University lawyers seek dismissal

Counsel says faculty lawsuit has four primary flaws, including being filed in the wrong court

JAYETTE BOLINSKI DAILY EGYPTIAN REPORTER

University lawyers filed a motion to dismiss a faculty lawsuit against the SIUC Board of Trustees Friday on the grounds of what they see as four major flaws in the suit, including the suit being filed in the wrong court.

The suit was filed in Jackson County Circuit Court Dec. 13 on behalf of three SIUC faculty members — linguistics professor Joan E. Friedenberg, physics professor Bary Malik and mathematics professor John Gregory. The faculty members are being represented by Carbondale attorney Richard Whitney.

The professors seek the removal of board chairman A.D. VanMeter because of his re-appointment in January 1999 tipped the board's political makeup in the Republicans' favor. According to state statutes, no more than four trustees, who are all governor appointees, can be affiliated with the same political party.

The suit calls for the reinstatement of former SIUC Chancellor Jo Ann

Argersinger, granting her the authority to review and rescind all administrative appointments and discharges since her termination "on or about" May 26. Argersinger contends she was illegally terminated during a May 26 special meeting of the board's Executive Committee; the board contends she was officially and legally terminated during a June 5 public board meeting in Carbondale.

Further, the suit asks that Argersinger, upon her reinstatement, be granted the authority to selectively rescind all budgetary and financial allocations since May 26, with the exception of salaries, other allocations governed by contract and disbursements to people and entities outside the University. The University's motion to dismiss is

based on four possible flaws in the suit. First, lawyers say, faculty members failed to show direct and immediate harm caused to them. SIUC general counsel Peter Ruger said the faculty claims are speculative and based on what they hope might have happened.

Second, Ruger said, the court could not grant the type of relief the three faculty members seek because they want to select-

Chili Peppers, Foo Fighters to play Arena

SIUC arena announces opening concert

DAVIS MORSE EGYPTIAN REPORTER

The Red Hot Chili Peppers, with special guests the Foo Fighters, are coming to the SIUC Arena. All signs point toward a large

concert was announced 3 p.m. Friday hoeries and speculations about featured artist.

SIUC arena director, said the concert is a recent collaboration between 3 J Records.

"We've organized a lot of our shows with a long relationship together," said the arena and our market seemed like the perfect fit."

SIUC is finishing off a very successful of touring and record sales. The 99 offering, "Californication," is loved by critics and fans. The arena, more musically adventurous Rolling Stone music critic Greg

Rolling Stone music critic Greg

Rolling Stone music critic Greg

Rolling Stone music critic Greg

The Foo Fighters' latest album, "There is Nothing Left to Lose," has also been met by critical praise, and their single, "Learn to Fly," has received much airplay on local rock stations.

Drake said the date of the concert is the only obstacle that could slow ticket sales down.

"I think we have the possibility of selling 6,000 tickets," Drake said. "The only impediment could be the fact that the concert is on a Monday night."

Michelle Suarez, deputy director of the SIUC Arena, said the day of the concert will not make a difference.

"I think the bands will certainly bring people no matter what day it is," Suarez said.

Tickets go on sale Saturday, Jan. 29, in the South Lobby Box Office. On-line, however, tickets will be available Jan. 26 at www.mtv.com. All tickets are \$30.

The wristband-line lottery system will be used, and wristbands may be obtained Thursday and Friday between 7 a.m. and 8 p.m. at the South Lobby Box Office. The wristbands do not guarantee a ticket or a particular place in line.

Wristband numbers will be drawn at 10 a.m. Saturday with tickets going on sale immediately after. There is a 10 ticket limit.

Weekend rallies protest abortion

Pro-life speakers demand action

JENNIFER WIG DAILY EGYPTIAN REPORTER

Tears trickled down Christine Mize's face while telling the story about her decision to get an abortion and its effect on her life at a peaceful anti-abortion rally Saturday.

Mize, a Murphysboro resident, had an abortion 18 years ago when she was a college student. According to Planned Parenthood, women ages 18 and 19 have the highest abortion rate of any group.

"It was too quick and too easy," Mize said. "I put it aside and didn't think about it for 10 years."

The Respect Life 2000 rally, which occurred Saturday at the Knights of Columbus Hall in Marion, included six speakers and an inspirational music group.

Mize confronted her actions when she became a Christian in 1993. Mize's new faith brought her the realization that she had committed murder.

"God said, 'Yeah you did kill somebody, you killed your own baby,'" Mize said.

Mize faced abortion again when her sister became pregnant in high school. Mize regrets encouraging her sister to get an abor-

tion and is relieved now that her sister refused.

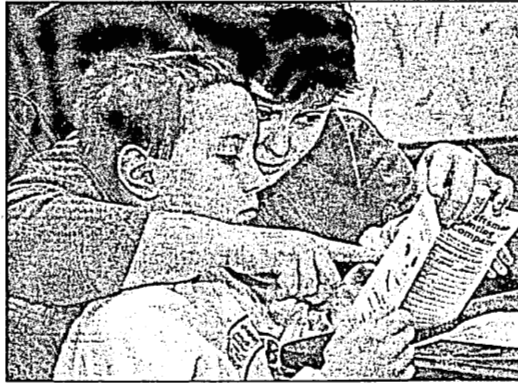

"I'm so glad she [refused]," Mize said. "My sister's boy, Ryan, is 19 today, and I'm so proud of him. I'm proud of my sister for doing the right thing and saying no."

Respect Life 2000 was one of five rallies in the Southern Illinois area Saturday to observe the 27th anniversary of the Roe v. Wade decision. In 1973, the Supreme Court ruled that a woman has a right to an abortion in the United States. The court ruled that abortion laws violated a woman's right to privacy implied in the Constitution, and that a fetus was not a person with civil rights.

David Phelps, a representative of the 19th Congressional District, was the keynote speaker for the rally. Phelps said abortion is an issue of right and wrong.

"It's one of those issues that there's no gray area," Phelps said. "You have to ask yourself: 'Why do I want to be in this position?' It's to be the voice and give the message of what you think is right. I don't want it on my conscience to 'push a switch' and have an effect on life itself."

The Supreme Court will deliberate on its first partial-birth abortion case this spring, the court's first major abortion case since 1992. The case, between Dr. Leroy Carhart and Don Stenberg, attorney general for Nebraska, was granted a hearing Jan.

KERRY MALONEY - DAILY EGYPTIAN

Tina Broll of Marion sits with her nine-year-old son Bryan Broll during the Respect Life Rally at the Marion Knights of Columbus Hall Saturday. The rally featured speakers, songs and a candlelight service organized by SIUC students.

14. Nebraska has banned partial-birth abortion, but Dr. Carhart says this procedure is safer for mothers who want to abort. Partial-birth abortion, which is banned in more than 30 states including Illinois, is performed during the second or third trimester. During a partial-birth abortion, the fetus is delivered only enough to crush or suction its skull.

Dominka Smereczynski, an SIUC student who organized the rally, does not believe the Supreme Court will ban partial-birth abortions because for pro-choice advocates, the issue lies in a woman's personal freedom. But Smereczynski said pro-life

supporters will triumph in the end.

"Even pro-choice people are saying it's a baby, not just a bunch of cells," said Smereczynski, a senior in journalism from Park Ridge. "It's going forward in that direction. It's an issue of whether you have a right to control your body. It's about power." Smereczynski is part of an anti-abortion group based at the Carbondale Newman Catholic Student Center, 715 S. Washington. Only about 50 people attended the rally, but Smereczynski was not disappointed.

- **WSIU Three Days of Rain 1998 Pulitzer Prize runner up play**, Jan. 27 through 29, 8 p.m., Jan. 30, 2 p.m., Christian Moe Lab Theatre, \$5 admission, 453-3001.

POLICE BLOTTER

UNIVERSITY

- Two SIUC men made individual reports to University police saying they were involved in a fight about a parking space on campus about 10 a.m. Thursday. Neither of the men were injured. The case is being referred to Student Judicial Affairs, police said.
- An 18-year-old Wright Hall resident told University police a computer printer was stolen from his room between Dec. 18 and Jan. 17. Police have no suspects in the incident.

CARBONDALE

- A Carbondale woman reported her car broken into while it was parked in the Carbox parking lot, 760 E. Grand Ave., between 11 p.m. Thursday and 1:45 a.m. Friday. She told Carbondale police someone entered her car and stole a black Adidas coat, a purse and its contents and 20 compact discs. Police said the dash board was damaged in an apparent attempt to remove the car's stereo. A loss estimate was unavailable. Police have no suspects in this incident.

PALMANAC

THIS DAY IN 1988:

- Carbondale debated the appropriateness of presidential candidate Michael Dukakis' local establishment of campaign headquarters, arguing that setting up operation in "Paul Simon's backyard" would incite a showdown between the two politicians.
- More than 70 people gathered on Lincoln Drive in silent protest of human rights violations by the government of Israel on the West Bank and Gaza Strip. The protesters also called for Palestinian self-determination and an end to U.S. financial aid to Israel.
- Patrick Swagay and Jennifer Grey had the "time of their life" at the University Place 8 Theatre while Molly Ringwald struggled with a teen pregnancy in the Brat Pack classic "For Keeps".

LAB recommends closure for Halloween 2000

Liquor Advisory Board suggests a ban on selling kegs for Halloween

KAREN BLATTER
GOVERNMENT EDITOR

The Liquor Advisory Board is recommending closure of the bars in the South Illinois Avenue area and a ban on the sale of kegs for Halloween

weekend 2000.

The board also fully endorses forming a Halloween task force, consisting of SIUC administration and students, city officials,

law enforcement, liquor-oriented business owners in the South Illinois Avenue area and citizens at large.

Two recommendations for the future of Halloween in Carbondale were presented to the board by City Manager Jeff Doherty at Thursday's meeting. The first suggestion called for the closure of bars and liquor stores and prohibiting the sale of alcohol by restaurants in the South Illinois Avenue area and ban on the possession and sale of kegs.

After discussion, the Liquor Advisory Board altered Doherty's recommendation and voted 4-3 in favor of just closing the bars in the South Illinois Avenue area and banning the possession and sale of kegs in the entire city from 2 a.m. Thursday, Oct. 26 to 2 a.m. Sunday, Oct. 29.

The South Illinois Avenue area ranges from U.S. 51 south bound to the railroad tracks and from Grand Avenue to Walnut Street.

The board voted all in favor of Doherty's second suggestion to form a task force that would consist of University, city and community representatives to discuss and make recommendations about Halloween in the future, with the target date of beginning Spring 2000 and making final recommendations by late 2000 or early 2001.

Although the normal role of the Liquor Advisory Board is to make recommendations to the Liquor Control Commission about the liquor license applications and monitor all license holders, the board's recommendation for Halloween was requested by the City Council.

The board's recommendation will be presented, along with recommendations from three other city interest groups, to the City Council at a February meeting.

If the closure is approved, it will coincide with the fall break that is scheduled for SIUC.

Last year was to be the final year of a five-year agreement between the city and the University designed to deal with the Halloween problems of past years.

The five-year plan called for the University to close for fall break and the city would ban the

sale of kegs for the entire city and liquor at bars and restaurants in the South Illinois Avenue area.

Since the break was instated, there have been no major problems reported on the Strip during Halloween weekends, but crowds seem to occur more regularly the weekend prior to Halloween.

John Benshoff, chairman of the board, said he did not see why restaurants in the South Illinois Avenue area should be included in the ban.

He said details concerning the serving of alcohol would be complex, but did not see it as a needed restriction.

"We should free it up for the A1 and A2 (restaurant) licenses in the area," he said.

Rob Taylor, undergraduate representative on the Liquor Advisory Board, voted against the closure of the bars and wanted to see Halloween in Carbondale reworked as an organized party.

The city and other local groups used to organize a party on the Strip to celebrate Halloween, but the mass amounts of people got out of control.

"I'm confident in city officials and students to have a planned event," he said. "We should lift the restriction on the closure and have the [Halloween task force] committee come up with a plan."

Board member Mark Robinson also felt the need for an organized city-wide event and said that activities and behaviors are different now than they were before.

But Benshoff said that if there were to be a formal party, all the problems would be reborn.

Robinson said that Halloween of past years has changed. He said that actions of students and the police have played a large role in the better behavior that was represented in the street in recent years.

"It is a kinder, gentler police force [now] than we did have," he said. "Tear gas riled people up, or that was how it was seen. It was a real recipe for disaster."

NEWS IN BRIEF

CARBONDALE

Tax Relief Task Force hearing today

State Rep. Mike Bost, R-Murphyboro, will be at a Tax Relief Task Force hearing 11 a.m. today at Carbondale Civic Center, 200 S. Illinois Ave.

The hearing will focus on proposals providing tax breaks for seniors and eliminating the sales tax on motor fuel.

Five other state representatives will attend. The hearing is open to the public.

Fraternity sponsors camp for future teachers

Phi Delta Kappa, the professional fraternity in education, is sponsoring a 2000 summer camp and Institute for Prospective Teachers.

The camp is for high school juniors considering teaching as a career or those deciding between education and other professions.

Only 120 students from across the nation will be invited to attend the camp.

The 2000 camp will take place from June 22 to June 28 on the campus of Indiana University in Bloomington, Ind. Students must complete an application and pay a \$5 non-refundable application fee for consideration.

Selected applicants will pay an additional \$125 which will go toward expenses including transportation, lodging, meals and all instructional materials.

The deadline is Feb. 8. For additional information or to request an application, contact Jared Dorn, director of International Programs and Services, at 536-7771.

Ceremony for Arthur Anderson classroom today

The College of Business and Administration is having its ribbon cutting ceremony for the Arthur Anderson classroom today at 5 p.m. in room 18 of Rehn Hall.

The guest speaker for the event is Steve Samek, the country managing partner for Arthur Anderson and an SIUC alumnus.

For more information, call 453-3030.

CORRECTIONS

Trick or Treat

Halloween on the Strip since 1995.

Year	Halloween night	Fall Break
1995	Crowds formed in the street, but broken-up by tear gas thrown by police, pushing the crowd onto sidewalks. The crowd remained for 30 minutes yelling at police. About 14 arrests were made.	Quiet weekend with no major problems.
	Weekend prior to Halloween	
1996	Crowds gathered and began to riot. Vandalism occurred on campus, rocks and bottles were thrown at police and several windows of business in the area were broken. Police used pepper spray, tear gas and Mace on the crowd. Thirty arrests were made.	Quiet weekend with no major problems.
1997	No major incidents were reported. Crowds of 500 formed in the streets creating mosh pits and women exposed their breasts. Thirty-two arrests were made.	Quiet weekend with no major problems.
1998	No major incidents were reported. Crowds of 500 formed in the streets and were similar to 1997. About 12 arrests were made.	Quiet weekend with no major problems.
1999	No major incidents were reported. Crowds formed with mosh pits and women exposed their breasts. The crowds were "calmer" than years past, but the main attraction was people jumping out of trees and off of the roofs of nearby buildings. No arrests were made.	Quiet weekend with no major problems.

Do you have something to say?

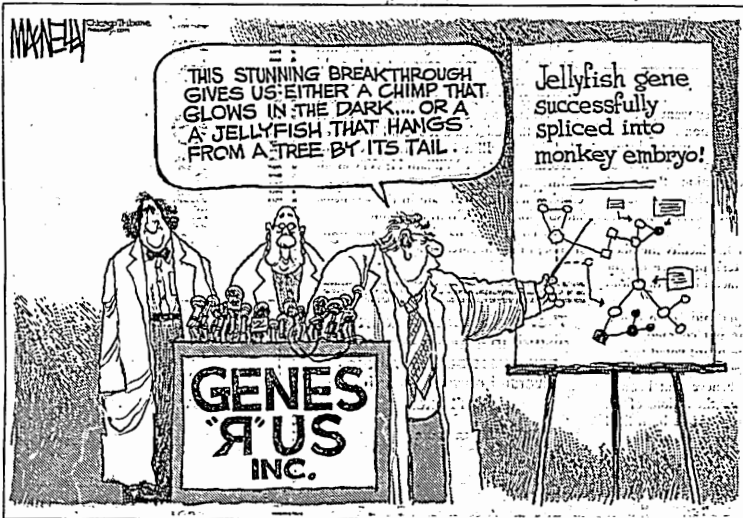

Bring letters and guest columns to the DAILY EGYPTIAN newsroom, Room 1247, Communications Building.

Letters and columns must be typewritten, double-spaced and submitted with author's photo ID. All letters are limited to 300 words and columns to 500 words. All are subject to editing.

Letters also are accepted by e-mail (editor@siu.edu) and fax (453-8244).

Please include a phone number (not for publication) so we may verify authorship. Students must include year and major. Faculty members must include rank and department. Non-academic staff must include position and department. All others include author's hometown.

The EGYPTIAN reserves the right to not publish any letter or column.

OUR WORD

Halloween break should come to a close

Once again, the issue of Halloween is dancing on the minds of Carbondale officials. The University has already made the decision to have a sixth year of fall break, which was originally planned for five. But 2000 should be the last year. SIUC students are always going to gather weekend nights on the Strip after the bars close — that is a given. But that doesn't mean the crowds have to riot. The city needs to get past the mentality that riots will keep happening. Although we understand the concerns that surround the "Halloween tradition" in Carbondale, that feeling is faint among students.

During the time that the University has been closed for Halloween weekend, theoretically, all of the students who participated in the tradition have graduated. But students are consistently reminded about Halloween by the city whenever this issue is brought up. The Halloween tradition is passed on from person to person by word of mouth. Carbondale has the Halloween conversation 12 months out of the year, discussing what to do about the future, reiterating the damage from the past. But the past is the past. In the last three years, the weekend prior to Halloween was no different from a typical warm weather weekend.

But when forced to re-examine the past, look at the police activity as well. Now that the Carbondale police have new leadership, students have more respect for them. Instead of cursing and

throwing objects at the officers, students seem to interact more. Police aren't covered with riot gear ready to spray Mace — they stand on the sidelines peacefully. Students and police have stood side-by-side in the street and talked. That is what we like to see.

It is too late for the city to change Halloween 2000 because the University already approved the school's calendar, which includes the four-day break. With a long weekend off from school, students are left to either go home or sit around and do nothing. Doing nothing would lead into relaxing and partying, and partying at the bars would cause problems. The city cannot leave 22,418 students with nothing to do but party during the weekend. We are now forced to continue the ongoing 12-month long conversation about the future of Halloween. Together, with the proposed task force, the University can discontinue those days off and the city can provide places to entertain students when they are not trying to complete homework assignments.

The past is gone. Students are not flipping cars; they're not getting Maced on Halloween; and they haven't rioted. Keeping students in school and providing forms of entertainment is the duty of the University and the city. Keep those things in mind when examining Halloween, and notice that students have behaved like adults and deserve a chance in 2001.

Struggling with the right words

I am confused as to how someone can write something new every week. This is my first week. I have never written anything in my life and I am already fresh out of ideas. In a desperate attempt to find inspiration, I went to McDonald's and had a Filet-O-Fish. Nothing came of this.

I woke up one morning and vowed to sit in silence until an idea came to mind. An hour came and went; my mind was blank. In the second hour, I fell asleep. I had a wonderful dream about living with the baboons at the zoo. We were all friends and none of us wore pants. People even threw gum at us from outside our walls. I can't describe in words how much I enjoy chewing gum. After I woke up, I went to Arby's and had a roast beef sandwich.

In the days that followed, I thought a lot about what my problem might be. Was I not smart enough to write? Did I not eat the proper foods and, therefore, had a lack of the necessary vitamins and minerals it took to be creative? Why do my legs fall asleep when I sit on the toilet? I was stumped.

In 'A Gadda Da Vida'
PAUL RAILA
In A Gadda Da Vida appears Mondays. Paul is a senior in cinema and photography. His opinion does not necessarily reflect that of the DAILY EGYPTIAN.

With the deadline approaching, I started asking friends for help. The problem is, I kept getting the same response: "Just write about something that happened last week." I can write down everything that happened to me last week and still have nothing. Here it goes:
Monday: My friend Bob called and asked if he could use my dictionary. I said yes and took it to him.
Tuesday: I thought about going outside and getting some exercise. I thought about it long and hard.
Wednesday: I ate a really good pork egg roll.
Thursday: The time had come to approach the girl I had been talking for the past nine weeks. I was disap-

pointed when I got close to her for the first time and saw that she wasn't as cute as I had initially thought. Can anything go my way?
Friday: Now totally depressed, I needed to do something to raise my spirits. Hello gin and tonic.
Saturday: I came to the conclusion that bananas were indeed my favorite fruit.
Sunday: I wrote the following poem:
Gravy
you are delicious on biscuits,
amongst other things,
one of which
is mashed potatoes.
So now you can clearly see why I have nothing to write about. Week after week, for my whole life, nothing exciting ever happens to me. I wait and I wait, but...
Ring...ring...
Wait! A phone call! At last something is happening! I wonder what it could be? A dire emergency? Or perhaps a damsel in distress??
"Hello...Oh, hi...Yeah...Okay, bye."
Bob needs my dictionary again. Drats.

MAILBOX

Speaking out in the name of Martin Luther King Jr.

DEAR EDITOR,
Julie Hugg's Jan. 19 column, in which Mumia Abu-Jamal is likened to the Rev. Martin Luther King Jr. as a principled freedom fighter cannot go unanswered. While King was jailed for the non-violent resistance to unjust and discriminatory laws, Abu-Jamal is on death row for the cold-blooded murder of Daniel Faulkner, a Philadelphia police officer.

Abu-Jamal shot officer Faulkner in the back, and after the officer was helpless on the ground, fired four more rounds, point-blank into officer Faulkner, the last one striking him in the face and killing him. He was convicted by a jury and condemned to death. His conviction has been upheld despite numerous appeals far beyond those granted to others convicted of the same crime.

Abu-Jamal has had an unprecedented three hearings under Pennsylvania's Post Conviction Relief Act, at which he has been denied his appeal in all three, and appealed to the U.S. Supreme Court. When the Supreme Court opened its 1999 session Oct. 4, it denied Abu-Jamal's appeal and confirmed the decision of the lower courts, paving the way for this cop-killer's execution.

Despite his numerous articles, interviews and commentaries, Abu-Jamal has never said what happened on the night of Dec. 9, 1981. He has never taken responsibility for his actions, and has hidden behind the self-proclaimed mantle of "political prisoner." Visit the Justice for Daniel Faulkner website, www.danielfaulkner.com, to learn the rest of the story about the facts of the case, the appeals, and the supporters of Abu-Jamal.

Ms. Hugg concludes her column by asking, "Will we someday honor Mumia Abu-Jamal?" The thought is repugnant, and Ms. Hugg should be ashamed to link the name of this murderer with that of the Rev. King, a martyr in the cause of freedom, equality and peace.

MOTION

CONTINUED FROM PAGE 1

members seek because they want to selectively overturn board decisions.

"They don't want the court to disturb their board-approved pay raises but do want to reverse board actions they don't like," Ruger said. "That is simply nonsense, and we are confident the court will agree with us."

Third, lawyers say the faculty members fail to show VanMeter's presence on the board was a deciding factor in the decisions they seek to reverse.

"Simply put," Ruger said, "even if Mr. VanMeter's vote were not counted, more than a majority of the board voted to terminate Dr. Argersinger's chancellorship."

Finally, attorneys believe that because the suit seeks to control the actions of the State of Illinois, it should have been filed in the Illinois Court of Claims, not the Jackson County Circuit Court.

The possible misfiling of a suit against the University may sound familiar. In September, a suit filed against the University by Argersinger was thrown out of Williamson County Circuit Court because the judge said it should have been filed in the Illinois Court of Claims. According to Judge William H. Wilson, all claims against the state based upon employment contracts are in the exclusive jurisdiction of the Court of Claims.

No court date has been set for arguments of the University's motion.

They don't want the court to disturb their board-approved pay raises but do want to reverse board actions they don't like.

University calls faculty damages speculative

Three professors claim losses due to Argersinger's leaving

JAYETTE BOLINSKI
DAILY EGYPTIAN REPORTER

Details of a lawsuit filed by three SIUC faculty members against the SIU Board of Trustees in December may shed light on what University lawyers are now calling "prospective and speculative" damages.

The suit was filed Dec. 13 in Jackson County Circuit Court on behalf of linguistics professor Joan Friedenber, physics professor Barry Malik and mathematics professor John Gregory. It calls into question the potentially illegal political make-up of the board and asks for the reinstatement of former SIUC Chancellor Jo Ann Argersinger.

The suit states professors Friedenber, Malik and Gregory have been substantially harmed and are continuing to be harmed by Argersinger's termination and the transfer of funds from the SIUC campus to the SIU system.

Specifically, the suit says Friedenber has been harmed in the following ways.

• The chair of the SIUC Linguistics Department forced

Friedenberg to relocate her office, and she has failed to receive a promised mediation to help settle ongoing conflicts with that chairperson.

• Budgetary decisions that would not have been made but for Argersinger's termination have caused Friedenber the loss of travel grants and funds for office expenses, and prospectively will cause the loss of a salary increase.

• Friedenber will be adversely affected by the imposition of a teaching load policy that would not have been imposed but for Argersinger's termination.

The suit indicates Gregory has been harmed by budgetary decisions that would not have been made but for Argersinger's termination and have caused him a loss of travel grants and funds for office expenses, and prospectively will cause the loss of a salary increase.

And Malik, according to the suit, has been harmed in the following ways.

• The termination of Argersinger, who was in favor of the creation of a doctorate program in the Physics Department, has effectively delayed the plan's enactment and has prospectively destroyed the prospects for its enactment unless Argersinger is restored to her post. Malik has been adversely affected in that his depart-

ment has suffered lost opportunities to obtain grants and attract graduate students, with a concomitant loss of assistantships. In turn, this has had a detrimental impact on Malik's research and has heightened his teaching load.

• The appointment of a new chair of the Physics Department has resulted in unilateral changes to Malik's teaching assignment and an increased teaching load, which, the suit says, Argersinger would not have permitted, and the denial of a teaching assistant to him.

• Budgetary decisions that would not have been made but for Argersinger's termination have caused Malik the loss of travel grants and funds for office expenses, and prospectively will cause the loss of a salary increase.

• The suit also says Argersinger's termination has threatened the continuity of funding from the National Science Foundation, which threatens Malik of the loss of substantial grants for research.

The suit also states that the three faculty members face further injury because the illegally constituted board cannot lawfully negotiate and enter into a new contract with the SIUC faculty association and cannot lawfully conduct a search for and appoint a new president or fill other administrative posts.

Bardo wants to stay as permanent athletic director

Bardo ready to challenge himself, Athletic Department

ANDY EGENSE
DAILY EGYPTIAN REPORTER

The opportunity to take upon new challenges led interim Athletic Director Harold Bardo to apply for the permanent position, slated to be filled in the summer.

"It was believed that Bardo would eventually return to the SIU School of Medicine, where he directed SIUC's Med Prep Program and was an associate professor. But his passion for athletics and getting to know the 400 student-athletes' were aspects he began to love about the job."

Bardo announced Thursday he applied for the full-time position.

Bardo filled the interim post after Jim Hart was reassigned within the University last January.

Interim Chancellor John Jackson, who sits on the athletic director search committee, said 46 applications have been received for the permanent position. Jackson wants the committee to narrow the field to six applicants by spring break and hopes to have the finalists scheduled to tour the campus late in the semester.

When Kathy Jones was introduced as the associate athletic director

at a press conference Thursday, Bardo was questioned about what his future would behold.

"As a former scholarship athlete, I know what excellence was when I was in school and subsequent to my graduation," Bardo said. "It's not that way now, but I think it can become that way again."

Bardo was a letterman on the basketball team for three seasons with the Salukis. SIU went 59-24 during the 1959-61 seasons.

Athletics has been a major part of Bardo's life, and he wants to continue that which he has started as interim athletic director. However, Bardo does not consider himself to be ahead of the field because of his one-year on-the-job training.

"But one thing I do have over the candidates is that I have fond memories of my days of a student-athlete here," Bardo said. "I have a concept and an idea of academic excellence and athletic excellence at this University. So, I know what's to be done because it has been done before and it can be done again."

Bardo has particular concerns about the men's basketball team because it is the premiere sport of the

University. He has shown a major interest in getting a new contract for men's basketball head coach Bruce Weber's finalized as soon as possible. The University has offered Weber a contract extension that has yet to be finalized.

"One thing I did make up my mind about before I put my name in the applicant pool, was that if we couldn't get a contract for coach Weber in basketball, then there wouldn't be much more we could do," Bardo said.

Weber likes the fact that Bardo comes from a different part of campus and can offer a different viewpoint than someone who has just been involved in athletics.

Weber gave his full endorsement regarding Bardo's abilities to run the department and thinks he would not have applied unless there was commitment from upper administration officials to strengthen the department.

"He doesn't want to fight a losing battle," Weber said.

Bardo said his interim service has rekindled old memories from his days as a player and wants to give the current student-athletes at SIUC the same fond memories. He thinks Jones and himself will form a solid working relationship so Saluki athletics can return to its success of the past.

"I've given it a lot of thought, and I think we can make a difference here," Bardo said.

Ethernet will soon connect campus east side

Officials say entire campus will be linked to quick Internet access by August

By GEOFFREY RITTER
DAILY EGYPTIAN REPORTER

Campus officials say the \$900,000 project to install ethernet capabilities in East Campus residence halls this summer could help the University get closer to the front of the race to put high-speed Internet access on students' doorsteps.

According to Director of University Housing Ed Jones, SIUC is currently behind several other schools in terms of incorporating ethernet into the residence halls, but he thinks the project should help fix the problem.

"At this point, we're a little behind the curve," Jones said. "But if we can get [the connection] in this summer, it'll help us catch up."

The plan is to have ethernet capa-

bilities available to all the rooms in University Park and Brush Towers by August, according to acting Director for Information Technology Jim Belt.

The service, which costs students \$45 a semester, allows for rapid 24-hour access to online information without tying up phone lines.

Ethernet, which is helping to fuel a technological revolution in universities across the country, gives students Internet connections that are faster than those of conventional modems.

According to Jupiter Communications, a leading provider of information, dealing with Internet commerce, schools are providing about 7 million college students with high-speed access to online information.

Although campus authorities have planned to bring ethernet service to East Campus for several months, the University's legal counsel determined in April 1999 that the contract with GTE used to connect Thompson Point in 1998 could not work on the east side, according to Vice Chancellor for Administration Glenn Poshard. Instead of working with an

independent contractor, he said, administrative officials opted to put the project in the hands of the SIUC Physical Plant.

Poshard said he sees no potential problems that would prevent the project from being completed by its fall deadline.

"Our people know what they're doing," he said.

Phil Gatten, supervising engineer at the Physical Plant, verified that work on the project is going according to plan.

Although Jones said the project would have cost less had it been done last fall, Assistant Director of Housing Rick Schlabowsky said the most recent progress report indicated the project should still be completed under budget and that "it's just a matter of getting it done."

The introduction of ethernet in University Housing in fall 1998, when Thompson Point was first wired for service, was met with "moderate success" in its first year, according to Jones. However, he said workers rushed to deal with demand the following year.

Belt said of the 605 rooms in Thompson Point, 306 are currently connected.

Brad Haas, a freshman in computer science from Waukegan who lives in Schneider Hall, said he hopes to get ethernet once it is installed. He said the new possibilities created by the service include the ability to retrieve information from other connected computers through the network created by the system.

"It makes life a lot easier," he said. "I'm only hoping that turns up in the towers."

Jones said this emerging revolution is changing the way residence halls operate. With more and more students asking about and basing their housing decisions on the speed of the Internet access offered, ethernet connections will eventually become just as common in dorm life as cable TV connections.

"Each year, students are going to be more computer literate than the previous class, and the demand for technology is going to go up every year," he said. "It's coming to the point where it's going to be expected."

EDWARDSVILLE

SIUE School of Dental Medicine's anniversary

Due to scarcity of dentists in Central and Southern Illinois in 1968, the Illinois Board of Higher Education decided that Southern Illinois University at Edwardsville should have a dental school. It has now been 25 years since the SIUC School of Dental Medicine's first graduating class in 1975, and 665 of the school's 1,031 graduates currently practice in Illinois.

Currently, three clinics of the SIUC School of Dental Medicine are in operation including the main location in Alton, the community-based clinic in East St. Louis, and the Implant Clinic at the SIUE campus.

Several events this year will mark the dental school's anniversary, including a special reception at the annual Mid-Winter Dental Conference in Chicago Feb. 25, a tour of the dental school on the Alton campus, and a family day May 14.

State to grant funds for SIUC repairs

Ryan gives \$1.4 million of \$120 million needed

By JASON COKER
DAILY EGYPTIAN REPORTER

Only \$1.4 million in state bond funds will be given to SIUC to renovate various deferred maintenance

projects on campus that are in a desperate state.

Last year, according to Vice Chancellor for Administration Glenn Poshard, the cost for all of these renovations was estimated at more than \$120 million.

Gov. George Ryan announced last Thursday that the state would help finance the repairs for Morris Library, Shryock Auditorium, Lesar Law Building, the Engineering Building

and the underground steam tunnel.

These five projects are only a few items on a list of 148 deferred maintenance projects that are past due.

The money will primarily go to fixing Morris Library by replacing the freight elevator and removing asbestos on the first floor.

In 1999, the North Central Association of Colleges and Schools reviewed SIUC and found the library to be "an embarrassment to SIUC."

RALLY

CONTINUED FROM PAGE 1

"On a day like this, I didn't expect many people to come," said Smereczynski, citing the snow. "We just want people to know that other people are involved in this."

People who attended the

rally appeared enthusiastic, demonstrating their devotion through "amens" during the speeches and prayers, and loud applause after a vocal performance by Fishes and Loaves, a 10-member inspirational group.

The assembly closed with a candlelight ceremony during which seven SIUC students each read passages from

the Bible. A candle was lit for each quote. The candles were then extinguished in memory of the estimated 40 million unborn American children since the Roe v. Wade decision.

Two-year-old Lydia Durr crawled under chairs and waved a plastic horse in the air, unaware of the rally around her.

Lydia's mother, Julie Durr, brought her three children to the rally to teach them about the importance of life.

"I feel it's important to make a stand and teach your children, to show them life is something to respect and value," said Durr, a Marion resident. "They may not understand it, but they'll remember it."

Falling down, falling flat

Inconsistent women's basketball team held to just 47 points in loss against MVC foe, Creighton

CHRISTINE BOLIN
DAILY EGYPTIAN REPORTER

SIU women's basketball coach Julie Beck doesn't expect to win many ballgames when only five of her players ink the scoring column.

That's how Creighton University (7-8, 2-5 MVC) took advantage of the struggling Salukis' poor shooting and defeated SIU 57-47 at the SIU Arena Saturday afternoon.

"I don't think I have an answer for our inconsistency," SIU women's basketball head coach Julie Beck said. "Being inconsistent absolutely killed us. You can tell by how many people we tried to play tonight. Everybody got minutes, but I'm not so sure that's a great thing right now."

In the first half, Creighton's seven three-pointers, coupled with an ankle injury early to Saluki junior forward Courtney Smith, who had just two points because of limited time playing with the injury, kept the Salukis a step behind.

"I think [the injury] hurt us because [Smith] has been a spark plug in practice and in games," Beck said. "I don't think it had everything to do with the whole ball game, but it took a little spark out of us early."

The spark was never ignited for SIU (5-12, 2-6) in the second half, as the Salukis never gained the lead, despite junior guard Terica Hathaway's game-high 15-point effort. Senior Melaniece Bardley, and juniors Kristine Abramowski and Maria Niebrugge each had 10 points for the Salukis. Along with Smith, those were the only five Salukis to score.

Junior guard Angela Timmons was Creighton's top scorer with 13 points, including 3-of-6 from three-point land. Senior Corey Sweeney clipped in 12 points.

The loss against Creighton stretches the Salukis' losing streak to six games, including dropping the last two at home. SIU is now eighth overall in the Missouri Valley Conference.

"We have really struggled at home. I don't understand it," Beck said. "We have put ourselves in a hole in the conference, and as the coaching staff, we are just going to keep digging and see if we can get out of it."

VICTORY

CONTINUED FROM PAGE 12

Mells said the disaster against Indiana State combined with Bradley's role in ending SIU's season last year made for an SIU locker room high on adrenaline.

"If we weren't ready for [Bradley], we don't need to be playing basketball," Mells said.

SIU's next game is home against Drake University Wednesday night, when the Salukis will try to make headway into what's shaping up to be a jumbled race in the MVC.

"Ho! fully now we can have some carry-over and they understand what it's about and how hard they have to play," Weber said. "It's going to be such a compact league... it could be wild."

SPORTS BRIEFS

Baseball adds powerful pair; practice underway

SIU baseball head coach Dan Callahan announced Thursday the addition of two junior college transfers to the roster for the 2000 baseball season.

Andy Cenush, a catcher from South Bend, Ind., who belted 20 homers for Triton College last season, and power-hitting Roman Schooley, a second baseman/outfielder from Bloomfield, Iowa, join 15 other newcomers on this year's Saluki squad, which began practice Sunday. The season begins Feb. 11-13 at the University of South Florida.

Swimmers beat Leathernecks but fall to WKU

The SIU men's and women's swimming and diving teams captured victories over Western Illinois University, but fell short to Western Kentucky University in the dual meets Saturday at Western Kentucky.

The men were highlighted by first-place finishes from seniors Herman Louw (1:39.04) in the 200 freestyle, Matt Munz (1:52) in the 200 IM and Come Prozesky (2:03.90) in the 200 breaststroke. The Hilltoppers out-talied SIU 125-116.

On the women's side, junior Daniela Muniz (2:09.68) placed first in the 200 butterfly, freshman Amber Mullins placed second in the 1,000 freestyle (10:22.25) and in the 500 freestyle (5:07.96). Overall, the women lost 150-81 to Western Kentucky.

Salukis' Parks goes the distance at Illinois

The SIU men's track and field team traveled to the University of Illinois for the Illinois Open, an unscored meet, Saturday.

First-place finishes included junior Aaron Shunk (6:10.3/4) in the high jump, senior Joe Parks (15:29.45) in the 5,000-meter run and sophomore Joe Zeibert (4:11.14) in the mile.

DYE

cause. Whether it was bumping the all-MVC guard through screens, double teaming him or flat-out scrapping on the defensive side to prevent open looks.

And there weren't too many open looks.

With Wednesday night's embarrassing 91-56 loss at Indiana State University and the three losses to Bradley last season, Collum and company needed little motivation prior to the tip-off Saturday night.

"I didn't have to say much before the game," Weber said.

The victory over the Braves put the Salukis back in the middle of

the pack in the Valley, tied for third with Bradley, the University of Northern Iowa and Southwest Missouri State University, who are all 4-3.

"That's one of the bigger wins this year," Collum said. "We got blown out the other night and there's a couple things you can do. You can put your head down, or you can go out and do something about it."

Valley Roundup

Illinois State 72, Southwest Missouri State 61

Led by all-Missouri Valley Conference guard Tarise Bryson, Illinois State University won its first Valley game of the season, 72-61, over Southwest Missouri State University Saturday night in Normal.

Bryson scored 21 of his 25 points in the second half to lead the Redbird (6-12, 1-6) upset of the Bears (11-7, 4-3).

Indiana State 67, Drake 62

League-leading Indiana State University won their fourth-straight game, defeating Drake University 67-62 Saturday night in Terre Haute, Ind., moving their record to 13-5 overall and 6-1 in the Valley.

Led by the balanced attack of Nate Green and Michael Menser, who each scored 12, the Sycamores dropped Drake to 9-7 overall and 3-4 in the Valley. Drake was led by Matt Woodley's game-high 19 points.

Northern Iowa 66, Wichita State 54

The University of Northern Iowa kept Wichita State University winless in the Valley, defeating the Shockers 66-54 Saturday night in Wichita, Kan., led by Robbie Sieverding's game-high 25 points.

Northern Iowa improves its record to 11-6 overall and 4-3 in the Valley, while the Shockers, the only winless team remaining, fell to 5-10 overall and 0-7 in the Valley.

Evansville 88, Creighton 83

The University of Evansville scored 53 points in the second half to keep their record at home perfect at 12-0 this season.

Led by Craig Snow and Adam Seitz, who both scored 21 points, the Purple Aces (15-4, 6-2) defeated Creighton University 88-83 Sunday afternoon in Evansville, Ind. Creighton (12-6, 4-4) was led by Ben Walker's 15 point performance.

Junkyard Dawgs get their payback

*Scrappy Salukis
out-battle Bradley,
earn 72-59 win*

JAY SCHWAB
SPORTS EDITOR

Effort was the concern for SIU men's basketball head coach Bruce Weber coming into Saturday night's Missouri Valley Conference battle with Bradley.

The Salukis had been creamed by Indiana State University Wednesday, a rare game in which Weber was not convinced his guys had given their all.

He decided not to tear into the team after the game, opting to trust that his players' pride would take over and the Salukis would bust their butts against Bradley.

Weber wasn't disappointed.

While SIU's 72-59 grinding victory over the pre-season MVC-favorite Braves in front of 5,124 at the SIU Arena was no aesthetic masterpiece, by halftime, Weber knew his troops had come to play.

SIU's coaching staff keeps a "Play Hard" chart, which tracks hustle plays such as diving on the floor for loose balls, deflections and taking charges. The Salukis had 26 marks by halftime, more than they total in many full games.

"Our kids really responded well," Weber said. "I talked totally about effort the last two days. Our effort wasn't very good really three of the last four games... we were giving a tremendous effort (Saturday), and that's what I was looking for."

The game was perhaps the most physical one SIU will play all season. The teams combined for 51 fouls, and the Salukis attempted 37 free throws, of which they made 25.

Bradley (8-10, 4-3 MVC) beat SIU in both regular season games at SIU in the Valley tournament last season. It was evident by all the banging that the squads did not mind playing rough with one other.

"That's how we have to play to beat them," Weber said. "They have many more athletes, we can't match up athletically, so we have to make it physical and we have to battle them."

"I just thought we out-fought them. They out-fought us last year, and we out-fought them this year," said Weber before recalling the Salukis will make a return trip to Peoria Feb. 26. "So far, in the first game."

SIU led 29-28 at halftime, but a Rob Dye jumper gave Bradley a 38-33 lead six minutes into the second half. Dye led Bradley with 16 points, but shot just 4-of-17 from the floor.

The Salukis then embarked on a decisive 16-2 run, capped by a Brandon Mells three pointer that gave SIU a 49-40 advantage with 10:12 left in the game.

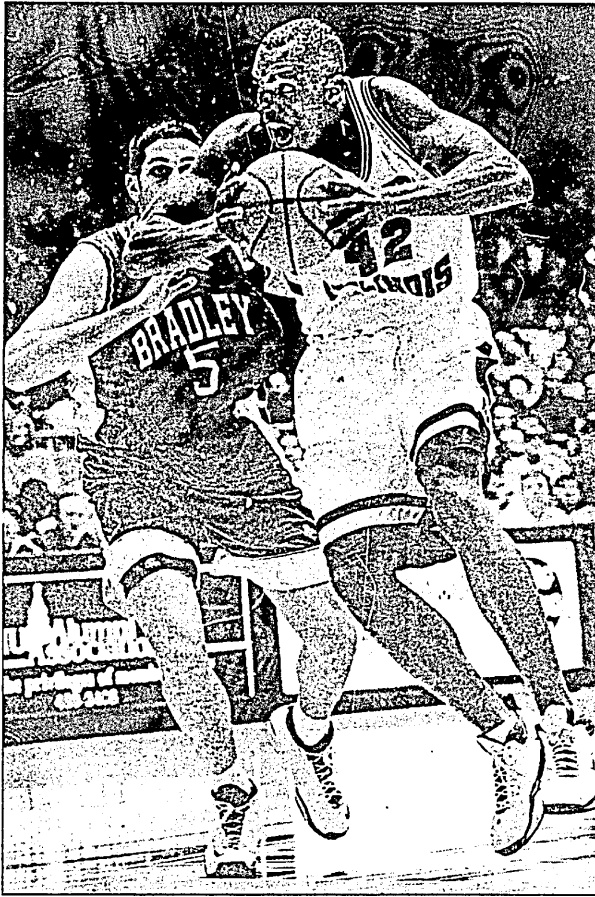

SIU (10-8, 4-3 MVC) finally had some open shots from the perimeter in the second half, after the Braves bottled SIU up early.

"I think the reason why we got those open looks was we kept rebounding the ball inside... eventually defenses have to collapse," senior forward Chris Thunell said.

The Salukis benefited from balanced scoring, as Thunell (15), Joshua Cross (12), Kent Williams (11) and Mells (10) all checked in with double figures scoring.

Cross appears to have rounded into form after struggling with health problems at the start of the season. He pitched in 28 rebounds and a couple steals to go with his 12 points off the bench, and hammered home two straight dunks in the game's final minute. Cross caught the eye of Braves head coach Jim Molinari.

"I thought the difference in the game was Joshua Cross," Molinari said. "I thought when we had a good run going, he came in and turned the game around with his effort on the boards and just making things happen."

Senior center Derrick Tilmon grabs a rebound during Saturday's 72-59 victory over Bradley University at the SIU Arena. The Salukis' next home game is Wednesday night against Drake.

DEVIN MILLER - DAILY EGYPTIAN

Dye - no longer the exception

*Saluki guard Ricky Collum
puts the clamp on Bradley's
all-MVC guard Rob Dye*

COREY CUBICK
DAILY EGYPTIAN REPORTER

Last season Bradley University guard Rob Dye was the exception to the rule.

The Jenkins rule, that is.

Dye was the lone Missouri Valley Conference player that former SIU guard Monte Jenkins, the MVC Defensive Player of the Year last season, could not contain.

The court-savvy senior averaged 23 points per contest against the Salukis last season, as the Braves won all three contests.

However, Dye and the Braves' good for-

tunes against the Salukis ran thin Saturday night at the SIU Arena.

Although Dye scored a team-high 16 points, he shot a dismal 4-for-17, including a 1-for-6 effort from three-point range in the 72-59 Saluki victory. Seven of Dye's points came via free throws.

A great deal of Dye's misfortune had to do with Saluki senior guard Ricky Collum's relentless pressure.

Insert the Collum rule.

"I guess we had the wrong guy on him last year, because he just took Monte to the hoop every time," said Saluki head coach Bruce Weber.

The Salukis did not waste any time making their presence felt on the defensive end, holding the Braves to a 7-for-24 (29 percent) shooting effort in the first half. Dye was a mere 1-for-7 with five points and three

turnovers at the half.

"We had to try to shut him down, he was their go-to-man last year against us and we couldn't let him beat us like that again," Collum said. "I think we were more aware of him (Saturday night). We knew where he was at all times."

Dye played all but one minute of the game, giving Collum, who played 37 minutes and led the Salukis with three steals, little time to rest.

"Rick really acted like a senior," Weber said. "He made plays on the defensive end, and made sure Dye didn't get many open looks."

While Collum played the lead role in stopping Dye, his teammates supported the
