THE SOUTHERN ILLINOIS UNIVERSITY

VOLUME 34

CARBONDALE, ILLINOIS, WEDNESDAY, JULY 23, 1953

No. 62

Devise Four-Year Health Sciences Curriculum

Southern Illinois University, prompted by shortages of public health personnel and encouraged by health officials in several states, plans to inaugurate an undergraduate program in the health sciences—the first of its kind in Illinois.

A four-year curriculum has been devised to give sound fundamental training to students interested in such medical fields as public health laboratory work and sanitation. The pre-professional program will also qualify students for admission to medical schools or graduate schools of public health.

Ralph Boatman, acting chairman of SIU's health education department and director of the new program, said there are many opportunities available in fields related to medicine and not enough adequate training of personnel to meet demands.

"Many people in public health, for example, have entered the field by devious routes, and sometimes by accident," Boatman said. "In the Illinois Department of Health, there have been vacancies in the more specialized jobs since before World War II.

The proposed curriculum in Southern Illinois College of Liberal Arts and Sciences will require field study in public health laboratories or county health departments.

Dr. Howard Shaughnessy, deputy director of laboratories for the Illinois Department of Public Health, director of the Division of Health at the University of Illinois, said state laboratories would be open to students for observation, and plans were being made for them to acquire several months of full-time on-the-job training. Clarence H. Sloan, director of the Division of Sanitary Engineering of the state health department, said students would also be invited to observe activities at county health offices or make field trips with sanitary engineers to investigate food and drinking water and sewage disposal facilities.

The regional office of the state health department, under Dr. Stan Andelman, and a public health laboratory, under Nathan Nagle, are located in Carbondale.

The program, expected to start in September, is the first of its kind in other states, too. F. H. Waring, Ohio sanitary engineering director, said that he would seek records for training at SIU and would have jobs available for them upon their completion of their studies.

The program is flexible enough that pre-medical students need not pursue a major in a specific field. Instead, they can take a battery of courses in health sciences, including a number of electives, while meeting minimum requirements for admission to medical and dental schools.

The curriculum for students in administration at SIU in 1951. His interest in sanitation is based on a undergraduate major was in general health. Boatman said the health sciences curriculum would enable public health students to go on to one of the nine graduate schools of the United States and Canada to work on a master's degree. Boatman also has been immediate specific skills leading to jobs in public health laboratory workers.

Cannon Accepts C of C Position At Metropolis

James F. Cannon, 26, assistant director in the Southern Illinois University Division of Extension, is assigning to accept a position as executive secretary of the Metropolis Chamber of Commerce, Day Monday. Cannon, 26, is a student at SIU Extension Division, has announced. Cannon will begin his duties in Metropolis Aug. 1.

Cannon, a member of the SIU staff since his graduation in March, 1950, had been responsible for directing educational conferences on campus and performing other extension duties. He received his master's degree in school administration at SIU in 1951. His interest in sanitation is based on a undergraduate major was in general health. Boatman said the health sciences curriculum would enable public health students to go on to one of the nine graduate schools of the United States and Canada to work on a master's degree. Boatman also has been immediate specific skills leading to jobs in public health laboratory workers.

"Manon" Ends Series Tonight
Summer's Films Show Variety in Type, Nationality

Tonight the Lectures and Entertainment Committee will give a rainless run of six Wednesday evening movies with "Manon." The movie six-week series, with each performance beginning at 8 in McAndrew stadium, has included a variety of types of pictures, as well as a variety of nationalities in the picture.

The first in the series was the 1950 American comedy "Sitting Pretty." It was followed, on June 24, by "Carnival in Flanders," a French historical picture filmed in 1936. Following "Carnival" is the dramatic biography of President Wilson was presented in "Wilson," another American picture. "Paris" is an Italian film directed by Roberto Rossellini was shown on July 6. Then,

ALL SUPPLIES SALES WILL BE DISCONTINUED JULY 31

All supplies sales on Public Law 346 and 16 as well as the Vocational Rehabilitation bill will be discontinued on Friday, July 31, 1953, according to Carl T. Laugh, manager of the University Bookstore.

ANTHONY HALL

Lt. Gen. Harper To Speak At Commencement

The commanding general of Scott Air Force Base, Lt. Gen. Robert W. Harper, will be the speaker at the August commencement of Southern Illinois University. The ceremony begins at 7 p. m. Friday, Aug. 7, in McAndrew stadium.

General Harper was graduated from the United States Military Academy in 1924. He entered the armed forces as a second lieutenant in 1924 and advanced to his present post in the United States Air Force. General Harper is also the commanding general of the Air University and of the Air Transport Command.

Girls Say Bye To Anthony Hall

By Oma Dorris

For the last time in its 40 years, Anthony Hall is filled with the laughter of the gay college coeds here on Campus. Anthony Hall will never bustle with the excitement of all the girls preparing for its annual formal dance, never to be the last of another season by the voices of all the girls during a house party, never to be the scene of a party to which the girls who called Anthony Hall "home." When fall term begins, men will dash down the front steps to their 8 o'clock classes, instead of the 100 women that once lived there.

Anthony Hall, as most buildings here on campus, has a history. It was completed in July, 1915, but was dedicated on October 12, 1911, the same day H. W. Shrock was inaugurated as Southern's President.

Anthony Hall, named in honor of Susan B. Anthony, famous orator for Women's rights, was named because upon this what was then a new modern dormitory for the women on campus.

The rules which were set up were as stern as if Susan B. Anthony herself had made them. There were 7 to 9 every evening, and reinforced unchanged to many of its 40 years. Lights had to be out by ten and an infringement of these laws was promptly reported to the president of the college. Another rule was that no resident of Anthony Hall was allowed to attend any social function either on or off the campus unless the affair was properly chaperoned. No girl was permitted to go driving alone with a young man unless a chaperone accompanied them on the drive.

Merrick Named Assistant Dean

Boswell C. Merrick, athletic coach and instructor at the Teachers College of Connecticut since 1946, has been named assistant dean in the College of Education and is now the coordinator of health, physical education and recreation by the SIU board of trustees.

Merrick will assume his new duties at Southern Aug. 17 as an associate professor will combine his duties in health, physical education, outdoor education, and athletics so these programs can work together effectively. Records, he completed a tour of the country, investigating the programs of health and physical education on numerous college campuses and acquiring himself with the latest methods and developments.

Merrick holds a bachelor of science degree from Springfield college, a master of arts degree from New York university and will receive his Doctor of Education degree from Boston University Aug. 3.

Twenty-Eight Workers Needed For Registration

Twenty-eight people, who have work in fall registration, September 10-14.

Those interested may see Alice Rector in Office of Student Affairs, 3.

A group of beauties take time out from office work to lend a hand at relighting an ad panel for the Illinois State Fair. This is the last one of the million tags which must be done before the nation's top agricultural exposition opens in Springfield for its ten-day run on August 14.

SIU Ready To Greet Freshmen Students

By now most of Southern's new health service information. Advisors assign students to their classes. A check list of all new students will be returned to the Office of Student Affairs as soon as they received their first group of names from the registrar's office, said Miss Brylford, supervisor of student activities. The first set of mail in-layers, which was chosen by application, included a copy of Southern Style during Spring term. Later on, they will receive a program of assignments and a check list of all new students. The following week will include the following activities:

On Tuesday, Sept. 6, at 8 p. m. there will be a mixer at the Y. The first group of names from the registrar's office, said Miss Brylford, supervisor of student activities. The first set of mail in-layers, which was chosen by application, included a copy of Southern Style during Spring term. Later on, they will receive a program of assignments and a check list of all new students. The following week will include the following activities:

Select Assembly 1896 Alum Gives Speakers For First Donation to Fall Freshmen Scholarship Fund

A \$5000 donation by Mrs. Leah Ruff, 703 S. Rawlings, Carbondale, is the first contribution to the Roscoe Pulliam Memorial Scholarship fund which was set up at Southern Illinois University last month. It was announced recently by Mrs. Ruff is an 1896 alumna of Southern.

Speakers for next fall term's freshman assemblies have now been selected, according to Dr. C. Horton Talley, of the Lectures and Entertainment Committee and chairman of the University speech department. The complete list of speakers for this year at Southern, which is at 10 a. m.

The first in the series is "I'm a Guy," Sept. 17. On this program of Southern's Alumni Service, said Sidney Montague, a Canadian her gift would be pooled with money remaining from a \$1,500 fund collected for a memorial which human relations and a spokesman for the United Nations, will speak.

Oct. 1 will bring Russ L. Guin, a former member of the Illinois State Teachers College, and Louis J. Alber, an author and foreign correspondent (a man who predicted that Malenkov would be Stalin's successor), will speak at the Oct. 8 assembly.

No speaker has been selected for Oct. 15 (Thursday, Oct. 22). Oct. 22 will bring a 3-act film "Life among the Eskimos" as seen and experienced by a three-year trip. There are no definite plans for the Oct. 29 assembly.

On the Nov. 5 program, Henry Bridges, a naturalist and film lecturer, will present their "Journey into the Amazon." John H. Furber will address the freshmen on Nov. 12, on "Global Strife for a Global World." Mr. Furber is connected with a large airline. There are no definite plans for the next two assemblies, but on Dec. 3, George Davis of Parul University will speak on James Watson Riley, founder of the Hoosier Poets better poems.

Student Council Says Leadership Conference Plans

Student Council members have been planning a campus leadership conference to be held at Grand Circle Friday and Saturday, Sept. 25-26.

Committee members in charge of the conference were appointed by James Manning, campus leader and president of the organization, to meet on Friday and Saturday, Sept. 25-26.

Other topics considered at the summer session were the Homecoming election day. Parents' Day chairman, and chairman of High School Guest Day activities.

According to recent plans, petitions for the Homecoming prizes will be distributed on Oct. 13 and will be on Oct. 19, the day before the election.

Special Film To Be Shown Tonight

A special feature at tonight's movie will be "The Around the World in 80 Days" which is a 20-minute film of activities, places, and events filmed by the Audio-Visual Aids during the past five years.

Donald A. Ingh, assistant professor in Audio-Visual Aids, says the film is a unique chronological sequence of these scenes and it is intended to give you a pictorial review of some of the happenings of the last five years.

Included among the events to be shown are scenes taken at the time of President D. W. Morris' inauguration, a Memorial Day celebration, the Century parade, and the Orientation Week, football "chomp" show at St. Louis, the Benton fire, campus flowers, winter scenes, a beauty contest, fall scenes at Grand City and Cave-in-Rock, the Century parade, and Governor Harold Straton and the dedication of new buildings.

Board Re-instates Nursing Program

The board of trustees of SIU has agreed to reinstate a nursing education program after receiving input from University officials, cost estimates for the next four years. An earlier program of nursing education was discontinued last year.

A nursing educator will be employed at once and the men are talking over and with the coming of fall term the dormitory named after the famous woman suffragist will be occupied by men.

Third Lemonade Hour At Union Tomorrow

Students and faculty members have been invited to attend the third and final of the lemonade hours sponsored by the Student Union tomorrow from 9:30 to 11 a. m.

Previous lemonade hours have been held in the Student Union building on June 15 and last Wednesday, July 22.

Board Re-instates Nursing Program

The board of trustees of SIU has agreed to reinstate a nursing education program after receiving input from University officials, cost estimates for the next four years. An earlier program of nursing education was discontinued last year.

SIU Forms New Sangamo Pact

A new agreement between Southern Illinois University and the Capacitor Division of Sangamo Electric Company will provide funds for a research program and scholarships for students majoring in physics, it has been announced.

The program calls for capacitor research by the physics department at Southern and the establishment of two \$500 undergraduate research scholarships, which became effective July 1.

H. L. Huiz, vice-president in charge of the company's Capacitor Division headquarters in Springfield

Householders To Have Annual Fall Workshop

The Annual Householders' Workshop will be held on Friday, August 28, in the lounge of Anthony Hall. This year the workshop will concentrate on "Educational, Social and Recreational Opportunities in College Living Centers," with Mrs. Dallas Silvera as chairman.

Registration is at 8 o'clock a. m. with a very interesting program through the entire day. In the morning there will be a talk by Miss Mildred Schenberger, Acting Dean of Women, on "Developing Educational, Social, and Recreational Programs in the College Living Center."

Also on the program is a demonstration of a typical house meeting, by Mr. William Rogge, Supervisor of Men's Residence Halls, and a tour of Woody Hall has been planned. At 12 o'clock there is to be a luncheon in the Anthony Hall dining hall, followed by a talk on "Personal Service of Southern Illinois University Householders," by J. Clark Davis, Acting Director of Student affairs. In addition there is to be a movie and a social hour. It is during this period that the householders are informed as to what the students expect and want in housing.

Release Summer Term Final Exam Schedules, Rules

Below is the final examination schedule for summer session according to Dr. Robert A. McGrath, Registrar.

Thursday, August 6
7:30 classes 7:30
10:20 classes 10:30
1:10 classes 1:30

Friday, Aug. 7
8:55 classes 7:30
11:45 classes 10:30
2:35 classes 1:30

All examinations will begin at the hours scheduled above and will run for two-hour blocks except for classes that meet only one or two hours a week. Examinations for these will begin at the end of the two-hour examinations and will run for one-hour blocks. This arrangement is necessitated in order to take care of three, two, and one-hour courses that meet at the same period.

In case more than one class meets at the same time, one meeting there three or four days a week should have priority in the room for the final examination. Any instructor without a room for a particular class is requested to check with the Registrar's Office for an assignment. All examinations must be given at the time scheduled. A student who for some reason must miss the final examination may not take an examination before the one scheduled for the class. In this case, "WB" followed by the tentative grade should be received by the instructor. The final examination may be given at a later date within one year.

Our Opinions

With final exams looming ahead next week, summer school at SIU is almost at an end. It has been a rather peaceful summer at Southern with no parades, raids, fires, or grand purges by the administration. Although summer term began

on a sour note with the incomparable complications of registration day, it has flowed along rather quickly through the humid days of June and July. The mornings have been taken up by classes, and most of the afternoons have been spent swim-

Jay Ellis, first-term pre-med student from West Frankfort, cools his tired dogs in the water at the fountain east of Old Main

ing, working, or playing tennis by most students. The Student Union has had more than its share of bridge players this summer, many of whom have returned to the campus after being away a few months. They consistently refer back to the good old days in the Canten when all-day bridge games were not uncommon. The University has provided

Three of SIU's ROTC Officers Are Transferred

Three officers have been transferred after serving two years in the Air Force ROTC detachment at Southern Illinois University.

Lt. Col. Benjamin B. Vickers, Kanokos, education and training officer, has been assigned to the Fifth Air Force in Korea. His wife will move to Louisa, Mo.

Capt. Paul M. Lund, Jr., assistant professor of air science and tactics who formerly lived in Madison, Wis., will serve with a Military Air Transport unit in the Pacific.

First Lt. Kenneth F. Shuet of Glenoco, Minn., also an assistant professor at Southern, will attend the Air Force Institute of Technology at Dayton, Ohio. His family will accompany him to his new post.

Duties of these transferring officers will be filled by other personnel before school starts in September according to Lt. Col. O. K. Halderman, commander of Southern's AFROTC detachment. New additions to the staff will raise the total number of Air Force personnel at SIU to 11 officers and eight airmen, compared with seven officers and six airmen last year.

T-Sgt. Wade G. Gardner of Manila, Ind., an air sergeant instructor, will be transferred to the Far East. Col. Halderman said. He was replaced by S-Sgt. Charles N. Joyce of Elk Point, S. D. Joyce came to Southern from Hamilton Air Force Base, Calif.

Grow Your Own Tame Blackberries

Why put up with chiggers, ticks, annoying weeds, and the clanging brambles of unpruned, tangled vines to pick blackberries growing wild abundantly in Southern Illinois? Dr. Lowell R. Tucker, horticulturist at Southern Illinois University,

and regular students are picking up extra hours.

At the end of next week over 2,000 students will leave the SIU campus and scatter throughout the nation, some to never return, but already the administration is making plans for 1,600 new students next fall.

The Egyptian has tried to present a record of events during summer term at SIU using both words and pictures. Mistakes have not been uncommon in the Egyptian, but no threats have been made upon any staff member's life and no serious repercussions have evolved. The entire staff hopes that you have enjoyed the four issues of this publication and will refer to it in future years for a diary of the on- and off-campus, warm, summer at SIU. J. A.

Auto Industry Offers Many Good-Paying Jobs

One out of seven wages earners today is connected with the automotive industry, says Jon Adams, supervisor, industrial and technical division, Southern Illinois University Vocational-Technical Institute. The well-trained young man will find good paying jobs or business opportunities plentiful in this field.

A two-year program for preparing young men to grasp opportunities in general or specialized automotive service is in progress in the VII-degree school at the Institute. Southern Area campus 10 miles east of Carbondale. Additional students may enroll for the opening of the fall term Sept. 8.

The Institute automotive service shop has the type of equipment found in the modern garage, including paint shop and washing facilities.

Second Science Workshop Begins

The second science workshop at Southern Illinois University this summer got under way Monday, Aug. 24. Four hours of college credit is offered to the elementary education students and teachers who are participating.

SIU instructors explain and demonstrate how elementary teachers may combine the teaching of science with other subjects, such as history or geography.

The teachers are spending about six hours each day in panel discussions, classroom lectures, special projects and field trips.

Dr. Clyde Brown, associate professor in the University School, who is directing the workshop, said it has three main purposes: 1. To give teachers science experience to enrich the teaching of science in elementary schools. 2. To give teachers the opportunity to exchange ideas with people doing the same job, and 3. To allow them to meet and science education.

The final workshop will be concluded Aug. 7.

Women's PE Classes Take To Golf Course

About 30 Southern Illinois University ladies golfers will make their first tour around a golf course Monday and Tuesday when the SIU women's physical education classes visited the Jackson Country club course.

The trip is a regular part of spring and summer term golfing classes held at the University.

SIU, City Officials Inspect Forest Lab

Southern Illinois University officials and representatives of the Carbondale forest research center of the U. S. Forest Service returned from Madison, Wisconsin, July 21 after inspecting a Forest Products Laboratory there.

Making the trip were SIU President D. W. Morris; Ernest Simon, director of Southern's Vocational-Technical Institute; Dick Lane, former in charge of the Carbondale forest center on the SIU campus, and David Herrick, research forester.

Moburr Exhibits Art Work In Home Town

Leon Moburr, 26, a graduate artist at Southern Illinois University who has achieved national recognition for his ceramic creations, is exhibiting 40 pieces of modern pottery and silversmithing in his home town, Monmouth, this week.

Moburr's work is being shown at Monmouth for the first time, in addition to the Warren County library, though he has been represented in art museums and art shows from Syracuse, N. Y., to Atlanta, Ga. He won first mold found on cheese and other food exhibition.

Do You Have Hay Fever?

Some hay fever victims who suffer less if they were better housekeepers, a Southern Illinois University botanist said today.

Dr. Leo Kaplan said molds which float through the air in inestimable quantities, growing and reproducing in damp places and under the kind of woodwork and in over-stuffed furniture, are a frequent cause of sneezing and running noses.

Ragweed and the pollen of other plants are commonly recognized as the major source of hay fever, but many cases have less importance of common air-borne molds; is frequently overlooked.

skin tests made by Dr. Kaplan in cooperation with Mrs. Francis M. Robinson and Lewis Webb Hill of Boston, show that 20 per cent of allergic people of all ages show a reaction to extracts of the common molds. Unlike pollen, mold penetrates the air throughout the year. However, his research has shown that in some areas, at least, there are more prevalent in the spring and fall, Dr. Kaplan said.

Molds are less common in new homes, and many persons have enjoyed complete relief from this type of hay fever by changing their residence, according to the SIU botanist. "There is a great abundance of mold in rural areas, and urban centers have less invasion from them to feed upon. Dr. Kaplan said but vacant city lots provide excel-

Research Project Receives Grant
A grant of \$2,000 was awarded a cosmic ray research project at Southern from the Research Corporation, Dr. O. B. Young physicist professor has announced.

Last March the U. S. Office of Naval Research approved Southern's participation in a project that Navy has subsidized at the University of Chicago since 1947. Because funds were not available for Southern's part in the research program, the Navy gave permission for SIU to seek financial support elsewhere.

School Boards Attend Workshop
Approximately 50 school board members and chief school officials from six Southern Illinois towns attended the third and final in a series of workshops for their group last Thursday at the University School auditorium, according to Dr. Woodson W. Fishback, project coordinator.

Topics presented at the session were Belleville, Edwardsville, Chester, Murphysboro, New Haven, and Shawneetown. The meeting began at 4 p. m. with a question-and-answer session. Questions were directed to a panel made up of Dean Douglas F. Lawson, College of Education; Dr. M. S. Hixler; Dr. Orville Alexander; Dr. Jacob Bach; and Dr. Fishback.

Dr. John Bracken, superintendent of education, also was president of the American Association of School Administrators, addressed the group after dinner giving an "Analysis of Problems Superintendents and Boards of Education Face Today."

During the course of the evening the participants heard reports of administrators who attended a similar workshop at the University of Chicago on July 20 and 21. The Midwest Administration center of the University of Chicago participated with SIU in this program of consultative help designed to enable members of school boards to do better jobs.

Faculty Members Give Report on NEA Meet

Reports on the June 29 to July 5 meeting of the National Education Association at the University of Miami were given by two members of the Curriculum and Degrees Committee at Thursday's meeting.

School Men To Confer On Their Legal Problems

A conference on legal problems in school administration will be held at Southern Illinois University Sept. 16, Raymond H. Dey, director of the SIU Division of University Extension, announced today. The SIU Education department, in cooperation with the extension division, will sponsor the event.

The program is directed toward school administrators, current superintendents of schools, school board members, and members of county boards of school trustees. Discussions will be concerned with interpreting new school legislation with some consideration given to proposed bills desired by school men, Dey said.

Comprising a planning committee for the conference are: William Carden, Murphysboro, chairman of the legislative committee of the Illinois Education association; Leo Shoberg, Murphysboro, chairman of the secondary schools committee of the Southern Illinois Schoolmasters' club; Gordon Dodds, West Frankfort, president of the Southern Illinois Schoolmasters' club; Jackson Drake, Karnak, president of the Southern Division, Illinois Elementary School Principals' association; Dale Wilson, Harrisburg, president of the Illinois County School Superintendents' association; and the following SIU staff members: Dr. James Carvson, and Miss Doris Schvinn, extension division; Orville Alexander, government department; John Rendleman, legal adviser; Douglas E. Lawson, Fount Warren, Woodgas Fishback, and William Shelton, education department.

Rendleman To Serve On Illinois Bar Association

John S. Rendleman, legal counsel to the president of Southern Illinois University, has been invited to serve as a member of the executive committee of the junior law section of the Illinois State Bar Association.

Rendleman will also be a member of the Association's Committee on Continuing Legal Education for the coming fiscal year.

Southern Graduates Secure Employment

Below are some of Southern's former students who recently have secured or changed employment as reported by SIU's placement service:

JOYCE IDIENE TRESCH, New Athens, a June graduate with a major in history, has accepted a position as teacher of social studies and English in the Taylorville junior high school.

MRS. JERRY ENGLE, Swanwick, candidate for a degree in August, has accepted a position as kindergarten teacher at Rowland, Mo. Mrs. Engle is majoring in elementary education and is a member of Future Teachers of America, Women's Athletic Association, Girls Rally, and Pi Lambda, honorary education organization.

MISS LOIS ANN PRINCE, Crossville, who will be graduated in August with a major in elementary education, has accepted a position as third grade teacher in the Crossville Community school.

JOHN R. HEPLER, Johnston City, a June graduate with majors in industrial education and zoology, has accepted a position as research and production technician at the Cash Orchard near plant of Universal Milk company. He was a member of the Industrial Education club.

ANNA MARIE JOHNSON, Mt. Vernon, a June graduate, has accepted a summer position as assistant manager of Gladys Shosh, Inc., Richmond, Ind. A co-society member at SIU, Miss Johnson was co-edited with honors and was a member of the SIU Honor Society; Gamma Theta Upsilon, an honor society; Phi Kappa Phi, an honor society; and Kappa Delta Pi, an honor society.

PATRICIA BURKS, O'Fallon, a 1952 graduate, has accepted a position as music supervisor in the Vinton Community Unit school. Miss Burks participated in the SIU chorus, band, and orchestra and was a member of the In-Annuitum Student Association and Phi Sigma Mu, music honorary organization.

JAMES H. CLARK, Zeleva, a 1949 graduate, recently accepted a position as life insurance underwriter with the Great West Life Assurance Company at Dallas, Tex. Clark is married and has one child.

MRS. WILLIAM L. TRIPP, West Frankfort, a June graduate majoring in home economics, has accepted a teaching position in the Dunlap high school near Peoria. Mrs. Tripp is the former Eleanor Louise Cable. She was a member of Girls Rally and received the Kappa Omicron Pi home economics award.

PATSY JUNE NICKOLOFF, West Frankfort, a 1952 graduate, will teach English in the Gooden-Barren high school Sesser, during the coming year. At Southern where she majored in history, Miss Nickoloff was a member of Pi Lambda, honorary education organization;

WILLIAM S. LYNCH, an August 1949 graduate, has accepted a teaching position in the Tamm Community high school. A physical education major at SIU, Lynch was a member of Gamma Theta Upsilon, honorary geography fraternity, and the Southern Knights.

MRS. FRANCES HUFF, 1950 graduate, has accepted a teaching position in the Murphysboro Township high school. Mrs. Huff was an English major and a member of Pi Lambda, women's education honorary.

MISS YOLANDA JOQUITH, a June graduate, has accepted a teaching position at Monticello college. Miss Joquith was a physical education major at Southern and a member of the Women's Athletic Association, the Women's Physical Education Professional club, and Pi Lambda, women's education honorary.

College Band Makes Good

A comparative rarity — a commercial record by an undergraduate college dance band — went on sale late this summer in campus record stores in all parts of the country.

The record, "Cream Puff" and "September In The Rain," was made for Capitol by the Los Angeles City College "Collegians," winners of a contest sponsored by Metro-home Magazine to find "the best college dance band in the land."

Making a popular record under a major label, which will bring the band to the attention of the "big time" in short order, was a prize in the contest, in which runners-up included Fred Dale's Band (Indiana university), Charlie Scott's Band (University of Richmond), and Ed Gerlach's Band (University of Houston).

Fronted and mentored by Bob MacDonald of the LACC music faculty, the "Collegians" are a seventeen-piece swing group which features original, modern arrangements. MacDonald, a veteran dance musician, has been arranged for Fred Norvo, Benny Goodman, and Bunny Berigan.

A pretty girl, Sonia Esler, plays bass fiddle in the group. The winners were selected on the basis of pre-recordings submitted to the judges: Bandleaders Stan Kenton, Ray Anthony and Billy May; Alan W. Livingston, Vice-president of Capitol Records; George Simpson and Barry Ulanov, editors of Metro-home Magazine.

"Cream Puff," feature side of the new record (2536), is an original piece of "progressive" jazz written by the LACC band's pianist, Bob Florence. A second record made by the "Collegians" is tentatively scheduled for release this winter.

WILLIAM S. LYNCH, an August 1949 graduate, has accepted a teaching position in the Tamm Community high school. A physical education major at SIU, Lynch was a member of Gamma Theta Upsilon, honorary geography fraternity, and the Southern Knights.

MRS. FRANCES HUFF, 1950 graduate, has accepted a teaching position in the Murphysboro Township high school. Mrs. Huff was an English major and a member of Pi Lambda, women's education honorary.

MISS YOLANDA JOQUITH, a June graduate, has accepted a teaching position at Monticello college. Miss Joquith was a physical education major at Southern and a member of the Women's Athletic Association, the Women's Physical Education Professional club, and Pi Lambda, women's education honorary.

How Nickel Can Vote With Other Trustees

Vernon L. Nickel, Superintendent of public instruction in Illinois, became a full-fledged, voting member of Southern Illinois University's board of trustees under terms of a new bill passed by the legislature and signed by Gov. William Stratten recently.

Previously, the superintendent of public instruction was an ex-officio member, serving in an advisory, non-voting capacity. The bill, introduced by State Sen. R. G. Crispenberg of Murphysboro, increased the number of regular board members to eight.

VTI Sets Up Court Reporting Curriculum

Trained court and conference reporters—persons of highly specialized education—are scarce and provide well-paid careers for qualified persons in the secretarial field, according to Harry B. Bauerfeind, supervisor of the business division, Southern Illinois University Vocational-Technical Institute.

Kappa Delta Pi Honors Suhrie

A tea, honoring Annette H. Suhrie, Collegeville, Tenn., guest speaker at the Southern Illinois University High School curriculum workshop last week, July 20-23, was given at 4 p. m. Wednesday in the University School auditorium.

Members of the workshop class, and faculty of the business and special education department and the college were guests at the tea. Suhrie is educational consultant for Southern Missionary college and emerita professor of education, New York University.

Greeks Plan Fall Rush

Sororities and fraternities started planning their fall rush at summer meetings held Saturday, July 18. Plans have been made to postpone the rushing of new students until they have had a chance to orient themselves and become acquainted with each of the Greek organizations and the activities they offer.

Students Travel To Myny Opera

Three carloads of students went to the St. Louis Municipal Opera July 20, according to Miss Elizabeth Greenleaf of the Office of Student Affairs. The opera goes left the Student Union Monday at 3 p. m. to see Vincent Youmans' musical comedy "No, No, Nanette."

SMITH WRITES ARTICLE IN YALE FRENCH STUDIES

An article by Dr. Madeleine Smith of the department of foreign languages at Southern Illinois University appears in the current issue of Yale French Studies. It is titled, "Mallarme and the Chimeres."

Dr. Smith, who wrote her doctor's dissertation on Mallarme at Yale last year, was one of the founders of the magazine.

have a salary of \$3,600 set by the state and receive additional fees for each copy and transcript prepared, he says. Since there are only three authorized institutions in the nation for training court and conference reporters, the Southern Illinois judge usually must rely on a highly efficient office stenographer who has been trained for this work.

To provide preparation for this specialized career the SILL Vocational-Technical Institute has set up in its business division day school a two-year curriculum, beginning in the fall, Bauerfeind says. Court procedure, business law, sound training in English, thorough preparation in taking two-and four-voice dictation, and proper procedures for preparing transcripts of court or conference proceedings either in Gregg or machine shorthand are included in the course of study.

Prerequisites for entering the two-year court reporting curriculum are the equivalent of two years of previous training in shorthand and typewriting and one year of business law, business English and business speaking. Student deficiencies in these prerequisites may be made up in the Institute before entering the court reporting curriculum.

50 Disabled Children Camp at Giant City Park

Some 50 handicapped youngsters concluded two weeks of fun at Giant City State park on July 18. The summer camp, made possible by contributions to the last Easter Camp in Southern Illinois, allowed the young victims of crippling diseases to participate in games and events from which they are normally excluded.

A dozen counsellors from Southern Illinois University, under Camp Director Don Haines, instructed the children in such activities as: croquet, archery, handcraft, croquet, swimming, softball and other games.

The children visited the county fair at Pinckneyville and traveled to St. Louis to watch the Browns play the New York Yankees. The youngsters also experienced nature study excursions, outdoor cooking, and camping nights.

External Factors Affect Industrial Expansion

(Editor's Note: This is the concluding article in a series on Dr. Oliver W. Beinfuhr's study, "The Industrial Potential of Southern Illinois.")

Geographical position is one of the major basic long-run assets favoring industrial development in Southern Illinois, says Dr. Oliver W. Beinfuhr, assistant professor of geography and geology in his study, "The Industrial Potential of Southern Illinois." The study covers 32 of the 34 southernmost counties, excluding the metropolitan-type counties of St. Clair and Madison.

Southern Illinois lies on the southwest margin of an "area usually referred to as the American Manufacturing belt, which expanded westward and southward from the highly industrialized East. This westward shift has been prominent since 1929 but as yet has not" developing strongly in Southern Illinois, he points out.

In addition to the area's natural resources, power and water supplies, and labor situation which influence expansion, there are also external factors influencing industrial expansion which should favorably affect the development of manufacturing in the area, Beinfuhr observes.

PHYSICALLY handicapped youngsters play Robin Hood at Giant City park. SIU sponsored two weeks of fun for the children recently by providing camp facilities and counselors. There were also some handicapped children at Little Grass Camp, another site for SIU's outdoor program this summer. Contributions to the last Easter Seal campaign in Southern Illinois helped finance the project. Don Haines directed the camp's activities which included archery, handcraft, croquet, swimming, and softball. Dr. William Freeburg, director of Southern's outdoor program, helped arrange the camp.

3. Transportation facilities and capable of sustaining an expansion with sources of raw materials, markets, and the American Labor and its leaders are becoming increasingly aware of the fact that "Nine Class" railroads, serving two-thirds of the nation enter or pass through Southern Illinois. Three come more or less to prospective lines give the area 12 to 26 hour passenger service to the major cities of northeastern states.

4. Movement of the nation's center of population into Southern Illinois — near Olney — places the area in a favorable location for many of the favorable aspects of position, transportation, forests, minerals, power, and labor, the prospects for a continued and sound expansion of the area are promising.

5. Two great metropolitan markets, St. Louis and Chicago, are within easy reach by railroad and highway transportation.

6. Movement of the nation's center of population into Southern Illinois — near Olney — places the area in a favorable location for many of the favorable aspects of position, transportation, forests, minerals, power, and labor, the prospects for a continued and sound expansion of the area are promising.

7. In summary, Beinfuhr says the conditions for the people of Southern Illinois are attractive to industry.

Dr. W. E. Kepper, chairman of the Southern Illinois University Agriculture department, presided at the research conference of the American Farm Research Association at Iowa State colleges, Ames, July 23-24, as a guest of the Illinois Farm Supply company.
