WORLD NEWS

RED CROSS SLOGAN IS— GIVE YOUR DOLLAR AND GIVE YOUR BLOOD

The American Red Cross Drive, starting on this campus February 21 and continuing to March 7, has already begun its solicitation of organized groups and will soon begin person-to-person solicitations. On February 28, one week after the Drive begins, there will be a Blood Bank in Carbondale, to which all students who are physically fit should give a pint of blood. Let our campaign slogan be, Give your dollar and give your blood!

From the very fine response received in the solicitation of organized groups, it is believed that Southern will go over the top to \$1000. If you do not contribute your dollar with one of the organized groups, have it in hand, for you will be solicited personally soon after the drive begins.

The following groups have pledged these amounts:

Student Council	125
Hogart House	25
Anthony Hall	25
Phi Kappa Sigma	50
Kappa Sigma	25
Sigma Sigma Sigma	40
Delta Sigma Epsilon	60
Tamarcus	15
Alpha Kappa Alpha	10
Turner 12	12

This makes a total of \$292 that has already been pledged and, so far, all organized groups have not let down. It means that the drive is off to a good start. The spirit of giving is far from dead here in Southern.

As proof of this spirit of giving, a group of Southern students today agreed to give one pint of blood to the Red Cross on February 23, to be made into blood plasma, which will be used in the treatment of wounded soldiers. The fact that blood plasma does give lives was illustrated by the personal attention of Lieutenant Charles P. Hartman in chapel Tuesday. In his speech, Lieutenant John Sheppard stated that he had given 16 of his own blood to donate to the Red Cross blood bank. We hope that the students of Southern will be as generous.

THE UNUSUAL

In the art gallery on 2nd Floor of Main Building is a very outstanding exhibition both in its technique and subject matter. The artist is Stephen Reinhardt, only 15 years of age! His drawings and paintings have a sensation in St. Louis for several days.

These drawings are done in pencil and ink. Through delicate lines (typical of the great draftsman) by a sensitive process of cross-hatching and shading, form and shadow and form. The subject matter includes an unusual and vivid imagination. Evidently his conception is concerned with deformities as illustrated by the war-torn, mangled and half-stuffed animals.

Water is ready for transfusion in a matter of minutes. Cross-matching of blood types as in direct transfusion is unnecessary. The dramatic story of the Red Cross Blood Donor Service, through which thousands of soldiers have been saved, has been brought back from the dead, begun in February, 1941, when the Surgeon General of the Navy and Army asked the Red Cross to procure 45,000 pints of blood. By the end of 1941, 50,000 pints had been collected.

S.N.U. Goes Over The Top In Blood Drive

The blood donation drive for blood plasma which is being sponsored by the Carbondale Red Cross has gone over the 200 pint mark.

Due to the diligence of Miss Ruth McAfee, "member of the Red Cross," and the able assistance of the Delta Sigma, the drive on the campus was equally successful. To date, 130 pint donors have registered.

It is imperative that those students signing up for blood donation, who are between the ages of 18 to 21, have a written statement from either parent or guardian. The registration cards are being turned over to Mrs. C. W. Gibb, chairman of the blood donation drive. Each student registering will receive a card verifying appearance within the next two weeks. This card is to be presented, along with written consent if under 21, on the 28th of February.

CHILD PSYCHOLOGY WORK OFFICER AT U. OF IOWA

Dr. Sina Mott has recently obtained a job for her students in Child Psychology a scholarship at the University of Iowa. After receiving their A. B. there, they may work there in the Child Welfare Center of the Laboratory School. For this brilliant work, they will receive a stipend which will cover their tuition and activity fee. The other half-time may be spent in graduate work.

Dr. Mott stated that there are more openings than students available since most of her students have obtained jobs upon graduation.

1944 WAR FUND

This year, with service flags in windows of nearly every home, Carbondale will mean so much more to Americans. As depicted in this reproduction of a 1944 Red Cross War Fund poster, many windows also will display the symbol of participation in the cause of Mercy and Humanity—the Red Cross.

Red Cross Relief Work Starting Here Extends Around World

Charity, sharing at home, now reaches round the world. The citizens of Carbondale who have contributed money to the Red Cross also may know that their help is bringing comfort to a human being in some far off place, according to Dr. N. S. Harvey, chapter chairman.

Medical, hospital, and surgical supplies, clothing and other relief items valued at more than \$750,000 have been distributed to the Red Cross through the American Red Cross. Dr. Harvey said. "These articles have gone to some 35,000,000 people all over the world, from China to Holland," he added.

Supplies shipped from Jackson County Red Cross Chapter are a part of chapter produced and donated articles with an estimated value of \$10,000,000 which were shipped abroad last year. The chapter stated. Other sources of supplies include provisions from the United States government and direct expenditure from Red Cross funds.

"A steady flow of relief supplies has been maintained," Dr. Harvey said. "In spite of the difficulties of transportation, procurement of supplies, and the changing situation following the entry of the United States into the war. Allied nations and people populations have had first priority on supplies."

Medical supplies and clothing have been a large share of the materials shipped, according to the chairman.

"Junior Red Cross members have participated also in this program through their national children's fund, protection work, and gift boxes," Dr. Harvey concluded.

William Carriers of Marion, Mo., and Harley Teel of Carbondale are planning the activity for the Red Cross.

COULSON WINS CHARLES NEELEY SCHOLARSHIP

Miss Lois Coulson, recently awarded the Charles Neeley Scholarship by the Faculty, has been awarded the Charles Neeley Scholarship prize.

Miss Coulson is from Christiana, Ia., is majoring in History and Geography and minoring in English. In her college she has a 4.0 average, while her general average is 4.11. Miss Coulson was also awarded a High School scholarship upon graduation from Washington State. As a member of Gamma Theta Upsilon, she was treasurer three terms and vice-president for four terms. She has worked for some time in the Dean of Women's office.

The Charles Neeley Scholarship prize is an annual award of \$25 to the Junior with the most outstanding scholastic record made by the American Association of University Professors, and is usually made during Commencement week to the student who has received the highest grade in the senior of the most outstanding scholarship enrolled at the beginning of the year. The meeting held December 13, at the suggestion of the executive committee, Charles Coulson was named. The association at its regular meeting in February.

ARMY-NAVY TEST TO BE GIVEN MAR. 15

The third Army-Navy College national test for Army Specialized Training program and the Navy College program V-12 which will be given throughout the country at 125 locations on March 15, at 9:00 a. m. will be administered at Southern Illinois Normal University. Mr. Mayor announced today that the general information which contains an admission-identification form may be obtained at the machine room of the office, 313 Main. This form properly filled-out will admit to the college students between the ages of 17 and 21 who are high school graduates or who will be graduated by July 1, 1944. In order to be eligible, the candidate must be known immediately to Mr. Mayor in order that the necessary test supplies may be ordered.

To Close In War Loan Drive

On Wednesday morning, February 9, 9:25 per cent of the purchase of \$304,000 for Carbondale town will be given for the Carbondale town war loan drive. The total amount of \$30,200 to go over the top in their drive quota before the end of the campaign will be given by the end of the drive on the 15th of February. The members of the faculty who have not bought bonds are urged to do so before the end of the drive so that the school will get credit for them.

Last Monday night the Variety Theatre will have the last of its shows to which the admission will be given freely upon the purchase of a war bond at the theatre. The bonds must be bought at the theatre in order to receive the complimentary ticket. Last Monday night fifteen free admission tickets were given to the persons buying bonds at the theatre that night. The Co-Ed Victory Corps of the college assisted in the sale. This organization has been organized to help bond selling units of the campus.

MATHEMATICS TEACHERS NEEDED

There are now exists a very serious shortage of secondary school mathematics teachers in certain fields and the shortage will probably be more acute by fall. Right now about 1000 new teachers are being called to fill positions in high schools on emergency certificates. The graduates of the college this year will number in mathematics far below the number of openings which exist for as southern Illinois is concerned.

Mathematics 103, 113, 311, and 312 will be offered this spring term. All of these courses are open to students who have had high school mathematics. They are open on a teaching unit. In fact a student who has had two terms of college mathematics could complete a teaching unit in one term by registering for these courses. The courses are: Analytical Geometry, Teaching Secondary School Mathematics, and Spherical Trigonometry. Other courses which would be of benefit to a major will be available during the summer term.

AUTHOR AND WORLD TRAVELER TO BE HERE ON FEBRUARY 15

Dr. Sherwood Eddy will be on the campus for a chapel address on February 15. Dr. Eddy is employed here by the College Entertainment committee, of which Dr. Terney is chairman.

Dr. Eddy's address will be "Two Hot Spots: India and Russia." He is well informed about these countries, having worked in India among the students there for fifteen years after his graduation from the Yale in 1931. Following this work, he was named Secretary for Asia of the YMCA, and for many years labored among students of Russia, the Near East, China, Korea, and Japan.

CAMERON HALL TO LECTURE OE CAMPUS FEBRUARY 14

On Monday, February 14, the Rev. Cameron P. Hall will come to the campus at Southern for a day filled with many interesting events. He has planned on lecturing to the classes of the Student Department meeting the first, second, and fourth years. His broad background of social experience has made him well qualified to speak in this department. He will also be the guest of honor at a tea for nonmember students, faculty members and friends who are members of the Student Christian Council. This Valentine's Day Tea in his honor will be held at the Student Christian Foundation at 4:00 p. m. He plans to speak at the tea; therefore, he will be unable to talk to those who are in the Society classes and who wish to hear about his interesting experiences. Miss Florence Alston is chairman of the Student Council of nonmembers, and Mrs. Swartz and Mrs. Mayer will be the service hostesses. Ladies of the Presbyterian church will save the tea.

Dr. Hall is a graduate of W. B. E. College, Williamstown, Mass. After two years of study abroad at New College, Edinburgh, and Haverford College, Oxford, he has completed the majority of his studies at Union Theological Seminary, New York. As director of the Department of Social Education and Action of the Presbyterian Board of Christian Education, Dr. Hall handles many of the causes of democracy and christian civility, international relations, civil liberties, economic justice and social reform. He is also a frequent magazine of the department, "Social Progress," co-editor.

Dr. Hall was for two years pastor of Christ Presbyterian Church in New York City, where he faced daily the problems of bad housing, unemployment, social inequalities, lack of recreational opportunities and other community problems found in an underprivileged area with a mixed population.

A leader in world-wide religious activities, Dr. Hall was director of the Youth Council of the World Student Christian Federation at its Quadrannual Convention in New York in 1935, a leader at the World Student Christian Federation in the latter states which was held in 1932 in Amsterdam, The Netherlands, and at the World Student Christian Federation conference in the same country.

"The Red Cross has never failed the American soldier. It has helped him to his hour of danger, it has sustained him in his hour of pain, and it has encouraged him in his hour of death."

Red Cross Relief Work Starting Here Extends Around World

Charity, sharing at home, now reaches round the world. The citizens of Carbondale who have contributed money to the Red Cross also may know that their help is bringing comfort to a human being in some far off place, according to Dr. N. S. Harvey, chapter chairman.

Supplies shipped from Jackson County Red Cross Chapter are a part of chapter produced and donated articles with an estimated value of \$10,000,000 which were shipped abroad last year. The chapter stated. Other sources of supplies include provisions from the United States government and direct expenditure from Red Cross funds.

Bill For Veterans Of World War II To Be Discussed Here

The Legion's Bill for Veterans of World War II in Congress calls for much action to aid disabled service men and women. The American Legion is sponsoring a series of lectures on the bill.

1. Opportunity to complete education.
2. Vocational training.
3. Hospitalization.
4. Prompt settlement of disability claims.
5. Employment opportunities.
6. Unemployment compensation.
7. Home and Farm Purchase.

One bottle will do us well. Two will do us better. Buy More War Bonds.

Maui at Auckland, New Zealand. Nov. 17—Left Auckland for

GREEN FIGS BY E. DUNN

POETRY IS THE SYNTHESIS OF MYTHS AND BISCUITS. —C. Sandburg The acceptance of Miss Mary Jane Rauback's contributions last week made way for a return performance. Co-Ed's Lament I dislike professors, We violently disagree; And I'll tell you exactly why They don't appeal to me. After final exams I go With whistled breath to hear My grades, and they always whiter Sweet nothing in my ear. The Reason There's something about a soldier That makes me feel like a fool; But you would think to see my wink When a sailor passes by! A Marine can leave me gasping If he catches me off guard, But when I catch my breath I'm acted to death And run back to the Navy Yard. They say about a sailor He's not the type to be true; A new face will take my place, So what? I'm like that, too! How I am representative of the faculty, Mr. Charles Patterson, music critic of ALBY Training School, has kindly written what we reprint here first appeared in WINGS OVER THE CLASSROOM, a collection of poems published by Harbinger House last fall. Mr. Patterson is a graduate of the Carnegie School of Music in Scotland, and is also studied at the Cincinnati Music Conservatory. Reveries of An Old Scot Through the magic of a fireplace, Conjured by the flickering flames, I see familiar faces. And I call them by their names; I see again the happy scenes, Where I lived across the sea; The new face from me the carols of life, And steal old age away from me. I can see the killed laddies Going proudly marching by, With their sporrans wigwagging. And glen-garried heads held high. Then I view old Scotland's hills, With their purple-heathered hue As they stretch through the colored haze, Their rugged beauty again I woo. I can hear the Scottish pipers On their bagpipes playing, As they play a lively melody, Or a plaintive, haunting lay; And the skirling of the bagpipers, And the strutting through the Glen; And the sounding of the pibroch. Are just as clear today as then. Now I see an ivied cottage, With a garden nicely planned; And a little, grey-haired lady, Stands and teckons with her hand; While a man of youth and vigor Hurries through the garden gate, But he never seems to reach her, Though I may sit and wait—and wait. In the grates the embers settle, Waiting for me to rise; My dream faces now have vanished, And a sigh comes long and deep; From my pipe I knock the ashes, From my cheek I wipe the tear, Yet I know that I am thankful To have those scenes all re-appear. Veterans Speak In Tuesday Chapel (Continued from page one) lego program. They are to build up any educational deficiencies, to give military training and to give the men practically \$1 so that all members can discharge

CAMPUS BULETINS

Mrs. Wesley Reynolds will return to the campus the first Summer Term to give two speech courses, Speech 230 and 316. Both courses count as a speech minor. During the absence of Mr. Howard E. Rooley, who is at present attending the University of Columbia for a semester's work, Mr. Emerson Hall will assign all Elementary Education majors. His office will be located in Mr. Bosley's office, and all requirements will be the same. Mr. Bosley will return to the beginning of the summer term. The Search has placed in the English office last week seems to have sprouted wings and taken flight. At least, it has disappeared. Therefore, if anyone had put material for the Search in the box, will he or she please turn in a duplicate copy? A new box has now been placed in the English office. Their duties in good order in the three of operators. Four Cokes and Two Herors They, Edw. J. Patterson, Kenneth, and "Cub" drinking cokes at Carter's. Gene went to the distinguished Flying Circus. Mr. Edw. J. Patterson is the Air Medal. Out in the islands one day a native missionary approached Gene, felt the muscles of his back, and said, "You're sick and fat, stay away from the island over there; they eat you." Gene had no intention of being sick, but he was so fat that that particular island. Charlie's most thrilling moment came when he was in the water trying to land the crippled plane; Gene says this was his first engagement with the "monkey" flyers. First Lieutenant Fry is in sick leave; promotions are in order for him when he rejoins his outfit. After voting the 9-3 on the "best dressed" plans for pursuit, the boys turned their attentions to the inevitable problem of which brand of the service is best. Gene is very fond of dining Pappy Boyington, leader of the Black Sheep, who to him is the best pilot in the world. He flew the Nips to come up and fight. He has tried the P-51 on the last war immortal Eddie Rickenbacker shot down 23 planes and four observation balloons (there will be an instructor on the west coast for awhile. . . . Not easily forgotten: Charlie's "best dressed" plan; Olan's engaging grin. . . . Both fellows were happy to see their relatives and friends, but now they are going away for action and homesick for their planes. . . . Happy landings.

FROM THE FILES

Mr. Boomer: How long has your eyes at an angle of 45 degrees? Call where are you looking? Call Greaser: (draaminc) No where. Pappy: "Do you think you could be true to one man for a lifetime?" Ruth: "I agree, could, but not to the same man." Why did Larry Spurlock have to pay 3 cents extra on the letter he received on Feb. 11, 1937? Ask her. Mr. Boomer: How long has the nice Mrs. Moses led the children of Israel out of Egypt? Student: Forty years. Gettin' Stud: Here, you girls are getting too thin. Lottie Whyte: Oh, I've been thick all my life. Chick All—What is the technical name for scurvy? E. H.—It bite. Gus—Sheet music. Senior (to Prep)—You're a green tomato. Prep—You're a ripe one and ought to be canned. Mr. Colyer to Mr. B. in Geog. Mr. B. wants to do you think that kind of a sewer would grow? Mr. B.—"Oh, up about the Rupture of Capteurs." Miss Mitchell: Who was Saunders Mitchell? E. H. Gilbert: He was a hachero who had been married and his wife died. Now have an sugar in your cupper? "T'would be the worst of crimes. Take just enough and notch it up." For these be striking times. Ray Pilsley—"Why can't they play cards in the navy?" Bill Warr—"Cause the suit-ers stand on the deck." Miss Newsum—"See here, Ruth, don't you ever sweep under this rug?" Ruth—"I always do. It's so much easier than using a dust pan." "Gracious, how close it is in here. Let's go out!" "But my dear, the orchestra will change the air in a minute!" Matron at Hall (consoling girl over it): "Come now, you will get over it. It was only a case of 'OUI'!" "OUI!" "D'uhut, He be as such a nice p-puppy!"

THE POLISH INTERNEE UNIVERSITIES IN SWITZERLAND

With Polish higher education completely destroyed by the Nazis, Poland would be largely without post-war leaders but for a remarkable educational scheme in Switzerland. This report comes from the World Student Service Fund, the student war relief agency which is a part of the National War Fund. The students of the Polish Science Division of Alpius troops, after the defeat of Poland, left their country to fight with the armies of France. After a short and tragic campaign which ended in the fall of France, the Polish soldiers again crossed a frontier to Switzerland, where according to international law they were interned for the duration. Practically all were given agricultural work. The World Student Service Fund's committee in Geneva, realizing that there must be many students among the internees, made a survey of the camps. There were more than a thousand former students or would-be students, who were anxious to study. The Swiss authorities, agreeing, four special camps were established as "internee universities." Men of all ranks were transferred to the schools to continue their studies. These were located at Fribourg, Winterthur, Strinach, and Burgorf. A description of the Fribourg camp has recently been sent from Geneva. At the first the more required to live outside the city and a number of Swiss professors conducted the lectures. Now, with complete confidence in the program, the authorities permit the students to live in the university hostel on the city. The most beautiful and most modern in Europe. A number of Polish professors and scholars were among the internees, so out of their own number have come some of the professors. Work is undertaken in law, geology, liberal arts, and medicine. Special problems arise for students of law, for they must know the law and local terminology of Poland. Parallel or complementary courses to those offered in the Swiss university are therefore offered for the Polish students. In effect, these Polish internees attend two universities at the same time, one Swiss and one Polish. Some students carry forty-eight hours of courses a week. The degrees of the Swiss

RECOGNITION

Miss Dorothy Davies, acting head of the Women's Physical Education, has been selected as National Chairman of the Speedball Committee of the National Section of Women's Athletics of the American Association of Physical Education and Recreation. As chairman of this committee, Miss Davies is selected for a term of three years and is also selected as editor of the Official Guide and Rule books. Dr. Marie A. Hinrichs, head of the Department of Physiology and Health Education, has been asked to present a paper, "Cold Prevention and Anemia Correction Programs at Southern Illinois Normal University," before the Research Section of the Mid-West Physical Education Association, which is affiliated with the American Association for Health, Physical Education and Recreation. Dr. Hinrichs also has an abstract entitled "Nuclear Fractionation of Polymorphs Following universities will be recognized by the Polish authorities as on a par with Polish degrees. The library of the internee university has grown to 2200 volumes, which supplements the regular library of the university of Fribourg. Forty courses have been mimeographed for use in the camps for men of less than university rank. Many of the students, after getting their degrees, return to the camps to teach their fellow-countrymen. The Polish students have intentions into the life of the Swiss, and some of their own trade-university, such as the Polish custom of standing when the professor enters the lecture room. This custom has been adopted by the whole student body. The Poles have made an excellent opinion of their country, which already existed in Switzerland. Financial contributions to make possible the Polish internee camps here come from Polish American groups. American students have played their part through the World Student Service Fund. Cooking the Axis Goose Southern Style PLANES, tanks, guns, ships, munitions, flowing from Southern industry, are literally writing the history of Axis defeat on every battle front. . . . cooking the Axis goose—Southern style! Blazing blast furnaces, giant steel mills, enormous tin plate plants, and enormous fabric and finisiers of iron and steel products in five Southern states served by the L & N Railroad have furnished a large portion of the Nation's contribution of essential production to this great war. A mighty train of 112,000 cars, crowding the L&N main track from Cincinnati to New Orleans, 950 miles, would carry only a part of the annual Southern production of steel and its products. Hordes of additional trains, stone, coal, coke, manganese and other things essential to steel manufacture. This constitutes a miracle of production and transportation—Free Enterprise at work in Southern industry and railroad transportation—any other nation or any other form of government match such performance? In peacetime times the growth of the South has been constant if not so spectacular. No agency has contributed thereto more than railroad transportation. None will do more in the future. The L&N, the Old Reliable, hopes to keep moving the facilities and service and thus merit the good will and patronage of its people. LOUISVILLE & NASHVILLE RAILROAD BUY WAR BONDS FOR VICTORY
