Panel says shuttle disaster preventable

WASHINGTON (UPI) — The Rogers Commission, calling the Challenger disaster "an accident rooted in history," Monday blamed the tragedy on rocket failure that could have been prevented and a "flawed" decision by NASA's "flawed" shuttle management.

The panel's sharply critical report said there was a serious breakdown in the decision-making process that cleared the shuttle for a flight that ended 73 seconds later with an explosion that killed seven aboard.

The 256-page document reprimanded the space agency's Marshall Space Flight Center in Huntsville, Ala., for "potentially serious problems" and for urging rocket maker Morton Thiokol Inc. to reverse its position against launching the shuttle.

"A well structured and managed system emphasizing safety" would have detected mounting concerns about the design of the booster rockets and the fatal launch might have been averted, the report said. But it did not directly blame at any favoritism or "influence peddling," and there was no evidence of sabotage.

"The incident at the Challenger would have been avoided " if the Board of Regents changed its mind and fired President William J. S. Pettit, Rogers said the panel found nothing to warrant a Justice Department investigation.

Lawrence K. Pettit

Pettit brings mix of job experience

By Catherine Edman
Staff Writer

When Lawrence K. Pettit takes office July 1 as the chancellor of the SIU System, he will bring a mix of academic and political experience that he believes is vital for success in such a job.

"I have the kind of experiences that serve a chancellor," Pettit said in a telephone interview, "my two interests are combined."

Currently the chancellor of the University System of South Texas, Pettit was appointed by the Board of Trustees as the SIU chancellor on May 8.

He formerly was the commissioner of higher education for the University of Montana System, a title equivalent to chancellor. He has been a legislative assistant for two U.S. senators, election campaign manager for a Montana governor, administrative assistant to the governor, and was a candidate for U.S. Representative in Montana’s 2nd District in 1980.

Pettit said he and his wife, the former Elizabeth Dubois Medley, will live in Carbondale with their daughter Allison, who will be an SIU-C student. Their six other children, ranging from age 16 to 23 are married or will be studying elsewhere.

Pettit said he feels that he should be close to the chancellor’s main office, which is the SIU-C campus. "I am very eager to get there and get into the position," Pettit said. "I am eager to meet as many people as possible."

During the search, Harris Rowe, Board of Trustees chairman, said the "right mix" in a chancellor would include understanding different campuses of the SIU System.

Staff Writer

When East met West in Studio A of the Communications Building for a two-hour verbal exchange, the results were chaotic or otherwise — were hurled.

The SIU-C students who sat down on May 16 to talk to 17 of their counterparts from the University of Montana, the first sound to come from the Soviet capital was laughter.

That opening set a light-hearted tone for the two-hour exchange, the first of its kind, during which the students discussed, among other things, the rigors of college life and their favorite ways to unwind.

WHILE TWO U.N. translators hired by the University for the exchange chucked and at times rolled their eyes, as they tried to decide which language to respond to translate while political science professor Ron Mason tried to keep the conversation flowing smoothly, SIU-C students vied eagerly for a chance to ask a question or respond to one.

"The Soviet students, who described themselves at the start as the "most friendly" and "most open," said the university, agreed instantly to a suggestion made by Nathan Dick, speech communications major from Wadsworth, Ohio, that both sides leave behind negative stereotypes behind during the conversation.

"The best thing to help peace is to know as much about each other as possible," a Soviet student said.

The Soviet students also warmly accepted the sympathy extended by Juliana Zundich, Russian language major from Mendota, over the Chernobyl nuclear disaster.

No one said that the tragedy makes it parameter for the superpowers to end the arms race. This was an accident, he said, so imagine what would happen if the same occurrence was intentionally exploded.

While a few political topics, such as the Chernobyl disaster and the right to travel freely into the Soviet Union, did surface, most of the exchange dealt with student life and leisure activities.

Both groups of students said that entertainment activities are tough. The Soviet students, including English literature, French.

Student Center celebrates 25th year

SIU dedicated its new Student Center on June 10, 1981. At 1:30 p.m. Tuesday — 28 years later — the facility will be rededicated at the fountain court in front of the building.

SIU-C President Albert Somoll and Dorothy Morris, wife of late SIU-C President Delcy Morris are two of the featured speakers at the ceremony. After ribbon cutting and formal remarks, the ceremony will be moved to the Gallery Lounge for refreshments. A cake shaped and decorated in the colors of the Student Center will be served.

School of Music faculty members Deirdre Beattie and Daniel Mellado and McSudo's director of choral activities, Brian Thomas, will provide music during the reception. Tours of the Student Center will be given and a photographic display of the center will be through the years will be featured.

The 25th anniversary will be celebrated throughout the week with specials at noon and Thursday and Friday in the Student Center Renaissance Room.

Dan Dugger, former SIU-C student body president and owner of Tree Town Liquors will speak Wednesday if out students of the 1960s and the 1970s and the professor's perspective of students will be given Thursday by John S. Jackson, dean of the College of Liberal Arts.

Changes in communications and their effects on SIU through the years will be the topic of Michael Youngblood's speech on Friday. Youngblood is an alumnus of the School of Communications and College of Communications and Information.

Festivities conclude through the weekend with the showing of three films from the 1960s in the Student Center Auditorium, including "Yellow Submarine" at 7 and 9 p.m. Friday.
Jet forced to land in Peru; fined $5,000 before leaving

LIMA, Peru (UPI) — A Peruvian military jet forced a Pan Am jumbo jet with 300 people aboard to land after it violated Peruvian airspace, but was allowed to resume its flight to Los Angeles after paying a $5,000 fine, officials said. Peru and the United States do not have an air traffic agreement, and the spokesman said the Boeing 747 was forced down because it had not provided authorities with 48 hours notice.

Still threat of explosion at derailment site

SAN ANTONIO (UPI) — Firefighters who cannot extinguish a blazing chemical leaking from a derailed train car Monday cordoned off a 2,000-foot area surrounding the site because of the danger of an explosion. More than 1,700 people within 2 miles of the site were forced to evacuate the homes along a high ridge above the derallment. Authorities said they do not know how long the car will keep burning.

Gorbachev calls to stop ‘nuclear terrorism’

BUDAPEST, Hungary (UPI) — Soviet leader Mikhail Gorbachev said Monday safety procedures at Soviet nuclear plants were being overhauled as a result of the Chernobyl disaster and called for international cooperation to prevent “nuclear terrorism.” Gorbachev said the Soviet Union would press for a “serious strengthening” of international cooperation in case of another nuclear disaster like Chernobyl.

Court allows people to sue St. Louis plant

MARYLAND HEIGHTS, Mo. (UPI) — The Supreme Court said Monday that people who work near suburban St. Louis pharmaceutical plant can pursue their $1 billion suit for alleged damages from radioactive emissions. The justices rejected an appeal by Mallinckrodt Inc., a federally licensed radiopharmaceutical plant in the suburb of Maryland Heights. The plant emits small amounts of radiation.

Unsecured creditors approve UPI’s sale

WASHINGTON (UPI) — United Press International’s unsecured creditors have voted overwhelmingly to approve the wire service’s sale to Mexico’s largest newspaper publisher, assuring UPI’s emergence from bankruptcy protection this week, sources said Monday. In monthlong balloting completed Monday, all but five of 137 large creditors who voted to support the $56 million to $40 million sale to Mario Vasquez-Rana of Mexico and his 10 percent partner, Houston businessman Joe Russo, the sources said.

Court won’t revive cable ‘must-carry’ rule

WASHINGTON (UPI) — The Supreme Court, in a victory for cable television operators, Monday refused to order reinstatement of a rule that required cable companies to carry local broadcast stations on their systems. The justices, without comment, let stand a lower court ruling that declared the federal government’s “must-carry” rule unconstitutional.

Doctors optimistic of baby’s survival

PASADENA, Calif. (UPI) — A baby who became eligible for a heart transplant when his grandparents assumed custody of him was given a lifesaving drug Monday but doctors refused to express optimism about his chances of survival. Three doctors treating the ailing infant refused to say whether a donor heart would be quickly found or how long they think the child can live without a transplant.

Grandfather shoots 6 family members, self

LANSING, Mich. (UPI) — A 79-year-old man killed his daughter and her husband and wounded his wife and three grandchildren, then shot himself in a rampage arising from a family dispute, police said Monday. Melvina N. Henwood was hospitalized, in critical condition and under police guard. He apparently shot himself before he was arrested about 4 a.m. Monday. The shootings erupted as the family prepared for dinner, police said.

nation/world
Radio exchange 
seen as success
By Lisa Eisenhauer
Staff writer
SIU-C’s panelists were prepared for a “political dogfight,” as one put it, in their radio exchange with Soviet students.

But there were no volatile exchanges of conflicting opinions in the two-hour chat between the SIU-C and Moscow State University students — to the surprise of organizers and some of the participants.

Most campus participants interviewed after the exchange said they were prepared for a hard-hitting political debate, but were relieved that the conversation never veered from its cordial beginnings.

HOWEVER, ONE of the SIU-C panelists, a graduate student from a Soviet bloc nation, said she was in no way surprised by the light-hearted tone of the exchange.

The exchange was organized after Soviet officials asked Walter Rodger, ABC News bureau chief in Moscow and SIU-C graduate, if he knew of an American student that might be willing to participate in a radio link-up.

But 13 SIU-C students chosen for the event from a pool of 40 to 50 students nominated by deans were required to attend a week of seminars prior to the radio hook-up. Topics discussed at the seminars ranged from the Soviet education and political systems to the logic behind U.S. and Soviet foreign policies.

AMONG THE speakers at the seminars was Greg Guroff, an expert on the Soviet Union who served as personal aide to concert pianist Vladimir Horowitz during his recent tour to the Soviet Union after a 60-year self-imposed exile.

Although the preparation turned out not to have been crucial to the exchange since few of the topics surfaced, Michael T. Miller, political science major from Carbondale, said he was glad the seminars were required.

The lectures not only prepared students for the worst, a political dogfight, they made the panelists feel more confident and secure before meeting their fellow students from the East, Miller says.

JOHN JACKSON, dean of the College of Liberal Arts and one of the two organizers of the exchange, said building the confidence of the students and providing them factual knowledge for any debates that might erupt were goals of the seminars.

Jackson said he was somewhat disappointed that the talk barely touched upon historical and political differences between the United States and the Soviet Union because it would have revealed more of the “substantive differences” between the two superpowers.

BUT JACKSON said he was pleased that the exchange did not turn into a “shouting match.” See EXCHANGE, Page 20.

Recruitment center shows progress toward opening
By Nola Cowser
Staff Writer
Construction on the new Student Recruitment Activities Center at Woody Hall is progressing “very well,” says Clarence Dougherty, vice president for Campus Services.

“It looks like a very attractive facility and will probably serve its purpose well,” he said.

Terry Mathias, director for the new facility, estimated that the recruitment center will open in early July. Some necessary supplies are on back-order at the Physical Plant, he said, and the center could not open until the supplies arrived.

“One of the great benefits of having an admissions recruiting center is that it will provide a focal point for recruiting students to the institution,” Mathias said. He added that the pleasant surroundings of the facility will project a good first impression of the University when prospective students and their families visit.

The facility will employ 12 staff members and about 12 student workers, Mathias said.

It will contain offices for the director, counselors and other staff members in addition to a canteen area and video lounge, which will serve as a presentation area to orient prospective students and their parents to the SIU-C campus.

The center is located in what was previously the cafeteria. Construction has continued for nearly a year and the renovation has stayed within its originally allotted $200,000 budget, according to Dougherty.

STUDENT CENTER
25TH ANNIVERSARY CELEBRATION
ANNIVERSARY LUNCH & LECTURE SERIES

June 11 - 13, 1986

Wednesday, June 11, 1986
Topic: "Perceptions, Students Then and Now"
Speaker: Dr. Darye, Dugdale
Manager of Old Town Liquors

Thursday, June 12, 1986
Topic: "Student Political Attitudes and Activities - The Professor's View"
Speaker: Dr. John Jackson
Dean in the College of Liberal Arts

Friday, June 13, 1986
Topic: "Twenty-Five Years of Non-Verbal Communication - A Focus on the Visual Arts"
Speaker: Dr. Michael Youngblood
Associate Dean in the College of Communications and Fine Arts

All Lectures are scheduled for 12:00 noon in the Renaissance Room of the Student Center - Coffee and iced tea are provided. PUBLIC WELCOME.
Shuttle is just the first step

By Scott Freeman
Editorial Page Editor

DREAMS SOMETIMES come true and sometimes blow in our faces.

The space exploration dream started with the shuttle program, NASA's first firm commitment toward regular space travel. It marked a new age for the program in that for the first time pilots have been called to actually pilot space craft. Before, they were just along for the ride.

But the shuttle was a dream realized for the American public, creating many everyday heroes with each successful launch. But the dream exploded on January 28, creating seven martyrs for a program many critics and doomsayers were ready to kill off. Suddenly, the dream was dying.

Careful and detailed examination of the causes of the dream's demise were called for if it was expected to be resurrected. The critics must be satisfied, and the public placated. Congress had to be convinced of the confidence of the remaining astronauts restored. Now there are 14, and it seems that a cause for the shuttle's shutdown has been found. And with an answer to the accident in hand, it is now time for the space program to proceed forward.

The dream must go on.

A 13-MEMBER commission, headed by former Secretary of State William Rogers, found that the culprit responsible for the booster explosion was a faulty seal joining the lower two segments of the shuttle's right booster rocket. The seal failure allowed a small tongue of flame to ignite the next booster phase, sealing the fate of the seven astronauts, who probably never knew what hit them.

The commission has found the entire space program guilty of gross negligence beyond saving, hence to launch at least one shuttle flight per month.

But now that probable cause has been determined, the commission should take proper steps to ensure the safety of future astronauts. The integrity of the dream must be preserved. As it stands, many of the people who will fly the shuttle have little faith in NASA's safety procedures.

Shuttle pilot Sally Ride publicly slammed the space agency in March, voicing what came to be the concerns of many of the people who are eventually responsible for the shuttle program's success.

The blame will probably lie with placing the shuttle program's launch-month policy ahead of proper safety procedures. This new expediency ahead of human life was a serious error.

NASA tried to solve years of operational anxiety with the rocket booster while still using the faulty equipment. On at least 24 of the previous 24 shuttle launches, hot gas penetrated one or another of the faulty joints and at least one of the two O-ring seals inside the booster, an amazing that disaster waited as long as it did.

One possible solution to the safety dilemma is to place men's safety responsibilities in the hands of those most directly affected — namely, the astronauts who will fly the shuttle, if anyone would be willing to take the time to actually do this. It would be his group of individuals.

Most astronauts have the basic understanding of the launching process, and the shuttle itself to make proper safety checks that will deter disaster.

ONE THING TO consider, though, is that these people are in effect stripping themselves to a bomb when they are launched into orbit, but they already know that.

The shuttle is essentially a ballistic missile through the first part of its journey, still requiring rocket boosters to achieve earth orbit. The only new technology is the shuttle module itself, which is a reusable orbital vehicle.

Sometime NASA consultant and author of speculative fiction Arthur C. Clarke has suggested scrapping the shuttle program entirely in favor of a new space bus that can take off like an airplane and accelerate into orbit under its own power before it has attained a certain velocity. It is an expensive shift in policy he proposes, but one that is entirely feasible and much safer than NASA's existing shuttle program.

The space bus has been proposed for use in the mid-1980s as a space shuttle replacement. It may hasten its inception. Its use will make financially feasible a number of space projects projected into the 1990s, and NASA has begun planning for its next round of space exploration.

The KEY TO this exploration is the orbital space station Columbus, which will serve as a hub for future space research and travel. NASA hopes to have the station completed in 1992.

The establishment of a space station is vital. Men can be left behind to conduct medical and materials research, and eventually long-term effects of living in an ion on man will be ascertained.
Students who participated in radio exchange, above from left, John E. Barton, Darryl Jones, Randy Osborn, Sarah M. Zimmerman, Jolantha W. Wawrzycha, and Julilanna C. Zenlich. Left. RADIO, from Page 1

physics and economics, said they are in class an average of 32 hours a week. They expressed surprise, however, when told that many U.S. students hold down jobs while attending college.

WHEN SHE'S caught up on her school work, one Soviet student said she likes to listen to U.S. and British music and go to movies and plays. Another added that a play based on Geoffrey Chaucer's "The Canterbury Tales," had been performed recently at the university.

"The universities here are really filled with anything you want to do," a Soviet student said.

The Student Recreation Center, local bars and theaters were among the places SIU-C students mentioned as their favorite spots to spend leisure time.

When asked if the University has any symbols that distinguish it from others, SIU-C students described the annual Cardboard Boat Regatta, the Halloween celebration and the school's mascot, the Saluki.

WHEN SCOTT Pranger, marketing major from Jeryseville, asked whether the Soviet students agreed that both superpowers need a long-term plan for peace, they broke into applause.

A Soviet student said that if young people from both nations get to know each other it will guarantee that tomorrow there will be no war.

The conversation ended with both sides saying "I love you" in their native languages and with promises to exchange letters and newspaper articles.

IN ADDITION TO lower travel costs, the Soviet students said they do not have to pay for their education or living expenses while they are in school. Free housing and subsides are also provided to married students, they said.

When asked if any of them "study peace," a Soviet student said that he takes part in peace marches, contributes to a peace fund and studies theoretical problems of "peace and peace."

The SIU-C student mentioned the class "War and Its Alternatives" offered by the College of Liberal Arts, the work of peace groups on campus and U.S. citizens' freedom to write public officials when they have grievances as means for students here to promote peace.

THE SOVIET students said that one of the old, large buildings on campus is considered their university's symbol.

Traveling is no problem in the Soviet Union, according to the students, who said they could buy tickets to get to other parts of the country at close to half the price most citizens pay. The students laughed when asked if an "internal passport" was needed for traveling. "No, our citizenship is our passport," one responded.

Photos by J. David McChesney

Top-Ron Mason, associate professor of political science and mediator for the SIU panel, had the job of choosing the best-prepared student to answer the Soviets' question. He communicated with students by using hand signals.

Above:United Nations translators, from left, Steven Peair and Lynn Visco, sometimes with difficulty, gave a simultaneous translation of Russian to English for SIU panel members.

Left-Jolantha Wawrzycha, a student from Poland and masters candidate in English, uses her hands to express her hopes that the exchange goes well. The photo was taken during the Soviets' opening remarks.

The Gay and Lesbian Peoples Union will meet at 5 p.m. Tuesday in Meeting Room C on the third floor of the Student Center. Topics of discussion are the upcoming pride weekend trips to Chicago and St. Louis. New members welcome.

The Specialties Area tests of the National Teachers Examination will be administered, July 12. Late registration for the exam closes June 30. An introduction to IBM PC's workshop will be held from 9 to 10:30 a.m. Wednesday and Thursday in Paner 1028. To register call 543-4831, ext. 260.

The MILLER Analogies Test (MAT) will be administered at 9 a.m. every other Thursday until July 21 and by appointment only. Contact Testing Services, Woody Hall B 304 or phone 536-3303 to register.

The SPECIALS menu items for the National Teachers Examination are designed to provide fun and learning experiences for children ages 3 to 12. Morning and afternoon sessions begin at 9 a.m. and 1 p.m. Child care is available from 7:30 a.m. to 5:30 p.m. Creative Movement classes will be taught in the afterschool sessions from June 16 to 27. With tutoring available at an additional charge, registration continues until June 16 at the Specials Program on Pleasant Hill Road from 9 to 5 daily.
Sports facilities’ hours set

The campus intramural-recreational sports facilities’ summer hours for operation are as follows:

The Recreation Center’s general building hours are 7 a.m. to 9 p.m. on weekdays and 11:30 a.m. to 9 p.m. on Saturdays and Sundays.

The handball and racquetball courts are open 10 a.m. to 9 p.m. Monday through Friday and noon to 9 p.m. on Saturdays and Sundays.

The sports medicine office operates from 8 a.m. to 4 p.m. Monday through Friday.

Base camp hours are seasonal — call 536-5531 for information.

The adventure resource center is open from 8 a.m. to 9 p.m. Monday through Thursday.

The University and law school tennis courts are open from 6 to 10 p.m. Monday through Friday and from 1 to 10 p.m. Saturdays and Sundays. For reservations at University courts call 433-3202.

The campus natatorium operating hours are 11 a.m. to 2 p.m. and 5 to 9 p.m. Monday through Friday, Saturday and Sunday hours are noon to 9 p.m. The weight room is open from 10 a.m. to 9 p.m. weekdays and 11:30 a.m. to 9 p.m. Saturday and Sunday.

The sports medicine office operates from 8 a.m. to 4 p.m. Monday through Friday and noon to 5 p.m. Saturdays and Sundays.

The earlybird swim at Pulliam Pool is 6:30 to 7:45 a.m. Monday through Friday and the noon-hour swim is from 12:30 to 1:15 p.m.

Summer use passes for faculty, staff, alumni, their spouses and the community are available through August 4. Those 16 and older are $2.50 plus $1 deposit for entry card and $90 plus $1 deposit for those younger than 16.

Students who were enrolled spring semester and have registered for fall may purchase a summer use pass at the Recreation Center information center for $16. Proof of registration for both semesters is required.

All facilities are closed July 4 and August 5.

Federal funds given to 10 Southern Illinois counties

Two federal programs funded ten Southern Illinois counties to compensate for nontaxable Forest Service land within their taxing bases with $96,295 and $144,647 says Kenneth D. Henderson, forest supervisor, Shawnee National Forest.

Under the first program, the funds represent 25 percent of the revenues collected by the Forest Service for timber sales, grazing rights, recreation, mineral rights and other resource uses on the 262,691 acre Shawnee National Forest.

In 1985, the counties received the following amounts under the 25-percent program: Alexander, $9,099.90; Gallatin, $4,609.38; Hardin, $9,139.39; Johnson, $6,745.39; Jackson, $16,392.98; Johnson, $6,745.30; Massac, $990.85; Pope, $32,119.08; Saline, $4,913.46; Union, $12,830.04; Williamson, $119.14.

The counties must use the money to support schools and road programs with payments divided equally between the county treasurer and the appropriate regional superintendents of schools.

The second program, Payment in Lieu of Taxes (PILT), was enacted by Congress in 1976. PILT payments are made by the federal government to those counties which are the principal taxing bodies and providers of services in areas having nontaxable forest land.

Unlike the 25-percent fund, counties have no restrictions on the use of PILT payments. At least 75 cents per acre is guaranteed to local government units by PILT legislation.

PILT payments for 1985 which resulted from national forest ownership were distributed to counties were, for Alexander county, $13,540; Gallatin, $6,928; Jackson, $13,810; Johnson, $10,158; Massac, $1,453; Pope, $48,179; Saline, $7,196; Union, $19,000 and Williamson, $65.

Prof given top award

A professor of mechanical engineering has been chosen for one of the top honors presented by the Air Pollution Control Association, Howard R. Hendrix, who has taught at SIU since 1968, will receive the Lyman A. Ripperlon Award on June 23 during the association’s annual meeting in Minneapolis.

The Ripperlon Award is presented for distinguished achievement as an educator in the field of air pollution control.

Hendrix has long been active in air pollution consulting and in developing innovative control techniques.

WOMEN’S NIGHT SAFETY TRANSIT

A free service for female students, faculty and staff with transportation from off-campus residences to on-campus activities and events, and from on-campus activities and events to off-campus residences.

Transportation to/from friends homes, on-campus dorms, or off-campus businesses will not be provided. Those who abuse this service by seeking such rides will not be served.

Summer Semester hours are from 7:30pm-10:30pm, June 9 until July 31. We will not take calls before 7:30 or after 10:15pm.

Boundaries - Carbondale Mobile Homes to the north;
Town and Country Mobile Homes to the south;
Giant City blacktop to the east;
and Tower Road to the west.

453-2212
Winning season, NCAA’s highlight baseball season

By Steve Merritt
Staff Writer

The 1986 Saluki baseball season was a season to be remembered, highlighted by thrilling wins, agonizing defeats, the regular season Missouri Valley Conference title and a trip to NCAA regional competition.

Finishing with an overall record of 39-22-2, Coach Richard “Itchy” Jones guided the Salukis to their first 30-win season since 1982 and their first NCAA regional appearance since 1957.

After sweeping a crucial four-game series with Indiana State during the last weekend of play to clinch the MVC regular season title, the Salukis hosted the MVC tournament with the winner getting an automatic berth to the NCAA regionals. Even though the Salukis fell one game short of winning the tournament, they did get an at-large bid to the NCAA Central Regional, marking the ninth trip to regional competition for Jones in his 17-year career at the helm of SIUC baseball.

By Steve Koulos
Sports Editor

Saluki women’s track athlete Rhonda McCausland saved her best for last Friday night in the NCAA Outdoor Track and Field Championships at Indianapolis.

McCausland had a school record performance of 4:16.17 in the race and then moved from ninth to finish seventh overall in the 1500M put Friday night.

The seventh-place finish allowed McCausland to become SIU-C’s first female track All-American. The NCAA awards All-America recognition to the top eight American finishers in each event.

Including McCausland’s three attempts in the preliminaries, six of her nine throws were 50 feet or better. “She threw well throughout the whole competition,” said Saluki women’s track coach Don DeNoon. “I was really pleased with her performance.”

It was the fifth time McCausland has competed in the nationals. Her previous best performance was a ninth-place finish at last year’s NCAA indoor nationals.

McCausland, a redshirt senior from Valparaiso, Ind., has one year of eligibility remaining for the outdoor season. She has already used up her four years of eligibility for the indoor season.

Regina Cavanagh of Rice won the event in 4:14.08. McCausland has a personal best of 4:13.62.

The Salukis other two NCAA qualifiers, 200-meter runner Denise Blackman and the 1500-meter relay team, also finished in the middle of the pack.

Blackman, seeded 24th of 26 runners, finished 14th overall with a time of 23.63 seconds. Don DeNoon, “I was extremely pleased with Denise’s performance,” DeNoon said. “We went into the meet thinking she could do better than that, but she was competitive.”

The 1600-meter relay team, consisting of Dora Kyryanos, Carol Geggers, Angie Nunn and Denise Blackman, finished 16th of 16 teams with a school record time of three minutes and 34.98 seconds.

The quartet shattered the previous school record of 3:36.15 which was set April 16 at the Drake Relays. The 1600-meter relay team missed qualifying for the finals by only one-hundredths of a second as the NCAA took the top nine finishers.

Tennessee won the 1600-meter relay in 3:29.35. Overall, DeNoon said he was pleased with his team’s performance at nationals.

I thought we had a good meet,” he said. “I didn’t see any of our athletes go there and fail apart.”

Since McCausland’s seventh-place finish was worth two points, the Salukis finished 50th at nationals. Texas won the team title with 65 points. The Salukis won their first-ever Gateway Conference outdoor track championships for the second straight year.

Itchy Jones

MVC coaches pick Itchy as coach of year

By Steve Merritt
Assistant Sports Editor

For his role as skipper of the 1986 baseball Salukis, Coach Ric and “Itchy” Jones was unanimously voted by league coaches as the Missouri Valley Conference Coach of the Year.

A winner of the same award in 1986, when the Salukis made their last NCAA appearance, Jones won the 600th game of his 20-year collegiate coaching career midway through the season and clinched this year’s 39-22-2 campaign with a lifetime record of 610-286-1.

In 17 years at the helm of SIUC baseball, Jones has guided the Salukis into post-season competition nine times and into the College World Series on three occasions.

A native of nearby Herrin, Jones came to SIUC as an undergraduate in 1965 and immediately made himself known as a standout second baseman. In 1967, he was selected as SIU-C’s Most Valuable Player. He graduated in 1968 and spent one year as a professional, with the Baltimore Orioles organization before returning to SIUC for graduate work.

Jones is also a member of the SIU-C’s Sports Hall of Fame and the Illinois High School Baseball Coaches Association’s Hall of Fame.

Rhonda McCausland

Final attempt ranks Saluki putter among nation’s best

By Steve Koulos
Sports Editor

Saluki women’s track athlete Rhonda McCausland saved her best for last Friday night in the NCAA Outdoor Track and Field Championships at Indianapolis.

McCausland had a school record performance of 4:16.17 in her sixth and final throw move from ninth to finish seventh overall in the 1500M put Friday night.

The seventh-place finish allowed McCausland to become SIU-C’s first female track All-American. The NCAA awards All-America recognition to the top eight American finishers in each event.

Including McCausland’s three attempts in the preliminaries, six of her nine throws were 50 feet or better. “She threw well throughout the whole competition,” said Saluki women’s track coach Don DeNoon. “I was really pleased with her performance.”

It was the fifth time McCausland has competed in the nationals. Her previous best performance was a ninth-place finish at last year’s NCAA indoor nationals.

McCausland, a redshirt senior from Valparaiso, Ind., has one year of eligibility remaining for the outdoor season. She has already used up her four years of eligibility for the indoor season.

Regina Cavanagh of Rice won the event in 4:14.08. McCausland has a personal best of 4:13.62.

The Salukis other two NCAA qualifiers, 200-meter runner Denise Blackman and the 1600-meter relay team, also finished in the middle of the pack.

Blackman, seeded 24th of 26 runners, finished 14th overall with a time of 23.63 seconds. Don DeNoon, “I was extremely pleased with Denise’s performance,” DeNoon said. “We went into the meet thinking she could do better than that, but she was competitive.”

The 1600-meter relay team, consisting of Dora Kyryanos, Carol Geggers, Angie Nunn and Denise Blackman, finished 16th of 16 teams with a school record time of three minutes and 34.98 seconds.

The quartet shattered the previous school record of 3:36.15 which was set April 16 at the Drake Relays. The 1600-meter relay team missed qualifying for the finals by only one-hundredths of a second as the NCAA took the top nine finishers.

I thought we had a good meet,” he said. “I didn’t see any of our athletes go there and fail apart.”

Since McCausland’s seventh-place finish was worth two points, the Salukis finished 50th at nationals. Texas won the team title with 65 points. The Salukis won their first-ever Gateway Conference outdoor track championships for the second straight year.
SEASON, from Page 9

straight hitters went to the plate, scoring eight runs before the side could be retired with the scoreboard reading 13-3 in favor of the Bearcats. SIU-C managed to score four more runs, but the Bears were too late, as Indiana State won the game 13-4.

The scene at Abe Martin Field was utter despair, as the defeated Saluki squad stood on the Sycamores' celebration and their automatic bid to the NCAA's.

Hours later, despair would turn to elation as the Salukis were notified and informed by the NCAA tournament selection committee that they had been awarded an at-large bid to the NCAA's.

Traveling to Austin, Texas, to compete in the Central region, things in the Lone Star state were touchy on the Salukis from the word go, as SIU-C had to face No. 1 seed Texas in the opening game. The Longhorns, national champions in 1993 and runners-up in '94 and '95, bombarded the Salukis by a final of 21-7.

The Salukis led the second-half team in the nation 5-3 and then trailed 7-4 before the Longhorns scored 10 runs in the bottom of the seventh to take an insurmountable 17-4 lead. The final tally read Texas 21, SIU-C 7.

Facing elimination in game two against Pepperduile, Saluki bats were silent to overcome a 3-1 final score. "It was a good season," Jones said, looking back on the team's accomplishments. "The NCAA regional's and the College World Series are every team's goal and we came pretty close. We were in a tough region, with some pretty established personnel (baseball powerhouses Texas, Arizona, Pepperdine, San Diego State, and Pan America), I think it was a pretty good season."

SALUKI, from Page 9

May 16-18 at Wichita, Kan., with a conference-record 155 points, Western Illinois finished second with 143 points and Illinois State was third with 136.

SIU-C was paced by Denise Blackman and McCaulad, who won two events each.

Blackman won the 100 with a personal best of 11.10 and the 200 in 24.02. McCaulad won conference records in winning title shot put (51-0.5) and javelin (131-4), and added a second-place finish in the discus (143-6). Carlon Blackman won the 400 in 53.77 and the 1600-meter relay team posted a first-place finish in 3:43.98.

Adding second-place finishes for the Salukis were Vivian Smith in the 1500 (4:35.75) and the 3000 (9:37.11), Policia Vest in the 400 hurdles (1:02.3), Brenda Beaty in the triple jump (37-1.5), and Audrey Corson in the javelin (147-9).

"I think the biggest factor in the conference meet was that we scored in 18 of the 19 events," Devos said. "I couldn't be more pleased with our performance."

Intramural sports office spices up slate of summertime activities

By M.J. Starkshek
Staff Writer

Putt-putt golf and three-on-three beach volleyball are two of the many activities that are part of the intramural schedule this summer. Several other sports are offered, including 15- and 18-inch softball and softball, and three-on-three basketball.

Softball and volleyball, the most popular team sports, will be offered along with mini-golf and frisbee. Of the 30 sports offered, 15 are offered on a regular basis. However, only 13 sports are available for entry.

Men's and women's volleyball will be offered with the same schedule. Women's volleyball is closed, but men may enter the men's volleyball pool. There are 40 entries for men's volleyball and 30 entries for women's volleyball.

The rest of the sports offered are divided into two categories: team and individual. Team sports include basketball, frisbee, and volleyball, while individual sports include badminton, tennis, and golf.

Intramural Sports

The intramural office includes a 12-man staff, including 12 sports directors. The sports directors are responsible for overseeing the entire schedule of activities.

Goldammer noted that the intramural office is well-represented with sports at the university. "We're proud of the way we handle the intramural office," said Goldammer. "We have a lot of enthusiasm for these activities."
Yoga, acting classes set

The Division of Continuing Education will be offering non-credit night classes this summer for those who would like to learn about yoga or try their hand at acting.

"That's the way for Everybody" will meet from 6 to 7:30 p.m. Wednesdays from June 18 through July 16 in Quigley Hall Room 140.

Hatha yoga emphasizes deep breathing, posture and stretching exercises. Special exercises include back and leg and weak abdomens, as well as relaxation and meditation, will be taught.

Acting: Developing Your Personality will be held from 7:30 to 10 p.m. Tuesdays and Thursdays for three weeks starting June 19 in Communications Building Room 100.

Included in the course will be studies of improvement, memorization, textual interpretation and character development.

To register for either class, phone the Division of Continuing Education at 536-7751.

Obelisk seeking staff applicants

Applications are being accepted for the 1967-68 Obelisk II Yearbook staff.

The applications for all positions are available at the yearbook office, 990 S. Forest St., 2 to 5 p.m. Monday through Friday.

Applications will be issued until June 20 and deadline for returning them is June 23. Persons interested in becoming Obelisks should contact the Obelisk at 536-7761.
Baptists seek end to fight

ATLANTA (UPI) — A Peace Committee trying to end a rift between Southern Baptist fundamentalists and moderates scolded both sides Monday for political squabbling that has hindered the denomination's ability to "serve our Lord.

The 22-member committee issued an 11-page report on the eve of the 14th million-member denomination's annual meeting and asked for another year to settle theological differences between the two sides.

Dr. Charles Fuller of Norman, Okla., chairman of the committee that has been meeting for a year, warned that some members may leave the church because they disagree with the doctrine the committee proposes.

"There is no question that a certain amount of legitimate diversity is good, healthy and wholesome," Fuller said. "But it is also obvious there is a limit to how far our diversity can stretch without deteriorating our fellowship."

Fuller predicted that the resolution of such theological conflicts as the literal accuracy of the Bible will prompt some members to leave the world's largest Protestant denomination.

"There is no way in which we can finally come to peace without having some casualties," he said. "Some people who have been at the heart of the controversy will have to deal with it."

The committee also recommended a one-year moratorium on political activities and a "declaration, if not a dismantling, of the political power structures" within the denomination. It said the moratorium "should allow the committee to work without distractions."

divorce

VIENNA (UPI) — The chancellor of Austria abruptly resigned Monday in the wake of former U.N. chief Kurt Waldheim's election as president, a victory that enraged Jews who have accused him of being a Nazi war criminal and prompted Israeli leaders to recall its ambassador in Vienna.

The United States had a low-key reaction to Waldheim's victory and said it would continue studying whether to bar him under a law forbidding suspected World War II criminals from entering the country.

Some Jewish groups urged the world to shun the former U.N. secretary-general. Israel recalled Ambassador Mordechai Vanunu from Vienna for "consultations" following Waldheim's easy victory despite recent allegations by the New York-based World Jewish Congress that he participated in Nazi atrocities against Jews and Greeks and Yugoslav partisans while a German army lieutenant from 1942-1944.

Waldheim has denied the charges, although the charges prompted several nations to launch their own investigations.

It was not clear whether Elizur would return to Vienna.

Page 16, Daily Egyptian, June 14, 1986

Soviets accused of arms shipment

WASHINGTON (UPI) — President Reagan escalated his drive for $100 million in aid to the Contra rebels Monday with an accusation that the Soviet Union has resumed direct shipments of arms to Nicaragua.

White House officials, citing U.S. intelligence reports, said the Soviet freighter Sovetsky Soyuz docked at the Nicaraguan port of Corinto last month after a journey from the Soviet military port of Nikolaev.

"Our presumption," said White House spokesman Larry Speakes, "is that it does contain military matériel." Although the ship has been unloaded, Speakes said, there has been no definitive assessment of the cargo. NBC News said the cargo may have included helicopter gunships.

On Capitol Hill, Democrats contended the information had been withheld by the White House for weeks and that its disclosure was timed to influence a House vote later this month on Reagan's proposed Contra aid package.

One White House official said U.S. analysts had made "an intelligent guess" the vessel was carrying military hardware.

The ship bypassed Cuba, the official said, and took the long route around the tip of South America rather than pass through the Panama Canal, where its cargo would have had to be de-escorted, enroute to Corinto on the Pacific coast.

Speakes acknowledged that information on the Soviet ship had not been withheld but said the decision to make it public was made "when we knew a little more about it than we did" when the freighter was first spotted.

PUBLIC WELCOME
English fluency exam bill is up for vote by committee

By Brett Yates
Staff Writer

Legislation to require public universities and community colleges to test instructors for fluency in the English language will probably be voted on by the State House Higher Education Committee Thursday or Friday.

The legislation, if passed, will take effect in the 1981-1982 school year and will require all college instructors to take oral English proficiency tests.

The bill, sponsored by Sen. Patrick Welch, D-Peoria, passed in the State Senate May 15 by a vote of 34-0. If the House committee approves the bill, it will go before the House of Representatives in a couple of weeks, says Rep. Jim Keane, D-Chicago.

The methods of assessing instructors’ English proficiency would be decided by individual institutions. Instructors would have to demonstrate oral proficiency in English to maintain a teaching position. Foreign language teaching positions would not be exempt from the measure.

Welch said foreign language instructors would be exempt because in some foreign language classes only the language being taught is spoken.

Higher Education Committee Chair Herb Sat- terthwaite, D-Champaign, hesitated to predict the outcome of the vote, but said it would be difficult for committee members to argue against the measure. State Rep. Bruce Richmond, D-Duphshorh, who is on the Higher Education Committee, is still undecided.

Keane, who is sponsoring the bill in the House, is optimistic that it will pass in the House. He believes instructors who have difficulty with English are a problem in some universities. “It is unconscionable for students to have to go to a class where they can’t understand the professor,” he said.

Undergraduate Student Organization President Phil Lyons supports the measure. He said that some departments at the University are too lenient in assessing instructors for English proficiency.

“I think it is a must,” Lyons said. “I have had a lot of complaints about teachers who couldn’t effectively communicate.”

Deadline To Apply For Student Medical Benefit Fee Refund
FRIDAY, JUNE 27

To apply for a refund, a student must present his/her Insurance policy booklet or the schedule of benefits along with the Insurance waiver form to the Student Health Program, Insurance Office, Kersten Hall, Room 118. All students, including those who have applied for a Consolidated Waiver and whose fees are not yet paid, must apply for the refund before the deadline. Students 17 and under need a parent’s signature.

King’s son enters political arena with candidacy for county seat

ATLANTA (UPI) — The son of slain civil rights leader Dr. Martin Luther King Jr. kicked off his first political campaign Monday, announcing his candidacy for a seat on the county commission.

"I've spent the greater portion of my life learning to be a public servant," said Martin Luther King III, who announced his candidacy at the Fulton County administrative building on a downtown street named for his father.

"I was brought up with certain fundamental beliefs that have become tradition - meeting human needs, loving and caring for all people, serving as a reconciling and unifying force between black and white, rich and poor, old and young, male and female," King said.

King, a 28-year-old Democrat, will face Democratic incumbent Milton Parris, 79, and two other challengers in a race for the District 1 seat.

The commission is the governing body of Fulton County, which includes most of Atlanta. A King victory would give blacks a 4-3 majority on the panel.

King is director of the Martin Luther King Jr. Center for Nonviolent Social Change, located adjacent to Ebenezer Baptist Church, where his father preached until his assassination on April 4, 1968 in Memphis, Tenn.

King oversaw the $8.5 million King Freedom Hall Complex, which attracts some 250,000 visitors a year. It includes a library and archives containing more than 2,000 speeches made by King.

Geology student gets Amoco fellowship

A Minnesota woman has been awarded a master's fellowship to study geology at SIU-C for the 1986-87 academic year.

Dawn R. Eigenberg of Herron Lake, Minn. was awarded the fellowship by the Amoco Foundation Inc., which has supported the award for five years in the Geology Department.

She will get a $6,075 stipend and $300 to cover thesis research expenses.

Eigenberg earned her Bachelor's degree in geology from the University of Minnesota at Morris and she plans to concentrate on sedimentology and surface geology in her graduate work.

The Amoco Foundation has also given the geology department a $26,100 grant to update equipment over a three-year period.

27 cadets commissioned in Army ROTC program

Twenty-seven cadets in the Army ROTC program were commissioned, second lieutenants May 10.

The newly commissioned officers are: Terri J. Coloncini, Bloomington; Curtis E. Fields, Chicago; Christopher J. Issacson, Chicago; Crystal A. Owens, Chicago; William J. Anrello, Chicago; Loren A. Weeks, Chillicothe; Alicia A. Gay, Claremont; Steven R. Rhodes, De Soto; David E. Lucke, Dallon; Lori J. Coutteau, East Moline; Stephen G. Kelt, Evanston; and Garrett A. Gignew, Lewiston.

Also commissioned were Alan G. Leitzsch, Litchfield; Terry D. Anderson, Marion; Stephen R. Cain, Mount Prospect; Robert J. Pagan, Mount Vernon; Alan G. Gerstenslager, Murphysboro; Donald V. Mitchell, Naperville; Patricia A. Clendenen, Pearl; Desiree A. Madise, Rantoul; Joseph E. Taylor, Roseville; Jeffrey L. Johnson, South Holland; George J. Rakers, Springfield; Louis L. Cosley, Topaha; and Charles D. Conselman, Wheaton.

Gary R. Orr and Ronald W. Orr, of Grosse Pointe, Michigan, were commissioned.

‘Big Twist’ heads series

“Big Twist and the Mellow Fellows,” a Chicago blues band, will kick off the Summer Sunset Concert series at 8 p.m. Thursday on the Shryock Auditorium steps.

The concerts, running through July 31, will be every Thursday. Their locale will alternate between Shryock Auditorium and Evergreen Park.

The Summer Sunset Concert series is sponsored by the Student Programming Council, Student Center Special Programs, and the Carbondale Park District. The scheduled bands, which range from rock and country to reggae and punk, will perform in the Student Center in case of rain.
CHANCELLOR, from Page 3

System have their own identities, expertise and ability to cultivate relationships with the governor and the legislature.

Petit said that a chancellor's academic, erion must also fulfill the responsibilities of an administrative leader, including being active in the community and maintaining honesty and integrity when dealing with politicians. Politically, he said, is basically constant from state to state and trust must be maintained with the politicians and campus communities that the chancellor works with. Each state has its own political situations, he said, and he has to be very sensitive to the "peculiarity of Illinois politics."

"But in the end I'll fall back on my principles," he said.

Although Petit ran for political office in his home state of Montana, he said he has no further intention of pursuing his political career. "If a person gets too involved in politics, they become dysfunctional," in education, he said.

Petit graduated with honors from Montana State University in 1989 with a bachelor's degree in history. He received a master's degree in political science from Washington University in St. Louis in 1993. He attended high school in Montana.

EXCHANGE, from Page 3

match" like a similar exchange earlier in the year between the people of Seattle, Wash., and Leningrad. The other organizer, Sanders, dean of the College of Communications and Fine Arts, said that the process was "the role of the chancellor, he said, filled through the system and by the time they are implemented people have forgotten when they began."

"I said that being a liaison to the political community involves using communication skills to maintain political science at Pennsylvania University for three years. Active in national higher education committees for the past 17 years, Petit has contributed to and co-edited two books: "The Social Psychology of Political Life" (with Samuel A. Kirkpatrick) and "The Legislative Process in the U.S. Senate" (with Edward Keynes).

Of the Pettis' seven children, all will be or are presently attending school. Sandra, 21, is studying and finishing her degree in Colorado; Mac, 22, is married and will be graduating from the Culinary Institute of America in New York; Marv, 21, is studying anthropology at Texas A & M University; Allison, whose birthday is one day away from Marv's, will be studying at SIU-C; Lee, 20, is studying psychology at the University of Texas; Ned, 18, will be a freshman at Willamette College in Oregon; and Zach, 16, attends high school in Montana.

CHAD JONES

specifically, college life and the role of the student to play in government and achieving their goals. It was wise of the students to not dwell on political and other issues that they were not experts on, Rubin said.

HOWEVER, another participant, Joan Barton, disagreed. Barton, law school graduate from Makanda, said he would have taken part in the exchange. He believes in advance that "more substantive issues" like religious freedom and foreign policy would not be discussed.

Barton said that although the exchange accomplished what many hoped it would be to "open another line of communication between the superpowers," the participants failed to venture beyond light topics.

ANOTHER participant, Joleta Wawrzycka, said she knew all along that the Soviet students would not want to discuss issues related to "college life."

Wawrzycka, Ph.D. candidate in English from Poland who is well-versed in the Russian language, said she anticipated the type of questions the Soviet students would ask as well as their enthusiasm.

Wawrzycka said that she had no problem understanding what Soviet students, who often responded simultaneously to questions, were saying. They were eager to hear about the life of U.S. students, ask about their own life, she said, not debate the actions of each other's government. The other SIU-C panelists were Sarah Heyer, graduate student in linguistics from Carbondale; Nathan Dick, speech communication major at Eastern Illinois; Sarah Zimmerman, junior in English from Carbondale; and Mark Duda, University of Wisconsin major from River-woods.
