WASHINGTON (AP) -- House Democrats unveiled their summary response to President Reagan's economic package Sunday, calling for a sharper, smaller budget deficit in 1983, a smaller tax cut and a larger commitment to defense and more for social programs.

It calls for overall spending cuts roughly $4 billion deeper than the Reagan recommended, but does not assume enactment of the board tax cut of 30 percent that is the centerpiece of the administration's economic recovery program.

Rep. James D. O'Killo., chairman of the House Budget Committee, unveiling the package at a news conference, said it would produce a balanced budget in the 1983 fiscal year, a year earlier than the administration's own target.

"This is a budget which meets the needs of America," he said, calling on Republicans to "put aside partisan bickering and ever-swear this pass budget." He said the committee was working to achieve a balanced budget, but did not specify an exact deficit.

James Wright of Texas, a member of the Democratic leadership, said: "I will oppose it. And I believe it is a budget that will not make significant changes in the package Jones presented.""I will oppose it. And I believe it is a budget that will not make significant changes in the package Jones presented," he said.

"As further evidence of the U.S. Democratic consensus, Jones told reporters the $35 billion he left in the budget for tax relief in fiscal 1982 had the approval of Rep. Daniel Rostenkowski, D-Ill., chairman of the tax-writing House Ways and Means Committee. The comparable tax cut figure in Reagon's budget was for $31 billion. "

House Republicans said it would produce a fiscal year, a year earlier than the administration's own target.

House Republicans said it would produce a balanced budget in the 1983 fiscal year, a year earlier than the administration's own target.

"I believe the Democratic leadership is in support of the budget," Wright said.

House Speaker Thomas P. O'Neill, D-Mass., who did not attend the news conference, said he was not calling on Republicans to put aside partisan bickering and pass the budget.

"I will oppose it. And I believe it is a budget that will not make significant changes in the package Jones presented," Wright said.

Holocaust victims have their day of remembrance. They are being remembered in many countries around the world.

The International Holocaust Remembrance Day is observed on January 27th. It was established by the United Nations in 1961 to commemorate the liberation of Auschwitz-Birkenau concentration camp, which served as the symbol of the Holocaust.

In memory of those who suffered and died in the Holocaust, a day of remembrance is observed in many countries around the world. It is an opportunity to honor the memory of those who lost their lives in this tragic event and to reflect on the lessons that we can learn from history.

The day is also a reminder of the importance of upholding human rights and combating all forms of discrimination. It serves as a testament to the resilience and strength of the survivors and their impact on shaping the world we live in today.

In recent years, there has been an increase in hate crimes and anti-Semitic incidents around the world. It is crucial to continue to educate ourselves and those around us about the importance of remembering and commemorating the Holocaust.

This day is a call to action, to ensure that the lessons learned from the Holocaust are not forgotten and that we strive to create a world where all people are respected and valued, regardless of their race, religion, or any other characteristic.

It is a day to cherish our humanity and to reaffirm our commitment to building a more peaceful and inclusive society for all.

Sports fund raising raises rises despite inflation

Editor's note: Raising the necessary funds for students' athletic teams is a continuing challenge for many institutions. University of Illinois-Urbana-Champaign is no exception. The student body, however, is known for its support of athletic programs through fund-raising efforts.

The university's athletic department operates on a budget of approximately $1 million, with the majority of the funds coming from student fees. Despite the financial challenges faced by many institutions, the athletic programs at the university have continued to thrive.

Athletic programs at the university play an integral role in the lives of students. They provide opportunities for athletic participation, physical fitness, and camaraderie. These programs also serve as a source of pride for the university and its alumni.

However, the athletic department has faced financial challenges in recent years. The department has had to cut costs and find alternative sources of revenue to ensure the sustainability of the programs.

While there have been challenges, the university continues to support its athletic programs through various initiatives. These include the student athletic fund, which allows students to contribute financially to the athletic programs.

In conclusion, the athletic programs at the University of Illinois-Urbana-Champaign continue to face financial pressures. Despite these challenges, the university remains committed to providing opportunities for student-athletes and continuing to support the athletic programs.

Czech party chairman attacks Poland leaders

PRAGUE. Czechoslovakia (AP) - Czechoslovakia's prime minister has accused Poland of failure to restore order in the crisis-racked country.

"We are not hiding the fact that our people are following the events in fraternal Poland with suspicion," he said. "If there is any hint that Poland's government is being crushed by the Red Army, we shall not fail to point it out." He also said that "Poland's leadership is divided. The government is divided, and the people are divided." He concluded by saying that "Poland's leadership is divided. The government is divided, and the people are divided." He concluded by saying that "Poland's leadership is divided. The government is divided, and the people are divided." He concluded by saying that "Poland's leadership is divided. The government is divided, and the people are divided." He concluded by saying that "Poland's leadership is divided. The government is divided, and the people are divided." He concluded by saying that "Poland's leadership is divided. The government is divided, and the people are divided."
34 pollution, safety standards for car industry to be lifted

WASHINGTON (AP) - Halting more than a decade of increased production, the Reagan administration said Monday it will relax or eliminate 34 pollution and safety rules to help the troubled American auto industry.

The move will save manufacturers about $3 billion last year, nearly $1.4 billion in capital investment over the next five years, the administration said. Auto and truck buyers would benefit by about $9.3 billion, an average of $150 per vehicle.

"The American automobile industry is in serious trouble," President Reagan said in a statement released at the White House. Administration officials said the industry incurred "unprecedented losses" last year and 180,000 auto workers are unemployed.

Solidarity adviser counsels caution

WARSAW, Poland (AP) - An adviser to Solidarity counseled the labor movement Monday to follow a no-strike stance and avoid provoking Soviet intervention here.

The adviser, lawyer Jan Olszewski, said only outside intervention could block the move toward reform within the Polish Communist Party.

"The only thing that can rescue the hard-liners from the reform-minded in the party's rank and file is intervention," he said in a statement published in a Solidarity newsletter.

Olszewski's statement came after days of heightened concern in the West over Soviet intentions toward Poland, where labor militias have led strikes and been pushed away from Soviet-style communist orthodoxy.

Polish Deputy Premier Mieczyslaw Rakowski, in France, was quoted as saying in an interview published in the Paris newspaper Figaro that "the worst is over in the last country which would want to intervene in Poland."

The Soviet news media seemed to relax its own criticism of Poland Monday, publishing instead a letter from a Soviet worker to members of the Polish party's Central Committee expressing the "firm conviction" that the party "is the only force capable of overcoming the country's labor crisis."

Last week, spokesman for Solidarity's government officials raised the prospect of outside intervention during weekend protests that halted a general strike threatened for Tuesday.

Monday's statement by Olszewski, who advises Solidarity's outspoken Warsaw chapter, appeared to be an elaboration on this theme.

News Roundup

Reagan runs slight fever Monday

WASHINGTON (AP) - President Reagan, described as alert and in good spirits, was running a slight fever Monday and doctors took the precaution of giving him additional antibiotics although they said there was no evidence of infection in his lung.

A chest X-ray showed "modest clearing" of lung infiltrates — probably dried blood or damaged tissue — along the track of the bullet that entered his left lung in an assassination attempt a week ago.

Space shuttle nearly on schedule

CAPE CANAVERAL, Fla. (AP) - Hundreds of technicians at Kennedy Space Center and two nearly isolated astronauts in Houston were working almost on schedule Monday to launch a common, revolutionary goal: launch of a rocket ship able to go into orbit again and again.

The space shuttle Columbia, due to be launched on Friday, stood gleaming white in the all-night bath of powerful spotlights as crews worked around the clock in a precision countdown.

Coal strike hurts related industries

By The Associated Press

Effects of the 11-day-old nationwide strike by soft coal miners spread further through related industries Monday, as scattershot strikes pockotted the Appalachian coal fields, West Virginia.

There was no scheduled resumption of talks between the United Mine Workers and the Bituminous Coal Operators Association, but a spokesman said the UMW's bargaining council had been told to report to Washington Friday to decide its next step.

Haig blames latest fighting on Syria

AMMAN, Jordan (AP) - U.S. Secretary of State Alexander M. Haig Jr. blamed Syria Monday for the latest explosion of fighting in Lebanon and said it could have "most serious" consequences.

A senior U.S. official in the Haig party told reporters "great pressure" was building in Israel for Israeli forces to intervene on the side of the Lebanese Christians in their 6-day-old battle against the Syrian army.

Haig flew to Amman Monday and met with Jordan's King Hussein after a 14-hour visit to Israel.
Funds from Page 1

"We try to raise friends by getting out and talking to people," he said.

A part of that interaction is Mare, who said, "because of long social relations within the group, I am active in raising funds.

Mace said the major part of fund raising is handled by Sayers, the coaches and himself. He said the Office of Development and Services, which directs fund raising for the rest of the campus, "doesn't have the rapport that the athletics fund raising.

Joanne Thorpe, professor of physical education, was part of a special project to study athletic fund raising. She said a preliminary report on the project indicated "an awful lot of universities aren't doing much in fund raising, especially for women's programs."

She said most large universities have general fund raising campaigns for athletics and women get a percentage of that. Thorpe said "the level of funds to women athletics is low.

Mace said: "it is more difficult to get contributors to the women's than to the men's programs." But he thought it would be easier in the future as the stature of women's sports rises.

He said if the temporary $10,000 athletics fee is discontinued "self-generated funds will need to be increased." The economy makes fund raising more difficult, he said.

"As we wrap up SIUC's in its athletics fund raising is Sayers, which the former star Chicago Bear running back readily admits. He said some people give because he is here, but they know "they are giving to the SIU athletics fund."

Mace agreed, saying, "Gale has attracted some contributors from out of state." Poised student is 'satisfactory'

Rick A. D'Agostino, the SIU-C student who accidentally drank insecticide at a party Saturday night, was in satisfactory condition Monday in Firmin Desloge Hospital in St. Louis, a hospital spokeswoman said.

D'Agostino, 22, was in serious condition in the intensive care unit of the hospital Sunday when he was transferred to St. Louis from Memorial Hospital in Carbondale, where he was first taken, according to the SIUC police report on the incident.

D'Agostino was poisoned after accidentally drinking the insecticide at a party on Pleasant Hill Road, police said.

ELECI from Page 1

Voters will be choosing a township supervisor in a race that pits Democrat Robert Kelly against incumbent Republican B. Joe Barringer.

In the township clerk race, Republican Pat Tindall will try to unseat incumbent Democrat Virginia Drebner.

Republican Ralph R. Richart is running for the state House seat in the Democratic Vernell Bloodworth-republican Campbell commissioner race.

Eight candidates are running for four township trustee positions. The four incumbent

positions are Democrats Gerald W. Compton, John S. Holmes, Charles Leming and Clara McCrure. The four Republicans opposing the incumbents are Evelyn R. Engelking, Nelson R. Gilman, Alvan Laster Jr. and Maurice S. Misk.

Matalonis, Watkins best for City Council

A somewhat placid campaign for the two open seats on the Carbondale City Council has drawn to a close in a race that pits two SIU-C students against two incumbents. We are backing a mixture of experience and youth in today's city council.

Experience and youth are qualities that describe Paul Matalonis, the 22-year-old Undergraduate Student. Matalonis has been the most active student body president the University has had in some time. The first year he was elected, a student government scandal took place as many of the phone numbers may be, Carbondale Clean-Up Day, the safe and successful last fall and the upcoming referendum on the $10 athletics fee increase are all accomplishments which Matalonis has played a role. He has decision-making and governing experience.

And there is no reason to believe that Matalonis cannot be just as successful on the City Council. Seeing an "undergraduate" run for a seat between "professionals and citizens" last spring, Matalonis appointed himself to the Carbondale student-city liaison position. In that position, he has attended numerous Carbondale City Council meetings in recent months and, when asked to voice student concerns, has shown himself to be well-heard and articulate.

Matalonis, who expects to enter SIU-C's Law School next year, has said that he wants to set up a law practice in Carbondale when he graduates. Because he wants to make Carbondale his home, and based on his record as USO president, Matalonis can expect to take the long view in looking for solutions to city problems.

Watkins is the type of man who makes citizens of himself. He does all his homework and can be counted on to do his part in voluntarily--increasing employment in Carbondale--is right on target. On the other hand, that he won his ticket to run on the basis of any pre-emption of home rule power, the city would take some type of legal action. ... The question of whether home rule units may have Constitutional powers taken away by the Illinois Legislature is one which must be answered as a dangerous precedent is not set.

The Illinois Constitution is quite clear on the matter, stating in section 6, paragraph 1, that "the vote of three-fifths of the members elected to each house may deny or limit the power to tax and any other power or function of a home rule unit..."

The Illinois Legislature approved the proposal for an alcoholic drinking age for beer and wine to 21 years old. The Illinois Supreme Court or lower courts. The Mill Street housing project, originally built for elderly and handicapped persons in Jackson County to fill.

Both the Rev. Watkins, and Archie Jones voted to approve over $65 million in bonds to help finance the project, apparently without full and accurate knowledge about our city's housing needs. Carbondale is a city of about 40,000 people and has a population of 15,000-20,000. The Mill Street project is the least of our housing needs. Let's add to the policy an example of the policies the incumbent favors.

Imposter’ gains empathy for disabled

By Pete Knecht
Staff Writer

Heave, roll two feet, pause. Shove again, roll one foot, relax. Strain, make another foot. Aching muscles.

The manual wheelchair slowly crawled up the hill in the area between the Wham Building and Morris Library. A spring sun warmed lazy students on the lawn nearby. The 14 ceramic sculptures posed among trees beckoned viewers.

But struggling with the wheelchair on the steep incline, I had no time for soaking up the scenery.

I was an imposter in the chair. My shoes on the wheelchair’s platforms were well-worn; my hands were uncalloused and my arms were weak at the wheel rims. And I was glad, yet sad.

Thirty-eight students simulated physical handicaps last week as part of Disabilities Awareness Program at SIUC. For a day, students could sample a visual or hearing impairment or life in a wheelchair.

The awareness simulations brought up two-fold. Despite small, annoying snags, it became apparent that life as a disabled person was possible; independence could be had.

But the simulation couldn’t fully provide the inner struggles of being disabled, the permanence of being just a bit different.

From a wheelchair, little actions performed smoothly on two sturdy legs seemed ominous. A coffee dispenser in a Student Center cafeteria loomed at neck height. Stacks of cups were piled too far back to reach from the chair. But two had fallen forward, luckily within reach.

I was grateful for such small matters while in the chair. The things normally taken for granted became stark.

Outside the Student Center, a brief conversation with a wheelchair student, this one not simulating, pushed home a major point of the day.

People on two firm legs, he said unemotionally, dress in certain fashions to be noticed by others. He always gets noticed – but for different, not necessarily bad, reasons, he said.

The brickways surrounding Faner Hall jolted the chair. The whole world seemed to be shaking. Simple cracks in the sidewalks, once easily stepped over and ignored, equaled potholes racking a car.

People helped with a double door at Faner. No problem. But they couldn’t stop the sudden jolt of the doorknobs against the chair.

When needed, the public gave instant service. But eye contact, a normal exchange between walking passers-by, turned strange. Only brief glances were exchanged from that waist-high, rolling position. Smiles, sometimes accompanying the foxed expressions, often seemed superfluous, contrived because of the presence of a metal frame. Not a person.

Pushing the chair at walking speed was the roughest path was a chore. It was easier on the hard tiled floors of Faner, where the motion seemed almost like gliding on ice. I found that exit signs were virtually worthless. Stairs lay behind them. Elevators had to be sought out and waited for, doubling the maze of Faner. But there was accessibility.

Doors could be managed, although when pulled, they often pulled back, rolling the chair forward and jamming metal against metal. A quick, direct route from Faner to Woody Hall was often cut short. Often, ten minutes from classroom A to B. The chances seemed slim, very slim.

A newly-installed elevator in Woody made most of the building accessible. But the route into Pulliam Hall wasn’t easily navigated.

The several flights of stairs on the east side of Pulliam were a direct “stop, go around” sign. With the detour of several blocks to enter through the connecting glass corridor of Wham Building.

Outside Pulliam, facing Morris Library, students lounged in the sun. Two roller skaters skillfully glided by. Parked just off the sidewalk, my chair became part of the grassy-green scene.

The bumpy, springy grass had been nearly impossible to negotiate on the four-wheeled chair. But there I was, sunbathing with the most chic of them, made different only by my metal and rubber companions.

Flying downhill from Pulliam, my chair wasn’t seen.

'Thief' is excellent, underpublicized film

By Bill Crowley
Staff Writer

Reflecting the meticulous nature of its title character, "Thief", has an unmistakable professional air about it. As far as crime thrillers go, this one is remarkably slick, intelligent and exciting.

Director Michael Mann goes in great detail to recreate the world of an independent professional heist man who deals only in diamonds and hard cash. But, unlike most films of this genre, the characters in 'Thief' are just as important as the story and Mann brings them to life within a world in which crime is an organized, complex business.

James Caan plays Frank, the lead character, a lone-wolf specialist who conducts his operations out of his getaway car (which again looks beautiful on film) with the help of an alarm specialist (James Belushi) and a getaway driver. He has no mother, no father, no dog, men and crooked cops to pay off. He lives in a nicely ordered world within which crime is, all of a sudden, no longer in the hands of a child.

Playwrights' Workshop to feature professionals

The Theater Department's annual Playwrights' Workshop, featuring student professional playwrights Thomas Sharkey and John Kirk, will be held Sunday through Tuesday. The workshop is co-sponsored by the Illinois State College and the Student Theater Guild.

"An Evening of New Plays," a presentation of two original student-written plays, will lead off the workshop with performances at 8 p.m. Thursday through Sunday at the Laboratory Theater. Tickets are available at the McLeod Laboratory Theater box office from noon to 4 p.m., Wednesdays through Sundays. The Workshop is open to the public except "An Evening of New Plays." Special critique session moderated by Sharkey and Kirk.

A play by a new student writer, presented on the McLeod Theater, followed by a staged reading of Sharkey's psychological drama "Dreams" at 4 p.m. in the Laboratory Theater. Tuesday's activities include a seminar for aspiring playwrights at 9 a.m. in Room 2400 of the Communications Building. A staged reading of "Third Chapter" will be held at 4 p.m. in the Laboratory Theater.

All of the events are free and open to the public except "An Evening of New Plays."

Laboratory Theater to host original student-written plays

Two original student-written plays, "Inside Fred's Head" and "The Death of Sherlock Holmes," will be performed at the Laboratory Theater's production of "An Evening of New Plays." These plays are being held at the McLeod Laboratory Theater box office from noon to 4 p.m. weekdays.

"Inside Fred's Head," written by journalism student Bruce Cantwell, deals with the obstacles met by a writer in his literary and personal world.

"The Death of Sherlock Holmes," adapted from one of Arthur Conan Doyle's short stories, is written by theater student Lars Timp. Special critique session moderated by Sharkey and Kirk.

Review

Thief, starring James Caan, Tuesday Weld, Robert Prosky and Willem Dafoe, directed by Michael Mann, University Theatre Review: Rating: ** (four stars tops).

A beautifully orchestrated opening scene shows the gang as a close-knit group of experts utilizing walkie-talkies, police scanners and split-second timing to pull off their heists. Mann combines steady dramatic pacing with detailed photography and a pulsating soundtrack to take us on a tour of the world of the high-priced crook. Everything falls right into place.

However, Frank's personal life is guided toward an early retirement, fat bank account and a serene domestic life. He wants to score big on a couple of jobs and then call it quits. The thefts are calculated, the timing to pull off the jobs is perfect, and he wants to score big on a couple of jobs and then call it quits. The thefts are calculated, the timing to pull off the thefts is perfect, and Frank reluctantly accepts the mob's offer and the rest of the film shows us his marriage (to Tuesday Weld), the proud purchase of a son which Weld extracts from his own self and an eventual crisis-of-life situation which leads to the film's bloody, yet ethereal finale, which is reminiscent of "Taxi Driver" and Sam Peckinpah's best work.

While watching 'Thief,' I could not help but sense that this film accomplishes exactly what it sets out to do—de-pict the world of criminals as being populated by real people with desires and goals—while not sacrificing its dramatic pacing and action.

Caan is suitably forceful and emotional in the lead role of a crook with plans for a decent life ahead of him. His interpretation of an icy character with a world of crime is his best work since his performance as Sonny Corleone in "The Godfather." Prosky's performance as the fatherly mobster is utterly fascinating especially when his demeanor suddenly turns sour and leads to the film's violent, yet appropriately uncertain conclusion. Star-turned-actor Willie Nelson also scores nicely as a master thief trying to get out of jail before his life ends.

Mann's attention to detail is consistently fine. The thief sequences are highlighted by close-ups of buzzing drills and blowing blow torches. His night photography effectively combines shadows and light to create a gritty, street-wise atmosphere.

Hopefully, 'Thief' will not go unappreciated amongst the bookings of such fine films as "Two," "Ordinary People," and "Amadeus" and "My Left Foot." It's an excellent, underpublicized film which deserves more attention than it will probably get. Most importantly, 'Thief' is a story about efficient professionals which is told by film specialists with an equally high degree of expertise. Don't miss it amid the tidal wave of fine films in town right now.
Danceathon winner lasts 16 hours

By Margie Schubert

The winner of the muscular dystrophy danceathon held at the Student Center danced for 16 hours and brought in almost half of the total donations received.

Teresa Dunn, freshman in dynamic therapy, has a special interest in muscular dystrophy since three of her relatives have had the weakness or destroyed voluntary muscles. Dunn’s pledges amounted to $1,066, about $400 of which she personally contributed. The rest of the money was gathered by Dunn’s family with many contributions coming from friends and relatives.

Dunn danced the entire 16 hours—from 8 a.m. to 12 p.m.—taking only short occasional breaks. She energetically urged onlookers to join the dancers on the floor.

Several participants had dancing partners, but it was mainly a group effort: everyone dancing together.

The danceathon, held in the Civic Center, was a benefit concert for the Inter-Greek Council hosted by the Student Center which decided to call it a danceathon.

“...I think I can contribute even more to the cause by helping in the planning process and making next year’s danceathon a really big and successful event,” Dunn said.

Grocery chain to stop individual item pricing

NEW YORK (AP)—A Washington, D.C.-area supermarket chain has decided to stop marking prices on cans, bottles and boxes, firing another shot in the battle between consumer groups and retailers.

The salvo came over the weekend from Giant Food Inc., which said prices would be removed from items over a period of four to eight weeks. Prices will be marked on shelves instead of on individual items.

Ann Lower, spokeswoman for the Consumer Federation of America—a coalition of local consumer groups—said the removal of item prices “will probably spread,” although she also said shoppers oppose the idea.

Barry Scher, a spokesman for Giant, which has about 120 stores in and around the nation’s capital, conceded that the success of the program will depend “entirely on consumer acceptance.” A Florida chain, Publix Super Markets, tried ending item pricing earlier this year. But Mark Hollis, the chain’s vice president, said the experiment was abandoned because of customer opposition.

To win support for its program, Giant said it is lowering prices on 1,500 to 2,000 of the 15,000 items in its stores. Giant also is offering free pencils to shoppers who want to copy the bulk prices onto the individual items.

The controversy began in the early 1970s with the introduction of the Universal Product Code—a combination of lines and symbols identifying individual items and their prices. The code was designed to “read” by an electronic scanner at the checkout counter.

Retailers said the code and scanning systems could cut costs, speed checkout and eventually save money for both shoppers and stores.

Music ensemble to trace history of American jazz

The history of American jazz music will be demonstrated when the Smithsonian Institution Jazz Repertory Ensemble presents its show at 8 p.m. Friday at the Marion Cultural and Civic Center.

Tickets priced at $7, $10, $12 and $15 are available at the Civic Center office, Heck’s at the University Mall, Gentlemen’s Garage in Old Town, Elles in Herrin and Millennium Music in West Franklin.

Director and saxophone player Bob Wilber has been associated with swing-era musicians like Bob Haggart, Sidney Bechet and Goodman.

The group has two live recordings on the Smithsonian Collection label; one a collection of Johnson and Waller tunes and the other featuring the music of Morton.

Details of a stormy marriage are revealed through letters

By Michael A. Lutz
Associated Press Writer

Liberty, Texas — He didn’t like the way his wife cooked, the way she treated him when he came home from work or her sweet tooth.

She didn’t like being treated like a “peasent with no sense” and warned him that his throne “will crumble one of these days and you’re going to need someone who loves you.”

It looked like the marriage doomed to divorce, but it met a fate far worse.

On Jan. 9, Price Daniel Jr., former speaker of the Texas House of Representatives and scion of one of Texas’ most powerful families, was shot to death. Vickie Daniel, his second wife, is charged with his murder.

Free on $50,000 bail, with her murder trial not expected to begin until summer, she says the shooting was an accident, that she remembers firing a warning shot at Price but doesn’t remember hitting him.

Details of their stormy marriage are revealed in letters the couple wrote to each other in 1979. The letters were submitted as evidence in a lawsuit filed by Daniel’s sister, Jean Daniel Murph, in an attempt to gain custody of the Daniels’ two sons.

The judge in the custody fight began its fourth week Monday.

Price met Vickie while she was working at a Dairy Queen to support two children from a former marriage. They were married Nov. 1, 1976, in New Orleans.

During one of many separations during the marriage, the Daniels each wrote the other a list of suggestions for self-improvement and another list of items suggested for their mate’s improvement.

“Always have a pleasant greeting when I come home from work even if it has to be faked,” Price listed as his No. 1 request of his wife.

“I don’t mean that you have to be especially dressed, standing in the doorway with a smile from ear-to-ear. But I do expect more than to walk in and find you intently glued to the TV,” he said.

Price chided Vickie for spending too much of her grocery budget on sweets.

“Try to go to the store without buying any candy, cake mix, jelly rolls, pie mix, cookies, Popsicles, etc.” he said. “Instead, buy more carrots, raisins, celery, apples, grapefruits, etc.”

“Similarly, quit completely, stop absolutely forever and ever, stopping at Sobeys, Dairy Queens, etc., lee Cokes and ice cream. It’s not only a waste of money, it’s a bad habit.”

Vickie also had a complaint about her husband’s eating habits.

“I think you should eat at the table, and not have me serve you in the playroom,” she wrote. “I’m not a waitress anymore, I’m your wife.”

Her No. 1 complaint about her husband was that he belittled her.

DEAN to deliver memorial lectures

Norman J. Doorenbos, dean of the College of Science, has been named the 1981 Ballenger Memorial Lecturer by the C. M. Ballenger Foundation in Flint, Mich.

Doorenbos will deliver a series of lectures in April at various Flint-area schools. He will speak on topics ranging from "Patterns of Drug Abuse" to "Plants that Changed the Course of History."

The Mott Foundation is a philanthropic institution which sponsors a number of educational, research and civic projects. Ballenger was in honor of an automotive engineer.

The lectures will be presented to high school, college and health professionals.

Later this year, Doorenbos and another SIU professor will take part in an international conference.

Summer classes at Oakton still leave time for vacation

Oakton Community College has changed to a semester system and is open more out of summer. With its new six-week programs you will be able to take more than one class at Oakton right after your summer semester ends and still have time to work as well as enjoy a vacation later.

The six-week summer sessions will start June 15. Classes will be held at both OCC/Danada and OCC/South. So come to Oakton and make the most of your vacation!

Power of U.S. media in world is threatening, professor says

By Mike Antone
Staff Writer

The ownership of the U.S. media by commercial conglomerates and its consequent dominance among world media present serious potential hazards to the integrity of American journalism, a London sociology professor said during a lecture at SIU-C Monday.

Jeremy Tunstall, professor of sociology at The City University of London, said the economic and technological dominance of the American media is widely seen as "good for the U.S. and bad for the world."

However, he said that because the dominance gives both the world and the American public "an exaggerated view of America's significance," this media dominance might make "what is bad for America, good for the world."

Tunstall made the comments during a lecture, entitled "The Media Are (Still) American," part of an SIU-C symposium on "International Perspectives on News," sponsored by the School of Journalism.

Tunstall also said that the dominance of the American media has, quite apart from its domestic consequences, led to "an absurd amount of world media coverage being given to the embassy hostages in Iran, and hence an exaggerated impression of America's strategic importance, diplomatic bumbling and military ineptitude."

Critics of the American media, "share a distaste for what lies at their core," an emphasis on box office and advertising revenue, and entertainment. However, Tunstall said, because of the political nature of some of these criticisms, and because of an unrealistic appraisal of "the bare financial facts of the media," some critics achieve more in the way of rhetoric than constructive criticism, he said.

Tunstall added the warning that while the U.S. and other Western media are "not a positive mode of world discourse," they are "probably more efficient, more entertaining and safer than any of the likely alternatives."

A public lecture entitled "The Media-Backstopping Official Policy" will be given by Kaarel Nordenstreng of the University of Tampere in Finland, Tuesday at 7 p.m. in the Student Center Auditorium.

A seminar on "International News Flow-Journalists' Perspective" Tuesday at 10 a.m. in Ballroom A of the Student Center will feature Jose A. Mayobre, first secretary of the Venezuelan delegation to the United Nations Educational, Scientific and Cultural Organization; Jasper Hsu, Central News Agency, Inc.; Tsuen and Morris Rosenberg, chief, World Services; Associated Press; N. S. Sitaram, chairman, SIU-C Radio-Television Department, will moderate.

In addition, a seminar on "International News Flow-Researchers' Perspective" at 2 p.m. in Ballroom A, will feature Tunstall; Chin Chuan Lee, Chinese University of Hong Kong; Joe Wan Lee, Cleveland State University, and Erwin Atwood and Shari Bullion, both of the SIU-C School of Journalism. Nordenstreng will be the moderator.

STUDENT RAPED

A 19-year-old SIU-C student was raped early Saturday morning while walking through Thompson Woods, between Morris Library and Paner Hall. SIU-C police said.

Police said the girl was raped at about 3 a.m. by a white male who was about 5 feet 10 inches tall, weighed about 150 pounds, and was between 23 and 25 years old. The suspect struck the victim several times during a struggle, police said.

Singer Dies

Lee Nagle (UPI).—Robert Hite, a member of the rock group "Blood, Sweat and Heat," died early Monday of an apparent heart attack, police said.

Hite, 38, was pronounced dead at 2:20 a.m. EST after being stricken while performing at a club in North Hollywood.

— Campus Briefs —

Ivan A. Elliott Jr., former chairman of the SIU Board of Trustees, was elected Chairman of the State Universities Civil Service Merit Board at the 86th meeting of the board in Urbana. The Merit Board's purpose is to establish a sound program of personnel administration and promote efficiency and economy in the services performed. Elliott represents SIU on the merit board.

A workshop entitled "Nature's Remedies" will focus on how to make natural cosmetics and remedies from 3 to 5 p.m. Tuesday in Activity Rooms C and D. The workshop is cosponsored by the Student Wellness Resource Center, New Horizons and Eta Sigma Gamma.

Phi Kappa Phi, the National Honor Society, will sponsor a talk by Thomas Baugh, assistant to the University President, from noon to 1:30 p.m. Tuesday in the Student Center Corinith Room. Baugh will speak on the role of assistant to the president. Proposed revisions to the bylaws of the campus chapter of the Honor Society also will be discussed.

"Careers in the Air Force for Engineering Majors" will be the topic of a presentation to be given by an Air Force officer from 7 to 8 p.m. Tuesday in the Student Center Mackinaw Room. The presentation is sponsored by Air Force ROTC.

The SIU Frienside is seeking women participants in a "ultimate frisbee" state tournament this weekend at Illinois State University. Interested parties may sign up by contacting Diane at 529-9403 or the Frienside Club at 549-2404.

The Friends of Carbondale Public Library will hold its annual meeting at 8 p.m. Tuesday at the Carbondale Public Library, 304 W. Walnut. John Hoddow, associate professor of English, will speak on "John Gardner—the Carbondale Years." Memberships to the Friends of Carbondale Public Library may be obtained at the library for $2 single membership, $10 organization membership and $25 sustaining membership.

The International Year of the Handicapped Awareness Program has led to a number of activities scheduled for Tuesday. The Recreation for Special Populations: Leisure Awareness Program will sponsor a wheelchair bocce demonstration from 6:30-7:30 p.m. in Room 158 of the Student Center. The Student Recreation Center's Special Population Program will sponsor a wheelchair slalom course at 7:30 p.m. in the Recreation Center. A "Deep Ball" game also is set from 3 to 5 p.m., at Field One across from the Recreation Center. All persons, blind or not, can try their skills at blind baseball.

Health News...

ASTHMA ATTACK

BY DR. ROY S. WHITE

Doctor of Chiropractic

Attack is the word.

If you have ever seen anyone fighting for their breath during an ASTHMA ATTACK, you know how the body is "UNDER ATTACK." The desperation in their eyes as they forced themselves to stay "In control" knowing that panic will intensify the severity of the ATTACK.

The helplessness you feel...the helplessness of the spine...the struggle...anything except empty "words of encouragement"...WHY?!? WHY?!? WHY?!?

In no way can anyone say, "there is no cure, unless some less, you can help the body function correctly."

AHA, a glimmer of hope.

Maybe there is a misunderstanding in the spine column.

Maybe that misalignment is causing pressure on the nerve that controls the lungs, causing it to react to things from the brain to the lungs.

Maybe that pressure is causing the lungs to malfunction. (Cranial adjustment (vertebra) was restored to its correct alignment the pressure would be released and that energy force would again flow freely, directing the body to respond to the ATTACK.

That is not say that there is any panic, oh no, but a glimmer of hope is worth a try...what have you got to lose—contact a Doctor of Chiropractic to determine if your problem is a problem for a Chiropractic solution.

Many Chiropractors will make no charge for a Consultation and will warn you of the probabilities of correcting the CAUSE of the problem.

Taking drugs to ward off the attacks may give "temporary relief", but what are the long term effects, what will those drugs do to your body in the next 10, 20, or 30 years.

Contact a person that is into NATURAL HEALTH, a CHIROPRACTOR to get the answers to your question.

Step up to
A SECOND CAREER
by shaping up this summer.

Army ROTC offers college students the opportunity to earn an officer's commission in two years. It requires only 12 weeks of training at Fort Knox, Ky., this summer. With pay (over $5.30), and free travel, room and board.

You'll learn what it takes to be a soldier—to have your body toughened, your confidence developed.

Depending on your ability, you can qualify for Army ROTC courses in the fall. Do exceptionally well and you may be heading back to college with a full-ration and fees scholarship.

Then, for the next two years, while you're earning your chosen degree, you'll also prepare for a responsible leadership position as an officer, full time on active duty or part time in the Reserve or National Guard.

ARMY ROTC. BE ALL YOU CAN BE.

To arrange an interview appointment, call 453-5786, or visit us in the Dept. of Army Military Science, Bldg.T-40, located between Fanner Hall and Morris Library.
Denise Carver

Junior receives $1,000 award at honors program

By University News Service

Denise Carver, of Mount Vernon, has been named winner of the annual Glenn (Abe) Martin Student Award presented by the College of Education.

Carver, a junior majoring in elementary education, received the $1,000 cash scholarship award during Honors Day observances Sunday.

The award is made each year to a student in the College of Education who "exemplifies the personal and professional life" of Martin, longtime SIU-C basketball, football and basketball coach and athletics director.

Martin was inducted into the SIU Hall of Fame in February, 1978, and soon after that event his family pledged $100,000 to the SIU Foundation in his name to establish the Glenn (Abe) Martin Chair in the College of Education, as well as the annual student award.

William E. O'Brien, chairman of the University's department of recreation and outdoor recreation, occupies the Martin Chair.

Carver has achieved a perfect 4.0 grade point average. She is vice-president of the SIU-C chapter of Alpha Lambda Delta honor society, and a member of Pi Lambda Theta honor society. She is also a member of the College of Education's Student-Faculty Concerns Committee and represents the college to the University's Union of Colleagues.

Nurse practitioners to handle routine, female-related exams

By Colleen Moore

The Health Service has added two new nurse practitioners this semester who are qualified to perform Pap tests, pelvic exams and other basic female-related exams.

Besides performing the exams, Sylvia Chalem and Laura Buckley are there to talk to female students about their gynecological problems. "Some people just come in to talk about their methods" of birth control, Chalem said.

They also are allowed to issue certain prescriptions, such as:

**IMMUNIZATION CHEESE OK'D**

MADISON, Wis. (AP)—Pizza made with artificial cheese can be sold in Wisconsin, a federal judge has said, ruling against a state agency’s order holding up sales of pizza in the state.

The agency said the pizzas were mislabeled and unpalatable because they were made with substitute cheese. The use of the artificial cheese meant that the products were not within pizza standards.

**Trained Nurse Practitioners**

Sylvia Chalem, nurse practitioner, is one of two women who are qualified to perform Pap tests, pelvic exams and other basic female-related exams.

Health Service nurse practitioners are trained in breastfeeding, geriatrics at the Jackson Women's Health Center, family planning and polygraph tests.

Chalem is a nurse practitioner at the Rocky Mountain Planned Parenthood Center in Denver, Colo.

Sam McVay, director of Student Health Services, said expenses for the course, travel and room and board were paid for by the Health Service.

Before coming to the Health Service about five years ago, Chalem said she worked in geriatrics at the Jackson County Nursing Home and as coordinator for the outreach program of the Erma Hayes Center.

Chalem said she received her Bachelor’s degree in nursing eight years ago from SIU-E.

Trouble learning to read tied to brain shape by researchers

Boston (AP) - People who have trouble learning to read are more likely to have unusually shaped brains, and this difference may help explain how dyslexia is inherited, researchers have found.

The doctor directing this study said Monday that it may be possible to examine a brain X-ray and predict an individual's reading ability and other skills.

The human brain is not symmetrically shaped. Instead, part of most people's brains is larger on the left side than the right. This area, the parietal and occipital lobes, is involved in reading, writing, math skills and sight.

"These data are statistical," said Dr. Peter B. Rosenberger. "They don't tell you anything very important about any one case yet. They're simply giving us a clue about conditions of the brain that may increase the odds that you're going to be dyslexic.

Rosenberger is director of the Learning Disorders Unit at Massachusetts General Hospital, where the study was conducted.

His team studied 53 youngsters who had trouble learning. Their reading abilities were at least two grades behind other people their age, and reading was their chief problem.

In 48 percent of them, the parietal and occipital lobes were wider on the right than on the left, a condition doctors call reversed asymmetry. In the population in general, only 2 percent have reversed asymmetry.

Although many people associate dyslexia with writing backwards, most dyslexics do not. Rosenberger said doctors define dyslexia as "failure to learn to read at the proper rate by an otherwise normally intelligent person despite adequate educational exposure."

"It may be that it is specific lack of talent for various skills that's inherited," Rosenberger said. "If that's true. It means that we're not dealing with brain damage syndrome in dyslexia. What we're really dealing with is someone whose specific lack of talent puts him in trouble with what society expects of him."

Supreme Court reverses rule on federal contract back pay

WASHINGTON (AP) — Overturning a lower court ruling, the Supreme Court said construction workers who believe they were underpaid for work on federally sponsored projects have no right to sue under contracts involving reading, writing, math skills and sight.

The unanimous decision Monday, carried in an opinion written by Justice Harry A. Blackmun, overturned a lower court decision that would have allowed construction workers no less than prevailing rates for their craft in that community.

The case involved workers on a construction project in Minnesota to build a hospital.

The appeals court rejected that argument, but the Supreme Court agreed with Universities Research, a nonprofit alliance of some 30 universities that runs research, construction and educational projects requiring federal money.

"To imply a private right of action, for Davis-Bacon wages under a contract that does not contain prevailing-wage stipulations would destroy the careful balance between the interests of contractors and their employees, Blackmun said.

First Ogru talk set for Tuesday

Fred Sherman, professor in the department of radiation biology and biophysics at the University of Rochester Medical Center in Rochester, N.Y., will deliver the first Maurice Ogru Memorial Lecture today.

Sherman will speak on "Why Use Yeast for Studies of Nuclear Biology and Genetics?" Contrasts of initiation and transcription in Eukaryotes and Prokaryotes, at 11:30 in the Morris Library Auditorium.
**Softball team loses 3, but don’t blame hitters**

By Michele Schwent<br>

The softball team lost three out of four games in the Southwestern Conference this weekend. The Salukis discovered they were a bit too human this weekend.

The Salukis lost, 4-3, to the University of Oklahoma, 5-0 to Creighton and 3-2 to Southeast Missouri State. The loss to SEMO knocked SIU-C out of the conference baseball tournament. The lone Saluki win was a 10-3 affair over Northwest Missouri State.

SIU-C jumped out to leads in two of the three games but couldn’t hold the lead.

Against the Sooners, SIU-C scored two unanswered runs in the first inning. Chris Brewer drew a walk and, Lisa Stang reached on a fielder’s choice. Pat Stang smacked a hit to centerfield which rolled through the center fielder’s legs. The Salukis tied the game in the second on two unearned runs but SIU-C went up, 3-1, in the third on Norman’s home run. Oklahoma scored two more runs in the fifth inning. SIU-C had the tying runs on base in the top of the seventh with two outs but couldn’t bring the runners home.

Donna Dapson was the losing pitcher and gave up five hits, while Belle Craig was the winning pitcher and gave up three hits.

Creighton got one run in the fourth, third in the sixth and one in the seventh to blank the Salukis, 3-0. The Salukis had only three hits, two of them by Norman. Sunny Colwell was the loser, giving up eight hits and Marcia Jacobsen was the winner.

The Salukis fired up the offense in the next game, stomping Northeast Missouri. The Salukis went up, 3-0, in the first inning and added another run in the third as Norman cracked a home run. The Sooners tied the game in the second on two unearned runs but SIU-C went up, 9-2, in the third on Norman’s home run. Oklahoma scored two more runs in the fifth inning. SIU-C had the tying runs on base in the top of the seventh with two outs but couldn’t bring the runners home.

Donna Dapson was the losing pitcher and gave up five hits, while Belle Craig was the winning pitcher and gave up three hits.

Creighton got one run in the fourth, third in the sixth and one in the seventh to blank the Salukis, 3-0. The Salukis had only three hits, two of them by Norman. Sunny Colwell was the loser, giving up eight hits and Marcia Jacobsen was the winner.

**Volleyball meet to go international**

By Michele Schwent<br>

A bit of international flavor has been added to the fall volleyball schedule. The Salukis will battle the Korean Junior team Sept. 19 at the Alton Station. The climax of Southern Classic tournament.

The team is composed of players 20 years old and younger, and the world junior champions. The world junior champions beat the University of Oregon.

The tour was arranged by the United States Volleyball Association, includes matches against Purdue, Ohio State, Nebraska and the Salukis.

Coach Debbie Hunter said the match would provide a good experience for the Salukis because they will be playing against a team their own age which competes on an international level.

The Salukis are not idle, although the regular season is five months away. SIU-C is competing in an “open season” in preparation for the regular season and the Korean tour.

“The open season is valuable because it helps us prepare for next season,” Hunter said. “It is absolutely essential a team is to remain competitive.” Hunter added, “In some of the junior world, some of this type of play is taking place at a younger age. Some high school players play all year round. Those players are the prime candidates for scholarships.”

The team has played well repeatedly, according to Hunter, SIU-C has failed to advance beyond pool play in only two of five meets while finishing second in one and within the top six teams in one. Hunter said the goal of the appointment is to improve the total coaching realm from the lowest level to the highest level.

**Men netters to take on Vanderbilt**

By Rod Farlow<br>

The men’s tennis team will face Vanderbilt, 2 p.m. Wednesday at the University tennis courts.

“Vanderbilt is pretty good,” Coach Van Hunter said. “They beat us last year and they finished fourth in their conference. We’re underdogs again, but we should be able to handle it.”

The 6-9 Salukis are trying to build some momentum to carry into the post-season conference and national tournaments.

SIU-C is growing stronger by winning four of its first five matches, but those were all in school. Since going outdoors, SIU-C has managed only one win, a forfeit.

“It’s a different game outdoors,” LeFevre said. “It takes a certain amount of mental toughness to handle the conditions. We’re very good indoors. We showed that by beating Illinois, 9-0, this season after coach said it was the best squad the school’s had in 10 years. We’re just not playing as well as we should outdoors.”

The major weather condition for the last four Saluki matches has been the wind, which gusted to 24 mph in Carbondale during the Wisconsin meet and reached 60 mph during the Oklahoma City tournament.

“It blows the same for everyone, but we haven’t adjusted as well as the other teams,” LeFevre said.

The Saluki best affected by the windy conditions has been Steve Smith, a junior from Pukekohe, New Zealand, who has won his last four matches.

If the wind blows Wednesday, Hunter said it will be the only hardship for the Salukis, because Vanderbilt’s Charles Batt is coming to town.

“He finished sixth in their conference’s tournament last year,” Hunter said. “The English player, which means he is one of the best players in the conference. He’ll be tough to beat.”

After the Vanderbilt contest, SIU-C will travel to Murray State Friday, come home for a 4 p.m. match with Memphis State Saturday, and travel to Indiana Sunday.

**Cardinal reliever on disabled list**

**ST. PETERSBURG, Fla. (AP) —** The St. Louis Cardinals placed reliever Mark Little on the 23-day disabled list Monday and invited former Kansas City star Steve Busby to join their Class AAA Springfield minor league team.

Little, who was credited with 24 saves in the two years with the Redbirds before undergoing surgery last June, needs “more time for Mother Nature to take its course,” says Whitey Herzog, Cards manager.

Must be spending summer within 150 mile radius
MEEHAN from Page 20

Meehan took off the rest of the season and after six weeks was ready to go running again. She built up mileage over the summer and about the time school was going to begin she got training for the first time. But she didn’t get to go training in July and was going to start training rather early again.

“Then’s when I decided I just had to start training and that it shouldn’t be such a big deal. I’d been training all summer and I wasn’t going to come back and tell Miss Blackman, ‘Oh, hi, I’m really really hurt.’ I thought if they stayed the same way I’d be okay. I didn’t want to start training because I had a lot of stress fractures. She said she is known for her ability to be a top contender in the state meet.

Last April 1, Meehan resumed running with no pain.

This year, after a successful cross country season in which Meehan placed sixth in the state, she is still experiencing some pain. ‘I still feel it, but it’s almost as if I’m running pain free compared to what it was last year,’ Meehan said.

One of Meehan’s goals this year is to make it through the season. It appears she is going to do much more than that. Meehan has dramatically improved her times this season. She believes she is confident in her ability to be a top contender in the state meet.

Golfers have terriible tourney; finish 24th in Alabama outing

By Mike Anthony

The Saluki men’s golf team finished last in the Southern Intercollegiate Golf Tournament, which wrapped up Friday through Sunday at the Rolling Hills Country Club Course in Mobile, Ala.

The Salukis placed 24th in a 24-team field that included Alabama, Mississippi State, Wake Forest, Samford, Georgia Tech and Georgia State. Normal competition for the team was unavailable at press time, but going into Sunday’s play, leaders Intercollegiate of the court and banked in a runner and defeated the game. The runnning during her junior year.

During that time, the doctor tried putting a cast on one of Saluki’s legs to aide healing. They also tried a special diet.

Jim Reburn, team-wise, the tournament finished one of the toughest fields in the country, and that it was an honor for the Salukis to compete in such a quality tourney. The leading low scorer for SIU-C was John Schaefer, who shot a 233. It was Schaefer’s first outing of the season. Behind Schaefer were Rich Jarrett and Butch Poshard, who tied with scores of 237. SIU-C’s Tom Jones had a 240 score and Saluki Doug Clements tied with Clements a 241.

“I don’t think we were metempsychosised, but that would seem to have happened. We made a lot of mental errors, and that will cost you.

Everybody played bad on the first day.

SIU-C shot a first-round total of 325, which was 25 strokes behind the 300. Reburn said the Salukis would need for a 108th- or 13th-place finish.

“You have to shoot around 72, 73 a day to play. Reburn added. “We were 12 strokes behind right off the bat. We were well up our par for the tourney. When you get off to a bad start, it’s hard to come back.”

In the second and third round, the Salukis scored of 312 and 311, respectively. It was suggested that low scores more to their potential in any round, “But we didn’t say much from the first round, but that was mostly because of our par for the first round,

Men’s & Women’s 3-Hole CYCLING RACES (In conjunction with the Carbondale Primavera)

SUNDAY, APRIL 12, 1981 (1:30 p.m.)

ELIGIBLE: All SIU-C STUDENTS with ID & Certificate of Registration & STUDENT SPOUSES, FACULTY, STAFF & SOUSPESE for the $5 or $10 SRC Fee or pay the $30 Race Entry Fee are eligible to participate in the Intramural Sports Races.

ENTRIES DUE: Register at SRC Information Desk until Noon Sunday, April 12, or sign up at the starting line (Student Recreation Center East G) by 12:30 p.m.

Course maps available at SRC Information Desk.

REQUIREMENTS: Any speed bicycle, 2 working brakes & light handles (checked at race). Headgear or helmet with chin strap required.

GAME PLAN

Served with either a cup of soup of your choice, potato plants or a small salad.

$4.00 for a cup of cheese and bacon on a grilled egg bun

Slabburger

4 oz. beef patty on a grilled egg bun

With choice of: ham, cheese, or bacon

Cheesburger

4 oz. beef patty on a grilled egg bun

Mint Dippers

Two 4x4, beef, cheese, and dressing on a grilled egg bun

Sports Club

Bacon, lettuce, and tomato club served on egg or white wheat roll

Couch Club

Beacon, turkey, ham, lettuce, and tomato club served on egg or white wheat bread

Fresh Press

Deep fried chicken strips, cheese sauce and tomato open face

Roast beef, grilled onion and miscellaneous open face

Taco Bell

Grilled ham and cheese on Zebra Bread

Only a sampling from our off

Meehan will run in spite of setbacks

By Cindy Clasen
Staff Writer

Jean Meehan is not someone you read about in the paper every day. Even one of the finest women runners to come down the road at SIU-C in recent years, the two-time All-American, two-time cross country and track team captain and team coach Van Winkle named her not one to take up room on the sports page.

This year is proving to be a different story for the New Yorker, now in her senior year and final competitive season for SIU-C.

The reason? Meehan’s successes have been limited only by the number of injuries she has had to endure in order to keep running. Witness: Meehan does not think she can run.

Meehan first semester at SIU-C, it was clear. She was running cross country was the only one she ran pain-free.

From then on, it became a struggle. Meehan began swimming as a substitute for running, and plain old running with pain. It was, in her words, a “disaster.”

When Jean Meehan’s name appeared on the 1981-82 women’s track and field team, she painted her name on the name tape not because she had a weight or relinquish her family name. Meehan had put on the team, she was running.

Meehan played tennis in the fall and ran track in the spring until her senior year, when a hip that would not get serious about running.

“My feelings switched my junior year,” Meehan said. “I was running as of 3:29 to 5:35, thinking in order to do that she and her coach decided that cross country was out, too.

Success was evident in her senior year. She won the county championship in the two-mile run and was All-Conference in the five-mile run. At the state meet, she placed seventh in the mile with a time of 5:15.7, just 4 seconds short of the school record.

At an invitational following the state meet, Meehan shattered that record with a time of 4:54.5. It was a coach from a rival school that encouraged Meehan to check the program at SIU-C.

“After planning on going to college. Four more years of school were not appealing, Van Winkle (Coach Claudia) Blackman was optimistic over the phone about my coming down and competing on the team, so I came out that summer to look around,” Meehan said.

Meehan decided to attend SIU-C and major in business. Her goal was to make the top five runners so she would be on the traveling team and eventually earn a scholarship.

Meehan’s fear of not making the team soon turned into fear that her teammates hated her. Meehan came to school in shape and appeared to be an obvious freshman threat to upperclassmen with doubt. The members, however, turned out to be a close, friendly group that Meehan had no trouble becoming a part of.

Near the end of cross country, Meehan was experiencing trouble with her legs. Over Christmas break her legs began to hurt, making running difficult. She ran only three meets during spring track before she was diagnosed as having stress fractures in the tibia bone of both legs.

“I was taking the elastic strings out of my socks or rolling them down around my ankles so they wouldn’t hit against my legs. It hurt to have any kind of pressure on them,” Meehan said.

Salukis sweep St. Louis U.; Kempton hurt

By Dave Kane
Associate Sports Editor

The SIU-C baseball team was off and running again Monday afternoon as the league’s fourth ranked Saluki catcher Gary Kempton was out of running as of Monday evening.

The Salukis again lived up to their name by stealing 11 bases in 11 tries in their 10-3 win over St. Louis University in the first game of a doubleheader.

In an abbreviated second game, SIU-C held a 4-3 lead over the Rams when the contest was called due to darkness after the fifth inning. The sweep gave the Salukis seven wins in their last eight games and narrowed their record to 14-7.

Catcher Gary Kempton, however, didn’t make the trip home with the rest of the Salukis. A collision with a baserunner at home plate in the first game left Kempton shaken and unable to return another crash at home in the first inning. The Saluki then sent him to Firmin Designe Hospital in St. Louis. He was under doctor’s orders Monday night with a possible conclusion.

Joe Richardson, SIU-C’s regular shortstop, is scheduled to probably do the catching Tuesday when the Salukis host Murray State at 3 p.m. at Abe Martin Field.

The Salukis had nine hits in the first game Monday, and also benefitted from a couple of Billing errors. After falling behind, 1-0, SIU-C put together big innings in the second and third. After two runs were taken in the top of the second, P.J. Schranz walked and Mike Mesh singled. Designated hitter Gary Kempton then came through in the clutch with a two-run single as Baslar’s record fell to 1-4.

For the doubleheader, Pakistani lefty Bobby Doerrer pitched a two-out double in the fourth to drive in Billiken with the eventual winning run.

Bowen got the win and is 2,14-1, 1-1 on the season. Two outs from Wicks in the fourth. Wicks struck out two runners for his third save. He got out the bottom of the fifth before giving up a double to Billiken’s Steve Bohan.

The fans will be proud of our efforts, regardless of the outcome. Hopefully, we’ll be entertaining. Hey, ‘everybody wants to win, but I think we have good fans with a lot of knowledge of the game. I hope they can appreciate our efforts.”

Van Winkle said his team at Jackson were “hard-working and unselfish,” and expects his Salukis to exhibit the same qualities.

“I feel the people in our program will have a good season,” Van Winkle said. “I feel the people in our program who have given everything they’ve got, he said.

Coming from a junior college program, Van Winkle has only had one year of experience at this level. A widely held belief is that only high school baseball players are good enough for four-year schools—‘non-predictors,’ in NCAA lingo—

Van Winkle pointed out that Jasper McElroy, the top player on one of his previous Jackson teams, was a good high school player. He was a wanted to play two years at a junior college to refine his skills before going to SIU-C and a is a player who wanted to improve his skills, and average baseball player on this year on campus matured into a good student.

Van Winkle said “The people we want in your program are very fine kids. They handled themselves well.”

New cage coach plans to ‘jump’ into job

By Scott Stahmrr
Sports Editor

In his first week on the job, new SIU-C men’s basketball Coach Allen Van Winkle has heard plenty about the Salukis’ past—18 straight losses, the program, conference, etc.

For obvious reasons, Van Winkle prefers to look at the future.

“The one thing nice about my situation is that I don’t know anything about the past,” Van Winkle said. “As far as I’m concerned, this is an exciting, fresh part of my career. I’m going to jump in and dig until we get where we want to. I refuse to let things drag me down.”

That includes 20-hour work days, a few of the 23 team members who have put in since being hired March 20. His mission is to return the Saluki program to the level it reached in THE past—not this year or next. He must change the Salukis into conventional championship and berths in post-season tournaments.

The questions are plenty. The team is young, too. A solid group of four to five basketball players has put in since being hired March 20. His mission is to return the Saluki program to the level it reached in THE past—not this year or next. He must change the Salukis into conventional championship and berths in post-season tournaments.
