**Voyager 1 gives best-ever look at Saturn's surface**

**Pasadena, Calif.**—Voyager 1, the spacecraft that sailed through the shimmering rings of Saturn and explored a half dozen icy moons, is now on a 38-month journey Wednesday by taking route through the sunlit region of the planet's hazy, surging surface atmosphere.

The robot spacecraft, 947 million miles from home and speeding at more than 30,000 mph, followed an exploratory route that led past 17,000 miles from Saturn's golden clouds.

Along the way, Wednesday, Voyager buzzed the moon Tethys, and after passing Saturn it was probing the little worlds Mimas, Enceladus, Dione, Rhea and Hyperion before beginning an endless search for the unknown universe of space.

The ship began its Saturnian tour late Tuesday when it skimmed by Dione, which is the smallest and most uncertain past the giant moon Titan.

After covering 1.24 billion miles in a circuitous route to Saturn, Voyager came within about 12 miles of the predetermined bull's-eye near the planet's equator.

Al Hibbs, a thick, smoggy haze denied scientists a look at the never-before-viewed surface of Titan. But, nonetheless, they reported hints of streaks and other vague details on the orange clouds surrounding the moon.

Voyager's nine other instruments sent back a wealth of data after probing Titan's atmosphere of natural gas or methane.

"We clearly are seeing some cloud structure," said David Morrison of the Voyager photography team. But he said the "streaks and things looked very convincingly in the raw images" relayed from Voyager to the Jet Propulsion Laboratory here.

He said his interpretation of the apparent features must await the color, i.e., wizadry that dramatically enhanced the spacecraft's pictures.

During the Titan encounter, Voyager's radio signals were received at a tracking station in Spain, where thunderstorms scrambled five hours of data on Saturday. Hibbs said the Madrid station was soaked by heavy rains again Tuesday night but "all the data was received and all is well."

As Voyager scans its encounter with Saturn, it grabbed distant but detailed pictures of several of the smaller frozen moons. Mimas displayed what looked like a giant impact crater, and Dione showed huge bright streaks across its surface.

Voyager, which sailed uneventfully past Jupiter and its many moons in March 1979, followed a trail blasted by the little Pioneer 11 spacecraft, which visited Saturn late last year.

But Voyager, a near-shot Sharpton bristling with antennae and other support equipment and scientific equipment, is a far more sophisticated craft.

**Students were not misled on bond fee, VP says**

By John Ambrosea Staff Writer

Bruce Swinburne, vice president for student affairs, said Wednesday he hasn't withheld information concerning the fact that the University wasn't legally required to follow a 1978 state policy prohibiting the use of retained tuition funding to pay bond debt.

Swinburne said in a Daily Egyptian appearing Tuesday and Wednesday that students weren't informed that the University was legally exempt from an Illinois Board of Higher Education ruling which swiped the University of the creation of the bond retirement fee.

Swinburne said in fall 1978 he corresponded with University constituency groups which stated that the IBHE didn't have the legal authority to stop the use of retained tuition for bond payments, but did have the budgetary power to do so.

Swinburne also said the headlines accompanying the article were misleading and questioned the fairness of the headlines and the articles.

"I'm an ethical man, and I think these articles gave the impression that I was trying to hide something from the students," Swinburne said. "I think there was a misunderstanding concerning the situation."

Swinburne said that retained tuition for bond retirement, the bond retirement fee, are not for back bonds, but also for operation and maintenance, the Student Center and off-campus housing.

An estimated $1.4 million will be collected from the fee in fiscal 1982, along with more than $1 million in retained tuition, but Swinburne did not comment on how much will be paid out for bonds during that year.

When questioned about why the fee was named the bond retirement fee, and it is not earmarked for bond retirement purposes, Lawrence Hibbs, assistant to Swinburne, said that it gave bond holders assurance that money is pledged to the retiring of bonds.

**Evergreen Terrace fights rent hike**

By Michael Monson

S.W. Swinburne, president of the Evergreen Terrace Residents Council, has voted to oppose a proposed rent increase going before the Board of Trustees Thursday that would raise rental rates $25 and $26 for two- and three-bedroom apartments.

Council President Bruce Swinburne also said the Evergreen Terrace Residents Council has angered many residents who were hard hit by $16 and $20 increases which went into effect on Jan. 1 and Aug. 1.

"This has been a shock for married students with children," Williams said. "If the proposal is approved, the council will oppose it."

Williams said the meeting was the first notice given Evergreen Terrace residents about the proposed increases.

Under the proposal, the monthly rate will rise from $158 to $221 for a two-bedroom apartment and from $133 to $214 for a three-bedroom apartment effective July 1.

After the vote, a special committee to oppose the increase was created by the council. Jan. Robert, a resident in the 304-apartment complex, chairs the committee.

Robert said Monday the plans to meet with Bruce Swinburne, assistant to Swinburne, are pending for a fair, on Dec. 1 to discuss the increases.

Williams said he will make a presentation before the Graduate Student Council on Dec. 3 requesting GSC support in opposing the proposed increases.

Swinburne said the rent increase, necessary to keep the complex in the black for fiscal 1982 and to help repay a $102,707 deficit accumulated from fiscal 1975-80.

"We're trying to get it so that we are progressing towards some reasonable retirement schedule of the deficit," Swinburne said.

Budget projections for fiscal 1982 show a surplus of $19,034 to be applied against the deficit. With the rent increase, a surplus of $28,946 is projected for fiscal 1982. Without the increase, a deficit of $44,754 is seen.

When asked why University Housing had allowed such a large debt to accrue, Swinburne blamed a lumber company approval process for rent increases which the University must follow for Evergreen Terrace.

The Department of Housing and Urban Development holds the mortgage for Evergreen Terrace and therefore must approve any increase. Swinburne said. The next step is approval by the SIU Foundation, which built the complex with the federal loan. The University acts as the foundation's agent to operate and manage the apartments.

If the increase survives these steps, it goes before the board for final approval. The board's process of approving rent or fee increases takes two months—one for consideration and the second for final action. The increase must be proposed before the board Thursday is the first step in a multi-step process, according to Swinburne.

"The process by which H.U.D. can determine what maintenance projects must be completed," Swinburne said, and be cited the ability as a major cause of the deficit.

"Sometimes in the past, we have asked for the minimum amount necessary to balance the budget and the government will say, 'We will approve your increase, but only if you approve these maintenance projects.'" Swinburne said. "Those repairs required by H.U.D. often eat up the extra income brought in by the rent increase."

A report said she will also raise the matter of installing individual utility meters at the complex with Swinburne present, utility costs are not yet going out but would be mailed shortly.

Yet another requirement is a open hearing between the residents and a HUD official at which maintenance problems are discussed. H.U.D can determine what maintenance projects must be completed, Swinburne said, and be cited the ability as a major cause for the deficit.

"Sometimes in the past, we have asked for the minimum amount necessary to balance the budget and the government will say, 'We will approve your increase, but only if you approve these maintenance projects.'" Swinburne said. "Those repairs required by H.U.D. often eat up the extra income brought in by the rent increase."

But Swinburne said she will also raise the matter of installing individual utility meters at the complex with Swinburne present, utility costs are not yet going out but would be mailed shortly.
Suit filed in attempt to block new jail in Murphysboro
By Scott Canon
Staff Writer
A lawsuit was filed Wednes­
day in an attempt to block construction of a new jail in Mur­physboro.

The suit, filed on behalf of
Harry Browdy by his attorney,
seeks an injunction to stop the
Jackson County Council from
purchasing a lot in Mur­physboro across the street from
the county courthouse.

Browdy, a member of the
Quilp hill Police Department,
said he filed the suit at his own ex­
 pense as taxpayer. He said the
suit was not filed on behalf of
the county council.

The suit charges that building
a new jail in the city would
violate an Illinois jail statute
which prohibits the construc­tion of jails within 200 feet of any
building used for school pur­pos­es.

The suit claims the land the
county wants is too close to
Browdy Street, which its owner,
Northern Illinois Commu­
nications Building, has already,
leased for school purposes.

"I don't think it would be
detrimental to the best interests
of the city," Browdy said.

Browdy said he doesn't want
a jail built anywhere in Mur­physboro and that the statute
provides the means to prevent
construction.

Student's condition improves
Keith Starr, the SIU-C student
injured in an automobile ac­
cident in front of the Recreation
Center Sunday night, has been
taken out of intensive care and is
now listed in satisfactory condi­tion at Firmin Desloge
Hospital in St. Louis, a hospital
spokesman said.

Starr, senior in agribusiness
economics, had been listed in
critical condition in the in­
tensive care unit of the hospital
until Wednesday. Starr was
pushing a car that had run out of
gas when another car struck
him from behind and crushed
him between the two vehicles.

Both of Starr's legs were
severely injured in the accident
and his right leg had to be
amputated.

VP says facts were clear
(Continued from Page 1)
But Swinbourne said the reason
was that monies collected from
the fees are "put into one fund and dispersed for
several different purposes," not
just a pledge to retire bonds.

The bonds and services provided by the fee encompass
not only Brush Towers and the
Student Center, but also
Southern Hills, Group Hous­ing. Thompson Point and University
Park. The total outstanding
bond debt was $34.4 million as of
June 30.

The University of Illinois has
a student service fee pledge in
part to the retirement of bonds,
but that covers only buildings
on the campus which are not
used for housing.

A proposal for a $6.60 increase
and a name change in the fee
will be presented to the Board of
Trustees Thursday. The in­
crease would raise the fee to
$39.60 a semester for full-time
students and the fee's new name
would be the revenue bond fee.
Sayers: Without athletics fee, programs could be canceled

By Randy Rosinski
Staff Writer

The University's athletics directors told students Wednesday that some sports—including football—could be canceled next year if the temporary $10 athletics fee is discontinued.

About 40 students attended two athletics fee public hearings sponsored by the Undergraduate Student Organization. Both Gale Sayers, men's athletics director, and Charlotte West, women's athletic director, spoke at the first session. Programs would be cut next year's undergraduate Student fee in March. Sayers didn't attend the second year if the temporary fee is discontinued. Admission to the Board of Trustees does not extend it in March. West said women's athletics has already been forced to cut back.

West said either personnel or programs would be cut next year if the temporary fee is discontinued. "I'm literally pleading for this increase," she said. "I feel women's program is really building this year, and I'd hate to see it fall back." Ricardo Caballero, Graduate Student Council member, spoke against the increase. Caballero called Sayers' arguments "shame tactics," and attributed similar arguments to George Marc, head of athletics programs.

"Student government leaders resent these tactics. I don't know how many of these threats are necessarily true anyway," Caballero said.

Sayers said fee increases are an admission of failure, and he said the administration should get the fee increased. "A successful program can rely on fees," Sayers said. "At this institution the major fund-raiser is fee increases." Caballero said the university could raise about $100,000 each year from alumni contributions if it treated alumni better while they are students. He said students, not administrators, should decide the fate of fee increases.

County employees may get pay hike

By Mike Anton
Staff Writer

Jackson County employees along with Sheriff's deputies will likely receive a 10 percent cost-of-living increase when the county board votes on next year's budget Nov. 20. The county board tentatively approved the increases at a budget hearing Wednesday.

Finance Committee Chairman Gary Hartlieb, who had budgeted only a 7 percent increase for county employees, said the extra 3 percent wouldn't cause a change in the overall picture of the county's more than $1 million budget. Board member Russell Elliott said the 3 percent increase in the budget was necessary to equalize all employee pay increases.

"I think it should be equal," Elliott said. "If your going to give deputies 10 percent then you should give everyone that." However, Hartlieb voted against the 3 percent increase, saying that sheriff's deputies should get a larger increase than regular county employees. Hartlieb had suggested giving deputies a 15 percent increase, the figure originally sought by the officers.

"There seems to be a preference in the philosophy that says that deputies and office employees should get the same percentage increase," Hartlieb said during a recess from the meeting. "I think that deputies have a more difficult and dangerous job and therefore they should get more." Hartlieb said he was also disappointed by the board's decision to eliminate from the budget $10,000 requested by the public defender's office to finance a part-time investigator position.

There is no way we can survive without the fee increase. It's as simple as that," Sayers said.

"What concerns me," he said, "is that other fees go up all the time and I never hear any opposition to them." The temporary athletics fee took effect last June and will be abolished next June if the Board of Trustees does not extend it in March.

West said women's athletics has already been forced to cut back.

West said either personnel or programs would be cut next year if the temporary fee is discontinued. "I'm literally pleading for this increase," she said. "I feel women's program is really building this year, and I'd hate to see it fall back." Ricardo Caballero, Graduate Student Council member, spoke against the increase. Caballero called Sayers' arguments "shame tactics," and attributed similar arguments to George Marc, head of athletics programs.

"Student government leaders resent these tactics. I don't know how many of these threats are necessarily true anyway," Caballero said.

Sayers said fee increases are an admission of failure, and he said the administration should get the fee increased. "A successful program can rely on fees," Sayers said. "At this institution the major fund-raiser is fee increases." Caballero said the university could raise about $100,000 each year from alumni contributions if it treated alumni better while they are students. He said students, not administrators, should decide the fate of fee increases.
Letters

Advocate missing problems

This is an open letter to Kurt Boyle, our "student advocate," concerning his interest in the pressing problems of SIU. In all his recent reviews and, more recently, his letter to the editor, "Does Mr. Boyle have any more pressing problems to deal with?" (2-28).

"Does Mr. Boyle have any more pressing problems to deal with?" is one of the most frequently asked questions on campus. Is it school or student government, educational costs, or student government? What about the student retention rate? And, Mr. Boyle, are you advocating the student advocate? (1-4).

What about the administration's attempt, in order to maintain the housing of three students to a room, a permanent part of the student housing program? (3-20). Are not these problems more pressing for a "student advocate," to be worried about than whether the Daily Egyptian reviews a record or a letter? (3-31).

Then there is calling a band, "kansas," and calling a band, "magic elixir." (3-28). Why have any more pressing problems to deal with than to abandon the mentioned "problems?" How about the student retention rate? And Mr. Student Advocate! (1-16).

I am writing this letter regarding the review of the Kansas concert. The fact that the news editor seems to label their performance as "less than inspiring" appalls me.

The news editor's statement that "Kansas is no great band and knows it," shows little thought on his part. The band, after stating that they would try to play all the songs from their new album, did a more than adequate job. We didn't know they were WSL, top 40 band, cares? (1-1).

Kansas review lacked thought

I am writing this letter regarding the review of the Kansas concert. The fact that the news editor seems to label their performance as "less than inspiring" appalls me.

The news editor's statement that "Kansas is no great band and knows it," shows little thought on his part. The band, after stating that they would try to play all the songs from their new album, did a more than adequate job. We didn't know they were WSL, top 40 band, cares? (1-1).

One of the things I learned here is to laugh at myself, but this is no joke. I really need my chair, and why there is a minority of people who have to ruin the reputation of SIU I don't know. But I do know this: Whoever took my chair is moronic. It is a blue man with gray arms. Kathy Dermody, senior, Therapeutic Recreation

Gus Bode should defend himself

A surge of letters has occurred on the issue of killing Gus Bode. What for? I think Gus has, at one time or another, made a social or political comment that everyone could relate to and appreciate. He adds a little flavor to the day. Guss Bode and Department are probably two of the most commonly read parts in the DE. The DE also is known for read by many students every day! Gus Bode and his witty (but sometimes dry) humor is a needed commentary in this community.

All of this silly talk about killing Gus is senseless. We don't have any real control over it anyway. Gus won't be killed, especially not since he has brought about much change at SIU. He just might lose his job. If anything, he would pack his bags and glasses case and leave in dignity. Besides, Gus probably has tenure.

So I think it's time to either stop all this nonsense or make enough noise to get Gus so stirred up that he himself takes the action to get this whole matter cleaned up, and write us a letter giving us his stand. Come on, Gus, speak up for yourself!—Rabia M. Jirani, senior, Family Economics and Management
Task force sets dates; bills to be sent home

By Carol Knowles
Staff Writer

Dec. 15 bills under the University's new billing system will be mailed to students' home addresses, the task force for the system decided Tuesday.

Originally the bills were to be mailed to students' mailing addresses. Task force members said they were concerned that many students would leave the area without receiving their bills, resulting in cancellation for spring semester.

The task force also delayed the Nov. 15 billing to Nov. 22, to give more students a chance to register prior to the Nov. 15 billing to allow the Office of Student Work and Financial Assistance more time to get financial aid credits on student bills.

Guaranteed state loans and National Direct Student Loans will not show up as credits on bills and must be picked up at the bursar's office.

Students who register the week of Dec. 1 will have bills sent to their mailing addresses at the end of that week. Students who register Dec. 8-12 will be asked to double check their home addresses to ensure receipt of the bill. About 2,000 students are expected to register Dec. 1-12 according to Roland Reim, director of admissions and records.

No decision was made on whether students would have to return the top portion of their December bill to the bursar's office.

Written confirmation from SIUC President Albert Somit on the cancellation of the 5% service charge for use of the installment plan has not been received by the task force.

Dental tests lost; would-be dentists must repeat exam

KANSAS CITY, Mo. (AP)--Sixty-eight would-be dentists must take a major examination a second time because their test answers were lost, presumably by the postal service, between Kansas City and Chicago.

The 68 took the Dental Aptitude Test Oct. 4 at the University of Missouri-Kansas City School of Dentistry. The answer sheets were mailed Oct. 4 to the American Dental Association's division of educational measurement in Chicago but apparently did not arrive.

The 68 students who took the test have been notified that a new and "different but comparable" examination will be given Nov. 22.

Dr. David DeMarais, division director, said he planned to change the delivery system for getting the new test answers to Chicago.

When you need some notes at 3:00 a.m., you find out who your friends are.

You left the notes for chapter 6 in the library. A sure sign that someone's test will be heavy with questions from chapter 6. Someone you know is about to get a phone call. He's not going to like it, but he's going to come through. When this is over, do something special for him. Tonight, let it be Löwenbräu.

Löwenbräu. Here's to good friends.
Faculty Senate names four to task forces

By Alan Seney
Staff Writer
The Faculty Senate Tuesday named four representatives to task forces that will study future needs of the University.

Joanne Thorpe, Department of Physical Education, and Irene Hawley, Rehabilitation Institute were elected to join a task force on academic priorities. Appointed to the public service task force was Richard Thomas, Department of Social and Community Services. Named to the task force on rewards was Stanley Tyler, the Department of Finance.

David Derge, political science professor, was nominated to serve on the academic priorities task force, but his appointment was rejected by the Senate by a vote of 17 to seven.

Some Senate members objected to electing Derge because he was censured by the Senate in 1974 for the firing of 106 faculty members, including some who were tenured while he was president of SIUC. The resolution, censoring Derge, for his actions called for the University to hire a new president.

Newman Center plans holiday feast
A Thanksgiving dinner with all the trimmings is planned for Cardiolel residents and SIUC students who won't be going home for the holiday, according to Liz Riear, a volunteer coordinator at the Newman Center. The Newman Center, the Carbondale Interchurch Council and the Undergraduate Student Organization are sponsoring the dinner to be held at the Newman Center, 715 S. Washington St. on Nov. 27.

Tickets must be purchased at the Newman Center before Nov. 25 and a $1 deposit, which will be refunded at the dinner, is required. There will be salad, bread, vegetables and dessert served.

The dinner is open to the public. It will be served in the Newman Center Dining Hall from 4 to 6 p.m. Tickets, $1 for students and $1.50 for non-students, are available at the Newman Center.

Herbert Donow, chairman of the faculty status and welfare committee, said it would be "symbolically unwise" to recommend a man whose policies on the University the Senate felt were flawed.

"If he is approved, we will have to answer to our constituents who will be asking, 'What the hell are we doing?' Donow said.

Senate Representative Manfred Landrecker, however, reminded the Senate that the Political Science Department members had voiced approval of Donow when they elected him to the Senate two years ago.

The task force were announced by President Albert Somits during last month's all-faculty Senate meeting. The academic priorities task force will address issues such as faculty rewards and faculty members' decision to join a task force for the University's academic program.

The task for the Senate will be to study and decide whether the current system of promotions for faculty and staff is adequate. During the meeting, some Senate members expressed concern that the faculty was not represented well enough on the Senate.

But Senate President Marvin Kliman said that Somits had told him at-large members of the task force will include faculty.

In other action, Keith Sanders, SIUC governmental relations officer, explained to the Senate the administration's reasons for not supporting faculty efforts for an override of Gov. James Thompson's reduction in this year's pay hike.

Sanders said the administration decided to stay neutral on the issue because if the override were successful, Thompson could decide to give a smaller increase than he had promised, or he might decide to take the 1 percent the override would provide in faculty and subtract it from the amount he was going to approve in the budget plan.

He added that though the administration was not backing the override it did not mean that they had reduced their commitment to getting a long term faculty pay raise.

Cheap Trick's latest shows devotion to rock 'n' roll

By Randy Lynch

WHRM Music Director

There are no big surprises on Cheap Trick's fifth studio album, All Shook Up. Guitarist Rick Nielsen is still the main writer, having penned eight of the 10 tunes and co-authoring the other two. The songs aren't as calculated as the ones on last year's "Dream Police." Despite his goofy appearance, Nielsen has become easier to relate to through the songs on "All Shook Up."

Cheap Trick became a "mega-band" with the success of its poorly received "All Shook Up." There are big surprises on the new album, however, as well as more melodic and jazzier sound to the band's live sound. Nielsen's words his performance is consistently charged, making "All Shook Up" a personal peak for Zander. To finish the comparison, Tom Peterson's 12-string bass makes him as distinctive a rock bassist as anyone outside of John Entwistle since the completion of "All Shook Up."

Pete Townshend before him, Nielsen is starting to learn that he can still have a presence even when the audience can't see him. Emotion is not immediately apparent in a song like "High Priest of Rhythmic Noise." However, it's not a boring ode to a rock god or rock's lifestyle. It's more of a commitment to a cause. Some believe in curing world hunger. others in nuclear disarmament. Nielsen believes in it.

Much like Townshend transmits his message through Roger Daltrey's emotive voice, singer Robin Zander effectively conveys the feeling behind Nielsen's words. His performance is consistently charged, making "All Shook Up" a personal peak for Zander. To finish the comparison, Tom Peterson's 12-string bass makes him as distinctive a rock bassist as anyone outside of John Entwistle since the completion of "All Shook Up."

(Continued on Page 9)
‘All Shook Up’ holds few surprises

(Continued from Page 7)

Despite the similarities to the Who, Cheap Trick is more often accused of sounding like the Beatles. Since the band has hired former Beatles producer George Martin to produce this album, that accusation gains some merit.

Martins shows his presence strongly on his arrangement of “World’s Greatest Lover.” His placement of strings with acoustic guitars and Zander’s vocal style recall some of Lennon’s solo work. It’s the perfect setting for Nietzsche’s romantic guitar solo, which is a reworking of the music’s guitar riffing.

Martins has given Cheap Trick a much rarer sound than it has had on recent LP’s. His technique serves to spotlight the more refined moments, or the novelties like the Ceylon vocals on “High Priest...” and the African percussion of “Who’s D King,” a feature for drummer Bun E. Carlos.

So “All Shook Up” has power, emotion, quality sound and even some humor—the stuttering vocals of “Baby Loves to Rock.” But it’s not a consistently strong album. Several cuts are just plain ol’ rockers that show no growth and get tiresome with repetition.

The mediocrity of a song like “Love Comes A-Tumblin’ Down” is underscored by the previous song, it’s a nicely ironic piece of advice to end “More Specials” with.

Band’s successful attempt to sound like Led Zeppelin or AC/DC. In contrast to the band’s more enlightening rockers like “Surrender” or the new “Can’t Stop It,” But I’m Gonna Try,” a few of the cuts are more filler. However, the good material definitely outweighs the bad.

“All Shook Up” is an important album for Cheap Trick. For the past couple of years, it has appeared that its creative growth was rotting on the vine. But the crop is healthy this year and there’s not too much fertilizer.

Cheap Trick is giving up junk food for a more nutritious brand of rock. (Album courtesy of WIDB.)

Specials show catchy Muzak side

(Continued from Page 7)

highlighted. A starkly revealing line from that song describes an elderly woman and commenting, “Have you ever thought one day that could be me.”

In contrast to most of the tunes on the ska side, the Specials’ close side one with “Sock It To Em J.B.,” a soul tune about James Bond. With its dominant use of horns, common in “007” movies, it could almost pass as a theme song for a biography of old “J.B.”

The Muzak side, however, is clearly different from anything the band has recorded. There is a possibility that the thought of a side of a “grocery store” music would turn off all but the die-hard Specials fans, but the band made one mistake—the songs are simply too interesting to be boring, even with a definite Muzak feel. Not that the band doesn’t take a good stab at being mundane on this side. The majority of the first half of the side finds the band singing redundant lyrics to calypso music. Talk about a yawner.

But the second half of the unbelievable—combine rock and jazz with Muzak and pull it off beautifully. That song, “I’ve Had Enough,” with its steady romping beat and falseo vocals, is catchy and thoroughly enjoyable. And if it’s not as good as it’s worth, it is also the album’s best song.

International Jet Set then uses haunting rhythm mixed with snaps organ and horn fills to go with the curious lyrics which describe the band’s “wonderful time on their American tour” as dummers put it in Rolling Stone. Taking it all back full cycle, the album closes with a deliberate, Muzak reprise of “Enjoy Yourself.” Considering the bad tunes described in the band’s successfull attempt to sound like Led Zeppelin or AC/DC. In contrast to the band’s more enlightening rockers like “Surrender” or the new “Can’t Stop It,” But I’m Gonna Try,” a few of the cuts are more filler. However, the good material definitely outweighs the bad.

Joe Jackson's newest is his best effort to date

By Glenn Jewett
Student Writer

In the Jan 80 and early '80s rock stars like Faile, and Don and Jackson's debut album "Look Sharp," Joe Presley, but failed to withstand the test of time due to an inability to develop individual personalities. On 1979's "Look Sharp," Joe Jackson stepped into the New Wave limelight with a style very similar to Elvis Costello. He dressed like Costello and his songs derived more than a direct influence from Costello.

Since that time, Costello has moved more toward rockabilly while Jackson has been inserting more of a reggae beat into his music. On the Joe Jackson Band's new album "Beat Crazy," the majority of the material is English pop-reggae and the outcome is superb.

"Beat Crazy." Jackson steps out from behind Costello's shadow and is left to stand alone. The album is Jackson's best effort to date by far and the band proves it can play reggae with any English group.

The title track, a quick-paced reggae-rock, leads off the album by calling people to the nearest KLF to past the music they listen to. Four of the album's 11 tracks are reggae. Four more songs have a strong bass beat that could easily be mistaken for reggae. Unlike groups like the English Beat, the Specials or the Police, Joe Jackson adds ballads and rockers to his reggae repertoire. This mix keeps "Beat Crazy" going without getting boring like many English reggae bands.

"Biology" is an example in which Jackson leaves reggae and gives us his best rocker to date. The lyrics talk about lust and sex and Jackson comes off sounding very mad.

Jackson's best chance for the AM radio market is "Pretty Boys," a song that sounds like it comes from the songbook of the Specials. Jackson condemns the "pretty boys" of rock that worry more about money than the music. "Maybe I should trade my painted shoes on. Cause talent don't count. For pretty boys, are some of the lyrics.

Fall recital set

The SUU Chorale will present its annual fall concert at 3 p.m., Sunday at Shroyer Auditorium. Admission is free. The performance will include a Strawinsky Mass and several contemporary American pieces.

Soloists include soprano Rhonda Black, alto Dana Runstedt, tenors John Kaze and Brad Joseph and basses Larry Smith and Ken Hester.

Psychology Department studies headache causes

By Colleen Moore
Staff Writer

No one can say for sure why headaches occur, but the SIU-C psychology department is trying to discover the physiological causes of headaches. The department's last study of a three-part series on headaches studies people who have tension headaches, migraine or no headaches.

Jackie Cuevas, a research assistant for the project, said people with tension headaches are in great need for the study. Volunteers are paid $10 or $20, depending on their performance.

Electrodes are attached to the subjects. As they are questioned for an hour, a polygraph machine records their heart rate, blood volume pulse and muscle tension in the forehead, back of the neck and forearm on paper.

Cuevas said one theory is that people get headaches because muscles in the head contract, lose blood and become tense. However, the major result of the first headache study done by the psychology department two years ago disagrees with this theory. The first study is consistent with some previous research in finding no differences in the tension levels of people with headaches and of those without headaches.

The first study focused on people who have tension headaches, migraines or no headaches as the third study did. The second study looked at only those who have tension headaches but its results have not been tabulated yet. Although no cause can be attributed to headaches, Cuevas said, they often occur with stress, weather changes, alcohol consumption and menstrual periods.

Cuevas, a graduate assistant in psychology, said, "Headaches can be as short as 15 minutes to as long as a week, depending on whether people take medication or not." Although sleep, relaxation and aspirin seem to be the best solution for a normal headache.

Students unable to attend who would like to provide input should contact Betsy Hill, coordinator of recreational sports at the Recreation Center.

The Office of Intramural-Recreational Sports will conduct an open discussion on Thursday in the Mississippi Room, at 8:30 p.m. in Lentz Hall in order to find out where students' recreational interests lie.

Recreational programs will not be presented at the meeting. Students will be asked for their ideas on leisure activities that may be used in the future at SIU-C. Handicapped students are especially encouraged to attend.

A study done by Cuevas confirms this finding. In September, Cuevas analyzed 60 questionnaires that were filled out by SIU-C students. Among those who had experienced headaches, women usually had headaches once a week whereas male students tended to have one headache per month. Twelve men and four women claimed they never had headaches.

The reason women get more headaches is not known. Cuevas said one theory is that society could be indirectly affecting women's health. Another theory states that women receive more headaches because of their personality, she said.

Cinema historians to plan series

More than two dozen top cinema historians from around the United States will get together Monday at the Giant City Lodge or three days of planning aimed at launching a proposed 10-volume history of the movies.

The series is budgeted at more than $1 million, most of which is to be contributed by grants from the National Endowment for the Humanities. It is expected to take more than a decade to complete, he said.

Harpole said the project, tentatively titled "The American History of Incomplete," will be similar to the well-known "History of English and American Literature." It focuses on the development of film and its relationship to the films of other countries.

Harpole said the series will examine the technology involved in film production and its effects on cinema content and the economic and social impact of the movie industry.

One of the purposes of the series is to examine film history in English. It has been based on newspaper articles written for the popular press.

Riff Raff to open for Scott Wilk

By Bill Crowe

"Drink, Dance and Drop" is the motto of Riff Raff, a Carbondale-based band that will be playing an opening set for Scott Wilk and the Walls at 9:30 p.m. Friday at Ballroom D of the Student Center. Admission is $2.50.

Known as Ruddy and the Bouquets until a few months ago, Riff Raff is a six-member rock-reggae ska band which plays both cover versions of other artists' songs and original material. The band strives for a sound which has become a staple of late-'80s and early-'90s music—danceable rhythms presented within a fun, unpretentious atmosphere.

"We basically always play for fun and try to get the people to have fun," said bassist Pat Lound (the whole band uses stage names in performance). "I think the band has a really good exchange between the audience and ourselves."

The band—composed of percussionist Bill Manly, vocalist Tony Saxe, sax-fusit Boss Toots, bassist Nance Danger, guitarist Danny Silver and Lound—now plays mainly cover versions by such artists as the Pretenders, the Police, the Specials and Robert Palmer. However, it is also in the process of recording a demo tape which will be sent to record companies in hopes of landing a recording contract.

Two of the original songs Riff Raff performs in concert are "Popn Split" and "Rude Boy."

Riff Raff is definitely shooting for a distinctive sound. In fact, that's why the band changed its name from Ruddy and the Bouquets to its present form.

When asked about the change, Boss Toots said: "It sounded too much like a Holiday Inn band."

Alumni recognition lunch

to accent Homecoming events

The annual Alumni Recognition Luncheon will be held during Homecoming Saturday at 11 a.m. in Ballroom 2 of the Student Center. Luncheon tickets are $2.25 each and are available in the new alumni office in the Student Center. The Alumni Achievement Awards will be presented at the luncheon, and the winner of the Alumni Great Teacher Award will be announced. University President Albert Somit will also give a "State of the University, 1980" address. Alumni receiving achievement awards for distinguished professional accomplishment are W.A. Rutt, Jr., 1926, Ph.D., 1930, President of Kentucky State University; Eva Jane Milligan, B.S., 1941, senior vice president and general personnel manager of Marshall Field and Co. and Robert E. Wing, Ph.D., 1967, research chemist for the United States Department of Agriculture at the Northern Research Laboratory.

The award for distinguished service to SIUC and the Alumni Association will be presented to William B. Freeberg, B.S., 1943, retired professor, SIUC recreation department.

Receptions for class reunion groups for the class years ending in "5" and "9" will be held in the Student Center, Wednesday after the football game Saturday afternoon.

Senior picture deadline set; contest winners announced

The final sitting date for senior portraits for the 1981 OBelisk II yearbook will be Nov. 20, according to Genny Jauch, editor of the yearbook. Any senior who wants to have a portrait taken must make an appointment, either by calling 453-5167 or by stopping by the OBelisk table in the south end of the first floor of the Student Center.

Dorms or organizations that have not yet had photos taken for the yearbook should call 453-5167 for an appointment. Final date for these photos will be Nov. 14, Jauch said.

Winners of the 1981 Feature and Photo Contest have been announced. Jauch said. Winners of the photo contest were: first place, Alex Perri; second place, Brian Howe; third place, Jim Hunziger; and fourth place, Joseph C. Zolockiwksi.

Rare hurricane stalled over Gulf

MIAMI (AP) — Oil Companies began evacuate workers from rigs and work barges in the Gulf of Mexico Tuesday as a rare November hurricane stalled 450 miles southeast of New Orleans.

Hurricane Jeanne reached minimal hurricane status at mid-morning when its sustained winds hit 75 mph, 1 mph above the threshold. It was expected to hold its position through Tuesday with little change in strength.

"The steering currents in the vicinity are just about balanced," said forecaster Joe Pelaez.
Frank Zappa brought his satirical ramblings to SIU for a 1977 Homecoming concert and he will return to the arena at 8 p.m. Saturday Nov. 15.

Spikers travel to state tourney in hopes of a ‘second season’

By Michelle Schwest
Staff Writer

SIU-C is seeded fifth in this weekend’s state volleyball tournament at Macomb, Ill., but Coach Sue Hunter feels her team has a chance to challenge the second seeded Illinois llinois State and Northwestern.

“The records of the teams don’t really matter,” Hunter said. “It’s just like the beginning of a new season. We have been methodically preparing for this weekend all season and we are back-up, that team can definitely challenge the top two, if we play up to our potential.

“None of these teams play more than one team at a time, if we can’t afford to slip. If we play at our potential and they slip, then we’ll be the team again. If both play up to their potential, we will only challenge them.

Illinois State is seeded first with a record of 30-15 and Northwestern (23-8), DePaul (23-18) is the third seed, followed by Illinois (18-24), SCT-C (22-6), Illinois-Chicago Circle and Western Illinois.

Stone named AL Cy Young winner

By The Associated Press

Baltimore Orioles manager Earl Weaver, the major league’s top winner in 1980 with the American League Cy Young Award Wednesday in a close battle with Mike Norris of the Cleveland Indians.

Each pitcher received 13 first-place votes from the 25-man committee of the Baseball Writers of America, but the Orioles’ 25-game winner piled up more second- and third-place votes to move the winner by nine points, 100-91.

Rich Gossage of the New York Yankees was third with 37 1/2 points while teammate Tom Seaver finished a distant fourth with 14. Dan Quisenberry of the Kansas City Royals was fifth with 7 1/2 points – and the Royals Larry Gura and Baltimore’s Scott McGregor tied for sixth one point apiece.

Under the BBWA voting system, five points are awarded for first place, three for second and one for third.

“All along I thought I deserved it and I’m sure that Mike Norris thought he did,” said Stone. “This decision in no way diminishes the type of year he had.”

In his 10th major league season, the 35-year-old Stone posted a 25-7 record with a 3.23 earned run average. Norris was 22-6 with the A’s and had a 2.54

ERA, second in the AL to New York’s Bucky Dent, who led the league with 2.47.

Stone had two spectacular hot streaks during the season. From May 9 until July 26, he won 14 games in a row and from May 9 until Aug. 23, he took 19 of 20 decisions.

The season was by far the best for Stone in a checkered career. He entered the year with a 78-79 lifetime record with four teams.

Stone is second in the major leagues in complete games and third in shutouts among starting pitchers. His 287 saves is just behind Don Stanhouse’s 290 with Boston, and his 555 total saves are third behind Stanhouse and reliever Juan Gamez.

The left-hander from Oklahoma has earned 27 2/3 of his 1,083 career saves as a relief pitcher and was a seventh-round choice of the A’s in the 1973 amateur draft.

Stone is a native of Virginia City, Iowa, and is married to the former Karen Roman. Their son, Brad, is 3 years old.

Beg your pardon

The Saluki basketball team’s first regular-season game is Nov. 28 against Memphis State.

The team will play Tulane the following evening in Memphis. It all started in Thursday’s Daily Egyptian that SIU-C’s first game was against Tulane.

District meet awaits harriers

By Rick Klatt

It would be easy for cross country fans in Southern Illinois to get carried away by the local hero. But as the old axiom goes, 'the assumption may be the team's best in the 200.'

The distances are a strong point for the Salukis this season. Coach Hartzog said the team's top two 10-mile runners, Parker and Mike Brown. The pair have run half-marathons in 1:15 and in the recent district races.

Parker is probably the best racer and most aggressive competitor Brown needs to deep up his speed. Said, "When Bogg gets here, we'll be more flexible. 'There you ever.

Conrado Porta returns after a 13th in the Valley Conference. This year, the Salukis have missed the 200 and 200 back by seconds of 10th. He took 11th last year in the 400 fly at the NCAA nationals.

"I can't say enough about Bobl. He's the best stickhandler in the pool and the last guy out," Steele said. "He wants to be first on the ice, has a great deal of the team's best in the 200."

The coach said Bogg has already won the top two 10-mile races.

"I can't say enough about Bobl. He's the best stickhandler in the pool and the last guy out," Steele said. "He wants to be first on the ice, has a great deal of the team's best in the 200."

The coach said Bogg has already won the top two 10-mile races.

The distances are a strong point for the Salukis this season. Coach Hartzog said the team's top two 10-mile runners, Parker and Mike Brown. The pair have run half-marathons in 1:15 and in the recent district races.

Parker is probably the best racer and most aggressive competitor Brown needs to deep up his speed. Said, "When Bogg gets here, we'll be more flexible. 'There you ever."

Conrado Porta returns after a 13th in the Valley Conference. This year, the Salukis have missed the 200 and 200 back by seconds of 10th. He took 11th last year in the 400 fly at the NCAA nationals.
