#### New Federal Tax Act Affects SIU Checks

All employees of Southern Illinois University found upon receiving their pay checks for October that Uncle Sam had already "been there." Deductions under the new Federal Revenue act of 1951, increasing income taxes Nov. 1, had to be made on these checks.

Edward V. Miles, Jr., SIU busi ness manager, explains that the application of the new rate by the State Auditor of Public Accounts was necessary under the ruling that any wages paid on or after Nov I, are subject to the new rate.

Check processing for October work was done during early November, so the salaries were subject to new withholding rates.
