenant Lynn Adams, and his assistant, Second Lieutenant Whelan Johnson, are arranging for other exhibition trips to various high schools to provide members of the team with experience and practice on precision timing.

The main purpose of the exhibition, according to Lt. Adams, is to steady the team for competition with other drill teams.

The Drill Team will compete again this year at the University of Illinois Drill Team Meet which is composed of drill teams from all over the United States. Schedules for other drill team meets have not yet been released.

KAM Photo Fair Competition Here Feb. 23-24

The seventh annual SIU Kappa Alpha Phi Photo Fair, jointly sponsored by the SIU chapter of KAM and the SIU journalism department, will be held at SIU Feb. 23-24.

The annual photographic competition and exhibition is an important part of the fair, says Robert McBurnie, KAM chapter president. It is open to both amateur and professional photographers.

Photo Fair entries must be received no later than Feb. 15 to be eligible for judging. First, second and third place awards will be presented during the program in three classifications of entries: news, portrait, and commercial.

The best print of the Fair will receive a special award. An entry fee of 50¢ per person, with no limit on number of entries, will be required.

Tom Abercrombie, of the National Geographic Magazine, will be the guest speaker. Abercrombie was chosen as the news photographer of the year in 1954 by the National Press Photographers Association. He was formerly a photographer for the Milwaukee Journal.

Abercrombie's topic will be "The Newspaper Photographers' friend, the 35mm camera."

Arthur Whitman, of the St. Louis Post-Dispatch Pictures staff, will judge the photo - journalism competition, and Frank Risai, famous Collinsville portrait photographer, will judge portrait competition.

Journalism Graduate Program Year Old

SIU's graduate program in journalism moves into its first full academic year after receiving official approval by the Board of Trustees last week.

Anyone interested may do work leading to a degree of Master of Arts or Master of Science under the program.

Candidates for a Master's degree are required to complete 48 hours of graduate credit, including a thesis, demonstrating a capacity for investigation and independent thought.

Approximately one-half of the graduate work should be in professional journalism courses, with the remainder in courses in the liberal arts. Courses numbered 400 and above in the curriculum of the journalism department carry graduate credit.

Most of those songs which Jimmy Durante wrote in night club and movie appearances are composed by himself, including such classical lyrics as "Inks Dingka Doo."

Freshman Awarded Obelisk Position

Donna Jo Falkenstein, a freshman from Belvidere, was appointed to the position as associate editor of the Obelisk by the Journalism Council. She will replace Darrel Dudley, a sophomore from Christopher.

In his letter of resignation Dudley stated that he was resigning because he was having difficulty with his studies. Dudley was appointed to the position last spring.

Miss Falkenstein will be in charge of engraving and page layout. She has worked on the Obelisk staff during the past term.

The council also elected Marilyn Michels as secretary. Pictures for the Obelisk were also taken.

'Line of Dimes' Falls Short Of Drive Goal

Enough boards to reach Old Main, but not enough dimes on the advent of the new building is complete next Saturday, Jan. 14 to Friday, Jan. 18.

When official tabulations were taken, only \$142.60 were taken in. This total fell well short of last year's goal of \$300.

The "Line of Dimes" campaign is an annual underwriting by members of the Alpha Phi Omega, national service fraternity, in conjunction with the National Polio Foundation to collect money for research and treatment of the dread disease.

Bad weather conditions and other elements were factors against the drive, according to APO officials.

Approval Residents Center

The board also approved Shurtleff College and the East St. Louis High School as locations for Southern Illinois University residence centers.

Although the board indicated that neither site would be suitable for a full fledged university, they agreed to accept invitations to lease both sites should state appropriations for operating the residence centers be approved.

The East St. Louis Board of Education has offered to lease its present high school building to SIU for \$1 a year after its new building is complete next Saturday.

The Shurtleff property was made available to Southern following a decision of the college board to suspend operations on June 30.

SIU officials said the campus of the denationalized college has a capacity of perhaps 500 students but lacks the acreage for expansion that might be necessary for a state-supported university. The Madison-St. Clair county area will be a potential 18,000 college students by 1970. Residents of 16 counties are past the resident Gov. Stratton for a four-year college program, proposing that SIU establish two new university there.

The SIU board was informed that as St. Louis High School which has enrolled as many as 2,000 high school students, is not big enough for an adequate schedule of college level offerings. On the other hand, University officials consider the building too large to host and maintain as a residence center operation. They are awaiting action on their request to lease the newer portion of the high school, taking an option on the rest for possible future use.

"Our investigation of these two sites clearly shows that neither would be suitable as the permanent site of a full-fledged university operation," SIU officials told the trustees. "As intrinsic residence centers, however, both are excellent, and the State of Illinois could meet the problem of educating fairly large number of additional college students as they increase in these temporary locations."

At residence centers, a limited number of University courses are offered, carrying the same credits as would be earned in residence on the main campus.

Paul M. Hoffman of the School of Business received a proclamation from the board from assistant professor to associate professor.

Practitioners

Five other instructors raised to assistant professor are: Gordon K. Burns, Aereo-Vision Service; Dan Cox, teacher training; Donald R. Grubb, journalism; Milton F. Sullivan, Division of Technical and Adult Education; Myroslav Meinyak, economics; Robert H. Mohlenbrock, botany; and Carl L. Swisher, geography.

Mt. Carmel Area Asks For Off Campus-Center

Citizens of the Mt. Carmel area have agreed to contribute \$150,000 building of Southern Illinois University will accept it for use as an off-campus educational center in southeastern Illinois.

A nine-member delegation told the SIU board of trustees Thursday that the building would be given to the University or leased at \$1 a year. The SIU board took the proposal under consideration.

The delegation pointed out that Mt. Carmel is remote from existing colleges and there is a large unmet need for college enrollment in the area. Some 2,000 students will be graduating from high schools within a 40-mile radius this spring.

The delegations suggested that Southern start off with a teaching program geared to accommodate about 200 students.

SIU officials and trustees said the group they could make no commitments until those is classification.

SIGMA ALPHA ETA

Sigma Alpha Eta, January speech and hearing fraternity, will hold its first meeting of the winter term on tonight at 9:00 p. m.

The business meeting will be highlighted by a departmental speaker with a social hour following. The speaker will be Harry C. Hasting, 1300 South Thompson. All persons interested in speech are invited to attend.

Board Of Trustees Asks For \$2,000,000 Housing

The Southern Illinois University board of trustees will ask for \$2,000,000 in loans from the Housing and Home Finance Agency to build as many as 200 family housing units.

"This decision gives us permission to ask for the loans," Vice-President George H. Hand said. "We are hopeful that we can get the funds from the agency because we need it very badly."

The proposed construction includes 50 one-bedroom and 140 two-bedroom apartments for faculty members and married students. This is the first stage of a plan to build 470 family units east of the campus in the Dowell area.

The board decided to divide the Department of Sociology and Anthropology into two separate departments in the College of Liberal Arts and Sciences. They also voted to increase the number of courses free scholarship offered by the University from 200 to 300.

Approve Residence Centers

The board also approved Shurtleff College and the East St. Louis High School as locations for Southern Illinois University residence centers.

Although the board indicated that neither site would be suitable for a full fledged university, they agreed to accept invitations to lease both sites should state appropriations for operating the residence centers be approved.

The East St. Louis Board of Education has offered to lease its present high school building to SIU for \$1 a year after its new building is complete next Saturday.

The Shurtleff property was made available to Southern following a decision of the college board to suspend operations on June 30.

SIU officials said the campus of the denationalized college has a capacity of perhaps 500 students but lacks the acreage for expansion that might be necessary for a state-supported university. The Madison-St. Clair county area will be a potential 18,000 college students by 1970. Residents of 16 counties are past the resident Gov. Stratton for a four-year college program, proposing that SIU establish two new university there.

The SIU board was informed that as St. Louis High School which has enrolled as many as 2,000 high school students, is not big enough for an adequate schedule of college level offerings. On the other hand, University officials consider the building too large to host and maintain as a residence center operation. They are awaiting action on their request to lease the newer portion of the high school, taking an option on the rest for possible future use.

"Our investigation of these two sites clearly shows that neither would be suitable as the permanent site of a full-fledged university operation," SIU officials told the trustees. Emergency

Accurate prediction by SIU officials and shortsightedness by the Illinois General Assembly, has caused an emergency of no little consequence.

In 1955, SIU asked the legislature for operating and improvement funds for the biennium.

Some of the legislators in Springfield saw fit to reduce the budget request toward they considered a sufficient amount.

SIU representatives had predicted the present enrollment and based the request on that figure. The enrollment swelled to expectations.

Consequently, with some five months left in the biennium SIU has found it necessary to request \$400,000 to finish out the year.

There are reports that SIU may have to close two months early if the emergency request is denied. Dr. George Hand does not predict such extreme measures, although he does agree that some activities will have to be curtailed.

Such a situation could possibly arise in 1959, if the General Assembly does not see fit to approve the requested amount for the next biennium.

Budget requests are based on careful study of enrollment trends and critical analysis of needed facilities.

Southern Illinois solons are decidedly sympathetic to the problem and will do their utmost to insure approval. But, the information must be conveyed to the upstate lawmakers.

Active student backing of the proposal is mandatory for success.

U. S. Students Have No Guts

Dwight Cooke Gives Freshmen World Views

By Marshall Rizzan

The captive freshman class was overpowered into rank formation, Thursday morning at Convocation, by a slim be-speacled verbal dynamo.

Dwight Cooke, Phi Beta Kappa, writer and editor for Time, radio producer and executive, author and world traveler, presented a straight-from-the-hip picture of today's world situation and the American students place within this picture.

"The European view of the American student is that he is not only does not have any brains but he has no guts as well," said Cooke, dressed neatly in a light grey suit.

"Yet the European students are the most active force on the European national scene," said Cooke, "and the only way we can hope to equal their accomplishments is to join a pressure group... and raise all the hell you can."

"This is a revolutionary age... it is an age that is fun to read about but not too much fun to live in... in fact you are seeing all hell break loose around you," Cooke said.

Dwight Cooke went on to show what is in making the world situation what it is. He presented the facts sometimes humorously, sometimes seriously or cynically and the students followed his every mood.

"One half of the world today is under new types of government and it is throwing the world into confusion," said Cooke.

There has been a need for a third force in a world divided by Democracy and communism... and this force is nationalism... which has declared war on both sides."

"The people who are at the head of these new governments are neurotic, uncontrolled and untrained... yet they mean well."

Shyness Valuable

Small Town Gal, SIU's Jane Herr, Plays Juliet

By Leo Myer

"It is the job of the psychologist to develop hypnosis through increasing scientific research, so our goal should be to try to develop to the utmost what may prove to be one of the greatest aids to psychological health that man has ever known," said Ronald L. Whitlock, before a meeting of the Psychology Club, Thursday night.

Whitlock made this statement while speaking on the history of hypnosis to start off a series of studies on hypnosis by the Club. Whitlock is a senior, majoring in psychology at SIU.

"Hypnosis is probably as old as the first recorded history," said Whitlock. "It was used by the medicine men of the tribe of primitives, magicians and priests of ancient times and on down through history till today where it is a science in its good hands."

"Hypnosis has been used for religious and therapeutic purposes and at times it was considered an expression of supernatural powers," said Whitlock.

He Quotes The Bible.

Even the founder of Christianity was considered as a user of the science of hypnosis by Whitlock. To prove this point he quoted the Bible. This is the story of how a blind man was cured.

"After that he put his hands again upon his eyes and made him look up, and he was restored and saw every man clearly," Mark 8:25.

In tracing the history of hypnosis he brought in such men as Mesmer who in the 1700's used a magnet to draw out the fluids in a persons brain to cure his illness. But it was proven to Mesmer that the magnet wasn't necessary and afterwards he used hypnosis alone with a great deal of success.

In Whitlock's opinion the man who "more than any saint" was responsible in getting the science scientifically accepted was James Brad, a serious minded physician in the 1800's. Brad brought out the importance of the role played by suggestion in the process.

Whitlock brought out that Brad's method of fixing the eyes and concentration of visual interest was but a step away from the psychological idea of concentration of the individuals whole field of perception.

Fraud Was User

The greatest damage to hypnosis was done by Sigmund Freud when he quit using hypnosis after finding that he could not get all of his subjects in a deep trance," said Whitlock.

Although Whitlock doesn't disagree with what Freud said about his psychoanalytic method, he says patients who cannot be taken to

Sigma Beta Gamma Opens New TV Program On Harrisburg Station

By Wayne Raguse

"At this time WSIL-TV in cooperation with Southern Illinois University presents... THE SIU REVIEW" and Bill Moll, SIU sophomore had opened the door to a new series of half-hour TV shows for the viewers of Channel 22 in Harrisburg, Illinois.

The new series of TV programs is written produced and directed by members of Sigma Beta Gamma, radio TV fraternity, and marks the end of planning a week which had started with the opening of school last fall.

The idea for a TV show over a commercial station by the local group came after Bill Turner, president of Sigma Beta Gamma, put his idea before the group. Although only Turner had done any amount of TV work before the campus group accepted the idea enthusiastically.

The group last year had written, produced and directed radio show "The Salute Hour" for radio station WCIL. It was decided that the TV show would follow the format of the its radio predecessor but adapted to meet the needs of television. Though the show which was presented last Thursday had never been rehearsed in its entirety at all due to not being able to get the whole cast together at one time the show came off very smoothly to its audience.

Since for the show was SIU senior Phil Trammel, Jim Hankins a long leaning serious-minded sophomore was the show's director. Throughout the show Hankins was in constant contact with the show's producer, writer, and originator, Turner.

Other members of campus professional fraternity taking active part in the show were Lalorna McMurray, who gave a campus news cast, Bill Tur who handled the make boom, and Bill Moore who watched the station's camera man so he could replace him in future shows. The rest of the members of Sigma Beta Gamma watched the show from outside the studio as they could take part in future shows.

The first show included the original music of Keith Pierce and the deep trance, but upon those that it will work on, Whitlock believes that enough time is saved to make it worthwhile.

The meeting was followed by an coffee and cake hour with Dr. and Mrs. Leslie F. Malpas as faculty hosts.

GREETINGS

Master of ceremonies Phil Trammel greets viewers on the first telecast of the SIU review on WSIL-TV Harrisburg Thursday. The show was produced by Sigma Beta Gamma, honorary radio fraternity.

Ever met hapless Hugh?

There once was a sophomore named Hugh
Who wrote all his notes on his shoe
Till one day the rain
Washed his notes down the drain
And he flunked Embryology II.

Boo hoo for Hugh. When he finally remembered to get more filler paper, it was too late. How hapless are you? Ever take your notes on the backs of old envelopes... and then try to round up the scraps just before a final? Don't do it. Because it's so easy to drop in for filler paper... ring binders, comp books... all the supplies that will keep your precious notes where you want them, when you want them.

He needs "something from the Drug Store..." he's on his way to

-Southern Society-

La Casa Manana Elects Officers
 Newly-elected officers at La Casa Manana are Veneta Allright, social chairman; Glenda Smith, reporter; and Marcia Spencer, W. A. A. representative.
 The house has entered a team in the W. A. A. basketball tournament.
 Joann Arensman was chosen as one of the five finalists for ROTC Queen.

Marcia Spencer is a candidate for Miss Anthony Hall.
Phi Taus Hold Exchange Party
 The Phi Taus held an exchange party Saturday night at the fraternity house with C. G. C. members. First floor of Woody Hill. Faculty guests were Lee Roper, graduate assistant in sociology and anthropology; Herb Haber, and Sue New, Woody Hill counselor.

The Phi Tau pledges will begin "Help Week" Thursday. Formal initiation will be held Sunday. Lou Guentz is in charge of the Phi Tau Act for the Theta Xi Variety Show.

Engaged
 Diane Backus, Woody Hill, to John Walters, SIU alumnae; Lena Smith, Woody Hill, to Larry Beers, Thompson Point No. 4; Ann Appleton, Woody Hill, to Dave Davidson.

Married
 Charlotte Thompson, Woody Hill, to Bill Buxton, U. S. Army.

Teke Complete "Help Week"
 Teke pledges who have completed "Help Week" are Mike Dewey, Don Leigh, Jim Linsborough, Lance Stahl, Ralph Ankenweald, Bill Hockgeiger, Bob Reeves, Jim Pickrel, Bob Drinkwater, Bill Davis, John Jantho, Pete Kelling, Louise Pugh, and Dick White. Initiation ceremonies will be held for the pledges on February 3.

In bowling last week, the Tekes won three and lost one to Acadia, and won one and lost three to Nu Delta Sigma.

Delta Chi Plan Banquet
 The Delta Chi is planning a banquet in honor of their national president, L. O. "Suede" Edlund. The chapter decided to hold the banquet after the Inter-Fraternity Council's decision to cancel their annual banquet as which he was to speak.

The pledges of Delta Zeta sorority seaved Sunday at the Delta Chi chapter house Thursday.

Dean Henry Rehn, of the School of Business, and Mrs. Rehn were guests of the fraternity Sunday along with Mr. and Mrs. R. C. Joseph of Carbondale. The Rehns are neighbors of the chapter and the Josephs are the parents of Delta Chi Kent Joseph.

Don Thomas was elected president of Inter-Greek Council this week.

Thomas was also chosen as the biggest "brown nose" on Topsy-Turvy Day awards went to Charles Dykhouse for being the "meanest pledge" and Tom Crane for being the "outstanding pledge."

Tentative plans are being made for an exchange party with the Pi Kappa Sigma sorority for Feb. 1. It will be a party to celebrate the Pi Kaps' being taken off social probation.

R. K. Dillinger and Stuart Ortelie have been appointed chairmen for the Delta Chi act in the Theta Xi Variety Show.

'Coke Hours' Open Sorority Rush Activities

"Coke Hours" at Sigma Sigma Sigma, Nu Delta Sigma, Pi Kappa Sigma, and Delta Zeta sororities will highlight activities of the Pan-Hellenic rush today and Wednesday.

The informal parties will be from 4 to 6 p. m. at Sigma Sigma Sigma and Nu Delta Sigma this afternoon with parties at the Delta Zeta and the Pi Kappa Sigma houses on Wednesday.

The winter term rush being held by the member sororities began Sunday afternoon with a general meeting of all the rushes in Alldredge Hall where the rules and procedures for rushes were explained.

Following the general meeting the girls were divided into four groups which visited all the sororities which are taking part in this term's activities.

At the start of rush activities Sunday afternoon over fifty girls had signed up to participate in the activities according to figures released by Sara Lovin, Pan-Hellenic president.

After the informal parties today and tomorrow the girls will pick up invitations to a buffet supper and slumber party at the sorority of their choice in the Student Union Club Room Thursday morning from 8 to 12.

The buffet supper will be held at the various sororities from 5 to 6:30 p. m. Thursday. The slumber parties will be held from midnight Friday to 8 a. m. Saturday.

"The rushes are urged to attend the supper and a slumber party at different houses," Sara Lovin stated, "so that they will be able to become better acquainted with the individual sororities before they make their all-important selections."

On Saturday afternoon the rushes will pick up invitations to a Great Dinner that evening. Invitations will again be picked up by the rushes in the Student Union Club Room. The Great Dinner, which call for formal dress will be held from 4:30 until 6:30.

Following the Great Dinners from 6:30 until 7:30 p. m. the rushes will signify their preference for affiliation when they sign preference cards in Miss Greenleaf's office.

Pan-Hellenic representatives will personally deliver bids for pledging to the rushes on Sunday afternoon from 2 until 3.

The closed winter rush will officially end next Monday when the sororities will conduct Ribbon Pledging ceremonies.

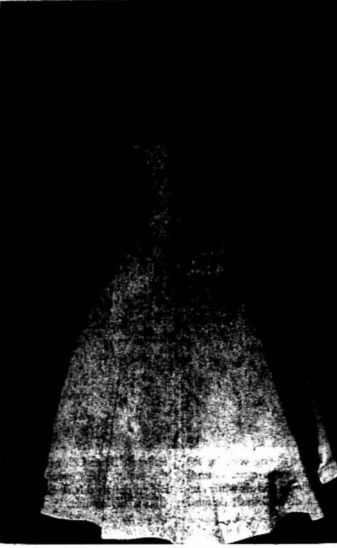

This term all the sororities which are members of Pan-Hellenic are participating in Rush except for Sigma Kappa. The Sig Kaps came within about two of their quotas during the Fall rush period.

Nu Delta Sigma, formerly Delta Sigma Epsilon, will have their first rush of the school year since they became a local sorority this Fall. They took this action when their National sorority merged with Delta Zeta sorority.

Open Rush begins, January 28th for the sororities who don't fill their quotas which were set up by Pan-Hellenic at the start of the school year.

Kathy Fierich is Pan-Hellenic Central Rush chairman this year.

Recent excavations reveal that the city of Arzavus, Turkey had central heating 3,000 years ago.

PORTRAIT OF A QUEEN
 SIU's royalty was accentuated this week when Sherry Craig received her Gell Chapman gown. Sherry modeled the gown on Thursday. The gown which is valued at somewhere between \$500 and \$1,500 was a gift from Sherry from the SIU Cadet Wing. Sherry will bow out Saturday evening at the Military Ball as ROTC Queen while wearing this gown which was designed especially for her.

Sherry Receives Dress ROTC Queen To Wear Original Design To Ball

"It's beautiful," were the only words that Sherry Craig could gasp when she tried to describe her latest gift.

The gift, an evening gown made of slipper white satin, has been presented to her as 1956 ROTC Queen.

Designed especially for her by fashion designer Gell Chapman of New York, the evening gown will be worn by the carucous student from Pinckneyville in the last minutes of her reign as Queen of the SIU AFROTIC Wing. Sherry relinquishes her title Saturday, when this year's queen will be crowned at the annual Military Ball. When wearing the newest addition to her wardrobe Sherry looks every bit the part of one of the country's fashion models.

According to Maj. Jack Allred, assistant professor of Air Science, the idea of a gift of an evening gown styled by one of the leading fashion designers to each retiring ROTC Queen will become a yearly event.

The dress is actually very simple to the untrained eye but is very pleasing to the "casual" male observer.

Sherry will model her expensive gift once more before she enters the Armory to step down as Queen of the Corps. That will be the afternoon of the Military Ball when she and the dress will highlight a fashion show sponsored by the Beta Sigma Phi sorority, a Carbondale woman's organization, in the University Cafeteria.

"I'm just 20-years-old, and by the way, I am a captain in the Angel Flight."

Warrensburg's Best Product Psych Major Discusses Topic

By Ray Stahl
 In Central Illinois there is a small farming community named Warrensburg. This community has a total population of 450 or perhaps 449, Warrensburg is no different for any one particular thing. But since last spring one of its residents has received considerable publicity here at SIU. That resident is Miss Jane Herr.

Miss Herr will be alternating with Mrs. Louise Ritter for the part of Juliet in the Shakespearean romance tragedy "Romeo and Juliet." It will be presented on Feb. 11 in the SIU Playhouse.

"I never had any particular interest in plays," said Jan, "I had a part in the junior and senior play in high school, and that's the nearest I ever got to the stage."

"Last spring I thought that I might like to go on tour with the Southern Players," said Jane. "My part was playing the wife of the giant in 'Jack and the Beanstalk.'"

That was the spark that started the cooperation of Mrs. Alver F. Mautius in the Indian Ocean. The island is British, but the natives speak a French dialect.

"The home of the extinct dodo bird is said by the National Geographic Society to be the island of Mauritius in the Indian Ocean. The island is British, but the natives speak a French dialect."

With this remark she ended the 30-minute interview, and hurried down the aisle of the Southern Playhouse where she was due back on stage to practice with Bill Moll, who will play Romeo.

At Branson I played the part of Julie in "The Tender Trap," she said with a twinkle in her dark brown eyes. "I also played Crazy Pete in the play 'Shepherd of the Hills.'"

It wasn't hard to play the part of the 14-year-old Pete for the athletic minded young girl. She loves sports, and especially water skiing.

Also at Branson, Jane played the part of Miss Toder in the production of "Taps In All." In reply to the question of her age, Jane leaned back in her chair, fumbled with her hair, and smiling said:

"I am just 20-years-old, and by the way, I am a captain in the Angel Flight."

Marketing Club Banquet Monday

Either Swiss steak or fried chicken will be the major course on the menu for the first annual marketing club banquet Monday, Jan. 28, at 7 p. m. in the Carbondale Elks Club.

The marketing club approved the plans at its last meeting on Jan. 8. Appropriations were made for an estimated eighty members and guests.

Spokester will be Charles R. Frederick, executive vice-president of the Sales Executive Association of St. Louis.

Honorary guests will be Dr. Henry J. Rehn, Dean of the School of Business and Industry, and wife.

Students who are not members of the club, but who are qualified to join before Jan. 24, will be eligible to attend the banquet.

Tickets may be purchased from

CARBONDALE WALGREEN

DR. JOHN E. JACOBS joined General Electric full-time in 1950, after receiving his B.S. in electrical engineering in '47, his M.S. in '48, and his Ph.D. in '50, all at Northwestern Univ. He served in the Navy in World War II, and worked part time at General Electric while in college.

What young people are doing at General Electric

Young engineer pioneers new ways to use x-ray

A new x-ray inspection system which intensifies an x-ray image more than 10,000 times in brightness and transmits it to a conventional TV screen has been developed recently by General Electric. When perfected, it may enable medical specialists to perform "long-distance" diagnosis on patients in remote areas.

One of the principal men who developed x-ray television — called TVX for short — is Dr. John E. Jacobs, Manager of the Advanced Development Laboratory of General Electric's X-Ray Department in Milwaukee, Wisconsin.

Jacobs' Work is Important, Responsible

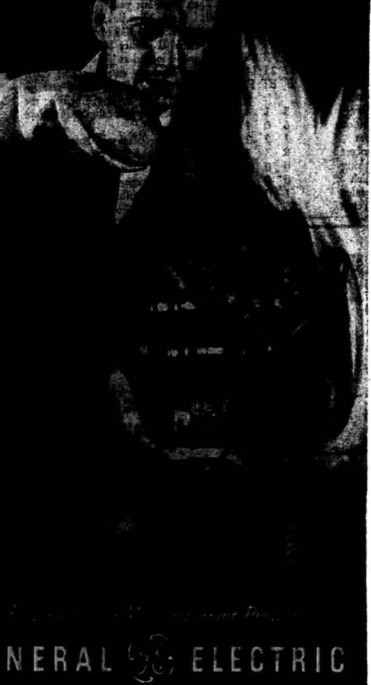

As an electronics specialist, Dr. Jacobs' work in the past has been devoted to the study of photoconductors—substances whose properties change under the influence of radiation—and the use of x-ray in industrial inspection. This in turn led to his development of the x-ray-sensitive camera tube used in TVX.

His present administrative duties with the Advanced Development Lab allow him more time for teaching others what he has learned. He now teaches the second-year graduate course at Northwestern in vacuum-tube networks, and has recently been named McKay Visiting Professor for 1957 by the University of California at Berkeley, where he will give a two-week series of lectures on photoconduction.

27,000 College Graduates at General Electric

Since his youth, when he was a licensed radio "ham," John Jacobs has been devoted to the study of electricity and electronics. Like each of our 27,000 college graduates, he is being given the chance to grow and realize his full potential. For General Electric has long believed that: when fresh young minds are given the freedom to develop, everybody benefits — the individual, the Company, and the country.

Cagers Drop 2 On Road

Southern's cagers travel to Bloomington to play Illinois Wednesday in a non-conference game. Wednesday was the whole season in their minds: You can't win ball games without (1) defense and (2) making free throws.

These facts were painfully evident last weekend when the Salukis fell before Illinois Normal 99-75 and Western Illinois 80-60.

Lynn Holder's charges weren't hitting the first half against Normal, and their defense also left something to be desired. As expected, Fred Marberry was the whole show for the Redbirds as he collected 12 field goals and 13 free throws for 37 points.

Gordon Lambert, assigned to guard Marberry, didn't make a field goal, and fouled out early in the second half.

The Salukis shot 13 per cent during the first half as six minutes elapsed in the game before Seymour Bryson broke the ice with a field goal.

Southern came back the second half to outpace Normal 50-46, but the Redbirds' lead was too big to overcome.

Bryson was high for Southern with 20 points, and also had 20 rebounds to his credit. Warren Talley scored 19 and Larry Whitlock had 11.

In the Western game, free throws made the difference. Southern hit eight of 19 while the Leathernecks were making 24 of 34. Western had a 28-26 field goal advantage. The Salukis made only one free throw out of seven the first half.

Lambert was the scoring star for the Salukis Saturday night as he pumped in eight of 13 field goals, and three of six free throws for 19 points. Bryson with 12, Talley with 11 and Whitlock with 12, all scored in the double figures for the Salukis.

Talley was high for Western with 17 points as four other players, Schramm, McCollum, Behrands, and Nikowich, scored in the double figures.

The two games give SIU a 2-3 record in the IIAAC and an 8-6 slate of the season. Southern has now lost all four of its road games.

After meeting Wesleyan Wednesday night, the Salukis are idle until Monday, Jan. 28, when they entertain Millikin University in the SIU gym. They defeated Millikin Dec. 26 at Florida.

LINGLE TALKS

"The 1956 Olympics" will be the subject of a talk by Dr. Leland Lingle, associate professor of physical education, before the regular meeting of the Women's Physical Education Professional Club, Jan. 30, in the Men's Gym.

Dr. Lingle, who recently returned from Melbourne, will give first-hand highlights of the 1956 classic.

The Women's Physical Education Professional Club is composed of majors, minors and instructors in the women's physical education department. Miss Pauline Loeffler is president and Miss Gloria Bonelli is sponsor.

The meeting will be held at 7:30 in room 206 of the men's gymnasium. The public is invited to attend.

Spare, Split, Cherry, Strike

New Vocabulary Evident Among Bowling Students

A whole new vocabulary, spiced with words such as spare, split, cherry and strike is creeping up among a sore-armed group of 200 SIU students.

The vocabulary has been traced where the winter bowling classes are held, and the sore arms have been traced to some very heavy pins which are set by the students themselves.

The one-odd bowlers are taking it in one of the few co-educational physical education courses offered at SIU. This is the fourth year that this course has been offered.

One of the male bowlers, when asked how the co-educational set-up affected his score, replied, "Well, my average has improved by about 15 points."

"Out of the six mixed classes we found that most of the students had bowled a few lines before, but about 50 per cent of the girls had never bowled at all," commented

Win 9th Straight Meet

Swimmers Defeat Beloit, 57-28

Southern's swimmers established two pool and two varsity records Saturday as they racked up their ninth straight victory at the expense of Beloit College, 57-28.

The new varsity records were set when John Huber raced home first in the 200-yard breast stroke in 2:44.1 and Bob Montgomery won the 220-yard freestyle in 2:28.6.

Pool records were set with the swimming of the 400-yard medley relay and the 200-yard butterfly. These times were automatic, as it was the first time the events had been held in the SIU pool.

Montgomery was also a double winner for the Salukis, coming home first in the 440-yard freestyle in addition to the 220-yard freestyle.

John McKee of Beloit won the 50 and 100-yard freestyles to tie with Montgomery for honors. Joe Barry came home first in the 100-yard freestyle, but was disqualified for massing a turn.

The results:

Heavyweight—Ed Hayes 5, defeated Dave Decker 4, 7-4.

Matmen Defeat Eastern

For 8th Straight Win

Jim Wittenberg lost the first match, then Southern's grapplers went on to take six straight before losing another as the Salukis hung up another decisive victory Saturday night at the expense of Eastern Illinois, 25-10.

It was the eighth straight dual meet victory for Coach Jim Wilkinson's crew, and the third straight this year.

Roy Fowley, Lee Grubbs, John Caynak, Herman Ayers, John Orlando, and Bob Dunkel won successive victories after Wittenberg's defeat, before J. B. Williams wrestling in the 191-pound class, was pinned. Heavyweight Ed Hayes then defeated his opponent to end the meet.

Highlights of the meet were the victories of Grubbs and Dunkel. Both reversed the tables, as they defeated opponents that had beaten them last year.

Gary Burdick, scheduled to wrestle in the 191-pound class, became ill shortly before the match, and it looked as if Southern would not have an entry in that class. However, J. B. Williams was located about an hour before the meet started, and competed in place of Burdick.

The wrestlers will host Western Illinois at the SIU gymnasium next Friday at 4:30 p. m.

123—Werner Semets E, pinned Jim Wittenberg S. Time 8:50.

130—Rov Fowley S, defeated

Matmen Defeat Eastern

Gerald Hatfield E, 5-2.

137—Lee Grubbs S, defeated Bill Shadow E, 9-0.

147—John Caynak S, defeated Keith Meyers E, 7-1.

157—Herman Ayers S, pinned Dale Jeffers E, Time—2:47.

167—John Orlando S, defeated Vero Vera E, 3-1.

177—Bob Dunkel S, defeated Roy Hatfield E, 7-2.

B. Williams S, Time—2:55.

Heavyweight—Ed Hayes S, defeated Dave Decker E, 7-4.

The results:

Heavyweight—Ed Hayes 5, defeated Dave Decker 4, 7-4.

FANCY DIVING

A course in "fancy diving" will be added to Southern's growing aquatic activities this spring.

The new women's physical education course will be taught by Miss Luas Evans, a qualified swimming and diving instructor, and an assistant professor in the physical education department.

Miss Evans, in her undergraduate days, took part in intercollegiate diving competition at the University of Florida in Tallahassee.

The course is being offered as an elective on Tuesday and Wednesday mornings at 10:00 a. m.

Fancy diving will join the American Red Cross life saving and water safety instruction which is also a part of the women's physical education program.
