Collective bargaining revote slated

By Theresa Livingston
Staff Writer

The University's administrative and professional staff members voted Wednesday to vote on collective bargaining.

Staff members will be asked to choose between representation by the University's chapter of the Illinois Educational Labor Relations Board, or by a provisory faculty department directors and support staff, approved the proposed collective bargaining agreement.

The election, scheduled for June 12, will be held from 9 a.m. to 9 p.m. in Ballroom A of the Student Center.

Women veterans honored in Illinois

Recognition given for supportive role in service

By Todd Gardner
Staff Writer

Representing women veterans honored in Illinois for their support and service.

In both military and civilian capacities, women provided emotional support for the combat troops.

Pat Sweet, women veterans coordinator for the event, said she received initial support from the women who served from the men, she said.

Although the number of women is increasing, more recognition needs to be given.

"Most people don't realize that women served with Post Traumatic Stress Disorder (PTSD) and many have a different role," Sweet said.

Unlike their male counterparts who were honored for carrying guns, the women were honored for a different role.

Women veterans were honored in Illinois for their support and service.

Jackson County's 911 almost ready to begin

By Jeraldine Kimmel
Staff Writer

Jackson County's 911 system is nearing completion and is expected to be fully functional by the end of the year.

Racial killer gets maximum sentence

NEW YORK (AP) - Joseph Fama, who was sentenced to life in prison in 1991 for the murder of a black man, was convicted of first-degree murder Monday to the maximum sentence possible of 52 years, eight months, 20 days.

The sentence was given by a jury and approved by the judge and supporters of the victim.

Supreme Court votes down flag law

WASHINGTON (AP) - The Supreme Court has struck down the anti-flag burning law enacted by Congress last year, in a 5-4 vote that upheld the Constitution's protection of free speech.

Justices voted for a 5-4 majority, the law was struck down.

"We are sure that the expression of the flag is a deeply offensive sight," said Justice Antonin Scalia, writing for the majority.

"The law is not a constitutional amendment to prevent the expression of ideas," Scalia added.

Salukis’ 49-14 record 2nd best ever

By Kevin Simpson
Staff Writer

Saluki baseball head coach Roger Jones conducted one of the biggest turnarounds ever in Missouri Valley Conference history. After his 1989 squad suffered through a 27-28 season, Jones conducted a school record for losses in a season and the cellar spot in the Valley Conference standings, the team set several positive records on its way to a 49-14 record, a Valley co-championship and an NCAA regional playoff berth.

After winning the MVC tournament to enter the West Regional at Stanford, Calif., as the No. 2 seed with a 47-12 record, the Salukis entered the tournament as a virtually unknown team, but after four-game split before bowing out. In the opening 6-5 game against Fresno State, the Salukis received a 3-hit pitching performance from starting pitcher Randal Stier, but lost a 2-3 decision. The second game was an offensive display when six different Saluki contributed RBIs in an 8-1 victory over Campbell University.

Game three was a rematch against Fresno State and the Dawgs faced much better Salukis pitcher Bob Fosset and Alan Levine combined to scatter nine hits in leading SUC to a 3-1 victory. After scoring two runs in the ninth inning to tie, 1-1, score against San Diego State in game four, the Salukis ended the game and their season with a breathing.

Levine’s wild pitch allowed the winning run to score from second base in the bottom of the 10th inning and the Salukis season. It was great to be back in the NCAA,” Jones said about the Salukis’ first appearance since 1986. “They were not stymieded in any way and were very competitive. They went out and played exceptionally well for four ballgames.

“They played just like they had all year, very competitive, very sound,” Jones said. “Sometimes the games ended with us in the lead and others ended with us trailing. That’s how the season goes.”

The 1990 Dawgs shattered the school record for most hits in a season (692), and also finished with more runs scored (480) and RBIs (426) than any other Saluki team. The Salukis were not shut out of any games this season.

Hard work, dedication, and a never say die attitude laid the foundation for the Dawgs’ success this season. “I’m really pleased with these young men and the success they’ve had. It’s all been the铎,’ Jones said, attributing the players’ success to their determination and goals to become a successful ballclub. We got probably the best pitcher and infield in the Valley in 1990. We’ve been in a long time—up and down the staff,” Jones said. “Sam Riggelmann (assistant coach) did an outstanding

Softball moves up conference ladder

31-10 record gains first national ranking

By Todd Gardner
Staff Writer

It was the life and eventual death of a Saluki softball player during their 2nd best season ever.

Strong hitting was the main ingredient for the Salukis’ 31-10 season record and a 2-0 Gateway Conference record. "We were second in the Gateway.

A 16-game winning streak also helped the Dawgs gain their first national ranking and collect new school records, including most wins, highest batting average and most runs scored.

"Hitting was the thing that carried us," assistant coach Kay Brecklhofer said. "We were over .500 over five runs per game.

"If one thing characterized this team, it was that it was a true team effort," she said.

But the Salukis bid to win their first Gateway Conference tournament title was cut short with a third place finish when they managed only two runs on 22 hits, 21 of which were singles.

"We were disappointed. I don’t change the word even with a record," Brecklhofer said.

The attempts for the Gateway title ended with a 4-2 loss to Western Illinois. In the tournament, the Salukis batting average was a meagre .331, compared to their .361 average entering the tournament.

"Probably our toughest competitor was the weather," said Breckenhoff, referring to the eight games canceled after April 2.

"The Dawgs had only been able to play two doubleheaders during the last three weeks prior to the tournament in the Gateway Conference.

"I can’t help but feel we lost one edge at that point," she said.

The third place finish was the highest finish in a school history for a softball team in Gateway play.

"I think they did a great job finishing where they did," she said. Except for Shelby Gibbs, who graduated, the starting infield returns intact along with the starting outfield and three pitchers, leaving the Dawgs a solid nucleus.

"We’re looking forward to the league," Brecklhofer said.

"The third place finish at the Gateway championship was a new experience for the team and should motivate them this next year," she said, optimistically looking forward to next season.

Bad timing costs Salukis in track

By Tricia Lynch
Staff Writer

Despite two disqualifications in Minnesota Valley Conference indoor track championship held May 13 at McAndrew Stadium, the Salukis track team finished second for the third straight year.

In the 4 x 100 meter relay, sophomore Trina Reeder missed the baton, threw the baton at the finish. After action was ratified last week, Salukis tied with Missouri State in an automatic disqualification, possibly costing Salukis a berth in the meet in the 1000 meter. Bill Cornell, Saluki men’s track coach, said no one was injured because they were favored to win. But, came in second. It was the fifth time the Dawgs had won.

Three places finishers were sophomore Timothy Harris in the 60 meter hurdles (8.05), junior Kevin Timpson in the 3000 meter steeple chase (10.00), and senior Leonard Vance in the 110 meter hurdles (12.05).

Two places finishers were sophomore Stephen White in the mile (4.15), senior Babu Page in the 440 meter dash (49.26), and junior Leonard Vance in the 1500 meter (4.23).

Indiana State finished first with 567 points, Missouri State locked down third with 134 points. "We knew it would be close. "I’m just excited we have a better team," he said. "We are building and we have a good team."

Those of the highlights for the Salukis included first place finishes finished by junior Rick Pegues, 47.74, triple jump by senior Leonard Vance, 15.35, and two second place finishes by Breanna Winder, 19.32, and Candace Cashin, 9.23.

Third place finishers were sophomore Stephen White in the mile (4.15), senior Leonard Vance in the 440 meter dash (49.26) and junior Leonard Vance in the 1500 meter (4.23).

The men’s track team had an overall score of 690, which was the highest score of any track team in the conference.

"We just got a lot of work out of them," Cornell said. "They are a group that has been working all year, but not as well as they were.

"I think we were a good recruiting year. But something went wrong," Cornell said. "We hope things improve for us next year.

Women win conference golf battle

By Tricia Lynch
Staff Writer

The Saluki women’s golf team won their fourth straight Valley Gateway conference tag of war by downs of St. Louis on May 14 at Tam O’Shanter Golf Club in Orang Beach, Mo.

SULC, finished with a twoto-total of 1,220 strokes. Illinois State was a distant second with 1,323 strokes and Missouri State rounded out the top 3 with 1,304 strokes.

Other top scorers in SUIC, individual, freshmen Kari Stadler, 63, and sophomore Anne Chevalier, 5th in Missouri with 261 strokes. "We are a young team," Cornell said. "We are working with some Slide Johnson for fourth with 358 strokes.

Saluki women’s golf coach Diane Snuggush said, "It was a pleasure seeing Jeannette, who had a stroke at the beginning of her senior year, come back and take the championship." Another pleasant surprise for Snuggush was being named Coach of the Year, "And there is the first time any of us have been in the top 3," she said, "It is a great day for the program.

Neither Cornell nor Johnson nor the leadership note this year to help the Salukis finish among the top four teams in the conference tournament.

Next year’s team will be without the services of Merri, Shemacher and Johnson. All three were selected to the Gateway All-Conference golf team.

When I was surprised that Johnson would be a rebuilding years away, but I think we are a good team overall," Snuggush said. "We are happy with the offensive end of the season, but I think we are better team.

Cornell does not think the Gateway conference is as tough as it was on the previous year, but that think we are a team to be reckoned with next year. We are working with the college golf team.

"We are working with the conference we are a team to be reckoned with," Cornell said. "We have a great golf team that we think we’ll be good," Snuggush said.

Snuggush said her number one goal for next year is to have an oncampus practice facility for the golf team.

Opposition protests victory of communists in Bulgaria

SOFTA, Bulgaria (UPI) - Tens of thousands of opposition supporters poured into streets of the capital Monday to protest an apparent communist victory in Bulgaria's first free elections in 44 years. "New elections" and "The communist party is mafia" were shouted by about 15,000 demonstrators who besieged the sprawling Palace of Culture complex where returns from Sunday's polls were being processed. Some ripped down banners and shouted names of the ruling Bulgarian Communist Party.

Israeli parliament approves Likud coalition

JERUSALEM (UPI) - The Israeli Parliament Monday approved by a vote of 62-57 a Likud-led government of right-wing and religious parties, one of the most hard-line coalitions in the country's history. The vote, taken after nearly six hours of debate, ended a three-month government crisis and put the Likud Party in power for the first time since 1984 without the center-left Labor Party as a partner.

U.S., Mexico to move toward trade pact

WASHINGTON (UPI) - President Bush and Mexican President Carlos Salinas de Garcia agreed Monday to open preliminary talks on a free-trade agreement that eventually could lead to creation of a North American Common Market. In a joint statement issued after a private meeting Sunday night, Bush and Salinas authorized discussions leading to formal negotiations that presumably could begin after the completion of multilateral trade talks in December.

All-out fight against tanker fire begins

GALVESTON, Texas (UPI) - Two fireboats began an all-out effort to extinguish a raging fire on the tanker Mega Borg at midday Monday, but within minutes of the go-ahead a new stream of flaming oil started gushing from a pump house, forcing one fireboat to back away from the blaze delaying the push. Swift America, immediately maneuvered a third fireboat to the side and quickly "backed off" the new outbreak of fire.

Barry may not seek fourth term, reports say

WASHINGTON (UPI) - The drug and bribery trial of Mayor Marion Barry ended Monday in a wing and wash with the federal jury deadlocked, reports that the mayor might announce he will not seek a fourth term. The Washington Times and WRC-TV reported that sources said Barry would withdraw from the race during a Monday evening appearance on "National Evening Exchange," a program on Howard University's WHUR-FM.

Poinsettia sentenced to 6 months in jail

WASHINGTON (UPI) - John Poinsett, Ronald Reagan's national security adviser, was sentenced to six months in jail Monday for masterminding the effort to cover up White House involvement in the Iran-Contra scandal. Poinsett, 53, is the first to receive a prison sentence in the scandal. Poinsett was sentenced to prison on each of five felony counts, but allowed the sentence to run concurrently.

Governor claims credit for crackdown

FORT LAUDERDALE, Fla. (UPI) - Gov. Bob Martinez claimed credit Monday for sparking a crackdown on the rig group 2 Live Crew, an authors prepared to charge a third band member with violating the state obscenity law. Broward County Sheriff's deputies arrested two band members early Sunday, shortly after the band finished a live performance in Hollywood, Fla.

Van plows through picnic; two killed, seven injured

NORC.Trim (UPI) - A van driven by a 73-year-old woman plowed through the middle of a church picnic as a central Illinois parish Sunday, hitting two people and sending seven others to the hospital. Authorities said they were not sure of the cause of the accidents that happened about 1:20 p.m. as members of the First Baptist Church of Norctrim were picnicking at a park. The driver, a member of the church, Drusilla Flowers, was hospitalized in stable condition at the Hushmore Hospital.

Editorial Policies

Signed articles, including letters, editorials and other columns, express the opinions of their authors only. Unsigned editorials represent the viewpoint of the Daily Egyptian Board. Opinions expressed on the editorial page are those of the editorial board of the Daily Egyptian. All editorial material is subject to the exclusive authority of the Daily Egyptian Board. The Daily Egyptian reserves the right to edit letters submitted for publication. Letters should be typed or written in ink and submitted in triplicate. All material should be submitted by noon the day before publication. Letters must be no longer than 500 words and are subject to publication for space. Authors of published letters are asked to include their name, address and telephone number. For the convenience of those sending letters, the editorial desk will not accept phone calls.
Sunset Concert Series sets in Carbondale on June 21

By Rich Cone
Entertainment Editor

A summer without outdoor concerts would be like eating Aunt Jemima pancakes with her syrup—palatable, but not quite as much fun.

To help sweeten summer in Carbondale, the Student Programming Council, the Student Center and the Shryock Auditorium will present the Sunset Concert Series for the 12th year in a row.

Beginning on the first day of the season, June 21, and ending July 26, just when the weather is really grilling, steamy, six bands will perform everything from 50's and 60's rock 'n roll and blues to Cajun rock, reggae and ska/funk that will shake, rattle and roll the steps of Shryock Auditorium and the Turkey Park lawn Thursday nights.

The concerts begin at 7 p.m. and alternate each week between Turkey and Shryock. The only exception to the regular Thursday concert schedule is the First Annual Prom on Wednesday, June 28.

In addition to the six bands performing official again are expecting large crowds of area music fans to attend. The concerts are designed with the family in mind.

This St. Louis-based, six-piece band, including horn section, brings to Carbondale their unique combination of rock, funk and psychedelia.

The Infrad Rookers, a reggae band from St. Louis, will be the opening act. The Infrad Rookers have a unique sound, with a fusion of traditional funk music and reggae.
Christmas cards a waste of state funds

THE NEXT TIME John C. Guyon wants to wish someone a Merry Christmas, he’ll have to do it without state funding.

According to a June 4 report from Illinois Auditor General Robert Cronson, the SIU-C president spent $802 in state money to send 350 Christmas cards in 1989. Cronson’s report criticized Guyon’s season’s greetings, stating that Christmas cards are neither “reasonable” or “necessary” for university operations. A knee-jerk reaction would be to agree with Cronson that an $802 Christmas card bill is frivolous.

HOWEVER, when you consider that most of the 350 homemade cards were sent to University donors and state legislators who approve Illinois’ education budget, it becomes evident that maintaining close contact with potential funding resources is just sound business practice.

This Christmas card tradition proved profitable for Deloitte Morris, University president from 1948 to 1970, and the Daily Egyptian sees nothing wrong with spreading a little holiday cheer, especially when it could help bring in more alumni donations.

However, Cronson was right in pointing out that printing and mailing Christmas cards is a misuse of state-appropriated money, especially in light of the fact that SIU-C will see little or no funding increases from the state for fiscal 1991.

THAT $800 would make a nice quartet of $200 scholarships. Maybe it could be used to give some faculty or staff members a raise or even to replace some outdated equipment somewhere on campus.

The point is state money should not be used to solicit other funds. With the SIU Foundation pulling in more than $100,000 a year in unrestricted private donations, there is plenty of money here at home to use for Christmas cards without spending the state’s money.

According to the audit, the printing and postage departments within the University’s Service Enterprises entity produced and mailed the cards. The employees’ time spent preparing the cards is included in the $802 total. President Guyon stated after the report came out that he will continue to deck the halls by extending season’s greetings via the mail, but noted that the cards will be paid for by “non-state resources” from now on.

It’s nice to see that the Grenchs of the world have failed to dampen our president’s Yuletide spirit, especially in the middle of June.

‘Storm trooper’ comparison off-base

I was appalled and astonished when I read the following statement by City Manager Steve Hoffner in the May 8 issue of the Daily Egyptian: “Sending in police like storm troopers creates negative feelings toward the city, one that I don’t have to be here.”

The Random House Dictionary of the English Language defines a stormtrooper as “a member of the Nazi paramilitary organization, or Sturmabteilung, noted especially for their brutality.” Does this definition apply to Carbondale’s highly professional police force? I think not. I’ve seen our police force function for the past 42 years and have nothing but praise for their integrity.

In my opinion, comparing storm troopers to Carbondale’s police is like comparing Ivan the Terrible of Russia with Abraham Lincoln. Neither comparison makes any sense at all.

I trust that Chief Ed Hogan will support his men completely whenever they make necessary arrests, including those arrests made in bars.

I have nothing but the highest regard for all of our city employees, including Mr. Hoffner. They have always cooperated with our city managers, and I truly hope this cooperation can continue without a hitch.

Perhaps City Manager Steve Hoffner didn’t realize the result he bestowed on our police force when he used the term “storm troopers.” Also, it is possible that he was misquoted. At any rate, he should send an apology to the police department post haste. We would do much to boost their morale as well as have them regain confidence in his integrity.—Charles D. Neal, retired professor of education.

Cuomo dropping hints on run for presidency

By Phil Galley
St. Petersburg Times

Mario Cuomo, that old tracer, is at it again. On the recent occasion of announcing his bid for a third term as governor of New York—and two days later, in a speech accepting his party’s unanimous nomination—Cuomo started speculating that he is finally poised to run for president in 1992.

First, Cuomo refused to commit himself to running a full four year term. Then came his tepid-menacing acceptance speech to the state Democratic convention. It sounded like a warm-up for taking on President Bush.

He blamed New York’s problems such as its crime drug and cancer and its slipping economy, on the polices of the Reagan-Bush administration. “The Reagan-Bush administrations has dragged down the state of New York,” he said.

This is no slam-bang for New York State.”

Cuomo insinuated he was not engaging in “Washington bashung.” He just had some things he wanted to get off his chest.

unions elections and certifies the union as the bargaining agent.

Although the last election was invalidated, Perkovich said he was unsure of any procedure that might affect the second election's results.

The IELRB decided some voting procedures and circumstances surrounding the earlier election had been unfair to the union, said Don Dillard, campaign relations director.

"There were some very close vote tallies and some of the procedures and ballots were challenged," Dillard said.

Don Castle, an assistant program coordinator for the University and spokesman for the University chapter of the IELA-NEA, agreed with Dillard, but maintained his organization's "very positive" outlook about the outcome of the second election.

"We hope that people who are members of the University's IAP staff realize that this is an excellent opportunity to influence the decisions made about their workplace," Castle said.

"This time around, I think that we are more optimistic about getting each individual member of the (AP) staff to vote," Castle had said.

IELA-NEA had discovered through surveying that the majority of AP staff members favored voting against the University administration and to have more of a voice in campus policy and decision making, Castle said.

Charlotte West, 1990-1991 chairperson of the AP staff council, had also thrown her support for collective bargaining.

However, many AP staff members have disagreed with Castle and West, coming against collective bargaining.

While the University's collective bargaining position has been neutral on the issue, two individual administrators issued statements dated June 4, 1990, in which they advise AP staff members to just say no to union representation.

"I do not greatly regret the effort to return to our present mode of management," said Terry L. Brown, acting associate vice president for Student Affairs and Enrollment Services. Brown's statement was one of two released by the University.

"I consider the act of voting for a union a step towards insuring that the will of the students is represented," said John P. Davis, associate vice president for University Relations and Enrollment Services. Brown's statement was one of two released by the University.

Parking lots to reopen this week
By Eric Reyes
The Daily Egyptian
Four SIU-C parking lots remained closed on Thursday due to mud. However, four of the five lots will reopen by the end of the week. The Administration lot will remain closed temporarily for painting.

New filter to clean C&P's muddy water
By Amy Cooper
Staff Writer
Clean water is finally in store for SIU-C's Cinema and Photography students. A new water filter, valued at approximately $17,000, is scheduled to be installed tomorrow. The problem was reported to the University early last semester.

The sediment and the water's murky quality caused stains on prints and print washers. Students and faculty move the laboratory and the darkrooms to the basement of the Communications building.

"We were able to operate, but with some inconvenience," Fuchs said. The dirty water has been attributed to the fact that the plumbing is 25 years old and in need of replacement.

The filter just got worn out, and we needed a new one," said Dave Gunian, chairperson of the Cinema and Photography department.

Scott Miller, Construction Project Coordinator at the University, said the filter is to be installed by mechanical engineer Jim Calabos and H&M Mechanical Contractors of Carbondale.

The sediment and the water's murky quality caused stains on prints and print washers, forcing students and faculty to move the laboratory and the darkrooms to the basement of the Communications building.

We were able to operate, but with some inconvenience," Fuchs said. The dirty water has been attributed to the fact that the plumbing is 25 years old and in need of replacement.

Touch of Nature set to host U.S.-Soviet seminar

By Christen Corlasco
Staff Writer

A four-day American-Soviet business seminar is set for June 11 to 14 at SIU-C's Touch of Nature Education Center. This seminar, "Understanding the Soviet Way," is aimed at helping students become acquainted with the Soviet culture and business procedures in the following areas:

- Eugene F. Timpe, co-director of SIU-C's Center for International Business and Culture, as well as the seminar's organizer, said the seminar will begin at 8:30 a.m. and run until 4 p.m. each day. Evening sessions will begin at 7:30 p.m. every day except Thursday, when a special luncheon will mark the end of the seminar. Timpe said the cost of the entire seminar is $400. It is open to the public and some scholarships are available for faculty or graduate students who have an interest in the subject.
- Soviet men and women, language, family life, and everyday life are just some of the topics to be covered, Timpe said. One of the major items on the agenda is learning to do business with the Soviet Union.
- "If you understand the Soviets and their mentality you're going to be more effective in relating to the new trade," Timpe said.
- Timpe said because the Soviet Union is now expanding its trade agreements with Americans it is more important to understand the people.
- The Soviet Union is opening up more and more all the time for American business and we have a number of joint venture agreements with them. They would be pleased to have more," he said.
- Timpe also commented that American businesspeople are now realizing it is going to take a fair amount of time and effort before their investments pay off in the Soviet Union, but he said they will pay off.
- "The businessmen think it's one of the most enormous possible potential markets in the world and therefore it's worth trying to develop a position in it," Timpe added.
- The key to being successful in the business world of the Soviet Union, Timpe said, is joint venture.
- "We have to work up a joint venture agreement with the Russians where they provide something and we provide something in return." The seminar will be highlighted by six guest speakers. One of the speakers is Pradeep Paliwak, through a joint venture with the Soviets, is opening up a hotel in Vladimir, close to Moscow.
- Timpe said Vladimir is the city where SIU-C has been developing a joint agreement. He said a delegation went to Vladimir last December and began making arrangements for students and faculty exchange.
- Other speakers include: Maveli Finkel, a Russian-born professor currently at Whitworth College in Spokane, Wash., and former consultant for CBS News; Shelley M. Zeiger, an American importer who established a pizza parlor in Moscow in the first operative U.S.-Soviet joint venture.

USG slates October for new election

By Christina Hall
Staff Writer

New Undergraduate Student Government elections, organized and monitored by a temporary USG leadership, will be held in early October.

The candidates will have two weeks to petition, two weeks to campaign, and the following week elections will be held, according to Cheryl Samter, acting USG president.

The events surrounding the last USG election in April, required Vice President for Student Affairs Harvey Welch, to elect a temporary USG leadership. Welch appointed Samter, former USG office secretary, to direct the entire election process.

Welch made her (Samter's) president, because she is unbiased, was not involved in the last election, and has been working with the USG for over two years. Charles Ramery, president of the Graduate and Professional Student Council, appointed Samter.

Samter appointed Michelle Gomes as vice president and Ed Wallinger as chief of staff to serve until the elections are completed in October. Samter and her staff will work to coordinate the various parts of the USG after the elections in the last USG elections, she said.

In the April election the Student Party, headed by presidential candidate Laura Kaelin, acquired the Trojan Party, headed by presidential candidate andundeclared Michael C. Daniels. of numerous campaign strategies. The Trojan Party filed communications against the Progress Party and the Student Party. Welch called for free elections to be held again in the fall semester of 1990 to resolve the matter.

My decision is to accept the fact that our student governance bodies have not been approved, accepted or recognized," USG elections, Welch said, in an official letter.

To ensure that the fall elections are fair and organized, Samter will appoint an election commission. The commission will monitor the election and review the election regulations to make them clearer to future candidates.

The commission will also help the problems of the student candidates by making the elections regulations clearer and making sure there is no lack of communication." Samter said.

The elections should be clear so that the USC can get along with gay, she said. "We don't want the candidates to have problems and we want to avoid the problems of the past," Samter said.

"We will arrange leadership to help the problems of the student candidates by making the elections regulations clearer and making sure there is no lack of communication," Samter said.

"We want to have an on-campus site with a driving range and a green we can hit into and out of," Daughtery said. She said it is grateful to be able to play at Jackson Country Club, but they are only allowed to play on certain days. Daughtery said not being able to practice and play every day hurt the team's performance.

"You practice like you play and you play like you practice. If you can't practice, you can't produce a quality team," Daughtery said.

Daughtery said her highlights for the summer will be playing in the LPGA championship tournament in Washington next July. She said she is not out to beat the professionals, just to have a good time.

"I'll probably be the only player on the field wearing my caddie's name on the back of my shirt," Daughtery said. Jim Hart, SIGO's athletics director, will be her caddie.

Timing,
from Page 12

Doug Boyd, high jump; and Paul Bumharn, 800-meter run, used up their eligibility and will not return next year.

Cornell said his main goal for next year is to win the conference championship in indoor and outdoor cross-country.

"I'd also like to have someone qualify for Nationals," Cornell said. To qualify, an athlete must be one of the top 20 athletes in his event in the nation. He said a couple of freshmen and sophomores came close this year and he hopes they improve to the level where they can qualify.

Cornell said he would like to have someone make the All-America team.
