Southwestern Illinois lawmven react
Legislators approve of remapping

By Alan Scalley
Staff Writer

Most of Southwestern Illinois legislators have no complaints about the newly-approved Democratic-supported redistricting map. The map, which was approved by a five-to-four vote of a special redistricting commission Friday night, will move Union County from the 59th to the 58th Senate district and shift the western quarter of Williamson County the other way, according to Rick Davis, govenor of the Senate Democratic Caucus.

The new map also puts Washington, Jackson, Randolph, Perry, Monroe and 10 townships of St. Clair County in the 54th Senate District. Counties which will share the same House district are Monroe, Washington, Perry and portions of Randolph and St. Clair counties.

The other House district will contain Jackson, Union and Union of Randolph County. The other Senate district will include Alexander, Pulaski, Johnson, Massac, Hardin, Pope, Williamson, Franklin, Saline, Gallatin and part of the county.

The vote for the map followed party lines, with the four Republicans and the four Democratic legislators taking their respective sides and lining up against Democratic legislators from the 58th and 54th districts, casting the tie-breaking vote, Davis said.

The original redistricting proposal by the four Democrats and four Republicans couldn't agree on a map before an Aug. 10 deadline, so a random drawing between Shapiro and former Republican Gov. Richard Ogilvie was held to choose a tie-breaking commission member.

The redistricting map is the result of a vote last November by Illinois residents to reduce the size of the Illinois House by 59 seats. That vote also eliminated cumulative voting in which three people were elected to the House from each district.

The reduction of the number of legislators will take effect with the 103rd General Assembly.

Under the new districts, one seat each will be reapportioned to Richmond, D-Murphysboro, and Waverly, Atlat, R-Vergennes facing each other, and another would force Rep. Robert C. Winchester, R-Rosiclare, and C.L. McCormick, R-Vienia, to run for the same House seat.

Atlat said Sunday he had no complaints with the new map, and that he would seek the Senate seat currently held by Kenneth L. Burbee, D-Carbondale. If Burbee persists in his candidacy for lieutenant governor, he said he will decide whether to run for the Senate or whether to challenge Richmond by Nov. 20.

Richmond, who termed the cut-back "a sad mistake by the voters," said he was undecided about seeking re-election to the House or to enter the race for Rand. He said he isn't sure yet if he will run for the Senate seat.

The 59th Senate District could also find current House representatives entering the race. That district, which is also in the 54th Senate District, includes the 1st congressional district and to the south has a 7th congressional district.

Simon endorses Stevenson, MX missiles

By Alan Scalley
Staff Writer

U.S. Rep. Paul Simon, D-34th District, has endorsed former U.S. Sen. Adlai Stevenson in his bid for the democratic nomination for governor, citing Stevenson's "ability and determination to make an extremely effective governor."

In a separate statement, Simon appended President Reagan's MX missile plan, encouraged further research into the Stealth bomber and disagreed with Reagan's decision to develop and produce the B-1 bomber.

In his statement endorsing Stevenson, Simon said Stevenson's candidacy would be a unifying influence within the Illinois Democratic Party and his governorship would be a unifying influence on Illinois. Simon also said this endorsement reaffirms his determination to seek reelection to the U.S. House of Representatives.

"I have great respect for the office of governor and all it can do, but I'm moving to the point in the U.S. House of Representatives where I can be of increasing assistance to the people of the district and to the nation. I don't want to leave that challenge and opportunity," Simon said.

Simon had been asked to run for governor by Chicago Mayor Jane Byrne, George B. Dunne, Cook County Board chairman and prominent Chicago Democrats, David Carle, Simon's press secretary, said.

Simon announced his candidacy for governor last Wednesday.

In his introduction to Reagan's MX plan to house 100 MX missiles in existing silos, Simon lauded the move as one that would save taxpayers $100 billion. Simon had been a leading opponent of the MX plan supported by former President Carter, which he termed a "shell game plan" that called for the construction of 40,000 shelters in Nevada and Utah to house 300 missiles which would have been shuttled from site to site.

However, a plan "pretty much like" Reagan's was supported in letter written by Simon and Republican Rep. William Green of New York, which was sent to the president last week. Carle said. That letter was also signed by 35 other congressmen.

The Reagan MX plan would house the MX missiles in existing Titan II and Minuteman III silos. The silos would be fortified to withstand a direct hit by enemy fire. Simon also applauded Reagan's decision to explore the potential of the Stealth bomber, an aircraft capable of eluding radar detection.

Simon said he would reserve final judgement on the project until the ultimate cost and the effectiveness of the Stealth is determined.

On the other hand, Simon disagreed with Reagan on the development and production of a new generation of 8-1 bomber.

Rogers: Sports' fate not certain

By Mike Anthony
Staff Writer

The University administration is "not certain" what it would do if students vote for the $20 option in the cut athletics fee referendum, according to Tod Rogers, dean of student organization.

Rogers was interviewed Friday about the cut athletics fee referendum by representatives of the campus newspaper and a videotaping of the program.

"Meet the issues," in the referendum, students will be able to vote whether to reduce the current $20 athletics fee, or reduce it to its former level of $20. The results of the referendum are not binding on the administration.

If a majority vote for the $20 option, it would reduce the $400,000 reduction in funds, according to Rogers. 'Those who have not wanted to say what minor option would be cut" if students vote for the $0 option, Rogers said.

But, Rogers said he believes that the administration will take every steps necessary to retain the football program.

"If the future we may have to cut football. The athletics fee is against future increases in state funding," he said. "But the imme­diate result of the referendum will be the elimination of football."

"The elimination of minor sports will be a "definite possibility," Rogers said, "and the $20 fee increase would reduce it to two.

"Hopefully, we can stop depending on student fee increases to support the athletics program," Rogers said, "and concentrate more on self-generated income."

Rogers said that if the athletics fee is cut, the $19,000 reduction in state funding would be decreased gradually.

In order for the referendum to be valid, a minimum of 2,000 "students have to turn out. " He said he would like to see 3,000 undergraduate and graduate students vote because a con­summate the referendum to be effective.

President Albert Somit's decision about either retaining the current athletics fee or reducing it will be made "in the near future after the referendum occurs," Rogers said.
Cuban economic problems predicted

WASHINGTON (AP) — A CIA analyst says serious economic problems and internal discontent may prompt Cuban President Fidel Castro to encourage a "new large-scale exodus" of refugees from the Communist-ruled island nation.

The forecast came in a commentary by Paul E. Desautels, Europe and Western hemisphere countries released Sunday by the congressional Joint Economic Committee.

Alfred Russell Swanson of the CIA's National Foreign Assessment Center wrote that in coming years, "the Castro government faces its most serious economic challenge since the transition from capitalism to socialism in the early 1960s."

Despite improvements in such areas as health and education, Cubans have seen a "deterioration" since the mid-1960s in per capita supplies of clothing and key staples such as sugar, beef, bread and coffee while the "housing shortage has gone from acute to terrible." He also wrote, "Revolutionary fervor among both the young and old is on the wane because of continuing consumer austerity." Swanson said. "At the same time, the prospects for dynamic economic development are bleak at least, the next decade."

In the face of deep-rooted economic problems, he wrote, "the internal leadership seeks to defuse internal discontent through large-scale emigration—a tactic employed successfully on three previous occasions in the past 23 years."

Lee Oswald's body exhumed; pathologists verify identity

DALLAS (AP) — Pathologists on Sunday identified the body buried in Lee Harvey Oswald's grave as that of the suspected assassin of President John F. Kennedy, ending 18 years of speculation and court delays.

"We both individually and as a team have concluded beyond any doubt — and I mean beyond any doubt — that the individual buried under the name Harvey Oswald is Lee Harvey Oswald," said Dr. Linda Norton, head of the pathology team.

The body was exhumed at Rose Hill Memorial Park here after Oswald's brother, Robert, dropped his opposition to the procedure.

The pathologists took X-rays and made dental impressions to compare the teeth with Oswald's military dental records, and located a body identical to that referred to in the Marine Corps records but not in an autopsy.

John Collins, lawyer for British author and aviation theorist Frank E. Eddowes, said the casket contained "just skeletal remains. The casket was so terribly deteriorated it could not be removed in one piece."

Oswald, suspected of killing Kennedy in Dallas on Nov. 22, 1963, was shot to death two days later by Jack Ruby.

Six private security guards flanked the perimeter of the cemetery and no one was allowed inside once the exhumation began about 7 a.m. Two Fort Worth police officers also were on hand.

Thirty curious people peered over a fence and news helicopters hovered overhead, breaking the early morning silence of the eastside neighborhood.

The casket, draped with a white sheet, was loaded onto a hearse and taken to Baylor University Medical Center for the examination.

Walesa demands stop to price hikes

GDANSK, Poland (AP) — Solidarity chief Lech Walesa demanded Sunday that the government cancel food and cigarette price hikes set to go into effect Monday.

"I protest against the increase in prices of cigarettes, fish and manufactured fruit products," Walesa said in a telegram to Premier Wojciech Jaruzelski. "I demand to stop realization of those price increases."

Irish prison reforms pledged

BELFAST, Northern Ireland (AP) — Britain's top official in Northern Ireland pledged Sunday to implement prison reforms for all inmates now that jailed Irish nationalists have ended their hunger strike.

The violence-torn province was reported quiet. But police reinforcements were on the streets of Londonderry, Ulster's second city, where marchers by the mostly Catholic supporters of the hunger strike and a counter-demonstration by followers of hard-line Protestant leader Rev. Ian Paisley were scheduled.

Alleged mobster associate dead

BEECHER (AP) — Sam Guzzone, 51, who was on a golf course with alleged mob chief Alfred Pilotta during a recent unsuccessful attempt on Pilotta's life, was found dead Saturday in a ditch in this Chicago suburb.

Will County Coroner Robert Trenk said Guzzone had been shot in the head and his throat slit.
Vacant house destroyed by fire

Carbondale fireman Dave Meyers Saturday night helped battle a fire which destroyed a vacant frame house at 265 E. Chestnut St. No injuries were reported as a result of the fire, which caused $4,000 worth of damage to the building, according to Capt. Bill West of the Carbondale Fire Department. The police and fire departments are looking into the cause, which was classified as "suspicious," he said. The fire was reported at 2:50 a.m. The photo was taken by cinema and photography student David Newhard.

Tumble Town Gymnastics
715 S. Washington

Fitness Movement Gymnastics
Two new classes are now being offered by Tumble Town School of Specialised Skills. Now there is a fitness movement class for 7 and 3 year old boys and girls. Give your child an "Exploration in Movement." Classes begin Tuesday, Oct. 6, 11:30 - 12 noon. $35 for 10 weeks of instructions. Also, for those children of working parents, a new evening beginner, intermediate class for boys and girls. Monday, Sept. 5, beginning Monday, Oct. 5. A one-hour per week class to expose your child to the "Tumble To Time's" world of gymnastics. Special 10 week rates - $40.00. Enroll now. Call Alvis Vogel, 457-2565 or stop by Tumble Town 715 S. Washington, weekdays after 3:00.

Battle of the DJ's Rematch

Tuesday
DJ's will alternate every 1/2 hour. Playing disco, top 40's, Country Western and all latest bluegrass hits! Winning DJ to receive $25 cash. Judging will be done by YOU the audience.

Brian (Country Western & Blue Grass)

Join us for a Fun and Most Interesting evening. 2 for 1 speedrals after 9pm

REM P from Page 1

represented by Gene Johns, D-Marion, could see a race with John facing McCormick if he

sits a confirmation with Winchester in favor of a Senate bid. McCormick said Friday he is

undecided about which race he will enter. He said he will probably announce a decision in

a couple weeks after talking with his family about it. Other representatives fared better in the new map, however. Ralph Dunn, D-DuQuoin, and James F. Rees, D-Christopher, would not have to face in-

remnants in re-election bids. Both Dunn and Rees said they were pleased with their

districts.

"My district suits me fine. I'm one of the few Republicans who got a good district. I'm real pleased," Dunn said.

Dunn, however, did say he could run for Busbee's Senate seat, but at this point he will probably run for the House. He said he will probably announce his candidacy in two to three weeks.

Fire destroys STC building

By Douglass Hamm

Staff Writer

A fire at the STC School of Technical Careers Thursday evening destroyed an empty building but caused no injuries or other damages, fire department officials said.

Crab Orchard Refuge Fire Chief Layman Summers said the blaze, which started at about 11:45 p.m., was confined to a two-story wooden former dormitory used when STC was known as the Vocational Training Institute.

Summers said the fire, which was under control by 1 a.m.

"No one was in the building and nothing was saved except a few very valuable items," he said. The magazines and office supplies were stored in the building in anticipation of a move to a new campus.

Friday, firemen concerned that winds might blow sparks and start a grass fire and possibly spread to the Glen Corporation, a munitions manufacturer located about one-eighth of a mile south of the fire.

The cause of the fire was still under investigation Sunday. Firemen from the Crab Orchard Refuge, Carterville, Marion and Herrin fire departments responded to the blaze.

Clarence Daughtry, vice president for campus services, said the fire constituted "no loss of money."

CIVILIAN ENGINEERING OPPORTUNITIES
AIR FORCE SYSTEMS COMMAND ACTIVITIES
Electrical Mechanical Aerospace Materials
Industrial Electronic

The Aeronautical Systems Division at Wright-Patterson Air Force Base has an assignment worthy of all the nights you've spent burning the midnight oil—the planning, research, development, testing and acquisition of all U.S. Air Force aeronautical weapon systems. Immediate civilian positions exist in turbine and jet engine technology, flight vehicle aerodynamics, structures, flight control and research, navigation, control design, materials, communications, propulsion and liveliness. These positions are for innovation, perseverance, stretching.

Our civilian engineers have Ohio, a super state you like to breathe around. If city life bores you, we have it from Rings Island to his into a shortseller, and Cincinnati with its professional sports culture and regulations right next door.

There's no red tape in coming on board. We can hire you without bureaucratic delay. The Aeronautical Systems Division has been going right at getting things fast. Let us tell you how we can do the same for your career.

"We are an equal opportunity employer.#'
Opinion & Commentary

The following poem was presented to me in a dream by a short, mustachioed gentleman with a pronounced grin, as he whistled past me on the street.

Come listen my children and you shall hear,
Of the big bad wolf that Sarah holds so dear.
We'll save all the parking lots, raise all the fees,
Pay out 1000000000 dollars to Sarah and see.

It's controversial issue.
That many of the white and black cans are empty.
At WIDB, the checks did wobble,
Sometimes we don't see any donations for days.

We are connected with the community,
Who care about the community.
Who have reported to us that many of the white and black cans are empty.
At WIDB, the checks did wobble,
Sometimes we don't see any donations for days.

We have raised the money in this money for WIDB.
Every penny will be used to help find Sarah's assent.
The fund drive will end Friday, Oct. 9.
We should be up the cans late that week and early the next week.
If you would like to help $10, you can mail your donation to: Susan Schumake Memorial Fund, WIDB-SI St. Charles, Ill., 60165, or drop your donation in one of the many cans around Carbondale.
Thank you to everyone who donated money to help the Carbondale Police Carousel the people who killed him.
I don't know how much money we have raised, but it is not enough to cover the costs of the investigation.

And, in our case, the situation is so bad.
That we cannot even think about doing anything.
But, after numerous complaints from farmers and parents of young children about dark winter mornings, those experiments ended in two months that the nation reverted to the 1976 time.
In 1975, the Senate passed a bill calling for seven months of daylight-saving time, but the House decided not to push the legislation on such short notice and refused to consider the bill before the proposed starting date of the second Sunday in March.
If this were to happen, it would be a disaster.
Not only would it increase the cost of buying a new electric clock, but it would also disrupt our daily lives.

'Salesman' theme well imparted by powerful talent of cast

By Abigail Kimmel

The Harvey Pittel Trio will give its final show at 3 p.m. Tuesday at Shryock's Department Store.

The concert will open the 47th season of the Concert Artists Guild, which sponsors the Concerts in a Shopping Center program.

Considered by many to be the world's premiere concert saxophone trio, Pittel has played with a chamber ensemble with cello and piano. The program will include works by Loellhies, Hamann, Chausson, Milhaud, Viables and Rimsky-Korsakov, according to Ernie Tschirren, concert manager.

Pittel is well known as an educational, as well as an concert performer. He gives over a hundred recitals a year, has appeared in many major orchestras and is on the faculty of many major schools and summer workshops. He has won the Concert Artists Guild Award and a silver medal at the Congress International de Musique in Canada, and has received two Martha Baird Rockefeller grants.

University or community college students may obtain tickets at Student Center Box Office for $1. A dinner and concert package is available at $8.50. The buffet dinner will be served to concert-goers in the Old Main Dining Hall and the Student Center from 6 to 9 p.m. The doors to the concert open at 7:45 p.m., without the concert, is $3.50.

Cat cartoonist hates schmaltz, not cats

WILMINGTON, Vt. (AP) — Skip Morrow says he hates just cats, just some cat-lovers. He comes up with inventive ways for people to take out their frustrations on cats, such as using them as backdrops for cartoons.

The cartoonist created "The Official Vermont Catnip Book," which has sold an estimated 30,000 copies. Morrow said he wrote the book because he understood that some people have an aversion to cats. He has received letters from people who said the book was the best thing they ever read.

Morrow, who lives with his wife, Laraine, in a house in which even perches on a shelf above his dining board, Morrow sketched a cat. The 29-year-old New Jersey native said he got into the business of drawing cats under fire when a bigburst age he was fed up with the market lack of "good things" for cat lovers. He decided to create something, he thought, that everyone could enjoy.

Morrow, a bookish and introverted artist who later became a lawyer and argues a case before the Supreme Court, Bernard's his wife and Lucy his friend. Willy's dead brother. Ben, wavy hair, is rich in the jungle before the performance, he died, portrayed by Lorey Taylor. The rest of the cast were also strong in their roles, each conveying prominent performances to the audience.

Faculty recital offers diverse show

By Laurie Landgraf

Violinist Helen Poulos and pianist Kent Werner presented a diverse musical package to their audience as they glided through an unrolling performance at a faculty sonata recital.

The School of Music faculty recital included varied sonatas of distinctly different styles and brought out the best in each of them as they were joined by a faculty faculty member. The background and as the violinists performed on a classical instrument, the audience admired each performance.

The program included music of Beethoven, Mozart, and Brahms. The audience was treated to some of the most beautiful and challenging works of the classical repertoire.

Car care to be taught at clinic

A free clinic designed to teach car owners how to perform routine maintenance checks on their vehicles will be held from 9-26 m. to noon Saturday at the University Mall parking lot next to the J.C. Penney automotive service center.

The clinic will be conducted by automotive technology students and instructors from the SICC School of Technical Careers. Students will conduct maintenance checks important for cold weather and teach others how to make the checks.

Natural relatives

The last hope

for cancer victim

MIAMI (AP) — Despite the Missouri Supreme Court's decision in favor of a cancer victim seeking to locate relatives whose death may have been caused by her father, the victim's legal team said it would appeal to the U.S. Supreme Court. The case involves a dispute over the burial of the victim's father, who died of cancer in 1989.

The court ruled that the victim did not have standing to bring the action because she was not a blood relative of the deceased. The victim's lawyers said they would appeal to the U.S. Supreme Court, which could hear the case if it is brought to its attention.

The victim, whose identity is being withheld, said in a statement that she was 'devastated' by the court's decision and would continue to pursue justice for her father and other family members who died of cancer.

The case was brought by the victim's mother, who died of cancer in 1990, and her brother, who died of cancer in 1992. The victim's father died of cancer in 1989.

Americans sharply divided over AWACS sale, poll shows

NEW YORK (AP) — Americans are sharply divided over the Reagan administration's proposed sale of AWACS planes to Saudi Arabia, according to a joint Associated Press-NBC News poll.

The telephone poll of 1,601 adults contacted in a scientific random sample, Sept. 26-28, also said Americans are split over whether the AWACS would increase the chances of war in the Middle East or mean more U.S. arms aid to Israel.

The Reagan administration's proposed $6.5 billion sale includes five Boeing 747 jets equipped with special early warning radar systems which could allow the Saudis to spot approaching aircraft from as far as 300 miles away.

The president has said the sale would help ensure peace and defend the valuable Saudi oil fields, but senators who oppose the sale say they have more than enough votes to block it.

Fifty percent of the respondents in the latest poll said they oppose the sale, with 25 percent in favor and 35 percent not sure. That indicates a slight shift of public opinion for the sale since the May AP-NBC News poll showed 34 percent opposed, 19 percent in favor and 27 percent unsure about the sale.

Among those who had an opinion about the sale, 46 percent said they think selling the AWACS to Saudi Arabia will increase the chances of war in the Middle East. Fifteen percent said the sale would decrease the chances of war, and would not mean more U.S. arms aid to Israel.

Men were about evenly divided on the AWACS sale, but women were 31-1 against it.

Among all respondents, 43 percent said the United States should not sell arms or military equipment to any foreign country.

On the question of the AWACS sale, people who opposed the sale said it would increase the chances of war and require more military aid to Israel, while respondents who favored the sale said it would decrease the chances of war and would not mean more U.S. arms aid to Israel.

Probation officer dies of heart attack

Charles Brantley, senior probation officer for Jackson County, died Friday at St. Joseph Memorial Hospital in Murphysboro. He died of a heart attack which occurred at his home in rural Murphysboro. Brantley, 52, was employed by the Jackson County State's Attorney and Probation office since 1964. Funeral services, scheduled for Monday, will be private.

- Obelisk II, Senior Portrait Program, in the Student Center, first floor, south end.
- M.F.A. Gallery.
- Mitchell Gallery.
- Exhibition of paintings, drawings and sculptures by Robert Ford, a senior in painting, will be on display at the Vergette Gallery in the Allyn Building starting Monday. Opening hours on Monday will be from 1 to 5 p.m. Ford’s artwork will be on display through Friday during regular gallery hours.

Phil Kay's Phi's guest for its Tuesday luncheon will be Elmer Clark, director of the recently established Office of Regional Research and Service. The luncheon will be from noon to 2 p.m. in the Corinth Room. Clark will speak on "Matching Needs and Resources." Faculty, staff and student members of Phi E are welcome to attend.

A workshop on "How to Get Along With the Opposite Sex Without Really Trying" is scheduled from 3 to 5 p.m. Monday in the Mississippi Room. Sponsored by Human Sexuality Services as part of National Family Sex Education Week, the workshop is a chance for women and men to discuss their interactions and explore ways of making them less tense.

The Egyptian Divers will meet at 7 p.m. Monday at Pulliam Hall, Room 23 (the cardio-pulmonary resuscitation laboratory). The pool will be available afterwards for those members who want to swim.

City to sell car once used by Presley

SALEM, Va. (AP) — It's no pink Cadillac, but fans of Elvis Presley will be able to own a car once driven by the rock n' roll singer during his visit to nearby Roanoke for a 1976 concert.

City officials are asking for bids on the 1959 Plymouth Fury, which put in six years of police service, but has got for more than its $1,500 to $1,800 book value.

Randy Smith, assistant city manager, said he believes the classified ads in large daily newspapers around the country will generate interest for sealed bids. Police Chief Harry Haskins picked the names of 100 serious Presley memorabilia collectors from a fan magazine and will send them copies of the advertisement.

Haskins will sign an affidavit verifying that the car served Elvis during his stay in the area.

You may be paying too much income tax

You can ease the pain of income taxes by cutting some of the items you claim while putting aside money for your retirement.

As an employee of a qualified tax-exempt organization, you may be able to make your retirement plan a special kind of a retirement plan, a special kind of a retirement plan.

Contributions made to your retirement fund are currently tax-free and the earnings from your investment are also currently tax-free.

You pay taxes later on retirement income derived from the combined contributions and earnings. That's when you'll probably be in a lower tax bracket, so you'll still be benefiting from a lower savings.

Prospects will be furnished upon request.

Former Nazi gets life sentence

A former Nazi war criminal was sentenced to life in prison in the former East Germany on Monday after a court in Halle, East Germany, convicted him of complicity in the murder of thousands of Jews in a town in central Poland during World War II.

Valerian Iwinski, 80, was arrested in Germany last year after the Polish government and Nazi hunters discovered that he had been living in the town of Wolow, about 40 miles east of the capital, Warsaw, where he had served as a head of a Nazi labor camp during the war.

In a courtroom packed with American and Polish journalists, Iwinski was sentenced to life in prison by Judge Jan Wroblewski.

Iwinski, who was arrested in November last year, had been living in Wolow since the end of World War II, and was living in a small house near the main railway station in the town.

Iwinski, who had been a foreman in a factory during the war, was arrested in November on charges of complicity in the murder of thousands of Jews who were killed in a labor camp at Wolow.

The trial lasted for two days, during which the defense tried to argue that Iwinski had been too young to have known about the killings.

But the judge rejected the defense arguments and convicted Iwinski of complicity in the murder of thousands of Jews who were killed in the labor camp.

Iwinski will now have to serve life in prison, and will not be eligible for parole for at least 10 years.

The trial is the latest in a series of trials of former Nazi war criminals in the former East Germany, where the government has been trying to systematically bring Nazi war criminals to justice.

To date, 37 former Nazi war criminals have been tried and convicted in East Germany, and 27 have been sentenced to life in prison.

The trials have been widely criticized by some human rights groups, who argue that the trials are too focused on punishing individuals and not on uncovering the larger role that the Nazi regime played in the atrocities of World War II.

Serve Tillman, an inmate of the Viana Correctional Center, shows some of his art on an art display at the University Mall last weekend. He left with four blue ribbons and other awards.

Art exhibit showcases prisoners' creativity

By Pam Petrov

Staff Writer

More than 265 watercolors, acrylics, oil paintings, pointilism and mixed media art pieces were made by prisoners from the various units and maximum security sections of the prison. The recent exhibit was the first of three annual shows, according to Charles Smith-Peters, a representative from the Illinois Department of Corrections of the University Mall.

Several of the displays, helped by art professors from Southern Illinois University, were painted by inmates who had tried out at a success. The prize of the sales, "Okra Strut" by Thomas, paid 100 dollars, according to the 2nd Annual Energy Contest.

Profits from the sales goes directly to the inmate who made the paintings, they decided the price of their art, be a popularity contest, which "Okra Strut" by Thomas, paid 100 dollars, according to the 2nd Annual Energy Contest.

Several of the displays, helped by art professors from Southern Illinois University, were painted by inmates who had tried out at a success. The prize of the sales, "Okra Strut" by Thomas, paid 100 dollars, according to the 2nd Annual Energy Contest.

The "program has a capacity of 8,500 people," Smith-Peters said. "We've worked it on a first come, first serve basis. We put out a list of 350 artists who we want to join and the program's full."

Because Menard is a maximum security prison, he decided not to bring any innates with him, he said. This exhibit was the first, that Menard has shown a piece of art their shows. "I think it's great," he said. "And, I know the inmates are glad they were able to display their art."

Cider, juice prizes in energy contest

CONCORD, N.H. (AP) - Gov. Hugh Gallaug has 18 gallons of New Hampshire apple cider, riding on the energy-saving efforts of Petersen. If the 5,000 townpeople get through, Gallaug will collect 100 dollars. "We've brought in four blue ribbons, an acrylic pointilism and a wood burning. Tillmam had 15 items on display.

Cider, juice prizes in energy contest

The towns are entrants in the second annual energy contest sponsored by the Northeastern Illinois Committee on Energy. Ten towns in all are participating one each from the six New England states and the four eastern Canadian provinces, Gallew said Jennifer Murray said.

Okra festival pays homage to vegetable

The eighth annual Okra Strut, held Saturday, featured a parade, a parade of all kinds of Okra, an art contest, and a barbecue to fried okra and gator.

The most popular stand may well have been Peter Gossel and Johnny McCullogh were selling copies of "Okra Strut Blues," a song written for the occasion.
FOOTBALL from Page 16

Offensive guard Greg Fernandez was the latest Saluki lineman to go on the injured list. He hurt his knee in a kickoff return drill Thursday. He joins offensive linemen Chester Crespo, Frank Walsh and John Heitbrink on the disabled list. Besides the injured linemen, the Salukis are lacking other starters. Linebacker Tony Blevier missed the ISU game with a sprained ankle. Other Saluki starters who missed were linebacker Granville Butler and fullback Derrick Taylor. Defensive back Eugene Walker pulled a hamstring Saturday, and another defensive back, Bill Thomas was also hurt. To what extent, nobody knows.

"These next seven days are the most important ones of the season for us," Dempsey said, "because we might get Walsh, Blevier, or Fernandez back. They're the closest to being able to come back. No sportswriter, no broadcaster, no fans knows how tough it is to play without six starters."

It was tough for the Salukis

HARRIERS from Page 16

Despite the fact that the Panthers have defeated the Salukis twice out of three meetings this year, Blackman is not convinced they are the best team in the West. He said the Illini will be the team to beat in Normal on Oct. 31.

Cardinals win on field goal

ST. LOUIS (AP) — Neil O'Dooghue kicked the winning field goal with 23 seconds left, giving the St. Louis Cardinals a 36-37 National Football League upset Sunday over the Dallas Cowboys.

O'Doogheue's kick clinched a 9-yard St. Louis drive as the game's closing minutes and finished Dallas 4-4, from the ranks of the NFL's unbeaten teams. The Cardinals are 5-3. Passes of 20 yards to Marshall and 19 to Roy Greene spurred the winning drive after the Cowboys Dakota White was punt out of bounds at 2:05. St. Louis seven.

It prevented the seventh straight Dallas triumph over the Cards. Just prior to O'Doogheue's deciding kick, Dallas Andersen completed 8 yards to the Cowboys 8. St. Louis grabbed a field in the opening 18 seconds on a 9-yard run by Wally Jones Jones fumbled the kickoff.

Saturday, but they led the whole game. Jake Camargo gave ISU its only three points with a 3-yard field goal in the third quarter.

Camargo's boot came after two Saluki safeties and a 33-yard field goal by Paul Molla. Ware's streak ended the scoring.

Both teams had chances to score more. ISU split end Clarence Collins left a pass spray through his hands in the end zone during the fourth quarter. Saluki split end Tony Waritho dove, caught, and dropped a pass in his end zone with time running out in the first half.

Illinois State receivers dropped more passes than Saluki freshman quarterback John Cooper completed 18 of 34, and more like 50 or 75 should have been caught.

"We're fortunate they dropped the ball," Dempsey said. "We're fortunate we won the game. Until Ware's big run, we were in danger of losing. Even though we won, this is the worst game we've played.

Bears beaten by Vikings, 24-21

BLOOMINGTON, Minn. (AP) — Chicago kicker Hans Nielsen missed a yard field goal attempt to the left as time expired, allowing the Minnesota Vikings to escape with a 24-21 National Football League victory over the Bears Sunday.

Both teams were called for having too many men on the field as the final seconds ticked off and Bears' quarterback from Carbondale, Enoch of Hunter, said Carbondale native Barb Clark's performance was "amazing." She had lost two players to add to their injury list in the first game against Drake.

Hunter likened SIU-C's play to its performance in the Southern Cal game in September, where the favored Salukis placed third.

"It's nothing anyone is hitting the panic button over yet," Hunter said. "We hope to overcome it by midseason. It's a healthy challenge."

Among the few bright spots for the Salukis was the play of setters Jill Clark and Debbie Clark. Hunter said Carbondale-native Broker played "very well" against Iowa and helped establish some consistency. Clark drew praise for her overall play on Friday.

"Barb Clark's total game on Friday was absolutely great," Hunter said. "She had a strong setting performance, but did some things defensively we'd never seen her do."

The Salukis have lost two players to add to their woes. Freshman outside hitter Lisa Simon of Arno, will sit out the rest of the season because of a muscle tear in her leg. She will retain four years of eligibility. Freshman Penny West, who is one of the better recr., has dropped out of school. The 6-0 middle hitter made her final decision to drop out Wednesday. Hunter said West had not adjusted to being in school.

The loss of two players cuts the Saluki roster to 10, which may put SIU-C at a disadvantage if illness or injury should strike.
