Saturday Final Day For Freshman Pictures

Freshmen who want their pictures in the Obelisk (year-book) should have them made by Saturday, Oct. 1, Delores Williams, Obelisk editor, announced today.

Sophomores should have their pictures made Oct. 8 to Oct. 8; juniors from Oct. 10 to Oct. 15; and seniors from Oct. 17 to Oct. 22

Miss Williams emphasized that the pictures must be made at Nauman's studio, 703 S. Illinois ave.

Price of the pictures is \$1 each. Those who want to have last year's Obelisk picture ap-pear in this year's book can do so by paying 50 cents at Nauman's studio. No appoint-

ties and girls should wear sweaters, Miss Williams said:

Southern On The Move

Have you ever noticed that there is always someone painting window frames or new department buildings? That there is a continuous hammering on wood and pipes everywhere you go? That someone is seemingly always walking across the campus with a newly built cabinet, a roll of electric cable or with a few water pipes, and their shoulder? Have you ever wondered who they are or what they are doing?

Since the beginning of June, the physplant department has undoubtedly been one of the most active and beneficial departments on the campus. The achievements it has accomplished to expand teaching quarters for relatively every department cannot be over recognized and congratulated. During this short period of time, the physical plant department has remodeled and turned into school use 12 residents bordering the campus. This con-sisted of repainting, replastering and installing new plumbing. It has also remod-eled the art center and Canteen plus painting all the rooms in Anthony Hall. The story of the amount of work they have completed doesn't even begin to end here Besides the work mentioned above, listed below are the departments which it has moved to newer locations: geography, education, duplicating arvice, speech, veterans guadance, sociology, economics, ex-tension service, botany and the journalism

Still, this doesn't list all the jobs such as installing new equipment in various de-partments, etc., but it will give you an idea of the type and amount of work the physical plant, under the direction of A. Howe, has been doing in the last few

our neighbors and competitors.
So I have a suggestion. Why not "Southern Knights." We once had a fine organization on this campus by that name but it seems to have become inactive. Why not take ever this name for our athletic teams! You can see a knight. You can believe in him and cheer for, him. The term suggests more rich imagery than any other I can dream up. It offers endiges opportunities for house and float decorations, for themes to use at allones, and in music. It uncerest norms and east house and float decorations, for themes to use at dances, and in music. It suggests pomp and ceremony for ceromonal occasions. Being of sound mind and body, I am about make a confession and make an explanation of to make a confession and make an explanation of the letter which was written by myself to the ed-itor two weeks ago. It was concerning the jani-

torial procedures.

At the time of the construction of my last letter I had not a clear understanding of the long range plans of the hysical plant. I had been only informed by friends, members of the janitorial force, of the temporary working lime—that of from 10 µm. to 2 µm.

According to the student jöntlors, the time now has been moved up earlier—from 6 pm. to 10 p.m. After some talk with the members of the jaminarial staff, I have found that most of the members are still dissatisfied with the present time, but they also said that they plan to try to stay on in hopes that the time will soon be moved up

no nose task the time will soon be moved up more. A majority of the boys said that the time from 6 p.m. to 10 p.m. would not seem so bad providing they were silewed to begin their work on Friday verning earlier, since most of the buildings are empty at 4 or 5 p.m. They thought that one-half of an everling of school social life is week would do them some good.

Although I have addressed this letter to the editor I feel that I should have addressed it to the sident faintons. My advice to you would be for you to ask for such hours on Friday. It seems so little to ask for and besides the director of the physical plant seems to realize the incoavenience you are undergoing. He has made great progress over the first week.

We Don't Need a Crying Towel

As everyone knows by now, the Southern Maroons absorbed a 48-7 pasting by the Wayne Tartars. While this is nothing to write home to mamma about, there is still no apparent gloom in Carbon-dale this week.

For one thing, the Maroons were hopelessly outclassed from the office that 25 point barrage in the first period by Wayne indicated the week. The point barrage is the first period by Wayne indicated awayne to the Wayne of the look good even losing by that score, however, then the Waynend all look good even losing by that score,

as much. If it were possible to look good even losing by that score, however, then the Maronoid dolld. Though tallied 15 first downs to the opponents 12 but numerous times failed to espitaitize on penalties against Wayne. Harry Wismer, BMS's Sports Director, who happened to view the game, indicated that Southern showed a lot of light even though playing a much larger school and against greater odds.

Twenty-one freshmen saw action in the contest and looked like seasoned veterans. Such yearlings as Ledbetter, Bobba, Harris, Swoboda, Maione, Wangelin, VanderPlyum, Call, Organ, Bruno, etc, are out to see that Southern doesn't remain a "door, mat" in football circles for long.

The Artful Dedger

The Artful Dedger

Once again this season, it was John Hazely who stole most of the thunder for the Green and Gold of Wayne. He did everything the pedde Crackerjacks for the Tartars as he aset a new all-time school record in scoring sufficient points to put him over the century mark in his four-year college career. All the Maronons were high in praise of the clusive negro from Port Huron, Mich. Hazely also kicked 6 out of 7 conversions and his first one was perfect as the ball sailed through the uprights and hit ten flagpole which was exactly centered behind the goal posts (Abe) Martin indicated that Hazely was one of the best backs to run against Southern in 12 campaign and Wilsner commented that he hade's sean a better backs in the Michigan-Michigan State game that alternoon. He's astrictly "big time."

Broke Records
Revision of Wayne's record
books seemed quite probable following the contest, during which
Hazely shattered the following
marks: Most points secred in one game, 24; most extra-points kickgame, 24; most extra-points kick-ed in one game, 6; most points scored in college career, (he al-ready has 108); most yardage gained in one game, 254 yards.
