## To Replace Goodman Band Warren Covington, Commanders Signed For Military Ball

Trombone artist Warren Covington and his band, The Commanders will play for the Military Ball, January 25.

Covington has played with such bands as Horace Heidt, Les Brown, Mitch Ayres, and Gene Krupa before starting with CBS's Arthur Godfrey's radio and television shows. After that he played for such names as Jackie Gleason, Ed Sullivan, Robert Q. Lewis and Jerry Como.

In 1956 he decided to leave CBS and accept the leadership of

## Disbands Before Contract Is Signed

(See editorial, page 2)

The Benny Goodman orchestra, under the direction of Ulfar Green, will not appear at the Military Ball Jan. 25.

The group reportedly disbanded before signing a contract to appear here for a concert sponsored by the Arnold Air Society and the Military Ball dance.

The contract had been signed by the sponsoring group at SIU and sent to the manager of the orchestra.

Vocalist Gloria Hudson, who was to appear with the orchestra, will not be here.

Warren Covington and The Commanders have been signed to replace the Goodman group.

## Transmitter Bids Studied

Bids for construction of a 22-by-66-foot transmitter building for SIU's planned radio station WSRF-FM now are being studied by University officials before recommending contract awards by the SIU Board of Trustees.

Apparent low bidders when bids were opened recently were for general construction, A. M. Norman and Sons, Marion, \$22,160; for electrical work, Cunningham Electric Company, Anna, \$2,520; for plumbing, Industrial Contractors, Evansville, Ind., \$5,520; and bearing, Eddings Brothers, Carbondale, \$1,891. These total \$32,091.

The transmitter building, housing transmitting and remote control facilities as well as the University's public address system equipment, will be constructed of concrete blocks, faced with brick. It will be located near the base of the University's 336-foot antenna tower which was erected in November one-half mile west of the campus.

Buren Robbins, Director of the SIU-Television Service, says the station will be controlled from on-campus studios which now are being remodeled. It will be several months before work can be completed to put the 3,000-watt FM broadcasting station into operation.

The station will operate as a teaching and air service facility with students performing program preparation and broadcasting functions as part of their college training in radio and television work.

Another creation  
If the amount of equipment and activity has anything to do with the size of a future building, the forthcoming Home Economics building will be large indeed. Many large earthmoving machines now dominate the scene of the site for the new building. While these machines are in operation, the traffic on the streets nearby will, of necessity, be disrupted from time to time.

# \$3 Million Housing Loan From Federal Government Approved

SIU HOUSING  
Family housing to be built at Southern with part of the federal 3 million loan approved recently will be doubledecker units of modern design. This architect's view is of the 160 apartments to be built across U. S. Rt. 51 from the physical plant, east of the Illinois Central Railroad main line. Construction is expected to begin next spring.

## Visiting Chemistry Prof Announced

The Chemistry Department will have Professor H. H. Willard as a visiting professor for the winter and spring quarter of 1958.

"For the last several years, he has been a consultant for the Atomic Energy Commission," stated Dr. J. W. Neckers, chairman of the department.

"Professor Willard was with us during the winter and spring quarters of 1956, and is a very colorful man," Neckers continued. "We are highly pleased to have him back."

"He has published several books in the field of analytical chemistry and over 100 articles which have appeared in a variety of journals."

Professor Willard arrived 11 a.m. Friday and is living in Carbondale for the two terms. He came to the University of Michigan, where he also will spend a week in Washington, D. C., and another in California.

## For Madison, St. Clair Counties

### Dean Predicts 5,300 Enrollment Next Fall

Southern Illinois University fields, liberal arts with emphasis on science, and in an expanded graduate program.

See said final enrollment figures for the fall term this year showed 2,874 students at SIU Centers in East St. Louis, Alton and Belleville. The Alton Center started offering courses for the first time this past summer and the East St. Louis Center in September.

This fall, there were 1,873 tak-

## For Fine Arts Festival

### Mlle. Nadia Boulanger, Called 'World's Most Renowned Composition Teacher,' Here In May

Student composers, theorists, musicologists and leading teachers from throughout the nation are expected to gather at Southern next May for a rare musical opportunity—two weeks of study with Mlle. Nadia Boulanger.

The 70-year-old Frenchwoman who has taught and shaped the talents of most major American composers will spend the weeks of May 13 to 27 at SIU during the University's annual Festival of Fine Arts. Her appearance, first of its kind she has ever granted to a U. S. University, will be part of a one-month visit to the U. S. She also will spend a week in Washington, D. C., and another in California.

## Work Office Has Info On Camp Jobs

Have your summer plans made—Not.

Well, perhaps the Student Work Office can help you. Information on summer jobs in campus, motels and resorts has been coming in recently.

After January 15, materials concerning opportunities in business and industry will be available.

## Future Teachers Asked To Apply For Nat. Exam

Less than two weeks remain for prospective teachers who plan to take the National Teacher Examination to submit applications.

Application blanks may be obtained from Counseling and Testing Office of Student Affairs, which should be sent to Educational Testing Service not later than January 17.

Additional information may be obtained at the Office of Student Affairs.

## For Tonight, Tomorrow

### 'Picnic' Tryouts Set

Tryouts for the popular play "Picnic" will be held tonight and Wednesday at 7:30 p. m. in the Playhouse. The play will be presented February 24-28 and March 1.

"Every student is invited to try for roles in the play," emphasized Sherwin Abrams, who will direct the production.

Any student, regardless of major or amount of experience, may apply for a part in the play which includes four men and seven women.

Also, anyone interested in collecting props, set decorations, make-up, costumes, ushering, cost checking or lighting may attend the tryouts to apply for these positions.

"Picnic," by William Inge, is made popular by a recent movie based on the play. The play revolves around Flo Owens, mother of two daughters, who attempts to build an imaginary, impregnable cave to reveal the invasion of the outside world from her daughters. The conflict of "Picnic" develops when a young man drifts into the

## SIU Will Add \$1 Million

A \$3,000,000 loan application to the federal Housing and Home Finance Agency by SIU for new student and faculty housing projects has been approved.

The money, to be supplemented by approximately \$1,000,000 from the university capital appropriations funds, will be used to construct family apartment buildings and small housing units.

Plans and specifications for both projects are complete and bids will be called for shortly, according to Charles Pulley, University architect.

One project will be 160 brick apartments to be built in ten apartment units one-half mile south of the main campus, just east of Route 51. The apartments will be for married students and faculty members.

## FRAME DORMS

The other project will be 15 small dormitories, each housing 45 unmarried students. Of frame construction, trimmed with stone, the buildings will be located at the west edge of Thompson L. a. e. These buildings will have kitchen and dining facilities, with quarters for a house mother or similar supervisor.

The apartment buildings will be able to handle 160 families, while the small group units will take care of approximately 374 men and 322 women. Ten two-story apartment buildings will be constructed before the present project is completed.

University officials said facilities now available near the campus will not be sufficient for the increasing number of married students, particularly as SIU expands its graduate programs.

## Six Just Completed

Six residence halls, each housing 120 students, were completed this year at Thompson Point on the north edge of the lake.

Half of the federal loan is for one project and half for the other.

John Rendelman, University legal counsel, said no bids can be accepted until the federal agency's loan agreement is approved by the SIU board of trustees, which will meet Jan. 30.

## NOTICE

Activity ticket pictures will be made without charge until January 16. Report activity photographs to Service office, 313 Harwood for your activity ticket photograph.

After January 16, a service charge of \$75 will be charged for late activity ticket photographs.

All activity tickets must be validated by the Bureau's office for the winter term.

ing credit work, 850 in adult technical education programs, and 151 in conference type courses and short courses.

SIU may have as many as 5,100 students in credit courses at the Residence Centers next fall. See declared, along with 1,400 in adult short registered for conferences and short courses, and 500 in extension classes.

See reported that the new East St. Louis and Alton Centers presently have a surprising concentration of students in mathematics and science courses. The number of graduate students has grown from 151 to 202 in the past two years, including those at the Belleville Center which has been operating since 1954.

See said 94 per cent of the current Residence Center students live within 35 miles of their classes although the student population represents 104 communities, 30 counties, and four states. Madison and St. Clair Counties account for 80 per cent of the student body.

## HUNSINGER PRESENTS PAPER AT MEETING

Dr. Paul Hunsinger, associate professor of speech, presented two research papers at the Central States Speech Association in Chicago, last week.

The papers were entitled "The Methods of General Education and the Teaching of Interpretive Reading," and "Undergraduate Speech Training of Prospective Teachers in the Universities."

carefully planned atmosphere.

The male lead of Hal Carter, a young vagabond, is a challenge to any aspiring actor.

Millie Owens, a 16-year-old, impressive girl, is a good part for an imaginative person.

For the boy who always wanted to be a comic, the role of Bomber is the one for him. Bomber is a comical paper boy in the play.

The role of Madge Owens, the beautiful daughter, is a good role for the college actress.

The Owens' role would be very interesting and would allow the actress to use her talents in a very successful manner.

Rosemary Sydney, the school teacher, is a goal for which any girl should be interested in obtaining.

Howard Bezans, who is Rosemary's friend, and Madge's friend, Alan Seymour, are two roles which lend interest to the play.

For further information on either the acting roles or technical work, contact Dr. Abrams at the Playhouse

## ANDERSON CREATION

ing, the forthcoming Home Economics building will be large indeed. Many large earthmoving machines now dominate the scene of the site for the new building. While these machines are in operation, the traffic on the streets nearby will, of necessity, be disrupted from time to time.

# The Editors' Opinions

# Across The Desk...

## Parking Ban Unfair

A number of SIU students and Carbondale residents have been done a gross injustice by parking restrictions imposed by the Carbondale City Council.

University Avenue, from College to Grand, and Illinois Avenue, from Mill to a point north of the University Drugs buildings, are lined with "no parking" signs from 2 a.m. to 5 a.m.

The restrictions, in effect, prohibit overnight parking in these areas. The ordinance affecting these parking restrictions was passed along with another ordinance prohibiting parking at any time on Illinois Avenue from the UD buildings to Grand.

We have no quarrel with the latter ordinance. A dangerous bottleneck had emerged in front of the UD buildings with a constant state road flow of traffic, parking on both sides of the highway, and service trucks double parking.

But students and residents allied on the University have, to use one colleague's phrase, "been shafted".

A student living in the restricted area must now drive his car to the only "storage" parking lot on campus at Thompson Point for overnight parking, then walk back to his room on University or Illinois. If he wishes to use his auto the next day, he must again make

**By Bill Epperheimer**  
All buses and trains  
Planes and cars too,  
On Thursday last  
Led to Big U;

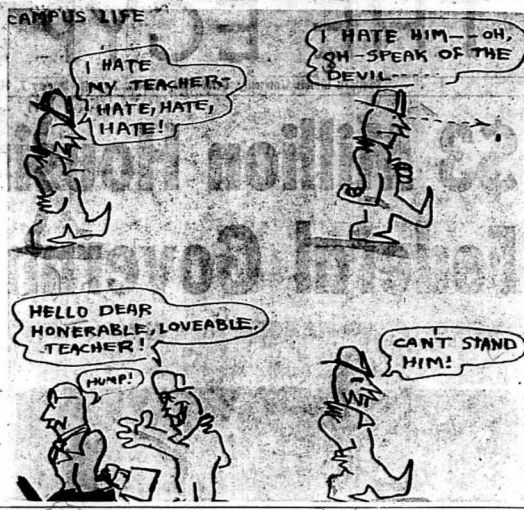

Carbondale hummed  
With action once more,  
As students rolled in  
By the score;

With memories they came  
Of Christmas bright,  
And an aching head  
From New Year's night;

The males arrived  
Determined to study,  
One look at the femmy  
Resolutions were puffy;

They flooded the town  
Lessons were spurned,  
For a big weekend;  
Sally returned!

It's all done now  
Here's how it looks;  
Forget the party  
And hit those books!

## SIU Press To Publish Major Philosophy Work

A major contribution to the field of philosophy, Paul Weiss' new book, "Modes of Being," will be published January 16, by the SIU Press.

The book is hailed as the major work to date by Weiss, one of America's leading systematic philosophers who is professor of philosophy at Yale University. He is the founder and editor of "The Review of Metaphysics," and the founder and first president of the Metaphysical Society of America.

This work is organized in a series of more than 400 propositions, each with its own commentary, around four basic modes of being: actuality, ideality, existence, and God. Through fresh arguments and from new perspectives it offers reinterpretations of logic, ethics, ontology (science of reality, politics, history, and religion. In tone and content it is speculative and systematic, challenging in a radical way the analytic approach now dominant in Anglo-American thought. It advances more than 20 striking new arguments to prove the existence of God.

William Earle of Northwestern University's Department of Philosophy calls it "a subtle and comprehensive work" which no person seriously interested in philosophy can study without a renewed sense of the life left in problems responding to a creative mind.

The book will be issued in a one-volume text edition of 629 pages, complete with indexes, and in a boxed two-volume limited edition printed on heavy paper, numbered, and signed by the author.

The paper will receive two truckloads of letters praising the editorial policy.

This writer will be graduated.

## No Alphabet Pick Up Books Anytime

Returning students received a pleasant surprise last Thursday when they learned that instead of following a rigid alphabetical schedule to obtain their books, they would be allowed to pick them up at any time.

"We decided to try this system because of its convenience," Helene Stroman, textbook service director, stated. "The students are having to wait some, but they are probably not on the stairs more than 15 minutes. This system allows us to run a continuous line through, rather than have slow spots and rush periods, as we did with the alphabetical system."

Stroman estimated students were leaving the checkout desks at the rate of one each eleven seconds Thursday. During the first four hours of service the average was 360 students per hour.

Another change in the process was the absence of the desk inside the north doors of the library where students usually fill out en-

ergency slips. Stroman explained that only the new students are being asked to fill out these cards this term, and the desk was set up in the hall behind the textbook service so students would not have to remain outside longer than necessary.

"This is just a trial, of course," Stroman stated, "and we may have to go back to the alphabetical system next term, but so far the arrangement seems to be working quite well."

CHANGE OF ADDRESS  
Pueblo, Colo. (AP)  
The City Council agreed with residents—Kinnikinnick street is too rough to pronounce and spell. Now it's Sheridan Road.

# Trustees Make Appointments GE Executive Named Director Of Latin American Institute

Albert W. Bork, director of training and personnel development at the Mexican subsidiary of General Electric, has been named director of the Latin American Institute at SIU.

Bork will assume his new duties January 15. He has served on the faculty of the University of Arizona and the National University of Mexico, and was dean of undergraduate studies at Mexico City College. He holds a doctor of letters degree from the National University of Mexico.

Bork is a frequent contributor to professional journals, both in English and Spanish.

Other appointments approved recently by the SIU board of trustees included two community consultants to the department of community development. They are Ralph White and George T. Boyce.

White, a graduate of Southeast Missouri State College who taught in public schools in Kentucky and Tennessee, has recently served as area consultant to the Save the Children Federation.

Boyce, who holds a degree from Wooster College, has worked for various business firms in Ohio and served as research assistant with the Area Development Committee of Akron, O.

In another action, the board approved appointment of Mrs. Silja Moholy-Nagy for a two-week lectureship in design from Jan. 13 to Jan. 28. She has been a lecturer at the Institute of Design, Chicago, and at the University of California, and is now associate professor at Pratt Institute.

## 5 Faculty Attend Science Meeting

Five SIU faculty members traveled to Indianapolis, Ind., Dec. 26 to attend the 124th meeting of the American Association for the Advancement of Science.

"The meeting was concerned with the problem of America's second rate position in science compared to the growing scientific advances of Russia," stated Dr. Carl C. Lindgren.

"The Association has been making suggestions to President Dwight D. Eisenhower on how to improve the situation," Dr. Lindgren continued. "One of the suggestions was for more and better scholarships for the advancement of science, which has been compiled with."

"We are also trying to build up the idea of a better mathematical instruction at lower levels since this is important."

Dr. W. B. Weich of the Botany Department attended the meeting as a delegate from Illinois. He presented a paper on "Inhibitors of Cellulose Synthesis."

Other faculty members from SIU included Dr. J. W. Neckers, chairman of the chemistry department, Dr. Harry I. Fisher, chairman of the zoology department, and Dr. Gersbacher, also of the zoology department.

Around 3,000 scientists attended the meeting which continued from Dec. 26 to Dec. 30.

## Bands Go South

For the second time in a year a band has failed to fulfill a commitment to play at one of Southern's big events. It is time that the organizations that sponsor these events wake up.

For our spring festival, homecoming and military ball we want big, name bands. We contract big name bands. But the contracts are one-sided. One sided for the bands.

Our people go all out to arrange for a big gala affair. They print tickets, make announcements. In the meantime the contracted band decides, for reasons of it's own, to cancel its contract with us.

And where are the planners of the event? They are holding an empty bag, and have to begin snow—oftenimes at the last

minute—to find another band. And where is the band that canceled the contract? In all likelihood it has arranged for a better, more plush contract in place of the contract they "could not make."

It is time we stop looking in awe at name bands. It is time we realize they are a business enterprise, and treat them as such. We spend a lot of money, big money, to pay them for their engagement here. We, too, are a big business. Lets start acting like it.

We will continue to find entertainers jumping contract unless we bind them to a contract. We will continue to remain a third rate playhouse for the entertainers unless we begin acting first rate.

# Southern Society

By BARBARA DOWNEN

## PHI SIGMA KAPPA APPOINTS NEW OFFICERS

New appointments recently made by Phi Sigma Kappa are Ted Moske, pledge trainer; Max Malone, athletic chairman; and Paul Jones, corresponding secretary.

Frank Mance is student teaching at West Frankfort this term.

Carroll Downen has returned to school this term.

Bryon Butterfield, who attends the University of Colorado, visited the home last weekend.

George Holtzcher is employed at WCI Radio Station.

## ALPHA GAMMA DELTA PLAN DINNER

The Alpha Gamma Delta Society is planning a dinner for the girls and their dates to be held on Saturday, Jan. 11.

Inez Yoels was married to Bill Robertson at the First Presbyterian Church in Wood River on Dec. 28.

Those attending from SIU were Alice Veti, Sharon Fowler, Joann Norkus, Mickey Sanders, Jane Green and Lois Green.

Jane Green was one of the bridesmaids.

Emma Jean Richardson and Sharon Fowler are on the steering

committee for the Pan Hellenic Workshop.

Joyce Weber, presiding president, attended the Womens Physical Education Convention in Chicago recently.

Joann Norkus returned during then holidays from Europe after a four-month tour.

Roberta Brockleman and Norma Journey, Phi Kappa Tau, were married last Saturday.

Joann Norkus is Pan Hellenic representative to Community Development.

Marilyn Riggins, Sherrille Campbell and Sue Mitchell are members of Angel Flight.

Lois Green and Delores Bell are candidates for ROTC Queen.

Emma Jean Richardson visits Hollywood, Cal., during the holidays.

## THETA X SPONSORS PARTY

Theta Xi's and alums from the Granite City area sponsored a New Year's Eve party this year at Venetia, Illinois. It was estimated that about 100 people attended the party.

The committee in charge of setting up the party consisted of the following Theta Xi alums: George Noud, Garv Livingston, Hatch Kopyky and Primo Clay.

Sam Meyer was recently elected chairman of this year's O.F.C. workshop.

Visitors at the Theta Xi house last week were Jim Payne, Jerry Miller, Dick Paulter, Glen Hudgens and Herb Homnack.

Glen Hudgens is now attending the University of Chicago medical school.

Herb Homnack, who has been in the Air Force until recently, has returned to work on his Master's degree.

## Southern Styles

Today men often accept women on an equal basis to the extent that they forget the special courtesies which all we females adore receiving.

Maybe it is partly because we do not always strive to be really feminine as we struggle to maintain our position in the professional world.

But there is no secret to the achievement of always appearing feminine if we ask ourselves one simple question.

What is the true essence of femininity? It's perfume of course.

It is as much a finishing touch for the well-dressed girl as whipped cream is for pumpkin pie.

Your perfume can be a distinctive symbol of your personality. It can give other people an insight into your own inner mind and into what you really enjoy in life.

When you are just painting the floor of your room or cleaning your closet, you don't really need that expensive fragrance. But there are many occasions where perfume is the essential requirement for being attractive to other people.

Toilet water and cologne is less concentrated than perfume, but it can be very effective when used correctly.

Choosing perfume is usually a matter of instinct for the girl. Some scents will be just for her and other fragrances will often appall her.

Ever wonder how perfume was made? Blossoms, leaves, fruits, roots, herbs and mosses are used in making the lighter perfumes. The heavier perfumes are made from animal products such as civet, castor and musk oil, and ambergris.

For those numerous cokes or tea sessions that occur at Southern, a tangy, spicy fragrance is the best. For those evening dances, try a heavy, sophisticated fragrance.

The open air makes the scent vanish very quickly. It is better to apply the perfume at least 20 minutes before that certain guy is supposed to arrive. To make that scent last apply it to your skin and not on your clothes. The temples, wrists, base of the throat, brows, and ear lobes are those special

## Young Artists Exhibit Works In Alllyn

"Live chicken drawings" by elementary level students of the University School are part of the interesting exhibit now being shown in the Alllyn Building until Jan. 20.

The exhibit contains drawings, paintings, ceramic sculpture, paper-mache pieces, dirt and plastic sculpture, silk screen Christmas cards, and two-dimensional design experiments as done by the first grade thru high school level students of the U. School.

Milton F. Sullivan, professor of art at the U. School, said the exhibit is a representation of the beginning art experiences of the students during the first 12 weeks of the school term.

The U. School maintains a general art program which contains projects for students who hope to major or professionalize in art.

The exhibit is being shown on the first floor of the Alllyn Building.

## DAMES CLUB

The Dames Club will hold a meeting tomorrow night at 8 p.m. in the University cafeteria.

Dr. and Mrs. Harvey Gardner will give a talk on child psychology. All members and wives of SIU students are invited.

## WAA Open To All Women On Campus

"Many girls don't bother to come out for WAA activities," Kay Burrows stated, "because they assume that the physical education majors will win any tournament. Actually, they don't need to worry."

Miss Burrows, president of the WAA, went on to explain that this is very rarely the case. Junior and senior P. E. majors are barred from the house tournaments and the relatively small number of majors prevents their dominating any tournament.

"A little over one-third of the women on the campus took part in the tournaments last year," she said. "That's more than 500, and there are only about 100 physical education majors. If the non-majors would come out for activities, they would have a very good chance."

WAA is open to every woman on campus, and everyone is eligible to participate in any WAA sponsored activities. Officially, a member must have a certain number

of points, awarded for participation in these activities, before she is eligible to vote on proposals.

"Actually, this rule only leads to confusion," Miss Burrows said. "We expect to take it up at the January meeting, and possibly change it."

### Turner's Banned

WAA operates under the sponsorship of the National Federation of College Women, and so is subject to the national rules. One of these is that there shall be no active competition between WAA teams, such as inter-school tournaments. Inter-school meets are approved if they do not become too highly competitive, anyone who wishes to play is allowed to, and if no definite "winner" is announced at the end of the meet.

"The situation is beginning to change though," Miss Burrows stated hopefully. "Last year, she explained, the national group officially approved a national tennis match was held in the East.

"The lowest point in the United States is Death Valley, which is 280 feet below sea level.

George Washington was born Feb. 22, 1732, in Wakefield, Va.

## Fashion Files

By Patt Files

When! The hectic holidays are over and here we are back at the old grind. . . . class, men, clothes, men, and so on. So let's talk about clothes.

As most of you know, now is a wonderful time to buy. Not only was Santa Claus good for a few bucks. . . . The merchants are having after-Christmas sales and there are bargains galore.

Just a few: The Edith Shop have

their dresses on sale slashed 14 and 16 off the original price. Most of the skirts and sweaters are priced the same. There are several lovely Janzents mix and match separates. And craziest of all, knit slim jims (sweaters or blenders or catch-alls) are really something.

For those "I always wear cashmere sweaters" girls, Stropps has them on sale at a real low \$14.98. . . . different styles and colors of course. This is a hard to beat bargain.

At Kay's you'll find several party, casual and school dresses on sale at a five or six dollar savings. If you need a pepper-upper you might be interested in their hats that are on sale at quite a savings.

If you have a brother, father or boyfriend that is having a birthday

## LITTLE MAN ON CAMPUS

by Dick Bihler

"The pencil sharpener seems harder to crank since Professor Smart moved it up front."

son you might browse around Motherfield's. I noticed they had a sale going.

If you're in need of shoes, you might check at Willhite's. . . . They are now selling 2 pair of dress shoes at \$7.00. . . . can't hardly beat these days.

Happy buying!

Don't Neglect Feet

It's amazing how often women neglect their feet even though they spend hours each day standing and walking. Many make the mistake of buying improper shoes—those that are too high-heeled for normal comfort or don't fit the foot. A woman whose feet hurt will have trouble being a gay companion.

George Washington was born Feb. 22, 1732, in Wakefield, Va.

# Cagers Roll Over Ill. Wesleyan; Take Third In Holiday Tourney

## Drub Ill. Wesleyan Third In Tourney

A sharp-shooting Saluki basketball squad treated an overflowing crowd in the men's gym last Saturday night to a dazzling display of basketball as they rolled over Illinois Wesleyan University Titans by a score of 90-49.

Led by sophomores Gene Sams and Marvin Jones and junior Seymour Bryson, the Salukis were never behind in the game which saw them jump to an 8-2 lead with only 1:50 gone in the game.

Hitting almost at will, with ten minutes gone in the first half the Salukis were on top by a score of 25-13. At half-time the Salukis took a 48-24 lead to the dressing room, scoring 15 points while holding the Titans to only 2 in the last four minutes of the first half.

Led by Jones, Sams and Bryson, Southern hit 21 shots in 46 attempts from the field in the first half, for a shooting percentage of 43.7. The Salukis also pulled down 40 rebounds as compared to only 13 for the Titans.

The second-half was almost a carbon copy of the first with the Salukis outscoring Illinois Wesleyan 42-25, and grabbing off 34 rebounds to only 15 for the boys from Bloomington.

The vastly improved Southern squad, showed an excellent passing attack as they moved the ball until they found someone open.

The game was marked by some fine free-throw shooting. Southern hit 28 for 31 from the charity stripe while Illinois Wesleyan hit 11 for 12 for a combined total of 39 for 43.

Marvin Jones led the Salukis with 20 points, hitting 9 for 18 from the field and 2 for 2 from the foul line. Gene Sams, playing what was probably the best game of his short college career, hit 7 for 9 from the field and 4 for 4 from the foul line for a total of 18 points for the 5-70 guard. Seymour Bryson also had 18 points on 5 field goals and 8 charity tosses. Warren

Talley said Tom McNeal rounded out the Salukis balanced attack with 21 rebounds, both on and off the boards.

Marvin Jones and Seymour Bryson completely controlled the boards in the game, each finishing with a total of 21 rebounds, both on and off the boards.

Illinois Wesleyan was led by freshman Donn Pierce who tallied 15 points. Dean Padgett followed with 13.

Southern hit 31 for 74 from the field for a creditable 41.8 percentage. Illinois Wesleyan hit 19 for 74 for a poor 25.6 percentage.

| Player    | FG    | FT    | F  | TP |
|-----------|-------|-------|----|----|

| Totals    | 75-19 | 12-11 | 21 | 49 |

A party of Spanish colonists were massacred by Indians in New Mexico's pioneer days. A later party of colonists buried the victims and placed crosses over their graves. Later a city was built there and that is how Las Cruces (The Crosses) got its name.

### Christmas In Florida

## Swimmers Return From Florida Training Session

SIU's aquaman returned from two weeks of rough conditioning among the palm trees at Ft. Lauderdale, Florida.

Ten SIU swimmers made the trip along with coach Ralph Casey. The entire trip was made by car and amounted to more than two thousand miles for the frogmen.

Two conditioning programs were held each day including land practice sessions. The swimmers lived among the luxuries of the Somboro Apartments on the Ft. Lauderdale Beach.

There were around 600 students attending the college swimmers and coaches forum at the beach.

Upon arrival, the tankmen were divided into two sections, the East and the West. Southern was in the East division.

A meet was held between the two divisions with the West winning 206-196. Southern had three swimmers who were on teams that placed for the East. Bob Montgomery and

Southern's cagers climaxed their holiday schedule by tripping a tough Washington and Lee team from Lexington, Va., 69-66, on December 31 to capture third place in the All-American Tourney in Owensboro, Ky.

The preceding night Southern lost a heart-breaker to Kentucky Wesleyan, 61-59. This was the fourth set-back of the season for the Salukis by not more than two points.

In the Washington and Lee game, the Southern squad played one of its best games of the season, both defensively and offensively.

It was a big victory for the Salukis, who went into the game as the underdogs, because only two weeks ago, this same Washington & Lee team was defeated by West Virginia, currently the number one team in the nation, by only five points.

The Salukis showed a fine offensively as they moved the ball well and worked for good shots.

Larry Whitlock paced the Salukis against Washington and Lee with 20 points and Marv Jones added 18 to the final count of 69.

The night before in the first round of the tournament against Kentucky Wesleyan, both teams found trouble hitting from the floor.

The game was also marred by rugged play by both teams.

The leading scorer in the game was "King" Kelly Coleman, nation eighth leading scorer, with 20 points. Larry Whitlock again paced the Salukis with 12 points.

The Panthers had 57-49 lead with three minutes left and held off a Southern rally to win by the two point margin.

Monday, December 23, the cagers traveled to Marion for another "home" game. The game was a heart-breaker for Southern with Washburn University winning 66-59.

With about four seconds remaining in the game, Larry Whitlock intercepted a pass and took a jump shot from about ten feet out. When the ball hit the rim the horns sounded. The ball rolled off with what would have been the winning basket.

Bryson was high man in the game with 15 points. Whitlock followed with 14. Talley with 13, and Sams 10. Darr led Washburn with 14 points.

Since Robert "Bulle" Wilson became head coach in 1942, Kentucky Wesleyan basketball editions have posted 180 wins in 296 games.

Kentucky Wesleyan's basketball roster shows only two seniors on the 18-man squad. There are five juniors, three sophomores and eight freshmen.

'Hawk' Taylor Featured In Magazine

Robert "Hawk" Taylor, \$112,000 bonus baby of the Milwaukee Braves from Metropolis, Ill., has been featured in an article in the January issue of "Sport".

Taylor, a business major at SIU, was signed by the World Championship Braves last spring for a huge signing sum that has been estimated at high as \$120,000.

The feature in "Sport", one of America's leading sport magazines, is entitled "The Hawk on the Bench". It tells what the "Hawk" does in the way of playing baseball in the Braves "deep freeze."

Taylor, relates in the story that the hardest part of the transition from high school to the majors was "getting accustomed to the travel". He also said that he was pretty scared when he worked his first one-inning chore behind the plate against the Dodgers, before 30,000 people.

Open Nightly from 7:00 to 9:30, Except Mondays. . . Special Parties Can Be Arranged for Monday Evenings. All Afternoon sessions will be from 2:00 to 4:00 p. m.

### ICE SKATING

### TWO POINTS

Marvin Jones (54), Southern's 6-3 jump-shooting center, tallies two more points as he hits with a jump from the side among the arms and legs of his frustrated opponents. Number 33 for Illinois Wesleyan University is Jerry Jourdan. Number 12 for Southern is Gene Sams. Jones hit for 20 points and pulled down 21 rebounds as the Salukis bombed the Titans last Saturday night, 90-49.

A freshman cager at Kentucky Wesleyan is already being groomed for All-America honors. He is Kelly Coleman, 6-3 forward from Waverly and is averaging better than 25 points per game.

Guards Rogers Taylor (5-9) of Anniston, Ala., and George Mer-

## Matmen Throw Hey Girls Look!

### Middies, 25-6

Southern's grapplers handily downed the middies of Great Lakes last Saturday afternoon on the middies home mats, 25-6.

The Salukis lost only two matches in the dual meet which was supposed to be one of the toughest of the year for Southern's in-stern.

One of the best matches of the meet was between Marion Rushing of SIU, and J. Smith of Great Lakes. Smith decided Rushing who as a senior was wrestling his first match. "Rush" had never wrestled before and has been working out for only three weeks.

Next Saturday the Salukis travel to Eastern Illinois before returning home for the first home meet of the season on the 18th.

RESULTS

123 Al Ross (SIU) decisioned R. Bocchia (GL), 10-5.

130 Dike Edwards (SIU) decisioned B. Getty (GL), 5-1.

137 S. Freeman (GL) decisioned Jim Blodose (SIU), 6-1.

147 Lee Grubbs (SIU) won on forfeit.

157 Herman Ayres (SIU) decisioned J. Kinyon (GL), 2-0.

167 Mike Knapp (SIU) decisioned D. Smith (GL), 4-0.

177 Gary Burdick (SIU) decisioned L. Currell (GL), 7-0.

191 Phil Throne (SIU) won on forfeit.

H.W. J. Smith (GL) decisioned Marion Rushing (SIU) 9-7.

The Campus Recreation Department is happy to announce that beginning immediately, women students may wear their OWN caps gaiting suits in the University Pool.

The pool will be open each Sunday afternoon from 1:30 to 5 p. m. There is no admission charge but activity cards are required.

Co-directors of Kentucky Wesleyan's 1957-58 basketball club are head coach Robert Wilson and his assistant, Billy Bibb.

MEMO TO MAESTROS: is your band dawdling instead of tootling? Is it full of feeble fifiers and drooping drummers? Well, this musical slowdown may be traceable to lack of Luckies. Better give your band a break—and make it a Lucky one! A Lucky, you see, is a light smoke—the right smoke for everyone. It's all cigarette—all naturally light, wonderfully good-tasting tobacco. And Luckies' fine tobacco is toasted to taste even better. Now then, what's a marching band that never gets a Lucky break? Why, it's a *Sore Corps!* (Wasn't that cymbal?)

STUCK FOR DOUGHT?  
START STICKLING! MAKE \$25

We'll pay \$25 for every Sticker we print—and for hundreds more that never get used! So start Sticking—they're so easy you can think of dozens in seconds! Stickers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings.) Send 'em all with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y.
