Nation remembers dreams of civil rights leader

By Brian Gross
Special Assignment Writer

Almost 25 years have passed since Martin Luther King Jr. was fatally shot on a hotel balcony in Memphis, a violent death for a man who sought his dream of a social revolution through nonviolent means.

The man whose birthday the nation honors today is best remembered for having a dream of a society without discrimination, but his ideas and contributions extend beyond civil

rights.

King ranks as one of the most intriguing figures of the 20th century along with leaders such as Hitler, Stalin and Ghandi, whom scholars have studied for years, said Julius Thompson, SIUC professor in Black American Studies.

"People spend a lifetime trying to figure him out," Thompson said. "His legacy will flow from the issue of civil rights, but he really fought for human rights."

Many of the sides of King have not been

touched, such as his influence on the women's movement, his concern for the plight of the poor and his role as a promoter of peace. A large part of his later works were against Vietnam, Thompson said, and scholars will look at his international contributions more in the future.

"His ideas were so universal," Thompson said. "In addition to universal themes, he was an excellent orator. And his message is timeless, a message of hope in the search for brotherhood and sisterhood."

Edward Jones, University Housing director, said he is most impressed with King's versatility. People tend to simplify what King has done for minorities and African Americans when his ideas were much broader.

"Civil rights is what he's most known for, but there were five or six areas he was equally knowledgeable in," Jones said. "People only remember the 'I had a dream'

Jobless rates climb

Southern Illinois unemployment tops state list

By Christy M. Gutowski
General Assignment Writer

Jim and Nancy Jacobsen of Murphysboro are trying to fight the rising unemployment rate in a region of the state particularly vulnerable to a weakened state of economy.

"Times are tough right now," Jacobsen said. "I'm a student and am having trouble finding a job that will work around my schedule."

The Jacobsens are part of the growing number of jobless people in Southern Illinois.

Seven of the top 10 counties for statewide unemployment rates are in Southern Illinois.

Jackson county's unemployment rate rose from 3,236 jobless people in November 1990 to 5,557 one year later, a 9.1 percent rate.

Hamilton has the highest unemployment rate at 25.2 percent, 2,141 people out of work. Perry county's figures rose to 4,796

people, a 22.4 percent.

Other southern counties suffering from high rates of unemployment include Alexander at 17.9 percent, Franklin at 17.6 percent, Pulaski at 16.2 percent, Pope at 14.9 percent, Union at 14.6 percent and Williamson County at 12 percent.

With such grim unemployment figures in the area, Jacobsen said he is considering moving his family to

Illinois parties continue map fight despite final approval by judges

By Todd Welvaen
Politics Writer

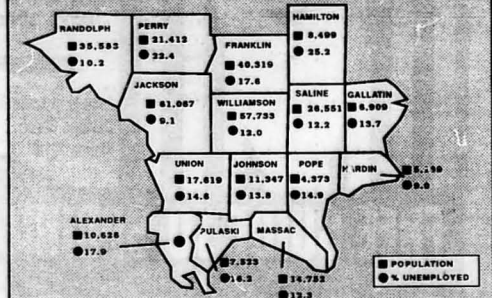

State mapmakers are forging ahead with the approved version of a Republican-drawn map of new legislative districts in Illinois, as Democrats vow to continue efforts to overturn the map.

The latest map, approved Jan. 10 by the Illinois Supreme Court, is expected to give Republicans the upper hand in the 1992 elections and control of the Illinois House and Senate for the next decade. The new map contained no substantial changes to the Southern Illinois area but affected many districts in the Chicago area.

The new map was approved by a 4-3 ruling in the State Supreme Court where Democrats hold a 4-3

Unemployment rates soar in Southern Illinois

Seven of the top 10 counties in Illinois for unemployment rates are in Southern Illinois. These figures are as of November 1991. Hamilton has the highest rate of 25.2 percent. Jackson has a 9.1 percent rate.

President cancels 1993 fall break for University

By Christine Leninger
Administration Writer

SIUC President John C. Guyon has canceled fall break, starting in fall 1993, and has moved the scheduled fall break for 1992 to Halloween weekend.

SIUC started the fall break three years ago to halt the "riotous street party" that had become the annual Halloween celebration in Carbondale and to provide a mid-

Guyon accepts proposal by city officials to move '92 fall break

semester break for students and faculty, Guyon said.

Deputy City Manager Jeff Doherty said the city manager along with the police departments urged Guyon to reconsider the scheduling of the 1992 fall break. As a result, Guyon moved fall break from Oct. 17 to 20 to Oct. 30 to Nov. 4.

The decision to return to a week-long break at Thanksgiving with a proposed mid-semester day off was "a compromise that meets the needs of as many people as possible," Guyon said.

Although the abolishment of fall break will not be effective until fall '93, Undergraduate Student Government President Jack

Sullivan said USG is claiming victory.

"The (calendar) change is great. We (USG) have been trying to accomplish this for two months now," Sullivan said.

Above, two Creighton defenders wrestle the ball away from Saluki sophomore center Marcelo da Silva. SIUC beat Creighton 92-82 Saturday at the Arena, improving to 12-2 and 5-0 in the Missouri Valley. Right, junior guard Tyrone Bell splits two defenders as he goes up for two of his 14 points.

Dawgs in first

Amaya hits 1,000-point mark, helps foil Jays' upset attempt

By Tony Mancuso
Sports Editor

Career points 998, 999 and 1,000 were more than just a milestone for Ashraf Amaya.

The junior big man said his three-point play with 12:10 left in the second half against Creighton Saturday was much more important to the basketball Salukis because it stopped the opponents' momentum.

"I am not concerned about individual performance as much as I am in doing what it takes to win games," he said.

Creighton whittled a 21-point halftime lead to just 2, but that was the closest the Blue Jays would get after Amaya's turn-around jumper and subsequent free throw.

The Salukis went on to win 92-82 and improved to 12-2 on the season. They claim sole possession of first place in the Missouri Valley Conference with a 5-0 mark.

Amaya, who moved to 23rd on the SIUC all-time scoring list and is at the top of the MVC in scoring and rebounding, finished with 15 points and 10 boards.

Women's team races past EIU, improves to 9-4

By Norma Wilke
Sports Writer

In its most recent effort to perfect a new style of offense, the SIUC women's basketball team played the best running game it has all season, coach Cindy Scott said.

The Salukis' 80-63 victory over Eastern Illinois put SIUC at 4-1 and in second place in the Gateway Conference. Southwest Missouri State, Illinois and Indiana State are all at 5-1. The win set the Salukis at 9-4 overall.

The Panthers and Salukis fought like cats and dogs for the lead in the first half. Scott said SIUC's strategy was to keep Eastern off the boards and get the quick lead. The Salukis took an early lead of 12-4, but Eastern came back to break SIUC's lead to 2.

The Salukis led by nine with eight minutes left to play, but the Panthers again rallied to a 2-point lead over SIUC. The Salukis tied the game 34-34 at halftime.

Men's track team wins indoor meet

By James T. Rendulich
Sports Writer

After placing second last year to Georgia Tech in the annual Saluki Indoor Invite, SIUC's men's track team came back to take the 1992 crown.

Following SIUC, which scored 118 total points Saturday, was Georgia Tech with 99, Alabama with 78 and Mississippi with 77. Southeast Missouri closed out the eight team field with 19 total points.

Despite taking first, head coach Bill Cornell said he sees complacency on his team and feels there is still work to do.

"After not seeing the team for nearly a month I wasn't sure who had worked over the break. After seeing the team it is obvious that half of them didn't," Cornell said. "We were very fortunate to win and it just shows how much talent this team has when only half of them perform well and we still win."

Kenton Rolle earned SIUC's only first place finish in a track event by winning the 55-meter dash.

In the 200-meter dash, Rolle scored a 21.89 which earned him second place. But the time was still good enough to earn him a place in SIUC's record book.

"Rolle definitely had the most impressive day of anyone on the team," Cornell said. "At 18, he is very talented and before it's over he probably will earn All-American and represent his home country of Barbados in

Women racers fail to defend Saluki Invite title, drop to third against tougher southern teams

By James T. Rendulich
Sports Writer

SIUC's women's track team fell short of its goal of capturing the annual Saluki Indoor Invite for the second consecutive year when they placed third.

Alabama captured first place honors Saturday with 147 total points and was followed by Georgia Tech with 104, SIUC with 64 and Murray State with 52.

But, going in to the invite women's head coach Don DeNoon expected more competitive opposition than last year. He said he felt that his team would do well to place as high as third.

"This year the competition was extremely tough. It included southern schools like Alabama and Georgia Tech which, in addition to having a great deal of talent, have other advantages," DeNoon said. "Many of the schools have shorter breaks than us and can spend more time working and they have better weather so they can get outside."

Nacolia Moore earned a second place in the long jump and a fourth place finish in the triple jump. Her long jump distance of 18' 4 3/4" ranked her fifth in the SIUC record book.

see INVITE, page 14

the Olympics."

SIUC got a bad break in the 55-meter hurdles when Ed Williams, who won his heat in the preliminaries, false started and was disqualified from the event.

Also placing high in track events were Mike Danner, second in the 5,000-meter, Neil Emberton, third in the mile, and Rob Carter, fourth in the 600-meter.

In the 3,000-meter run, Mark Stuart and Nick Schwartz took second and third

respectively.

The men's squad showed their strength and picked up a majority of its points in the field events.

SIUC dominated in the 35-pound weight throw as they placed four athletes in the top six including Brian Miller and Jonathan Hirsh, who took the first and second respectively.

GERMANY UNVEILS HOLOCAUST MEMORIAL — Officials inaugurated Germany's first central memorial to the Holocaust Sunday, 50 years after Nazi leaders formally agreed to go ahead with the systematic murder of millions of Jews. The memorial is in the Berlin Wannsee suburb, where on Jan. 20, 1942, leading Nazi officials adopted a document which called for "the final solution of the Jewish question in Europe." None of those officials is alive today.

EGYPT TO ATTEND MIDEAST TALKS — Egyptian Foreign Minister Amr Moussa will fly to Moscow for the Mideast multilateral talks, but one Arab envoy cast doubt on whether the talks would occur after Syria and Lebanon announced they would boycott the parley. "Moussa will lead Egypt's delegation to the multilateral talks scheduled to begin on January 28th," a foreign ministry statement said. The talks would deal with disarmament.

NORTHERN GEORGIA MAY SECEDE — As forces battling for control of Georgia stepped up their campaigns to win the hearts and minds of the people — and the weapons of neutral Soviet troops, an ethnic minority in the northern part of the republic was voting Sunday on whether to secede and join Russia. The supporters and opponents of ousted President Zviad Gamsakhurdia agreed the area should not be allowed to secede.

UZBEKISTAN STUDENTS SENT HOME — Thousands of students demonstrated Sunday in the capital of Uzbekistan for a fourth consecutive day, but authorities were using a new tactic to break up the protests — canceling classes and sending students home. The government has sought to end the crisis by using police to break up the rallies, criticizing local officials for failing to consider the students in implementing economic reforms and finally by stopping classes.

nation

KERREY SUPPORTS TRADE RESTRICTIONS — Democratic presidential candidate Bob Kerrey said Sunday he supports restricting Japan's access to U.S. markets in response to Japan's own protectionism, but does not support a bill that would limit Japanese car imports. On NBC's news program "Meet the Press," the Nebraska senator reaffirmed his position that the \$42 billion trade deficit with Japan must be reduced even if trade restrictions must be used.

BUSH APPROVAL RATINGS FALLING — With public approval ratings falling because of the recession, President Bush will be in danger of losing re-election if he fails to deliver a strong State of the Union address Jan. 28 showing he is an effective domestic leader, two Republican political strategists said Sunday. On ABC's "This Week with David Brinkley," Republican pollster Lance Tarrance said Bush's approval rating has fallen from 52 percent to 35 percent.

state

LOW INTEREST RATES HELP HOME BUYERS — Nearly half of the people purchasing homes in 1991 were first-time buyers, taking advantage of plunging interest rates in a market in which the average U.S. home sale price was \$171,600, a report said Sunday. In its 16th annual survey of 48 major housing markets, the Chicago Title & Trust Co. found that 45 percent of the 4.3 million Americans who bought homes last year were "first-timers."

CHICAGO EXPLOSION KILLS THREE — Searchers found a body Sunday in debris hauled from a neighborhood rocked by a series of natural gas explosions, raising the death toll in the fiery blasts to three. The charred remains, reportedly of an unidentified woman, were discovered in rubble carted away a day earlier from the city block that was struck Friday by the explosions, which injured five people, destroyed 10 buildings and left dozens homeless in bitter cold.

Dillard joins state race to replace Richmond

By Teri Lynn Carlock
City Writer

Carbondale Mayor Neil Dillard has voted as a Democrat in primary elections since 1978 but will break the mold in March when he casts his first Republican vote for himself.

Dillard formally announced Friday his candidacy for the office of state representative of the 115th District at a press conference at the Southern Illinois Airport.

"This is not a decision made quickly, and I believe I can be a real service to the people and to the area," he said. "I consider it to be my responsibility to offer my services."

Republican candidates Chuck Daugherty of Carbondale, Jean Ibandahl of Tamaroa, and Mike Bost of Murphysboro also are in the race for the seat being vacated by the retirement of Rep. Bruce Richmond, D-Murphysboro.

Dillard said he hopes to serve the people of Southern Illinois as Richmond has in the past.

"Rep. Bruce Richmond has served us with dignity, respect and understanding for many years," he said. "And I plan to be able to serve the people of this district with the same dedication that he has shown."

Southern Illinoisans are proud people who take pride in their schools, hospitals, their University and businesses. But being proud is no longer enough, Dillard said.

"We must compete for

industries with many other states and nations, and to be successful," he said.

"We must improve our techniques and use our state government to attract industries, entrepreneurs and financiers to assist us in further development."

Illinois cannot continue to ask schools to do more with less, Dillard said.

"The state must fund education to the level which the Constitution provides if we are to have schools which can educate the children of the next century," he said.

People must work together to make the most effective use of the money available, Dillard said.

Dillard, who was elected for a second term as mayor in 1991, said he plans to continue to serve as mayor while campaigning for the seat in the Illinois House.

The Republican chairmen from Jackson, Perry and Union counties said they will support Dillard in his campaign for election.

Jackson County Republican Party Chairman Gale Williams, who has known Dillard for 25 years, said he is delighted Dillard is running for the 115th District of the Republican ticket and is not bothered by the way Dillard has previously voted.

Union County Republican Chairman Frank Keistler and Perry County Republican Chairman Gene Morris also support Dillard in his campaign.

Local residents use march as silent protest to abortion

By Sherri L. Wilcox
General Assignment Writer

More than 100 local residents and their children marched through Carbondale Sunday afternoon in silent protest of regulations that legalize abortion.

Protesters carried signs with slogans such as, "Stop Abortion Now," "Abortion Kills Children" and "God Loves You."

Sheffield Boardman, organizer of the event, said the march coincided with "Sanctity of Human Life Sunday," an annual event that marks the Sunday preceding the 1973 Roe vs. Wade decision that made abortion legal.

"Over 26 million children have died as a result of abortion since the Roe vs. Wade ruling," said Boardman. "This is a memorial to them."

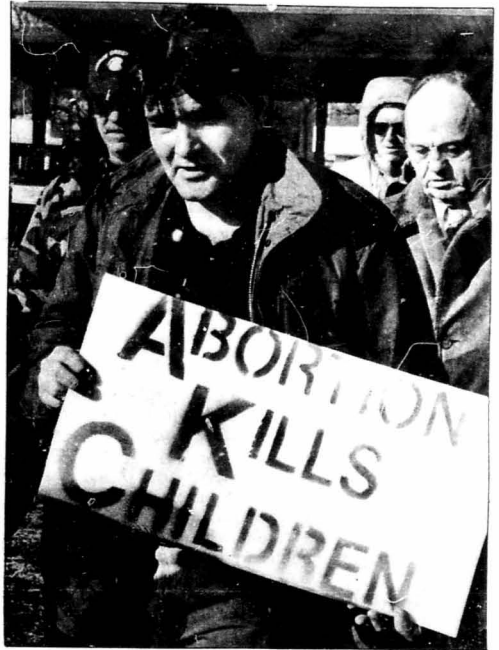

The march was sponsored by the Jackson County Christian Action Council and consisted of members of various pro-life groups and local churches.

Rev. Paul Hicks of the Mardale Baptist Church said he promoted the march to his congregation.

"Many of our members participated in the march and rally," he said. "That was good to see."

The march began at the old train station on Illinois Avenue and ended at the SIUC Student Center, where the group viewed film and slide presentations on pregnancy and the birthing process.

Pat Otero, a member of the Jackson County Right-To-Life group, said he wants to let women know there are choices other than

King stands apart as both hero, martyr

WHEN ASSASSIN JAMES EARL RAY brought down Martin Luther King Jr. in Memphis in 1968, he may not have realized that the tide of history King had set in motion could not be turned by force.

When the young minister became head of the Southern Christian Leadership Conference in 1957, the United States was awash with organized racism—segregation laws shunted blacks away from whites-only restaurants, washrooms and other public areas.

JUST THREE YEARS EARLIER the U.S. Supreme Court had ruled unconstitutional "separate-but-equal" public schooling for black children, and Rosa Parks' trials with the segregated Montgomery, Ala., bus lines had led to a successful boycott of the city's public transportation.

On these foundations, King began his campaign for racial equality. The apex of his crusade came with the 1963 March on Washington, when 250,000 protesters (a third of them white) rallied peacefully at the Lincoln Memorial in support of a pending Civil Rights Bill.

KING'S GREATEST LEGACY to African-Americans and to America remains his plea for non-violent routes to change.

During his life, King was sometimes accused of extreme radicalism and vilified along with Malcolm X as a militant seeking to upend the status quo.

But King's ultimate goal was reconciliation of all races, not a violent seizure of power by the black population. "...It is wrong to use immoral means to attain moral ends," he said. Black social equality could be gained through the system, King believed, not outside of it.

DESPITE THE SETBACKS of the years since his murder, King's efforts have left their print on all levels of society. National civil rights reforms might never have been enacted without his actions, and minority scholarships might still be a distant dream. SIUC might still lack such curricula as Black American Studies and African Studies.

WITH THE SURGING RECESSION bringing economic woe to the middle and lower classes and the rise of racial politics a la David Duke, it might be tempting for some activists to return to the violent rhetoric of Malcolm X-style dissent.

Those who do should hearken back to Martin Luther King's Nobel acceptance speech of 1964: "The choice today is not between violence and non-violence. It is either non-violence or non-existence."

HISTORY NEEDS BOTH HEROES and martyrs. Heroes are the selfless movers and shakers who try to generate beneficial change. Martyrs are those who suffer and die trying to show us the way to a new life. In a too-brief life and a sudden, violent death, King fulfilled both roles.

This is the president's plan for equalizing trade.	This is the GOP plan for economic recovery.	This is a paycheck for a laid-off auto worker.
This is Lee Jacobson's plan for taking a pay cut.	This is DeLoach's plan to compete rather than outline.	This is a spirited, articulate Democratic candidate for president.
This is the Democratic Party plan for economic recovery.	This is the Congressional Health Care Plan.	America, here are your leaders.

Commentary

Electronic Voice Mail wonders: new, improved and annoying

Q. Can you explain how Electronic Voice Mail works?
A. To find out how Electronic Voice Mail works, please select Answer One.
Q. How do I do that?
A. To find out how to select Answer One, please select Answer Two.
Q. OK, I select Answer Two.
A. To select Answer One, say "I select Answer One."
Q. I select Answer One.
A. Say "Pretty please with sugar on top."

Dave Barry
Tribune Media Services

Q. TELL ME THE ANSWER RIGHT NOW OR I'LL STRANGLE YOU WITH THIS TELEPHONE CORD.
A. Voice Mail is a system that has been developed to eliminate the irritation of being placed on "hold" by large companies and replace it with the irritation of having an electronic voice that sounds like your grandmother after an unsuccessful brain operation ask you a series of multiple-choice questions that you must answer correctly if you wish to speak to an actual human being, who will place you on "hold."
Q. Is the telephone company developing any other new products or services?
A. Yes. The telephone company is working night and day to turn our live into a giant wall of convenience. Very soon, for example, you will be able to obtain a new telephone service called "Call Preventing."
Q. How will that work?
A. To find out how that will work, say ...
Q. DON'T START THAT AGAIN.
A. "Call Preventing" is an exciting new advance in

communications, whereby for a \$22.50 additional monthly charge, your telephone company will prevent anybody from reaching you by telephone.
Q. What happens if a person dials my number?
A. Nothing.
Q. What if it's an emergency, such as my mother is calling because she needs me to drive her cat to the veterinarian because it's throwing up critical organs and she doesn't want to mess up her own car, or my child's day-care center is calling to inform me that my child got into a dispute involving Play-Doh, and the other child involved is expected to regain at least some of her hearing, but her father, a federal judge and karate instructor, would urgently like to see me?
A. For situations like this, there will be a special Emergency Code that the caller could dial.
Q. What would that do?
A. Nothing.
Q. What if I need to reach a party who has "Call Preventing?"
A. Then you'll want to purchase another exciting new telephone-company service called "Call Stalking." With this service, which

costs an additional \$39.50 a month, if the person—such as that he is not home, or has moved and left no forwarding address, or has entered the Federal Witness Protection Program, or is in the Intensive Care Unit with tubes the size of garden hoses in his nose—the telephone company's computers, which keep track of all Americans via tiny transmitters in our dental fillings, will locate the person and instruct orbiting communications satellites to aim beams of powerful microwave radiation directly into his brain, so that every five seconds he'll hear a loud voice that sounds like Orson Welles echoing inside his skull, saying: "YOUR NAME IS TRYING TO CONTACT YOU BY TELEPHONE. PLEASE CALL YOUR NAME RIGHT NOW. THIS MESSAGE WILL BE REPEATED IN FIVE SECONDS. THANK YOU."

Q. Wow.
A. For an additional \$5 a month, the voice sounds like Olive Oyl.
Q. Is the any defense against "Call Stalking?"
A. Your best bet is "Call Handling," which was designed for when companies randomly dial our number at dinner time and pretend to be taking surveys when in fact they want to sell you things. With "Call Handling," which costs an additional \$49.50 per month, you simply notify the telephone company that you do not wish to receive calls from these companies.
Q. And then what happens?
A. The company owners are eaten by snakes.
Q. What about the people who invented "Voice Mail?"
A. Them, too.
Q. Slowly?
A. Yes.
Q. Good.

Editorial Policies

Signed articles, including letters, viewpoints and other commentaries, reflect the opinions of their authors only. Unsigned editorials represent a consensus of the Daily Egyptian Board.
 Letters to the editor must be submitted directly to the editorial page editor, Room 1247, Communications Building. Letters should be typewritten and double spaced. All letters are subject to editing and will be limited to 300 words. Letters fewer than 250 words will be given preference for publication. Students must identify themselves by class and major, faculty members by rank and department, non-academic staff by position and department.
 Letters for which verification of authorship cannot be made will not be published.

THE STUDENT ENVIRONMENTAL Center will fill recycled paper and provide free information about recycling Tuesday and Wednesday in the Student Center.

THE STUDENT ENVIRONMENTAL Center will show short videos on recycling with a discussion following at 7:30 p.m. Tuesday at the Interfaith Center, on the corner of Illinois and Grand avenues.

THE EXECUTIVE COMMITTEE will meet at 11:00 a.m. today at the Jackson County Ambulance Service.

JACKSON COUNTY will have its scheduled monthly board meeting at 7 p.m. today at the Jackson County Jail.

STANLEY H. KAPLAN Educational Center will offer a Medical College Admission Test preparation course from 11 a.m. to 3 p.m. beginning Sunday in the Kaskaskia Room at the Student Center.

SHAWNEE ALLIANCE for Seniors will conduct Certified Nursing Home Ombudsman Volunteer training 9-1 p.m. Saturday at the SIUC Student Center. Call John Ken or Don at 1-800-642-7773 for more information.

Entertainment

"BACKDRAFT" is playing at 6:30 and 9 p.m. tonight in the Student Center Video Lounge. Admission is free and free ice cream will be served.

CALENDAR POLICY -- The deadline for Calendar items is noon two days before publication. The item should be typewritten and must include time, date, place and sponsor of the event and the name of the person submitting the item. Items should be delivered or mailed to the Daily Egyptian Newsroom, Communications Building, Room 1247. An item will be published once.

MAP, from Page 1

majority. The approved map was drawn by the Legislative Redistricting Commission where Republicans control a 5-4 advantage.

Arguments over the map have been going on since mid-October. The reapportionments already have cost taxpayers \$2.66 million.

"It's very possible that the Democrats will lose the house and the senate," said State Rep. Larry Hicks, D-Mount Vernon. "This will be very damaging to the (Democratic) party. It is very likely that Illinois will have a Republican Governor, House and Senate. Hopefully we will be able to save the House but who's to say what will happen. It will still come down to the elections. It will depend on the field of candidates and what kind of campaign they run."

"The changes down-state are rather miniscule. Many of the changes will be in Chicago, where the democrats will lose some of the control. This will hurt Southern Illinois, with Republicans in control of upper-state it will affect the things we can and cannot do."

The Democrats are considering legal actions on the federal level if the appeal in the Illinois

Arguments over the map have been going on since mid-October. The reapportionments already have cost taxpayers \$2.66 million.

Supreme Court fails once again. Republicans, however, believe the map will withstand the Democrats' challenges.

"Everybody thinks that this is the best map," said Rep. Robert W. Churchill, R-Lake Villa. "It is better than the Democrats map in every objective test. It's better in fairness, it's better in fairness to minorities and it's a better political map according to population. I can't see why the Supreme Court would overturn a superior map for an inferior one."

The newest state map approval comes on the heels of an agreement for the Congressional map reapportionment in early January.

KING, from Page 1

speech, but some of the philosophical things he wrote were very well written. Forget the civil rights thing—look at the man's academics."

If King's efforts have not succeeded in completely eliminating racism, he, at least, called the United States' attention to the injustices.

"Before America was not truly aware of the importance of the movement," said Martha Farris of Carbondale, "but now we have everybody talking about civil rights. I think he was successful in raising the consciousness of America."

In the 1950s and '60s, King organized rallies and protests pushing for desegregation in the South and improved civil rights for all African Americans. He still is best remembered for his ability to inspire a successful boycott of segregated buses in Montgomery, Ala., and to lead an historic march on Washington, D.C., where he delivered his famous "I have a dream" speech.

Farris, who met King during the 1960s when her brother married King's sister, remembers being

very moved by the speech. She said there was a real feeling of hope the world was becoming aware of the problems and the situation in America.

"I guess it sort of ripped through the country that day," Farris said. "He seemed to be very dedicated to what he did to make life better for people in America."

Farris marched behind the mute drawn carriage with King's casket during the funeral in 1968.

Richard Hayes, coordinator of the Student Life Office, said the King holiday is an important way of educating children on King's contributions and the civil rights issue.

"What it's done nationwide for all children is make them more comfortable in recognizing Dr. King," Hayes said. "It caused students to study Dr. King and write essays or papers."

Hayes' father was at the 1963 march in Washington, and Hayes views the national recognition of King through the holiday, started in 1986, as a personal victory.

"Dr. King's impact on my life has been tremendous," Hayes said. "As part of numerous groups which

pushed for the holiday, it's one of the things I've been able to participate in and see through in the total civil rights picture."

Hayes can remember the day of King's assassination, but younger generations will have only their history books.

"It was a traumatic experience being in America on the day it happened. People were anxious and concerned. No one knew how the young people would react, whether the non-violence concept would work through a period of mourning."

People who did not live during the time lack understanding of the events, Hayes said, and a lot of it is the fault of the educational system.

"I think they see it primarily as ancient history, and it's not," Hayes said. "They view it the same as the Civil War or 'Roots.' Most instances there's a total absence of black history or if it's dealt with, it's as an adjunct. It's treated as a civil rights war, like something that was won, but too many people are still judged by the color of their skin rather than the character of the people."

JOBS, from Page 1

northern Illinois. The couple have a 14-month-old son, and Nancy Jacobson is four months pregnant.

"I'm considering transferring to NIU," Jacobson said. "Hopefully, there's better employment opportunities in DeKalb."

In the meantime, the Jacobsons are fighting the long lines in the unemployment office. The couple is hopeful that the state can offer help, but Jacobson is pessimistic about finding a job.

"I've been looking for a job for weeks," he said. "The 'help wanted' ads in this area aren't very promising."

But high unemployment figures are not new to Southern Illinois, said Patrick Curry, field representative for the Small Business Incubator.

"If you look back over the last 10 years, we've always had the highest unemployment rates in the nation," Curry said.

The fact that these counties seem to be hit harder than other geographic areas of the country has to do with the nature of industries and employment opportunities

offered there, said Magda Kandil, SIUC economics professor.

"In rural areas you have many retail trade and service industries," Kandil said.

"These type of industries are usually secular in nature because they service the output of the manufacturing sector of economy," she said.

When the manufacturing industry is hit hard by a recession the impact of this reflects on retail trade and wholesale trade. Both are channels which manufacturing products are being distributed.

Southern Illinois, in part, has to diversify its industry base to help reduce unemployment, Curry said.

"For years southern regions have been dependent on one or two major employers rather than a diversity of industries," he said.

This can be particularly dangerous when one major sector of the economy is hit hard by recession because other sectors suffer as well.

"Coal mining is an excellent example of this," Curry said. "We've lost 5,000 mining jobs in

the last decade." While the amount of tons of coal being mined remained stable, employment continues to drop, including 700 jobs lost in the last nine months, Curry said.

Technology has in part reduced the number of employees in the mining sector, said Rhonda Vinson, director of the Small Business Incubator.

"You don't need as many employees with newer mining methods, though your productivity is still high," she said.

Weather also contributes to unemployment, said Mike Vessell, labor market economist for the Illinois Department of Employment Security.

During June and July months construction workers were busy with the mall and highway work in the Carbondale and Marion area. Now with the harsh weather most of those workers collect unemployment, adding to the already high rate.

The unemployment rate in Jackson county normally is two or three percent lower than it is currently.

New law requires immunizations for students at Illinois universities

By Trumler Camphor
General Assignment Writer

University students who are not immunized against communicable diseases cannot register for summer or fall semesters under the new Illinois Mandatory Immunization Law.

"We're trying to warn people ahead of time so they will be able to register," said Jacob Baggott, SIUC Health Service administrator.

The new Immunization Law requires all college students attending four-year institutions to provide documentation of immunity from communicable diseases such as measles, rubella, mumps, diphtheria and polio.

SIUC students are required to provide copies of high school, family physician or local health department health records to the Health Service. Students who have served or are serving in the military may submit military health records.

The Student Health Service Program has been working to get students in compliance with the Immunization Law since its

passage in July 1989, but more than 6,000 students still have not met immunization requirements.

For fall 1989, the Health Service required all new students to provide proof of immunization. It also began sending letters to all other students asking them to comply with the immunization law.

Baggott said each student has already received up to three notices and will soon receive a third and fourth notice.

"If you haven't gotten a letter and have been a student at SIUC since the fall of 1989, you should check into it," he said.

The new immunization law is an extension of the childhood immunization program for elementary and high school students. The new law extends the same immunization safeguards required for elementary and high school students to college students.

Students who cannot provide copies of health records will not be allowed to register until they receive a combination of at least three doses of diphtheria, Tetanus and Pertussis. The most recent dose

must have been given within 10 years.

Students also must have received one dose of measles administered with the live virus vaccine, one dose of rubella and one dose of live mumps vaccine on or after their first birthday. Students entering SIUC after July 1990 also must show proof of two measles immunizations and all international students must have TB skin test.

"If the campus is not properly immunized, there could be a possible outbreak of measles or something. We haven't actually had an outbreak, but this is a necessary precautionary measure," Baggott said.

Brenda Barney, director of nursing for the Health Service, said the purpose of immunization requirements is to prevent the spread of communicable disease among students and the community.

To make an appointment or for further information regarding immunizations, students may call the Health Service Clinic at 453-4454 or 453-4437.

Civil rights leader honored at SIUC breakfast, program

By Trumler Camphor
General Assignment Writer

University Housing and the Carbondale chapter of the NAACP are sponsoring a memorial breakfast at 7 a.m. today in Grinnell Hall to honor Martin Luther King Jr.

Ed Jones, University Housing director, said the University has cosponsored the event with the NAACP for the past three years.

"The University would like to think of its involvement with the event as simply a goodwill gesture," Jones said.

Much of the program during the breakfast is geared toward recognizing the contributions of King.

Vernola Sumner, coordinator of the breakfast, said the NAACP will present a number of academic awards to Carbondale elementary school students from various grade

levels who wrote essays about King.

Keynote speaker Robert Stalls is president of Star Human Services Development Corp.

Star Human Services is a non-profit organization that works toward reforming expanding opportunities of disadvantaged minorities.

Stalls said he will recap race history and the situation King found in the 1960s.

"King was a contemporary of black civil rights activist like Stokely Carmichael, Malcolm X and Leroi Jones," Stalls said. "Yet he took the philosophies of Gandhi's non-violent movement and saw a means of impacting change."

The program begins at 8:30.

Tickets can be purchased at the door and are \$3 for adults and \$1.50 for children under 12.

Former SIUC prof born in Germany, dies in Michigan

Obituary

By University News Service

Annamarie E. Krause, a former SIUC associate professor of geography, who was a specialist in land-use geography, has died.

Krause died Jan. 6 in Berrien Springs, Mich. She was 90.

The former professor joined the faculty in 1920 and remained until her retirement in 1967. She twice traveled to Paraguay, South America, where she studied transportation, agriculture and industrial development in Mennonite colonies.

While at SIUC, Krause held offices in the Illinois Geographical Society, the National Council of Geographical Teachers, the American Association of University Professors and the American Association of University Women.

After her retirement, she taught at Andrews University in Berrien Springs.

Krause earned her bachelor's degree from the University of Minnesota in 1920, her master's degree from the University of Illinois in 1930 and her doctorate from the University of Chicago.

Radon tests show county below norm

By Kara Grover
General Assignment Writer

Six percent of homes tested in Jackson County last year registered for unsafe levels of radon, but the county still ranks low among others in the state.

Radon, which comes from the natural breakdown of uranium, moves up through the soil and is drawn into homes through cracks in the foundation, walls, drains and

open pipes. It usually is concentrated in the the basement and in the lowest livable areas of the home.

A survey sample of 35 homes in Jackson County were tested by the Illinois Department of Nuclear Safety for radon at the end of the winter heating season in 1991. Two of 35 homes had levels of radon greater than 4 picocuries a liter, a level considered dangerous by the U.S.

Environmental Protection Agency. "In comparison to other counties, Jackson County came up very low," said Bob Whitcomb, health physicist at the IDNS.

Of the 35 homes surveyed in Jackson County, the most radon found in a home was 6.6 percent. The average was 1.6 percent and the minimum was 0.9 percent. Officials surveyed 4,127 homes in Illinois.

Former teacher receives \$5,000 arts fellowship

By Kristi Rominger
Entertainment Editor

An SIUC graduate has received a \$5,000 artist fellowship from the Illinois Arts Council for his work in the field of visual arts.

Mark Barone, of Carbondale, a former drawing instructor at SIUC, received the grant in November.

"The competition is very stiff," he said. "Many people apply each year for fellowships and grants through the IAC, and this year very few fellowships were awarded."

The Illinois Arts Council had about 1,264 applicants this year, and only 73 Illinois artists received fellowships, said Sandra Kinder, IAC spokeswoman.

The IAC has been ranked as the most competitive of arts councils in Illinois, she said.

The fellowship Barone won may be used in any way he needs to further his work, Kinder said.

"The IAC only recognizes those who have made outstanding contributions through their work and commitment to the arts," Kinder said.

Barone, who specializes in various representational works including figurative drawings and neighborhood scenes, said all of his paintings are oil on panel. He uses themes of early childhood.

He has placed his work in shows for more than three years and aims for shows where the work is judged, Barone said.

"The chances of all the jurors agreeing on your work is very slim," Barone said. "The odds are always against you, but if you send your work to a lot of shows people will start to see your work."

When Barone taught at SIUC, he encouraged his students to start applying for shows, whether they were juried or just gallery exhibits, so their work would be getting out, he said.

"That is exactly what I did," he said. "I tried to make a dent and got my career going."

He sent his work out to more than 300 shows and has participated in close to 90.

"Just flooding the market with my work is what helped me," Barone said.

Joel Feldman, of Murphysboro, who teaches print making at SIUC, also received a \$5,000 artist fellowship from the IAC.

Campus libraries announce hours

Morris Library will open at 1 p.m. today for the Martin Luther King Jr. holiday. It will close at 6 p.m.

Regular hours for spring 1992 semester will resume Tuesday.

Hours are 7:45 a.m. to 11 p.m. Monday through Thursday and 7:45 a.m. to 9 p.m. on Friday.

Hours for the weekend are 10 a.m. to 6 p.m. Saturday and 1 p.m. to 11 p.m. Sunday.

The SIU School of Law library, hours for spring 1992 also have been set.

Hours are 7:45 a.m. to 9 p.m. Monday through Thursday and 7:45 a.m. to 6 p.m. Friday.

Hours for Saturday are 1 to 5 p.m. and Sunday 1 to 9 p.m.

WORK SMARTER. NOT HARDER.

We're working smarter, too. So you don't have to work harder. For us, it means an ongoing relationship with educators and professors, striving to understand

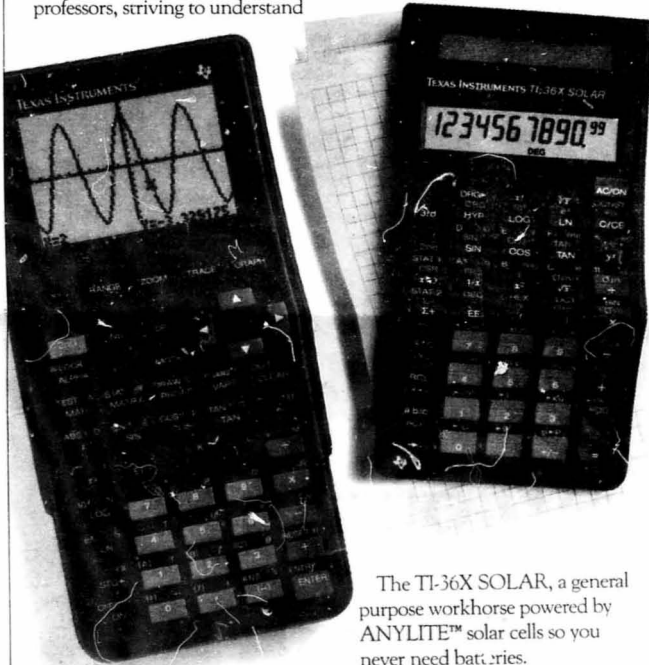

And there are others. Like the TI-68, an advanced scientific that scives up to five simultaneous equations, performs complex numbers and offers formula programming.

The BA II PLUS™ For business students, this is the one to get. It handles time-value-of-money and offers cash flow analysis for internal rate of return (IRR) and net present value (NPV). Plus a whole lot more.

No matter what your major, no matter what the course, there's a TI scientific or business calculator that's right for you. Do the smart thing: make one of them a part of your professional personality now, and for the years to come.

You'll be on your way to working smarter. Instead of harder.

Try the entire line of TI scientific and business calculators at your local TI retailer.

The TI-36X SOLAR, a general purpose workhorse powered by ANYLITE™ solar cells so you never need batteries.

what's needed to help them make math concepts alive.

It means continually working with students like you, discovering firsthand what you expect from the calculator you select.

The result? Calculators that are highly recommended by your teachers and peers. Calculators that are perfectly matched to your major and your coursework.

The TI-81 is a perfect example. It offers the most comprehensive, easy-to-use graphing features available with extensive programming capabilities.

CLASSIFIED DISPLAY ADVERTISING

Open Rate.....\$ 7.45 per column inch, per day
 Minimum Ad Size: 1 column inch
 Space Reservation Deadline: 2p.m., 2 days prior to publication
 Requirements: All 1 column classified display advertisements are required to have a 2-point border. Other borders are acceptable on larger column widths. Absolutely no reverse advertisements are acceptable in classified display.

CLASSIFIED ADVERTISING RATES

(based on consecutive running dates) Minimum Ad Size: 3 lines, 30 characters per line

1 day8¢ per line, per day
 3 days64¢ per line, per day
 5 days59¢ per line, per day
 10 days47¢ per line, per day
 20 or more39¢ per line, per day

Copy Deadline: 12 Noon, 1 day prior to publication

SMILE ADVERTISING RATES \$3.10 per inch

Space Reservation Deadline: 2p.m., 2 days prior to publication
 Requirements: Smile ad rates are designed to be used by individuals or organizations for personal advertising—birthdays, anniversaries, congratulations, etc. and not for commercial use or to announce events.

CLASSIFIED ADVERTISING POLICY

Please Be Sure To Check Your Classified Advertisement For Errors On The First Day Of Publication

The Daily Egyptian cannot be responsible for more than one day's incorrect insertion. Advertisers are responsible for checking their advertisements for errors on the first day they appear. Errors not the fault of the advertiser which lessen the value of the advertisement will be adjusted.

All classified advertising must be processed before 12:00 Noon to appear in the next day's publication. Anything processed after 12:00 Noon will go in the following day's publication. Classified advertising must be paid in advance except for those accounts with established credit. A 29¢ charge will be added to billed classified advertising. A service charge of \$7.50 will be added to the advertiser's account for every check returned to the Daily Egyptian unpaid by the advertiser's bank. Early cancellation of a classified advertisement will be charged a \$2.00 service fee. Any refund under \$2.00 will be forfeited due to the cost of processing.

All advertising submitted to the Daily Egyptian is subject to approval and may be revised, rejected, or cancelled at any time.

The Daily Egyptian assumes no liability if for any reason it becomes necessary to omit an advertisement.

A sample of all mail-order items must be submitted and approved prior to deadline for publication. No ads will be mis-classified.

TRACK, from Page 16

High jumper Darrin Plab tied for first with a leap of 6' 1 1/2". At the team's only other meet this season in Normal Plab qualified for the NCAA Nationals by scoring a high jump of 7' 6", currently the seasonal best in the nation.

The Nationals will be in Indianapolis on March 13 and 14.

In the shot put, Torry King and Brian Miller ranked second and third.

Before the invite, Cornell had a chance to talk to some of the other coaches from the other schools and said many of the coaches

feel they have some of the strongest teams they have ever assembled.

"Unlike earlier teams, this team is strong in both the track and field events and is very well balanced," Cornell said. "In the eight years that I have been here I feel this is the most talented team I have had."

Cornell said it shouldn't be a problem to get his squad in shape.

"We just need to get them back in the system and I'm sure we will be fine," he said.

SIUC's men's team will compete next at East Tennessee State University on Saturday.

INVITE, from Page 16

In the 5,000 meter, SIUC placed three scores as Leeann Conway, Annie Padgett and Karen Gardner placed first, second and third respectively.

Conway's time of 17:47.8 gave her the No. 6 spot in SIUC's record book.

The squad also excelled in the 1,000 meter with Conway placed third and was followed by Laura Batsie in fourth.

SIUC was coming off its season opener Illinois State Redbird quadrangular which was held Dec. 7 at Normal.

The squad placed second in that meet and had first place finishes by Conway in the mile, Batsie in the 1,000 meter, Jennifer Bozue in the shot put and Michele Williams in the long jump.

Williams' mark in the long jump, 19' 2" was good enough to oust her previous mark of 18' 11 1/2" and bettered her second place score in SIUC's record book. She also moved into the number three spot on SIUC's leader board in the triple jump with a 37' 9".

DAWGS, from Page 16

SIUC head coach Rich Herrin said his team "could not play better than it did in the first half," when it jumped out to a 54-33 lead.

"The club shot tremendously well the entire game," Herrin said.

The Salukis shot 56 percent from the field and were led by sophomore guard Chris Lowery, who hit on five of six (two-for-two from 3-point range). Lowery and sophomore forward Mirko Pavlovic each had 14 points in the half.

First-year Creighton head coach Rick Johnson, whose team dropped to 4-11 and 2-5 in the conference, said the Blue Jays could not stop the Saluki transition in the first half.

"Almost all of their points came off rebounds and the fast break," Johnson said, noting that the Dawgs out rebounded the Jays 27-9 in the half.

But he said his team never gave up when it came out of the locker room for the second period. An eight-minute, 23-4 run put Creighton back in the game.

"We just kept fighting," Johnson said. "That's the only way I can explain the comeback."

He said an outstanding individual performance by senior Duan Cole kept the Blue Jays in the game. Cole scored 13 of the Jays' 23 points during the run, and had 27 points in the second half. The 5-10 guard, who finished with 36, hit from the outside as well as on drives into the lane.

Johnson said Cole is the only true scorer on the team.

"Duan is a very good player, everybody knows it, and they key on him," he said. "The thing that makes his play so outstanding is that he hits on more than 50 percent from the field."

"That's a helluva statement for a perimeter shooter."

Cole hit on 13 of 18 field goals, three of four from 3-point range, and seven of eight free throws.

As a team, Creighton hit 26 of 33 from the line for 79 percent.

But Saluki charity tosses carried the team in the second half. The Dawgs, whose 65 percent from the line was second-worst in the MVC, hit 21 of 28 for 75 percent in the second half and 32 of 44 overall.

Lowery, who finished with a career-high 26 points, led the way with a 10-for-10 performance. Pavlovic hit seven of nine, and junior guard Tyrone Bell hit six of eight down the stretch.

Herrin said he was impressed by the way the guards hit pressure free throws, especially because the Dawgs were limited to 14 shots from the field in the second half.

But he said he could not explain how the Blue Jays erased the huge halftime lead.

"I have coached too many games to be concerned about blowing leads," he said. "Our guys know what it takes to win games."

Pavlovic finished with 16 points, and Bell and freshman forward Marcus Timmons had 14 each.

Freshman forward Eric Dantzer scored 20 points for Creighton.

The Salukis, 7-0 at home, next take on Bradley at 7:35 tonight in the Arena.

Herrin said the Salukis will have to hit outside jumpers against the Braves, who have the top defense in the league at 55.5 points allowed a game.

WOMEN, from Page 16

SIUC took off in the second half. A 19-6 run gave the Salukis a 13 point lead with three minutes left to play. SIUC kept its running game going and stayed in control the rest of the game.

Junior center Kelly Firth helped stage the offensive attack with 20 points for the Salukis. It marked the fourth time Firth was in double-digit figures for the season. She also had 11 rebounds.

Firth said SIUC played a good offensive game.

"We worked the ball well inside, and I got the open shots," Firth said. "Coming off a win will boost our confidence to play well the rest of the season."

SIUC made 71 percent of its field goals, outscoring Eastern 46-29 in the second half, and hit a season-high 60.3 percent for the game.

Scott said SIUC also picked up on its defense in the second half.

"Defensively we were soft in the first half," she said. "We came out with more intensity in the second half. We must continue to know that defense is what's going to win us some games."

The Salukis defensive duo of senior guard Karrie Redeker and junior forward Angie Rougeau held Eastern's top scorer Tracy Roller to only 11 points.

Junior guard Anita Scott had her sixth straight game in double figures with 16. She also had 10 assists for the team's season high.

Redeker added 11 points and continued to shoot red-hot from the 3-point range making three of six shots. She also had four assists. Freshman forward Rocky Ransom added 11 points.

Sports Briefs

MEN'S BASKETBALL takes on Bradley at 7:35 tonight at the Arena. For ticket information call 453-5319.

TOUR DE FITNESS is a voluntary, self-paced program that encourages lifetime leisure and fitness patterns through walking, running, swimming, cycling and aerobic dance. One may register at the Recreation Center Information Desk by Jan. 30. For details call 453-1274.

SEATED PARTNER massage clinic will be offered through the Recreation Center. It features instruction in simple acupuncture, friction and Swedish massage techniques. Registration and fee payment are required at the Recreation Center Information Desk by noon Tuesday, and the clinic is a 6:30 p.m. Tuesday.

Women inconsistent during holiday break

By Norma Wilke
Sports Writer

The SIUC women's basketball team was on a roller coaster of wins and losses during break.

After a 80-85 upset by Evansville Dec. 14, the Salukis upset eighth ranked North Carolina State in the Stanford Classic 81-64 Dec. 19. N.C. State is the highest team the Saluki program has beaten. Coach Cindy Scott said the win gave horror to SIUC's athletic program.

The Salukis were downed by Gateway Conference rival Southwest Missouri State 63-90 Jan. 4. Scott said the team was not playing well in Springfield, Mo., before a crowd of about 9,000.

"I think we're capable of beating Southwest," Scott said. "We have three tough conference road games coming up, and they'll make or break what we'll do in conference."

Saturday's win over Eastern put the Salukis at 4-1 in conference play. Illinois State, SMSU, and Indiana State lead the Gateway. All three teams are 5-1 in league play.

In Gateway statistics, the Salukis lead with a 40.6 field goal percentage in defense and a 41.5 rebound average. Juniors Kelly Fifth, Angie Rougeau and Anita Scott have paved a winning path for the Salukis this season, and just recently senior Karrie Redeker has picked up the pace, shooting well from the perimeter for the Salukis.

Fifth currently ranks as the No. 3 rebounder in the Gateway. She has 156 points and 116 rebounds for the Salukis this season.

Rougeau, who was named Gateway player of the week of Dec. 17-22, leads the Salukis in scoring this season with 160 points. She is No. 5 in blocks, No. 6 in free throw percentage and No. 8 in assists in the conference.

Anita Scott is No. 4 in assists and No. 7 in steals in the Gateway. She leads SIUC with in assists with 61 and points with 169.

Redeker is No. 5 in the league in three-point shooting. She 138 points for SIUC this season. Redeker has been emerging as a leader for the team, Scott said.

"Right now Karrie is shooting the ball with tremendous confidence," Scott said.

Board battle helped Dawgs bound into top spot in MVC

By Todd Eschman
and Cyndi Oberle
Sports Writers

Saluki junior forward Ashraf Amaya and his Saluki teammates have rebounded their way to 12 wins and the top of the Missouri Valley Conference.

SIUC stands alone atop the Valley with a flawless league record in five games.

The Salukis also lead the MVC in rebounding, averaging 42 a game. But when the Dawgs are beaten under the boards, they also lose on the scoreboard.

The Dawgs suffered two losses during the holiday break. Both times they were out rebounded.

The Dawgs fell in a Dec. 14 game to Evansville, losing 98-99 in overtime. The Purple Aces picked 41 off the rim to just 34 by SIUC. St. Louis topped the Dawgs 72-71 by taking 13 more shots off the glass than the Salukis.

"The key to any successful team is rebounding," said head coach Rich Herrin. "This is a good rebounding team. We have the size and the strength. But we area good rebounding team because we put

Men's basketball

Dec. 14	at Evansville	L 98-99
Dec. 17	ST. LOUIS	W 91-66
Dec. 21	INDIANA ST.	W 74-54
Dec. 28	at Wichita St.	W 66-64
Jan. 4	DRAKE	W 70-55
Jan. 6	at St. Louis	L 71-73
Jan. 11	ILLINOIS	W 83-65
Jan. 13	at Creighton	W 76-63
Jan. 18	CREIGHTON	W 92-82

out a lot of effort and we get good position under the glass."

SIUC also leads the Valley with 82.1 points a game and a 47.8 field goal percentage.

Amaya has been the ringmaster of the Salukis' scoring circus.

The 6-8 forward leads the MVC in scoring, rebounding and field goal percentage.

Amaya averages 19.4 points, 11 rebounds and 58.6 percent from the field. He was Missouri Valley Player of the Week for his Dec. 9 play against South Alabama.

The big man picked up 24 points and nine rebounds as the Dawgs crushed South Alabama 93-84.

Saturday against Creighton Amaya collected his 1,000th point in a Saluki uniform. With the points he moved to 23rd on SIUC's all-time scoring list.

"That was a good honor or Ashraf, and as a team we are very proud," Herrin said. "I think the honors will mean more to him when his career is over. But right now he is a team first player."

Chris Lowery also received recognition as MVC Player of the Week Dec. 21 by collecting 14 points in a win over Indiana State.

Lowery had his best game of the season in the Salukis' win over Creighton Saturday. The sophomore guard collected 26 points.

The Salukis enjoyed success during break at home despite the loss of their sixth person—the students. SIUC had five games scheduled during the break including its conference opener.

Herrin said he and the team missed the support of the student body.

"Vacation was too long, and our schedule was not kind," he said. "The students are our sixth man, and we miss them when they are not here."

McEnroe moving up down under

Melbourne, Australia (UPI) — In September, Jimmy Connors put his stamp on the U.S. Open. Four months later and half a world away, John McEnroe takes his turn.

Playing at a tournament form which he was ejected two years ago, McEnroe suddenly has sellout crowds behind at the Australian Open.

First, he knocked off defending champion Boris Becker in the third round Friday. Then he made a five-set encore Sunday against No.

13 seed Emilio Sanchez of Spain. That propelled him into the quarterfinals.

Even the other players are caught in the "Mac is Back" fever as he chases his first Grand Slam crown since 1984.

"He's becoming Mr. Open just like Jimmy was at the U.S. Open," said Stefan Edberg, the top seed.

Edberg was due on center court after the fourth-round McEnroe-Sanchez match and was drawn into the 4-hour, 41-minute thriller.

Fast Free Delivery PIZZA Delivering The Perfect Pizza

BREAK IS OVER,
SCHOOL HAS BEGUN.
GETTIN' HUNGRY ?
