Recognized Authority On Radio-Biology To Speak Here Nov. 14

Dr. K. C. Atwood, recognized authority on radio-biology, will speak here Nov. 14. Dr. Atwood will speak on "Genetic and non-genetic effects of radiation in Neurospora heterokaryons."

"The possibility that large segments of the population will be exposed to radiation means radio-biology is a very serious business. This is one of the things we must know about," asserted Dr. Carl Lindegren, chairman of the department of microbiology here, who is also experimenting in the field of radio-biology.

RADIATION now is used to kill cancer in medical science. Mutations are also caused by radiation. These factors are causing much research in this field, and have stimulated learning concerning other possible effects of uses of radiation.

Experiments here at Southern in radio-biology use yeast to test for effect. Dr. Atwood uses bread mold in the same type experiments, said Dr. Lindegren.

The public is invited to attend the meeting to be held in room 201, Old Science building at 4 p.m. Dr. Lindegren said the talk will be on a technical basis.

Conduct Survey On Summer School

A survey, the purpose of which is to determine whether the summer school term should begin a week later in June or not, is now being conducted by a Southern faculty committee consisting of Miss Hilda Stein, associate professor of zoology; Dr. Willis Malone, associate professor of education; and Dr. C. Horton Talley, chairman of the speech department.

A questionnaire concerning this change has recently been sent to each faculty member so that their reactions may help to formulate the calendar schedule for next year.

As pointed out on the survey blanks, there are many arguments for and against such a change. An extra week after the spring quarter would provide for a larger enrollment at Southern during the summer by allowing teachers at other schools running ten months to enroll for work on further degrees.

MANY STUDENTS and teachers, finding that the Southern summer session begins too early, are forced to enroll at other colleges and universities.

Also, the change would help the Registrar's Office complete grade records before the new term began, and it would give the faculty and students a brief rest.

It has been pointed out, however, that the switch would extend the summer quarters one week longer in August, thus cutting vacation time for all concerned.

"Right now," stated Miss Stein, "answers and reactions to the survey are just coming in and no definite results are yet available."

Social Senate Plans 'Christmas Week' at SIU Dec. 9-17

Plans are now being made by the Social Senate for the first "Christmas Week" to be held on Southern's campus. The festivities will begin Dec. 9 and run to Dec. 17. According to Jerry Fear, president of the Social Senate, the basic idea is to further a spirit of co-operation among the organizations on campus.

A community concert is scheduled for Wednesday. The individual house parties and open-house sponsored by organized houses will be held Thursday night. Friday night, Dec. 14, is the date set for a joint student-faculty semi-formal dance. Monday, Dec. 17, the festivities will be concluded with Christmas caroling and the presentations of the awards for house and campus decorations.

CHAIRMEN who have been appointed for the various committees are: Religious Program—Mary Jo Zumer, chairman; Pat Crader, co-chairman; House parties—Doree McClane, chairman; Earl Cox, co-chairman; Dance—Wyona Smith, chairman; Guin Neely and Bob Patton, co-chairmen; Campus decorations—Paul Morris, chairman; Paul Craig, co-chairman; Caroling—Mary Ann Cagle, chairman; Katherine Manken, co-chairman; House decorations—Ted Bookhout, chairman; Betty Coatsner, co-chairman; Publicity—Lucille Cleland, chairman.

Jerry Fear, president of the Social Senate, will act as general chairman and co-ordinator of committees.

Service To Call 2,823 Men from Downstate

According to a recent announcement from the Selective Service, the January draft will call 2,823 men from downstate Illinois into service.

It has been proclaimed that the January draft call will be the largest since the draft law took effect in June, 1948. The state of Illinois will be required to contribute 6-138 men, which is ten per cent of the national quota.

Besides the men to be drafted from downstate, 3,315 will be drafted from Cook county.

Part of the January call is to take up the slack caused by the halting of the December inductions because of the Christmas holidays.

President's Office Gets Strange Gift

Curious about an old president's office at Southern Illinois University could hardly wait to see what John Brannon, 309 East Hester street, carried wrapped in a newspaper as he entered the office recently.

When the paper was unwrapped, some of the onlookers faded away quickly, while others remained to marvel. For the package contained a lifeless, new-born pig with one head and two bodies. Two of the forefeet were in normal position, while two others protruded from the tiny animal's back.

THE PIG-AND-A-HALF was one of a litter of 10 born on the James Cox farm on the Giant City blacktop road. The other nine all are normal and doing well, thank you.

The office staff were quite willing to relinquish possession of the strange specimen to Joe Hall of the zoology department.

Former Students Now In Television

Two former Southern Illinois University students are engaged in designing sets for television shows, according to the Southern Alumnus quarterly.

Edward Mitchell, a 1938 graduate with a campus flare for stage designing, is a staff designer for CBS television in New York City, doing the job for a string of shows.

Barbara Jane Scott, known to TV fans as Jan Spencer Scott, is an art director for NBC television in Chicago. In a few short years she has jumped from school plays and art work to a high place in television. Her father, C. S. Scott, is an Illinois Central railroad trainmaster at Carbondale.

Getting in on the ground floor of TV was Carl McIntire, SIU graduate in 1941 who dabbled in radio at various local stations in the area before going to KSD, St. Louis, in 1942. There he has become a sort of jack-of-all-trades with KSD-TV—master of ceremonies actor, singer, writer, and producer of shows.

Romolo Rossi, a graduate last June, is editor (and chief writer) for a television magazine, TV Review owned by a St. Louis dentist.

Salukis and Michigan Normal Fight for Cellar

Southern's Salukis will have their last go at a 1951 IAC victory tomorrow when they take the field against the Michigan Normal Hurons at Ypsilanti, in their last conference game of the season.

Last year, when the two teams met in the second annual Shrine Classic in the first night game at McAndrew Stadium, Harold Call paced the Maroons to a 44-13 victory.

If Southern wins tomorrow, the two teams will be tied for sixth and seventh place in the conference standings.

THE HURONS, again a more experienced outfit than coach Waller's Salukis, were less affected by loss of last year's players through drop-outs than Southern. Both teams were badly beaten by Western, but Michigan holds a victory over Normal, and 19-13 loss to the Central Michigan Squad which overpowered the Salukis in their op-

er, 33-19.

Southern has had a two week lay-off since their last game, a 47-19 Homecoming loss to Eastern. Although this week's practice sessions have been cut short by the heavy snow, the Salukis should be in good shape for the game, both physically and mentally. Since this will be the last chance for a conference win, there is little doubt that they will be fighting every minute and every inch of the way.

NEXT SATURDAY, the Wallermen will travel to Cape Girardeau to face the Cape Indians in a contest centered about local rivalry. From there, the Salukis return to Carbondale to finish the season with a home game against the Arkansas State Indians Nov. 24.

Phil Coleman Wins Loyola Invitational Cross-Country Meet

Phil Coleman, Southern's senior harrier, won the big one—the Nineteenth Annual Loyola University Invitational Cross-Country Meet last Saturday at Chicago. Thus, Phil further proved that habits are hard to break. It marked his fifth consecutive distance-run victory for the 1951 season.

Coleman covered the three and one-half mile lake-front course in 18:35.9. Time was hampered by a stiff wind and a sub-freezing temperature which prevented Phil from approaching the record 16:40 time set by Wisconsin's Don Gehrman in 1947.

Finishing second was Bob Kelly of Loyola, individual winner of last year's race. Notre Dame won Saturday's meet by placing five runners in the first 12 finishers.

NEXT STOP for coach Doc Lingle's pace-maker will be the I. I. A. C. meet to be held over the Southern course this coming Saturday. Phil will be out to duplicate last year's league victory this weekend. The race promises to feature a battle between Coleman and Normal's Bob Swift who finished ninth at Loyola. Phil won an earlier meeting between the two in October.

GAMMA THETA UPSILON TO MEET TUESDAY

The November meeting of Gamma Theta Upsilon, geography fraternity, will be held next Tuesday, Nov. 13, at 7 p.m. in Main 215. Dr. Stanley E. Harris will speak on "Caves Along the Alto Pass Escarpment." Plans for a fraternity project concerning employment in the field of geography will also be discussed.

season, but Coleman has finished way ahead of the field in all of them.

Other schools in the conference are Illinois State Normal (Normal), Eastern Illinois State (Charleston), Northern Illinois State (DeKalb), Western Illinois State (Macomb), Michigan Normal (Ypsilanti) and Central Michigan (Mt. Pleasant).

SPORTSHOTS

by Don Duffy

Tomorrow the 1951 champion of the I.I.A.C. will be decided upon at DeKalb. The Northern Huskies go into the contest with a record of seven wins and no losses, including five victories in conference play. Western owns a record of six victories and one tie, the tie coming last week in a conference game against Normal.

Coach Chick Evans' Huskies will be out to avenge last season's 28-27 loss to the Western Leathernecks, Macomb's second victory in twelve years over a Northern grid team.

Essentially, it will be a passing contest between Northern's Bob Heimerdinger, first in the nation last year, and Western's Lesch who, in the last statistical round-up, had completed 29 out of his last 35 attempts.

On the ground, it will probably be a slam-bang rushing duel between Billy Graham, Northern's speedy little halfback who has averaged almost seven yards per carry thus far, and fullback Art Hudson of the Leathernecks, a candidate for the Little All-America team.

Northern, who let the title slip through their fingers, or maybe it would be better to say off their toes, when they suffered two one-point losses last year, looks to us like the team to cop the cake.

MORE MEAT FOR THE POT

The Belle Rive shooting area near Mt. Vernon has been enlarged for the coming pheasant season to include over 6,000 acres now open to public hunting.

Leonard Schwartz, director of the Illinois Department of Conservation, announced that the additional 1,200 acres have been leased from local farmers.

Preparations have been completed for stocking the area with pheasants (spelled with an "h") for the 1951 season which opens Nov. 11 and runs until Nov. 25.

About 300 hunters per day will be admitted to the area.

AN EARLY START

A letter from "Abe" Martin announces that Southern and Indiana State will play an exhibition basketball game in the new high school gym at Harrisburg, Illinois on Saturday night, Nov. 17, to celebrate its official dedication.

Tickets for the game are on sale at the Athletic Office in the Men's Gym. The price is \$1.00. If you plan to attend the game, you should get your ticket in advance, for a large turnout is expected.

With Southern's 1951-52 cage squad making its first public appearance, it looks like it will be a double unveiling.

FAMOUS LAST WORDS

A sports release from Bradley University, which told about athletic teams and prospects for the current school year wound up with this statement, "Our basketball team is also well fixed."
