Simon credits blacks for win

CHICAGO (AP) — Rep. Paul Simon Wednesday the overwhelming support of Chicago's black Democratic voters was greater than he anticipated, allowing him to capture the Senate seat in Illinois.

His opponent, three-term Republican Charles Percy, said he was "disappointed" by the lack of support by black voters.

"We did not expect the kind of percentages that we received in the black community. They were overwhelming," said Simon, 50, who appeared weary, but obviously delighted as he spoke to reporters and campaign workers.

"There's no question that Mayor ( Harold) Washington played a key role. He was very magnificient," said Simon, who backed a black landslide in Illinois.

Percy, 65, who locked horns with Washington during the campaign over ads the mayor aired on black radio stations, said the commercials "must have been effective.

Earlier in the campaign, Percy charged that Washington's ads on behalf of

Students to present fee arguments to trustees

By Ed Foley

Student leaders will discuss their arguments concerning the proposed Recreation Center, Student Center, and housing fee increases with the Board of Trustees Thursday.

The proposed $6 fee boost for the Recreation Center has encountered the most opposition, sparked in part by the release of a list of the additional cuts that would be made if only a $4 increase is approved.

The detailed list, provided by Bruce Swinburne last week to leaders of student, faculty and civil service constituency groups, has been called "blackmail" by Glenn Stolar, head of the Graduate and Professional Student Council, which has recommended a $6 increase. Andy Leighton, president of the Undergraduate Student Organization, has criticized the list for its failure to investigate alternate funding methods.

The USO has yet to decide on

Rec Center reductions planned

By Karen Wilberger

The severity of cuts in programs and hours and a savings of $7,500 separates the proposed $6 and $8 Recreation Center fee increases, according to anticipated reductions plans based on proposed fiscal year 1986 budgets released by the Office of Student Affairs.

With either increase, Recreation Center hours will be cut by at least 11 and a half hours per week, break hours will begin three days before breaks, and some staff and officials positions will be eliminated or reduced.

An $8 fee increase will save $41,000 and a $6 fee increase will save $11,500 in salaries and student worker wages, the report said.

However, under a $6 increase plan, the following program and hours reductions are also anticipated:

Intramurals — elimination of the soccer, tennis and pickleball programs, swimming and golf programs, and the weekly tennis tournament.

Recreation for Special Populations — elimination of weekend programs, travel, the wheelchair basketball team and the

Gray wins; Patchett may ask for recount

By Jane Grandolfo

With all 599 precincts reported, Gray had 116,384 votes to Patchett's 113,715, or a 1,269 vote margin of victory. Both had nearly 50 percent of the vote.

The 2nd Dist. race in Southern Illinois was the sole contest left undecided among Illinois' 22 congressional races. With Gray's triumph, Democrats finished with 33 House seats from Illinois to the Republicans' nine, a loss of one seat for the GOP.

Both Gray, 59, a part-time auctioneer from West Frankfort, and Patchett, 35, the Williamson County prosecutor, had claimed victory in their see-

saw race election night.

The St. Clair County Clerk's Office said computer problems had hampered the counting of ballots in two precincts, which finally were reported Wednesday evening.

Patchett had said Tuesday night that there were no problems with voting irregularities and said he might ask for a recount.

"Recounts traditionally favor Republicans. Observers must be sharp and ballots are observed closer," said Mark

Maddox, Patchett campaign manager.

Gray media aid Richard Darby scoffed at the possibility of a vote recount. "They're just grasping at straws. We got our figures from all 21 County Clerks offices and we checked and rechecked our figures against election service figures.

In the meantime, both camps are weary of the wait. "We're

Dorr not anxious for season to end

—Sports 20
President Reagan swept the Midwest by margins consistent with his landslide national victory, but his call to keep alive the "patriotic fire" went unheeded in Minnesota, and most Democrats in the seven other states avoided severe political burns. Minnesotaans gave native son Walter Mondale a measure of respectability in his only state win Tuesday night by a 51 percent-to-49 percent margin. Elsewhere in the eight-state region -- including the three states hardest hit by unemployment: Michigan, Ohio and Illinois -- Reagan piled up victories ranging from 54-to-46 percent in Iowa to 62-to-38 percent in Missouri. Reagan won the popular vote nationally by a margin of 59-to-41 percent.

Inmates charged with filling false tax returns

SPOKANE, Wash. (AP) -- Six prison inmates sought $8,751 in income tax refunds for phony jobs and the Internal Revenue Service issued four refund checks before the scam was discovered, officials said. The inmates at the Washington State Penitentiary in Walla Walla listed false places of employment and claimed fictitious dependent children, said U.S. Attorney John Lamp. A 35-count indictment Monday charged the six inmates and one of their wives with mail fraud, conspiracy to defraud the government and filing false income tax returns.

High winds delay Discovery mission one day

CAPE CANAVERAL (AP) -- Killer crosswinds, packing enough power to rip the fuel tank and booster rockets from the space shuttle in its climb to orbit, forced a one-day postponement Wednesday in the start of Discovery's satellite rescue mission. Officials rescheduled the liftoff for 7:15 a.m. EST Thursday but that, too, depended on the capricious winds. Air Force weathermen were told to monitor the winds with a series of high altitude balloon flights. They had only two hours before the new launch window.

Tet offensive smashed Viet Cong, colonel says

NEW YORK (AP) -- The Viet Cong "got their clock cleaned" in the Tet offensive, with more than 80 percent killed or seriously wounded, in retaliation for a U.S. terror attack on a U.S. base on Jan. 30, according to a top intelligence official in Vietnam, an intelligence analyst in Vietnam, said he studied the Tet offensive and found that almost all enemy units in the attack had been accounted for beforehand.

Tax exemption amendment falls short of votes

CHICAGO (AP) -- Incomplete vote returns today appeared to indicate that voters were rejecting a proposed amendment to the Illinois Constitution that would allow the General Assembly to exempt the property of veterans and other "patriotic" organizations from real estate taxes. With 8,376 of 11,632 precincts reporting from Tuesday's election, the proposed amendment had received 4,079,112 "yes" votes, or 53 percent and 605,306 "no" votes, or 47 percent. However, the proposal requires an approval of a majority of those voting in the election -- more than 4.7 million voted -- or 60 percent of those voting on the question.

State GOP made small gains in Senate and House seats

CHICAGO (AP) -- Republicans made modest inroads in the Illinois General Assembly elections, but failed to overtake Democratic majorities in either the House or Senate. While falling short of their aim to win control of the Senate in Tuesday's election, Republicans knocked veteran Chicago Democrat Robert Egan out of a job, with Chicago police detective Walter Dudy unseating the six-term senator. In the House, GOP Rep. Harry "Babe" Woodyard of Christiana ousted Democrat Rep. Larry Stuffle of Danville, in the only General Assembly race that pitted incumbents against each other.

Former mayor leads appeals court seat race

CHICAGO (AP) -- Former Mayor Michael A. Bilandic held a sizable lead over a Cook County judge in his bid for an appeals court seat in the First Judicial District. Bilandic, 61, a Democrat who served as mayor for three years and an alderman for seven, was opposed in Tuesday's election by Circuit Judge George Marvinchik, 51, a Republican who presides over criminal cases in south suburban Markham.

Minnesota refuses to fall in Reagan's landslide win

By The Associated Press

President Reagan swept the Midwest by margins consistent with his landslide national victory, but his call to keep alive the "patriotic fire" went unheeded in Minnesota, and most Democrats in the seven other states avoided severe political burns. Minnesotaans gave native son Walter Mondale a measure of respectability in his only state win Tuesday night by a 51 percent-to-49 percent margin. Elsewhere in the eight-state region -- including the three states hardest hit by unemployment: Michigan, Ohio and Illinois -- Reagan piled up victories ranging from 54-to-46 percent in Iowa to 62-to-38 percent in Missouri. Reagan won the popular vote nationally by a margin of 59-to-41 percent.
Final count gives Dunn Senate win

By Jay Schmitz

After an agonizing wait for the final vote count, Republican Ralph Dunn finally received confirmation that he was the 58th District's new state senator early Wednesday morning.

Dunn said the final vote tally was 46,428 for Dunn and 42,531 for former Randolph County coroner Gary McClure.

In Jackson County, where numerous problems delayed the counting of votes, the final totals were 12,948 for Dunn and 12,365 for McClure. McClure said that he had hoped to win in Jackson County, where support for Dunn was high.

McClure did in fact receive support from students. Out of 688 votes counted, the junior class cast 134 votes for McClure. Hence, Premier 21 results showed a tie between the two candidates.

However, it was not enough as Dunn managed to outpoll the Democratic candidate. Dunn also received the majority of votes in Monroe, Perry, Washingtons and St. Clair counties.

McClure received more votes than Dunn in Randolph County, his home county, and Union County.

"I am quite pleased with the results," Dunn said. "Particularly in Jackson County. The College Republicans and my volunteers and campaign staff did a fantastic job there." Dunn said that the margin of victory was not quite as big as he had projected. "I thought we would get about 55 percent, and we got about 52 percent. Obviously put up a big fight," said Dunn. "I don't think we would work hard for the district, centering his efforts on education, coal research money and increasing tourism in the district."

"In 1986, I believe that the thrust of legislation in Dunn will be toward education," he said. Dunn said that presidential and state commissions on educational quality will provide the framework for improvement in education.

The 76-year-old Dunn served for 15 years as a state representative prior to this year. He was a member of several important committees, aiding in his desire to have his contacts in the House will help pass legislation.

Balloons cast by record number of voters

By The Associated Press

Elections officials Wednesday counted the last of more than 89 million ballots, as President Reagan's landslide defeat of Walter F. Mondale brought said Tuesday's turnout status permanent - at least for any previous presidential election.

In several states, officials said Tuesday's turnout probably was larger than usual proportions of those eligible voting, reflecting in part major local races and ballot issues.

Tuesday votes nearly counted this morning, Reagan had more than 53 million votes to

Poshard jubilant after retaining Senate seat

By Darren Hillock

Staff Writer

State Sen. Glenn Poshard's victory Tuesday in the 59th District made his interim status permanent - at least for two more years.

Poshard retained the seat he was appointed to in August after the death of Gene Johns with 47,230 votes. Challengers Bob Winchester, a Republican, and Eve Johns, Johns' widow who ran as an independent, received 18,221 and 1,427 votes, respectively.

Poshard will complete the remaining two years of Johns' term. Johns died of cancer August 20.

Early Wednesday morning, the scene at Poshard's Herrin headquarters was one of jubilation. A happy Poshard introduced his family to the overflow crowd, and repeatedly thanked his workers. "I'm proud of you and I love you all," Poshard told his workers.

Winchester defeated Hardin, Gallatin, Johnson, Massac, Pope and Pulaski about 125 million Americans were registered to vote. Disappointed election officials in Minnesota reported that Mondale's home state would apparently not exceed its turnout of 71.9 percent of eligible voters in 1980 and 75.4 percent in 1976, both of which led the nation.

The turnout was 90 percent, however, in Mondale's home state of Minnesota, and state officials introduced 3,166 voters cast ballots. Turnout apparently exceeded 70 percent in Texas, Pennsylvania, Montana, Virginia, Florida, Rhode Island, South Carolina, and Connecticut.

In Pennsylvania, with 99 percent of all precincts reporting, turnout was 4.8 million, or 77.5 percent. With 94 percent of precincts counted in Montana, where voter registration was 526,841, turnout was about 70 percent, compared with 78 percent in 1980.

Fifteen statewide propositions on the ballot, helped bring out voters, and officials said the voter turn-out in the state's 1.25 million voters would cast ballots.

In Illinois, 4,127,397 of about 1.8 million voters went to the polls, or 79 percent.

Rate increase for taxi company OK'd

By Lisa Eisenhauer

Staff Writer

A rate increase for the Yellow Cab Company, as approved by the Carbondale City Council after the last week's five submitted tax returns showing a net loss of over $20,000 in the last four years, must be set to go into effect Nov. 12.

The council voted Monday to allow the city's only cab company to raise its fare from $1.10 for travel within one of the zones used by the company to fix its distance in the county at 30 cents to 40 cents for each zone charge, $0.05 for each five minutes, and $0.05 per hour, which may be broken into increments of no more than five minutes; was also established. In addition to the tax forms, council members reviewed a report on taxi rates in other cities similar in size to Carbondale before making their decision. City Manager Bill Bowie said there was a taxicab shortage in Carbondale, and that the company is unable to attract and retain drivers.

The scene at Poshard's Herrin headquarters was one of jubilation. A happy Poshard introduced his family to the overflow crowd, and repeatedly thanked his workers. "I'm proud of you and I love you all," Poshard told his workers.

Winchester defeated Hardin, Gallatin, Johnson, Massac, Pope and Pulaski counties. However, that wasn't enough to combat Poshard's strong showings in his home counties of Williamson and Williamson. Poshard received 7,088 more votes than Winchester in those two counties.

Winchester had said polls conducted by his campaign a week before the election showed him leading Poshard.

Donating blood will save lives

As student leaders we beseech our fellow students, concerned faculty and other members of the community to take an hour of their time to save someone’s life. By donating blood at the Student Center from 10:00 a.m. to 4:00 p.m. Tuesday and Friday, we can help meet the critical need of area hospitals for this life sustaining substance.

The Mobilization of Volunteer

Don’t wait for crisis to give blood

Many people are sunglum about donating blood; for that reason, these people do not give. The entire process isn’t very difficult and you could save the life of a person with your small donation of one pint. If you are still afraid, you can bring a friend with you to talk, hold hands or tell some jokes. Blood which cannot be manufactured, only human blood can be collected this week at the Student Center will be handled by the blood donors.

Regional Red Cross Blood Service donates blood to hospitals in 80 counties covering Southern Illinois and Eastern Iowa. The closest hospital is 900 miles of blood need to be collected every day.

Once blood is collected, it is processed and can be stored for 35 days, but since there is a constant shortage, The blood does not last long. Some people have the attitude: ‘I’ll give when someone I know needs blood. If you are one of these people, here is a fact you may be unaware of. It takes 17 hours to process blood before it is stored. When someone needs blood, they must be in the hospital in 17 hours.

So this week, take an hour of your time, help save somebody’s life, and feel good about yourself. — Cathy Phibbin, Senior, Public Relations.

Big bucks make marathon ‘No.1’

As THE impresario who ran New York while 18,000 of us walked the most famous road in America, I know what I’m talking about. Sunday, Fred Lebow is like no other telecommunications executive in America.

In 1974, when about 170 long-distance runners enjoyed their loneliness by moving unnoticed and unseen through a looping course in Central Park, Lebow was on hand as the race organizer. He peered ahead and correctly realized that marathon sport that would not run in place. Fourteen years later, New York’s longest-running show has made Lebow — the director of the nation’s largest marathon — the most influential man in the sport that has most influenced America to get moving.

As the start of last Sunday’s caloric explosion, Lebow was in a state of controlled frenzy. Presiding at the toll plaza starting-line on the Staten Island side of the two-mile long Verrazano Bridge, Lebow was ridden with questions. Will the starting gun — which is a starting cannon — go off when the mayor yanks the lanyard? One year, it didn’t. Will the road closed 35 days, but since there is ever a second guessing about the election.

SIMON: Blacks credited for win

Continued from Page 1

was in other states because of the black vote.

Other groups, once friendly to Percy, also detested him. Neutral observers who had been particularly critical of Percy's support of the sale of AWC's planes to Saudi Arabia.

Percy said he could not assess the impact of the $1 million ad campaign directed against him by Lee Armenthal.

Goland, who suffered from polio as a child, said he mounted the campaign because he said Percy's record on supporting the handicapped was poor.

Percy denied that charge and said Goland, who he never met, had a different motive.

Goland has one issue that he's really on. He thinks I'm not enough pro-Israel," said Percy, who describes himself as a "strong and steadfast supporter of Israel."

Like Percy, Simon said he never met Goland and downplayed his impact on the race.

"I did what I could to discourage him from doing what he did."

Simon also soft-pedaled the impact of Libertarian Steve Givot's candidacy on the often-vicious campaign. "Who he helped, I don't know," said Simon. "The figure I've seen show that (Givot's campaign) was not decisive."

Still, Simon said if Givot hurt his bid for a fourth term, Percy replied that I haven't made my point.

GRAY: Patchett

obviously tiring," Darby said.

Maddox said Patchett is "preparing himself for the next move."

Until 5:30 a.m. Wednesday, both 22nd Congressional District candidates were still claiming victory and disputing vote totals.

that judgment.

Percy would not say what the future holds for him. He said he was looking forward to spending more time with his family and working for the handicapped.

"I'm not looking back," he said. "Maybe the best is yet to come."

He added that he's confident Simon "will do a fine job" in the Senate.

Simon pointed out that the seat he's about to assume was "once held by Paul Douglas who stood for compassion and common sense and decency. I do not claim I can be a Paul Douglas, but it provides a goal for someone from Illinois."

With 99 percent of all precincts reporting, Simon had 3,365, 146 votes to Percy's 2,290, 324. Givot had 58,626 votes.

Liquor law changes proposed to combat underage drinking

By Bob Tita
Staff Writer

Banning beer sold in pitchers, allowing new liquor licenses for Illinois Avenue and stricter enforcement of drinking laws are recommendations made by the Liquor Advisory Board to combat underage drinking in Carbondale.

The board last month voted not to endorse a proposal by Police Chief John Hagen that would prohibit people under 21 from entering liquor establishments in Carbondale. The City Council instructed the board to come up with alternatives to its resolution.

Board Chairman John Mills said at a meeting on Tuesday that the board should recommend that the council reverse the so-called "Halloween ordinance." The main provision of the ordinance prohibits new Class A liquor licenses from being issued on South Illinois Avenue.

The ordinance was aimed at curtailing the number of liquor establishments on the street. Mills, however, said the ordinance has "outlived its usefulness."

He said the board is reluctant to recommend that a bar owner's license be revoked for drinking violations when a new license cannot be issued. He said the bar owners know this because once a license is revoked the business will be permanently closed.

Board member Roy Miller, however, said allowing new liquor licenses might lead to a proliferation of bars on Illinois Avenue. He said he favors repealing the ordinance but wants the number of bars and liquor stores to remain the same on Illinois Avenue.

Mills said the board and the liquor commission will still have the power to deny a liquor license and will be able to consider each request individually.

Another possible recommendation from the board is banning beer sold in pitchers for businesses with Class A and B liquor licenses.

Board members said Hagen has voluntarily stopped selling beer in pitchers, and the number of underage drinking arrests has decreased.

Mills also proposed that an ordinance be passed requiring bars to check identifications and use hand stamps on all customers. He said age checks by doormen, waitresses and bartenders are inconsistent.

The matter was referred to the city legal department to investigate the possibility of limiting the hand stamping and I.D. checks to bars patronized primarily by students.

City Clerk Janet Vaught told the board that it may be difficult to pass an ordinance specifically aimed at one group of businesses. Miller said a new classification of licenses should be included to make a distinction between bars that offer entertainment and bars that do not.

The board also plans to recommend to the council that police more consistently and vigorously enforce drinking laws. The board plans to take final action on the recommendations on Nov. 20.

PAUL WATKINS of the Missouri Pacific Railroad will speak at the American Marketing Association meeting at 7 p.m. Thursday in Lawson

Professor to give philosophy lecture

The SIU-C Philosophy Department will be presenting a philosophical colloquium at 4 p.m. Thursday in Faner 1005. Guest lecturer Ronald J. Glossop will speak on Hume and the future of nations. The lecture is open to the public.

Glossop, a SIU-C professor, is the author of “Philosophy: An Introduction to Its Problems and Vocabulary” and “Confronting War.”

He also has presented philosophical papers to philosophical conferences, both national and international.

2 days remain in blood drive

The Red Cross Blood Drive had collected 1,000 units of blood as of 2:30 p.m. Wednesday—a total of 1,000 units from the 3,100 units goal, said Eva Aguirre, coordinator for the drive.

Aguirre said that even though they are so close to the goal, a push is still needed for the next two days.

Thompson Point still leads in the residence hall areas competition with 65 units.
Win hands down with the Long Distance Winner.

In 1900, Johann Hurlinger of Austria walked on his hands from Vienna to Paris in 55 daily 10-hour stints, covering a distance of 871 miles.

With AT&T you don't have to stand on your head to get more mileage for your money. You'll save 40% evenings, 60% nights and weekends. You'll get immediate credit for wrong numbers...plus quality that wins hands down.

For information on AT&T Long Distance, call 1 800 222 0300.

The more you hear, the better we sound.

SCAM urges support for utility-rate plan

By Cathy Brown
Staff Writer

Supporters of a plan to make utilities more affordable for low-income families are being urged by the Southern Illinois Action Movement to attend the next Carbondale City Council meeting.

At a meeting at the Eurauna C. Hayes Center Monday night, SCAM leaders and supporters of a "12 percent plan" for low-income families decided that trying to convince the council to endorse the plan would be one step in getting the plan passed by the Illinois Commerce Commission.

The plan, which the ICC will decide on by Dec. 1, requires that low-income families will have to spend only 12 percent of their income for utilities in the winter regardless of the amount they use.

The movement to pass the plan is statewide, and Southern Illinois supporters have already attended a hearing with the ICC in Marion to discuss the plan. At Monday's meeting, supporters of the plan also made plans to meet with, and try to get support from, the winners in Tuesday's election, and to convince Gov. Thompson to get behind the plan.

The group hopes to put pressure on the ICC to pass the plan. If the ICC doesn't pass the plan, SCAM hopes to get support from the county board.

"We've got to keep the pressure up," said SCAM leader Nick Rian. "There are some tangible things that can be done.

Supporters of the plan say it is necessary because many low-income families pay up to 60 percent of their income on utilities. Existing plans to help keep them in service are inadequate, they said.

A rule which says customers cannot be shut off if the temperature is below freezing is not enough protection, they say, because temperatures can drop after the cut-off and the utility company sometimes will cut customers off if the forecast predicts warmer weather.

Another form of energy assistance, Illinois Home Energy Assistance Program is also inadequate, they said, because the funds decrease every year.

One woman also complained that the "equalizer" plan, under which customers can spread payments out over both winter and summer, is inadequate because the monthly payments continue to go up and low-income families still have to pay a big percentage of their income.

Under the 12 percent plan, although customers would pay only 12 percent of their income on utilities, during the summer months they would have to pay this amount on top of the actual bill and one-fifth of the outstanding deposit, whichever was higher.

"Still people are going to get shut off," said Rian, but the plan will give them more of a chance to keep their bills paid.

Clyde Beaton, division manager of the southern division of CISD says that he is "definitely against" the plan because "I think it would be very difficult to control," and because other customers would be forced to pay for this subsidy which benefits the low-income families.

He also said that those under the plan would have "no incentive whatsoever to conserve energy."

Study links smoking to heart failure

BOSTON (AP) - Cigarette smoke is a known contributor to heart attacks, also causes a rare but lethal disease that weakens the pumping power, researchers have found.

The study found that in young men, at least, smoking causes cardiomyopathy, a condition that results in heart failure and is often fatal.

Exactly how smoking does this is still not clear. However, Dr. Archer J. Heineken, a professor of medicine at the Medical College of Wisconsin suggested that the carbon monoxide in the smoke somehow poisons the heart.

"It probably causes cardiomyopathy with a direct toxic effect on the heart muscle that weakens it," he said in an interview.

In Hearn's study, conducted at St. Luke's Hospital and the Wood Virus Administration Medical Center in Milwaukee, was published in Thursday's New England Journal of Medicine.

Other research has shown that men who smoke are two to three times more likely than nonsmokers to die from heart attacks. Heart attacks usually occur when the heart's own blood supply is temporarily blocked, and a section of heart muscle dies from lack of oxygen.

Damage from cardiacopathy, however, is spread through the heart. It is a permanent weakening, and as a result, the heart does not pump enough blood to circulate the blood properly. The consequence is one form of heart failure.
Comedian Red Skelton to perform in Marion

Traffic light to be added on Main

WELCOME to Miller Time

The American Tap

SPECIAL OF THE MONTH

BY John Dyslin
Staff Writer

Red Skelton is treating Southern Illinois to his off-the-wall, somewhat old-fashioned humor. He can still get the big laugh, however, because he’s in touch with people and his humor is enjoyed by his audiences.

Skelton wasted no time getting talking and joking with the people attending a press conference at the Marion Holiday Inn. He told stories that ended with a punchline or were interfered with jokes. Communicating with people is part of the key to Skelton’s success. At each stop Skelton mingles with the locals. For instance he visited the Marion Wal-Mart and when he plays at colleges he attends some classes and stays by the residence halls.

“I like people. I came here early so I can meet people,” Skelton said. “I think students are wonderful.”

Skelton said he remembers when college students were sloppy looking and didn’t have respect for anything, but that has changed, he said. “When I was in Toledo there were girls wearing miniskirts and the guys were wearing tuxedos.

There is more elegance in the clothing young people wear today.

Skelton has a special relationship with children that many comedians don’t enjoy because he studies children and doesn’t take them for granted. He views everyone the same. “I never grew up and I’ve never played to children. I put them on the same level as adults. By studying children, you find out they have adult minds.

“We aren’t any older than when we were in high school or when we were young. Our bodies may get out of shape, but our minds stay the same. I treat people childlike, not childish. We’re all childlike.”

In the past, Skelton has been critical of the language some comedians use in their monologues, but he doesn’t like to criticize them. He said some of today’s comedians are victims of writers and victims of laughter. David Brenner does clever things, Skelton said, but winds up with a dirty joke. Richard Pryor is one of the funniest men Skelton has seen, but is also one of the filthiest talking gentlemen he has ever heard. Skelton said he talks to comedians such as Brenner about the language and subject content of their jokes.

“Laughter is truth and humor is truth. People don’t pay money at the box office to hear words they can read on the public bathroom walls,” Skelton said.

Like most comedians, Skelton jokes about nearly every subject. For example, he said he works because he has a government to support, and that Federal President Reagan will cut the federal deficit by selling Minnesota and Washington, D.C. to Canada. Skelton also said Billy Carter is one peanut short of a full bag. Finally, he believes Geraldine Ferraro must be married to Reagan because she always criticizes him and tries to change him.

Skelton has other talents besides being a masterful comedian. He paints regularly and is well-known for his Freddie the Free loader paintings. Skelton usually paints clowns, but also does landscapes and still lites. “People like clowns better,” Skelton said. “I guess it’s because they associate me with clowns.”

He has painted portraits of Carol Burnett, John Wayne and Bob George. Skelton said Bob George’s manager paid $81,000 for the portrait.

“Boy George came to see me when I was in London and he flew out the exit,” Skelton joked. “Actually, I think he is a wonderful performer who is playing a part.”

The comedian has also done other projects. He has eight classical albums to his name and will have six new short stories for children released this Christmas.

Skelton has been in show business for 61 years. His first professional engagement was in 1923 in Lawrenceville, Ill. He is always professional.

A love for people clearly keeps Skelton going and people of all ages return his love.

His Friday night concert at the Marion Civic Center is a sell-out. Not many entertainers can claim they have had that kind of success for six decades — but Skelton has.
Today's Puzzle

National welterweight fighting champion Larry Tankson takes a jab at Tim Andriesen.

Fighter's looks are deceiving

By Jeff Curl
Staff Writer

There's no reason to be intimidated by Larry Tankson's appearance. The 29-year-old from Chicago is only 5 foot, 8 inches tall, weighs a mere 195 pounds, and has a smile that would make a mother proud. But before people think Tankson would be a pushover, they might want to consider something.

He's the best welterweight karate tournament fighter in the nation.

Tankson, who in 1983 won more karate tournaments than any fighter on the circuit, was in Carbondale Saturday to help a panel of judges test five black belt candidates from SIUC's University Martial Arts Club. Tankson owns a martial arts club in Chicago, but he spends a lot of time competing across the country.

"People are usually shocked to hear I'm a fourth degree black belt," Tankson said with a smile. "And I'm never the one who tells." Although Tankson's confidence is apparent, his relaxed mood is appealing. Besides the fact that he could probably handle himself in any scuffle, Tankson said that relaxation comes partly from enjoying his life.

"It's really not a job," he said of karate competitions. "It keeps me in good physical condition, it keeps me mentally sharp and, while traveling back and forth across the country, I get to meet all kinds of people with different perspectives."

Besides confidence, Tankson said martial arts helps with self discipline. While he was in the Business Administration program at Northern Illinois University eight years ago, Tankson said getting seriously involved in martial arts gave him the discipline to do the same in his studies. He went from being a C student to an A student.

"Martial arts helps you in every aspect of life," he said, adding that if he could teach his martial arts students only one thing, it would be to have the right attitude. "A student could have very good basic techniques, but it means nothing if they don't have the right attitude," he said.

A good attitude makes the difference between being courteous and egotistical, Tankson said. He added that courteous martial arts students respect others and use their confidence to be comfortable with themselves and accept whatever comes along.

Like many professional athletes, Tankson's reputation requires him to give advice. But athletic advice is not the only advice he's asked to give, Tankson said. Since he knows many of his martial arts students well, he is often asked to help solve family problems.

"That's sometimes a scary burden," said Tankson, adding that between his busy schedule, he takes time to relax and think, "for if I failed in my own problems, I couldn't help others with theirs."
Faust upset despite losses

By The Associated Press

On the court walls are pictures of Rockne, Leahy and Parseghian.

On the sofa is Gerry Faust, the man entrusted with their legacy. But Gerry Faust these days is more like Joe Kuharich, the only coach in 97 years of Notre Dame football to have lost more games.

Somas schools figure the bottom line in terms of wins and losses. Notre Dame figures it in terms of wins. Forget the losses. And Faust's four-year tenure has produced a lot of those that would like to forget.

Yet, Faust spews enthusiasm for the school and team, especially following an unexpected victory over previously unbeaten Louisiana State and a near-miracle comeback to beat Navy.

Yet, in these troubled times, the office is almost like a bunker. Faust is largely insulated from the stream of controversy his 3-and-a-half year stewardship of the Irish program has produced.

A week after the Sept. 29 game, an ineligible player.

"I felt it was going to be better than it has been by this time," he began, his raspy voice sounding strained. "The record is disappointing, but you can build on it. Sometimes, too much is made of it when you're winning and too much is made of it when you're losing."

Nowhere, though, is losing tolerated less than at Notre Dame and Faust knows it.

It's taken two straight victories to lift the Irish to 5-4. This was supposed to be Faust's season, the first time he was working only with players he had recruited.

"I felt it would be a good year," Athletic Director Gene Corrigan said. "More things were in place."

With two games left in his fourth season here, Faust's record is 23-19-1. Against Top Twenty teams he is 5-9. At home, he is 10-10. In nationally televised games, where the famed "Subway Alumni" can see the Irish, he is 4-6.

He has one year left on his five-year contract and Notre Dame 's sources contracts. But even Faust, the ultimate optimist, recognizes that he needs dramatic improvement to stay beyond that.

Winter conditioning helps golfers fight boredom

By Anita J. Stoner Staff Writer

Golfers! There is life after summer. So don't take it out on the dog or beat up Santa Claus when you're wondering how else can a golfer fight golf withdrawal symptoms when winter starts?

"Save your money all summer and burn it on golf winter," is the preferred solution suggested by Saluki golfer coach Darren Vaughn.

"But," you screen, "I'm in the north, working all winter to pay for my summer golf days!"

Well, it's not as expensive as it may seem. Saluki Coach Sonya Stalberger said many golfers in Illinois, Myrtle Beach and Pinehurst offer special golf packages which often cost under $300 for as many as six days of unlimited play on many fine golf courses.

Even if you are going south, what about that first swing? After a few winter months of working and saving to take your vacation, you don't want it ruined by back strain on the first day. And after the blues of nasty weather when the first signs of spring arrives, you don't want to hit the links so unprepared that you lose months just getting back to full form.

"If you don't do it, you'll miss out," Vaughn said about staying in shape.

"Forget about golf for awhile, put away those clubs and get back to being a normal person," Stalberger said. "Just don't let Jackson shines at women cagers only scrimmage

By Anita J. Stoner Staff Writer

Petra Jackson dominated the Saluki women's basketball scrimmage Tuesday night, leading the White team to a 53-43 win over the Maroon squad.

Jackson outscored the Maroon team by herself in the first half, hitting 10 of 15 field goals for 20 points. She also grabbed nine rebounds, had two steals, a assist and a block. Jackson's game goals of 26 points and 13 rebounds would have been career highs had this been a regular season game.

The White team, combined with Jackson's 26 points, broke open the game in the first half making 16 of 29 shots and outrebounding the Maroon squad 17-5.

A bright spot for the Maroon team came from the bench. Linda Wilson scored 10 points and had six rebounds. Maroon team highs for the game.

The White team bested the White squad with its 48.7 percent field goal shooting. Its 25 turnovers, which included 11 bad passes, allowed the White team too many opportunities.

Spikers to be tested by Tigers

By Duane Crays
Spokes Writer

The Salukis volleyball team will try to improve its 7-1 series record over Memphis State University when the Tigers arrive at Davies Gymnasium on Thursday.

The Salukis defeated the Tigers in four games earlier this season at Memphis, which is in Saluki Coach Debbie Hunter’s alma mater.

Hunter said the match will be a good test for the Salukis.

"Memphis State will help us get ready for the weekend," she said. "The first game against Gateway Athletic Conference foes Drake and Northern Iowa at home on Friday and Saturday.

Hunter said a key to winning the match will be the Salukis’ ability to control the ball or their side of the net.

"We will have to play to our own standards and level of play," she said, "which we did against Western Illinois. We will have to re-establish our game and not grab for the ball, like we did early against Western.

"It’s just a matter of establishing a feeling of confidence and knowledge," Hunter said. "A systematic style of volleyball is confidence building.

Hunter said Memphis State is a young team, and that could work in the Salukis’ favor.

"They may be more error-prone," she said. "But it’s something we can’t take for granted.

Hunter said she may use Chris Boyd, normally a hitter from the right side, as a left-side hitter at certain times against Memphis State.

We have a stronger attack from the left side when Chris is in there," she said. "We are trying to get the offense adapted enough to provide both blocking and hitting.

With Boyd hitting from the left side and a good balanced attack on the right, Hunter said the Salukis wouldn’t give the Tigers many options to return the ball.

"It makes us stronger with Chris on the left side," she said. "And it cuts down what they can return over the net.

Hunter said a key player for the Tigers is setter Drenda Roberts.

"She is a very, very quick left-handed player," she said. "We will have to have a good attack to cut down her effectiveness.

The match will start at 7:30 p.m. at Davies Gymnasium.

INELIGIBLE: Two runnners are out

Continued from Page 28

Originally, Cornell was hoping for first, second- and third-place finishes from Chris Bunyan, Pettigrew and Sturm and a first-place team victory in the MVC meet.

"Without Sturman and Pettigrew we expected third, fourth and fifth," Cornell said.

SIU-C finished second in the MVC, with Bunyan, Scott Gill and David Lamont finishing first, 11th and 15th respectively.

Pettigrew, a freshman, said he has not lost a year of eligibility because he came to the United States with only three years of eligibility because of his age.

"I’m 20. I’ll be eligible as a sophomore and junior and senior instead of a freshman.

DENNOON: Helps women’s running

Continued from Page 19

national qualifiers. But DeNoon was let go in October of ’87 because of conflicts with the Drake administration over the lack of training facilities.

DeNoon said Drake had a training room that was twice the size of his present office and the athletic trainer didn’t have enough time allotted to do the job.

"They didn’t keep records, and the same girl might be in the training room four days in a row, and treated four different patients," he said. "Everything got lost, and I had athletes that spoke out themselves and the administration felt they were being overlooked.

The administration felt the only way they could eliminate the problem was to eliminate me."

AFTER CLAUDIA Blackman resigned as SIU-C women’s cross country and track coach in May of 1983, DeNoon applied for the job.

DeNoon, who formerly coached four athletes that competed in the 1984 Olympic Games in Los Angeles, said he is happy at SIU-C.

"I’m extremely impressed with the availability of the administration, the professionalism, and the closeness of the coaches working together for the success of the program," he said. "We got everything available here except for an adequate outdoor track. But Low Harting (the former men’s track coach) proved you can be successful even without the facilities."
DeNoon’s contributions help women’s track, cross country

By Steve Keulos
Staff Writer

Don DeNoon, the SIU-C women’s cross country and track coach, will probably never forget his first job interview at a college.

DeNoon applied for the assistant women’s track position in December of 1977 at Clackamas Community College in Oregon City. One day before the interview, he picked up the newspaper and opened up to the classified ads, DeNoon recalled. “The assistant track position was the only thing I saw on the page. It wasn’t much of a job interview. I told him I had a track coach (Roger Smith), ‘I’m Don DeNoon and I hear your looking for an assistant coach, and he said, ‘You hired.’ ”

When DeNoon was hired at SIU-C in the summer of 1983, the job interview was a little more intense. He was selected from a group of 11 applicants.

SINCE TAKING the SIU-C job, the cross country and track teams have shown significant improvement under DeNoon. The cross country team only finished seventh in the Gateway Collegiate Athletic Conference meet last year, but behind DeNoon’s first recruiting class this year, they improved to fourth.

Last spring, DeNoon guided the track team to a third place finish in the outdoor conference. They signed some outstanding track recruits this year and said he expects the Salukis to win the conference outdoor track title in the spring.

Women’s Athletic Director, Carol West said she has been pleased with the job DeNoon has done at SIU-C.

“We did a nationwide search, and the opinion of our staff was he had an outstanding background which paralleled our department,” she said. “He is a great motivator and has done a fine job.”

DENOON HAS had a distinguished career as an athlete and a coach. He set the world indoor record for the mile in the summer of 1983, a mark which stood for 10 years.

He was an alternate on the 1964 U.S. Olympic Team in the 20-kilometer run, and in 1965 he was ranked No. 1 in the world at high altitudes in the 20k. But after his dreams of getting a medal were shattered when he injured his knee before the Olympic Trials, and he finished fifth out of 10 runners. The top four finishers qualified for the Olympics.

After the Olympics, DeNoon started his coaching career by working with numerous California AAU women track clubs, and served as standout Mary Decker’s first coach.

In the spring of 1989, DeNoon attended a recreation cross country meet in Westminster, Calif., and recruited two runners for his Blue Angels running club, Sandy Dean and the 10-year-old Decker.

DeNoon went on to marry Dean in 1972 and coached Decker for five years.

“Decker set three world indoor records within one month in 1974, but she left the Blue Angels because of a conflict between her parents and DeNoon.

“It was an ultimatum. DeNoon’s parents wanted to manage her and tell me when and where she was competing,” DeNoon said. “I said, ‘If I’m going to coach her, I’m going to tell her where she is going to compete because that is part of my style of coaching.’ They said, ‘Either you do it our way or you don’t coach’, and that was it.”

IN 1976, DeNoon coached the U.S. women’s track team against Russia in Leningrad, and a year later, was hired at Clackamas, helping the team win the national junior college championship in 1978.

DeNoon left Clackamas and was hired at Drake in 1978 as the women’s cross country and track coach.

He coached Drake to a Missouri Valley Conference cross country championship in 1981, and in the ‘81 and ‘82 season, he produced seven

**Year's end doesn't thrill Dorr**

By Mike Frey

Staff Writer

The football Salukis have suffered through a less than outstanding 1984 season, but that doesn't mean Coach Ray Dorr is in any hurry to see the season end.

The 3-7 Salukis play their final game of the 1984 season on Saturday against Southwest Missouri State University in Springfield. Dorr has been asked if the close of the season would give his young team a chance to regroup, but he said a few additional games and practices would help SIU-C develop into a better team.

"I'm not looking forward for the season to end because you can't practice," Dorr said. "You have to have a chance to make improvements on the field. I need a chance to do that. I enjoy practicing, and I think practice gives you better attitude and can help you develop and improve as a football team." Dorr said game experience has helped the Salukis' many freshman players gain confidence and improve as players. The chance to play in more games would further help the younger players.

Dorr, however, said the season's early coaching staff opportunity to improve some of the team's most glaring weaknesses. He said physical strength and team unity were areas where the Salukis must develop to become a successful team in 1985. "I still have got a lot stronger, and that's why we'll begin to prepare for the Thanksgiving break," he said. "We need to encourage areay to play football and encourage people who would like to try out in the spring to participate in the weight program. Our conditioning program will begin in February, so we can get in shape for spring football." Dorr said team unity is something the Salukis have lacked in the past years. He has had discipline problems in the past, most because of lack of togetherness among team members has contributed to these problems.

Dorr dismissed starting linebacker Paul Collins from the team last week because he had violated team policy for appearing on the field with captains Darren Dixon and B.T. Thomas before the final home game against Indiana State. He also placed starting noseguard Sterling Haywood and reserves Bobby McNabb on the scout team for the remainder of the year because they're not anxious to see the season end. SIU-C closes its 1984 campaign on Saturday at Southwest Missouri State University.

The football Salukis have lost their share of games this year, including a setback to Indiana State on Oct. 27. But Coach Ray Dorr is in the running for the pair broke curfew while staying at a DeSoto Motel before last week's game with Drake.

"We expect people to do things right, and if they don't they must suffer the consequences," Dorr said. "I don't like discipline anybody. It's pretty easy to get along in a day-to-day, Cornell basin rules. "We have to develop togetherness and unity. This football team is a very talented team," Dorr said. "One of the reasons why we've made the pair broke curfew while staying at a DeSoto Motel before last week's game with Drake.
