Teacher: "Surely you're not laughing at me." Student: "Certain not, I was just smiling and it bugged."

NEWS FROM EVERYWHERE

NEW YORK—More than 60,000 WAVES, SPARS and women marines have received their commissions since the last-bound U.S.S. Hunter since its commissioning in 1942 as a naval training school.

Originally designed to accommodate 35,000 trainees a year, the former Brown Brothers building has been remodeled to the military tread of 35,500 WAVES in addition to the 3,342 marines and 1,044 SPARS trained there before their own schools were established.

A ship's company of 1,000, mostly WAVES, are in possession of recent classes averaging 450 for each six-week period, with a curriculum of naval customs, history and discipline—and drill.

Of the WAVE graduates since the first class, which entered Feb. 17, 1943, 6,388 left the Hunter for various assignments. 5,819 went for aviation schools and stations; 5,936 to the hospital corps; 4,074 to the messengers' school; 215 to radio school, and about 1,000 to schools for mail specialists, cooks and bakers and business-machine operators.

Of the remainder, many qualified as yeomen on completion of their preliminary training and others went directly to duty as seaman second class.

AUSTIN, Texas.—The ever-growing use of music in war factories is changing music from an "art" into a "commodity." Dr. Albert N. Jones, professor of music at the University of Texas, declares in "The Southwestern Musician."

"Music is an art, has been recognized as such by the professional musicians." Dr. Jones explained, "but as a commodity it has been recognized by the general public. It becomes useful and understandable to all."

Scientific experiments of physical fitness have shown that music does have an effect upon bodily processes. Dr. Jones points out, while recent use of music in war factories has been limited to production lines, shipyards and assembly plants, musical programs for their workers from one to two hours a day, has been common.

ANN ARBOR, Mich.—For the first time in its 127-year history the University of Michigan announced a residence hall exclusively for foreign students.

Questions, Answers About the WAVES

Do all WAVES begin at apprentice seaman? Yes, even officer candidates. However, after the indoctrination and training period there are automatic promotions.

How long are WAVES on duty daily? Theoretically, WAVES are on duty 24 hours a day. Practically, the work is no more arduous than in an efficiently managed business.

Information about the WAVES is available from the Bureau of Naval Personnel, 1100 Navy Building, Washington, D. C.

MUSICANA

Orchestra names are undergoing big changes since the draft started hitting them. I mentioned last week that Benny Goodman had dissolved his band over a controversy with his booking agents.

One of the most reliable is Glenn Miller and his band in "Here We Go Again." This cutting will be certain to keep close in the lead for the duration at least.

Everybody loses during wartime — if the railroads are handicapped! Had railroads and railroad men not been affected by postwar conditions, the war imposed, freedom itself might have been in jeopardy.
