Extradition of escapee is underway

By Jennifer Phillips
Staff Writer

Illinois authorities are in the process of extraditing Menard Correctional Center escapee Bruce Davis, who was apprehended by authorities in Fayette County, West Virginia, about 2:30 p.m. Sunday.

A policeman sighted Davis at a gas station in Smithers, W.Va., about 30 miles southeast of Charleston, according to Nic Howell, spokesman for the Illinois Department of Corrections. The officer left the site and returned with other police officers to take Davis, who was by then hitchhiking, Howell said.

Davis identified himself after the officers asked him to do so and said he had resisted arrest, Howell said.

Davis, who is serving a sentence of 25 to 45 years for murder and armed robbery, escaped from the Menard Honer Farm-Oct. 26.

Davis did not waive his extradition rights when he went before a local magistrate, Howell said, so Illinois officials will have to go through an extradition process before Davis can be returned from West Virginia.

SIU-C officials seek solution to rise in overdue student bills

By Ginny Lee
Staff Writer

A marked increase in overdue student bills has officials at the University of Southern Illinois at Carbondale examining policy changes which could encourage students to pay their bills on time, according to Warren Buffum, vice president for financial affairs.

About 2,800 students, more than two-thirds of which had cancellation waivers, had not paid $736,935 worth of overdue bills to the University as of Oct. 15, Buffum said.

"Accounts receivable have grown," he said, "so that tells us that something has to be done. You can't afford to let them stack up, especially those who remain unpaid. The rest of the students end up paying the bill."

An increase of $354,000 in delinquent accounts for fiscal year 1982 had raised the possibility of a service charge on overdue bills, Buffum said.

The University of Illinois in Champaign charges students 1 percent a month on bills.

Students' awareness of USO questioned in informal survey

By William Jason Yong
Staff Writer

Most of the 300 students interviewed in an informal and non-scientific survey conducted recently by the Undergraduate Student Organization knew what the USO is. The multiple-chance survey was designed to find out if students know what the USO is, what students think student government should be doing and if students are aware of USO activities.

A survey question, "What is the USO?" Ten percent picked the incorrect answer and 25 percent chose the "don't know" answer.

Among the sophomore interviewees, 82 percent identified the correct answer, 7 percent gave the incorrect answers and 11 percent said they didn't know.

For juniors, 7 percent gave the correct answer; 11 percent gave the incorrect answers and 8 percent didn't know.

Sensors, by far, ranked on top in giving the correct answer. Eighty-eight percent identified the correct answers and 2 percent said they didn't know.

Among the graduate students interviewed, 86 percent gave the correct answer, and 9 percent said they didn't know. "Although the survey showed that a majority of the students interviewed knew what the USO is, there is still a cause of concern for us because about 10 percent of the students did not know what the USO is," Muener said.

In a survey question, "What do you think the student government should be doing?" the majority of the students interviewed said student government should represent students' rights.

The respondents said student government should try to fight against rising tuition and fees.

Campaigns end as voters go to polls

By Rob Delaney
Staff Writer

It's the people's turn to say something.

Candidates made last minute appeals to the voters who may go to the polls Tuesday. Polls will be open from 6 a.m. to 7 p.m.

State Board of Elections Chairman Phil Gilbert said he expects about 60 percent of registered voters in Illinois to vote. In 1978, the last off-year election, 57 percent of registered voters in Illinois voted, he said.

However, County Clerk Bob Harrell said he anticipates that turnout in Jackson County will be the same as in the most recent off-year election. He said he did not believe any extra interest was generated by the campaign.

Good weather traditionally helps Democrats at the polls, said Harrell, a Democrat running for re-election.

Thompson wound up a whirlwind tour of Illinois Monday in Southern Illinois. He told media representatives and supporters at Williamson County Airport that Southern Illinois has been good to him in the last two elections.

Thompson, who has been given a lead over Stevenson by as much as 25 percentage points in some polls, asked voters during stops in seven Illinois cities to trust him and elect him to what would be an unprecedented third term.

Two Thompson appointees - Secretary of State Jim Edgar and Attorney General Tyree Fatzer - are seeking re-election against Democratic challengers Jerry Cosentino and Neil Hartigan respectively.

Voters, for the first time in Illinois history, will pick a single legislator from each district. The cutback amendment adopted in 1980 eliminated one-third of the seats in the General Assembly.

In the 11th House District, Republican Larry Young is challenging Democratic incumbent Bruce Richmond. Richmond has eight years of experience in Springfield and has support from Sil C. While Young has stressed ethics and the long-range planning he wants to introduce.

In the 51st District Senate race, state Rep. Wayne Abt,
Democrats and Republicans ready for the final showdown

By Walter R. Mears

AP Special Correspondent

WASHINGTON — On the eve of off-year elections Republicans don’t expect to win. Democratic campaign organizers talked of tougher times ahead while President Reagan urged Americans “to cast your votes in hope, not despair.”

The Democratic chairman accused the White House of planning post-election cuts in Social Security. Reagan countered with a pre-recorded assertion that the Democrats were trying to scare voters with claims they know to be false. On Tuesday, voters will choose a new House of Representatives, 36 senators and 36 governors. They will elect state legislators in 36 states, and settle ballot issues highlighted by nuclear freeze voters in nine.

Concerns of GOP strategists is that Republicans will lose about 20 of their 192 seats in the House. They expect to hold the Senate, but it’s a close one. Nevada also is high on the list of Democratic gubernatorial takeover targets. Republicans claim they have a chance to take over in Wyoming and in Alabama.

In California and New York, big states that will be crucial battlegrounds for the 1984 presidential candidates, Democratic candidates for governor hold the edge in public opinion polls, but Republicans claim to be gaining.

CAMPAIGNS from Page 1

has used a television campaign to accuse Democratic incumbent Ken Burpee of supporting Chicago unions. Aslai said he will fight for Southern Illinois.

Burpee has stressed his leadership on appropriations and energy research committees. He says he brings $5.36 back to the district for each tax dollar he collects in.

Pete Primas and incumbent Paul Simon have argued about coal jobs, education and Social Security in their race for Congress in the 22nd District. Toward the end of the campaign, Republican Primas charged Simon with buying the campaign and running a “fake” budget. He said Simon has used a double standard by denouncing the National Conservative Political Action Committee’s campaign against the President while accepting funds from other PACs at the same time.

Both camps said some of the PACs who have contributed to Simon had no constituents in the district.

Primas has also campaigned in a congressional job office in the district, relaxed coal emission standards and the raising of the retirement age to ease the strain on Social Security trust funds.

Simon has criticized Primas’ “tunnel vision” for Southern Illinois and defended his own record of saving or creating a total of 3,000 jobs for the district.

The Democratic incumbent favors coal desulfurization research and a luxury tax to reduce Social Security. Both candidates say a big turnout will help them neither are making predictions about the election’s outcome.

Voters will decide the fate of the last hurrah of a legal protest which would enable judges to deny bail to defendants who could be assessed life sentences. Presently, defendants can be freed bail in Illinois if the death penalty could be imposed.

Locally, SIUC Student Trustee Stan Irvon said more blacks and older students on campus seemed to be registering while the remaining students seemed as apathetic as ever.

cut in financial aid, and to make sure that students get the

Students also commented on the relationship between student government and the administration. A number of the
respondents felt that it is the student government's obligation to act as a watchdog of the administration. But others said student government should work with the ad-
m

Some of the respondents also said student government should publicize what they do.

In a question in the survey, "What is the function of the USO," sophomores interviewed gave the correct answer most often, with 84 percent answering correctly of the students interviewed. 82 percent of the sophomores, 80 percent of the seniors, 78 percent of the freshmen and 71 percent of the graduate students gave the correct answer.

A USO activity that the students knew about the least was the Service Evaluation Task Force.

Freshmen who were inter-

viewed ranked at the bottom of the list, with 35 percent expressing unfamiliarity with the task force. Sophomores and seniors interviewed had the same percentage: 34 percent said they were not familiar with the task force and only 66 percent said they knew about it.

Solutions from Page 1

SOLUTION from Page 1

Students said they were not familiar about the task force and 43 percent expressed unfamiliarity.

Some students said the USO should continue such activities as Carbondale Cleanup Day, student telephone directory and the book co-op.

But 80 percent of the freshmen interviewed said they were not familiar with the book co-op. 47 percent were not familiar with the student telephone directory and 46 percent were not familiar with the Saluki Savings Card.

The book co-op, the telephone directory and the savings cards are all services of the USO.

Twenty-one percent of the sophomores interviewed said they did not know about the book co-op. 20 percent did not know about the telephone directory and 32 percent were unfamiliar with the savings card.

Juniors interviewed showed that 52 percent did not know about the book co-op, with 21 percent and 31 percent expressing unfamiliarity with the telephone directory and the savings card respectively.

Seniors, however, were more informed about these USO activities: 53 percent familiar with the book co-op. 91 percent familiar with the telephone directory and 64 percent familiar with the savings card.

How to procrastinate tastefully.

A decision not to vote is unaffordable luxury

An elderly gentlement who said he couldn't read or write, called the Daily Egyptian office for someone to explain the various election issues to him so that he could make an informed decision on election day. Perhaps more than this need not be said to convince people of the responsibility and privilege of voting. What a stark contrast this senior citizen’s attitude is compared to those of many within the 18 to 35 age bracket.

President Reagan was reportedly voted in by only 12 percent of the electorate. That certainty is not a majority decision. And how can a government that supposedly works by the decision of the majority work in the absence of majority decisions?

Many people seem to be in a dilemma regarding the gubernatorial race. What does one do when neither candidate suits their fancy? What kind of a decision can they make? A decision not to vote!

True the decision not to vote is itself a decision and a vote. But what kind of a decision is a majority decision? Is a decision not to have a governor?

If the decision not to vote is a deliberate decision, perhaps as a protest. It may be respectable. But is it a decision born of sheer indifference, we richly deserve student aid cuts. We richly deserve social security cuts. We richly deserve unemployment.

We are all experiencing hard times, dangerous times even, in which good decisions need to be made. We need good people in government making those decisions. But to have good people making good decisions in high places, we first need just people making decisions.

Today, November 15, is one of those days when everyone is called to make decisions. It is a day when the collective decision of the people will decide the future decisions made in high places. That is the meaning of election in a democracy.

People always deserve the leaders they get. In a government of the people, by the people, for the people, can afford the luxury of a decision not to vote?

The Administrative Internship Program is good experience

I would like to take this opportunity to thank President Somit and all the people involved in the Administrative Internship Program. Also for making possible to get a first hand view of Higher Education Administration. The application process for the 1983-84 program will continue through November 15. 1983. Application forms can be obtained at the Office of the Vice President for Academic Affairs and Research. Personnel Services, 845 South Elizabeth; or from the AIP Committee.

If you have an interest in Higher Education Administration and would like to get a view of the job training, then the AIP might be just what you are looking for. This is an excellent way to look forward to working with the new interns of 1983-84 - Mike Burgin, Administrative Intern, Office of the Vice President for Financial Affairs.

AIP is an ongoing program which is open to all SIU-C employees (faculty, administrators, staff, or civil service) who have been employed at least one year or for the last five consecutive years and have the appropriate academic preparation and work experience to succeed in the internship. The application process for the 1983-84 program has already begun and will continue through November 15, 1983. Application forms can be obtained at the Office of the Vice President for Academic Affairs and Research. Personnel Services, 845 South Elizabeth; or from the AIP Committee.

If you have an interest in Higher Education Administration and would like to get a view of the job training, then the AIP might be just what you are looking for. Kurt Boyle, where are you college athletes? From what I've heard, most of you are not even thinking about the games. From what I've heard, most of you are not even thinking about the games. From what I've heard, most of you are not even thinking about the games.

After weeks of lengthy and often heated discussion, SUU-C President Somit, the Undergraduate Student Council, the Faculty Senate, the Graduate Student Council and the Graduate Faculty Council have agreed to request that the construction of a library storage facility on campus is not the most desirable solution to the problem. The question is not if we favor those decisions, but rather, "are education. an immediate sign not of a university but of what was used to be called, more honestly, a normal, a normal, a normal school. Majority of education degrees. Why don't you people majoring in psych. accounting, business, English, theater, communication, physics, engineering, forestry, music, chemistry, biology, biochemistry, linguistics, sociol., a., anthropology, journalism, psychology, economics, computer science, data processing, design, art, plant pathology, zoology and photography, biology, computer sciences, anthropology, foreign languages, finance, political science, history, anthropology, sociology, radio and TV, and zoology. The work together for on-campus book storage.

Letters

'Schools for Snobbery' article is insult that should be answered

DOONESBURY

by Garry Trudeau

Page 4, Daily Egyptian, November 2, 1983

Why destroy beautiful plants?

This is an open letter to the students representatives at SIU who are responsible for the maintenance of grounds at Thompson Point, par equivalent, par equivalent, par equivalent.

On Oct. 26 and 27, we watched with shock and disconsolate the destruction of trees and shrubs that border the lake behind Warren. We can only assume that the removal of dead trees that were adjacent to the windows that blocked the windows and path to the back door because it interfered with that room's 

What is not comprehensible is the indiscriminate destruction of trees, shrubs, and other plants. Why was it necessary to destroy these trees that were a source of beauty in fall colors! Living beings can accommodate to many forms. We enjoyed looking at the trees and the animals that lived in them. The trees were a source of oxygen, shade and possibly food for birds, fish and animals.

Finally, the growth that was so good helped keep the area from looking like the urban concrete jungles that we wish to avoid. We urge the administration to reconsider this policy. The letter was signed by 22 others.
We should want the best for sheriff; Bill Kilquist is the one to fill that need

I am writing to urge you to take the time to vote for Bill Kilquist for sheriff of Jackson County. As you consider the opportunity to put the best available person in a position to handle sheriff's duties, consider the responsibilities are part of that job. As with any leadership position, those who are highly skilled and have great interest in what they do are the ones who are outstanding. It is reflected in the quality of their craft or the service they provide. When folks are doing a real job, it's not quite a difference when you have an individual who is good at it and one who is capable of leading a force.

As a member of the Board of the Rape Action Committee of the Women's Center in Carbondale, I had the opportunity to work with Bill Kilquist over the years. I met Bill when he was a detective with the Carbondale police and continued to seek his expertise when he became the investigatory officer for the Jackson County State's Attorney. In investigation of rape cases, he not only provided a sensitivity to the emotional needs of rape victims, but also an understanding of the background in the investigative end of police work. His work with different victims gave him the overall view of the operations of several police departments. As such, he was able to work with particular needs and concerns of citizens in different races.

Bill is good with people. He's not afraid to give tough answers to tough questions. He is ethical, down to earth and professional in the strictest sense of the word, and, like a professional, has the ability to relate easily to the people he works with. Bill is one of those people who is damn good at what he does, not only with investigation, but also with working with citizens to reduce the potential of crime.

As a police officer, who lives on campus, and many live outside of his office, where I have worked, the best person we have to be a sheriff; someone who will work well. You can see that from your personal view, wanting the sheriff's office to be responsive is the most important. Putting the best person in the position of sheriff will make sure the county is served to ensure that responsiveness.

Make a point to make sure that Bill gets into office. Vote for Bill Kilquist for sheriff of Jackson County.

Bob Majka
Brackney, N.Y.

Edgar, Cosentino in heated race

by Neil McLaughlin
Associated Press Writer

SPRINGFIELD - While the race for governor grabs most of the public's attention, two veteran politicians are waging a contest for Illinois secretary of state that is just as intense and bitter.

The campaign pits two very different personalities against each other for an office that is largely ministerial but politically promising.

The Republican candidate is Jim Edgar, R. of Springfield. Edgar, a former state legislator from downstate Charleston, was appointed by Gov. James R. Thompson to fill the secretary of state post after Democrat Alger Wirfs was elected to the U.S. Senate in 1980.

His opponent is Jerry Cosentino, D. of Palos Heights. Cosentino currently serves as state treasurer and formerly held a seat on the board of the Chicago Metropolitan Sanitary District.

Their race has been marked by steadily escalating charges and countercharges. Cosentino, who has consistently trailed in public opinion polls, has done most of the attacking.

He has attempted to brand Edgar as an incompetent and hypercritical administrator with a penchant for the trappings of office, such as trips on state business.

Edgar has tried to portray Cosentino as a less-than-stinging treasurer whose statements about the secretary of state's office are ill-informed or deceptive.

The two men have been sparing, to say the least, with their compliments for one another.

"I hope he enjoys going back into private business," Edgar says of Cosentino, a former suburban Chicago trucking firm executive. "Don't think it's reasonable to feel any great affinity toward one another in the midst of a campaign." Edgar adds: "He be as good as he wants everybody to believe or be as a hypocrite," adds Cosentino, who complains Edgar has been unnecessarily personal in his comments about the treasurer.

What they are fighting for is an office responsible for licensing drivers and selling license plates, administering traffic-safety rules, keeping state records and running the state library in Springfield.

It also has a payroll of nearly 200 people and 126 offices located around the state. Making the post of secretary especially promising is the steady growth of political jobs and maintaining a large budget in the hands of the state's corporate license seekers.

Edgar, a teetotaller with a clean-cut image, has championed the crusade against drunken driving since taking office. He was a principal backer of the state's new tougher drunken driving law which went into effect this year.

Edgar contends that with the new law and rule changes he has instituted within the secretary of state's office, the state is beginning to win the war against drunken driving.

Cosentino has charged that Edgar's performance in the field is largely a charade. He argues that too many offenders are being allowed to obtain permits or escaping conviction and punishment.

"He's immature and inept," Cosentino says.

The race in several instances has been marked by coupal strategies.

Electoral Strategy

Edgar as a competent and dedicated administrator with a penchant for the trappings of office, such as trips on state business.

Race is lively for treasurer’s office

Election 82

T. Lee Hughes
Associated Press Writer

CHICAGO (AP) — The job is one of the least glamorous in state government, involving, as the Illinois constitution puts it, the ‘‘safeguarding and investment of monies and securities...and...their disbursement upon order of the legislature.’’

But the race for state treasurer has emerged as one of the livelier contests of the campaign, with the Democrat accusing the Republican of ‘‘tripping to fool’’ the voters and the Republicans criticizing the Democrat for ‘‘a naive political plan.’’

Republican John Dailey, 40, a former banker and real estate developer, has made a proposed constitutional ceiling on taxes the primary focus of his campaign, and is spending heavily for television commercials that promote the concept.

And Democrat James Donnewald, 57, an attorney and veteran state legislator, is proposing to expand deposits of state funds, at reduced interest, in banks that would promise to make loans to small businesses to create new jobs.

Donnewald, of Breese, says the job went ‘‘a step in the establishment of constitutional tax limits, and that Dailey’s advertising is ‘deceitful.’’

Dailey says Donnewald’s bank deposit proposal would result in reduced interest income for the state, and that most state investments are for too short a term to allow the money to be released to job-creating enterprises.

In terms of campaign spending, it’s a lopsided race.

Dailey says he has spent about $20,000 so far in the campaign, including $18,000 of his own money.

Donnewald, in contrast, expects to raise and spend about $50,000 this fall, about $30,000 of it for television and radio advertising.

In promoting the tax limit concept, Dailey is following in the footsteps of Republican Gov. James R. Thompson, who highoğluéd the need for such limits as part of his 1978 re-election campaign. But Thompson was never able to put a tax ceiling approved by the legislature.

Dailey says he has no specific tax limit in mind, and acknowledges that any such limit could be higher than current tax rates, allowing taxes to actually rise.

Donnewald, meanwhile, hammers away with the Democratic campaign theme of job creation. He acknowledges that his ‘‘linked deposits’’ in banks would bring the state slightly lower interest income than usual. But he contends that the new jobs the loans create would eventually bring more tax revenues for Illinois.

Though generally a slow visibility job, the treasurer’s post has proved a political stepping stone for a number of those who have had it in the past, among them S. Alan Dixon and Adlai E. Stevenson, the Democratic candidate for governor.

‘‘I don’t intend to use it as a stepping stone,’’ says Donnewald. ‘‘I’m running for treasurer, period.’’

Dailey says, ‘‘if another opportunity comes up for higher office, I’ll be ready.’’

Wash1ngton (AP) - The Supreme Court agreed Monday to
certify key facts in a "catastrophic," recurring catastrophe must
be certified by the Court before it is allowed to resume at the site
of the nuclear reactor accident.

The lower court said federal officials first mentioned the account
possible psychological harm to residents near the now-
discontinued Three Mile Island nuclear plant and facility outside Harrisburg, Pa.

The court is to decide whether the "affirmative action" programs can be cast aside to
preserve minority workers jobs under "affirmative action" programs.

If said it decide whether rethinking on the issue of affirmative action can
superior officers for more diverse officers.

spoke in a dispute from Nebraska to decide whether the state should be
the high court's discretion that could judging the constitutionality of the nuclear power in the United States. .

The justices already have agreed to decide whether state laws that regulated nuclear plants until all
"whites only" disposal areas are satisfied.

The case the court agreed to hear deals specially with TMI's Unit 1, which was shut down for routine maintenance at the time of the March 25, 1979 accident and was not

Neither unit has been put back into operation since the accident.

A U.S. Circuit Court of Appeals panel ruled by a 2-1 vote, that federal laws that prohibited state and local officials from
consider psychological factors before the non-disposal areas must be put back into operation.

Of the appeals court's decision on the future of nuclear power was challenged by Metropolitan Edison Co., operator of TMI, and a su1duidy of the General Public Utilities Corp. and federal regulators.

The Supreme Court's final decision is expected some time by July.
Roadrunners is for all runners
By Dean Kirk
Staff Writer

The SIUC Roadrunners are a campus group affiliated with a slightly ironic problem. On a campus where joggers are a common sight, the group has only 20 members, most of whom jog at a very slow pace. The commercial recreation service further explained that the group is a social one with the aim of getting involvement from students interested in jogging and running. He made it clear that the club is not limited to students. "The club is open to everyone that's interested," he said.

People have the misconception that we are competitive, and that's not really true," said club president Craig Mergins. "We're out there for the fun and recreation of running." Mergins also said that the club is very interested in the health of the members. "We've got a lot of people that come to the meetings," he said. "It's a great way to get involved in the community." The club meets every Tuesday and Thursday at 6 p.m. in the Student Recreation Center.

Baseball owners dump Kuhn

CHICAGO (AP) - Bone Kuhn, in his 18th year as commissioner of baseball, was fired Monday in a vote of owners that ended 11 months of wrangling over the future of the game. The commissioner was fired in a vote by the National League owners, despite gaining a majority. The vote was 5-3 in favor of Kuhn's re-election, but he needed three quarters of the votes, or more. The American League vote was 11-3 in favor of retaining Kuhn.

Mets, August A. Tweet of the St. Louis Cardinals, Ted Turner of the Atlanta Braves, John McPhail of the Houston Astros and William Williams of the Cleveland Indians voted in favor of Kuhn's re-election. The announcement, made by American League President Lee MacPhail and National League President Ford Frayne, followed a series of meetings during which owners expressed their dissatisfaction with Kuhn.

"We regret to say the commission has failed to re-elect,'" MacPhail said.

Frayne said the M.L.B. voted on a proposed compromise that would have kept Kuhn in office, but was "surprised" that the owners did not agree. It was surprising that the owners of the group that voted for Kuhn's re-election were not announced, they reportedly were cast by owners Nelson Doubleday of the New York Mets, August A. Tweet of the St. Louis Cardinals, Ted Turner of the Atlanta Braves, John McPhail of the Houston Astros and William Williams of the Cleveland Indians.

The SIUC Equestrian Team

The SIUC Equestrian Team was reserve champion in Hunt Seat, placing behind University of the South in its six-school home show this weekend. The SIUC riders were third in stock seat. SIUC riders placed in 17 of the 20 Hunt Seat categories, according to Coach Myke Ramsey. Top riders were Jerene Olen, Kelly Fallay, Beth Baldwin and Linnette Starn.

On Stock Seat, Diane Velehnisk took first in the beginning class.

Ramsey gave credit to several of the riders, noting that judging can be subjective and often riders and coaches are surprised with the placings they receive.

She also said that the horse show could not have been held without the help of several people in the community who lent horses to the club.

Ruggers take Ghouls title

by Brian Higgins
Staff Writer

The SIU-C Ruggers hosted one of the Midwest's largest rugby novels, the annual All-Ghouls tournament this weekend.

Although the SIU-C squad had no qualms about sharing its beer at what usually also turns out to be one of the Midwest's biggest parties, it wasn't sharing anything on the field. The Ruggers, who host one of the Midwest's largest tournaments this weekend, were stronger in the pack. The Ruggers look their first title in the Halldawson tradition, competing in the eight-team Midwest Division. SIU-C pulled out a first-round, 6-3 victory over Eastern Illinois to become one of four teams to enter into the championship bracket. The Ruggers doubled their opponents' score again in the semifinal knocking Illinois State out of the title hunt with a 12-6 win. Southeast Missouri, meanwhile, was advancing through the bracket steadily, and carried a spot in the final with the same SIU-C team that they had knocked from the tournament in five meetings last year.

"The only problem we would have had was with SEMO," club president Brian Gallagher said. "They're bigger than us. Everybody was wary at first because of their size. But we were stronger in the pack. We were in their zone the whole game."

Controlling the ball in SEMO's zone was exactly what the Ruggers did while taking revenge on Eastern Illinois's loss last year's championship with a 15-0 championship victory over John Gladbach, the Ruggers' full-back specialist, accounted for all 15 points on five penalty kicks.

SIU-C monopolized the White Division also, making the tournament a Carbondale affair as the "B" team claimed a 12-6 win over the Old Load, a group of former SIU-C ruggers. The "B," squad advanced to the final with a preliminary 16-0 win over of Western Illinois, followed by a 12-6 drubbing of Fidacab in the semi-finals.

Dempsey hopes week off will restore frustrated Salukis

By Dan Devine
Staff Writer

SIU-C's stay in the elite ranks of the NCAA Division I-AA poll was short—just one week. The Salukis have since lost five out of six games, and some frustration is beginning to show. Sources say this could hurt the Salukis in their upcoming game with Illinois State on Saturday.

Still, the Salukis held some hope for a win over the Illinois State team. "It's not from lack of effort or lack of talent, and instead blamed mistakes and poor execution," said Eastern Kentucky's coach. Eastern Kentucky had the number one team in Division II.

The Salukis will face a tough challenge against Illinois State, who is currently ranked higher in the polls.

The Salukis are struggling with their offensive lines, as their defense has been unable to stop the Illini's powerful offense. "We need to improve our defense and cut down on penalties," said Saluki coach. "It's a tough game, but we're ready to face the challenge."
