Our Opinions Lucky Freshmen

You know how it is during New Student Week. The campus is crowded with freshmen who don't know what to do or where to go unless they are told, and told clearly.

This year they were informed. The informers consisted of 110 SIU upperclassmen who ran New Student Week under the guidance of the Office of Student Affairs.

When we aged seniors were freshmen we had no such help. The APO and Girls' Rally did their best, but it wasn't enough to help us adjust to campus as we should.

It's Lou Roach and Jim Jenkins did a splendid job of directing the 1954 New Student

Week. Instead of it being madhouse of confusion and survival of the fittest, New Student Week was a well planned, slick running project that accomplished the purpose of orientation and registration of the freshmen with plenty of time left for social life.

The Class of 1958 owes a great deal to the 110 students who devoted a week or more of their time to assist them. These people received no pay and most of them had very little recognition for their job.

If space in the Egyptian would permit, we would list all of these people's names, but all we can say is "congratulations on accomplishing a difficult mission."

J. A.

As We See It

By Bob Poos and George A. Ewanoff
GREETINGS TO THE thirty percent of you freshmen who will remain at Southern after this fall term. Welcome back our three loyal readers and if someone else should stumble across this column we'd like to welcome them also.

For the new student this column is for you and about you. It deals with happenings on and about the campus so if you have some little ribbit get in touch with us and if possible we will print it.

B. J. ADKINS last years winner of the Bear of The Week Contest is now in the army. Sam Hunter president of Miami U. Jeff Adkins, Fin Club announced that they were protesting the call of the idol. In a letter received from Jeff he revealed that he is with the Corps of Engineers working as a bulldozer. We have one comment "Good luck Hero Nose."

Bob Franz, SIU line coach, broke his hand in the first game of the season playing with the St. Louis Cardinals.

SIEA Gives Scholarship To Charles Baker

CHARLES DALE BAKER of Marion, Ill., is the first recipient of a \$100 Southern Illinois University Journalism scholarship established by the Southern Illinois University Journalism Association established by the Southern Illinois Editorial Association in June. Baker is enrolled in a new two-year course emphasizing graphic arts and training in community journalism.

UNIVERSITY DRUGS

Col. Alexander R. MacMillan, SIU's new Professor of Air Science, has just taken over the Division of Air Science this summer. He has a mammoth job of directing the training of some 1,200 AF ROTC cadets through this school year and producing a class of graduates who will be some good officers in the United States Air Force.

Faculty Projects Awarded Grants

Some \$11,693 in grants have been awarded to Southern Illinois University faculty members under the Special Research Project Program for this year, the graduate office announced recently.

Dr. David T. Kearney, assistant to the dean of the graduate school, said that amount was about three-fifths of the total that would be awarded for new and continuing research projects in the coming year.

The 33 grants approved by the University are separate from those awarded faculty members by other agencies or institutions.

Morton Kenner, instructor in mathematics, will seek to determine what value mathematics has in training for other subjects, and Ben Watkins, assistant professor of art, will study cultural form in relation to architecture.

Five other new research projects to be started on the campus this year are:

- Sociological Analysis of a Coal Mining Community, Dr. Herman Lantz, sociology.
- Geography in Egypt, Dr. David Cunningham, geography.
- Mammals of Southern Illinois, James N. Layne, zoology.
- Social Facilitation in Illinois, Dr. Leslie Madsen, psychology.
- Forest Ecology in Southern Illinois, Dr. John Vogt, botany.

A new Professor of Air Science, Col. Alexander R. MacMillan, and the revised AF ROTC curriculum taught in its proper sequence approximately 1,185 cadets this year.

Enrollment in the program this year consists of 706 freshmen, 347 sophomores, 48 juniors and 77 seniors.

In an interview Tuesday Col. MacMillan stated that the "Air Force has grown up, and AF ROTC is presenting an interesting and mature curriculum to better prepare young college men for active duty as officers in the Air Force."

Students in Air Science I will be studying "Airplane and the Air Age," while the sophomores will examine "Elements and Potentials of Air Power." Air Science III cadets will study "Air Force Officer in the Air Age." Senior cadets will have "Leadership and Air Power Concepts" as their general line of study for the year.

Col. MacMillan stressed that SIU is growing and that the Air Science division of the University should grow and improve with the school. After this year, 80 percent of all officers in the armed services will be coming from ROTC units.

Col. MacMillan comes to SIU after almost 20 years of active duty in the Army and Air Force. After graduating from West Point in 1920, he attended heavy artillery school before being shipped to the Philippines for two years.

Upon his return from the Philippines he was given command of a 24th Infantry artillery battery which consisted of an entire train which could move up and down the East Coast for defensive purposes.

He was then sent to Virginia Polytechnic Institute to teach Military Science and Tactics.

From 1927 to the beginning of World War II Col. MacMillan worked for General Motors after resigning his commission in the Army. But when Pearl Harbor was bombed, he was like "an old fire horse when a bell rings," and joined the Army Air Corps and was given the rank of Major.

He was sent to Keesler Air Force Base in Biloxi, Miss., where he commanded 1,900 enlisted men while still only a major. Later he attended the Inspector School for the Army Air Corps and then was enrolled in the inspector General School in Washington, D. C.

Col. MacMillan was given the assignment of establishing an inspector school in Orlando, Fla. which he commanded upon its completion. He was then recalled to Washington where he was named Chief Inspector of the Air Force in Washington, and was the only non-com officer to ever hold that position.

In 1949 he was named Inspector General of the Air Training Command, a post which he held until 1951, when he was transferred to England to serve as Inspector General in the United Kingdom.

Last year he was responsible for the saving of many American lives and planes by establishing a radio beacon on a peninsula in Scotland that sent a beam in line with the runway on the mainland so that NATO fighter planes being sent abroad could come in for a straight landing, thus avoiding the traffic pattern.

This feat brought Col. MacMillan wide acclaim when 29 Sabre jets had barely enough fuel to land in Scotland. Without the aid of the beacon, many of the planes would have crashed.

One newspaper article stated that Col. MacMillan had saved the Air Force \$10 million and many pilots' lives.

Col. MacMillan will be serving approximately three years on ROTC duty.

Woof!
I hope that is the appropriate greeting from an ex-Saluki to a Saluki. As an admirer of one of Southern's greatest institutions, may I congratulate you and at the same time sincerely thank you for making some of my dark moments a little brighter. I received the Egyptian when I was stationed at F. E. Warren, AFB, Wyo., and it really made me feel good to be able to read about the things that were in the news at SIU. I would like to be able to keep reading about those news worthy people and events.

I attended Southern from September, 1951 to December, 1953. Thank you very much for spending your time and effort on me in this way. I will be very happy to bear any financial load caused by this act.

Greatly yours
James McKinley

P.S. Here's hoping you have a very profitable school year.

To the 110 student leaders who gave so willingly of their time and talents to make the 1954 New Student Week the most successful in the history of Southern the staff members of the Office of Student Affairs on behalf of Southern Illinois University, express a hearty "well done" and thanks.

TOM MOFIELD'S

Gridiron Match Fronts Visitors Day Frolic

Southern's annual attempt to lure "Little Egyptians" into becoming freshmen at SIU will be highlighted by the Saluki — Cape football game this season. In the past it has been a custom to have one day set aside as a high school visitors day. The juniors and seniors from nearby high schools are given free run of the Southern campus and allowed to peck at some of the band-leaders activities of college campus life.

Conductor Kesnar Needs New Talent For His Orchestra

Dr. Maurits Kesnar, conductor of the Southern Illinois Symphony Orchestra, invites all students interested in joining the symphony to get in touch with him in his office located behind the stage in Shrock Auditorium.

Tuesday from 7 to 8 p. m. the symphony began its sixth season.

It was Dr. Kesnar who organized the symphony orchestra three years ago as his department's contribution to a university program of area service.

Unlike comparable organizations, the Southern Illinois Orchestra plays free concerts in widely scattered communities every season, and there are no donations, no fund drives, no honoraria.

As Dr. Kesnar puts it, "I found there were people willing to play and people willing to listen."

It consists of 35 per cent students, the rest are people from the community.

"The orchestra belongs to them and to the people who pay the taxes. It is really — as they say — by the people, for the people," he remarked.

1,500 Southern Illinois Maps In SIU Collection

A collection containing more than 1,500 Southern Illinois maps has been established here Illinois University, Dr. Stanley E. Harris, Jr., SIU associate professor of geology, reported in the fall issue of Southern's Business News Letter.

The regional collection, housed in the SIU library for reference and for research use, culminates 18 months of preparation and provides a storehouse of information covering all phases of human endeavor, says Dr. Harris, who supervised the map collecting. The SIU Graduate College provides a research grant to assist the project.

Emphasis until now has been on assembling all current maps which portray the natural and human development of Southern Illinois. There has been a generous response to contacts with local, state and federal agencies, industrial organizations, and individuals. All maps received, excepting a file of air photos covering the southern 15 counties, have been donated. The collection will be expanded as additional material becomes available.

The collection includes county highway maps, two sets of tax district maps by counties, state agency maps showing the distribution of various state services offices, and detail maps of some railroads, pipeline systems, power distribution lines, river drainage systems, and radio-TV signal ranges.

Because of the area's strategic location in the nation—geographically, historically, politically, geologically and biologically—the collection is said to have national significance for research study which involves the area.

"STILL" HOUSE ELECTS JOE KALLA PRESIDENT

Joe Kalla, Chicago senior, is newly elected president of the Stillmen's organized house at 817 S. University.

Other officers for this year are Don Gooden, vice-president; David Bellamy, secretary-treasurer; John Teshner, social chairman, and Paul Prussman, intramural representative.

The Still held an exchange party with La Cas Manana Tuesday night to open their season of social events.

With 54,000 Textbooks on Hand and We'll Need to Order More, and More Arriving Daily, Carl Trobaugh, Left, Manager of the Southern Illinois University Bookstore, and Al Spaulding, Self, Student Helper, are Running out of Stacking Space.

To fill the requirements of new courses being offered and to have books for the additional students registering, nearly \$25,000 worth of new books have been purchased to supplement the 54,000 on hand. For example, 1,400 new rhetoric books for freshmen have just been added.

"There still will be some shortage," Trobaugh says.

The bookstore is a university auxiliary enterprise operating a book rental system for the benefit of SIU students. This includes books for grade and high school pupils in University School, teacher-training laboratories. The book rental system operates out of student activity funds and simplifies the textbook problem for SIU students. Trobaugh says that an average of four books per student is issued each term.

The bookstore also carries school supplies, combination locks for gymnasium lockers, gym suits for women, and towels for men's physical education students.

Frank Bridges of Southern Illinois University's Health Education Department has accepted the invitation of Governor William G. Stratton to participate in the Governor's Inertic Safety Conference Sept. 22 in Springfield.

From Oct. 18-22 Bridges will attend the 42nd annual National Safety Congress in Chicago as a member of a school and college leadership team which will work on the problem of "How Schools Can Cooperate in Channeling Help of Agencies for Safety Education."

Bridges is in charge of driver education at Southern, teaches safety education courses, and is civil defense coordinator for the southern counties of Illinois.

Ad Space Open In 1955 Obelisk

Sale of space for living groups and organizations on campus for the 1955 Obelisk is underway.

Organizational officers are urged to return space reservation forms to the Obelisk office immediately in order to make sure of receiving space in the book.

Any organization which has not received a reservation form should contact Inis Werner at the Obelisk office in the Student Union or at Woody Hall to make arrangements. Picture scheduling should be underway next week as soon as sufficient space reservations have been received.

Space costs remain the same as in the past several years. Half-page sell at \$7.50, with full page costing \$24 plus \$3 for picture in sets.

Parking Permits On Sale Soon Will Allow Parking in Several Restricted Zones

"Parking permits valid for this school year will be on sale at the Bursar's office Sept. 21 and 22, 1954," said Robert Etheridge of the Office of Student Affairs.

Permits properly displayed on the lower right corner of the windshield will permit students, faculty, and employees of the University to park their cars in restricted parking areas from 7 a. m. to 4 p. m. Monday through Friday for the school year.

The hours of sale are: Tuesday, Sept. 21 — 2:00 until 4:00 p. m., and Wednesday, Sept. 22 — 8:00 until 10:00 a. m. and 11:00 through 3:00 p. m.

"Present driver's license or a state car registration card must be presented at the time of purchase," Etheridge explained.

Restricted parking areas include: The parking lot west of Illinois Avenue and north of Grand Avenue including the area north, west, and south of the Geography House.

The parking lot north of University school, the parking lot at the corner of Thompson and Chauauqua streets, the parking lot north of the Graduate School office on Thompson street.

Other restricted parking areas are the parking lot on Grand Avenue north of University school, the parking lot east of Anthony Hall, Joe one west and south of the Academic Dean's Building, and the parking area south of Anthony Hall on north side of Harwood Avenue.

The Office of Student Aff is issued the following general parking regulations. 1. Do not block service drives. 2. Do not park on sidewalks. 3. Do not park in visitors zones.

4. Do not drive or park on campus circle at any time. 5. Drive slowly (10 mph or less) in the vicinity of the campus.

Students receiving a violation notice from the Police Department of SIU are expected to report to the Office of Student Affairs immediately, according to campus police chief Joe Montgomery.

Obelisks Available In Student Union

Copies of the 1954 Obelisk are still available for students who failed to pick up their issue last spring. They may be picked up at the Obelisk office in the west wing of the Student Union.

Students who attended three of the four terms preceding June, 1954, are eligible to receive a copy free of charge. Those who attended two of the three terms pay \$1.00, and students who were here only one term during the period must pay \$3.20 to get a copy.

Books also are still available for sale at \$4.80 per copy.

DALIAS PRICE, right, Southern Illinois University assistant professor of geography and supervisor of a cooperative Crab Orchard Lake rainfall study, explains rainfall gauge reading procedures to Wayne Walker, left, Carverville, and Bill Almond, Bazelton, student assistant to Price, looks on.

Walker, a Carverville postoffice employee, is one of 30 citizens volunteer project of SIU and the Illinois units in the Crab Orchard Lake Waters Survey. The plastic waterwashed who are cooperating in gauges supplied by the Water Survey project of making regular rain-view are being installed at intervals fall readings and reporting period throughout a 400-square-mile area locally to Price. One of the gauges to determine rainfall characteristics has been installed on Walker's small in the region and the effect, if any, at the west edge of Carverville, of Crab Orchard Lake on rainfall patterns.

IRC To Meet Thursday Night

Southern's International Relations Club will hold its first meeting of Sept. 23 at 7:30 p. m. in Altgeld 202 according to Dr. Frank L. Klingberg faculty sponsor. Klingberg extends a personal invitation to all who might be interested in attending the meetings.

The first three meetings will consist of a series of lectures by Dr. Lloyd E. Cunningham chairman of the geography department who will tell of his experiences as a Fulbright exchange professor in Cairo, Egypt. As his topic for the Sept. 25 program Dr. Cunningham will speak on "Egypt-Land of the Pharaohs," this talk will be accompanied with slides taken during his stay there.

The International Relations Club is organized in 1948 to promote better understanding and discussion by international affairs, and to encourage activities designed to help establish peace and cooperation among nations in a free world.

Membership in the IRC is open to all students, and foreign students are especially welcome.

Meetings are held bi-weekly on Thursday evenings. Programs for the year will include speakers, panel, round-tables and movies.

Further information on the club may be obtained by contacting either Dr. Klingberg or the club president, John Zeigler.

UNIVERSITY DRUGS

Saluki Gridders Shape UP For First Game Against Cape

Head Football Coach Bill O'Brien put his 1954 edition of the SIU gridiron squad through their paces last week in their first public scrimmage at McAndrew Stadium before the season opener here Sept. 25 against outcast Missouri.

A ground attack that netted a larger percentage of the touchdowns last season will still be Southern Illinois University's bread-and-butter weapon this fall, but O'Brien said that the Saluki's passing will be better due to the addition of a corps of talented ends.

Generally speaking, the SIU squad has had little in the way of depth at the end position, but this year promises to be different after nearly two weeks of pre-season work.

A couple of minor injuries caused some realignment in the probable first eleven after the long drills, but Coach O'Brien was well satisfied with results. "I think if we can avoid further injuries, we will do well on offense and should come up with another well-balanced attack."

The first team's forward wall displayed a good charge, pushing back the reserves for considerable yardage on plays designed just for short gains.

The pace has been stepped up considerably as the Salukis close their third week of pre-season practice.

Martin Announce Opening of Fall Intramural Tilts

Glen "Abe" Martin, head of the Intramural sports for the University, has announced the opening of the fall program of the intramural activities. The program is completely in the rebuilding process, but Martin believes it complete and interesting to all those who will engage in it.

All students who are interested in participating are urged by Martin and his staff to acquire the official handbook of Intramural Sports in which all questions about membership, how to enter, practice and eligibility can be answered.

The activities of the organization are governed by an Intramural Student Board which is composed of three students from each league. As of now there are four leagues: The Fraternity League, the Men's Residence Halls League, Organized House Leagues, and the Independent SK Leagues. The members of this council are selected or elected in May to serve the following year. The purpose of this council is to assist in the administration of the program and to develop and create new policies for the inter-school program.

When there is time for practice and the facilities are available the time and place will be posted on the board outside the intramural office. Also, the office will furnish all necessary equipment for each individual sport.

Everyone is eligible to participate. Letter winners, however, will be asked not to take part in the sport in which their awards were made.

Martin has also expressed his need for officials. Anyone interested should contact him for a position. A test will be given to those who sign for a position on Sept. 22.

If your particular sport interest is not listed among those entered, it may be added to the program if there are a sufficient number of entries.

There has been a great deal of contact work in full equipment, and extensive pass defense exercises in preparation for the strong right arm of Cape's quarter back Chuck Yeaglin.

Quarterbacks Gene Tabuchi, Auburn, and Gerry Hart, West Frankfort, perfected pass patterns with the ends and backs while line coach Bob Franz whipped his forward wall into shape for the Cape game.

Early changes in the line saw Cliff Johnson, two-time all-conference tackle, being moved over to a guard spot and veteran tackle Joe Kalla, Chicago, also running in the guard position.

Wayne Williams, Du Quoin junior, and John Gelch, Sesser sophomore, have been operating with some regularity at ends, but are getting stiff competition from two freshmen, Marion Rushing, Pinckneyville, and Lou Kahlenback, Newton, Mass. Dave Stroup, senior from Carbondale; Ray Flazak, Chicago senior; and Larry Parrish, freshman from Elgin, are scrambling for the tackle slots. Big Kent Werner, Belleville junior, and Giles Sinkewitz, Belleville sophomore, are alternating at center.

Capt. Jack Schneider, Glen Carbon junior, is leading a speedy company of backs. Veterans Gene Ernest, junior from Johnston City; Ed Johnson, Pansuawayne, Pa.; junior; Bob Ems, Fisher junior; Hank Wartfield, Evansville junior;

and Joe Yusko, West Frankfort sophomore transfer from the University of Illinois, are alternating in the backfield.

Freshmen Annie Isio, Chicago; Bud Jarvis, Zeigler, Dominic Anivino, Wavland, Mass., and John Orlando, Overland, Mo., are in the running for backfield spots in the varsity.

Northern Players Return To Coach

Two former members of Northern Illinois State's champions hip football team of 1951 are currently acting as graduate assistant football coaches here this year.

Frank Bieber of Chicago, Lindbloom high school, and Jack Pheanias of Chicago Heights, Bloom Township High School, are currently enrolled in the graduate school at Northern and are working with the varsity team in its early drills.

Bieber was a co-captain of the 1951 football squad playing a guard position. Pheanias working from both a half and full back position averaged 4.6 yards per carry during the 1951 season. Pheanias was an all-sports coach at Warren, Ill. during the last school year.

Both Bieber and Pheanias will eventually work with the Junior Varsity football squad at Northern under Ralph McKinzie.

Cross Country Begins Practice With One Vet

Leland "Doc" Lingle begins his twenty-ninth year as cross country coach with just one veteran squad member. The remaining candidates for team memberships are all freshmen.

Lingle has been constantly timing his twenty-five candidates in their workouts in an attempt to select a promising team for Southern Illinois. Harry Havens is his lone returning letterman.

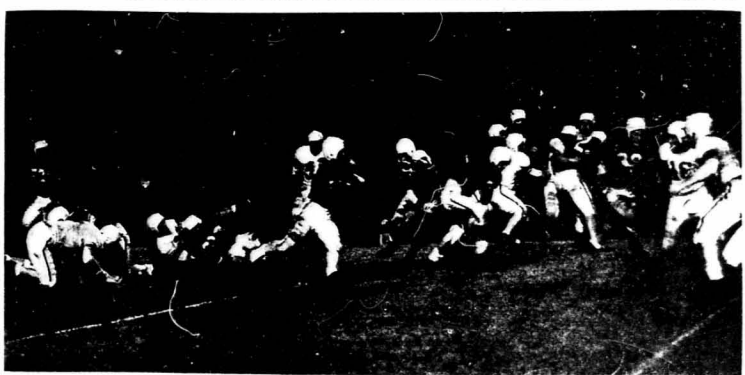

Lingle emphasized the fact that cross country running is a specialty demanding a great deal of spirit and pace. This type of long distance running is a competitive sport in its own right, completely aside from any regular track season.

The first meet of the season will be held October 2 when the Salukis meet the Eastern Panthers.

President Signs Bill For SIU Research Work

Included in a new appropriation bill signed by President Eisenhower is \$150,000 for expanding research work at the U. S. Forest Research Center at Southern Illinois University. Senator Everett M. Dirksen and Congressman C. W. "Bunt" Bishop, reported recently.

The additional funds will enable the Carbondale Forest Research Center to strengthen and intensify research in growing forest crops and utilizing them more effectively for developing forest industrial expansion.

Saluki Gridders in last weeks pre-season public scrimmage Coach Bill O'Brien predicts a stronger all round team for South ern this year with a strong line, improved passing, and reserve strength at most positions.

Procedure For Obtaining Football Tickets Outlined

The procedure for securing tickets for SIU football games has been prescribed in a bulletin recently released by the Athletic Office.

Students may present their activity tickets at the ticket office window in the men's gymnasium between 9 a. m. and 4:30 p. m. on Thursdays and Fridays preceding Saturday game. They must present both their ticket and activity cards to the ticket taker when entering the gate. On the day of the game tickets may be obtained at the entrance to the stadium.

Faculty members, and their families may secure season tickets to games for \$4.00 apiece, while students with a wife or husband may secure a reserved seat for their spouse for \$6.05 or for \$8.40 in the east bleachers.

Any group wishing to sit in a specific section may appoint one person to pick up their reserved seat tickets by compiling their activity cards and having this appointed person present them to the ticket office.

WAA Intramurals To Begin Monday

The SIU Women's Intramural program will move into gear next week, Monday Sept. 20, with the organization of field hockey and tennis squads, according to information recently released by the Women's Athletic Association.

Women interested in the hockey program will meet from 4 until 5 p. m. in the women's gymnasium. Competition will extend through Dec. 4 with class tournaments for all participants and at least one sport day program to afford competition from other schools. Anna Mae Hayes is field hockey manager.

Tennis players, both beginning and advanced students, will also meet at 4 p. m. Monday and Sept. 22, at 4 p. m.

Charles Allen Resigns To Work On AEC Project

Charles W. Allen, instructor in industrial education at SIU since 1950, has accepted an instructional position with the Atomic Energy Commission's World Laboratory at Albuquerque, N. M. He resigned his position at SIU at the end of the summer term.

A native of Carbondale, Allen has developed and taught electrical and electronics courses in the SIU Industrial Education department, and has taught woodwork ing and drafting as well as being adviser for preengineering students.

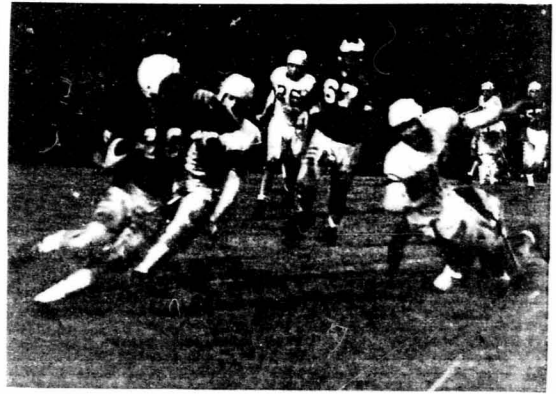

Synchronized swimming teams will be organized this fall for the first time at Southern. Anyone able to handle herself in deep water is eligible to participate. Activities will include water stunts, swimming to music. Women and advanced students, will also be interested can meet Wednesday, Sept. 22, at 4 p. m.

Make-up Week for all Classes, Sept. 27-Oct. 2

When you pause...make it count...have a Coke

TO THE CLASS OF '58!

'57 KNOWS IT!
'56 KNOWS IT!
'55 KNOWS IT!

CHESTERFIELD IS THE LARGEST SELLING CIGARETTE IN AMERICA'S COLLEGES

THIS Chesterfield leadership is shown by actual sales audits in more than 800 college co-ops and campus stores from coast to coast.

In choosing YOUR cigarette be sure to remember

this! You will like Chesterfield best because only Chesterfield has the right combination of the world's best tobaccos—highest in quality, low in nicotine—best for you. All of us smoke for relaxation, for comfort, for satisfaction—and in the whole wide world no cigarette satisfies like a Chesterfield.

You smoke with the greatest pleasure when your cigarette is Chesterfield... Yes, these six words "highest in quality—low in nicotine" mean Chesterfield is best for you. Buy 'em king-size—or regular.

CHESTERFIELD BEST FOR YOU
