ELECTION SPECIAL

## Propose \$1 Increase To Provide Hospital Fund

Whether the student activity fee is to be increased \$1 per quarter-will be decided today by student referendum. At present, approximately \$1 per term of the student activity fee is channeled to the health service. Should the \$1 increase be accepted by the student body, the possible benefits of the in-

accepted by the student body, the possible dividual student will be more than tripled. In the past, \$15 has been-colled to differ each student per year. The additional \$1 per quarter will enable the health service to build a limit from which the student will be student will and the health service to build a fund from which the spudent will be able to receive approximately \$50 for hospitalization, doctor's consultation fees, and medication, plus an additional \$80 to \$100 in case of accident.

On or Off Campus

The increased benefits will be
available to all students, whether
on or off campus and during all
vacations, except summer vacation. To Hold ISA Dance Those enrolled in summer session are eligible for that period, too. Here Friday Night

The program has been planned by university officials, approved by the student council, and is designed to aid students to stay in school An Independent Student associa-tion all-school sweetheart dance here tomorrow night will mark the some sumerrow night will mark the lat a time when they can least afford beginning of an event which the to raise money for doctor bills and sponsor, the 4SA, hopes to make an annual affair. hospital expenses. If approved, the funds will be placed in the restricted hospitalization fund, and will be administered by the health service.

The dance, which is informal, will be held in the Women's gym beginning at 9 p.m. Admission will be 50 cents a person or 75 cents Dean I. C. Davis emphasized that "The university is not trying to sell the students a bill of goods. The available funds simply cannot he orchestra and special plans have seen made for decorations. Robert Hough is chairman of themselves on this important de-cision—whether to spend the addithe dance committee with Jean Humm acting as co-chairman. tional \$1 per quarter to be eligible for increased benefits."

A question of great importance and interest in the country today and interest in the country today is that of medical care. In the past 20 years, as medical science has developed, university enrollments have increased tremendously, and the problem of carring for students has increased from almost nothing to one of great improved.

the university library are now on open shelves in the education and periodical reading room. This is done to provide an educational ex-perience for students who might otherwise not be aware of the ex-tent of the university library col-lection. has increased from almost nothing to one of great importance.

"The proposed increase in available health funds would place the student in a position to avail him-self of the specialization and tech-nical aids of medical science at ititle cost of himself," declared Dr. Carl N. Reilly, director of the The magazines are arranged al-phabetically by title under 37 sub-jects ranging from agriculture to student health service, "whereas the jects ranging from agriculture to zoology.

A rotary file lists each periodical aphabetically by title and indicates the large subject, special column, under which it may be located, to be worth the extra cost."

## Award Contracts for New Southern Library The Placement Service today announced to all June and August graduating seniors that in order to be approved for graduation com-plete registration with the place-ment office is necessary.

Edward V. Mdes, Jr., university business manager, has announced that the Triangle Construction Co. of Kankakee and Carbondale has been awarded the contract to construct the new Southern Illinois university library.

the office including the registration form, personal history, pictures, evaluations, and an interview held The entire project is estimated at \$250,000. The new library site will be at the corner of Thompson and Chautauqua, behind the pres with the director of the placement service, officials said.

Any person receiving a position should notify the placement office in order that all the files may be

Awards of contracts for con also have been awarded to various a member of the board in the firms throughout Southern Illinois.

### Physical Plant Makes Repairs To Shryock, and Water Fountains

Otto Gotway, engineer of main-tenance, announces that extensive repairs are now being made on Shryock auditorium.

Some of the repairing that is being done is replacing the decaying windows, extensive re-wiring to conform to the state fire marshall's recommendations and replastering the rest rooms.

In addition they are removing the water fountains in the gymnas-ium. These fountains will be re-placed with electric water coolers.

plans consist of removing one of hains collists of removing one the the buildings in the Chautauque housing project to make room for new buildings to be constructed in that area.

Three green bouses and one life science building will be constructed in this location. Plans are in progress to repair McAndrew stadium and to install\_a lighting system for the football field.

#### **Banton Gives Students** Tips on Reporting

O., T. Banton, reporter for th Decatur Herald and Review, talk-ed to a group of journalism stu-dents in the Baptist foundation

dents in the Baptist foundation chapel Friday morning, May 26. Banton, graduate of the Uni-versity of Wisconsin school of journalism, served 15 years on the Milwaukee Journal and then went Milwaukee Journal and then went to Decature, where he has been for 13 years. For several years he was city editor of the Decatur paper. He passed along a few tips to the Journalism students in his talk. He said one of the most important things is experience. He said a

things is experience. He said a small town was a good place to get

closer c nact with the city editor.

He said he likes reporting because of the great variety of stories.

He added that the easiest persons to interview are the really importaed so there will be one key to op-en each building and one key to open each individual room. Pres-ent plans are to install the system ant persons because they aren't afraid to talk. in one building and continue as appropriations are available.

## EXTEND BRIGGS' TERM ON HOUSING BOARD

Dr. Harold E. Briggs, professor of history and chairman of the department of history, Jias reconting received word that his membership as commissioner of the Jackson County Housing authority has been extended for a two-year

## Slim Crowd Sees 'Stage Door'; Others Miss Good Play

You missed a good play Thurs-y. The Little Theatre skipped day. The Little Theatre skipped and gagged and sobbed through famous "Stoge Door" until the audience appeared to be having as much (un as the actors.

The show got off to a frantic pace with girls dashing around their Footlights Club boarding house (faintly resembling a sorority house). When at last the cast of 29 hesitated long enough for the echoes to catch up in Shryock auditorium, a thoroughly enjoyable plo

to Dr. Archibald McLeod's casting ability. Dorothy Helmer revealed a new versatility, but retained her old Lloyd R. DeWitt, Mount Ver township high school faculty sincerity, and veteran Phyllis John

In the absence of Robert A. Steffes, who will be off campus this summer, DeWitt will handle Carol Krusen, a freshma ormed the flippant part of Judith Canfield with unusual effectiveness. this summer, DeWitt will handle the publicity methods class, survey of journalism, and school publi-cations. He is particularly fitted to teach the latter course, having been a publications adviser for more than 22 years. Demonstrating a rare stage pres-ence, practically every line she de-livered was sheer humor — and some of them were ad libbed!

May Install Master

Key System at SIU A master locking system will be installed in all of the main campus buildings soon, according to W. A. Howe of physical plant. In this system there will be one master key which will open any door in any of the buildings in which this system has been install-ed. arately, were well cast and wholly

Attendance was slim, but it is believed that productions such as this will tend to revive student attendance.

was neatly handled, for example the Sunday morning scene reading the newspapers. Skillful lighting and set construction rounded out the technical niceities.

## In order to bring the results of the Student Council and Home-coming chairman elections to the students, the Egyptian will issue a four-page tabloid next, week. The Egyptian will be in the cross halfs of Old Main sometime Tuesday af SIU To Offer Library **Courses This Summer**

## Health Fund:

"The present thespitalization fund can be more than tripled for only \$2 extra per quarter if the increase is approved by the student hody," declared Dr. Carl N. Reilly, director of the student health service.

I. C. Davis, dean of mon, stated that "The present hospitalization fund is inadequate for the following reasons: It has provided inade-quate benefits to students who must be hospitalized because of accident or illness. Frequently this has resulted in a financial burden to the student at the very time when he could least afford it.

The increased benefits will be available to all students, whether on or off campus and during vacations, except summer vacation, in which case the student must be enrolled in summer session to be eligible.

The additional \$1 per quarter will enable the health service to build a fund from which the student will be able to receive approximately \$50 for hospitalization, doctor's consultation fees, and medication, plus an additional \$80 to \$100 in case of accident.

Modeled after plans in successful operation at many midwestern universities and designed by university officials, the plan has been approved by the student council. Dean I. C. Davis emphasized that, "The university is not trying to sell the critical and the control of the council the co trying to sell the students a hill of goods. The available funds simply cannot be further, and the university wishes the students to express themselves on this important de cision—whether they wish to spend the addi-tional \$1 per quarter in return for the increased benefits

## Overcrowded

Experts declare that one field after an other is becoming overcrowded with trained personnel. College trained persons are no onger being snatched up as soon as they re-

"So what!"

We are confident that we can prove our worth even though circumstances force us to start at the very bottom with no practical experience in our field. Four years of compe-

competition as a stepping stone.

We attended college in order to gain a attended college favored position in the labor market. And in spite of the pessimism of the experts, we have that favored position. Although jobs are harder to find now that the boom is over, they are still more available to the trained personnell than to the untrained.

During that time when the labor market was unlimited, people of little or no skill found it comparatively easy to obtain employment. The ratio of training to the chances of desirable employment still exists, and will continue to exist as long as employers operate businesses to secure profits.

A college education was never meant to guarantee that a person should automatically he exempt from commetition and from have ing to prove his own worth. Although the salary for many positions are low and the position itself menial, the college trained person still has the great advantage in chances for advancement, if he is not afraid to take the best he can get and then to apply himself towards making himself more valuable.-M.L.S.

#### Kat or Cat

We know it's unusual for students to be for another course, but that's what we're doing. The need for this course has been felt for a long time. We want to be

taught how to spell
We might as well admit it. A blank mind springs up whenever we try to spell a word of more than five letters. Somewhere along the line someone failed to teach us how, and it's

high time we learned. Fine applicants for jobs we'll be when we can't spell sixth grade words. A two or three hour course could be easily slipped into a term's schedule and could go a long way towand streightening us out on ie's, ei's, apostrophes, hyphens, and the so-called common words.—M. B.

(Hooray!)-The Printer.

#### Little Things

A strike was called on two Southern Illinois university building projects because a superi rough language.

----

A certain pastor who is an unusually po ful speaker and a respected man in his field has not been able to practice his profession for some time now. In other respects a careful man, this paster has the poorest posture imaginable. He slouches all over the place. We happen to know that he was refused by at least one church board because of his p

A friend of ours is quite handsome, has a fine personality, and drives a good car. Yet he finds it difficult to get a date. This friend has the annoying habit of picking his hose in public.

Extremely capable men have been relegated to unimportant jobs because of little imperfections. If you experience set-backs for no apparent reason, it might be well to check little things about yourself .- M.L.S.

## Books vs. Activities

The audience at Honors Day assembly was small and chiefly dominated by the relatives of those to be honored.

Time was when scholarship was the main function of the university. Now scholarship must vie with the more emphasized sports and the more gregarious extra-curricular activities. Athletes fought the war and won the med-

als-but scholars designed the superior weapons that in a large part made victory possible,

The Athenian greeks contributed more to present day society than the Spartans dreamed of. The Roman empire became decadent when the gladiator shows overshadowed the essays of Cicero.

Perhaps Honors day should be expanded to approach the magnitude of Homecoming and Spring Festival. Perhaps our most des-perate need is a revival of learning.—M.L.S.

#### **Acoustics Anonymous**

The P. A. system in the auditorium is one of the more tempermental "artists" on Southern's campus. Big name personalities seem to make it speechless. It has also become bashful at several assemblies.

Maybe an organization called Acoustics Anonymous might be able to encourage our backward friend to cooperate at the right time. An understanding voice, cooed into the microphone during one of its emotional up-heavals might do the trick.—D. LaB.

#### Make Mine Black

According to employees of the cafeteria and the Canteen, approximately 3,440 cups of coffee are sold on campus daily. That is more than one cup per student, faculty, office and maintenance employees counted together.

Could it be that the veterans in school caused this coffee boom? After talking to several vets we found that two out of three acquired the coffee habit after they entered the service. This has stayed with them and now between classes and during free hours a cup of coffee serves as the medium for a bull session or shop talk. -D. L.

#### Open-Book, Open Mind?

Why not be realistic and allow open-book tests? ic 20th century and its great offspring, the atomic educators cognizant of the detiencies of the old-style tests. Webster's Collegiate dictionary defines test: "any

Webser's Collegate dictionary defines test: "any series of questions of exercises or other means of measuring skill, knowledge, intelligence, capacities, or aptitudes of an individual or group."

The 20th century is the era of the reference book. It is difficult to believe a student could assimilate all the subject material in a single course, let alone; in all the courses of four years at the University. What should be taught is how to make swift decisions. There are so many things that slip out of a student's mind when a course if flinished. If the ability to reason and use judgment has been well-grounded, the student will be able to discern rapidly.

rapidly.

After graduation, the student has to relearn many things. In new situations, the college graduate is constantly groping for answers to fit changing conditions. Too often this is a direct result of Jearning te. Examinations should test the stutient's to make rapid decisions, because that is

ability to make rapid decisions, because that is what the working world debands.

Open-book quizzes will naturally be difficult. They should provide ample opportunity for each person to judge the correct procedure to attain desired results. The quizzes would test how the stu-

sired results. The quizzes would test how the stu-dent used information, not how much be knew before coming to class. But one of the greatest achievements, as far as the professorn would be con-cerned, would be the reduced evil of cheating. Here would be one type of test that would give ample opportunity to grade the thought processes of the individual. Sloppy thinking and methods of study would be penalized under the new system even more than now. Open-tests would provide students.

Open-tests would provide students a change to interpret and explain as contrasted with the present musdled condition of memory work and fic-titious knowledge.—Dale W. Fields, Daily Kansan, University of Kansas.

"Retter drop a few more in, more of the opposition voted than we expected."

## U. S. in Danger Says Stassen in Memorial Day Talk

"There is greater danger today of war coming to the shores of America than at any time since the War of 1812," declared Harold E.

"We' should seek to roll back Stassen, former governor of Min-nesota and president of the Uni-versity of Pennsylvania, in a specmorial day speech in Shryock rium here Tuesday morn-

#### Symptoms of Communism

Joe Doakes and Mary Coed attend Sout ern presumably to get an education. It is important to Joe and Mary that they not only get an education, but they should be able to ecognize Communism when it comes around, It is important not only to be able to secognize Communism, but also to be able fight and organize against it.

In a far-off section of the world # country, behind the Iron Curtain is trying to push its form of government into all sections of the world. This form of government can succeed only if it encircles the globe.

If a communistic organization were on campus, would Joe and Mary know about it? When they graduate and get jobs, would they be able to know where Communism wou most likely rear its head? We think it well to take a peek at the wily ways of the Communist of its fellow travelers.

Communism thrives best during periods of unemployment, strikes, racial 🕏 and periods during which there is a feeling of

First they organize a patriotic club. They may call themselves, "The Farmers' Labor party," for "progressive political action."

This organization may try to get some prominent person to join ... maybe this prominent person will never attend the meetings. This technique will tend to draw people he cause Henry so-and-so is a member or maybe Gloria Hotshot of Hollywood belongs. This will serve as a drawing card.

When these meetings are called, a thoroughly indoctrinated person usually speak on "class consciousness;" "Struggle of the Poo Working Man in this Capitalistic Society; "Struggle of the Poor The Case of the Working Man."

He will be very critical of existing orders of the day. He does not believe in working inside the existing order of the present government, but will advocate the violent over throw of the existing government. He will claim that the working man has no real home. He will velo that labor is regarded by the expoliters as simply one of the commodities of destruction. He might say again that Capi-talism contains the seeds of its own dstruction. Others will publish a paper with the slogan, "This is truly the only paper that Democratic." They will lecture on such subjects as unemployment and "Boom and Bust cycles.

What are some of the things Joe and Mary can do to keep their Democratic way of life We feel the answer is to keep Communism in the open by not resericting their freedom of speech and press. So long as Communism is the open it will serve as a barometer to tell the people whether or not our democratic ideals can stand such pressure from the Communists.

This will serve to indicate whether or not the country is on an even keel. Democracy does not guarantee you economic equality, but it will give you political equality plus a democratic way of life. Communism, which will attempt to give economic equality, will not give political freedom and will enslave the people to mere cogs in a gigantic machine.

## Why Only Phi Beta Kappas?

Recently a firm in St. Louis announced it was interested only in applicants who were "straight A" students. Now an advertising agency in New York wants those in possession of a Phi Beta Kappa key.

It is only natural that any company would want to staff its organization with the most capable personnel, but we doubt the wisdom hiring only "intellectuals."

We have been under the impression that "straight A" students often diviate from the norm to the extent that they often experience difficulty in adjusting themselves to a con-tinuous "give and take" social and business world.

Persons of this type often have established their own views and convictions which they always are prepared to defend and often stut bornly refuse to discard or even alter. This is one point contrary to the prescribed nature of

the successful man in advertising work.
We can't help but feel that the firms can't be steadfastly serious in their demands

Many students work full or part time to finance their education. These students are "go-getters"-the ones willing to go all out for an education.

In many cases, however, their study time is limited. Instead of A's they come up with

Students with a heavy extra-curricular schedule; those plagued with an inadequate diet; those hampered with strained home and family relationships often make only average grades, but are still quite capable persons. G.R.D.

1:30 All examinations will begin at the hours scileduled above and will run for two clock hours, except for Examinations for these will begin at the end of the two-hour examinations and will run for one clock hour. This arrangement is necessary to dovetail three, two, and one-hour classes that meet at the

me period.

4 o'clock classes may be arranged by the instructor at one of the regular periods.

Examinations in evening classes will be held at the last meeting of the class in the examination week.

## More Power To The Tower

We realize the estimated \$30,000 being spent to construct the tower atop the new training school building could be more useful purposes, but we are nevertheless pleased to see this tower taking shape as the building nears completion.

We feel that the cost is within reason and that the added expense is justified. Spread over the years, the tax rate per capita will be slight.

Art students seem to be voicing the loudest objection. They compalin the architectur-al style of the tower is not in keeping with the

functional design of the rest of the building.

In due time Old Main will be razed and the familiar tower that has served Carbondale as a focal point for many years will be gone. Since no serious complaints have been registered from the tax-paying public, we assume the cupola's functions as and watch tower are sufficient to justify its construction.

## Norm Nilsson Is Unherald Member Of Sports Staff

Norm Nilsson, sports editor of Southern's Information Service, has been a silent and more or less un-heralded member of The Egyptian who turns out more sports

NORM NILSSON

cation's sports page for thre

has handled the sport publicity angle here at Southern. It has been his duty to cover all sporting events connected with the university, major and minor, and to mail their writings to papers all over the Midwest, and particularly in

A physical education major.

Norm is, needless to say, well acquainted with the wheres and whys of sports publicity, and hopes whys of sports publicity, and nopes to continue in a similar capacity after his graduation this June. He has provided the 200-plus papers on his mailing list with sports material since his return from the army in 1947.

Refore entering the army in

mmy in 1947.

Before entering the army in 1945, Norm was busy at Southern in a different activity—for he was making quite a name for himself on the gridinon and basketball court of the Marcoons. He lettered in both sports in 1944-45 before he entered the service. Upon returning to Southern, how-

returning to southern, now-ever, Norm was advised by doctors to refrain from any full-time competition in sports. It was at this time that Norm, hoping to keep in close contact with sports, turned his talents to sports

sports, turned his talents to sports writing. He had a considerable amount of experience previously, as he wrote for his high school and home-town newspapers in Edwardsville. He made the switch-over readily and capably.

So whenever you're glancing through a metropolitan newspaper, and you come across some sports.

and you come across some sports soncerning Southern, you can be quite, sure that Norm Nilsson was responsible for it. Just another re-minder that the silent, but very important, member of The Egyp-tian is on the ball.

BOB NEIGHBORS, who came, saw, and conquered as far as the Inc. of pole vault record is concerned, is shown here clearing the bar in a 12 foot practice jump, Neighbors went 13342 last Saturday at Normal to set a new conference record as well as a Southern mark. Neighbors, a senior, thus closed his four-year athletic career with the best pole vault of his college span.

Jim Kahmann

#### FOOTBALL

Summing up the 1949 football season, we would name the home-coming football game askhe most dramatic of the grid year. Although Southern dropped this battle to Eastern, 26-13, our men played one of their best games of the season. Playing against some of the stiffest com-petition they faced all season, they came very close to an upset victory. The pass receiving of Bob Colborn, the line play of Jim Lovin and the victous tackling of Charley Heinz stood out clearly in this game, thus it was a contest wherein the seniors gave a good account of themselves.

#### BASKETBALL

As to the baskethall season, it would be hard to single our any one content as the most exciting of them all. But the last two battles with leastern's Panthers seem to us as being the most hair-raising of the coundball carpaign. The utterly stupendous play of Tom Millikin and the surging drive of Capit. Chartle Goas highlythed baskethall games all season. These two men were reworded in receiving all-conference recognition, and Tom rose to top heights when he was voted the most valuable player in the conference.

#### WRESTLING

WRESTLING
And when Charlie Heinz, with practically no experience behind him, came out against Carl Grinwald of Arkanssa State—one of the finest College wresiters in his weight in the midwest—and held him to a draw, and didn't give an inch, and remained an aggressor throughout the entire match—well, that was definitely one of the highlights of the successful, inaugural wrestling season. Of course, the fine showing of Bob Whalen and Jack Stoudt, two great grapplers, was one of the most pleasant aspects of the mats schedule. But when Charlie Heinz and Carl Grinwald squared away on that night of Jan. 28, there wasn't a sound in the granassium.

TOAST YOUR sound in the gymnasium.

TRACK

The story of Bob Neighbors is success story. It is the story of a boy who rose from humble surroundings to goin great fame in a sport which meant so much to him—track. It Ba J foot, 3 inche pole vault at Normal last Saturday certainly takes first place honors as the outstanding schievement of the track season. But those Bob Neighbors captured the IJAC record, the Southern record, and his own record, this prodigious leap means a little something more with a severely dislocated eithow, came from out of a plaster cast, and with a right arm no bigger than a year-old caphing, came out and got that record he knew he must get It was only through tireless effort on the part of Bob Neighbors and his "doctor," Don Wille, that he was able to succeed, Yes, the athletic story of Bob. Willie, that he was able to succeed. Yes, the athletic story of Bob Neighbors is truly a success story.

#### BASEBALL

This has been, without a doubt, the most successful of the spring sports. Abe Martin's baseball Marcons racked up a great record this spring. And the best part about it is the fine outlook for the future. But the hitting of one Bill (Froggy) Bauer, as well as the fine slugging of stretching loc lones, stand out in themselves as the most accentuative highlights of the baseball season. Bill Bauer proved his worth as a hitter. As a calcher, his work at the plate showed need for improvement. But when Capt. Bauer gotthe chance in the outfield, he really went to town. And likewise, when loe Jones got the chance at first base, he most assuredly carne through with flying colors.

Bill Bauer and Joe Jones highlighted the baseball season.

#### TENNIS

It's really a shame that the tennis season ended up in the manner It's really a shame that the tennis season ended up in the manner if did. With the material available, and the rest to go with it, the final showing at the conference was poor. However, it can be acknowledged that the competition was very rough, what with Washington and St. Louis U providing four losing matches. So going along with his record, will have to name fack Norman's play at the conference matches will have to name fack Norman's play at the conference matches will be a season of the seasons of civilities. Level we have the seasons of civilities Level and the control play command the seasons of civilities. Level and the seasons of civilities. seasons of eligibility. Let's all hope so

#### GOLF

Shooting a 68 on a 72 per course, Walt Zukosky led the improved golfers onto the greens at Normal. In fact, Walt's game all season was one of the brighter things connected with Southern's performance on the fairways. Coach Lymn Holder is to be commended in the way he handled the men this year, and next year's golfers should p quite capable indeed.

In summation, we'd like to say "Thanket' to everyone who added in the sports page this year. It's been great working with the people we had to deal with, and with all the upe and downs, we hope times haven't been too tough for some. And to you readers, all drive of you, and to florted George Crimminger, we say so-long

# Bob Neighbors Sets Conference Record In Pole Vault

Piling up a 79-point barrage, the Hurons of Michigan State Normal left the other six entries far in the distance, as they swept the 31st IIAC track and field championship at Mc-Cormick field, Illinois State Normal, Friday and Saturday. Bauer, Jones, And Thompson Gain All However, not all was lost for Southern as Bob Neighbors broke the conference record in the pole vault. Loop Recognition

the connection record in the pole valuit.

In amassing their winning total.\*

the Hurons smashed four conferleage records in winning the high Old record, 1:56.2)
