### STUDENTS AND FACULTY EXPRESS ADMIRATION FOR PULLIAM'S DEFENSE OF FREE EXPRESSION

A letter signed by 645 students and faculty members express ing admiration for his courageous action in the defense of free dom of expression was given to President Roscoe Pulliam last Tuesday after he had permitted the local Socialist committee to use Shryock Auditorium for a campaign speech by Norman Thomas. The letter follows:

If the Hitlerite edict of this undesirable minority group had

gone unchallenged, the citizens of Carbondale would have been forever branded as stupid and intolerant.

We may now expect this small but vociferous element to in-terpret Pulliam's action as a nod to the Socialist party. They will probably never understand that Pulliam was upholding a principle far more important than either the Socialist Party or the American Legion.

And for his bigness he will be criticized by little men

## President Pulliam Should Be Appreciated Even More After Butler's Behavior

President Roscoe Pulliam's action in allowing Thomas to speak reseasent tossee runnams action in allowing Thomas to speak at the college should be appreciated even more when we consider Dr. Micholas Murray Butler's behavior at Columbia. Dr. Butler has since repudiated his strugt of Mst week with a mandlin cry of "misinterpretation," but his position in this struggle between true and pseudo-patriotism is still clear.

## Approximately 276 Students Sign Draft Cards as Nation Takes Medicine

Approximately two hundred and seventy-six S. I. N. U. students gave at least a year of their lives to Uticle Sam last Wed-desday in draft registration. They have now to look forward to a long period of suspense during which they will often woncer how soon they may be carrying a gun and where.

Registration is evidence to them that war is like a communic-

able disease; when a few nations get sick, all others must begin taking preventive medicine.

How bifter it tastes to peace-minded individuals.

### Letters to the Editor

Dear Editor:

The action of the city administra tion of Carbondale in denying Norman Thomas, the right to spenk here last Monday night aroused the righteens indignation of practically every mem-ber of the S. I. N. U. student body and her of the S. I. N. U. student body and faculty. It is generally helicived that pressure was brought to boar on th-mayor to make him issue such an order. The group helind his edied are to be denounced as traitors to the ideals of democracy which every true American holds dear.

By taking the action that they did s group violated the constitution of United States which eleasity states that freedom of speech and the right of assembly are to be denied no man. This they did. Tomorrow the rejavonated Maroons is got to Macoub to furnish Homecoming combination for the Westrn State e.even. Then next Saturday old Normal will oppose the Southerners in their Homecoming struggle. Last year Macoub and Normal ted for, the champlonship of the Hilmois Intervedibents of the State of the legiste, Athletic Association. Thus on meet the league's two co-champs and two Homecoming contests for a double dose of double trouble.

Sportswriters in Southern Illinois have long torn their hair because of lack of a team name for Southern's athletic teams other than the Maroons. That marcon color has made them see red for a while.

All teams adopt their school colors but most of them also have a team today, you the most of them also have a team today, you the must consider the minimo other than that. Lost year the thorem and Chaptin. DeKaib arthetic sprade changed their tunne from the academically sounding "Profs" to the awe-inspiring "His. The a more cheerful light we find the service of the combination of the service of the combination of the combinatio kies." Now we don't want to go to carreines and start naming conference testas after hreakfast foods (imagine-the Southern "Wheatles") but wo do think that the Marcon athlete squads should have a name in addition to a color.

This weird combination is no tan-tastic brain citil of a crackpot nor a cynical desecration of beauty. It is only the realization of the fact that the relationship between music and labor is very simple and direct. Rhy-thm is the coordinating clement; the rhythm of music guides the morement of the medicare and a nurse of nowner. rhythm of music guides the movement of the workers; and a surge of power and excitement accompanies their uni-son motion. Production is up because music has an appeal to the human spirit that cannot be smulyzed in terms so simple as melody, harmony and rhythm.

If England rofuses to sacrifica her musical life at a time when the whole empire stands at bay, it is because she knows that music is no longer a lixury. Its power is as mysterious as electricity, but alongaide the great generators in British arms factories
