Illinois Teacher Contains Article By E. G. Lents

An article, "The Social Scenography of Northwestern," appeared in the May issue of the Illinois Teacher, a publication for all teachers in the state of Illinois. Written upon request of the editor of the maga- zine, the article discusses the roles and duties of a teacher in the social context.

Mr. Lents emphasized the importance of social science and good teaching methods, which he listed as an extensive knowledge of his subject and a high degree of scholarship. The social science is a vehicle for the influence which a school can have upon the community and its way of life as well as on its social, educational, and economic conditions.

The article makes a plea for a better and more thorough preparation of its students for the teaching profession. It is an important contribution to the development of the Illinois State Historical Society.

SOUTHERN TERRITORY TEAM BEATS CAPE IN SEASON OPENER

The E. D. T. C. T. C. tennis team has won important matches on the opening day of the season at the national conference held at the university. The team, captained by Mr. and Mrs. Faw, won over the University of Southern California, 6-1, and are now the leading tennis team in the country.

Mr. Faw has been a great inspiration to his players, and the team is confident of their success in the upcoming season.

ELECTED LAST WEEK BY THE SCHOOL COUNCIL TO GO DUTY OUTSIDE

Vernon Crane, Robert Turner to be 1935-36 Executives of Egyptian

Vernon Crane, of Brooklyn, New York, and Robert Turner, president of the University of Illinois, were elected to serve as 1935-36 executives of Egyptian. When first organized the club covered the program of the 1935-36 Egyptian. Since that time, its program has been broadened to include political, social and economic conditions of the country.

Consequently it was decided that the number of members of the club in each country may more nearly express the interest of that country. Thus the club's position of associate executive during the first meeting was eliminated. Vernon Crane has served as an associate executive of the club. He has contributed greatly to the organization and its activities. Mr. Turner has been a valuable member of the council, and his service has been highly appreciated by the members.

The new executives of Egyptian will serve in their respective countries as the representatives of the club, and will work for the advancement of the club and its activities in their countries.
It is with a great deal of pleasure that I present a majesty's medal to the professor of the week—the head-principal superintendent of the Alca woman Magee—give us a big hand, folks.

Most students and staffs are evidently informing it of the red-rose. Among the students who have occurred in the past couple of months are: Elizabeth Brink, Monica Brown, and Tanya Sanford.

We, the students, are willing to follow through?

One of the strongest spots on the swing, the Fly Swatter, cracked the University high nine in the other game Tuesday by a score of 17 to 5. Snagging five of the Texas Longhorns is the fifty Texas Longhorns in the ninth and the Fly Swatter's win in the tenth and eleventh innings. 

The leading hitters of this morning's victory were:

In the first inning the victories were made possible by a double by Burdette and a single by Hilliard. But the Fly Swatter's winning streak was due to the blazing batting of the University high nine.

Dr. Daniel B. Parkinson was the president of E. I. T. C. immediately preceding President Shryock. The latter worked with and under Dr. Parkinson for several years before he left, because president. The following sketch is an excerpt from a recent interview with the late President Shryock:

"Parkinson was born little north of Madison County, Ill. His 21 A. B. degree came from McKendree and then taught in Austin in a boy's school for a year or more. When Robert A. Slade from E. I. T. C. saw his first president, he recommended Parkinson and the latter was soon offered the position. At first he taught arithmetic and bookkeeping and later science. In the early nineties he had a force of about thirty-three students and attended St. Louis University for one year and later the degree of Ph.D. was conferred on him. In 1893 he became president and in 1907 he was made president of the school and remained in that position until 1915 when he became president emeritus. He was never on payroll until his death. (He lived only two years after his retirement.)"

"This picture shows us the east wall of the hallway shows him in a highly characteristic position where he always was, assumed that pose, and posing the flag, would say, 'I have a few remarks to make.'"
