Aydt Tells Union Board Plans For Bicycle Race

Roger Aydt met with the Student Union Board in a regular weekly meeting Monday, and told of his plans for a student bicycle race. Aydt, president of the Inter-Faith Council, said he had been thinking of the possibilities of an SIU bike race for more than a year. His plans, which are indefinite, call for the race to be on the order of the famed "Indianapolis 500," the annual Memorial Day auto race at Indianapolis. He said that each team would have its own pit and that members of women's houses would decorate it. Each team entered would have four regular riders and two alternates. The course, Aydt said, would be 50 miles long—200 laps around the track at McDevitt Stadium. Each bicycle would have a speedometer on it so a check could be maintained on the number of miles ridden by each team. "Of course, we'd have time trials," he said, "so we could get the best racers."

Faculty Symposium

These men will present their views on the topic "Education as a Symposium," said Dr. Murrish. Following the symposium, debaters and coaches will have an opportunity to pose questions. We believe that this type of clinic can be of definite value to high school debaters in our area. The clinic should give the students an opportunity to clarify their thinking and to evaluate their case analyses. To be eligible for the scholarships, the contestant must be a member of his high school graduating class for the 1955-56 school year and participate in the "A" division of the tournament. The selection of the scholarship recipients will be based on a combination of quality ratings and merit," said Dr. Murrish. "The debates will be judged by SIU faculty members and university varsity debaters."

Job Discrimination

American students upon graduating from college, are often disillusioned to discover that some employers do not operate on democratic principles—a fact that most colleges place emphasis on. They cooperate with employers who lay down discriminatory qualifications for job applicants.

This is what Dr. William J. Tudor, director of the Division of Area Studies, has been attending the Christian Social Action Workshop Wednesday. The workshop was held in the Trinity Evangelical and Reformed Church of Belleville.

Tudor, who also is chairman of the Illinois Committee of Discrimination in Higher Education, spoke "off the cuff" on the subject of discrimination, and also quoted from the Mid-Western placement.

Questionnaires Sent Out "Early in 1954 the Midwest Center on Discrimination in Higher Education requested questionnaires to 266 placement offices in the seven midwestern states of Illinois, Iowa, Indiana, Michigan, Minnesota, Ohio and Wisconsin, Tudor said. One hundred fifty-five offices returned the questionnaires—a 58 per cent response."

"There is little reason to believe that the college placement offices answering the questionnaire exaggerated the problem, since those which do not complete or respond to the questionnaire would have reported more liberal practices."

"In fact, in some instances few discriminating practices were found, perhaps because employers, knowing that there was only a small minority group representation on certain campuses, did not think it necessary to place discriminatory specifications in their job orders."

Tudor said that approximately two-thirds of the responding placement offices in the seven states reported receiving discriminatory specifications in job orders. More than half of the placement offices reported that they receive the orders with overt discriminatory requests, that is, the company indicates that it has a merit employment policy without regard to race, religion or national origin.

Placement Difficulty "In the seven states as a whole," Tudor said, "the greatest difficulty in placing students was found in the area of race, with the area of religion second, and the area of national origin third. In the separate states, there were slight variations in this pattern."

"Minnesota reported more difficulty in placements because of religion than because of race, while Iowa led all the states in terms of placement difficulty on grounds of national origin."

Tudor said that as a whole, discriminatory requests came more frequently from the business field than from teaching, research or other fields. But this overall picture is changing when one looks at the individual states.

"In recent years the American business community has increasingly taken up the cause of expanding and improving educational opportunities for the young people in this country," Tudor said. "Business leaders support the principles of freedom and equality of opportunity

Dear Editor, There has been much discussion on fair representation to Student Council. I feel that all organized houses, as well as groups, should be represented on the council in order to get the best candidates. By this method, you would get your best leaders on campus.

I am hoping something can be done about this matter soon. Sincerely, Barbara Furst

Dear Editor, I am very much in favor of the proposed amendment to the student council charter for electing officers. I think this will give the students a fair chance.

Signed, Pauline Deshaemer

Dear Editor, Several people I have talked to agree with me that "the only way to promote student interest in the new and important matters on campus is to adopt a new and better system of student representation for the Student Council."

It is my hope that we, the students, do show much interest in the Student Council... but how can we? In the first place, there are many of us who don't even know the members.

Why do we have to belong to an organization before we can be represented? We should have equal representation regardless of our social standing and I think the time is ripe to let it be known.

Signed, George Storey

Dear Editor, I believe the bill should be passed regarding the election of a new system of electing Student Council members.

Sincerely, Dolores M. Budge

Dear Editor, I'm in favor of the proposed change in electing members of the Student Council. I really believe the student body will be better represented through this change.

Sincerely, Charlene Staffard

Dear Editor, The problem of Student Council representation is one that many students are concerned about. A definite feeling on campus is that the present system is not adequate and a new one is needed including representation from the organized houses on campus.

Those of us who live in organized houses feel that we were represented but would know more about the Student Council and we would make a more active part in campus politics. I believe that it is our duty to see the present system changed immediately.

Signed, Carol Hughes

Dear Editor, The Student Council should be a true representation of the entire student body; therefore, I think that the Student Council representatives should definitely be taken from the living groups.

This would bring us into closer contact with our own council representative and would, therefore, come closer to getting the opinions and interests of the entire student body.

Signed, Dorothy Boyer

Dear Editor, During the past several weeks we have heard much of the problem of representation on Student Council. During this time it has often been said that the main lack of interest on the part of the student body.

WHAT'S THIS? For solution see paragraph below. THERE'S NO QUESTION that Luckies taste better—they're made of fine tobacco that's TOASTED to taste better. There's no question in the Droodle above, either (in case you were thinking it looked like a question mark). It's titled: Captain Hook reaching for a better-tasting Lucky. If you'd like to get your hooks on the best-tasting cigarette you ever smoked, light up a Lucky yourself. It's jolly, Roger! DROODLES, Copyright 1958 by Roger Price

Students! EARN \$25! Cut yourself in on the Lucky Droodle gold mine. We pay \$25 for all we use—and for a whole raft we don't use! Send your Droodles with descriptive titles. Include your name, address, college and class and the name and address of the dealer in your college town from whom you buy cigarettes most often. Address: Lucky Droodle, Box 67A, Mount Vernon, N.
