U. of Alaska	

BENEFITS OF UCOWR MEMBERSHIP

The Universities Council on Water Resources (UCOWR) is an association of over 80 member universities, organizations, and individuals leading in education, research and public service in water resources. Benefits from membership include:

Advocacy

UCOWR is dedicated to developing new science and preparing leaders and technologies for the use, management, and protection of water resources. UCOWR delegates are advocates for the incorporation of contemporary issues and methodologies in the classroom, research laboratories, and the field. Evolving academic programs in water resources promoted by UCOWR are excellent curriculum models for other interdisciplinary programs.

Leadership

UCOWR's officers and member delegates represent the nation's leading academic professionals dedicated to expanding the knowledge base and training water resources professionals. Each year, graduates of UCOWR member universities constitute the majority of new water resources professionals establishing careers. UCOWR encourages delegates to assume leadership roles within their institutions and supports this through electronic and personal networking services. In addition, the organizational structure of UCOWR provides opportunities for leadership development through participation in committees and on the Board of Directors.

Professional Growth

UCOWR is the only professional organization embracing the entire range of disciplines involved in water resources and serving serving academic institutions and their faculties. This diversity provides the holistic perspective necessary to solve today's complex water problems and to train the nation's future water resources leaders. UCOWR promotes the professional growth of member delegates in order to enhance their impact and effectiveness within the community of water resources professionals. *The Journal of Contemporary Water Research & Education*, a UCOWR publication, presents research to encourage dialog on contemporary water issues to a degree not afforded by other water-related journals. UCOWR's annual conference provides a forum for exchanges of information in an atmosphere conducive to open discussion and network building among individuals and institutions. The achievements of outstanding water resource professionals are recognized through the UCOWR awards program, including the Warren A. Hall Medal, Ph.D. Dissertation Awards, and the Education and Public Service Award.

Other Benefits

Each university member institution receives

- Hardcopy and electronic subscriptions to the *Journal of Contemporary Water Research & Education*
- Reduced registration fees for staff and students at the annual conference
- A voice in the governance of UCOWR (1 lead delegate and up to 7 additional voting delegates)

Individual members enjoy

- Hardcopy and electronic subscriptions to the *Journal of Contemporary Water Research & Education*
- Reduced registration fees at the annual conference

1000 Faner Drive, Room 4543, Southern Illinois University Carbondale, Carbondale, Illinois 62901-4526

MEMBERSHIP BENEFITS Include

- A subscription for up to 11 paper copies of the *Journal of Contemporary Water Research and Education*, with its concise analysis of pressing water resources issues
- Accessibility for all agency staff to all sections of the UCOWR website (www.ucowr.siu.edu) that hosts over 50 issues of the *Journal of Contemporary Water Research and Education*.
- Information about conferences and discounts for registration at UCOWR’s annual conference
- Collaboration with leading U.S. researchers on water resources
- Voting rights in UCOWR affairs for up to 8 individual delegates

Membership is subject to approval by UCOWR Board of Directors and is based on the July 1 - June 30 fiscal year.

	Annual	2-Years	3-Years

2008 UCOWR/NIWR CONFERENCE THEME

International Water Resources: Challenges for the 21st Century

The availability of clean water and sanitation is closely related to human health and poverty. A billion people lack access to clean water; twice that many lack adequate sanitation. This conference addresses this global water crisis and challenges for the 21st century. The conference will include topics on water and human health in the developing world, water cooperation and conflict, availability of adequate water quality and quantity, privatization, a global perspective of natural contaminants in groundwater resources, low-cost remediation technologies, effects of global climate change, water security and sustainability, and mitigating the consequences of water resources hazards.

PRESENTATION TOPICS

- ◆ Advances in Water Treatment
- ◆ Global Perspectives on Ground Water Quality
- ◆ Cooperation in Water Management
- ◆ Water Resource Diplomacy
- ◆ Water Conflict
- ◆ Water and Human Health
- ◆ Climate Change and Water
- ◆ Virtual Water Trade
- ◆ Water Privatization
- ◆ International River Basins

ABSTRACT SUBMISSION

Abstracts for paper, panel, and poster presentations should be submitted electronically from **September 17, 2007 to December 5, 2007** at www.ucowr.siu.edu

Abstracts should be 250-300 words and, if accepted, will be published as part of the Conference Proceedings on CD-ROM. There will be an opportunity for extended abstracts to replace original abstract submissions.

For more information, contact:

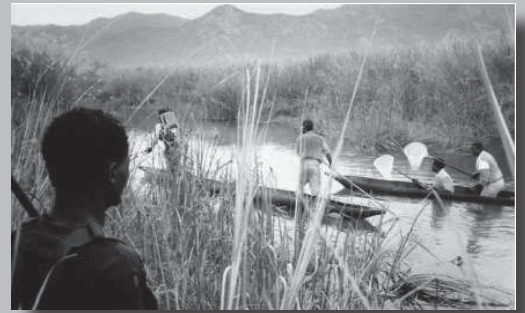

Rosie Gard, UCOWR Headquarters, gardr@siu.edu (618) 536-7571
or

Ken Reckhow, Nicholas School of the Environment and Earth Sciences, reckhow@duke.edu (919) 613-8026

CONFERENCE CO-SPONSORS

NICHOLAS SCHOOL OF THE
ENVIRONMENT AND EARTH SCIENCES
DUKE UNIVERSITY

DURHAM, NORTH CAROLINA

Durham is a colorful, creative, and entrepreneurial community and is the proud home of Research Triangle Park, Duke and North Carolina Central universities. Durham is also home to 13 historic sites, three art centers, 12 signature annual events with national or regional recognition, plus dozens of other core and celebrated annual events, six science and nature centers, and great spectator sports venues.

CONFERENCE HOTEL

The Durham Marriott Civic Center is located in the heart of Durham with fine shops, restaurants, bars, and music venues within walking distance. The 9-floor, 187 room hotel boasts attractive architecture, concierge service, and complimentary transportation within a 4-mile radius. Its staff is noted for pampering guests with Southern hospitality.

Increasing Freshwater Supplies

Selected Papers from the 2006 UCOWR/NIWR Annual Conference
Held July 18-20 in Santa Fe, New Mexico
