## Torn Books Get Special Skill

From "The Bo Knews," student newspaper at Bowling Green (Ohio) State University, comes the following story:

With college "cribbing" as a major issue of the day—this story from a Mid-western university. It seems that a student had arranged to sit by an open window during a finale examination. The plan called for his roommate to arrive outside the window, pick up the exam, take it back to the room, fill it out, and return the completed exam before the end of the hour.

With only several minutes remaining, the dufful roommate reappeared, slipped the finished test back through the window, and left. The "cribber" turned in the exam and waite of out.

Next day he was called in by the professor to explain how his test had been TYPEWRITTEN.

Todd, indus-trial agent for the Baltimore and Ohio Railroad, will talk at the opening session in the morn-ing.

## **Editors' Opinions**

Snow, Snow, Snow

Snow, Snc
The campus is a gleaming,
sparkling, white picture! The
flaws of rough earth, dead trees
and broken walks are covered
with a freeting of snow. It is
a beautiful sight; even though
it is very difficult to wade
through to classes. And it can
be a dangerous place!
Snowballing is an adventure
to young and old... especially
to college sutdents. But there
should be a little "common
sense" and careful actions combined with the fun of a snow
fight. Already there have been
several accidents resulting from
snowballing. One thing to remember is "what is being
thrown." Snow jis not too harsh,
on the person it hits...but
rocks and ice are. Be careful
where you aim... It is just as
trilling to hit someone in the

OSA Hos.

**OSA Has Hotel Plans** For Vacations

Students who plan to get way from it all by taking a and by taking a pung vacation may secure ho tel lodging plans from the vities Develor

spring vacation may secure ho-cel lodging plans from the Acti-vities Development Office.

Miss Elizabeth I. Mullins, co-ordinator of student activities, has, recommended hotels an di-their rates from the major cit-ies of the U. S. Also on file in the ADO are vacation plans and tours for skiing enthusiasts. Faner, specialist in American literature, is to lecture on Walt Whitman. His invitation to talk at the Sorbonne is considered a top honor.

He is spending the 1959-60 school year as a Fullbright lecturer at the Universities of Aix-Marseille and Grenoble. The SIU professor is the author of "Walt Whitman and Opera," published in 1851.

Memorial Day holiday is Mon-

EAT, DRINK AND BE MARRIED

m a recent tour of seventy million American colleges, I was nuck by two outstanding facts: first, the great number of udents who smoke Maribono, and second, the great number students who are married.

smokers—comes as no surprise for, as everyone knows, the sollege student is an enormously intelligent organism, and what sould be more intelligent than to smoke Marlboro? After all,

leasure is what you smoke for and pleasure is what Marlboro

pleasure is what you amoke for and pleasure is what Maribore delivers—pleasure in every pulf of that good golden tobacco. If you think flavor went out when filters came in —try a Maribore. Light up and see for younself...or, if you like, don't light up. Just take a Mariboro, unlighted, and puff a couple of times. Get that wonderful flavor? You bet you do! Even with-out lighting you can taste Mariboro's excellent filter blend. Also you can make your package last practically forever. No. I say, it' was not't file great number of Mariboro smokers that astconded me it was the erest number of married students.

No. 3 say, it was not the great number of Mailtone mokers that astenumded me, it was the great number of married students. You may find this hard to believe but latest statistics show that at some coeducational colleges the proportion of married undergraduates runs as high as thirty percent! And, what is even more starting, fully one-quarter of these marriages have been blessed with issue!

Here now is a figure to give you pause! Not that we don't all love babies. Of course we do! Babies are pink and fetching rascals, given to winsome noises and droll expressions, and we all like nothing better than to rain kisses on their soft little skulls. But just the same, to the young campus couple who are

and a twist of temon peel.

First of all, we will take up the matter of diet. In the past, babies were naised largely on table scrape. This, however, was outlawed by the Smoot-Hawley Act, and today babies are fed a scientific formula consisting of dextrose, maltoce, distilled water, evaporated milk and a twist of lemon particle. After scaine, the baby tends to grow sleepy. A fullaby is very sesseful to help it fall asleep. In case you don't know any luilabies, make one up. This is not at all difficult. In a fullaby the words are unimportant since the baby doesn't understand them anyhow. The important thing is the seound. All you have to do is string together a bunch of noneene syllables, taking care that they make an agreeable sound. For example:

Go to sleep, my little infont,
Googoo moo-moo poo-poo brights.

Having fed and serenaded the baby, arrangi it in the position for siumber. A baby sleeps best on its stomach so place it that way in the crib. Then to make sure it will not turn itself over during the night lay a soft but fairly heavy object on its back-another baby, for instance.

And when baby is fast asleep—the little angel!—why don't you relax and give yourself a treat? With Mariboro—or if you like mildness but you don't like filters—with Philip Morris made in long size and regular by the sponsors of this column.

ting the same, to the young campus couple who an the first time the baby is likely to be a source of the worry. Therefore, let me devoke today's column elpful hints on the care of babies.

SIU PROFESSOR SPEAKS IN FRANCE

SIU English professor Robert Faner has been invited to give a

lecture Tuesday at the Univer-sity of the Sorbonne, France. He is now in France as a Fulbright lecturer.

how, Snow, back at it is to hit them in the face... and much safer!

Hanging on the back of a car and alling down a street can be very exciting... but a mangled cruished body in not a preity sight. There is a difference between fun and caroless, down-right stupid stuniar leading the soney conditions. The major rule is difference between fun and caroless, down-right stupid stuniary conditions. The major rule is difference between fun and caroless, down-right stupid stuniary conditions. The major rule is difference is a machine that just deem! is on key reads, so watch it to on key reads, so watch it was a street when cars are on it... the property of watch it is not to be a property of the second of the property of the second of the second
