CORAL : Centralized Online Resource Acquisitions and Licensing

- Open Source ERM
- 1st module released in the Summer of 2010
- Developed at the University of Notre Dame's Hesburgh Libraries
- 4 modules:
 - Resources
 - Licensing
 - Organizations
 - Usage Statistics
- More info with technical documentation, download instructions, forum, listserv info at <http://erm.library.nd.edu/>

Usage Statistics module

- Version 1.0.0:
 - Manual load
 - JR1 and JR1a reports only
 - Linked to CORAL organizations module

- Version 1.1, released on Sept. 30, 2013
 - Accommodates SUSHI
 - COUNTER Release 4 support
 - Supports BR1, BR2, and DB1 formats
 - Interface redesign
 - BUT there are unresolved timeout issues

Uploading stats into CORAL

1. Get stats from publisher site
 - send via e-mail
 - download from browser
2. Convert to .txt format
3. Upload to CORAL
4. Check log file
 - Correct problems if necessary

Other features

- By default, CORAL will not overwrite previously loaded reports
 - Excellent for dealing with mid-year journal platform changes (e.g. from Highwire to Atypon)
- No partial monthly data gets loaded

Usage Reports

This is a separate, add-on module to the Usage Statistics module. Very helpful for on-demand reports on a variety of things including:

- Provider rollup (stats by provider)
- Publisher rollup (stats by publisher)
- Top journal requests
- Yearly usage stats
- Usage stats by title
