Leaving for the Far East
VTI Team To Aid Vietnamese

For the next two years the un- stretched band of American men and women will be wearing as GI's in the service of their country. A team of educators from the VTI campus will be leaving for a two-year mission to Saigon, Vietnam, where they will help in the development of a system of technical education. The team will be under the direction of Dr. M. Keith Humble, and will provide advice and assistance to the administrators of the Phu Tho Polytechnical School, Saigon, Vietnam. Other members of the team include: Mr. and Mrs. Leren Willey, Mr. and Mrs. Leon Truesdell, and Mr. and Mrs. John Green of the VTI Department of Biology.

All of the team members have spent the past few months working closely with the Vietnamese government in order to prepare for their mission.

The real purpose of the team is to work with the people of the school so as to enable them to carry on the program of education after the contract of the team has expired. Dr. John Anderson, coordinator of research and projects, said that the method which will be used to instruct the Vietnamese is one in which the team members will be working closely with the Vietnamese government in order to prepare for their mission.

The team will not only have the task of teaching, but they will also be responsible for the development of the school. They will have to work with the administrators of the school to develop a system of technical education.

The team will arrive in Vietnam in February and will remain there for two years. They will be under the direction of Dr. M. Keith Humble, and will provide advice and assistance to the administrators of the Phu Tho Polytechnical School, Saigon, Vietnam. Other members of the team include: Mr. and Mrs. Leren Willey, Mr. and Mrs. Leon Truesdell, and Mr. and Mrs. John Green of the VTI Department of Biology.

**Women Students Get Theater Leave**

SU women students may attend Friday and Saturday *Fanta*- late movies at the Varsity Thea- ter without taking a leave. Dean J. Clark Davis of Student Affairs announced:

A consent, play or theater per- mit will allow women students to stay out after hours for one of these functions without taking one of their regular leave permits.

Women students must pick up a theater permit from their resident counselor as they leave their living area. They must also obtain a time extension slip from the theater.

**NEWS IN REVIEW**

---

Three meetings between Gromyko and Secretary of State Dean Rusk.

Mr. Kennedy desires to make the country's position known to Gromyko before the latter returns to the Soviet Union. In addition, President Kennedy will be seeking more exact definition of earlier Khrushchev statements about guaranteeing Western rights in West Berlin.

Queen Elizabeth II this week con- firmed an earldom on her brother-in-law Anthony Armstrong-Jones, husband of Princess Margaret. The former photographer's title will be Viscount Linley and Earl of Snowdon.

The Viscount Linley title will go to the eldest son by their marriage. Princess Margaret is expecting her first child early in November. If it is a girl, she will be known as Lady Armstrong-Jones, a Bucking- ham palace spokesman said.

Princess Margaret now will be known as 'Her Royal Highness the State department, comes after of Snowdon.'
Dances Top Weekend Social Activities

Southern's weekend social activities will be highlighted by Dances Friday and Saturday at the University Center. Tonight's "Roving Twenties" affair will be held in the Roman Room between 8:30 and 12. Students are invited to wear appropriate costumes if they so desire. "Northern Lights" will be the theme of the post-game Saturday night dance at which Northern Illinois University's players will be special guests. It will also be held in the Roman Room.

LUTHERAN STUDENTS TO MEET

 Gamma Delta, the Lutheran Students Association, will sponsor a Cost supper Sunday, Oct. 16 at 3:30 p.m. Meeting at Our Savior Lutheran Church, St. West Main, the get-together will include a student-pastor discussion concerning plans for a Homecoming fest.

ROLLER-SKATE PARTY MONDAY

The University Center is sponsoring a roller-skating party Monday night at 8 p.m. Admission is 50 cents per person.

YELLOW KNIGHTS

Recent marriages at Mars Hall, Robert Easterman, Miss Doris H. Pence, Caroll Rodgers, Miss Mary S. Goettis, Jerry Thompson, Miss Mary M. Babcock, and Marsha White. These couples will be included on the Student Program list.

HORSEBACK RIDING SUNDAY

Students may enjoy horseback riding Sunday afternoon at Little Ganza Lake A. A bus is leaving the University Center at 1:15 p.m. for horseback ride. Riding time is 11 a.m. per hour.

No More Sousa Stuff?

(Th e following editorial is reprinted from the September 19 issue of the "Oceana, California Blade-Blufon.")

D irecctor of Southern Illinois University's famous 120-piece band known as "Marching Salukis." promises that this musical organization will have something for students and the general public to see and enjoy this fall. That sounds fine, but these additional remarks by the director need some passing.

"There will be no more John Philip Sousa stuff. We want strictly a big, open stage band. The entire ensemble effect will be more, middle and more bottom. It's going to knock people out!"

No more John Philip Sousa stuff? No more flourishes of trumpets, no trombone slides, no crashing cymbals, no booming bass drums and exhilarating marching tunes as in Sousa's "Stars and Stripes Forever," "Semper Fidelis," and "Washington Post March." Why, those things are what bands were made for. After all, since theslow young Sousa took over the U.S. Marine Band back in the last century.

Say no, Mr. Canedy, to some of the trick uniforms, which serve no martial purpose whatsoever. Replace the big, powerful, and progressive jazz that creeps into our bands. Break up the trumpet and trombone chorus in "Stars and Stripes," boom another bass drum, and slow down the cymbals double in "King Cotton March."

"No more Sousa stuff? One might as well say no more Santa Claus!"

---

Off Campus Dilemma

The problem of inadequate off-campus housing continues to be a major concern of the student body. The expanding enrollment at Southern Illinois University has created a housing shortage, especially for off-campus students. The problem has been further exacerbated by the lack of suitable housing facilities.

The university administration recognizes the need for adequate off-campus housing and has taken steps to address the issue. However, finding accommodations that meet the needs and desires of the student body remains a challenge.

Off-campus dwellings are often distant from the campus, necessitating longer commutes and increased transportation costs. Many students have reported feeling isolated and disconnected from the university community.

The university encourages students to be proactive in finding housing options that suit their individual needs. This may involve exploring different neighborhoods, utilizing online resources, or seeking recommendations from current students.

In conclusion, while the university is committed to improving off-campus housing options, finding suitable accommodations remains a collective responsibility among students, staff, and faculty. The university continues to work towards finding solutions that enhance the overall college experience for all students.

Bids for construction of the physical education building were due Nov. 7. A university spokesman said the contractors will "probably start moving earth" to make way for both buildings before Jan. 1 unless blocked by bad weather.

The two buildings are the first to be constructed from SIU's $18,000,000 share of state bond issues appropriations for construction on the Carbondale campus.

Completion of the buildings is expected by Jan. 1, early 1964. The new College of Education building, second of six major buildings projects to be announced, will adjoin SIU's University School. The three-story structure will be built west of the University School. It will contain the greatest amount of classroom space of any of the SIU bond issue projects. Some 30 classrooms, including teacher-training areas, science laboratories, and specialized classrooms will be housed in the building.

Also in the building's plans are an auditorium, lunchrooms, and institutional rooms equipped for audio-visual teaching and study, and a building-wide system for closed circuit television. A basement section will be adapted for study and research with teaching machines and other instructional equipment.

The new building will replace scores of temporary barracks, dormitories, and other widely scattered offices and classroom quarters now housing the College of Education.

Plans for the physical education building were announced earlier. It will be constructed south of the campus power plant.

Bids for both buildings will be opened in Morris Library auditorium by Charles Pyley, SIU architect and other university officials. Other projects slated under the bond issue appropriations include a School of Technology building, School of Communications building, General Classroom building, and a major addition to Morris Library.

Renovation and remodeling of existing buildings and general campus developments programs also are included.

Construction has already begun on additional Thompson Point housing facilities, small group housing, and the remodeling of Anthony Hall, according to the university planning supervisor's office.

Thompson Point's second stage, which is completed in June of 1962, will have five new dormitories, housing 600 students. A third-floor addition is to be added to the dining hall also.

Six buildings will be added to the small group housing construction, expected to be completed by 1962.

An estimated $60,000,000 is being spent to renovate the Anthony Hall building, located just south of Old Main. When completed in May of 1962, Anthony Hall will be used as an office building for the business college and other university offices.

Thompson Point's second stage, which is completed in June of 1962, will have five new dormitories, housing 600 students. A third-floor addition is to be added to the dining hall also.

Six buildings will be added to the small group housing construction, expected to be completed by 1962.

An estimated $60,000,000 is being spent to renovate the Anthony Hall building, located just south of Old Main. When completed in May of 1962, Anthony Hall will be used as an office building for the business college and other university offices.

NEW COLLEGE OF EDUCATION — A new $3.3 million College of Education building will be constructed of six major buildings to be constructed of state bond issue projects. Some 30 classrooms, including teacher-training areas, science laboratories, and specialized classrooms will be housed in the building.

Also in the building's plans are an auditorium, lunchrooms, and institutional rooms equipped for audio-visual teaching and study, and a building-wide system for closed circuit television. A basement section will be adapted for study and research with teaching machines and other instructional equipment.

The new building will replace scores of temporary barracks, dormitories, and other widely scattered offices and classroom quarters now housing the College of Education.

Plans for the physical education building were announced earlier. It will be constructed south of the campus power plant.

Bids for both buildings will be opened in Morris Library auditorium by Charles Pyley, SIU architect and other university officials. Other projects slated under the bond issue appropriations include a School of Technology building, School of Communications building, General Classroom building, and a major addition to Morris Library.

Renovation and remodeling of existing buildings and general campus developments programs also are included.

Construction has already begun on additional Thompson Point housing facilities, small group housing, and the remodeling of Anthony Hall, according to the university planning supervisor's office.

Your gifts of special scholarships for superior students have been increasing to the School of Home Economics at Southern Illinois University. Edwin E. Quigley, dean of the school, has reported that an amount of approximately $400, contributed by alumnae, students and other friends of the school has been received by the fund, which is administered by the University. A contribution of $50 from the Cunning- ham Electric Company of Anna made possible an "award of excellence" to another top-ranking student from the class of '53 and also to a junior student, a sophomore specializing in vocational home economics teaching.

Election Petitions

Petitions for the Oct. 17 campus election are due today by 5 p.m. at the Office of University Student. The Petitions Committee has received 10 petitions, with two exceptions:

Students interested in the Secretary of the USRO will find the Southside class and the Fraternity meeting to be held tonight in the Student Council Building.

The opening in the Women's College has been accepted by the Information Desk of the University and the Department of Public Relations.

Campaign procedures as established in the fall of 1962 include:

1. All persons who wish to run must be staked by the Student Activities Office before being placed on the ballot.

2. No candidate may have any campaign literature posted in the Student Union, the Fraternity, or the Women's College.

3. No candidate may have any campaign literature posted in the Student Council Building.

4. No campaign literature will be allowed within 20 feet of any polling place.

5. A candidate may ask for the radio or television time unless the program is filled by the Student Government and the candidates for the office are granted equal time.

6. All Freshmen Petitions for the Oct. 17 elections will have until 5 p.m. to be on the ballot.

7. Permission to speak at any university sponsored function must be first authorized by the Student Activities Office or the Student Government.

8. No candidate for office may be on the Election Commission or on the Student Activities Office of the campus.

For the second time in a year, students have been asked to consider the office of the Student Government. Any student interested in the office may be a candidate for the office which involves a student council association with other student associations and a representation on the State Student Council.

A poll will be taken in the Student Union at 5 p.m. on Monday which will be used to determine the number of votes in order to be on the ballot.

a. The Department of Public Relations has made arrangements for the Student Government elections for Monday which will be held in the Student Union Building.

b. The Department of Public Relations has made arrangements for the Student Government elections for Monday which will be held in the Student Union Building.

In addition to the other costs, the students each paid $5.50 to the Student Activities Office for the apple seals.

In order to fulfill the requirements for apple seals, students must complete a form requesting the apple seals and submit it to the Student Activities Office.

Apple Sealing Students Harvest Fines and Disciplinary Probation

Three male students who developed a craving for apples last week decided to do something about it. For their efforts they were fined by Jackson County officials and placed on disciplinary probation by the University. The students—a junior, sophomore and freshman—were fined $10.10 for the theft of $10.10 worth of apples from the Erker Orchard.

Recent thefts have alerted Orchard Manager Winston Lane Jr., who stationed himself with other members of the orchard. When the youths arrived in a car and began loading a container with apples, they were apprehended.

The student who was fined $10.10 used a car illegally and his car privileges were revoked. The car used in the theft was equipped with a green work sticker.

SOUTHERN'S FILM SOCIETY

"Day of Wrath"

DANISH DIALOG WITH ENGLISH SUBTITLES

Thorkild Roos, Lisbeth Mavin, Preben Lerdorff, Sigrid Neieand

An artistic triumph directed by a peerless master of cinema, Carl Th. Dreyer. As his PASSION OF JOAN OF ARC, Dreyer is the portrait painter filling his screen drama with pictorial image and Rembrandt-esque lighting and grouping. More than a story of a 17th-century witch hunt, DAY OF WRAITH is a drama of conscience,
Somali Leaders Begin 6-Day Tour

Government officials of the African Republic of Somalia will visit two of Southern Illinois’ campuses on a six-day tour of Southern Illinois.

The Somalis will visit the SIU campus over the week-end as guests of the division of area services. They will also tour the Vocation Technical Institute. Saturday night they will see the Southern Illinois University football game.

The primary objectives of the group will be to:
1. Common characteristics of less developed economies
2. Patterns of industrial growth
3. The role of financial institutions in economic growth
4. The role of small-scale manufacturing in economic development
5. Criteria for creating an atmosphere that will assist private industrial development
6. The government and agricultural leaders in order that they may observe the role of government in a private industrial development.

Among the seven Somali leaders are Ali M. Farah, chief of the national defense force and Hassan Muhammad Mohamed, deputy chief of the Department of Ministers of Agriculture.

Quality is the key to success at Western Electric

Admittedly, our standards are high at Western Electric. You’re facing a grueling task in training, but don’t let that discourage you. The rewards await you in the history of the company. For plentiful opportunities abound in both engineering and management.

As we enter a new era of communication, Western Electric engineers are carrying forward assignments that affect the whole world—even those telephones from distant cities to high-speed switch equipment. And, in the management category, too, several thousand supervisory jobs will be available to W.E. people within the next 10 years. Many of these new managers will come from the class of 82.

Now the time for you to start thinking seriously about the general work area that interests you at Western Electric, the manufacturing and supply unit of the Bell Telephone System. Then when our representative comes to your campus, you’ll be prepared to discuss your career directions that will help make the interview profitable.

A letter of the day reporting you will be held at the executive offices. You will find the executive offices.

Professor R. E. Furniture, Department of Electrical Engineering, Western Electric, will also be present.

Unitarian Speakers Confirmed

Dr. David Putter, program chairman of the Unitarian service committee, announced that Jesse LeBaron, President of the National Organization for Women, will be a speaker. The meeting will be held each Thursday at 7:30 in Brown Hall, on the campus of Southern Illinois University.

Liberation Talk

Professor of Music of the Unitarian Church, will be present. A discussion of the day will be held.

Prof. Kou Comments

UAR Flare-Up Over Syria Unlikely

A major flareup as a result of Syria's accession to the United Arab Republic is unlikely, Prof. C. T. Kou, SIU associate professor of history, said recently. Prof. Kou said relations in various directions is movement away from the United Arab Republic, but he was not sure whether the Syrians were going to take more steps in this direction.

Kou cited recent recognition of the new Syrian regime by Jordan and Turkey as evidence that the northern tier of Arab states concerned may attempt to challenge the authority of Egypt's Nasser.

"The new government seems to be quite conservative," he continued. "For the moment it is headed by an 11-man cabinet.

"Syria's new premier is Mameun Kourab, 30, a professor of civil rights at Damascus University. He has had no previous official position in the pre-Nasser government of former president Shukri.

Kou foresaw a neutralist policy, independent of Egypt, for the new regime. Kourab and his followers have been described by others as representatives of the local land-owning classes.

The result was such that the United States, on the part of the Arab area, at the moment Scandinavian, the Germans, and even the Soviets don't know where to turn.

"The United States, unlike the United Arab Republic, even the Soviets don't know where to turn.

Under previous circumstances, Kou said, there is much to be said for some revolutionary movements, they can't come about here. The U.S. associate professor explained. They like the idea, but the situactions aren't right.

Now the situation in the Middle East is a war situation, even the Soviets don't know where to turn."

The United Arab Republic, also, in the area is the more stable, the better for us, and Kou is a former U.S. officer.

Home Ec Profs to Attend Conclave

The staff of the Home Development Laboratory, in L 5, will serve as chairman of the National Association for Nurseries Education, to be held in St. Louis, Oct. 18-21.

Dr. Lois R. Schuck, director of the laboratory, will serve as chairman of the two discussion groups, one on programs for the nursery student and the others on the preschool age group. A fourth group is devoted to the in-service education of the nursery worker.

The former groups will be described at the conference, but more details will be communicated later.

Two Home Ec Instructors to Speak

Two faculty members from the SIU School of Home Economies will participate in meetings Saturday.

Dr. Evans Koudri, new associate professor in the food and nutrition department, will address the fall Illinois Nutrition Conference to be held at DeKalb. The conference is sponsored by the Illinois State Medical Society and the Illinois Nutrition Committee. Dr. Jan Harper, assistant professor in the same department, will present an evaluation of the nutritious and quality of several school lunch meals, at a School Lunch Workshop to be held at Salem.

WRESTLING SQUAD TO MEET

All students interested in inter-college wrestling have been asked by Coach Jim Wilkinson to meet Monday night at 9:30 in room 203 of the gymnasium.

"We'll help you convince your parents you should have a Remington MONARCH portatable typewriter to take the work out of your school work...and make homework fun! All you do is fill out and mail the coupon below. Then we write a letter to your folks outlining the reasons why a Remington MONARCH portable can help you get better grades... (Incidently, the MONARCH portable comes complete with carrying case plus a terrific self-teaching touch-typing course that's a pushover to master!) Ask to see the rugged, modern, compact MONARCH portable at your college store or your Remington dealer!"

**THE GIRL I LEFT BEHIND ME**

It happened every day. A young man was off to college, leaving his home town sweetheart with eternal love, and then he'd be back three years later. What in the world is this, a lonesome thing to do?

Well, yes, you were right. Such things do happen. Even when Rock left West and went to Ohio State University, he said to his sweetheart, a simple country girl named Tootie Fritter, "My dear, though I am far away in college, I am sure you will always be the first to look at me again. If I do, may your eye and heart be open, and your lips meet mine with a smile the madness of my love." And Rock had never said anything else. She spoke knowingly of Frazer Kaffa, the human Mozart, she snickered Mozart, as if she had been a woman since the dawn of time.

"You can hit me in the stomach, you like," the music hall singer boasted. "But I'll have a new song every day and I'll soon be back in your town for the day." Tootie thought of his words, and then she went to the dome in her town and looked for the last time to her home town sweetheart.

"Dear Rock,

I've had a hard time yesterday. We've come to the end and sought some peace. I sought the road of no way. We've hit the roads on skis and asked the wise ones how to go. We've had to hold on and hold on. We've had to hold on and hold on. We've held on and held on.

Your friend,

Tootie"

P.S. I am in the Olive Grove 9,000 times.

Will we, Rock thought about Tootie and then he thought about Frazer and then a great sadness fell upon him. Suddenly he knew what he had gone through. His heart was no longer to be trusted, no more than a complete failure.

Frazer Kaffa, the human Mozart, the man who could play the piano with his feet, was standing in the middle of the stage. He had just finished his last song, "The Morning of the Day," and the audience was on its feet, cheering and clapping. Frazer looked at the audience and said, "Thank you for your support."

**AMOS BULLOCKS**

**Four Year Mile**

Amos Bullocks, Southern's star distance runner, was the favorite for the Four Year Mile at the new University Center on the campus of a large southern college. Bullocks had been starring in the Salad Bowl for three years, and had his 128th yard in last Saturday's game against Central Michigan.

The 6-13-pound Chicago senior was receiving bets from almost every corner in the state. As for his opponents, he had been described as "the greatest four-year-old in the country," but his most formidable rival was the 16-year-old son of the late James Bullocks, who had been the top distance runner in the state for the past five years.

Bullocks had run for his father, who had been killed in a car accident, and had been trained by his mother, who was a former track star. He had been the favorite to win the Four Year Mile since the start of the season, and had won all four of his races.

Annual Shrine Game

**Northern Offense To Test SIU Defense**

From Beck to Beck . . . from Beck to Bruder.

This bit of English may sound trite to those not in Southern sports jargon aficionados, but in Southern eyes it represents the greatest danger the Salukis will face in Saturday's battle with Northern Illinois University.

The game, set for 8 p.m. at Memorial Stadium, takes on a dual significance. It is the annual Shrine affair and will mark the Salukis attempt at scoring a clean sweep in Intercollegiate Athletic Federation record of consecutive victories.

The Saluki 140 win over Central Missouri last Saturday gave Southern its 11th consecutive conference win dating back to the last half of the 1959 season. This record of 11 is jointly held by Central.

The Saluki in compiling a two game, one loss record in their first three games, have limited opponents to one touchdown and an average of only 181 yards offense per game.

In Northern, however, and especially George Beck, Tom Beck and Rich Bader, the Salukis' will be facing one of the toughest defensive jobs of the year.

In their first three games, this trio of Huskie maneuver have earned the nickname of the Northern defense which has ranked up an impressive total of 486 yards rushing and 321 yards passing. Most of this yardage, however, has come in the air.

Beck has completed 30 of 50 passes for 274 yards. Beck, who last year was one of the nation's top small college passers, has completed 13 of 31 passes from his halfback position for 274 yards.

The target of many of these Huskie maneuvers has been Rich Bader, the 6'3, 190 pound left end, Bader has been on the receiving end of 14 passes good for 310 yards and two touchdowns.

In all, the Northern offense has scored 336 yards rushing and 392 passing.

The Huskies opened their season with a 46-27 win over North Missouri University. This was followed by 7-2 and 24-13 losses to Westminster and Northeast Missouri.

Tomorrow's game will be the MAC opener for Northern.

Last year the Salukis had to rally for two fourth quarter touchdowns to defeat Northern 32-20. In that game Beck completed 13 of 25 passes for 198 yards. He also gained 60 yards rushing.

With only seconds remaining in the 1960 contest, Northern attempted a 35 yard field goal. The kick, attempted into a strong wind, fell short.

---

**Intramural News**

The last day of competition for the Hole-in-One golf tournament, sponsored by the Intramural Office, will be Sat., Oct. 7, at Thompson Point field from 1:30 p.m. to 3:30 p.m.

Each golfer will get 2 shots at 180, 185 and 190 yard markers. The player with the closest average of all shots will be declared the winner.

Items will be furnished to those players who do not own their own equipment.

**Winter to O'Neil**—This was the passing combination good for 37 yards last week against Central Michigan. O'Neil, the 6-2, 210 pound senior end has caught seven passes in three games good for 75 yards. Winter, who played his first game of the season last week, connected on six of nine for 72 yards.

The two are expected to furnish the backbone of Southern's aerial show Saturday against Northern Michigan.

---

**Here's How to See the Salukis**

Students attending Saluki home games are required to present an identification card and a certification of ticket membership in order to be admitted.

The announcement was made this week by the Southern athletic department.

If a student does not have an identification card, a pooled fee statement must be presented at the stadium gate along with the identification card.
PHYSICS MEETING UNDERWAY TODAY

An estimated 16 Illinois members of the American Association of Physics Teachers convened on campus today for their annual fall meeting.

The two-day affair will include research reports, presentations of teaching ideas and business sessions.

President Glenn Q. Leifer of Eastern Illinois University will head the evening program at the University Center at which David Hess, Aeronautics Laboratory, will discuss 140 means of doing experimental work.

A B-scale of the SIU physics department faculty will describe his own studies in Gamma and Beta ray spectroscopy at a Saturday morning session conducted by John J. Avrin, also of Southern Illinois.

23 ATTEND FIRST AQUETTES SWIM

Twenty three curious swimmers attended the first tryout of the SIU Aquettes.

The Aquettes is a precision swimming group which performs through the year. Tryouts will be held at the University High School Pool Tuesday through Thursday at 6:00 p.m. with the final cut made on November 2.

Swimming instructor Virginia Young says the girls are selected on the swimming proficiency and body, and it is also open to any girl affiliated with the university for tryout.

Judy Evans, president of the group, announced that the Aquettes will open their season December 2. They will perform for the annual High School Physical Education Day to be held at the University High School pool. In addition the Aquettes will be featured in the SIU basketball cheer program at games with Illinois State and Bradley University.

C C TEAM OPENS AT LAWRENCE

Southern's Cross Country team opens its 1961-62 season tomorrow afternoon against the universities of Missouri and Kansas at Lawrence.

Coach Lew Hartog's Salukis are expected to have one of the strongest teams in the history of the school. Last year Hartog's runners won the National Association of Intercollegiate Athletics meet and the National AAU run.

In all, Southern's cross country boys were undefeated during the 1961-62 season.

In opening against Kansas and Missouri, Southern will be facing two perennial powers of the Big Eight Conference.

"Both Kansas and Missouri are better conditioned than we are and Kansas has always a perennial power in the Big Eight," said Hartog. "Nevertheless, our chances of a victory are fair," said the barrier mentor.

Joe Thomas, a 26-year-old sophomore from Uniontown, Pa. and Jim Dupre, a 25-year-old sophomore from Pompano Beach, Fla., figure to be right up there against the two new Eight powers.

Thomas was a freshman sensation last year as he led SIU to a record breaking performance in the meet. Running the tough Omaha, Neb. course in 20:30, he cut 16 seconds off the previous record.

Dupre is running his first cross-country season this fall. Primarily a half miler he is unmatched over the longer distances. An Olympian 800-meter alternate in 1960, Jim won the 440-yard run in the 1961 National AAU with a fine 51.8.

Other members of the SIU squad will be composed of Captain Lee King, a 2-year-old senior from Pleasant Plains, Mike Busek, 21-year-old senior from Edwardsville, John Flemmer, 23-year-old junior from Carbondale, and John Kimmel, 17-year-old junior from Mount Vernon, Ill.

The meet will be held at the Thompson playground on the Carbondale campus.

TENNIS MATCHES

Members of Southern's freshman and varsity tennis team will stage exhibition matches at the new tennis courts Friday at 4 p.m.
