Schuschnigg Speaks On Future Of Eastern Europe Tuesday

Dr. Kurt von Schuschnigg, the former chancellor of Austria, and now professor of government at St. Louis University, gave a two hour talk on "The Future of Eastern Europe," Tuesday night.

The thin, gray haired man wearing a blue suit, and a white and black checked tie, spoke with a slight German accent as he gave his own personal views on the tensions in eastern Europe.

Schuschnigg, a lawyer by training, was chancellor of Austria from 1934 to 1938 when Hitler took over the government. He spent seven years in prison before being released by the Americans at the end of World War II. He has been in this country since 1948 and received his American citizenship last month.

In his talk, Schuschnigg pointed out that the communists have been losing ground in the elections all over the world.

"In the Netherlands, the communists dropped from 6.16 per cent of the popular vote of 1952, to 4.5 per cent in 1956. In France, they dropped three per cent, from 28.6 in 1946 to 25.6 in 1956, and in Austria, they lost 25 per cent of their voting strength by getting only 3.29 per cent of the popular vote," said Schuschnigg.

"He feels that in terms of 'profit and loss,' there is a 'net profit' in the events of the world in 1956. Hungary and Suez are on the loss side," he said. But he regards the Hungarian situation as dead.

"The real Suez problem is that of Egyptian nationalism," stated Schuschnigg. "If there is a thing as an international waterway then it is the Suez canal."

"The problem is far from being settled. One half of Europe needs the passage through the canal. And I don't have to remind you what that means to the economy of Europe."

"The United Nations is seeing

SIU Has Lemons, Oversized At That!

"Four pies of every lemon!" This may sound like a political campaign promise, but if that lemon comes from the Physical Plant's greenhouse, this statement could become a reality.

The giant-size lemons come from a little tree. The plant, a Ponderosa lemon tree, is about three feet tall and above five feet wide. Each year after Christmas it bears about five lemons which weigh as much as two pounds each when mature.

This variety of lemon trees is usually large, and with the addition of liquid fertilizers it grows about twice the normal size, and about six times as large as commercial lemons. The plant was given to SIU four years ago by Miss Eva Faught, Carbondale, and it is now about 15 years old.

Sphinx Club Honors New Members Wed.

Sphinx Club honorary activities organization will hold a coffee hour, Wednesday from 3:30-4:30 p. m. in the Student Union in honor of the five newly "capped" members.

The Sphinx Club is a select group who have participated in a great many of SIU's extra curricular activities. Fifteen juniors are selected in the spring term and five seniors are "capped" the following fall term.

Officers of the club are Emil Spees, president; Kathryn Ferich, vice-president; Helen Wildy, secretary-treasurer.

Faculty advisers are Dr. Willis D. Schwarz, dean of the Graduate School, Assistant Dean, Dr. David Kenney and Dr. Dorothy Davis, chairman of the Women's Physical Education department.

The club, which has four light aircraft for flying and instruction purposes, expects to have another in its possession within the next few weeks.

The Eagles have purchased two planes on their own and have received two from the university. The fifth one will also be bought by SIU.

The membership is restricted to students and faculty only. The entrance fee is \$10. Dues per month are \$1.

For dual aircraft training, \$100 for light flyin is \$150.50 per hour. For heavier aircraft, it is \$150.50 per hour.

Solo flying for light aircraft is \$5.50 per hour, while for a heavier plane, it is \$6.50 per hour.

The club operates as a non-profit organization.

The Southern Eagles took part in the biggest single flight ever recorded at Murdair Airport on Dec. 19, 1956, when 13 planes carrying 49 people left the Flying Breakfast Trip to Paducah, Ky. The club was back to Murdair by noon.

Dr. Morris OK's Southern Illinois Archival Collection

By Richard Darby

A proposal for the development of a Southern Illinois Manuscript and Archival Collection has been approved by Pres. Delyte W. Morris.

The Library will establish an archival collection which will provide the raw materials for research in Southern Illinois history, according to Dr. Ralph McCoy, Library director.

"Such collection will be valuable for graduate and faculty research in many departments, including history, geography, economics, journalism, sociology, and business administration," said McCoy. "It will also be of interest to residents of Southern Illinois in-

terested in local history."

The collection will include newspapers; business records; personal manuscripts and letters; local government records; printed material such as high school commencement programs; play bills, town directories, church and lodge records; and other materials of this kind; photographs, local maps, and platebooks.

Pres. Morris has appointed an advisory committee to develop the program. Members of the committee are Dr. John Clifford, Social Science Librarian, Dr. Robert Laver, acting chairman of economics, John W. Allen, a member of the information service staff, and McCoy.

The Library will be responsible for gathering, accepting, processing and storing of all materials. Allen has volunteered to help locate materials for the library. Allen is a prominent Southern Illinois historian and past president of the Illinois State Historical Society.

Clifford will be in charge of the collecting program. He will be assisted by Allen. Laver has agreed to help locate and screen business records.

Materials will be accepted by the Library if they are "outright gifts" with no conditions attached, loaned for an indefinite period, or temporarily loaned for the purpose of microfilming or other forms of reproduction, according to McCoy.

Concert Band Presents 25th Select Program

The University Concert Band, under the direction of Phillip Olson, opened its 25th concert January 17, in Shroyck Auditorium with a program of ultra-modern music.

The University Concert Band is a select organization of 45 musicians chosen from the membership of the Southern Illinois University Bands. This Virtuoso wind ensemble is devoted to the study and performance of unusual music written particularly for this type of group.

The first work of the program, "Celebration Overture" was composed by Paul Creston, an old friend of Phillip Olson, over a year ago. The greatest characteristic of this piece is its "rhythmic complexity, with cross-rhythms between sections or several different rhythms going on at the same time."

"First Swedish Rhapsody," composed by Eric Leidzen, was the second selection of the evening. "This little Swedish Rhapsody is not as advanced in dissonance as some of the other works mentioned," said Dr. Henry Brunson, "in contrast to the great use of the bass and percussion instruments which Creston used, Leidzen is more partial to the softer shadings of the woodwind instruments and the French Horn."

"First Swedish Rhapsody," composed by Eric Leidzen, was the second selection of the evening. "This little Swedish Rhapsody is not as advanced in dissonance as some of the other works mentioned," said Dr. Henry Brunson, "in contrast to the great use of the bass and percussion instruments which Creston used, Leidzen is more partial to the softer shadings of the woodwind instruments and the French Horn."

"A Solemn Music," by Virgil Thomson, one of the more controversial of all contemporary writers, was the third selection by the band, followed by "Suite Française," composed by Darius Milhaud. This selection was made of parts named after French Provinces, and each movement uses folk songs from the province concerned. The five provinces are Normandy, Brittany, Ile-de-France, Alsace-Lorraine and Provence.

The program returned to the compositions of a young American composer, Frederick Bretzner in one of his major compositions for wind ensemble.

"Instrumentation for Band," which means something to direct our attention, composed by Vincent Persichetti, is a five movement piece made up of Prologue, Song, Dance, Burlesque, Soliloquy, and March, with cross-rhythms where one section is playing a duplet meter against another section playing a triple meter, and the brass instruments were used in percussive rhythmic patterns.

The last selection of the program was "Athletic Festival March, Opus 69, no. 1," by Serge Prokofiev, who first called it "The March of Spartakid," which is the Russian word for athletic competitor festival.

Religion In Life Week Begins Sunday With Morning Services

Phi Delta Kappa Listens To Dr. Arvin Barr's Education Views

A group of men, members of Phi Delta Kappa, professional educational fraternity for seniors and graduate students, sat in the banquet room of the cafeteria last Thursday night and listened to a talk by one of America's foremost educators.

The speaker was Dr. Arvin S. Barr, co-author of the "Methodology of Educational Research" and professor of education at the University of Wisconsin.

"Scholarly teaching provides many opportunities to combine research and teaching," said Barr during his speech entitled "Scholarly Teaching and Research in Education."

In the main theme of his speech, Barr said that the person in the education field has a "unique" opportunity to combine the two fields that are often thought of as clearly separated.

Barr is visiting the SIU campus as a member of the organization of the doctoral program being set up in SIU's College of Education.

"Education, being what it is," said Barr, "should not be limited to a single concept of research."

Barr defined research as the "search for understanding" that may find fertile ground in all kinds of events, objects, persons and situations.

The tall distinguished looking speaker made it clear there is a place for research divorced from teaching and action programs, but continued with "this is not the type of research I am discussing."

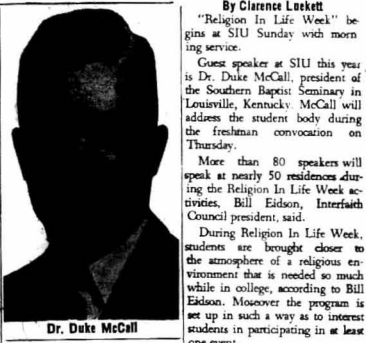

The type of research the speaker talked about revolved around the theory that no action program such as teaching is complete until the educator has observed the finished product, namely his students.

"One may be thoroughly convinced of some fact, but the research is not complete until the evidence can be arranged in such a manner as to convince others," he said.

The soft-spoken educator outlined four main objectives which graduate students should:

1. To broaden, extend, and enrich the student's experience in a field.
2. To deepen the student's understanding and enable him to see beyond the surface aspects of things.
3. To bring students to see the interrelatedness of things.
4. To enable students to distinguish between fact and fancy, between propaganda and sound scholarship.

Dr. Barr stated that the "ultimate product of the efforts of education is scholarly teaching."

Dr. Duke McCall

29th Concert This Sunday

The 29th concert of the series of SIU musical programs will be presented Sunday at 4 p. m. in Shroyck Auditorium.

Included on the program will be Paul Walters, pianist; Jerome Hart, euphoniumist; and Geraldine Schneider, pianist. The finale of the program will be the University Trombone Trio.

Beethoven's "Sonata, Opus 2 number 1" will be played by Paul Walters, and "Concerto for Bassoon, K. 96" by Mozart will feature Jerome Hart. Miss Geraldine Schneider will perform Mendelssohn's "Concerto in G-Minor," with orchestral accompaniment by William McGurie, graduate assistant in music, at the second piano.

The trombone trio includes Bob Key, Don Loucks, and Don Nall. They will perform "Ah, Le Mer Weep," from Rinaldo and "Sound an Alarm," from Judas Macabeus. Both of these are by Handel. They will also perform Palestrina's "Madrigal," and "Gagliardi" by Kuhnau.

The Commerce Club Coffee Hour

The Commerce Club will hold a coffee hour Monday, January 28, at 10 a. m. in barracks G-2. All business students and faculty are cordially invited. Coffee and donuts are free.

Free McCall, Centralia, will be the speaker at the next regular meeting Feb. 5, at 7 p. m. She is on the board of directors of the Illinois Retail Federation.

Military Ball, Concert Saturday Nite In Armory

By Bill Christine

The eve of the sixth annual Air Force ROTC Military Ball is here, but the mystery as to who will replace Sherry Craig as reigning queen remains just as much a secret as ever.

What's more, the announcement of Miss ROTC for 1957 won't be made known until midway through the festivities at the coronation ceremonies tomorrow night at the Armory. The event, which has blossomed into one of the more prominent social events on Southern campus — will be highlighted by the magic name of Duke Ellington, world-renowned leader of the orchestra whose most recent performance was at the national ball of Gov. William Stratton.

The dance proper will get underway at 9 p. m. Ellington and his ensemble will make their first appearance, however, at a concert in Shroyck Auditorium at 7:30.

Five Army ROTC cadets have used their charm, grace and confidence to qualify for the finals of the queen contest, which actually was decided last Tuesday when the ROTC wing of SIU assembled in a mass in Shroyck. After viewing the qualifying qualities of the five bidden beauties, the cadets chose the winner by secret ballot.

Col. Alexander R. MacMillan, professor of air science at Southern, will make the official announcement of her queenship tomorrow at the coronation. Miss Craig, 6-foot, will be crowned in an elaborate coronation gown which is valued at \$1,000, and is an original creation of Cecil Chapman, famous fashion designer of New York.

will then relinquish her throne and crown to the new Miss ROTC.

The finalists, who were crowned by members from an original field of 16 entrants by the Aurore Air Society, are Marie Holmfield of Brookport; Carole Chalmers of Marion; James Ozburn of Du Quoin; Jo Ann Arensman of Metropolis; and Mary Jane Chaney of Alton.

Tickets for the dance and concert are still on sale. Advance tickets for the concert are \$12.25. Admission charge at the door will be \$1.50. Dance tickets per couple are \$3 each, with the charge \$3.25 at the door. The ROTC cadets will be attired in their military garb, while non-cadets will be in formal dress.

Southern Eagles Largest Flying Club in Illinois

The Southern Eagles, a flying club sponsored by SIU, has recruited a total of 116 members since its inception to become the largest flying club of its kind in Illinois, according to Capt. Charles Crenshaw, assistant professor of Air Science and faculty adviser.

The club, which has four light aircraft for flying and instruction purposes, expects to have another in its possession within the next few weeks.

The Eagles have purchased two planes on their own and have received two from the university. The fifth one will also be bought by SIU.

The membership is restricted to students and faculty only. The entrance fee is \$10. Dues per month are \$1.

For dual aircraft training, \$100 for light flyin is \$150.50 per hour. For heavier aircraft, it is \$150.50 per hour.

Solo flying for light aircraft is \$5.50 per hour, while for a heavier plane, it is \$6.50 per hour.

The club operates as a non-profit organization.

The Southern Eagles took part in the biggest single flight ever recorded at Murdair Airport on Dec. 19, 1956, when 13 planes carrying 49 people left the Flying Breakfast Trip to Paducah, Ky. The club was back to Murdair by noon.

SIU Receives \$118,000 Grant From U. S. Govt.

Announcement was made here of a \$118,000 grant to SIU which will be used to develop a psychology laboratory on the SIU campus. The laboratory has been partially equipped with funds previously awarded for psychology research.

Becker said that although the initial phase of the study will deal with testing and classification, it has SIU Speech and Hearing Clinic, and Dr. Noble Kelley, chairman of the psychology department, said that the U. S. Department of Health, Education and Welfare has awarded the department a \$118,000 grant to finance the first two years of the project. Under terms of the joint grant, the University has also agreed to support the research with staff personnel and equipment.

Becker said the grant, which is for two years, will be held in trust for over a year, was awarded Public Law 531. The first investment, involves combining the files of school, area and state agencies for children to use as subjects for the study.

Formally established to explore "Perceptual and Response Abilities of Mentally Retarded Children," the project will be carried out in a few minutes notice.

The Drill Team stayed in an Air Force transit barracks and remained in full uniform throughout the four day visit.

AFROTC Drill Team Camps At Scott AFB

The AFROTC Drill Team took a human's holiday for four days this Christmas season to visit Scott Air Force Base.

On Monday, Dec. 27, 28, 29 and 30 of December, the team concentrated mainly on practice in close order drill and drill team variations on close order drill.

The group, which made the trip to Scott Air Force Base, to practice a flight in an Air Force plane and viewed the entire St. Louis area from above.

A tour through the Air Defense Command's alert hanger was also included in the program. The alert hanger houses the fully armed F-86 D's which are on a 24-hour alert and are ready for take off

TRYOUTS CHANGED

Tryouts dates for the Theta Xi All School Variety Show have been changed. They will be held Feb. 18 and 21 at Shroyck Auditorium.

The change in times was brought about by the Sigma Pi Winter Concert which will be held in the auditorium on Feb. 20.

For information regarding the Theta Xi Variety Show, contact Ben Novotny or Ed Langan at the Theta Xi Fraternity house.

19 Enrolled In SIU Housemothers' Course

Nineteen housemothers are enrolled in the housemothers' training course being offered this term by the Housemothers' Association. In all, 270 students are represented by this group.

Dr. George Hand, vice-president of SIU, was the speaker and discussion leader at last week's meeting.

"Housemothers are in closer contact with students than anyone else in the educational field," Dr. Hand said. "They should encourage students to attend and be actively interested in church activities."

Among the living centers represented by housemothers attending the course are: three sorority houses, Delta Zeta, Sigma Kappa, and Sigma Sigma Sigma; one private house, a publicizing committee, headed by Molly Maedo and Chuck Hosteller; a house speakers committee headed by Harold Burrow and Tom Eckart; and the program committee headed by Barbara Butler and Dave Butler.

Religion In Life

Next week is one of the more important weeks of the year, but it sometimes goes less attention than some of the others. It is Religion In Life Week.

A question popped to a college student is, "What's your major?" or "What are you going to do when you graduate?" An even more frequent answer is "I don't know," or "I haven't decided yet."

After graduating from High School, a teenager, thrust into the world on his own for the first time, sometimes flounders for a short time and then turns back to the only thing he has known all his life — school. Although he has very good intentions of really "making something of himself," he is still not quite sure what to do or where to turn.

Sometimes the student becomes quite concerned and upset because he thinks that he is wasting years of his life because he doesn't know what to do with it. He needs something solid and permanent to lean to in this confusion.

There is only one thing in which he may find stability and consolation — that is his religion. The importance of college student's religion is emphasized by the fact that he is away from home, possibly for the first time in his life. He is faced with everyday "Many forces of college life tend to pull him in several directions calmly, a dull successfully take college life

MATCH CANCELLED
 The wrestling match with the SIU team at 4:30 p. m. today has been cancelled. The wrestling squad will travel to Overland, Mo. tomorrow to meet Buena Vista YMCA.

Trip To Europe?

Are you willing to travel thousands of miles in Western Europe for 12 hours credit?

Next summer SIU will offer the geography. The curriculum for this course includes a geographical study of nine Western European countries.

Port of embarkation is Montreal, Canada, June 12 aboard the new Canadian Pacific steamship, the S. S. Empress of Britain. The return trip to Montreal will end Aug. 15 aboard the same vessel.

About 47 days will be spent touring the nine countries, at a cost of \$1,385 per student including tuition.

The course, listed in the University catalogue as Geography 450, is open to juniors, seniors and graduate students who have as a minimum requirement the introductory course in geography.

'Give Me The Old Winters'

Weather Today Just As Cold As It Used To Be

"For those who still might contend that we just don't have the old fashioned winters we used to have," we need only to point to the record breaking weather of the past week," said Dr. Dallas A. Price, professor of geography, in his weekly analysis of the weather.

The past week has been the coldest week on record, for the period of Jan. 12 - 18, Price pointed out. The average was a chilly 21 in the past week, a full 11 degrees average drop from last week and some 15 degrees below the average we should expect.

The average coldest day this week was Monday, with the temperature averaging 14 degrees from five degrees above to a high of 24. Southern Illinois, though in the grip of an intense cold wave, has not experienced such cold as many other sections of the country, even Central Illinois has had much colder weather.

To further illustrate the unusualness of the cold the past week, is the fact that this is the kind of weather usually experienced this time of year on the northern border of Illinois around Galena.

The low of 4 degrees above this week was the lowest of this winter and the lowest temperature since Jan. 24, 1956," said Price, that week also was the coldest week since that past one. Actually the bitter cold of this week has been held down.

"The outlook is for light precipitation through the rest of the month with cold weather even through the middle of February. Except for a short January thaw, we can expect to brace ourselves for more cold weather."

IT'S FOR REAL!

by Chester Field

I'M THE WORLD'S GREATEST POET
IT'S EASY TO SEE . . .

From my tie to my toes, I leak poetry!
 Most poets praise one lousy moon at a time
 But me, I get dozens of moons in a rhyme.
 If one moon's poetic, why you can just bet
 A sky full of moons is poetic-er yet!

MORAL: Like a sky full of moons a Chesterfield King is out of this world, 'cause it's got everything—big length, big flavor, the smoothest smoke today because it's packed more tobacco by Accu-Ray.

Like your pleasure BIG?
 A Chesterfield King has Everything!

Southern Film Society Releases Program For Remainder Of Year

Southern's Film Society is presenting a series of movies to be shown every other Sunday to conclude on Sunday, May 26. The movies will be shown in the library auditorium at 2 and 8:30 p. m. The change in hours has been suggested by the president's office.

Sunday, Feb. 3
 "Man of Aran" is an Irish film produced by Robert Flaherty, famous geologist-explorer. Here Flaherty was at his best in a spot where the eternal struggle of man against nature was strongest. Visual qualities of land and sea and wave permitted full scope to camera work. Cinnabar is the shark hunt and storm at sea.

Sunday, Feb. 17
 "Birth of a Nation," is an American silent movie written by Thomas Dixon and produced by D. W. Griffith. Starring Lillian Gish, Henry B. Walthall, M. A. Marsh, and Wallace Reid.

Sunday, Feb. 24
 "The Execution of Mary Queen of Scots," is a ruthless little film made originally for the kinetoscope.

Sunday, March 3
 "Dittie, Chh of Man" is a Danish movie created by Bjarne and Astrid Henning-Jensen, the creator of "Ballet Girl" and "Palle Alone in the World."

Sunday, March 10
 "The Grand Concert," is a Russian movie directed by Vera Stepanova. Starring Galina Ulanova, Olga Lepeshinskaya, Maria Maklaka, Alexander Prokofiev. F. e. a. making the ballet and the chorus of the Bolshoi Theatre and the Bolshoi Conservatory. With the music of Prokofiev, Glinski, Tchaikovsky, Borofin.

Sunday, March 17
 "Wherever She Goes," is an Australian movie written and directed by Michael S. Gordon. The movie is based on the novel "Pre-lude" by Clara Abrahall. The music is from Grieg ("Concerto in A Minor"), Beethoven, Handel, Liszt, Shchuman. Featuring Eileen Joyce and the London Philharmonic orchestra, Suzanne Parf of an Irgun leader, or reprisals from Tim Dwydale. Muriel Stein-

Sunday, March 24
 "Queen Elizabeth," with Sarah Bernhardt.

Sunday, March 31
 "The Earth Cries Out," is an Italian movie with English dialogue. The movie is directed by Duccio Colletti. Starring Marina Bertini, Luigi Tosi, Peter Trenet and Freda, Charles Ninchi.

Sunday, April 7
 "The Gentlemen in Room 6," is an American movie written by Sidney Carroll, and directed by Alexander Hammid, produced by George K. Arthur. Photography by Boris Kaufman.

Sunday, April 14
 "Muscle Beach," is an American movie produced by Irving Lerner and Joseph Strick. The works and lyrics are by Edwin Rolfe.

Sunday, April 21
 "The Execution of Mary Queen of Scots," is a ruthless little film made originally for the kinetoscope.

Sunday, April 28
 "The Earth Cries Out," is an Italian movie with English dialogue. The movie is directed by Duccio Colletti. Starring Marina Bertini, Luigi Tosi, Peter Trenet and Freda, Charles Ninchi.

Sunday, May 5
 "Muscle Beach," is an American movie produced by Irving Lerner and Joseph Strick. The works and lyrics are by Edwin Rolfe.

Sunday, May 12
 "Incorrigible," a Swedish movie directed by Arne Mattsson, with Stig Jarell. The movie has Swedish dialog with English subtitles. The movie is definitely of Sweden's new school of realism in cinema that may be said to have "Torment," which is a story of profligate youth, — of a young man who goes from escape to escape to his inevitable doom, and of the mother in whose eyes he could do no wrong.

Sunday, May 19
 "The Execution of Mary Queen of Scots," is a ruthless little film made originally for the kinetoscope.

Sunday, May 26
 "Muscle Beach," is an American movie produced by Irving Lerner and Joseph Strick. The works and lyrics are by Edwin Rolfe.

DAY OF PRAYER
 Members of SIU's religious organizations along with students from all over the world will observe the Sunday Day of Prayer on Sunday, Feb. 17.

Through a common experience of prayer and worship students may transcend the barriers which divide them; such as lack of a common language in which to speak to one another, racial prejudice, opposing political convictions, different church traditions, and come to recognize that oneness which has been given to them in Christ, according to the Rev. Donald Johnson, SCD director.

Mary Margaret Manor Elects Secretary
Carolyn Taylor has been elected secretary of Mary Margaret Manor.

Lois Harriss has been tapped by the Sphinx Club.

Janet Ozburn is a finalist for the ROTC Queen.

Pi Kappa Sigma Initiates 5
Initiated into Pi Kappa Sigma Sorority Saturday were Barbara Taylor, Janet McMillan, Jean Armstrong, Gail Turner and Pat Flory. A dinner at Engel's Restaurant was given in honor of the new actives Saturday night. At the dinner, Jean Armstrong was presented with the model pledge award.

The Pi Kapp attended church in a group Sunday morning.

Pat McCormick of St. Louis, Mo., will represent Pi Kappa Sigma in the Miss Anthony Hall contest.

Pat Flory is in charge of the annual Pi Kap Rummage Sale which will be at the City Hall on Feb. 9. Gail Turner was chosen as publicity director of the project.

A card party for Pi Kap alumni will be held at the chapter house on Feb. 22. LaVerne Bridges is in charge of the event.

Sara Lovan will be initiated into Kappa Omicron Phi, honorary home economics fraternity, this week.

Margaret Ruchie is a pledge of Zeta Phi Eta, honorary speech arts fraternity.

Jean Midget of Chicago was a guest of Diane Newland at the chapter house last week end.

Former Pi Kap Helen Ogonicki, East St. Louis, visited the house last week end.

Award Basinger was presented an award for "model pledge" of Topsy-Turvy Day by the pledges. Pat Yates and Jan Prather also received awards. Jan Nichoff and her group won an award for the most successful survey of all the fraternities.

Sigma Kappa Initiates 19
Nineteen were initiated into the chapter Saturday at the chapter house. They are: Erma Knupp, Phyllis Bush, LaDoris Harms, Darlene House, Virginia Murphy, Ann Stille, Donna Young, Elizabeth Gossen, Glenda Smith, Ruth Ann Wagner, Jeanine North, Zelma Johnson, Sara VanCleave, Angela Ramirez, Carolyn Jones, Georgine Steidel and Sheila Choate. Erma Knupp was selected by the pledge class as "Ideal Pledge."

"The Tender Trap" is the theme for the initiation day which will be Feb. 9. Peggy Taylor is general chairman. Joan Brandishoff is in charge of the "Midknight Party" which will be held at the chapter house before the dance.

An exchange party will be held tonight with the Sig Psi. The group plans to go ice skating.

Nu Delta Sigma Orders Pins
The new pins for Nu Delta Sigma sororities have been ordered.

Joni Frascione and Jeanne Norhus have been elected Senior Pan Hellenic representative and Junior Pan Hellenic representative, respectively.

Shirley Billanz, president of Nu Delta Sigma, has been selected as a member of the Sphinx Club.

In Kirby is the Delta Sig candidate for the Miss Anthony Hall contest.

"So, Dar To My Heart" is the theme of the formal dance which is being planned.

Committees for Rush have been appointed. Joni Frascione is in charge of the decoration and favor committees. Karen Kampe and Harriet Vasos are in charge of the food committee. Gerald Van Dover and Ruth Ann Fagen are in charge of the entertainment committee.

Harriet Vasos, Elaine Kalla, Carol Rotramel, and Mary Ann Van Winkle were appointed to help Gale Galsione revise the Pledge Program for this year.

Sylvia Carlson will be Nu Delta Sigma's Greek Week representative.

Sharon Fowler has been elected treasurer of Nu Delta Sigma.

Jane Gamble and Jo Kirby were

initiated this week end after going through "Help Week."

The group went to church to sing Sunday.

Kappa Alpha Gets Gold Star
Alpha Kappa Alpha sorority received a gold star at the National Boule in Atlanta, Ga., for maintaining a high scholastic average.

Sylvia Forbes is the new president of the Ivy Leaf Club.

Lena McGrone is Alpha Kappa Alpha's candidate for Miss Anthony Hall. Dorothy Jackson is Hamilton House's candidate.

Baseball practice began Tuesday. The following girls are on the team: Sylvia Forbes, Shirley Forbes, Jeanne Lewis, Bobbie Harris, Sandra Caldwell, Leha Caldwell, Donna Hester and Lena McGrone.

Tri Sigma Initiates 13
Thirteen were initiated into Tri Sigma over the weekend. They were Karen Assmiller, Linda Adams, Marcia Ball, Carol Cochran, Kay Francis, Susie Garner, Sonia Kisk, Susie Knupp, Ellen Richardson, Mary Kay Sharkey, and Terrie Smith.

Sunday morning the Tri Sigas met at the chapter house for breakfast and attended church together and had dinner afterwards at Crab Orchard Courts.

Mary Chandler, Linda Adams, and Joan Brandishoff are co-chairmen for Tri Sigma's act in the Variety Show.

Patry Farmer, Beverly Hollapple and Jane Riley visited at the chapter house over the weekend.

Lois Goldsmith was chosen as "Ideal Pledge." Umpie Langrade was chosen "Ideal Active."

Theta Xi Appoint Chairmen
Bob Crawford and Dale Cozad have been appointed co-chairmen of Theta Xi's region five conference to be held at SIU in April.

The following committee chairmen have been elected for the Theta Xi Variety Show which will be held March 1 and 2: George Noud, correspondence; Jerry Miller, publicity; Bob Crawford, finances; Harry Kopsky, stage; Dick Baldwin, concessions; Floyd Galt, Service to Southern; Harry Segedy, lighting; Gaug, Livings, ton, ams.

George Noud has been appointed publicity chairman for the chapter.

Alum Carroll Goo visited the chapter house over the weekend.

Jewel Box Elects Officers
Newly-elected officers at the Jewel Box are: Phyllis Dosses, president; Caroline Thacker, vice president; Mary Meyer, secretary; Mary Williams, treasurer; Nancy Mitchell, duties chairman.

KAP Pledge Club Elects Officers
The pledge club of Kappa Alpha Psi have elected the following officers: Bruce Petty, President; Theodore Glenn, vice president; Donald Franklin, secretary-treasurer.

Clarence Scott was appointed Kappa Alpha Psi representative to the Social Senate.

New pledges of Kappa Alpha Psi are Hugh Wade and Donald Franklin.

Hugh Wade has been appointed social chairman.

Frederick Wilson, Donald Franklin and Eugene Brandon attended the Jazz Show in St. Louis last weekend.

DATELESS
Caught without dates for the annual Air Force ROTC Military Ball Saturday, two SIU cadets examine a gallery of "available" at a "Date Bureau" set up on campus AFROTC headquarters. Checking pictures of their prospects in the school yearbook are Del Wachter, left, and John Hesterman, right.

SIU Physicist Begins 4th Year On Cosmic Ray

Dr. O. B. Young, of the SIU Physics department is conducting his fourth consecutive year of research in cosmic rays for the Office of Ordnance Research of the U. S. Army.

Since 1953, Young has received federal money to study how high energy particles coming from outer space affect people.

These energy carriers are called subatomic particles which originate in the region of the stars and bombard the earth's atmosphere with tremendous speed and damage potential.

"Due to the increased emphasis on space travel," said Young, "it is necessary that we know how people will stand up under bombardment from cosmic rays."

The method for measuring the energy possessed by the cosmic rays is the use of "thick emulsion plates."

The plates are sent up above 50,000 feet by balloons and exposed to the rays. Then they are brought down and studied under microscopes. The energy contained in the particles can be found by the length of the imprint made on the plate.

Sig Tau Plan Dance
The annual Sigma Tau Gamma "White Rose Dance" will be held at Grant City Lodge March 9. Bruce McClung and Paul Draper are in charge of the dance.

Seven pledges are going through "Help Week." They are: Fred Arnold, Dwight Friemann, Sun Friemann, Maurice Papp, Tom Hallam, Richard Cain and Jim Kaufman. Initiation will be held at the chapter house Saturday.

Gary Winlich has been appointed committee chairman of the Sig Tau's act for the Theta Xi Varieties Show.

Plans are being made for an Open House in the near future.

Mr. and Mrs. Fred Johnson are parents of baby girl, Tjode Lynn, born Jan. 20.

Pinned
Sandy Basiel, Tri Sigma, to Harrey Kopsky, Theta Xi.

Engaged
Hester Williams, Jewel Box, to Chick Bishop.

Married
Hugh Wade, Kappa Alpha Psi, to Mary Josephine Taylor, Memphis, Tenn.

Viva Ole Grinnell, Tenney Return From Mexico

Dr. John E. Grinnell, dean of the College of Education, and Dr. Charles D. Tenney, vice president for instruction, have just returned to SIU after a vacation in Mexico City.

The part of the trip that Grinnell seemed most impressed with was a side-trip to Tascos, Mexico, often referred to as the Silver City.

"That city has more persons than any other I've seen with the possible exception of Billerica, France," said the dean.

The dean also described an abundance of flowering shrubs and trees that were "very colorful."

Tascos is one of the few Mexican cities that escaped the ravages of modernization.

"It is kept in its original state by the government," said Grinnell. "No modern buildings are allowed and the streets are all paved with cobblestones."

"All the time we were in there we ate in the old-fashioned saloons."

Mrs. Tenney and Mrs. Grinnell had a ball spending their husbands' money in silver and leather goods while in Tascos, according to the dean.

SIU Art Instructor's Articles On Exhibit
A silver chalice and a patent design and made by Frederick Lantzman, art department instructor, will be exhibited by the Faculty of the Department of Fine Arts at the State American cities that escaped the ravages of modernization.

The chalice and patent are owned by St. Andrew's Episcopal Church, Carbondale. The exhibit began on Jan. 20. Together with the other two pieces are worth about \$300.

"A thin layer of gold is inside the cup of the chalice. The chalice is about nine inches high and six inches in width at the base. The patent is a shallow plate about seven inches in diameter. Both of these pieces are used in the church's Holy Communion. They are sterling silver."

LITTLE MAN ON CAMPUS by Dick Bibler

Minneapolis Orchestra To Play Feb. 6

Two concerts will be given by the Minneapolis Symphony Orchestra in Shroyer Auditorium on Feb. 6. The orchestra is directed by Ansoole Doree.

The evening concert will begin at 8:15 p. m. It will be sponsored by the Community Concerts Association. SIU students will be admitted free after showing their activity card.

The afternoon concert will begin at 3 p. m. It will be admission free to the public. This program will be a youth concert, and invitations have been sent to high school music students of Southern Illinois, according to Henry Brunnema, chairman of the music department.

"Up to 1,200 high school students will be admitted to this concert," said Brunnema. "Provided they have requested reservations. They must arrive and sit together in assigned seats."

"University students and faculty will also be admitted free of charge, and it is anticipated that a large audience will be on hand for both of these concerts."

Program notes will be given by Gerald Samuel, assistant director of the orchestra, at the afternoon concert.

"Overture to William Tell" by Rossini and Beethoven's "Symphony Number 4 in B-Flat Major, Opus 60" will be the first two works presented. Romanian Folk Dance, and Gerwin's "Opus and Bee" will also be on the program.

Journalism Increases Scholarships To 6
Scholarships to the SIU journalism department have been increased for the 1957-58 school year from five to six, according to an announcement by Dr. Howard R. Long, SIU journalism department chairman.

Final selection will be based on the following: The nominee's scholastic record, his journalistic skills, his interest in journalism, and his personality and capacity for leadership.

The scholarships are for a full year's tuition, and are worth approximately \$100.

10 Students, 2 Horses Patrol Little Grassy
Riding in pairs and carrying only large flashlights as their only weapons, the security patrol of Little Grassy Lake rides around the outdoor recreation center every night.

Ten students and two horses, make up the security patrol, which was started in July by the Outdoor and Education Department, to stop the vandalism around the lake.

The patrol, which also keeps a sharp eye out for any signs of fire, works in four hour shifts, in all kinds of weather for a dollar an hour.

It takes the patrol two hours to complete one tour around the lake.

The students are required to be able to ride and to know something about horses before they can apply for a job with the patrol.

The riders have a meeting place along the lake so that they can keep a check on each other. In case of fire they can report it by telephone at the Little Grassy Camp.

Agriculture Club Banquet Thursday
The annual banquet of the Agriculture Club is scheduled for 6:30 p. m., Thursday in the banquet room of the University cafeteria.

The speaker for the event this year will be Dr. E. M. Hughes of Woodstock, Ill. Hughes has served on the staff of the University of Illinois and is a national agricultural leader. He has served as an administrator of U. S. Government Surplus Commodity Administration, and has developed and is operating one of the best organized and successful farm businesses in the country.

Dr. Wendell E. Keeper, dean of the school of agriculture, urges all agriculture students to attend. The price of admission will be \$1 per person. Tickets can be purchased at main agriculture offices or from executive committee members.

Swimmers, Wrestlers Seek To Extend Win Streaks

Coach Bill Hessemer's swimming team will seek its tenth straight win in a meet at Western Illinois Saturday afternoon.

Victim number nine on SIU's win skien was Beloit College, 57-28 before a Southern breeze last Saturday. Last year Beloit defeated SIU, 52-32.

Setting new records for Southern Saturday were Robert Montgomery, Grafton, who swam the 220-yard free style in 2:28.6; Lawrence Benjamin, freshman, from Highland Park, who swam the 220-yard butterfly in 2:43.6; and the 400-yard medley relay team, which was clocked in 4:32.8.

Southern will be a heavy favorite over Western Illinois. A year ago this week SIU won its first varsity swimming meet by downing Western 53-31. SIU lost the following week and then closed the season with five straight wins, which are part of the current nine-meet win record.

Western, 44-41 winner over Normal last week, has reliable performers in such persons as Dick Wells, Manure, in the sprint; Perry Standard, Macomb, in the backstroke; Joe Rusk, Argo, in the North Tonawanda, N. Y., in the free style.

SIU's probable entries include Montgomery, double winner against Beloit last week; Benjamin; Terry Lockman, West Frankfort; 200-yard backstroke winner against Beloit; John Huber, Hoopston, 200-yard breaststroke specialist; and Roger Council, Wood River, and Bruce Coleman, West Frankfort, SIU's diving standouts.

Southern's next home meet will be against St. Louis University the afternoon of Feb. 2.

MAY OPPOSE TWIN

When SIU's wrestling team meets Ritenour YMCA at Overland, Mo. tomorrow, John Orlando, SIU junior, may find himself wrestling his twin brother, Pete, a member of the YMCA.

John Orlando, SIU junior, may find himself wrestling his twin brother, Pete, a member of the YMCA. In the summer, John and his 10 brothers (he also has three sisters) have their own baseball team, which competes in league play in the St. Louis area.

Pointing to their ninth straight dual meet victory, Coach Jim Wilkinson's wrestlers meet Ritenour YMCA at Overland, Mo. tomorrow.

SIU won its eighth straight dual meet last Saturday night against Eastern Illinois, 23-10. The win skien dates back to February, 1956.

Ray Fowley, Lee Gubbs, John Cynak, Herman Ayes, John Orlando, Bob Dunkel and Ed Hayes landed in victories for the Salukis.

Southern was listed robust Western Illinois in the SIU gym today, but the match was canceled, and the Ritenour match scheduled.

The next home meet for the matmen will be Indiana University Feb. 9.

Modern Dance Club Prepares For Concert

The Modern Dance Club is preparing for its annual Spring Concert, according to Mrs. Jane Daquag, sponsor of the Modern Dance Club and director of the event.

Open meetings are now being held for all girls who are interested in performing in the spring concert. Those girls that are interested and are chosen must attend four open meetings by March 4, in order to participate.

It was pointed out by Mrs. Daquag that the students do their own choreography and one number for the concert. A comedy dance has already been choreographed and the other numbers will be choreographed soon.

Plans for the concert now include comic, jazz, primitive and ballet numbers.

The concert will be held in Shrock Auditorium, May 16. During the winter term the Modern Dance Club holds open meetings on Monday afternoons at 4:00 and Thursday evenings at 7.

MEETS ILLINI

Julius Johnson, stellar performer for the SIU gymnastics team, balances on the parallel bars while working out in preparation for the University of Illinois meet at Champaign tomorrow.

Illinois meet at Champaign tomorrow. The Salukis are facing their second Big Ten opponent of the season. They lost to Michigan State in a meet here that opened the season.

Gymnasts Meet Illini Tomorrow

The nation's number one gymnastic team — the University of Illinois — will be host to Southern Illinois in a dual meet at Champaign Saturday afternoon.

National Collegiate Athletic Association champions last year and favored to repeat this year, the Illini squad represents one of America's greatest collection of college gymnasts.

Illinois won its opening three meets, including the strong Midwest Open tournament in Chicago. Dual meet victims were Western Illinois and Ohio State.

SIU, which reinstated gymnastics only last year after a lapse dating back to World War II, has an inexperienced squad. In its only meet this season, Southern dropped a 58-18 decision to Michigan State.

Illinois' coach Charles Ponds is very optimistic about his team, saying, "The ten men who will make up our team all are capable of scoring in the national collegiate meet. We have outstanding specialists who will give support to the all-around men."

Key man on the team is Don Tony, Big Ten and NCAA all-around champion from Brooklyn, N. Y. Tony recently won the all-around.

Another top performer for Illinois is Frank Haland, Chicago, a tumbling expert who was on the 1956 U. S. Olympic team.

Other returning lettermen include John Davis, Chicago, Mike Karon, Bloomington; and Michael Walters, Winnetka.

SIU Coach William Meade, head gymnastic coach at the University of North Carolina last season, said that his team is continuing to improve, but is a couple of years away from being a formidable squad.

Three important members, Gary Danner, Carmi; Jim Gregg, Benton; and Bill Ballester, Karlovace, have been added this month and should develop into top performers. Danner's specialty is tumbling, free exercise, and parallel bars, while Gregg and Ballester are trampolinists.

Sig Pi, Tri Sig Win Bowl Titles

Sigma Pi clinched first place in the fraternity bowling league for the first half of the season by defeating Theta Xi last week.

Tri Sigma had already clinched the season's league for the first half of the season.

Eldon Klein with 728 and Walv Reese with 717, were high for the Sig. Ed Langen and John Meckles led Theta Xi with 708 and 691 respectively.

Tuesday night, play was started for the second half of the season, with three teams trying for first in the fraternity league — Theta Xi, Alpha Sigma and Theta Chi.

Theta Xi defeated Sig Tau, 3-1, led by Ed Langen. Alpha Sigma behind Terry Watson, won from Sigma Pi, while Acacia defeated Delta Chi.

Psi Tau and TKE tied two and two.

On the girls' side, Tri Sigma opened defense of its first half crown by defeating Phi Kappa Sig, 3-1.

Whitlock's 223 Points Lead Saluki Scorers

A run-down of statistics just after mid-season reveals a 14-4-4 Whitlock, 6-5 center-forward, a leading SIU's capers in scoring with a total of 223 points and a 17.2 point average per game.

This does not include figures from the Illinois Wesleyan game Wednesday night.

Whitlock, scoring only 47 points in the last four games, fell below his 20-point average of early season games.

Seymour Bryson and Warren Talley, who led the Salukis in scoring last year, are the only other regulars who are averaging in the double figures. Bryson with 11.8 and Talley with 11.5.

Whitlock, scoring only 47 points in the last four games, fell below his 20-point average of early season games.

Another glance at the statistics shows the two road games last weekend inflated the opposition's scoring average from 6.1 per game to 70.1. Illinois Normal scored 96 points and Western Illinois 80 in SIU defeats.

SALUKI STATISTICS			
Player	G	TP	AVG.
Whitlock	14	223	17.2
Bryson	14	154	11.8
Talley	13	150	11.5

Lambert	13	127	9.8

The wrestling squad will travel to Overland, Mo. tomorrow to meet Ritenour YMCA.

Dr. C. William Horvath, director of the SIU Photographic Service, and Robert Steffen, journalism instructor at Bowling Green, University, are the co-authors of "Laboratory Exercises in Practical Photography."

Salukis Win At Wesleyan

Southern Illinois University wasted away a 67-61 lead over Illinois Wesleyan at Bloomington Wednesday night and then came back for a 74-69 victory.

Southern had its six point lead with five minutes to play but the Titans made eight of the next nine points to take a 69-68 lead going into the last two minutes.

Larry Whitlock then rebounded a Saluki shot for the basket which gave SIU a 70-69 lead. Southern got the ball again and Richard Jones made two free throws for a three-point margin.

Seymour Bryson scored 27 points to lead Southern and also rebounded well for one of his best games in two seasons for the Salukis.

Southern made nine of its first 16 shots and appeared on the way to a decisive victory with a 43-32 halftime lead before Wesleyan made its late comeback.

Southern — Bryson 27, Whitlock 15, Jones 14, Lambert 8, Talley 5.

Wesleyan — Metzger 18, Dugger 16, Hoffelder 15, Wagem 14, Quillman 6.

What a MATHEMATICIAN can do at IBM

Mathematics is an ancient but ever-advancing science that contains many forms. It shouldn't surprise you then that it took some time before John Jackson discovered the one brand of mathematics that seemed custom-tailored to his ability and temperament. John is an Applied Science Representative, working out of the IBM office at 122 East 42nd Street, N. Y. C.

The astraft people decided that they couldn't afford to wait that long, so they called in IBM. After discussion with top executives, John helped to map out a computer program that saved the organization over 100 days.

First of all, what's it all about? What does a fellow like John Jackson do all day? In his own words, "I keep in touch with the executives of many different companies—advising them on the use of their IBM electronic data processing computers. I personally consult with these customers, and analyze their scientific and technical problems for solution by IBM. Occasionally, I'm asked to write papers, and give talks and demonstrations on electronic computing. In all of it, it's pretty fascinating . . . something new pops up every day." In other words, John is a full-fledged computing expert, a consultant . . . and a very important person in this field.

Another service that John performs is the constant reappraisal of each customer's IBM operation. Occasionally, a customer may tie himself in knots over a procedural "stickler." Periodically, in fact, John brings IBM customers together . . . just to talk over what's happening in each other's business—how everybody else handled that old bugaboo in any industry . . . details.

Introduces new methods

During the two years that John has spent with IBM in Applied Science, he has guided innumerable IBM customers to new and better ways of doing things electronically. For example: about a year ago, a leading aircraft manufacturer wanted to experiment with a radically different design for a nuclear reactor. Although the basic format had been established, the project still required many months of toil with mathematical equations.

New field for Mathematicians

John is exercising his mathematical know-how in a field that was practically unheard of ten years ago. Even now, this kind of work may be new to you. It was to John Jackson a year and a half ago when he was an undergraduate at the University of Colorado. At that time, he was considering actuarial work or mathematical research. But John liked the excitement and diversification of science and industry and he wanted to use his

IBM hopes that this message will help to give you some idea of what a mathematician can do at IBM. There are equal opportunities for E.E.'s, M.E.'s, physicists and Liberal Arts majors in IBM's many divisions—Research, Product Development, Manufacturing Engineering, Sales and Technical Services. Why not drop in and discuss IBM with your Placement Director? He can supply our latest brochure and tell you when IBM will next interview on your campus. Meanwhile, IBM will happily answer your questions. Just write to Mr. P. H. Broadway, IBM, Room 0000, 690 Madison Avenue, New York 22, N. Y.
