Leisure Time
Is Panel Topic

Five faculty members will discuss “Learning to Live With the Challenge of Leisure” at 6:30 p.m. today in the Creatures of the Wham Education Building.

They are George E. Astell, professor of educational administration and supervision; John G. Martin, associate professor of recreation and outdoor education; and Loren E. Taylor, assistant professor of recreation and outdoor education.

The Department of Recreation and Outdoor Education is sponsoring the discussion to acquaint people with various means of using leisure time.

Two Top Teams
In Scholar Quiz
To Get Trophies

Winners of the Scholar Quiz will receive trophies at the meeting of Off-Campus Householders at 7:30 p.m. Thursday in Room C of the University Center.

The team from Woody Hall placed first in the contest, with the Egyptian Sands Residence Hall placing second.

Members of the first-place team are Barbara A. Beebe, captain; Mary E. King, Janet Off-Campus Householders at Leisure Time

Winners of the Scholar Quiz will receive trophies at the meeting of the Off-Campus Householders at 7:30 p.m. Thursday in Room C of the University Center.

The team from Woody Hall placed first in the contest, with the Egyptian Sands Residence Hall placing second.

Members of the first-place team are Barbara A. Beebe, captain; Mary E. King, Janet E. Trapp, Mary J. Steck and Georgia C. Bellmeier.

The Egyptian Sands team includes Morris J. Davis, captain; Fred D. James, Larry Busch, Charles Galaka and Tom Hackney.

Housing Office Urges
Signing of Contracts

Johnson, W. B., supervisor of contracts at the Housing Office, urges any senior who has not yet submitted a request for contracts to contact the Housing Office immediately.

Marriage, University Style
Requires Realistic Approach

By Pam Gleaton

Second in a Series

Marriage and television sometimes imply that the way to solve all your problems is to get married. Then you are sure to live happily ever after.

Of course, this kind of ending, where the hero and the heroine fall into each other’s arms, wearing undying love, is something more than a fairy tale.

Marriage can be just the opposite, says George E. Carpenter, associate professor of home and family. It is often a process to expose all the faults in someone you had believed to be perfect.

Johnson Announces Troop Pullout

WASHINGTON (AP) -- President Johnson announced Tuesday he is ordering the withdrawal of another 2,000 U.S. Marines from the Dominican Republic, but he said the Communist threat there still exists.

Johnson told a news conference that the troops have not been active since he sent them in U.S. forces April 28 amid rebellion in the Caribbean country. And the commanders on the spot have recommended the troop reduction now, he added.

But while “more moderate forces” have returned to the Santo Domingo insurgency, he said, the Communists had been “active and in a good many cases... in charges of... and the Reds are still present there and their handiwork can be public and elsewhere throughout the world,” he said.

The 2,000 Marines that Johnson is withdrawing from the Dominican Republic are in addition to the approximately 5,400 men withdrawn through last weekend.

The present total of Army paratroopers and Marines now there is about 16,000.

At the peak of the U.S. intervention, there were 21,800 U.S. military personnel in the Dominican Republic, officials said.

Johnson made the announcement of the new withdrawal at a news conference, his first since April 27. The following day--April 28--was when he first ordered in the U.S. forces.

The Marines now being pulled out include one battalion plus headquarters personnel, totaling about 2,000.

The President said “there is no situation in the Dominican Republic today that is any more public than a more moderate person, totaling about 2,000. The President said “there is no situation in the Dominican Republic today that is any more public than a more moderate person, totaling about 2,000. The President said “there is no situation in the Dominican Republic today that is any more public than a more moderate person, totaling about 2,000. College Marriages Require Understanding
To Solve Equality and Financing Problems

(Continued from Page 1)
college marriages, Carpenter said that perhaps the two biggest problems were in financing and equality. His advice on financing is that if a couple are mature enough to marry, they should be able to support themselves and not have to depend on their parents.

Another financial problem arises when a man is trying to rear a family and work on a doctorate at the same time. He is often pressured to quit school and take a job. Sometimes he does this intending to return to school, but he seldom returns.

Equality is a more complicated problem. Carpenter says this develops when one mate completely dominates the other. In college it usually takes the form of the man not wanting to accept the fact that the college girl considers herself his intellectual equal.

No woman minds admitting that her husband can over-power her, but when they have equal schooling, she does not want to be over-brained too.

Today's Weather
WARmER

Partly cloudy and warm today with showers and thunderstorms affecting the area. Highs in the 80s. The record high today, according to the Weather Laboratory, is 97 in 1911. The record low was 40, set in 1931.

George Carpenter

Another problem of equality is with a wife working to put her husband through school, sometimes at the expense of her own education. She may feel she is merely using her to get an education.

A lesser problem of the college marriage is the adjustments that must be made concerning recreation. Although this does not sound too important, many problems can arise if the wife still enjoys "bene" parties too much or if the husband likes to go out with the boys more than staying home.

Most married students tend to go out with other married couples. Usually, though, they are too busy trying to get through school to spend much time at the beach, movies or local club.

Carpenter then listed some problems common to all marriages. One is that couples often get married with the idea that they can change their mate's habits after marriage. Often these changes, if made at all, rebound, causing the original habit to come back stronger at the expense of the new one.

The new wife may also find that when she wants romance, soft lights and dance music, her husband has to finish tomorrow's homework or go to work in order to make ends meet. Although this problem is prevalent in marriages that have lasted a long time, as well as in new ones, it is the new wife who notices it most. She then begins the "you don't love me anymore, or you would pay more attention to me" argument.

Carpenter feels that the way to avoid major problems during marriage is to discuss and plan such things as finances, family, religion, personal opinions and who will be "boss" before getting married. (Carpenter feels there should be no definite boss.) On the whole, he says that college students are realistic about marriage. If they get married while still in school they are usually able to make the necessary adjustments.

Being realistic does not assure smooth sailing, though. The couple should begin marriage with open minds, awareness of each other's faults and a willingness to work out problems as they come up.

'It's the Big Ideas'

Study, Organization and Logical Thinking
Make Success Formula for Academic Whiz

By Jesus S. Carlos

What makes a student attain academic excellence way above thoroughly ordinary? Is it genius? A super IQ? A photographic memory? Sara O'Neil, a senior majoring in government, possesses all these and then some. Yet she placed second to Mary Middleton in a neck-and-neck race for the Little Grassy campus, where, for the 15th year, University Students spent a week camping and going to classes.

Sara looks, talks and acts much like any SIU coed. She wouldn't stand out conspicuously in any crowd but for her above-average height. No recluse, she goes out for dances, sunbathing and campus concerts and socials.

What will she do after graduation?

"I have no idea what to do after graduation; no definite plans. I may go to law school or to Turkey," she said.

The Professor's Apprentice

First and ignores the minor ones if pressed for time. She said she did study much during last term but did study hard for the finals. Sara compiled a 5.0 general average.

In a field of study where participation in class discussion comes in handy, Miss O’Neil’s voice is in demand. When it is, it’s usually in answer to a question, “I listen,” she said. Still, one of her professors, obviously at a loss for adjectives, commented “She’s the best.”

Sara looks, talks and acts much like any SIU coed. She wouldn’t stand out conspicuously in any crowd but for her above-average height. No recluse, she goes out for dances, sunbathing and campus concerts and socials.

Activities

Student Week Leaders, Judo Club Meet Today

Trombone on campus are invited to at-tend Thursday

Kappa Omicron Phi will meet at 7:30 p.m. in Room 107 of the Home Economics Building.

Pi Sigma Pi will have a display from noon to 5 p.m.

Foreign Students’ President Council

The Inter-Varsity Christian fellowship will meet at 10 a.m. in Room C of the University Center.

Student summer school by the presi-dent will be at 9:15 in Browne Auditorium.

The possible creation of a department of dance at SIU will be the subject of a lecture, demonstration, and discussion held at 8 p.m. Thursday, in Furr Auditorium.

Meet Your Professor Night

William Horrell of the department of dance at the University Center will be at 9:15 in Browne Auditorium.

Meet Your Professor Night

Nine graduates of the SIU Vocational–Technical Insti-tute’s class of 1965 were honored for scholastic achievement at a dinner–dance held last Friday in the Egyptian Room at the Marion Travelodge.

The nine were given gift certificates for SIU class ranks by Harry Sodroskirom, VTI student council adviser. All had grade point averages of 4.7 or better.
Life versus Nationalism

In reply to Mr. Stephen Gilliatt’s article “Organizations for World Peace” (Ka, May 10, 1965), I should like to submit this short essay in the hope that Mr. Gilliatt’s nine-teen-year-old Century pacifist sermon can be damned. Since he still holds the Victorian belief that “military service in defense of your nation is an unpardonable venial sin” (his version), I doubt that the following will be of much help to him. One can, I suppose, always hope for miracles, as he does.

Had Albert Schweitzer lived 2,000 years ago, he would have been branded as a heretic and his philosophy would have been transfigured into a meaningless, less religious dogma by centuries of ignorant fanaticism. Portrayed in the eyes of nationalism, however, Schweitzer is a modern man; his works will not be perverted by some altruist who, like Albert Schweitzer, man sees his ethic to others and threatens to destroy himself in the process. Taking this practical ideal of “reverence for life” into consideration, we find that the epitome of morality, modern barbarian and unethical nationalism.

The word, what Schweitzer calls “an evolution of ethics,” has reached a point where his existential ideas are incompatible with his uncontrolled system of government. Nationalism not only usurps the ethical atrocities is nonexistent. The nation-state, however, I doubt that nationalism in the final stages of operation (De Bono’s definition) is the fact that about 96 per cent of the students themselves desired a change in the structure of the Student Council, (The reader will recall that the referendum on the referendum ballot was a sex-plement alternative A (A represents Goldspender) while alternative B is the fact that about 90 per cent of the student body boycotted it. The question must be asked: Why? Was it because of apathy? My answer to the second question was: Why the apathy? It couldn’t be because of cynicism, could it building.

Whatever the reason or reason for either alternative A or B. The students’ choice was a sex-plement alternative A (A represents Goldspender) while alternative B is the fact that about 90 per cent of the student body boycotted it. The question must be asked: Why? Was it because of apathy? My answer to the second question was: Why the apathy? It couldn’t be because of cynicism, could it?

In Crime Probe

Giancana Locked Up
For Not Testifying

CHICAGO (AP) - The reputed head of syndicate crime in Chicago was jailed Tuesday for refusing to talk to a grand jury even though it could not indict him.

Momo Sam Giancana, 57, did an about-face inside the U.S. grand jury chamber minutes after promising a federal judge he would "completely, fully and truthfully" answer the judge's questions. In two major agreements had agreed that Giancana would be immune to prosecution.

Gemini, Pilots
Reported Set

CAPE KENNEDY, Fla. (AP) - Command pilot James McDivitt and space navigator Edward White will be ready for a Thursday launch on a marathon space journey.

"We've got a good spacecraft," said McDivitt following a two-hour review of the mission. "And it looks to me like we are going to have a good mission. We're ready," he told Mission Director Christopher C. Kraft.

"We couldn't look better," Kraft said.

The astronauts were given an excellent bill of health. Their spacecraft and booster were pronounced fit.

If all basic checks were okay, McDivitt and White will lift away at 9 a.m. Thursday, according to a three-hour revision in the project.

Withdrawal of Marines
Underway in Dominican

SANTO DOMINGO, Dominican Republic (AP) - Withdrawal of 2,100 more U.S. Marines from the Dominican Republic began Tuesday on President Johnson's order.

The Marines, plus 1,700 service personnel and their equipment, will be replaced by the Leathernecks at various checkpoints.

In announcing the withdrawal, President Johnson told a news conference in Washington that while a Communist threat still exists, the Reds have not been as active as when he sent U.S. forces in April.

The new withdrawal-expectations to be completed today — will cut the Marine force here nearly in half to 2,100 troops. After Johnson's announcement, large and small equipment-tanks, jeeps, heavy weapons — began disappearing from the Dominican Republic.

In addition to the 2,100 remaining Marines, 14,200 paratroops will be left in the Dominican Republic.

Santo Domingo, all of them integrated in the Organization of American States force with 1,500 Latte troops.

Before Johnson's announcement, large and small equipment — tanks, jeeps, heavy weapons — began disappearing from the Dominican Republic.

Committee Approves
Randolph Appointment

SPRINGFIELD, Ill. (AP) - The Illinois Senate Executive Committee endorsed Tuesday Gov. Otto Kerner's appointment of W. Russell Shoemaker, Chicago's American Legion Post 71, as assistant director of the Illinois Public Safety Department.

The high tribunal ruled Tuesday the Illinois Supreme Court has removed a major hurdle to agreement on legislation.

The high tribunal ruled Tuesday the Illinois Supreme Court has removed a major hurdle to agreement on legislation.

Mayor Richard J. Daley of Chicago, a Democrat, said he was more confident now ever the legislature will produce a fair reapportionment.

"The courts shouldn't enter into the drawing of the lines," Daley said in emphasizing the job rested with the legislature.

The key issue which has deadlocked reapportionment negotiations turned on demographic data which that some Chicago districts extend into the Cook County suburbs.

Most Democratic legislators Tuesday endorsed a re-drawn plan which started a week's study of a population basis for reapportionment.

"We realize that to reach an area of compromise you have to give and take," Shoemaker said.

Rep. Paul Elward of Chicago, Democratic whip, agreed the legislature will not reapportion districts on a population basis conforming to one-man, one-vote, the lawmakers faced the prospect of running at-large next year.

House Democratic leader Clyde Chohet of Ann said he felt all along the legislature will reach agreement.

"We realize that to reach an area of compromise you have to give and take," Chohet said.

The Associated Press made a survey of such deaths during last week.

474 Die in Holiday Traffic

By The Associated Press

The National Safety Council, moved by the "shocking high" Memorial Day weekend traffic toll, urged motorists Saturday to sharpen their driving skill.

Tuesday, 474 men, women and children lost their Lives in motor vehicle accidents over the Memorial Day weekend.

Then it rained. Army engineers revised the crest to 365 feet. Wary railroad engineers worked on, but the rain came. It saw a loss and a half of water over top of the rail.

It was then that the light traffic. The rain cleared up. Then traffic slowed down. Then traffic cleared up. Then traffic slowed down.

The railroad management gambled. It put men and money into raising the line to 25 feet. Maintenance crews moved in. Hundreds of cars poured down the back ballast. Pants with ten attached were moved into position. The river looked better.

Up river the cresting flood rolled southward. Old Mill River sprawled over the shoulders, piled the town, flooded the flat bottoms.

At Chadbourn, where the Illinois Central leaps the Missouri, the engineer said, "I have put water three feet over the Illinois Central's lowest line.

So railroad management gambled. It put men and money into raising the line to 25 feet. Maintenance crews moved in. Hundreds of cars poured down the back ballast. Pants with ten attached were moved into position. The river looked better.
The new SIU baseball diamond will be brimming with activity this week when the four teams competing in Thursday's NCAA regional tournament will be working out.

But the only team to pass up the chance to get used to the foreign field—Western Illinois—may be one of the teams making the most noise before the tournament's start. With dis­

The Leathernecks won the Intercollegiate Conference Championship with a 10-2 record and posted a 21-6 mark overall.

Ohioans Come Early for Tourney

Ohio Wesleyan, SIU's opponent in the Regional Baseball Tournament Thursday, was the first visiting team scheduled to arrive. The Ohioans were expected in Tuesday night.

The other visiting teams are to arrive today. University of Illinois will be in sometime before 4:30 p.m., when it is scheduled to work out on the SIU diamond, and Western Illi­niis is expected in late to­

Five-Speed Scoring

500 Scoring Is Protested

INDIANAPOLIS (AP) — Temperatures were again Tuesday at the Indianapolis Motor Speedway. The protests were filed after the official finish posted Tuesday morning. Both were disqualified.

Cline Brawner of Phoenix, Ariz., crew chief for Mario Andretti, who will participate in the race, said that the protest was filed because Andretti's place, charged that Parnelli Jones' crew pushed his car to start the engine after one pit stop.

The rules require mechan­i­cians starting only, with dis­

The second protest involved fourth place.

SALUKIS, As Defending Champs, Say, 'We're the Team to Beat'

SIU's baseball players started down the homestretch Tuesday in their bid for another regional championship for the second year in a row.

The Salukis ran through what was probably the last full practice session of the season late afternoon. The main emphasis was on hitting, but there wasn't anything particularly different about the two­

The Salukis are strikingly different. Two years ago, the team basically a young team. It had a great regular season (21-1) and was invited to play in the regional, Jackson, Tenn. But the team didn't expect to win.

As veteran third baseman Bob Bernstein put it Tuesday, "Last year we just went down there with the attitude that we'd be out of course what it would happen.

But things have changed. The fact that the Salukis won by far and away had six of its regulars returning was enough to upset the card a little.

This year the Salukis are going into their regional and regional tournament against Ohio Wesleyan with the attitude, as veteran Pitcher John Horz put it, that "we're the team to beat and some one's going to have to prove us wrong."

It's not a cocky attitude. It's a confidence based on experience mixed with re­

Bernstein said, "We know we're going to have to play good ball to win."

That's the general attitude of the players. They respect the other clubs, but they're not always out to win.

Whether the Salukis' predi­

SIU Freshman Wins Singles, Doubles Titles in Open Meet

Joe Brandt, a freshman at SIU and Puerto Rico’s second-ranking tennis player, won the Independence Open tennis tournament at Kansas City, Kan., over the Memorial Day weekend.

Brandt made it to the quarterfinals by defeating Gary Brum of Kansas City in the first round 6-0, 6-3, and defending champion Allen Crute of Kansas City is the second round 6-1, 6-7, 7-5.

In the quarterfinals Brandt won over Larry Cooley in two sets 10-8, 6-4 to earn a spot in the semifinal matches.

Pacho Castillo, No. 2 tennis player for SIU last year, was his opponent in the semifinals. Brandt advanced to the finals by disposing of his former teammate 6-0, 1-6, 9-7.

In the finals Brandt defeated the Big Eight tennis champion, Jim Burns, of the University of Kansas, 6-3, 9-7.

Brandt was also successful in the doubles matches where he teamed up with Castillo to win the doubles championship.

Brandt plans to remain active in tennis over the summer. He will go on a summer tennis tour through the United States and Canada with Castillo and another teammate, Al Pena.

He is ‘Prof of Year’

James I. Costigan, an SIU graduate, has been elected Professor of the year” at Fort Hays State College in Hays, Kan.

Costigan received his master’s degree from SIU in 1965. He is assistant professor of speech and debate coach at Fort Hays State.

A Memorable Memorial Day

How Do You Beat Michigan’s Jim Swift(y)?

Ask SIU’s Tennis Players (Un-)Lovingly

How do you hear Jim Swift at tennis?

This was the question three SIU tennis players were asking themselves after Swift had eliminated all three in the Memorial Day tennis tournament at Evansville, Ind., Monday.

Swift, who won the tournament, is a tennis player for the University of Michigan and the second top tennis player in the Big Ten Conference.

Jose Villarete, a freshman tennis player at SIU, was the first to feel the sting of Swift’s serve. He lost to Swift in the quarterfinals 6-3, 6-3 after defeating other opponents in the first two rounds.

Mike Sprengelmeyer, also a freshman tennis player at SIU, was the next victim. He reached the semifinals before he met Swift, but the results were nearly the same as against Villarete. Sprengelmeyer lost to Swift in two sets 6-1, 6-4.

Bob Sprengelmeyer, a former Saluki and older brother to Mike, was Swift’s last victim.

Bob put up a struggle, but still lost to Swift in three sets 6-7, 7-5, 7-5.
