COORDINATING COMMITTEE FOR DEFENSE ACTIVITY ORGANIZED ON LOCAL CAMPUS THIS WEEK

Expense Reduction For Students and 12 Month School Year Among Policies Suggested at Initial Meeting

The coordinating committee for defense activity at Southern Illinois Normal University met for the first time Tuesday of this week. The purpose of the new committee is to unify the scattered programs at Southern into one great movement for national defense. The committee will study the movements being undertaken by the various departments of the school and make suggestions for the adoption of general policies to the Council of Administration.

At their first meeting Tuesday morning the committee suggested that the following general policies be adopted by the Council:

1. The school be run on a twelve-month basis.
 2. More night courses be given.
 3. All possible efforts be made to reduce the expense of attending school to the student.
- In regard to the first suggestion, it was pointed out that due to defense industries and efforts throughout the nation there is going to be a shortage of teachers. Southern Illinois will feel the shortage. A twelve month session would enable Southern to speed up the preparation of teachers to help alleviate this shortage.

More Teachers

Not only does the school need to train more teachers to help prevent a serious shortage of educational leaders, but men students should be allowed to finish as much of their training as possible before reaching draft age. A twelve-month school year would permit the student to amass more training rapidly.

Because of the desire to speed up preparation of teachers, it was asked that the vacations between winter and spring terms and between summer and fall terms be discontinued.

More Night Courses

The coordinating committee suggested that if needed, night courses be offered by every department of the college.

In order to help the students to meet some of their most pressing problems, that of expense, the committee proposed to the Council of Administration that everything possible be done to allow the student to attend Southern at less expense. It was pointed out that since the ban on fires, more students will find it desirable to commute to and from school. The possibility of a housing project to provide cheap living quarters for such students or the services of a school bus would help to solve this problem. At the present time every effort is being made to keep living expense down at the college.

ALUMNI CHAPTER PROPOSED FOR KAPPA PHI KAPPA

Initial steps toward the founding of an alumni chapter of Kappa Phi Kappa, professional education fraternity, were taken Monday evening when officers of the local college chapter and sponsor, Dr. Bruce Merwin, were guests at a meeting held in Mr. Vernon of north teachers of Jefferson county.

The plan was to initiate the formation of the alumni chapter which will be one of the very few such chapters in the nation, is being sponsored by the S.I.N.U. Alpha Division Chapter, of which the newly formed Alumni organization would be a branch.

President, Dorothea Vaupel, vice president, Helen Yates, secretary, Virginia Adams, treasurer, Betty McCarney, Charles Finkbeiner, Harry McCarney, St. Frankfort; Beatie McAnally, Chicago; Phyllis Middleton, Alton; Wilma Rains, West Frankfort; and Helen Louise Stafford, Carbondale.

These girls will be the charter members of the chapter.

Officers electing

The chapter is seeking a period of pledgeship to the national organization of Kappa Phi, and will be officially installed in March. The officers are as follows:

President, Dorothea Vaupel; vice president, Helen Yates; secretary, Virginia Adams; treasurer, Betty McCarney; Charles Finkbeiner, Harry McCarney, St. Frankfort; Beatie McAnally, Chicago; Phyllis Middleton, Alton; Wilma Rains, West Frankfort; and Helen Louise Stafford, Carbondale.

"EGYPTIAN" FOLKLORE PRESENTED IN BOOKLET BY MR. DAVID S. MCINTOSH

Professor David S. McIntosh, head of the department of music at Southern Illinois Normal University, has recently had published a booklet entitled "Singing Games and Songs from Southern Illinois".

The book represents eleven years of research among folk living in "Little Egypt" and contains many of the old songs and dances characteristic of this section nearly one hundred of the one in Carbondale; William McAndrew, colored in the Carbondale, Mo. area; Ota Thomas, Robert English, J. Henry Schroeder, Tracy Bryant, and other faculty members directly connected with defense work.

The book contains eleven years of research among folk living in "Little Egypt" and contains many of the old songs and dances characteristic of this section nearly one hundred of the one in Carbondale; William McAndrew, colored in the Carbondale, Mo. area; Ota Thomas, Robert English, J. Henry Schroeder, Tracy Bryant, and other faculty members directly connected with defense work.

TIRE CHIEF ALEXANDER HEAD OF CARBONDALE TIRE RATIONING

"Twenty-three new tires for Jackson county this month," to quote Dr. Orville Alexander, newly elected member of the "The Rationing Board" for Jackson county, "is the official quota of tires permitted by the United States government for this area."

This announcement, presenting a chronic problem of automobile tires for the students of S.I.N.U. and residents of Carbondale, as well as the other 123,000,000 remaining people living in the United States, will remain unchanged until January 20 when a new allotment will be made.

Students Affected

Paramountly to be affected by the rationing of tires on this campus, will be the approximately 200 students who attend classes by commutator. Although an attempt at solving this problem could be made by the student making their residence in Carbondale, the solution falls short of being adequate when the serious housing shortage caused by the ordinance plant influx is considered.

The go-home-every-week-end students will also be affected somewhat by the scarcity of tires when their present means of transportation had to meet the civilian restrictions on the purchase of new tires.

Dr. Alexander agrees that this is a crisis for America, a country that is the only one of some 70-85 percent of the world's automobiles. However, the immediate result of O.P.A.'s declaration of no new tires for Mr. and Mrs. America, will not be felt by the average person for some time, at least not until their tires wear out. It is then that the American bicycle brigade can be expected.

NOTED ARMY RESERVE OFFICER, SINU GRADUATE, DIES IN NEW YORK CITY

Colonel Oliver Prescott Robinson, veteran of five military campaigns and commanding officer of the largest voluntary Reserve Unit of college corps for the nation, died yesterday afternoon at his home, 25 Hamilton Place, as the result of a heart attack. He was 62 years of age and had spent 15 years of that span in army service.

Colonel Robinson was born in Peoria, Ill., just south of Carbondale, on March 23, 1879, and was a graduate of the Southern Illinois State Teachers' College at Carbondale, Ill. His last command as a member of the military staff of the City College of New York, he had held since 1935. Prior to that time and following the armistice he had been commander of the 11th Infantry Regiment at Fort Benjamin Harrison.

When the report of the attack upon Hawaii by the Japanese empire was received, Colonel Robinson immediately returned by the "Sagore" Coleridge "decoration bestowed upon him by Japan many years ago. This act was typical of the fine old warrior who had received recognition among army circles as "The man to whom the difficult jobs were given."

At the commencement of hostilities with Spain in 1898, Colonel Robinson enlisted as a private in the Fourth U.S. National Guard Infantry Regiment at Littleton, Colo. afterwards being mustered from service as a first sergeant. During the Philippine Insurrection he was commissioned as a captain of the Philippine Scouts, and culminating his military career in the World War he served as chief of staff of the American Expeditionary Forces in Siberia and of the Eighth Division of Camp Fremont, Calif.

Full military services were given Colonel Robinson at Arlington National Cemetery.

LOUNGE TO OPEN OFFICIALLY AT TEA DANCE NEXT TUESDAY

Students and Faculty Invited to Informal Affair in Lounge and Little Theatre From 4 Till 6 P.M.

At the annual inauguration of the Student Council in chapel this week, S.I.N.U.'s first Student Lounge was formally presented to the student body by Bob Callias, Student Council president. The formal opening will be a tea-dance, Tuesday afternoon, January 13, from 4 until 6 o'clock to which all the students and faculty are invited. The tea will be served in the lounge, with dancing in the Little Theatre. It is intended to be very informal, students coming in school clothes from their classes. Arrangements are being made by Pat Hill and Nancy Freeman.

For several years the Student Council has been striving to establish a Student Lounge. Each year, in its budget, the Council has appropriated money for this purpose. Heretofore, due to the crowded condition of the school with its increase in enrollment, no room was available. This year the Y.M.C.A. room was secured for the lounge.

The room is located on the second floor of the Old Science building. The old furnishings are being used along with the new furniture, selected by a committee in charge of purchases, and headed by Graham Crichton. The new furniture includes a sectional couch upholstered in green mohair, a rose-gold mohair divan, five armchairs of green mohair, five brown leather chairs, a card table and chairs set, and a combined radio-phonograph and record player. Attractive floor-lamps give adequate lighting. Magazines, including "Coronet", "Squire", "Field & Stream", "Life", "Mademoiselle", "New Yorkers", and "Omnibook", are kept in the lounge. Candy, coke, and cigarette machines have been placed in the lounge for the convenience of the students in the lounge.

The lounge is open from 7:30 a.m. until 3:30 p.m. every school day. It is for the accommodation of every college student.

NATIONAL FRATERNITY FOR COMMERCE MAJORS FORMED ON LOCAL CAMPUS

The Beta Zeta chapter of Pi Omega Pi, the national commercial scholastic fraternity, was officially installed at our college on Sunday, December 14, 1941, in the Little Theatre.

The installation services were conducted by members of the Alpha Chi Chapter and their sponsor, Stanley Robinson of Eastern Illinois State Teachers' College, Charleston, Illinois.

Charter Members

The ten charter members who formally pledged and initiated as charter members are as follows: Miss Sadie Ordner, Mrs. Van Babolik, Marie Graesser, Martha Linder, Jane Melzheimer, Elna Meyers, Erel Paul, Theresa Ruffino, Dorothea Vaupel, and Payne Willmore. The Beta Zeta chapter has Leonard Keeffe of the University High school faculty as its sponsor.

The officers of the organization were elected following the reception they are:

President—Martha Linder.
Vice president—Erel Paul.
Secretary—Theresa Ruffino.
Treasurer—Payne Willmore.
Historian—Marie Graesser.

Entrance into this organization is based on scholastic average.

Pi Omega Pi, known as the Pi Omega in the educational world. Many of the chapters have sent telegrams and letters of congratulation to the newly installed chapter, Beta Zeta, which numbers the fifty-third installed chapter of Pi Omega Pi.

The ten charter members are looking forward to their banquet which will be held at the Grant City park lodge in the near future.

Delbert Hamilton Will Head Victory Book Campaign Here

A nationwide Victory Book campaign to collect reading matter for men in service will get under way next week. Delbert W. Hamilton, campus advisor and librarian at the local public library, has been named Carbondale director of the campaign by State Director, Ralph E. McCoy.

The American Library Association, the American Red Cross, and the United Service Organizations are sponsoring the drive. While the campaign is to collect chiefly books for recreation and diversion, other types will be accepted. The central depository for Carbondale will be the public library, where the books will be sorted.

Students who wish to make donations of books may turn them in at the public library or at the college library, where a branch depository has been set up.

RALLY COMMITTEE SADDLE SHOE STOMP HELD LAST NIGHT

The active members of the girls' rally committee entertained their 42 new pledges with a Saddle Shoe Stomp last night in the new student lounge.

Decorations for the dance consisted of two pairs of white saddle shoes hung by shoe strings around the room. Dance programs were miniature saddle shoes with the emblem of the girls' rally on them. Novelty dances and games consisted of the entertainment for the evening.

The girls who have been invited to pledge the organization are: Ann Abernathy, Pat Birkhead, Helen Blankenship, Vera Boller, Wanda Carter, Corolline Cole, Kathleen Cookman, June Campbell, Lucretia Crain, Elouise Crain, Helen Krenzschvold, Nancy Phelan, Edna Lee Phelan, Alene Griffith, Nadine Holley, Margaret Kiffin, Jane Kandleritz, Betty Lepp, Doris Lasaver, Bernadine Lepp, Frances Laney, Marilyn Martin, Virginia Merberly, Marion McIntosh, Betty Mercer, Mary Parks, Helen Pottenberger, Viola Rodemeyer, Jean Weaver, Margaret Sloan, Helen Weaver, Arlene Weaver, Phyllis Jean Smith, Arlene Klein, Dorothy Kaufman, Rose Arlesic, Phyllis Cox, Elaine Horubach, Doris Henderson, Lois Mitchell, Neillo Jo Seger, and Ditty Daniel.

SHORTAGE OF TIRES WILL VITALLY AFFECT COLLEGE STUDENTS WHO COMMUTE

Students who wish to make donations of books may turn them in at the public library or at the college library, where a branch depository has been set up.

KAMINSKY TO APPEAR HERE FEBRUARY 19

Talented Young Violinist Is Second Artist to Appear on Coop Concert Program

Anatol Kaminsky, talented young violinist, will appear at the Shryock auditorium on February 19. His performance will be the second of this year's attractions presented by the Carbondale Cooperative Concert Association.

Kaminsky made his debut as a soloist with the New York Philharmonic-Symphony orchestra at the age of twenty last year. His season's work was so successful that he was re-engaged.

Born in Siberia

Born in Siberia, Kaminsky has lived in China. He was educated in Paris and New York, where his training included a progressive general education as well as musical study. Though he is young, his career began favorably, and he shows promise of a great future.

Two Other Concerts

Two more Cooperative Concert attractions will appear in Carbondale this season. Following Kaminsky on March 5, will be the Barreire Trio, composed of George Barreire, flutist; Florence Britt, French oboist, and Jerome Rappaport, pianist. The last concert of this season will be given by Gladys Swarthout, famous mezzo-soprano at the Grand Opera, and Stravinskian Opera. Her appearance is scheduled for April 21.

The first presentation by the Cooperative Concert Association was that of the Grant Ballet last fall.

OUTSTANDING STUDENTS NOMINATIONS TO BE HELD ON FRIDAY, JANUARY 16

Nominations for the annual election of outstanding S.I.N.U. students will be held next Friday, January 16. It was announced recently by the Student Council committee in charge of campus elections. Final balloting will take place the following Friday, January 23.

Primary Voting

Students are to vote in the primary election for five persons whom they consider outstanding leaders on Southern's campus. The names of the forty students receiving the largest number of votes will be placed on the final ballot. In the final election students vote for men, and the student receiving the most votes are elected.

For Oberlin

As is customary, the pictures of these outstanding students will appear in the 1942 Oberlin. Results of the election will be held in secrecy by the editor of the Oberlin and the election committee of the Student Council.

Victor Hicken, chairman of the election committee, stated yesterday, "Unless each student who votes gives careful consideration to the qualifications of the candidates, the election can easily degenerate into a popularity contest. Voting for a person on the basis of personal likes or dislikes will defeat the true purpose of the election—which is to choose those students of S.I.N.U. who have been truly outstanding in the various phases of campus activities. We urge each voter to exercise his best judgment in casting his ballot."

Polls for the nominations will be located on the first floor of the Main building in the west corridor, across from the caddy stand. Votes may be cast between 8:30 and 9:00.

TRISIGMAS HOLD FORMAL PLEDGING

Fifty girls were formally pledged to Alpha Nu chapter of Sigma Sigma Sigma at the start of the winter rush season. They were Margaret Kony, Yalder, Mary Eddleman, Gorham; Mary Bee Haynes, Anna; Nadine Sparry, Christopher, and Elaine Steinheimer, Vorgenues.

The Magnificent Russian Stand

On June 22, 1941, Hitler sent his army and air force into Russia, starting what he thought would be a six weeks' campaign...

One of the most convincing proofs of Russian unity is their "scorched earth" policy. Such a policy could not be carried on by Stalin alone or by the Communist party...

The last ditch defense of Leningrad and the street-by-street defense of Odessa show the grim determination of the Russians...

Then the Soviet offensive began in earnest all along the fifteen hundred mile front. The Nazis are now being driven back everywhere...

-TOM STEPHENSON.

SCIENCE OF MORALE

President Roosevelt has requested of all newspapers to withhold publishing casualty lists. Mr. Roosevelt also has requested that newspapers reserve publishing anything about the attack in Hawaii...

F.D.R. asks that these lists be withheld because they will furnish valuable information to the enemy as to American casualties in a given battle. He, however, states that from time to time total figures will be released by the authorities...

Those who remember the first World War have predicted a general hysteria, as soon as the casualty lists start coming in. When we begin to realize that friends and acquaintances have been killed, the usual result is for us to become fully angry...

-SUBMITTED.

ANTS, THE ANSWER

"Life is a song, let us sing it together." The ants in the ant kingdom have adopted a similar concept of living a life. Instead of singing a song, the ants have worked out a plan of life that we as individuals would be wise to follow...

The ants through concerted action have planned their lives and their work so that, instead of being a bunch of separate, egotistical, snobbish, economical, social thrivers, they are a group of dependent, social conscious, humanistic thrivers...

To reiterate, we, as individuals, can profit if we will take heed from the ants, if we will cooperate with our fellow men. The load that we must carry will be far easier if all shoulders are put to the wheel...

-WALLACE PRICE.

SOUTHERN DEBATERS IN TOURNAMENT AT NORMAL TODAY AND TOMORROW

Members of the Southern Normal University debate team left for Normal early this morning. Accompanied by their coach, Miss O. Thomas, who is chairman of the debate committee at Southern...

WHO - WHEN?

The army needs men. Join the army today. The navy needs young college graduates and undergraduates. The navy needs men to be future officers. Remember Pearl Harbor. Keep them flying. Be patriotic. Join the navy and see the world.

The world is tearing everything up. In the future, the near future, Uncle Sam is going to tear it up still more. Remember Pearl Harbor.

Well, somebody has got to be around when it is all over to put everything back together again. Who is that going to be? M.K.

Preferential Voting Preferred

The Student Council is representative of the student body only in proportion to student participation. But even so, it is possible in fact, it has been the case several times—for one political clique to control the council.

This existence of divisions can no longer be ignored. The fall elections brought it clearly to the foreground. Contention was so heated that it was sometime after elections before things began to simmer down.

The only fair solution of this problem is preferential voting. Several organizations on this campus have already adopted this method for electing their officers.

-S. ALLAN WATSON.

Student Council Minutes

January 5, 1942. The meeting was called to order by the president, Bob Collins. The minutes were read and approved.

The Council was reminded of the inauguration of the Student Council members before the student body on Tuesday, January 6.

Pat Lill presented two bills (157 and 158) for approval of the Council. Pat Mercer moved that they be accepted.

Harry Patrick moved that all bills incurred by anyone outside the Council must be authorized by the Council before the bill is made.

W. Hicken reminded the Council of the nomination for outstanding students Friday, January 16, and election January 25.

The meeting was adjourned.

"B" NATURAL

By BEETHOVEN.

The Palestine Symphony orchestra has opened its seventh season. The first concert was given for 1,600 soldiers in a camp somewhere in Palestine...

The fourth concert was a new departure for the orchestra. It was given in an open-air theatre facing the mountains of Galilee...

SPEAKING FOR MYSELF

By MORRIS POLAN

President Pulliam has the 2000s. I am talking the liberty of expression. I am not talking the liberty of expression in a few brief moments on President Pulliam's recent speech before the National Municipal League in St. Louis...

A literary classic is not of an age but of all time. It is the very nature of such a work that its greatness is the permanent rather than ephemeral. It is a work that transcends time and place.

MAINTAINING MORALE

By Associated Collegiate Press

Seven rules for maintaining wartime civilian morale have been outlined by Dr. Irving J. Lee of Northwestern University, an expert on the psychology of anxiety.

"The position of many Americans today," he points out, "is analogous to that experienced in stage fright. This situation, if permitted to continue, might lead to a deterioration of civilian morale."

It should be remembered by all civilians during the crisis are:

- 1. Center your attention on your task-at-hand and seek new ways of helping.
2. Don't feel that the whole burden rests on you.
3. Worrying about a situation dissipates your energy.
4. Don't expect too much.
5. Question all rumors.
6. Trust those in authority.
7. Don't worry near children.

Civilians often worry so much about war conditions that they lose efficiency in their work and their personal lives. This increases their anxiety. Any prolongation of worry leads first to inefficiency, then to personal breakdown.

"With the federal government spending millions on inter-American cultural co-operation and furthering the interchange of hundreds of American and Latin American intellectual leaders, Americans must become more intensive and more efficient students of foreign languages."

QUOTABLE QUOTES

By Associated Collegiate Press.

"It is not enough to rejoice that resistance to offensive fascist propaganda in the Latin American countries is bringing about a friendlier attitude toward our Good Will policy. It is the foundations of brotherhood that we must establish, and we have made only moderate progress in that direction."

America has produced a number of composers who have written works in large forms and some touching and charming art songs. Never widely known, some of those composers have been almost forgotten within their own lifetime.

Now, it is a notion common among both laymen and educators today, that because we live in what has come to be called a modern machine age, the thoughts are not to be moulded by the great intellects of earlier times.

Prof. Charles H. Best of the University of Toronto, co-discoverer of insulin, was the first to demonstrate that choline is essential in the living body to utilize fat.

Two members of the Southern Normal University debate team left for Normal early this morning. Accompanied by their coach, Miss O. Thomas, who is chairman of the debate committee at Southern...

The following students may secure their certificates in Safety Education and Driver Training if they will call at my office:

SPEAKING FOR MYSELF
(Continued from page 2)
failure of modern education. Liberal education in this country today is a pitiful farce except at St. John's where it is being re-established. That is the only place where liberal education is being taught, and it is the only place where it is being taught by a free electic system and adopted their own standards which proved to be no standards at all. Institutions of "higher learning" became dreary, dead schools and in the words of String-fellow Barst, "were conducted as well-run department stores." So true liberal education which was the hope of our fathers, has been abandoned, has as its true end the training of free and disciplined minds dog generated and failed.
This is doubly tragic if view of the fact that the future of humanity may well depend ultimately on education, which has the glorious task of preparing men to lead free lives. It is not the time for American education to follow the example of St. John's and furnish the kind of education which our forefathers possessed and which enabled them to live up to their obligations as rational beings. I think so, and let it be hoped that Walter Lippman was right when he said that at St. John's is "the seedbed of the American Renaissance."

This greatest crisis in the affairs of man, through which we are now passing, is very greatly due to the fact that we have been living by our own standards. They have led us only into the valley of the shadow of death. In such a time as this, one must wonder, in introspection, whether the literary classic known as the Book might not have its lessons to teach. For the Bible is indeed a literary classic, and its writings are the writings of the dead. Surely if there is any literary classic that has been neglected it must be the Bible. But one turns to this book and finds the following from the Book of Jeremiah:
"Stand ye in the ways and seek, AND ASK FOR THE OLD PATHS And ye shall find peace for your souls".
The thought must burn itself into our realization that if there is to be a brighter day—and that there must be—we shall have to ask for the old paths. Old paths that are forever true.

Magnus, Thomas Attend Speech Conference

ILLINOIS EDUCATION PUBLISHES "A SCHOOL WEATHER STATION," ARTICLE BY THOMAS F. BARTON

By JACK BARROW
An article by Dr. Thomas F. Barton, head of the department of geography at Southern Illinois Normal University, on the subject of weather observations stations, appeared in the November issue of Illinois Education, organ of the Illinois Education Association. Entitled "A School Weather Station," Dr. Barton's article presents plans for several inexpensive but practical devices for determining and forecasting the phases of the weather, suggests methods of integration with other school studies, and recommends various schemes to make the subject of weather observation more understandable to school children.
"Weather accounts such a universal curiosity among young and old, rich and poor, and the slow and the quick pupils that a weather station should exist in every school. With the present trend in teaching methods toward the laboratory and experiment, it seems surprising that the study of weather through the weather station has been so sadly neglected," begins Dr. Barton. He sets forth the different devices used in forecasting weather with a fair amount of accuracy at small expense. The first is a barometer made of a quart jar containing an inverted tongs needed bottle partially immersed in water; for telling whether the atmospheric pressure is rising or falling. Water rising in the neck of the bottle indicates the presence of a high pressure area, and conversely, a low pressure area. The second is a school-made weather vane to determine wind direction. The third is a mimeographed or typed Barometer.

MU TAU PI INITIATES ELEVEN NEW MEMBERS

Eleven new members were formally initiated into Mu Tau Pi, honorary journalism fraternity, at their last meeting. Members are chosen on the basis of outstanding work in the field of journalism at Southern. To be eligible for membership a student must have served on the staff of college publications for at least two terms.

Those who were initiated were: Myri Schreder, James Harris, Nancy Lee Freeman, Wallace Price, Jack Barrow, Tom Stephenson, Ruth Foley, Louise Miller, George Senneker, Margaret Keene and Marjorie Jacobs.

Five other students were chosen for membership but were not present at the initiation ceremony. These will be initiated at the fraternity's next meeting.

ART EXHIBIT IS ON DISPLAY IN MAIN BUILDING

Now on display in the second floor corridor of the Main Building is another of the traveling art exhibits which the S.I.N.U. art department, headed by Miss Gladys Porter Williams, has been sponsoring during the past two years.

fort wind scale which makes use of smoke from boxes, blowing leaves, tress, etc., as signs of wind velocity. This is a very accurate scale often used by government weather observers in the absence of instruments. The fourth is a free-cold device obtained from the Weather Bureau at Washington, D. C., which gives basic cloud types and means of identifying them and a ten-cent booklet, "Codes for Cloud Forms and States of the Sky," obtainable from the superintendent of documents, Washington, D. C., if desired. The fifth device is a cork rack gauge made of a cylindrical cardboard cork or suitable substitute, and a ruler. The last is a ten-cent storm thermometer.

Dr. Barton goes on to suggest means of integrating the subject of weather observation, naturally interesting to nearly all school children with other, perhaps duller subjects. He recommends means of making the subject simpler and easier to understand for grade school pupils. In closing Dr. Barton cites examples of successful school weather stations similar to the one for which he suggests plans, and cites examples from the extension courses in geography taught by Dr. Emerson Hall, also of the college geography department. Dr. Barton closes his article, which has attracted widespread attention, judging from the comment received through the mails, with the question, "Why not build a weather station?"

SURVEY SHOWS MORE MEN LEAVE SCHOOL FOR WORK THAN FOR ARMY SERVICE

Draft Has Taken 28 Southern Men; 33 Enlisted; Employment Opportunities Lure 195

The decreasing enrollment considered for some time as rather disastrous for the college in general, can be explained to some extent by the following statistics from the registrar's office. Since this decrease has predominantly been in the male enrollment of the college, Miss Clark has compiled figures dealing in this category only. In considering reasons for withdrawal from the college, induction through Selective Service Act, actual order numbers being called, was put at the top of the list. For this reason, about 15 students were called between the spring term and fall term of last year, and 12 since the opening of fall term. Because of voluntary enlistments 20 students were lost to the college between spring term and fall term 1941 and 13 since the opening of this fall term. Because of employment, 125 men have withdrawn from the college since the period between spring term and fall term 1941 and 71 since the opening of the fall term and through graduation the number has been 84 from between spring term and the fall term and 23 since the opening of fall term. Students who presented no reasons for their withdrawal amounted to 105 for the period between spring term and the fall term 1941 and 19 since the beginning of fall term.

BOOKS IN REVIEW

STORM by George R. Stewart. Random House, 1941. \$2.50.
By far the best novel that has been in our hands this season is George R. Stewart's new work, "Storm." It is even more praise-worthy than Cronin's "Keys of the Kingdom," which we finally got around to reading and which deserves all the attention it is getting.
In "Storm" the heroism, that is, the real heroism, is "Maria," a powerful storm that smashes across California. Maria is so named by the San Francisco Junior Meteorologist who saw her "birth" on his weather map, and who follows her during the twelve days of her "life."
During these twelve days Mr. Stewart very effectively and originally shows the activities of a host of characters who are affected by the storm. Each of the twelve days forms a section of the book, and into each section Mr. Stewart has woven a memorable drama of the lives and loves of people fighting the storm.

RELATION TO ELEMENTS ABOVE ALL WE SEE MAN'S RELATION TO THE ATMOSPHERE AND HIS FUTURE

RULES FOR THE STUDENT LOUNGE

- 1. Damaged furnishings shall be replaced or repaired by those causing the damage.
- 2. Furnishings shall not be taken from the lounge.
- 3. Persons not complying with the rules of the lounge and not conducting themselves properly shall be subject to disciplinary measures by administration of the college.
- 4. No organization shall use the lounge, or materials be held in it, except by special permission of the Student Council.
- 5. The lounge shall be open from 7:30 a.m. to 5:30 p.m. and on Friday night till 11 p.m.
- 6. No organization or groups with common interests shall be allowed to monopolize the lounge to such extent that they will inhibit the privilege by other students.
- 7. Smoking will be allowed if the lounge only as long as students respect the right to use it. This is construed to mean ashes in ash trays, cigarette butts in ash trays, and proper care of the furnishings, relative to smoking, is the responsibility of this privilege will result in the automatic withdrawal of this privilege by the administration.
- 8. Conversation shall be kept to a normal tone and the radio must be kept low enough so as not to disturb classes.
- 9. Due to lack of space, dancing can not be permitted.
- 10. Magazines and books placed in the lounge by the Student Council shall not be taken from the lounge.

RULES REGARDING ORGANIZATIONS

- 1. In general, no organization shall use the lounge during school hours.
- 2. In general, the lounge will be given over to organizational meetings no more than once a week.
- 3. The lounge will not be turned over to organizations for regular meetings.
- 4. Any organization wishing to use the lounge for a special function shall apply to the chairman of the Student Lounge committee not later than one week prior to the date on which they desire to use it.

New Jersey has awarded scholarships to Rutgers university and New Jersey College for Women to 30 physically disabled young men and women with high scholastic records.
