Last Game Could Be Real 'Shocker'

★ ★ Edwardsville Student Poll Wants Sports

Should the Edwardsville campus have an intercollegiate athletic program?

"Yes," is the resounding answer given by students polled recently, the Alestle, the Edwardsville campus newspaper, reported.

While most of them agreed that for the present it would be impractical to consider football, they indicated they would favor such intercollegiate sports as track and field events, golf, tennis, wrestling, basketball, gymnastics, soccer and fencing.

"I think intercollegiate athletics are a must," one student said. "A campus this size should have them. If we don't, I think the talent we have in this area will be lost."

Other students said: "There are a lot of good athletes in the high schools in this area, and they want to pursue a career in sports. They could come to SIU, but they will probably go elsewhere so they can participate in intercollegiate sports."

Another said, "I would like to see them started on the Edwardsville campus. The Carbondale campus has them. I am particularly fond of basketball and would like to see it here at Edwardsville."

"I feel if intercollegiate athletics were started, it would be another way the University can grow," said one student. "They have changed the seal and this would be another change which would help the campus grow."

One student said, "I played football in high school and there seems to be a lot of interest in sports in the area. With all the junior colleges starting in Missouri, there should be a lot of competition in the area."

"I think we ought to have intercollegiate athletics at Edwardsville," another student said. "There would be more interest in the school. There are a lot of kids who had them in high school, and when they get here, they miss them."

One slightly dissenting student said, "I feel that academic studies should come first, but I would like to see football on the Edwardsville campus."

Q's, A's of Service Test Given

Here are some pertinent questions and answers about the new Selective Service college qualification tests.

Q. Who can take the test?
A. Any student currently in college or any youth who plans to enter college in the fall.

Q. What does the test mean?
A. It will not keep a youth out of the service. But the results will be used by local

MORE SOUTHERN ROYALTY—In a rash of "queen" contests, two coeds and the wife of a basketball player have been honored for their beauty, charm and talent. They are Mrs. Diana Lee, wife of basketball player Dave Lee, who

was named Mrs. Southern; Margaret (Peggy) Ennis, who was picked as this year's "Off-Campus Sweetheart," and Carole Young, who was named "Sweetheart of Kappa Psi."

2-S or 1-A?

Students at Mercy of Local Draft Board If College Withholds Grade Information

College officials who choose to ignore the Selective Service boards by refusing to supply needed information will put student deferments at the mercy of the draft boards.

So said John H. Hammack, Illinois Selective Service director, as he explained last week that without academic information and the results of

the new student qualifying examination, there is no method on which draft boards can base deferments.

Recently, educators in New York and New England states have protested against providing draft boards with information.

Seven professors at Brandeis (Mass.) University said

they might quit giving students' grades if deferments were being cut because of low grades and class standing.

Harvard University Dean John U. Monro said he would withhold academic information from draft officials if students so requested.

Draft board decisions on student deferments will be aided by the new voluntary qualifications tests to be given nationwide May 14, May 21 and June 3, according to Hammack.

The qualification tests will be one of the factors used by local boards to determine if a youth will receive a 2-S or a 1-A classification. The draft board can determine whether to use the test results or the present class rank more heavily when considering the deferments. Currently there are more than 110,000 Illinois students classified as 2-S,

according to Hammack.

draft boards to help them determine who can receive a 2-5 college deferment.

Q. What is the passing grade?

A. No passing grade has been determined. Local boards will use the scores, along with information about class ranking, to decide on a deferment.

Q. Why should anyone take the test?

A. Because it will supply the draft board with more information on which to base its deferment decision.

Q. Where will the test be given?

A. The national Selective Service office will determine the locations in Illinois during the next several weeks.

Q. When will the test be given.

(Continued on Page 15)

Wichita Is Tough On Home Boards

The Salukis will be hoping to close their regular season on a successful note at Wichita State, tonight at 8 o'clock. The Salukis will be out for victory No. 19.

The Shockers have experienced surprising difficulty this year, despite starting the season as one of the top five teams in the country after a 100-94 upset of Michigan. Since then the Shockers have faltered and now stand at 14-9 for the season—third behind Cincinnati and Bradley in the Missouri Valley Conference.

Included in their nine defeats is a stunning 89-68 loss to Southern, which helped elevate the Salukis into national prominence over Christmas.

That game was played on the SIU court, where the Salukis are almost unbeatable. But this game will be played at the Wichita Fieldhouse, where the Shockers have phenomenal success. This year they have played only one home game before fewer than 10,000 persons.

The high-scoring Shockers will probably go with a starting lineup similar to the one they used here in December. This would have Jamie Thompson and Warren Armstrong at forwards, with Melvin Reed at center and Kelly Pete and Lillard Harris at guards.

Thompson, a 6-3 junior, is leading scorer with an average of about 23 points. High-leaping 6-2 sophomore Armstrong is next at 16 points a game and leads the Shockers in rebounding with an average of about 11.

Reed and Pete are both averaging about 15 points and seven rebounds a game. Reed is the big man on the squad at 6-5, while Pete, a 6-1 guard, is tough on both defense and offense.

Six-footer Harris is averaging about 10 points, but may be lifted for 5-10 John Criss, a fancy ball-handler.

The early loss to the Salukis was the start of Wichita's trouble. It had won four straight before that contest and has played only a little better than .500 ball since.

Gus Bode

Gus says he's against changing the University seal because his official beer mug will be outdated.

Spring Advisement Deadline Nears

At the present time advisers have openings for students who either missed their previously scheduled appointment or did not have one.

If students postpone their

preregistration until the last week, there may not be sufficient appointments available.

Students are reminded that there is no time set aside for presently enrolled students to register at the beginning of spring term. All students must preregister.

Mathematics Fraternity Plans Meeting Today

PI Mu Epsilon, mathematics fraternity, will meet at 8 p.m. today in Room 210 of the Wham Education Building.

The program will include a film, "Kakeya Problem." All members and interested persons are invited.

from 8 a.m. to noon Saturdays, through March 26.

William F. Price, coordinator of the Little Grassy facilities, has set summer wages at from \$30 to \$54 a week, plus room and board, depending on the worker's experience. About 75 men and 55 women are needed.

The work will last most of the summer quarter, and workers will live in a cabin complex at the camp.

Little Grassy facilities include 6,000 acres of land at Little Grassy Lake, seven miles southeast of the campus. The camp will hold four sessions, with 252 persons attending each session.

The UCPB special events committee will meet at 8 p.m. in Room C of the University Center.

Arnold Air Society will meet at 9 p.m. in Davis Auditorium in the Wham Education Building.

Gamma Beta Phi, education service society, will meet at 9 p.m. in Room B of the University Center.

Registration For LA&S Advised Now

Students planning to transfer into the College of Liberal Arts and Sciences this term and then preregister for spring in the College are advised to transfer immediately.

Appointments for spring registration are still available, but no appointments will be made to register students for spring who petition into the College after March 11, according to Pat Benziger, chief academic adviser for Liberal Arts and Sciences.

Registration appointments will be given during the final week of preregistration only as long as they last on a first come, first served basis to students who have already transferred into the College.

A student must transfer out of General Studies if he has completed more than 95 hours of work.

Gemini Space Films To Be Shown Today

Two films of Gemini space missions, and a speech, will be presented by Arthur H. Bay, senior group engineer of McDonnell Aircraft Corporation's Space Laboratory, at 10 a.m. today at Shryock Auditorium.

The films are "What It's Like on the Outside," showing Major White's extravehicular activity, and "Gemini 7 Rendezvous Filmed From Gemini 6."

Bay has been employed with McDonnell for 6 1/2 years and is associated with the aircraft and spacecraft systems testing. The Spacecraft Laboratory is responsible for testing each Gemini spacecraft under altitude conditions prior to delivery to the National

Aeronautics and Space Administration.

A graduate of Ohio State

ARTHUR H. BAY

University, Bay holds a bachelor's degree in mechanical engineering and a master of science degree.

The program is sponsored by the Department of Aerospace Studies and is open to the public.

Panel to Discuss Business Ethics

"Why Ethics Are Ineffective in Business Today" will be discussed at 7:30 o'clock this evening in Muckelroy Auditorium.

Panel members will include Arthur E. Prell, director of the Bureau of Business Research; Lewis E. Hahn, research professor of philosophy; Donald G. Hileman, associate professor of journalism; the Rev. Edward L. Hoffman, pastor of the First Methodist Church; and Gola E. Waters, lecturer in management.

The panel will be moderated by Waters. A question-and-answer period will follow.

The event is being sponsored by the SIU chapter of the Society for the Advancement of Management. The public is invited.

SIU- Wichita Game to Be On WSIU at 7:55 Today

"Saluki Warm-Up" at 7:45 p.m. will provide the background information on tonight's basketball game between SIU and Wichita State.

The play-by-play begins at 7:55 p.m. on WSIU Radio.

Safety Measures Urged for Cycles

The quiet figure of a human being motionless in the street with a crumpled and twisted motorcycle in the background is not a very pleasant sight. This very situation prevailed twice in one week at SIU and on numerous other occasions earlier this school year.

Whether it is through accident or carelessness does not matter: it still happened and the lives of many young people, their families and those involved in the accident have been scarred for years to come. Unfortunately, it will continue to happen, the same as the thousands of deaths and injuries on the nation's highways in auto accidents each year.

What can be done, if anything? It is up to you, the cyclists, to be prepared to avoid such accidents.

Recently the Campus Senate approved a list of safety measures recommended for the motorcycle operator. These measures should not become mandatory University policy, but a personal program for each cyclist. A little common sense observation should instill in the cyclist the potential dangers in accidents and what precautions could be taken.

One example is the protective helmet. A helmet, as recommended by the Senate and Southern Riders Association, will not always prevent injuries, but like seat belts in a car, it will increase the rider's chance to escape serious head injuries in an accident.

Second, a motorcycle isn't much of a match for a four-wheel vehicle. Consider the

average stopping distance, speed, impact and protection of a car as compared to a cycle. And what about visibility at night? Put yourself in the driver's position looking for a single tail light and a cyclist wearing no reflective clothing.

Motorcycles can be worlds of fun and they have just as much right to the road as any car or truck. In addition they are a most economical means of transportation. And for most undergraduate students at SIU, they are the only means of transportation around campus.

Our purpose is not to condemn motorcycles, but rather to encourage cycle operators to be alert to the potential dangers and available precautions.

Remember, use your judgment in operating a cycle, wear a helmet, bright clothing, watch for the other fellow and maybe you won't be the next victim waiting for the ambulance.

Wade Roop

Let's Have Crew!

To the editor:

With the loss of a football coach and stadium, what better time is there to substitute football for a much needed and less expensive sport-crew!

Southern with its Lake-on-the-Campus, boating facilities and docks has all the requirements for an excellent crew school. Why not have one here?

Stephen Brown

Big-Mouthed Cassius Clay Is Not Welcome in Illinois

Cassius Clay's antiracist outburst brought much criticism from many people. Among those whose ire was raised was Gov. Otto Kerner who termed Clay's remarks as "unpatriotic and disgusting."

Kerner requested that the Illinois state Athletic Commission not license the March 29 bout of Clay and Ernie Terrell in Chicago.

A few days later, Atty. Gen. William G. Clark disclosed that the match could not be held legally in Illinois because the corporation which is sponsoring the fight lists only two persons as members.

Illinois state law says that

such an organization must have at least 50 members. Regardless of the legal basis for not holding the fight, the question still remains whether or not Illinois is deserving of the unfortunate opportunity of inheriting Clay, even for one night.

Clay, unable to wear a uniform either because of his Black Muslim obligations or failure to pass the intelligence test, does not qualify to descend on Illinois, bringing with him his childish outbursts, big mouth and unpatriotic feelings.

Illinois doesn't need anything that badly.

Laurel Werth

Boys Find Way Out of Draft

The boys at Ann Arbor come up with a unique thought on how to avoid the draft.

In a full page ad in the Michigan Daily, they asked the girl undergrads to help, and detailed their plea.

"Recognition of intellectual development should not be dependent upon a grade point. Carried further, military deferment should not be determined by class standing. Despite the unquestionable validity of these assertions, male students in the lower half of their college class stand to be inducted.

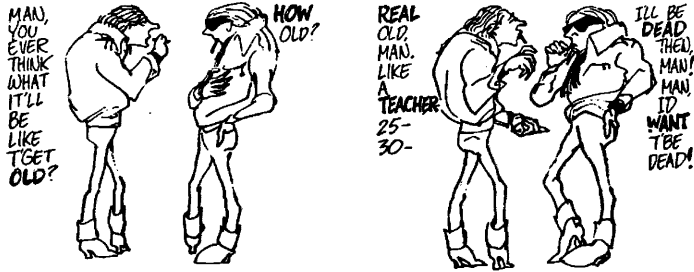

"To overcome this unfortunate situation, we need your

assistance. By sacrificing your academic averages you will allow a greater proportion of males to enter the upper half of their class.

"This is not an attack upon intellectualism. Study, learn, grow. We merely ask that you withhold your knowledge in examinations."

Clever, these boys, and for a few girls who like men around the place, it might be effective. Even more girls, we imagine, will use it as an excuse when the grades go home.

From an editorial in The Detroit Free Press

Thief Runs; Victim Asks Notes Back

To the editor, Laugh as you will. Because of your corrupt success, you will be destroyed in the end.

Men and women of the Carbondale area, you have been invaded by parasites. These four creatures, behind your backs, steal items from you for which you have diligently labored to obtain. No matter what the cost of these items might be, it astonishes you to see that some foul creature has pilfered them from you.

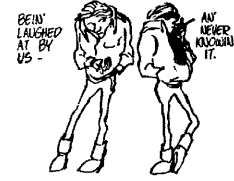

To eliminate these creatures from our midst, it is imperative that we take action against them. Do not be afraid of them. They cannot hurt us. They are afraid of us; that is why they steal as they do behind our backs.

I am referring in particular, to the parasite who pilfered my pen, note-pad, and my completed mathematics homework (which is needed by me) from my attache case. It was on a shelf in the men's locker room of the stadium Thursday morning, while I was practicing in the snow and cold for 45 minutes.

This parasite rifled through my notebook to see if he could use that; took out my spring 1966 fee statement from its envelope to see if he could use that, too; didn't bother to check how he closed the case, and then left.

In the meantime, I have to study for my mathematics exams and request that my notes, in particular, be returned to me.

Gordon's Appointment Pleases Latin America

By Louis R. Stein
Copley News Service

RIO DE JANEIRO, Brazil—Latin Americans welcome the choice of economist Lincoln Gordon to succeed Jack Vaughn as assistant secretary of state for Latin American affairs.

Gordon, 52, is one of the architects of the Alliance for Progress and counts numerous Latin American leaders among his personal friends. Although his only post in this hemisphere has been ambassador to Brazil since 1961, he has represented the United States at numerous inter-American conferences.

He was one of the authors of the 1961 Charter of Punta del Este that laid down the principles of the Alliance for Progress. Part of his new job

will be overseeing execution of the Alliance.

Gordon's interest in this hemisphere dates from a decade ago when he served on a special State Department study group to coordinate Latin American affairs.

Gordon took over the embassy to Brazil during the troubled days following the resignation of former President Janio Quadros and installation of Joao Goulart as his successor.

As Goulart veered further and further left it became progressively more difficult to deal with him. Some Goulart aids deliberately set out to sabotage the Alliance for Progress in Brazil.

In March, 1964, an almost bloodless revolution sent Goulart into exile and Gordon hailed the revolution as possibly the most important event in Latin America in this century.

Gordon was so strongly pro-Brazilian that one observer was moved to comment: "Brazil does not need an ambassador in Washington as long as it has Gordon."

The basic reason for Gordon's enthusiasm for Brazil is his feeling that this country, which contains half the people and covers half the land area of Latin America, is vital to U. S. security.

Gordon was known and liked in Brazil before he arrived as ambassador. He leaves as one of the most popular envoys to represent the United States.

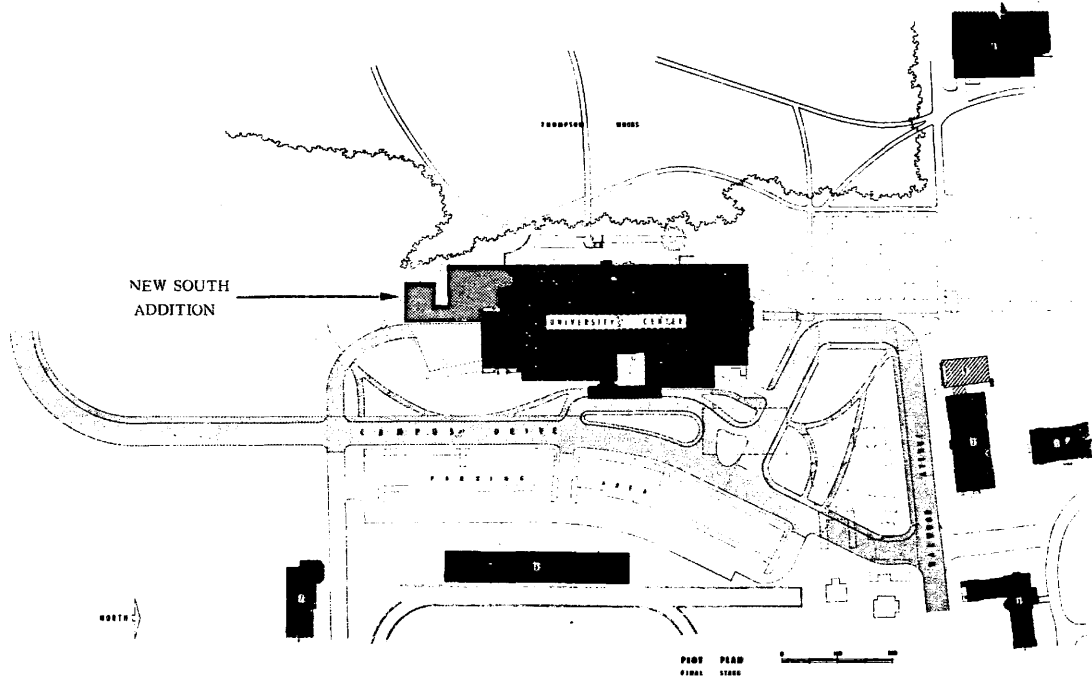

Ballie, Atlanta Constitution

Today's Quotes

The best fishing story we have heard this year was about the young fellow who took his girl friend fishing. It was her first try, and wishing to impress her fiance she wanted to do everything and do it right. When it came time to bait the hook, she took such a long time that the young man inquired how she was doing and was told that she would be ready as soon as she got the dirt washed off the worm.

\$5.5 Million Addition Slated

Center's Facilities Will Be Expanded

By John Epperheimer

The addition on the south end of the University Center will probably extend about 200 feet toward the new Physical Science Building and provide several new facilities and a south entrance to the building.

Clarence "Doc" Dougherty, director of the University Center, explained ideas and plans for the addition and for the completion of existing facilities when he appeared before the Campus Senate Thursday night.

Dougherty said many of the plans date to 1959 and would have to be revised when funds are made available.

Dougherty presented three general plans, designated A, B and C. He explained that the plan generally favored by the planning committee was Plan A and he devoted most of the explanation to that.

Plan A, which Dougherty favored, would provide about 180,700 square feet of floor space and would cost around \$5.5 million.

Under that plan, an excavation and a two-story addition would extend more than 200 feet south of the present building.

The addition would provide a south entrance and make the University Center a central axis for campus. Dougherty said presently the three entrances at the Center are carrying too much traffic in the same places and the additional entrance would alleviate this problem.

Escalators would be installed at each end of the

building running from the entrances to the top floors. These would take much of the traffic and congestion out of the main corridor on the ground floor.

In the basement part of the addition would be a "rathskeller," according to Dougherty. He said the function and the design of the room have not yet been determined, but would be of a "different motif" from the rest of the building.

The rathskeller would be "a place to stay all afternoon and would be open late at night," Dougherty said. It would be designed to take the load off some present facilities, he added.

On the ground floor, location of the bookstore and the Olympic Room would be switched, with the bookstore extending all the way to the Magnolia Lounge.

The offices and activity

rooms displaced by the bookstore would be moved to one of the upper floors, Dougherty explained.

The River Rooms would be removed, as would the dish-room alongside the Oasis. The Oasis would expand into those areas.

The cafeteria would expand out to the end of the addition, approximately doubling the present area.

On the first floor, an au-

ditorium would be constructed in the addition on the south part of the building.

A table service dining room would be located on the west side of the floor, with a public lounge and a "reserved only" dining room. The River Rooms would also be on the first floor, along with the present hall-rooms and administrative offices.

Also on the first floor would be a work-study lounge, Dougherty said it is hoped that this could be a place where students could take "a cup of coffee and a book" and stay all afternoon. There students could spread out books and papers or consult with other students and still be comfortable, Dougherty said.

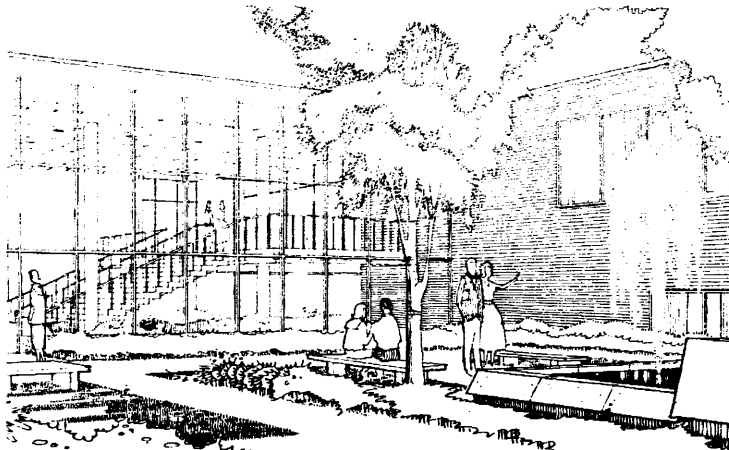

Adjacent to this lounge would be a work-study area which might contain electronic equipment for lectures.

On the second floor would be the offices displaced by the bookstore and formerly located on the ground floor. Like many of the proposed facilities, the style and architecture of these offices have not been determined, Dougherty said.

A multipurpose lounge is also planned for the second floor. A music listening room would be provided in the lounge and also a periodicals reading room.

The lounge could also be used for teas and receptions, or four to six different programs.

On the top floor would be an all-purpose room which could be used for displays, dances or parties.

At McDonnell Plant

Gemini Astronauts Killed In Jet Crash at St. Louis

ST. LOUIS (AP) — U.S. astronauts Elliot M. See Jr. and Charles A. Bassett II, the primary crew of the planned Gemini 9 spaceflight, were killed Monday when their jet plane crashed into the building housing their space capsule.

Their backup crew for the flight scheduled this summer, Air Force Lt. Col. Thomas P. Stafford and Navy Lt. Cdr. Eugene A. Cernan, landed their T38 supersonic trainer safely minutes later at the nearby St. Louis Municipal Airport.

All four were flying to the McDonnell Aircraft Corp. plant here for space training in a space simulator machine when the plane carrying See and Bassett crashed in a light fog. McDonnell builds the

Gemini spacecraft and Phantom jet fighter planes.

The bodies were thrown from the wreckage after the plane, also a T38 trainer, glanced from the roof of McDonnell's space center and then exploded into flames on a parking lot.

The Gemini 9 space capsule was still in the building about 500 feet from the impact point. It was being readied for shipment to Cape Kennedy, Fla. Also in the building is the production line for jet fighters used in Viet Nam.

Twelve persons working in a McDonnell engineering office were injured, none seriously. Some were knocked from their chairs when the plane hit the roof directly above them. One man suffered a broken ankle. It was not learned whether See, 38, or Bassett, 34, was piloting the two-seat plane. Stafford, who rode Gemini 6 into space when it rendezvoused with Gemini 7 last December, was piloting the second plane.

Both planes had left the

Manned Spacecraft Center at Houston, Tex.

The cause of the crash, which cut the U.S. space team to 31 astronauts, was not learned.

The plane was approaching for an instrument landing at the municipal airport in what the Weather Bureau described as light fog. Light rain and snow were falling. The Weather Bureau said visibility was 1 1/2 miles and the ceiling was 800 feet.

"I was standing on a nearby parking lot when I heard the plane coming," said Ken Stovall, 33, of Ferguson, Mo., a St. Louis suburb.

"I looked and saw he was banked over quite sharply at an angle and his approach to the ground was much too steep. I do some flying myself, privately, so I knew," Stovall added. "I watched him go into the corner of the building and I knew the pilots didn't have a chance."

One of the construction workmen on another McDonnell building next to the crash site reported "a series of quick booms and then flames" when the plane struck the roof. Then it shot off the top of the building.

See, a native of Dallas, Tex., was a Navy pilot from 1953 to 1956. He was selected in the second group of astronauts in 1962. He was a graduate of the U.S. Merchant Marine Academy and the University of California at Los Angeles.

Bassett, a native of Dayton, Ohio, was graduated from Texas Technological College at Lubbock after attending Ohio State University. He later did graduate work at the University of Southern California and entered the Air Force in 1962.

BOATING IN VIET NAM—A motor-powered, pot-shaped aluminum boat manned by a South Vietnamese Special Forces' team pitted downriver near the Cambodian border as its occupants fire toward the bank from which the Viet Cong guerrillas had been sniping at them. (AP Photo)

55 Arrested in U. of I. Raid; Tactics Investigated by Mayor

SPRINGFIELD (AP) — Secretary of State Paul Powell voiced regret Monday that local authorities were not notified before state agents raided a University of Illinois campus tavern to check on driver's licenses.

Mayor Emerson V. Dexter of Champaign, who came to Springfield to discuss the matter with Powell, said he was convinced the state investigators were acting legally.

"There were a lot of things we didn't understand," Dexter said. He added that his office and Champaign police will cooperate with Powell's office in any future crackdowns.

More than 200 persons were in the bar at the time of the raid. Five persons were charged and the driver's licenses of 55 other youths were confiscated by agents.

The 55 could be taken before a secretary of state hearing officer to show cause why their licenses should not be revoked. The 55 have not been fined.

Dexter said Sunday he wanted to find out from Powell

whether agents could "swarm into a man's place of business, shine flashlights into people's eyes and demand identification."

Powell told Dexter state investigators had received information from authoritative sources that licenses had been altered, forged or obtained through submission of false information.

Powell said he has requested his agents to give him a complete report on the raid. The Champaign County chapter of the American Civil Liberties Union said it will investigate whether the students' civil rights were violated.

Security Surrounds Royal Jet Flight

LONDON (AP)—Princess Margaret and her husband, Lord Snowdon, took off for Hong Kong today in a jet airliner that had been kept under security wraps at London Airport throughout the night. The royal departure went off smoothly.

The British Overseas Airways Corp. said the unusual security precautions were taken as a result of threats, that turned out to be hoaxes, in two previous recent royal flights.

One was an anonymous telephone call that a bomb was in a plane carrying Queen Elizabeth II and Prince Philip to the Caribbean Feb. 1 and the other a threat to poison water on an airliner taking Margaret to the United States last November.

The princess and Lord Snowdon are on a sales promotion trip to open British Week in Hong Kong.

Temporary Halt To Rise of Prices

WASHINGTON (AP)—January brought a halt to the climb of consumer prices, the Labor Department announced Monday, but officials said it probably is temporary.

The cost of living remained at the December level, which was 111 per cent of the 1957-59 consumer price average.

The leveling-off was unexpected, since it followed the biggest December rise in living costs in 15 years.

Exciting Music Happens When the

Duke

Meets the

Maestro

and the Boston Pops

Recorded "live" at Tanglewood — the musical meeting of America's foremost interpreter of popular classics with the man who created so many of them. In this new album, Arthur Fiedler and Duke Ellington play 12 of the Duke's tunes, arranged to make the most of the original talents of the Boston Pops, the Duke's own sidemen on bass, flutes, with the Duke himself at the piano. Here's a new "big band sound" that really takes off included in this winning study of essential Ellingtonia are "Caravan," "Mood Indigo," "Society Call," "Lullaby of Birdland," and "The Duke." A new release by the Columbia Records Company.

Britain Will Choose New Government

LONDON (AP)—Britain will choose a new government in national elections March 31. Prime Minister Harold Wilson named the date Monday night in a calculated gamble to keep his Labor party in power until 1971.

The announcement from No. 10 Downing St. ended weeks of speculation and mounting pressure on Wilson from his backers to call an election while Labor seemed likely to win. It also brought the Conservatives—underdogs in the betting—out fighting.

"I'm delighted the fight is on," said the Conservative leader, Edward Heath. "We will attack Labor's record of misgovernment and failure to solve the nation's fundamental problems."

The opinion polls and the betting odds predict a Labor victory. Wilson will run on his record, and the Conservatives against it.

The main campaign theme probably will be a replay of the 1964 race, when the chief issue was which party could do the better job of modernizing Britain.

By electing a Labor government 15 months ago with a tiny margin, British voters appeared to indicate they hadn't really made up their minds. Politicians on both sides of the fence hope this election will yield a clear-cut result.

Parliament will be dissolved March 10 and the new House of Commons will meet April 18.

Wilson's government has a working majority of only three votes in the present House of Commons. The lineup is Labor 314, Conservatives 302, Liberal 9 and 3 nonvoting members of the speaker's panel. Two vacancies, one from each party, fill out the complement of 630 seats.

After 15 months of walking a political tightrope anchored to this fragile majority, Wilson probably feels he has pushed his luck far enough.

Ghana Unveils Jungle Camp; Red Teachers

ACCRA, Ghana (AP)—Ghana's new revolutionary government unveiled a secret jungle "freedom fighters" camp Monday.

It said Red Chinese instructors helped train 133 African saboteurs there from South Africa, Rhodesia and other countries.

Newsmen taken on a tour of the camp found a handful of African trainees plus a dozen instructors, most of them Ghanaian soldiers.

The instructors said they were paid by the Bureau of African Affairs, which was run personally by ousted President Kwame Nkrumah.

The camp commandant, former Regimental Sgt. Maj. Fuscimi Bazabarini of the Ghanaian army, told newsmen "about 13 Chinese came here to train Africans."

Bazabarini said the camp, originally set up in western Ghana, was moved to its present site 130 miles north of Accra in October, 1964.

150 Union Construction Men Riot at Downtown Miami Site

MIAMI (AP)—About 150 union men—some wielding pipes, clubs, hammers, wrenches and knives—staged a bloody riot at a downtown construction project Monday.

Six were hospitalized and 14 others trested. Police said the fight—quelled by more than 50 officers and firemen equipped with gas masks and tear gas—started over a jurisdictional dispute.

"It's hard to say how many were actually swinging away at each other and how many were just standing on the fringes shoving and pushing," said Police Capt. Frank Morrow.

Israeli Pilot Flies to Egypt

PORT SAID, Egypt (AP)—An Israeli former fighter pilot flew to the United Arab Republic on a one-man peace mission Monday but failed in an attempt to see President Gamal Abdel Nasser. He will be given fuel to fly back Tuesday.

Abraham Nathan, 38, made a forced landing at the airport in Port Said when his tiny 40-year-old monoplane ran out of fuel. But he had radioed ahead that he was on a peace mission and requested per mission to land. He said he wanted to see Nasser.

Instead, Hassan Roshdy, security chief in Port Said, said Nathan would be allowed to spend the night in Port Said and will be given enough fuel to fly out Tuesday morning.

Wage Restraint, Strike Plan Under Fire From Meany

MIAMI BEACH (AP)—AFL-CIO President George Meany said Monday that withholding federal contracts because of high wages would be punitive and that any federal legislation to prevent strikes by state or local public workers would be stupid.

Both proposals apparently are under consideration by the Johnson administration with whom Meany has been feuding for the past two weeks.

Replying to the statement of Secretary of Labor W. Willard Wirtz that the government "is a very large consumer" and will take into account wage-price policies of unions and contractors, Meany said: "It is a punitive proposal."

The major factor in the big labor federation's quarrel with the White House is the Johnson administration's effort to hold wage increases to 3.2 per cent a year.

On President Johnson's proposal for new federal measures to deal with strikes that "threaten irreparable harm to the national interest," Meany said:

"I think it would be stupid" if the administration is thinking about a federal law covering state and local public employes. Meany added that he did not know just what Johnson had in mind.

Meany said any antistrike law covering state, city and county public employes would be unconstitutional.

Shop With
DAILY EGYPTIAN
Advertisers

"Surely, the Congress couldn't pass on the merits of wage negotiations for city or county employes," he said.

Commenting on Wirtz's statement Sunday that the government will press harder to enforce the wage-price guidelines, Meany said: "The guidelines just can't apply to the entire economy... with its thousands and thousands of different types of employment."

Films on China Will Be Shown

The Chinese Students Association will present two films provided by the Chinese News Service at a special showing at 7:30 p.m. Wednesday in Davis Auditorium of the Wham Education Building.

All students interested in learning more about China and its culture are invited to attend.

The films are "Blueprint for Progress" and "Her Big Day."

ARTIST'S SKETCH OF NEW APARTMENTS

Married Students, Staff

Agreement Made for Apartment Project

An agreement to build a 304-unit apartment project for married students has been made between the SIU Foundation and the Scholz Consumers

Construction Co. of Chicago. The project is also designed for staff members with moderate incomes.

The apartments are to be built on a 40-acre site southwest of the campus, near the Carbondale city reservoir. It will be financed through a 40-year, four million dollar loan from the Federal Housing Administration to the foundation.

The foundation will act as mortgagee and lease the apartments to SIU through the loan payoff period. The financing arrangement, made possible through a provision of the Urban Renewal Act, is

the first of its kind to a University and progress has been closely followed by other schools in the nation.

Scholz was one of four firms to submit proposals on the project after earlier bids had been turned down by SIU because they exceeded per-apartment estimates.

Although the Scholz base proposal—304 apartment units at \$10,871 each—was higher than another one, SIU architects and business affairs analysts recommended it because it conformed most closely to such requirements as operating and maintenance

costs, attractiveness, feasibility, FHA acceptability and space per unit. The lowest bid was 348 apartments at \$9,626 each, but architects pointed out that ranges, refrigerators and a community service building were not included.

Scholz's plan calls for 40 two-story masonry and brick apartment buildings containing 198 two-bedroom apartments, 88 three-bedroom apartments, and 18 two-bedroom units designed for handicapped occupants. Also included is the community building, boat and trailer storage facility and parking for 490 cars. The architect is Blivas and Page of Chicago.

Details of the agreement, leading to construction contracts, remain to be worked out.

Emery to Discuss Role of Geologist

John A. Emery, Sullivan, Mo., chief geologist for the Meramec Mining Co., will speak here again today in cooperation with the Department of Geology.

He will speak at a 9 a.m. session of the economic geology class in Barracks H-8, northwest of the Agriculture Building.

He will speak on "Geology and Mining of the Pea Ridge Iron Ore Body of Missouri," a tremendous deposit of high grade iron ore.

Both sessions are open to all interested persons.

Freshman Salukis Contribute To SIU's Victory Over Aces

Southern's freshman basketball team contributed a 77-70 victory to SIU's perfect showing against Evansville Saturday night.

It was the Saluki freshmen's season to finish 13-2. Southern's domination of both the offensive and defensive backboards was one of the keys to the victory over Evansville.

The Salukis outrebounded their opponent 44-30. Chuck Benson was both high scorer and leading rebounder for Southern. He scored 20 points and grabbed 11 rebounds.

Dick Garrett and Willie Griffin had 16 points, Gene Watson 10 and Leon Brown eight points.

Dave Weeks of Evansville led all scorers with 29 points. Weeks also led his team in rebounds with six.

Both teams shot slightly over 50 per cent from the field. Southern made 17 more shots than Evansville because of its rebounding superiority. The halftime score was 39-30 in favor of SIU.

Southern made 15 of 29 free throw shots and Evans-

ville made 24 of 33. Benson and Garrett both made 7 of 10 field goal attempts. Benson also made six free throws in nine attempts.

The victory was the eighth at home for the Saluki freshmen this year. Their only losses were away games against Paducah Junior College and the Bradley freshmen.

2 on Judo Team Win in Chicago

Two members of Southern's judo team won in an AAU meet at Chicago and have qualified for competition in the national meet.

Ron Hoffman, captain of Southern's squad, finished as the champion in the openweight division. He holds a third-degree black belt, and is expected to win his class in the national meet.

The other winner for Southern was Tom Streba who took third place in the heavyweight division. Streba holds a first-degree black belt.

Another member of Southern's team, Mike Miller, was expected to compete but couldn't because of a leg injury.

Hoffman and Streba will now be eligible to compete in the national meet to be held in April at Trenton, N.J.

Crow About Fox If You're Legal!

Hunting licenses are required to hunt fox and crow, said William T. Lodge, director of the Illinois Department of Conservation.

Even though there is no set season or limit on foxes or crows, Lodge said that all hunters, except those hunting on their own property, must have a valid hunting license when hunting fox and crow and must show it to a conservation officer when requested to do so.

FRANK SCHMITZ

PAUL MAYER

Having a Ball

Gymnasts Yet to Taste Defeat; LSU, Northeast Louisiana Fall

If winning is fun, then the members of Southern's men gymnastics team must be having a ball.

None of the members on the present team have seen Southern lose a regular season dual meet. Even Coach Bill Meade has to let his memory go back to 1961 to recall a loss. The gymnasts last lost to Michigan State that year.

The record remained unchanged last weekend as Southern scored a 192,80-170,90 win over Northeast Louisiana State Friday night and followed it up with a 187-154.25 victory Saturday over Louisiana State.

While Southern was running its winning streak to 49, Frank Schmitz was also keeping his unbeaten record intact.

Schmitz has now competed 33 times this season in his three events—free exercise, trampoline and long horse—

and has yet to taste defeat.

Schmitz turned in winning scores against Northeast of 9.05 in free exercise, 9.6 in on trampoline and 9.7 in long horse.

Against Louisiana State, Schmitz did a little better with a 9.3 in free exercise, 9.55 in trampoline and a 9.5 in long horse.

Schmitz, however, had plenty of help from his teammates, namely Paul Mayer.

The sophomore had his best two meets of the season, with three second places in free exercise, side horse, parallel bars, and a third place on long horse against Northeast.

Mayer followed this performance against LSU with a first-place finish on side horse with a 9.0 and three seconds in free exercise, long horse and parallel bars.

Fred Dennis kept up his winning ways on rings with a first-place score of 9.35 against Northeast and 9.25 against LSU. Dennis was also second both times on the high bar.

Rick Tucker was first on high bar against the Tigers of LSU, but in the preceding meet he dropped to a second-place tie with Dennis. All-around performer Larry Lindauer took first that night with a 9.25 score.

Ron Harstad was another winner for Southern as he captured first place on parallel bars both nights with scores of 9.35.

Mike Boegler rounds out Southern's list of winners with a 9.5 score turned in against Northeast.

Good supporting roles were turned in by Dale Hardt, Brent Williams and Tom Cook. Hardt was second to Schmitz both nights on the trampoline, while Williams was third on the trampoline both times, second once and third once on the long horse.

Cook had a second and a third-place finish on the rings. Southern's single event men, Hutch Dvorak and Steve Whitlock in free exercise, did not make the trip.

Trainer Spackman Writes 2 Books

Robert R. Spackman, SIU athletics trainer, has recently completed two books on conditioning for the use of players, coaches and trainers.

The books are "Conditioning for Football" and "Conditioning for Baseball." Charles C. Thomas of Fort Lauderdale, Fla., will publish the books. Both will be on sale at the end of March or early in April.

The books contain complete 12-month conditioning programs including warm-up exercises and strength exercises.

The purpose of the program is to provide the players with complete and specific exercises relative to his position on the team, and give him a year-round conditioning program to follow.

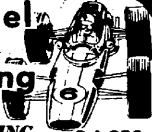

Dutch Masters Gain In Faculty Bowling

The Dutch Masters were the only team in the Faculty-Staff Bowling League to take advantage of Counseling and Testing's second loss of the season in Monday's competition.

The four-point victory by Dutch Masters moved them into a tie for third place with VTI.

The Southern Players had the second high series, but could only win one point as the leaders trumped them with high series.

Salukis Defeat Aces in Overtime 80-75

O'Neal Pulls Down 21 to Lead Attack Against Evansville

By Bob Reincke

Phewt

For the first time in 18 years, Southern has beaten Evansville twice in the same season. But it was no easy task as the Salukis were forced into overtime before taking an 80-75 victory over the arch-rival Aces.

Southern led by as many as 16 points midway through the last half before the Aces staged a strong comeback to tie the game for the first time at 67-67 with 32 seconds to go and sent the game into overtime. Despite the close final score, the Salukis were never behind and were tied only twice—at the end of the regular time and in the first minute of the overtime.

In the overtime, George McNeil, who had been held to a pair of free throws in the second half, poured in all but four of Southern's 13 points. He wound up with 24 points. Boyd O'Neal played one of his better games against the Aces as he tied his own school record of 21 rebounds and led the Salukis with 25 points.

Larry Humes played his usual role as Evansville's leading scorer as he tallied 30 points followed by Sam Watkins with 19 and Rick Kingston with 12. Both Watkins and Humes made only nine of 22 shots from the field

throws to cut the lead to 66-65. The next score came more than two minutes later when McNeil dropped in a free throw. Then Humes put in the last points of regulation play with two free throws with 32 seconds to go to bring on the overtime.

The overtime was all Southern's. McNeil dropped in two free throws to put SIU ahead before Watkins dropped one in from the base line to tie it. But that was as close as the Aces got to taking the lead as McNeil potted a long one and Goin dropped in two more free throws to make it 73-69, and give Southern the lead for good.

The Salukis had been in command from the start, and the near-tragic end was far from indicative of the first 30 minutes. Southern jumped out of a 6-0 lead and never trailed throughout the first half as it held a 39-30 lead at the intermission. The Salukis had led by as many as 14 points in the middle of the first half.

With O'Neal, McNeil and Clarence Smith leading the way, the Salukis began to pull away to a comfortable lead once again early in the second half before the Aces came charging from behind.

The contest was the last of the regular season for the Aces and leaves them with a 17-8 record coming into their contest Friday night in the regionals with Lamar Tech. The Salukis, meanwhile, are now 18-5 heading into their contest Tuesday at Wichita

against the highly regarded Shockers.

The scoring: Southern: O'Neal, 25; McNeil, 24; Smith, 14; Johnson, 6; Lee, 5; Goin, 4; and Bechtold, 2.

Evansville: Humes, 30; Watkins, 19; Kingston, 12; Pratt, 8; Adams, 5; and Riggs, 1.

Intramural Cage Tourney to Begin

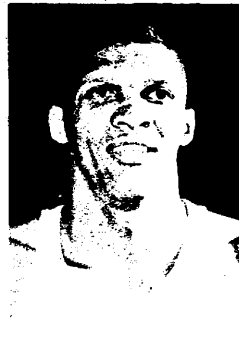

The intramural basketball tournament moves into the semifinal round Wednesday night with the Rejects playing the Hawks at 8:15 o'clock and the Grads meeting the Abbott Rabbits at 9:15.

Both games will be played in the Arena.

The Rejects advanced to the semifinals with a 67-45 victory over the Beadle Boys.

in picking up their totals. The Aces started their comeback in the final nine minutes when they found them-

A short one from the side by O'Neal broke the cold spell for Southern before Humes dropped in a pair of free

Moorhead Defeats Matmen 17-15

The 17-15 defeat that Moorhead (Minn.) State handed the SIU wrestling team Saturday was just a reverse of an earlier meet that the Salukis won over the Minnesota matmen at the Oklahoma State Invitational.

At the previous meet, SIU won five points when the 191-pound category was lost by Moorhead State by default, and SIU won, 21-17.

In Saturday's match at Moorhead, SIU's 167-pounder, George McCreery, was forced to default because of a knee injury.

The default brought Moorhead up from a 12-9 deficit to take the lead in scoring at 14-12. They didn't hold it long, though, for SIU won the next match to go one up over Moorhead, at 15-14.

The heavyweight match decided the final outcome, with Bill Billberg of Moorhead deciding the Saluki's big Bob Roop, 7-4, to give the Minnesotans three team points and the meet, with the final score of 17-15.

The results:

Who's, What's Of Draft Test

(Continued from Page 1)

A. On May 14, May 21 and June 3.

Q. How do you apply for the test?

A. Send for application to Science Research Associates, 259 E. Erie St., Chicago, before April 23. The local draft board will send you, on request, an explanation of the test and a form to mail to Science Research Associates. Science Research will then tell you where and when to take the test.

Q. How much does it cost? A. Nothing.

Q. How long is the test? A. It will consist of 150 items and a maximum of three hours will be allowed to complete it.

Q. Where can a student get more information about the test? A. The local draft board.

115: Ford of Moorhead defeated Sarossy, 4-2.

115: Ford of Moorhead defeated Sarossy, 4-2.

123: Kelvington of Moorhead defeated Magoon, 6-2.

130: Baron of SIU defeated Fitzgerald, 6-2.

137: Styvesant of Moorhead defeated Pierannuzzi, 2-1.

147: Pfoor of SIU defeated Redfoot, 3-1.

152: Kusmanoff of SIU defeated Gonshoworski, 8-6.

160: Fuentes of SIU defeated Gunderson, 9-6.

167: Mosier of Moorhead won by default from McCreery.

177: Appleton of SIU defeated Lineback, 10-4.

Heavyweight: Billberg of Moorhead defeated Roop, 7-4.

Trackmen Score 2-Front Gains In Meets in Canada and Indiana

Part of the track team had outstanding performances over the weekend in Winnipeg, Canada, while the rest of the squad tied Notre Dame for second place in the Central Collegiate Conference at South Bend, Ind.

The conference was won by Western Michigan.

At South Bend, the Salukis won four events, paced by George Woods, who set a meet and fieldhouse record at 61 feet, his fourth record to be set this year.

An SIU school record fell when Robin Coventry won the 300-yard dash in 31.2 seconds.

Other SIU first-place winners who helped give the Salukis their best performance so far at the Central Collegiate were high jumpers Tom Ashman and Mitch Livingston, who tied with leaps of 6 feet, 6.75 inches.

The fourth event won by SIU was the 440-yard dash, won by Gary Carr.

Valuable points were picked in the 600-yard run, with Jerry Fendrich finishing second in 1:12.6, and in the broad jump, with John Vernon finishing third for SIU in a leap of 23 feet and one-half inch.

Al Ackman of SIU took third

in the 1,000-yard run with a time of 2:14.2, and Joe Janezic picked up a fifth place for SIU in the high jump event.

In Winnipeg, three SIU trackmen, Ian Sharpe, Oscar Moore and Jeff Duxbury, had fine individual performances at the All-Star Collegiate meet held there Saturday.

Sharpe set a meet record by winning the triple jump at 47 feet, 5 inches, and also won the broad jump event in 22 feet, 9 inches.

Oscar Moore of SIU placed second in both the mile and the two-mile events, in times of 4:11.8, and 8:58, respectively.

Duxbury placed third in the 1,000-yard run at Winnipeg, with a time of 2:13.7.

Team scores were not kept; only individual performances were judged.

TOUGH

...so
you'll be
SAFE!

You'll agree with us, there's no substitute for safety in a life insurance policy.

In Indiana, where our home office is located, our tough, time-tested state insurance law requires that we invest only in legally approved securities and with wide diversification.

Furthermore, the Compulsory Deposit Provisions of the law require that...

Our reserves, to the total amount of the net value of all outstanding policies, are on deposit with the State of Indiana at all times.

In addition, College Life is regulated by the insurance laws of 35 other states, and the District of Columbia, where we operate.

You just can't beat safety and security like this. When you add on all the

other major benefits you get from College Life's BENEFACTOR policy, you'll find it's far and away the best buy for your money.

Get the full story about THE BENEFACTOR from your local College Life representative.*
