Campus TV Station Takes Air In Fall

SIU TV Assigned Channel 8

September has been set as the target date for the initial telecast of Southern's new educational television station, WSIU-TV, Channel 8. Temporary studios are nearing completion in the auditorium of the Home Economics Building.

The contract for the construction of the tower, antenna, transmitter and micro-wave relay has been awarded to the General Electric Co. The tower, with an 80-foot antenna atop the steel mast, will measure 903 feet into the air. Location of the structure is to be eight miles north of Du Quoin on U.S. Rt. 51, near Tamaroa.

Start In May

Buren C. Robbins, director of the SIU Broadcasting Service, reported that construction of the tower is slated to start in May.

"The educational television tag doesn't refer to technical equipment; it is just the same type of station that area viewers are watching in their homes every night," explained Richard M. Uray, operations manager of the new station. "The only difference will be in the programming."

"We anticipate that we may start with as much as a 10 hour day, five-day a week programming schedule. Half of the day will be devoted to in-classroom instruction for secondary schools of southern Illinois. The other half of the schedule will be university courses for credit, extension courses, adult education presentations, news and public service programs," said Uray.

The newly appointed manager pointed out that the station would provide cultural enrichment with telecasting of music, drama and programs of areas of interest.

Student Operated

Uray went on to explain that

the behind-the-scenes operations would be handled by students under faculty supervision and on-the-air instruction would be done by qualified teachers.

He said that all the presentations could be live but the station plans to use films and video tapes. Some of the material will be supplied through an affiliation with the National Educational Television (NET) network.

Network Station

"Most people do not know it but actually there are four major networks," declared Uray. "So we will actually be a network station." The NET at present has 55 member stations.

The Home Economics Auditorium has been altered in its design to temporarily house the new operations until the Communications Building is constructed. The only major changes in the temporary studios are that there will be no seats in the amphitheater and no draperies on the stage.

The ramps and tiers for the seats are already in so when it is turned back into an auditorium all that will be needed is seats.

In conclusion, Uray pointed out that the fall programming schedule was subject to change, depending upon when the station gets on the air. He indicated that eventually, probably when the station is in its permanent facilities, the broadcast day might be 17 hours, seven days a week. The length of the day's broadcasting will be based on the needs that will develop for the use of educational television.

Returning To Campus

Three Students Killed, One Injured In Pennsylvania Turnpike Accident

By Peter Powsner
Staff Reporter

Carlisle, Pa.—A 10-day-old 1961 model auto became the tomb of three Southern students on the Pennsylvania Turnpike early Monday morning.

Three students were killed and one injured when their car apparently went out of control, crossed a highway divider, ricocheted off a tractor-trailer truck and spun around.

The dead were identified as David I. Miller, 19, of Newark, N.J., Steven M. Natowitz, 20, and Philip H. Paris, 20, both of Brooklyn, N.Y.

Injured was Steven Sugar, 20, of Brooklyn. Sugar was reported in satisfactory condition in a Carlisle hospital, though suffering from extreme shock.

Enroute To SIU

The four students were enroute to Carbondale from the East Coast following spring vacation. The fatal accident occurred about 20 miles from Carlisle and about 250 miles from New York, in the foothills of the Allegheny mountains.

Paris and Natowitz were killed instantly and Miller died several hours later in a Carlisle hospital.

Pennsylvania State Police reported that the car, owned by Daniel Miller, father of David Miller, crashed into the side of a mammoth 14-wheel truck owned by Roadways and driven by Charles C. Penrose, 44, of Warren, Ohio.

Penrose, attempting to avoid the plummeting auto, drove off the pike and plunged down a 65-foot embankment. The driver escaped serious injury.

Car Demolished

The Miller car, which apparently was driven by Paris, was virtually demolished.

Funeral services were conducted for Philip Paris Tuesday in Brooklyn. Services were conducted Wednesday for David Miller at the Phillip Apter and Sons Funeral Home in Maplewood, N.J., and for Steven Natowitz at the I. J. Morris Funeral Home in Brooklyn.

David Miller was a freshman enrolled in the School of Business. (Continued on page 7)

Engineering Bill Nears Passage

Southern's desire to have an engineering school may soon be fulfilled. Tuesday the Illinois House passed a bill to allow SIU to grant engineering degrees, 109-3.

The vote was the third and final reading in the House; now the proposal goes to the Senate where Sen. Everett R. Peters, R-St. Joseph, has said that he will withdraw the opposition that he has offered in previous years.

The House bill, sponsored by Clyde Choate, D-Anna, majority whip of the House, is expected to advance through the Senate without any trouble. The final Senate vote on the House bill will probably come next week.

The Senate's own engineering bill, identical to the House bill, was approved by the Senate Education Committee last week, 11-0, and is at first reading. The House bill enters the Senate at second reading, one step ahead of the other proposal, but actually four steps overall in advance.

Whether Governor Otto Kerner will act on the House bill, which will probably reach him first, before waiting for the Senate bill is unknown. At any rate, Southern seems destined to grant engineering degrees.

Staton, Laughton Tickets On Sale

Dakota Staton and Charles Laughton will headline concerts at SIU during April. The Staton concert will be presented on Saturday, April 22 to wind up Greek Week festivities. Laughton's performance on Friday, April 28 will include readings from English and American classics and the Bible.

Tickets for the Staton program will go on sale today in the Student Union Ticket Office. Reserved seats for the 7 and 9 p.m. shows will be sold for \$2, \$1.75 and \$1.50.

Reserved seats for the Laughton concert will go on sale next Monday at the Student Union Desk. Tickets will be sold from 10-12 a.m. and from 2-4 p.m. for \$1.50, \$1.00 and \$.50. At other hours the tickets may be picked up at the Activities Development Office or ordered by mail or phone.

Registration Appointments Announced

Appointments for advisement for the summer and fall terms may be made on the first floor of Old Main April 4-7, Tuesday through Friday. Hours for making the appointments will be from 8 a.m.-noon and 1-3 p.m. Juniors and senior are urged to make their appointments at Old Main for early registration.

TIME TO CHANGE

Norma Sickmeier, 18 year old freshman from Prairie Du Rocher, turns the clock up early as a reminder to students that daylight saving time begins on Sunday morning. The clock change means a loss of an hour's sleep the night before Easter.

Holbrook's Humor Fills Shryock

Mark Twain finally made it to campus—in the person of Hal Holbrook, that is. After previous cancellations, Holbrook entertained Freshman Convocation at the last meeting of the winter term, March 9.

Dressed in the characteristic Twain outfit—white suit, vest and red tie, Holbrook proceeded to deride everything from Congressmen to trains to George Washington.

"There is no distinctly criminal class in the United States—except lecturers and Congressmen." Summarizing his criticism of the slow trains Holbrook declared, "If I have to go to Heaven by train, I think I'll go the other way."

Describing Twain's trip to Honolulu as a correspondent for a California newspaper Holbrook remarked: "I saw local native ladies bathing in the nude in the sea. This was just the kind of local color I was after... for my newspaper of course. I sat on their clothes so they wouldn't be stolen."

"When I was 14," concluded Holbrook, "my father was so stupid I could hardly stand to be around him. But when I was 21, I was astonished at how much he had learned in seven years."

Classes Meet Today, Tomorrow

There will be no legal holiday for SIU students over the Easter weekend. Classes will be held both today and tomorrow as scheduled.

However, anyone who has a class at the time of a religious service may attend the service and be excused from the class. A statement may be obtained from the receptionist at the Office of Student Affairs any time today. An explanation of absence for one class period will be sent to the students' instructor of the class missed.

TO CONFER WITH JFK

Dr. James L. C. Ford, professor of journalism at SIU, pictured above, has been invited by Secretary of State Dean Rusk to a foreign policy conference in Washington April 3-4.

The meeting, for news commentators and radio and television news directors, will be conducted by top level assistants and undersecretaries in the State Department. The final session of the meeting will be attended by Rusk and President John F. Kennedy.

Cheerleader, Tumbler Applications Open

Applications are still available for 1961-62 cheerleaders and tumblers.

Tryouts will be held shortly, Gail Miller announced this week. Five men tumblers and seven cheerleaders are needed.

\$1,000 Goal Set For Campus Chest

A goal of \$1,000 has been set for the 1961 Campus Chest. The annual drive sponsored by the Student Government is under the chairmanship of Becky Jeffries of Carbondale.

The charity campaign, which will get underway April 14, contributes most of its funds to the World University Service. This fund provides student kitchens, housing facilities and better living conditions for students all over the world.

Collection boxes for the drive will be placed in residence halls, sororities, fraternities and the Student Union. The Campus Chest auction will be held at the Agriculture Building on the night of April 14. Items to be auctioned will be donated by faculty members, students and student groups.

800 High Schoolers Fight Math Tests Tomorrow

Another record turnout is expected tomorrow when high school mathematicians from 55 southern Illinois schools converge on SIU for the annual Mathematics Field Day.

Dr. W. C. McDaniel, SIU professor of mathematics and chairman of the event, said more than 800 students will compete this year. Awards will be presented at 3 p.m. in Shryock Auditorium.

Two SIU Coeds Charge Rape

By Kent Zimmerman
Two SIU coeds have charged a Carbondale man and a Southern student with rape in two separate cases. The most recent case, which occurred March 19, involved a senior girl.

The Attack Took Place at 2:30 a.m. as the girl was enroute from her boyfriend's apartment, it was charged. She said she heard footsteps behind her which quickened when she walked faster and slowed when she slowed her pace. She said the man grabbed her around the waist at the corner of West Main and North Springer streets.

Held Two Hours

She claimed she tore loose once, but the attacker grabbed her and dragged her behind a hedge. Two hours later, at 4:40 a.m., the man released her. The girl identified her attacker as L. T. Simon of Carbondale, the following day.

Simon is being held over for the Grand Jury and is free on \$10,000 bond. At the time of the attack, Simon was on conditional release from the Lincoln State School.

Campus Tours Begin Tomorrow

Campus tours have been arranged for parents of students, prospective students, visitors and tourists for the spring and summer quarters.

Members of the Saluki Patrol will conduct these tours. They will include visits to classrooms, Morris Library, residence halls, Lake-on-Campus and the museum. It is not necessary to make appointments for the tours which will originate from the visitor's lot by the President's Office.

One Job Interview

Palos Park Public Schools: Seeking elementary candidates grades one through six; Junior High: English, seventh and eighth grade mathematics, social studies, librarian, science and music.

Not First Time

Simon has three previous rape charges on his record, the most recent in January when the Grand Jury failed to return an indictment.

The second attack, which occurred February 25, involved two SIU students. The alleged rape took place in the room of the male student who was supposedly typing a term paper. The girl informed her mother of the incident the next day when she went home. When she arrived back at school, she told her housemother who directed her through the proper channels to press charges.

The male admitted the incident but denied that the affair was forced. Lie detector tests were given to both, but the results conflicted, according to Security Officer Tom Leffer.

THE EGYPTIAN

Editor's Opinions

Engineering Defeats Bunny

The proverbial Easter Bunny might have a little trouble hopping tomorrow night, primarily because Southernites have gathered every rabbit's foot in the area as the much-sought-for engineering bill moves through the Illinois Legislature.

Reports from Springfield indicate the bill which would remove the ban that has thus far kept Southern from developing an engineering school has an excellent chance of passing. If the bill does pass, Southern will reach another milestone in its rapid progress toward gaining the tag of a top-flight institution of higher learning.

To make the moment more memorable, it is suggested that the University transport two outstanding junior Applied Science majors to Springfield when the time nears for passage. The two students, who would represent the first graduates of the engineering school, could add to recorded history by being present when the bill is signed—if it is passed—by Gov. Otto Kerner.

University of Illinois President David D. Henry and Sen. Everett R. Peters, R-St. Joseph, were vehement of their disapproval of the bill the last time it was proposed. But both now concede that engineering is needed at Southern and have given the bill their backing.

Though it is not definite the bill will pass, the indications are most favorable. If the ban is dropped, it would be a memorable moment for future engineers if two of their number were present to witness the event.

To Cheer Or Not To Cheer

Some complaint has been registered by several parties—including us—the past year about the lack of action by cheerleaders.

There is now an opportunity to rectify the situation. Seven cheerleaders and five tumblers are needed for the new cheering squad. Surely there are 12 students at Southern who have the ability, talent and enthusiasm to help perk up the lagging student spirit. The problem the last year has not been lack of talent on the part of cheerleaders, but simply the lack of cheerleading.

A full squad of peppy cheerleaders would be a welcome sight to adorn the new football season next fall.

New Jersey has the greatest The British pound is equivalent population density of all the lent to \$2.80 in American monstates in the U.S. ey.

Gus Bode Sez

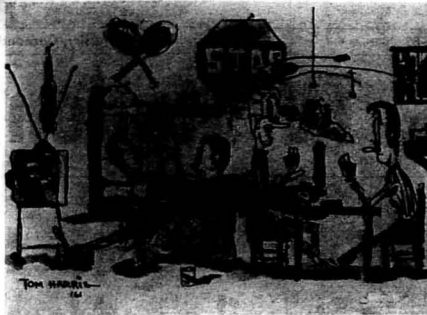

Gus sez after the latest incidents, walking after dark will probably be banned now.

Gus sez the new restrictions on women's hours are gonna foul up a lot of plans this quarter.

Gus sez he's anxious to get married and move to Southern Hills after all the stories he's heard about the area.

Gus sez the 17-story dorm will cause more excitement than the University Center, cause most southern Illinoisans have never seen a building bigger than three stories.

Gus sez if people think the Fort Lauderdale riot was big, they should go to Colp some Saturday night.

"Get this! My old man says that we fool around too much and don't study enough. Ridiculous!"

The Soap Box

Like Cartoons, But Get Serious

Dear Editor:

I wish to commend your paper on the fine cartoons you publish on occasion. I doubt that it can be denied that many of the cartoonists who draw for you show a surprising amount of artistic polish and ingenuity.

An example of a quality cartoon that struck my fancy was the Feb. 28 drawing of one of our athletes with wings on his feet. The cut line was also good.

But, I do not think you should stop with only these

to produce a top-flight cheerleading squad.

Southern deserves the best in all its ventures to develop school spirit and support. Now is the time to recruit a squad of cheerleaders with initiative and imagination. This group should include men and women students with special talents such as tumbling.

A previous notice for applicants appeared in the Egyptian, but the response was not adequate to meet Southern's needs in this area.

Do you have previous cheerleading or tumbling experience? If so, there is an application available for you at the Student Union Desk. All applicants will be notified as to time and place of practice sessions. Deadline for applications will be April 20.

Sincerely,
Gail Miller

Judy Barker Named New Obelisk Editor

From janitor to editor, that's the success story of the new editor of the 1961-62 Obelisk, Judy Barker. The 21-year-old senior from Eldorado was appointed by the Journalism Council at a March 8 session.

She worked as janitor her freshman year and progressed to Sphinx Club editor and business manager on the yearbook. Miss Barker is a member of Pi Delta Epsilon, honorary fraternity for college editors. She has served as a New Student Week leader, on the Homecoming Committee, Greek Week Steering Committee and Spring Festival Steering Committee.

Three associate editors were chosen to assist Miss Barker: Charles Bolton, Springfield; Gerald Lawless, Jacksonville and Linda Goss, Mt. Vernon.

Applications for several Obelisk editorships will be available at the Student Union Desk April 10.

Judy Barker

Miss Lawrence Recital Closes Winter Schedule

Marjorie Lawrence captured the audience with her warmth and informality at the final faculty recital of the winter quarter. Miss Lawrence, former Metropolitan Opera star, began the March 12 performance with Handel's "Nitocris Recitative" and an Aria.

Dr. Fred Denker, chairman of music department accompanied Miss Lawrence. The concert also featured numbers by Strauss, Wagner, Ravel and Rachmanoff.

The packed auditorium was thrilled by Miss Lawrence's encore number which she described as one of her favorites—"Waltzing Matilda."

Navy Recruiters Here Next Week

A Naval Officer Information Team will be on the campus April 5-7 to counsel men and women students on existing officer programs. The information team will have their headquarters in the Student Union from 9 a.m. to 4 p.m.

Students within nine months of graduation may apply for several special programs. Qualification tests will be given on campus during the team's visit.

Dresser, a German, discovered the aspirin in 1899.

Council Sends 3 To National Conference; Buses Continued

Bill Morin, Marie Turnipseed and Dick Childers were selected as delegates to the National Conference on Youth Service Abroad being held in Washington, D.C. starting last Wednesday and ending today.

The three delegates were selected at the final Student Council meeting of the winter quarter. The conference consists of forums and workshops to discuss President Kennedy's Peace Corps program.

Morin received approval of the Council to establish a volunteer committee to distribute information and answer questions about the Peace Corps. He named Bob Hunt chairman of the group.

Student Senators have volunteered to speak on behalf of the student government in any area. This service is part of Morin's proposal to bring the government closer to the student body.

In other action the Council voted to continue the bus service for spring term. The University will again underwrite the bus service which will run on a slightly different schedule than last quarter.

The first half of the meeting was devoted to Dr. Richard V. Lee who explained the X-ray equipment at the Health Service. Lee remarked, "Although our equipment isn't the best in the world, it is doggone good." He explained that the machine in use is the best for the money which was available.

He explained the process to the satisfaction of the Council members who had previously questioned the safety of the X-ray machine.

New York City has 4,289,000 telephones, more than any other city in the U.S.

The Orange Free State had a population of 1,212,000 in 1958.

Saluki Nine Wins Opener With Boilermakers, 8-6

Capt. Marting Leads Hitters With Homer, Double, Single

By Bob Meierhans
Sports Editor

Southern copped their regular baseball season opener against Purdue University, 8-6 Tuesday. Captain Gerry Marting led his team with four runs on three hits and a walk. Marting pounded a deep homer to center field in the eighth inning to climax the scoring.

Purdue scored early in the first inning on a single and an error. Southern's first scoring came in the bottom of the second inning when catcher Mike Pratte sizzled a hot grounder to third and the third baseman over-threw first base. Marting walked and pitcher Harry Gurley popped a short single over shortstop. Center fielder Duke Sutton hit a Texas leaguer over second scoring both Marting and Sutton.

PU Rally

Purdue broke loose for a three-run rally in the fourth

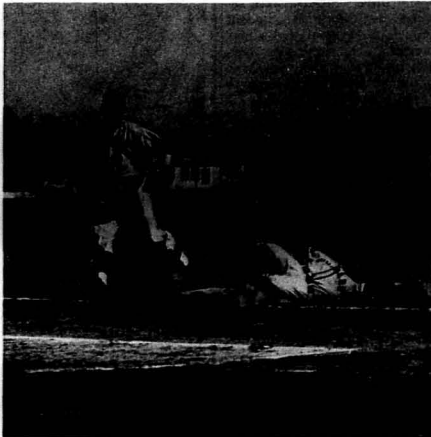

after Saluki pitcher Gurley walked the first two men. After a sacrifice bunt, Purdue's third baseman Franklin Lehr pounded a triple deep into right center field scoring two. Allen Laya scored on a fielder's choice as right fielder John Haggerty hit a long sacrifice fly to right.

A substitute runner was put in for Purdue's first baseman Bill Schmitendorf who was hit by a pitched ball. SIU's Gurley promptly proceeded to execute a smooth pickoff at first.

Captain Marting ripped a sharp double to right center in the bottom of the fourth and scored on Hardcastle's single.

Gurley Out

Kubinisky singled for Purdue in the seventh inning and Allen followed with a single. Purdue scored three runs putting Gurley in hot water. Southern's Williams came in to relieve Gurley in the seventh

Saluki second-baseman Bob Hardcastle is forced out at third by Purdue to close a two-run rally. (Photo by Bob Albright)

with one out and two men on base. Williams retired the side.

In the big seven-run seventh inning PU scored three and Southern four. Marting led off with a sharp single and Williams walked. Hardcastle drove in one and Long picked up two RBI's with a single.

Facing nine men in his relief role Saluki Williams fanned five and walked one allowing no hits.

Four Seniors Bow Out In Cape Loss

Southern's bid for 1961 national basketball honors was cut short by Southwest Missouri at the Cape Girardeau tournament with an 87-84 loss. Coach Harry Gallatin will be operating without four graduating seniors from this year's 21-6 club in trying to build a winning combination for next season.

Next year's squad will be minus the help of Captain Don Hepler of Champaign, Tom McGreal of Rantoul, Harold Barbo of Sparta and Randy McClary of Milltown, Ind.

While missing the first six games this winter due to scholastic ineligibility, Charlie Vaughn copped individual scoring honors with a 23.4 average, totalling 492 points. This is far short of the record setting season a year ago of 779.

SIU 9 To Open 3-Game Series With IU Hoosiers

Indiana University invades Carbondale Monday for a three-day stand with Southern's baseball nine. The Hoosiers finished ninth in the Big Ten last season, posting a season record of 17-13 and a Big Ten record of 5-9.

Coming into the series with an 8-3 tour record, Coach namely, Mike Pratte catching, Glenn "Abe" Martin's team is seeking its second win in regular season competition after an 8-6 opening game victory over Purdue last Tuesday.

Martin will follow the same lineup as the Purdue game, namely, Mike Pratte catching Jim Long at first, Bob Hardcastle at second, Larry Patton handling third and Gerry Marting covering short stop. In the outfield are Mel Patton, Duke Sutton and Wally Westbrook.

Starting pitchers for the three-day series for SIU will be Jim Woods, Larry Tucker and either Gurley or Williams.

SIU Student Wins Ping Pong Title

Charles Huang, one of the two students entered in the Union Ping Pong Tournament held at Indiana University this past weekend, took first place in singles. The pair brought back a second place in school team participation. Competition included states of Illinois, Indiana, and Wisconsin. The University of Illinois took first as a school team.

Saluki Netters Finish Dismal Spring Tour

SIU's tennis team wound up a 10-day spring tour with a record of two wins and seven losses. Coach Dick LeFevre's freshman squad turned in a remarkable five-win no-loss stand for the tour.

Southern lost its opener to Louisiana State University 4-3 and then took a 9-0 shellacking from Tulane. The Salukis fell before Florida State University, 7-2 and came back to take Georgia Tech by the same score. University of Florida dealt SIU a 9-0 blow. University of Georgia dropped the Southern team 6-3. Southern finished out the seven-game trip by defeating the University of Tennessee, 8-1.

The freshmen have only lost one single game and have never lost a meet. The four-man team of Pacho Castellino, John Gernich, Jerry Podeseck and Jerry Oblin are playing under the NCAA rules which make freshmen ineligible for varsity competition.

Southern's varsity netmen are ranked as follows: Roy Sprengelmeyer, Dubuque, Iowa; Ron Underwood, Granite City; Bob Sprengelmeyer, Dubuque, Iowa; Dick King, Olney; Arnie Cabrera, Santurce, Puerto Rico; and Dick Fulkerson, Carbondale.

Coach LeFevre said challenge matches for the team positions will be held regularly until at

Strum, Hartzog Address Clinic; Demonstrations Today At 3 pm

A former New York Yankee pitching great will highlight the afternoon session of Southern's Annual Coaching Clinic. Johnny Strum, ex-Yankee, and SIU track coach Lew Hartzog will conduct discussions and demonstrations.

The Styron twins, who have been touring with the Saluki track club this winter, will be part of the group participating in the demonstrations at 3 p.m. in McAndrew Stadium. Don

least mid-season.

In summing up the tour LeFevre said the purpose was to get the stiffest competition we could find to get the boys in shape fast for the regular season.

"We were rusty when we started, but I think the team is coming along fine," said LeFevre.

Styron holds the world's collegiate record in the 220-yard low hurdles and has been timed at 21.9.

Strum, recently appointed Midwestern supervisor for Houston's new entry in the National League, will conduct two baseball sessions at the varsity field. Coach Hartzog will discuss conditioning of cross country and distance runners, sprinters and relay teams.

Grapplers Take 1st In Ozark AAU, 3rd In Central

Southern's wrestling team had a hey day over the vacation. Competing independently as the Saluki Wrestling Club, the Salukis won all weights in the Ozark AAU. In three of the final matches they even defeated their own teammates for first place honors.

Winners in their respective weight classes were Isadore Ramos, Olney Mueller, Frank Coniglio, Jim DiDonato, Mike Trogovich, Jack Crider, Lee Grubbs, Ed Lewis, Larry Meyer, Larry Kristoff and Saluki Rich Biedose, wrestling for Granite City, who also won the novice title.

SIU grapplers finished third in the Central AAU, held in Chicago with 15 points. Seconds went to Ed Lewis in the 175 pound class, and to Don Millard, 191.

Scoring thirds were DiDonato, 136; Irvin Johnson, 165; and Larry Meyer, 175. A fourth place went to Frank DiDonato, 165.

Soph Saluki Wins Third Place In NCAA Wrestling

Saluki wrestler, Ken Houston placed third in the NCAA finals at Corvallis, Ore. last week to become the first Saluki matman to rank that high in NCAA competition.

Coach Jim Wilkinson said the 177-pound sophomore "has a bright future ahead." "He should be one of the nation's finest collegiate wrestlers next season," Wilkinson said.

Padovan Takes 3rd In NCAA Freestyle Event

SIU sophomore Ray Padovan finished third in the NCAA 50-yard sprint at Seattle, Wash. His third place time of 22.2 was far short of the record-winning time of 21.4, a new collegiate record.

Padovan was disqualified in the preliminaries of the 100-yard freestyle when he failed to touch while making a turn. Coach Ralph Casey and Padovan are now in New Haven, Conn., for the National AAU finals which began yesterday.

Trackmen To Run Intersquad Meet

The SIU thinclads will compete with Southern's AAU track club at 3:30 p.m. tomorrow in McAndrew Stadium. Don and Dave Styron, and Jim Dupree, members of the AAU organization, are ranked nationally as tops in their events.

Dave Styron turned in a 9.6 time for the 100-yard dash against a stiff wind during the Oklahoma State Relays last week.

Southern's four-mile relay team finished second behind Kansas in the OSU relays with a time of 17.35.4. Winning time for the event was 17.33. The foursome running the event were Allen Gselo, Lee King, John Flamer and Joe Thomas.

Sunny Hocker, running for Southern, clocked the 440 in :48.9. John Saunders finished fifth in the 440 hurdles in :34.5.

Get that swift, sure, clean look with "Harpoon" swim trunks by Jantzen. BOOM!

Today, foregoing levity, let us turn our keen young minds to the No. 1 problem facing American colleges today: the population explosion. Only last week four people exploded in Cleveland, Ohio—one of them while carrying a plate of soup. In case you're thinking such a thing couldn't happen anywhere but in Cleveland, let me tell you there were also two other cases last week—a 46 year old man in Provo, Utah, and a 19 year old girl in Bangor, Maine—and in addition there was a near-miss in Klamath Falls, Oregon—an eight year old boy who was saved only by the quick thinking of his cat Walter who pushed the phone off the hook with his muzzle and dialled the department of weights and measures. (It would perhaps have made more sense for Walter to dial the fire department, but one can hardly expect a cat to summon a fire engine which is followed by a Dalmatian, can one?)

Science will ultimately solve the problem

I bring up the population explosion not to alarm you, for I feel certain that science will ultimately solve the problem. After all, has not science in recent years brought us such marvels as the transistor, the computer, the bevatron, and the Marlboro filter? Oh, what a saga of science was the discovery of the Marlboro filter! Oh, what a heart-rending epic of endless trial and error, of dedication and perseverance! And, in the end, what a triumph it was when the Marlboro scientists after years of testing and discarding one filter material after another—iron, nickel, lead, tin, antimony, sponge cake—finally emerged, tired but happy, from their laboratory, carrying in their hands the perfect filter cigarette! What rejoicing there was that day! Indeed, what rejoicing there still is whenever we light a Marlboro and settle back and enjoy that full-flavored smoke which comes to us in soft pack or flip-top box at tobacco counters in all fifty states and Cleveland!

Yes, science will ultimately solve the problems rising out of the population explosion, but in the meantime the problems hang heavy over America's colleges. This year will bring history's greatest rush of high school graduates. Where will we find classrooms and teachers for this gigantic new influx?

Well sir, some say the answer is to adopt the trimester system. This system, now in use at many colleges, eliminates summer vacations, has three semesters per annum instead of two, and compresses a four year course into three years.

This is good, but is it good enough? Even under the trimester system the student has occasional days off. Moreover his nights are utterly wasted in sleeping. Is this the kind of all-out attack that is indicated?

I say no. I say desperate problems call for desperate remedies. I say that partial measures will not solve this crisis. I say we must do no less than go to school every single day of the year. But that is not all. I say we must go to school 24 hours of every day!

The benefits of such a program are, of course, obvious. First of all, the classroom shortage will immediately disappear because all the dormitories can be converted into classrooms. Second, the teacher shortage will immediately disappear because all the night watchmen can be put to work teaching calculus and Middle English poetry. And finally, overcrowding will immediately disappear because everyone will quit school.

Any further questions?

© 1961 Max Shulman

Yes, one further question: Have you tried Marlboro's newest partner in pleasure—the unfiltered, king-size Philip Morris Commander? If not, by all means come aboard. You'll be glad you did.

SIU Requests \$132.9 Million

The eyes of the administration are gazing steadily towards Springfield these days, and not only because of the engineering bill.

Southern has requested \$132.9 million for buildings and operations for the next two years, \$38.5 million more than the University asked for in 1959.

The University is requesting \$52.8 million for operations, a \$20.5 increase over the amount requested in 1959, and \$80.1 million for buildings, an \$18 million hike over the figure asked for two years ago.

Increase Of \$74 Million

The building request is \$74 million more than the \$6 million actually appropriated by the Legislature in 1959.

The Legislature is expected to act on the requests of the six

state-supported universities within the next few days.

Southern officials said part of the increase would go toward a \$2.8 million budget for new instructors and \$3 million for salary adjustments of present faculty members.

Southern asked for the \$38.5 million hike on the basis of an expected 3,000 enrollment increase by 1963.

To Be Divided

The building appropriation, split between Southern and the Southwestern Campus. The Edwardsville area would receive \$29.8 million.

The six universities have reached a "gentleman's agreement" that the \$195 million

from the Universities Bond Issue would be split three ways: \$98 million to the University of Illinois, \$53 million to Southern and \$48 million to be shared by Western, Eastern and Northern Illinois and Illinois Normal. The Edwardsville campus is bracketed to receive \$25 million of SIU's chunk. The plan is only an agreement, however, and has not yet been sanctioned by the Legislature.

The "City of New Orleans" run from Effingham to Centralia is the second fastest scheduled train run in the U.S. at 81.8 m.p.h.

148,249 gallons of whiskey were produced in the U.S. in 1959.

Teachers To Get Certificates At Graduation

The State Teacher Certification Board is initiating a new system this year for issuing teaching certificates. For students who have completed an approved teacher training program, an application must be completed no later than April 15 at the Registrar's office.

The certificate will be presented to the graduating student with his diploma. The certificate with \$2 required fee is then presented to the superintendent where the student plans to teach. If the graduating student does not observe the April 15 deadline, he may not be issued a certificate at commencement.

It is believed that this system will avoid long delays in receiving the certificate.

Student Hits Train, Suffers Minor Injuries

Norman A. Kimble, 27-year old graduate student from Chicago, suffered minor injuries Tuesday when his car ran into the side of a railroad car. He was treated and released from Doctor's Hospital for a cut on the arm.

Kimble was ticketed by a state trooper for disobeying a flashing red light. IC officials said the accident occurred at 2 a.m. when a switch engine was moving three cars across the crossing. The car was badly damaged in the accident.

Human Relations Meeting Scheduled For April 29

The Human Relations Work Conference will be held at Little Grassy Lake Campus April 29. Dr. Carl Grip, dean of students at Temple University, will be featured at the meet.

Purpose of the conference will be to attain a better understanding of the aspects of human relations. Interested persons should contact the Activities Development Office for information and application forms.

24 Ousted

Doyle Dorm Students Rebel

A petition to state Baptist officials by members of Doyle Dormitory to "clean up the dorm" brought a new set of regulations which in turn ousted half the students from the Grand Avenue building.

Students last quarter complained to the state Baptist board of overcrowded rooms, plumbing and heating inadequacies, hazardous electrical wiring, compulsory meal tickets which had to be used at the dorm cafeteria, lack of recreational facilities and absence of third floor fire escapes.

An Autocratic Ruler

The strongly-written petition charged "the immediate administration—namely one person—who is an autocratic ruler over Doyle Dormitory—is mainly responsible for this situation and the Baptists of Illinois are relatively unaware of the situation."

An investigation by the state Executive Committee was climaxed by five directives to the Southern Illinois College of Bible: that rooms be kept clean at all times; and reduction of occupants per room to no more than three.

Raise Standards

Also that immediate steps be taken to raise the spiritual level in the dormitory; that the physical plant be put in acceptable condition and that only Southern Baptists be allowed to live in the dormitory.

As a result of the directives, 24 students—half the dorm capacity—were asked to leave after winter quarter. The students rebelled, called a meeting and demanded that they be told the reasons behind the action.

College of Bible officials said contracts of the 24 students were not renewed for several reasons, but did not elaborate.

Community Development Experts Work At SIU Spring Term

Two experts in the field of community development and leadership are at SIU for the spring quarter.

The team of distinguished visiting professors is Mr. and Mrs. Curtis and Dorothy Mial, key figures in the National Training Laboratories of the National Education Assn.

Mial is presently serving as associate director of the laboratories and Mrs. Mial is publication director. During the spring quarter they will work with both the Department and Institute of Community Development on the Carbondale campus and travel throughout southern Illinois holding leadership workshops.

The Empire State Building is the tallest building in the U.S. at 1,472 feet including the TV tower.

NATION'S BEST

The SIU Angel Flight was awarded the Gen. Samuel E. Anderson Award last Tuesday. The Traveling trophy is given to the outstanding unit in the nation with 56 flights competing. Looking on after the trophy arrived from Louisiana State University are Linda Boals, information officer, Mary Phillips, commander and Pam Gilbert, executive officer.

Women's Late Leaves Extended

Two changes in women's rules proposed by the president of women's living areas have been approved by the Office of Student Affairs.

Each woman student is entitled to one extended late leave per quarter which allows her to remain out until 3 a.m.

The extended leave may be taken on Friday or Saturday, with the exception of the first weekend of the term or after

the last Thursday before final exams.

Also beginning this term is the restriction of overnight leaves in Carbondale to women's residence halls, sororities and women's organized houses. To obtain overnight leaves outside Carbondale, written permission must be sent to the supervisor of the living area by a parent.

1,899,475,000 pennies were coined in Denver and Philadelphia in 1959.

The odds against tossing "snake eyes" in a single throw of the dice is 35-1.

Douglas E. Lawson

SIU Research Professor Dies

Professor Douglas E. Lawson, research professor of education, died following an apparent heart attack on the morning of March 21. He died at 5:45 a.m. in the Holden Hospital.

The 57-year old professor had served on the SIU faculty since 1935 except for a year as principal of a school in Hawaii. He served as Dean of the College of Education from 1948 until 1954 when he retired in favor of teaching in the education department.

He has written a number of professional articles and books. He recently completed a book, "Wisdom and Education," which will be published by the University Press in the near future.

Lawson was born in Bristo, Colorado in 1903. He has left his wife, Mrs. Viola Boos Lawson of Carbondale, one son, two daughters and eight grandchildren.

The family asked that friends contribute to an SIU Foundation fund rather than send flowers. The funeral was held at the First Presbyterian Church on March 23.

National Geographic Photographer Will Speak At Photo Fair

William Garrett, photographer for the National Geographic Society, will speak at the annual Photo Fair April 23. The fair also will feature a photographic contest and exhibit.

Entries for the photographic contest are due tomorrow. Ten categories are included: three in the portrait division, four in the news pictures division and three in commercial photography.

All entries should be submitted to Dr. C. William Horrell at the SIU printing and photography department.

Three Killed

(Continued from page 1) ness. The son of Mr. and Mrs. Daniel Miller, he was graduated from Weequahic High School in 1959. He is survived by his parents and two sisters.

Philip H. Paris, a freshman enrolled in the College of Education, entered Southern in the winter of 1960. The Jefferson High School (Brooklyn) graduate is survived by his parents, Mr. and Mrs. Benjamin Paris, and two sisters.

Steven M. Natowitz was graduated from Thomas Jefferson High School in Brooklyn. He transferred to Southern's School of Business from Brooklyn College last year.

Two Suspended Through Fall Term

Two students Wednesday were suspended from Southern through the fall quarter.

Suspended was Charles Minton, junior from Madisonville, Ky., on charges of deliberate non-attendance of classes. Asst. Dean of Men Joseph F. Zaleski said Minton attended winter quarter classes only the first day, but lived during the quarter in University housing.

Also suspended was Melvin Johnson, 18-year-old freshman from Waterloo, on separate charges of illegal purchase of liquor and theft of a rifle scope from the AFROTC department.

Zaleski commended Johnson for recovering the scope. He originally traded it for a gun, and later sold the gun.

SDX Charter Member Dies

Funeral services will be conducted tomorrow afternoon in Nebo for Robert Lee Scranton, a 1957 graduate of SIU. Mr. Scranton, who was single, died Wednesday.

Mr. Scranton, a charter member of the local chapter of Sigma Delta Chi, professional journalism society, had been employed by a newspaper in Dubuque, Iowa. He was formerly a public relations man for the Illinois State Highway Safety Campaign.

The Chicago Jewish population is 282,000.

Rurik established himself as the first ruler of Russia at Novgorod in 862 A.D.

Is your future up in the air?

As the communications needs of our nation become steadily greater and more complex, the Bell Telephone System is continuing its pioneer work in microwave by "taking to the air" more and more to get the word across.

To this end, Western Electric—the manufacturing arm of the Bell System—has the monumental task of producing a large part of the microwave transmission equipment that knits our country together by shrinking thousands of miles into mere seconds.

In spite of its great technological strides, the science of radio relay is a rapidly-changing one. And new break-throughs and advances are common occurrences. A case in point: our Bell System "TH" Microwave Radio Relay. This newest development in long-distance telephone transmission will eventually triple the present message-carrying capacity of existing long-haul radio relay installations. A full-scale system of 6 working and 2 protection channels can handle 11,000 telephone messages at the same time.

To make microwave work takes a host of special equipment and components: relay towers, antennae, waveguides, traveling wave-tubes, transistors, etc. But just as important,

it takes top-caliber people to help us broaden our horizons into such exciting new areas as communication by satellites!

And microwave is only part of Western Electric's opportunity story. We have—right now—hundreds of challenging and rewarding positions in virtually all areas of telephony, as well as in development and building of defense communications and missile guidance systems for the Government.

So, if your future is "up in the air," you owe it to your career to see "what's up" for you at Western Electric.

Opportunities exist for electrical, mechanical, industrial, civil and chemical engineers, as well as physical science, liberal arts, and business majors. For more information, get your copy of "Western Electric and Your Career" from your Placement Officer. Or write College Relations, Room 4106, Western Electric Company, 195 Broadway, New York 7, N. Y. And be sure to arrange for a Western Electric interview when the Bell System recruiting team visits your campus.

Principal manufacturing locations at Chicago, Ill.; Kearny, N. J.; Baltimore, Md.; Indianapolis, Ind.; Allentown and Laureldale, Pa.; Winston-Salem, N. C.; Buffalo, N. Y.; North Andover, Mass.; Omaha, Neb.; Kansas City, Mo.; Columbus, Ohio; Oklahoma City, Okla.; Engineering Research Center, Princeton, N. J.; Teletype Corporation, Skokie, Ill.; and Little Rock, Ark. Also Western Electric distribution centers in 33 cities and installation headquarters in 15 cities. General headquarters: 195 Broadway, New York 7, N. Y.

ACE Elects Officers For Spring Term

The Association for Childhood Education elected officers for the new term. The new officers are Margery Dabney, president; Dorothy Gewe, vice president, kindergarten primary; Jean Dawkins, vice president, elementary education; Sandra Griffin, secretary; Sue Odum, membership chairman; Susan Easterday, public relations; Sue Walters, social chairman; Barbara Paul, ways and means; and Norma Coursey, publicity.

Sue Walters, Margery Dabney, and Joan Burnett are leaving tomorrow with Mrs. Geraldine Fields, sponsor of ACE, for the one week convention of Association for Childhood Education in Omaha, Nebraska.

Two and a quarter billion man-hours are put into the manufacture of food and kindred products each year in the U.S.

THEY'RE ENGAGED

Mr. and Mrs. M. L. Becktel, Quincy, Illinois, announce the engagement of their daughter, Donna Sue, to John C. Connelly, Jr., son of Mr. and Mrs. John C. Connelly, Sr., Chicago, Illinois. Miss Becktel, a sophomore majoring in kindergarten primary, lives in Steagall Hall. Her fiancée, a government major, will be graduated in the fall of '62. Wedding plans are indefinite.

Two Clubs Plan Banquets

Two organizations are planning banquets, the first to be held this evening.

The Jewish Student Assn. will celebrate the first evening of the eight-day Passover holiday tonight. The students will have a traditional Seder meal at Temple Beth Jacob in Carbondale.

Giant City Lodge will be the place for the annual Account-

ing Club Banquet. The banquet is to be held April 8 at 6:30 p.m.

Club members may purchase reservations from Tom Ford, Dave Bender, Dave Fleming, Pat Harrison, Charles Anderson or Norm O'Keefe. Prices are \$3 for steak and \$2.50 for chicken. Transportation will be provided for those who need it.

The Greek Column

By Judy Valente
Society Editor

Committee news seems to be the important matter at hand in the sorority and fraternity houses this week.

Representing the DELTA CHI house on Spring Festival Steering Committee are Ken Reichel, Alex Urban, John Burnette, and Neil Maxwell. Wayne Comstock and Neil Maxwell will work on the Greek Week Steering Committee.

Several sisters of ALPHA GAMMA DELTA are on Greek Week committees. Lois Palmer and Kathy Stroman are on the Steering Committee; Pam Greenshields and Linda Taylor, dance; Brenda Scalet, Greek Sing; and Mary Lou White-lock, trophies. Judy Vaughn, Sharon Keeton, Beverly Restivo, and Melinda Federer are on the steering committee for Panhellenic Workshop coming up on April 29.

Terry Cronis, SIGMA TAU GAMMA, is chairman of publicity for Greek Week. Terry is also the newly elected steward of the fraternity. Jean Bass is the newly elected sports chairman.

Larry Jordan, Dick Conry, and Bill Biederbost will represent PHI KAPPA TAU fraternity on Spring Festival Committee. Cliff Dey and Don Isch are serving on Parents' Day Committee. Seventeen PHI TAU's traveled to Fort Lauderdale, Fla., during spring vacation. They met brothers from Ohio State University, Michigan State University, Georgia Tech, Kent State and the University of Louisville.

DELTA ZETA sorority will sponsor an Easter egg hunt in the Chautauqua playground Sunday afternoon at 3 p.m.

Pinned: Joan Kraus, Delta Zeta, to Jerry Worrall, Tau Kappa Epsilon.

Aid Offered To Juniors By Heart Assn.

Scholarships offered by the American Heart Assn. of \$150 per quarter are now available. The awards will begin with the fall term and will be given to five senior students.

Juniors majoring in psychology, health education, speech, sociology, anthropology or community development are eligible for these scholarships. Interested students with a 3.5 average or better should contact Arthur Swanson in OAS.

New Office Building Open

The campus headquarters has been moved to a new building at 315 West Grand. The new office is at the north side of the Morris Library parking lot and valued at \$75,000.

The new building provides offices for John E. Grinnell, vice president for operations; John Rendlemen, SIU attorney; and Talbert W. Abbott, dean of instruction.

These officials were formerly using offices in the Home Economics building which will now become classrooms.

DECIDE WHICH PRIZE YOU WANT—SAVE YOUR PACKAGES—PARTICIPATE TO WIN.

PRIZES: Three Winners Every Week for Four Weeks.

First Prize—one 6-transistor Westinghouse Radio with carrying case

OR

\$40 worth of records—your choice of selections

Second Prize—\$15 worth of records—your choice of thousands of selections—you can choose albums, classical, stereo, jazz.

Third Prize—\$5 worth of dry cleaning at a local dry cleaners.

THE PRIZES ABOVE AWARDED EVERY WEEK. EACH WEEK IS A SEPARATE CONTEST.

BONUS PRIZES:

First Bonus: The individual who submits the largest number of Philip Morris COMMANDER packages during the four weeks of the Contest will be awarded a BONUS PRIZE of \$15.00 worth of records (your choice). Total of packages will be accumulated during the four weeks of this Contest. (March 31 through April 28).

Second Bonus: The individual who submits the largest number of ALPINE packages during the four weeks of the Contest will be awarded a BONUS PRIZE of \$15.00 worth of records (your choice). Total of packages will be accumulated during the four weeks (March 31 through April 28).

Bonnie Poole is looking over records that she would like to win during the contest. These are only a few dozen of the thousands of records the winners will be able to choose from. There will be three winners every week for four weeks, who will have a choice of any records they desire. GET WITH IT—YOU can be a winner.

RULES:

- Contest is open to S.I.U. students only.
- Save empty packages of Alpine, Parliament, Marlboro, or Philip Morris. Submit your packages EVERY WEEK or ANY WEEK because every week is a new and separate Contest (except Bonus Prizes).
- Each package deposited must bear student's NAME and ADDRESS.
- Deposit packages for EACH CONTEST at LeMaster Music Store, 604 S. Illinois Ave., Carbondale (in the new shopping center) by 5:00 P.M. every Friday.
- This Contest begins immediately. First Contest ends Friday, April 7 at 5 P.M. Second Contest ends Friday, April 14 at 5 P.M. Third Contest ends Friday, April 21 at 5 P.M. Fourth Contest ends Friday, April 28 at 5 P.M.
- No entry of less than 50 packages will win prizes.
- Winners will be notified by mail.
- No student or group will be awarded First Prize more than two times.

WHO WINS: First Prize will be awarded to the individual who submits the largest number of empty packages of Alpine, Parliament, Marlboro or Philip Morris for EACH CONTEST.

Second Prize awarded to individual submitting second largest number of packs.

Third Prize awarded to individual submitting third largest number of packs.

Packages submitted during one Contest will not be carried forward to succeeding Contest (except for Bonus Prizes).

Only packages of current manufacture acceptable for Contest. All prizes valued at manufacturer's retail prices.

Get on the BRANDWAGON ... it's lots of fun!
