Athletics transferred to Swinburne's control

By Randy Roguski
Staff Writer

The administration of the athletics program will be shifted next month from the Office of University Relations to the Office of Student Affairs. President Albert Somit told the Board of Trustees Thursday at its meeting in Edwardsville.

Somit announced the change after the board had voted to retain the temporary \$10 athletics fee. The fee, approved in December 1979, would have been revoked July 1 if the board had not voted before then to retain it.

The fee extension means students will pay \$30 for the athletics program each semester for at least one more year. Somit has promised students a chance to advise him through a student referendum next fall on whether the current level of athletics fee should be continued.

Similar involvement of students in athletics decisions prompted the switch in administration of athletics, Somit said. He said the move is justified in part by the fact that student fees make up about 47 percent of athletics funding.

The program is run in a substantial measure to enrich student experiences," Somit said. "I sense on the part of students that they would like to have their opinions heard."

The transfer from University relations to student affairs is tentatively targeted for completion May 1. In announcing

Bruce Swinburne

the reorganization, Somit praised George Mace, vice president for University relations, for his "energetic leadership" in athletics administration.

Men's athletics has been administered by University relations since 1972. The office took over responsibility for the women's program in 1974.

Somit said he will not reduce any of the existing responsibilities of student affairs unless administration of athletics becomes "particularly onerous" for the office.

Bruce Swinburne, vice president for student affairs, said he is "very excited" about the athletics reorganization and

looks forward to "tremendous challenges."

"I think I'm realistic about the challenges," Swinburne said. "We want students behind us. We will get them behind us by getting them involved."

Swinburne said he isn't sure if the added responsibility of athletics will overburden him, but Women's Athletics Director Charlotte West said the possibility is a "valid concern."

"It's a very big challenge," West said. "Once you've been intimately involved with athletics you know that it takes an extensive amount of time."

In discussing retention of the athletics fee, the board refused to include in the proposal a mandate for a student referendum in the fall.

The amendment to the proposal, suggested by Student Trustee Mark Michalic, was defeated unanimously. Board members, most of whom said they oppose the referendum, said the decision to hold it rests with Somit and not with the board.

Trustee Ivan Elliott said, "I think the referendum is a mistake. From the standpoint of the board, to require it would be an even greater mistake."

Michalic had argued that a board mandate would be a "symbolic gesture" which would persuade students that the board listens to their views.

Education fund cuts may lead to further tuition increases

By Mike Anton
Staff Writer

Chancellor Kenneth Shaw said Thursday that a poor economic forecast for the state might force the Legislature to cut back on recommended funding levels for higher education, and that if state funds are cut, he "wouldn't be surprised" if tuition at SIU would need to be increased again.

The Board of Trustees in March increased tuition for the SIU system by 13 percent for next year in an effort to make up for an expected \$5.3 million budget deficit for next year.

Gov. James R. Thompson's recommendation of a \$60 million increase in funding for the state's colleges and universities—slightly more than half of what the Illinois Board of Higher Education had asked for in January—made the tuition increase, along with a number of budget cuts, necessary, Shaw has said.

However, at the board

meeting Thursday, Shaw warned that when the Senate Appropriations Committee meets later this month to begin consideration of budget recommendations for next year, "there will be attempts to chip away at the governor's level."

Shaw said he wasn't sure how much might be trimmed, but added "there's no precise figure that I'm worried about, it's just getting anything less than \$60 million."

"Part of my job is to worry about cuts like this," he said. "And part of my hourage each day is assigned to that."

Shaw said an additional increase in tuition, along with cuts in a proposed salary increase for faculty and staff are the "only two alternatives" to funding cuts by the Legislature. Thompson has recommended an 8 percent salary increase in July with a 2 percent catch-up plan to be implemented in January.

The decision of whether to go with an additional tuition hike or

cut part of the proposed salary increase—SIU's highest budget priority—would "be a difficult one," Shaw said.

"The two alternatives are so difficult that right now I just don't want to deal with it," he said.

Shaw, along with other leaders from the state's public and private colleges and universities, met last Friday in Chicago and agreed to push for the governor's level of funding.

"In view of increasing enrollment demand and impending reduction in federal support," said a statement released this week, "it then becomes critically important that the State General Revenue Funds recommended by Thompson be provided."

However, Thompson has said that because of "uncertainties during the coming months," he can't guarantee final approval of his funding recommendations for higher education as he has done in the past.

CRAMPED FOR SPACE — In the second part of a series dealing with Morris Library's 25th anniversary, the problems of limited space for collections, staff and students are examined—along with financial troubles which have stopped several plans to expand the building. Story and photos begin on Page 5.

Columbia prepared for flight; astronauts relax before launch

CAPE CANAVERAL, Fla. (AP) — On the eve of its maiden voyage, the test shuttle Columbia was poised for flight Thursday on moon-ship pad 39A, an untried ship of the future ready to return Americans to space.

Two astronauts who will stake their lives Friday on its success went to sleep at mid-afternoon Thursday after a final telephone farewell to their families. Relaxed and primed to fly, they took a call from Vice President George Bush and told him they are ready to go and "skies are clear."

At the same time, the countdown went into its climactic hours.

"I think we're go," said launch director George Page.

"I think we're going to make it." Lift-off was set for 43 minutes past dawn, at 6:50 a.m. EST on Friday.

John Young and Robert Crippen, who say they are "100 percent trained" for their 2-day 6½ hour flight, visited their revolutionary spacecraft at first light Thursday, were told it was in good shape, and went off for some final landing practice in airplanes.

However, the space people have put as much thought into planning what to do if things go wrong with Friday's launch as they have if things go right. Page 34 of the space agency's press book is entitled, simply, "If Things Don't Go Right — Contingencies."

The word for ending the flight

in varying degrees of hurry is "abort."

For the astronauts, one rather primitive means of launch pad escape remains: a basket that slides down from near the cabin to the ground into a bunker or a waiting armored personnel carrier.

They also can use standard ejection seats up to 100,000 feet. Mission planners say they would eject in the event of "loss of control or impending catastrophic failure," or loss of any two of the three main engines.

For the first 4½ minutes of flight, Young and Crippen have the options of making a U-turn and returning to the long, 15,000-foot runway at Kennedy Space Center on the Cape. The vehicle would drop its boosters and use its two remaining engines to do the about-face then glide to a landing.

If there is power, but not much, Columbia could make a cross-Atlantic beeline for the U.S. Navy Base at Rota, Spain.

It has been nearly six years since an astronaut with the American flag on his sleeve rocketed away from earth. Forty-three Soviet cosmonauts went up while the U.S. developed the shuttle and sent explorer satellites to Mars, Saturn and further.

News Roundup

Man indicted for Reagan threat

NEW HAVEN, Conn. (AP) — Edward M. Richardson was indicted Thursday by a federal grand jury on two counts of threatening to kill or hurt President Reagan. Richardson, 22, of Drexel Hill, Pa., was arrested Tuesday in Manhattan and is being held in New York in lieu of \$500,000 bond.

Both counts of the indictment against Richardson involve statements he allegedly made in notes left in a New Haven hotel or sent to Yale student Jodie Foster, the teen-age actress.

Illinois may lose education funds

SPRINGFIELD (AP) — Illinois will lose at least \$103 million in federal aid to elementary and high schools and nearly 14,000 school jobs if Congress approves President Reagan's proposed budget cuts, the state's school chief Thursday told the state Board of Education.

"The proposed cuts are going to hurt everywhere and Illinois is really one of the big losers in this process," said state School Superintendent Donald Gill.

Boston to lay off 400 police, firemen

BOSTON (AP) — Friday is doomsday for 400 Boston police and firefighters. Proposition 2½, the state's tax-cutting law, will claim their jobs and close seven police stations and three fire stations in the first of a series of cuts that could end 5,000 city jobs.

The cuts are the latest results of a measure approved by Massachusetts voters last November that limits taxes to 2.5 percent of a property's fair market price.

Regan rejects House tax proposal

WASHINGTON (AP) — The chairman of the House Ways and Means Committee unveiled Thursday a tax package which jettisons President Reagan's multiyear cuts in favor of a onetime slash aimed at greater relief for low-and middle-income Americans.

The administration promptly rejected the proposal. Treasury Secretary Donald Regan said the president looked upon the plan, advanced by Rep. Dan Rostenkowski, D-Ill., as "less than half a loaf."

USO senators leave meeting to block federal fund resolution

By David Murphy
Staff Writer

Angry senators walked out and forced the adjournment of a student senate meeting Wednesday, in a move to block a resolution supporting a letter writing campaign that would have protested federal spending proposals.

The walkout of four senators began more than an hour after the Undergraduate Student Organization Student Senate meeting had started. The walkout was prompted by a resolution to support the Southern Illinois Mobilization Committee, a coalition of local activist groups, in a planned letter writing campaign.

The senators who left objected to the wording of the resolution, according to one senator.

"This resolution is, in a way, propaganda," said Mike Glaub, a West Side senator. "I think it's an attack on Reagan's economic plans, and I don't think the student senate has any business doing that."

Parts of the resolution criticized U.S. military involvement in El Salvador, as well as the "general military buildup" which it said is now taking place.

The resolution also supported plans for a letter writing campaign to protest proposed cuts in aid to students, and a rally to be held April 25 at the

Federal Building in Carbondale.

The resolution was written by Raymond Lenzi, a researcher in the College of Human Resources, who is the faculty advisor for several recognized student organizations.

Just before the resolution was introduced, Glaub, two other senators, and a proxy for an absent senator all walked out. This reduced the number of senators present at the meeting to 17, out of a total senate body of 38. Senate rules require that a quorum of all senators be present at meetings to take action.

Coal gas plant funding cut delayed

By Scott Canon
Staff Writer

The Reagan administration's attempt to remove \$45 million for the proposed Perry County coal gasification plant from the federal budget has suffered a minor setback in the U.S. House of Representatives.

The Interior Subcommittee of the House Appropriations Committee defeated a motion Wednesday to rescind construction funds budgeted for the 1981 project.

In a straight party-line five to three vote, the subcommittee decided to recommend funding for the synthetic fuel plant. However, the subcommittee also approved deferring the funding from the 1981 budget to the 1982 budget.

Steve Hull, press aide to U.S. Rep. Paul Simon, Democrat from the Illinois 24th district, said the full Democratic-controlled House will probably back the subcommittee's decision.

The action will probably

mean construction of the plant will not begin this year, Hull said.

"It's not a loss or a victory for the plant," Hull said. "It does, however, give us a chance to weather this storm of budget cuts."

Simon, a proponent of the Perry plant, was encouraged by the subcommittee's action, Hull said. The Democratic congressman will seek federal funds for the plant from the 1982

Anti-abortion crusade lacks credible facts

By Wayne and Sharon Helmer Carbondale.

SOME OF YOU MAY HAVE visited the National Organization of Women's booth at the Student Center or at the Mall. Much of the literature given out from them talks about the alleged perils of Human Life Amendment (HLA). I think that you may want to hear the other side of the story so that you can make up your own mind with more complete evidence.

We need some medical background to determine if that "fetal tissue" is human life or not because all questions on the pro-abortion or anti-abortion side ultimately depend on how we answer this question. Most pregnancies are not detected until about the sixth week after fertilization. By then, the baby's heart has been beating for three weeks, brain waves can be read and the nervous system has been complete for about two weeks. By the eighth week the baby's skeleton, head, face, arms, legs, fingers (with fingerprints), toes, circulatory and major muscle systems are complete, and all of his or her bodily organs are present in rudimentary states. Pick up any embryology book in the library and read it.

Since most people do not know how an abortion is accomplished, that information will likewise be helpful. Most abortions in the U.S. are performed before the 12th week of gestation using the suction technique. Here a powerful suction device is inserted through the cervix and the body of the developing baby and the

placenta are torn apart and sucked into a jar. Mid-term abortions are accomplished by the baby being poisoned from a concentrated salt solution that is injected into the amniotic fluid. Late-term abortions are performed by a Cesarean section where a live baby is usually delivered but is allowed to die through exposure.

IN TALKING ABOUT A HLA we must remember that there are several versions that are being considered. All of them basically state that life begins at fertilization and that therefore this life should be protected by the Constitution. Some versions have exceptions to rape, incest or possible death of the mother during pregnancy. The Helm's HLA has no exceptions listed so let us look at this first. Pregnancies resulting from rape are extremely rare. A study of 3500 rapes in Minnesota resulted in no pregnancies at all (The Right to Live and the Right to Die. E. Koop). Rape and incest are still very difficult to prove since it usually degenerates to one person's word against another. And also, it does not make much sense to "solve" the women's problems by killing the innocent unborn child for the crime of the baby's father.

Although the Helm's HLA will not get approved without some exceptions tacked on, e.g., possible death of the mother, this exception must be discussed. Helms himself says, "My amendment contains no specific exception clause because no exception clause is required. As the amendment is

presently drafted, the difficult cases can be handled under traditional concepts of due process and equal protection laws. State criminal laws have long recognized the legal principles or self-defense and necessity or choice-of-evil without their specific incorporation into the Constitution." (Human Life Review, Spring 1977). Taking the baby's life in the case of a tubal pregnancy would not be considered abortion because the original intent would be to save the mother's life, and not just to kill the unborn child.

THE HLAs WOULD probably ban the IUD and possibly the pill. The IUD definitely acts as an abortifacient, i.e. it irritates the uterine wall so that the fertilized egg can not attach to it. The pill can do the same thing.

If the fertilized egg is a human life, even though it is so very small, then it should be protected. However, the pro-life groups are not the only groups that do not like these birth control devices. The National Women's Health Network (NWHN), a non-profit health education group representing 200 consumer health organizations, (the NWHN is also pro-abortion), recently sued the A.H. Robbins Co. in order to recall their IUDs because of evidence that linked a number of deaths of American women to their IUD usage according to the Food and Drug Administration. The NWHN also state that "American women are being falsely assured that the pill is safe." The NWHN claim that five major U.S. drug companies distorted birth control pill study results, including death due to cancer.

The National Organization of Women literature state that under a HLA the following people will be guilty of murder: women who have abortions; women who use the IUD or pill; doctors that prescribe the IUD or pill; doctors that perform abortions; friends that help a woman get an abortion, etc.

Unfortunately, they do not back up their opinion with any legal counsel. The best way to determine what would happen under a HLA is to review the rights and liabilities of women under restrictive abortion laws before Roe vs. Wade. Legally, none of the above mentioned problems occurred under restrictive abortion laws, why should they occur under a HLA? (See R.M. Byrn, Human Right Review, Spring 1975).

On one of the covers of a NOW pamphlet opposing a HLA a sign reads, "HLA KILLS." It is very hard to understand the logic of that statement. We have killed over six million unborn children due to abortion on demand in the U.S. since 1973, but that is not mentioned. I think that when people use a little common sense and filter through the NOW information they will find very little that is credible and too much that is emotional.

Is the developing fetus a human life or not? Does abortion kill a human being or not? Do we need a Human Life Amendment to protect the life of the unborn? You decide.

One alternative is not freedom

By Ann Puckett Assistant Professor, Law Library

different from you and me in that it must live in a parasitic relationship with its host, the pregnant woman (I use "parasitic" as a biological, not a moral, term.) But it has the right to live if my father chooses the former, but my right to life evaporates if he chooses the latter.

Why? Because the law will not forcibly invade his bodily integrity even to support my life. The only instance in which American law has departed from this basic principle is in the case of pregnancy. The decision in "Roe vs. Wade" merely recognize in pregnant women the same freedom from bodily invasion that all other citizens have always had.

One may certainly be horrified at the immorality of my father's refusal to donate his bone marrow (or at a woman's decision to abort.) One may make every effort to persuade him (or her) of the immorality of that decision. One may work assiduously to improve moral education so

that the number of such decisions is reduced. One may even support medical research into ever more effective means of dealing with rare blood diseases (or preventing unwanted pregnancy.) The thing one may not morally do is take away the legal right to make those decisions. That way lies totalitarianism, the opposite of freedom.

Mr. Capps also makes the familiar charge that freedom of choice advocates are really pro-abortion. Anyone who is pro-abortion would prefer abortion over birth as a general principle. In my 12 years of involvement with abortion rights, I have never encountered a speech or an article by anyone who took that position. Freedom of choice means exactly what its name implies. We will fight just as hard against mandatory abortion, should the need arise, as we fight now against mandatory pregnancy.—Ann Puckett, Assistant Professor, Law Library.

Letters

D.E. not acting responsibly

In the five years I have lived in the Carbondale area, I have noticed that there is a considerable amount of violent activity directed towards women. In particular, the violent act of rape.

Through the efforts of the Women's Center, Women's Services and many other concerned women and men, there have been programs initiated on the SIU-C campus designed to help protect the "women alone." These programs include the Women's Safety Transit and the campus Brightway Path.

However, the most important deterrent to rape is removing the potential victim. In other words, educating students and Carbondale residents to the fact that rape is a very real occurrence in their community.

What more immediate mode of educating the public can there be than the campus newspaper? I am assuming that

one of the primary functions of the Daily Egyptian is to be of service to its reading public and to provide them with vital news about the environment in which they live in.

In the case of the reporting of a recent rape and sexual assault of a woman (April 1, 1981 issue), the article appeared on page 18 of a 20 page section of the paper. After five years of reading the Daily Egyptian, this appears to be the standard manner of presenting news items dealing with the subject of rape.

Printing an article is not enough in this case, the placement of a news item is of vital importance to informing the community of the real problem of rape. Burying news about a rape in the back of the paper, rather than in the first few pages, is not an act that speaks of responsibility in community service.—Beth Stein, Admissions and Records.

Boycott bar to condemn beatings

On Wednesday night, April 1, yet another SIU student was severely beaten by bouncers outside of T.J. McFly's. These beatings must stop! I hope all SIU students are aware that this isn't an isolated incident, but an all too common sickening violation of the civil and human rights of all T.J. McFly's customers. Just one month ago, T.J. McFly's bouncers broke a customer's leg, outside of the bar. A friend of mine had his head split open by T.J. McFly's employees last semester. Beatings at this bar are becoming routine. A bouncers job is to throw an unruly

customer out of the bar. This isn't a directive to beat the customer once he is outside the bar. I hope everyone will join me by boycotting T.J. McFly's on Saturday, April 11, to show that we condemn, deplore and

disapprove of these bouncer beatings. Hopefully we can show T.J. McFly's management that we care about our personal safety while in their establishment. If we don't, who will be the next victim?—Charles Weller, senior, Industrial Technology.—Note: This letter was also signed by 162 other people.

Let's recognize Bhakti Yoga Club

I would like to make an appeal to the student body concerning a decision impending as to whether or not the Bhakti Yoga Club may become a student organization.

The Bhakti Yoga Club represents the Hindu religion in America. The rumor that such an organization brainwashes its members is no more true for this club than it is for the Maranatha group or the Students for Jesus group. Just because it is not a traditional Western religion does not mean that it should be discriminated against as an educational opportunity at SIU-C.

Currently, a member of the club was removed from the group unwillingly because of false beliefs about the organization. I ask all students who, believe in religious freedom to worship any God or no God at all, to take action and allow this group to become a University approved organization.—Ann Kane, sophomore, Religious Studies Dept.

Space problems 'crowding' Morris

Editor's note: Morris Library is celebrating its 25th anniversary this year, and the Daily Egyptian has prepared a series examining the library and how its expansion and subsequent financial problems reflect hardships faced by libraries across the nation in times of growing economic troubles. This article deals with space problems in Morris Library.

By Liz Griffin
Staff Writer

WHATEVER HAPPENED to the 23-story tower addition that was proposed for Morris Library?

The Illinois Board of Higher Education scuttled the plan because it would have been too costly per square foot, according to Ralph McCoy, dean of the library from 1955 to 1976.

An alternative that would have removed the science collection from Morris Library to another building and would have permitted the expansion of the social sciences, humanities and education divisions within the main building was then proposed.

And this, too, was rejected.

MCROY SAID THAT the tower's multiple washrooms and lengthy elevator and stairwell constructions, for instance, contributed to the high cost of the proposal and to its abandonment. Of the alternate plan, he said, "By the time we reached top priority on building requests, the funds statewide were not plentiful."

Eleven years later space is even tighter. Now the loudest squeak that can be heard at the library is the one for space, as more books and journals are jammed into the 25-year-old building

along with patrons and staff.

The building needs to be doubled in size to meet the needs of the remainder of the century, according to the library's 1977 Special Analytical Report.

Built to hold a million volumes, the library now is a storehouse for about 1.5 million volumes and 1.6 million microforms. The library acquired its millionth volume in November of 1968 with the presentation of Walt Whitman's "Leaves of Grass."

IN 1965 THE student population passed the library's capacity to serve 15,000 when 17,356 students were enrolled. Now, there are 23,219 students.

Students almost need 'tickets' to reserve seats during finals week, a heavy use period for the library.

"You have to get there early," said George Glenn about the library during finals week. "If you don't get there early, you just don't get a seat. You have to sit on the floor, or you spend most of the evening you wanted to spend studying looking for a seat. The fifth and sixth floors really fill up fast."

Glenn is a sophomore in physiology who says he spends about 20 hours per week in the library.

Mike Wynne is a student worker for the library's humanities division on the second floor. Of finals week he says, "It's crowded, but you can always find a seat. It depends on how picky you are."

CROWDING—although a major problem throughout the library—is particularly vexing on the fourth floor, where the education-psychology division is located. Because it is a tower

A sketch of the proposed 23-story tower addition to the library dwarfs the

present Morris Library building, at the far right of the drawing.

floor, and since its collection is tailored for use to two departments which are heavily enrolled with graduate students, space is at a premium.

"We don't have enough seats anymore for reading, and in peak hours we have kids sitting on the floor," said Ruth Bauner, education-psychology librarian.

"Disturbances are another problem. Our space is so small, when the telephone rings, when we talk to a student at the desk, or when the copy machines run, it disturbs other students," she said.

LIKE HUMANITIES Librarian Alan Cohn, Bauner wondered aloud what would happen if all the books were returned to the library at once.

"If we can stick them like this,"

Bauner said, turning a book on its side and placing it atop other books which were upright on a shelf.

On the second floor, Cohn pointed toward seven rows of shelving that had recently overtaken seating space and said, "no doubt more will."

"It's just as bad here as elsewhere," he said. "It's just a constant matter of adding shelves and squeezing out seats."

Special Collections' space is almost completely filled, the library's 1979 building planning and renovation program report noted. Morris Library is the only institution in the Illinois Regional Archives Depository program which does not store these governmental materials within the library, according to the report. See SPACE page 7

As the University's enrollment grew, the study areas at the library became more cramped.

Staff photos
by Susan Poag

In the basement of Morris Library, above, boxes of books are stacked through the aisles of packed shelving, while, right, the price of carelessness and vandalism adds to the rising costs of operation.

Educators begin conference on role of teaching

About 200 members of the Association of Teacher Educators from a nine-state area will meet at SIU-C for a two-day conference beginning Friday.

The conference will be held in the Student Center and participants will hear presentations that cover such topics as the role of university clinical supervisors and teacher education in Europe. More than 50 papers are scheduled for presentation during the conference.

Elmer J. Clark, dean of SIU-C's College of Education; Dan R. Jones, assistant professor in curriculum, instruction and media; Elaine F. Alden, associate professor in the School of Technical Careers and Berniece B. Seiferth, professor in curriculum, instruction and media are the scheduled speakers for the conference.

SPACE from Page 5

INSTEAD, government documents from the 23 southernmost counties in Illinois are stored in one of the blue barracks along Grand Avenue.

The basement of the library holds the Learning Resources Service, which provides media and equipment services and instructional and design consultation.

Ed Slazinik, equipment supervisor, said the equipment section of the LRS doesn't have sufficient shelf space to store equipment during break periods. Nor does it have room to add shelves.

Carroll Garner reported that space is needed to store crippled equipment awaiting repair. Garner is a repair supervisor.

In the photography darkroom, where about 85,000 photographs were developed last year, Ed Turner, manager of the photography laboratory, said only color or only black and white films can be developed at a time. Turner added that about 80 percent of the photography that is developed there is in color.

JERRY HOSTETLER said that at certain hours of the day at the LRS's Self-Instruction Center, there may be lines of 15 to 20 people.

"They may be waiting for a slide projector or a tape player to become available. We probably do have additional equipment to put in there, but we just can't jam more tape players and slide projectors in there," said Hostetler, assistant director of media services.

"USUALLY it's pretty crowded. Sometimes I'll have to wait 15 or 20 minutes to get a projector. You have to be ready to jump because other people are waiting for projectors too," he said.

In the undergraduate library, Judy Harwood said the loss of seating space in recent years has been minimal, although seating space is still below standards. The aim for that floor has been to keep the collection size below 100,000 (it's about 92,000 now) to maintain the immediacy of the collection for the population it serves, according to Harwood.

The air is often heavy in the library, and depending on which floor one is studying on, and the season, it may be either too hot or too cold for comfort.

Heating, cooling and ventilation controls are not fine-tuned, and switching from the heating to the air conditioning system takes about a month or longer, according to Harrel Lerch, superintendent of building maintenance.

Lerch said the entire ventilation system needs to be taken out and a new one installed. Informal estimates made by the physical plant in 1980 set this cost at about \$2,440, according to Lerch.

MORRIS LIBRARY'S conditions are uncomfortable not only for humans, but they are hard on books, journals, and films, too.

"Books and films are sensitive to changes in humidity," said Carolyn Morrow, conservation librarian, "and they'll actually expand and contract. Our problems are fluctuation plus humidity, which increases the brittleness of older books and dries out leather-bound books."

She said the library's temperature should be set at 70

degrees fahrenheit and the humidity should be set at 50 degrees.

The ultraviolet rays from the sun and from fluorescent lights cause fading, just as a newspaper will yellow if it is left out in the sun. The answer would be replacing the existing fluorescent lights with incandescent lights or installing plastic shields for the present lighting system, but Morrow said this is a costly proposition.

About 25,000 books are renovated each year at the

library, according to Morrow. She couldn't estimate the number of books damaged by the conditions of the building, but she said that the conditions were "a significant factor."

Cohn offered a wry interpretation of the state of Morris Library.

"Of course," he said, "you could ironically look at it that since the space is so tight and since the state won't give us the money to buy the materials to keep growing, then we won't need the space."

A financial aid workshop for students in health profession fields will be held from 8:45 a.m. to 12:15 p.m. Saturday in Morris Library Auditorium. Six speakers and a panel of medical students will discuss various ways to offset costs involved with professional school and financial aid resources available.

John F. Nagle, professor of physics at Carnegie-Mellon University, will be the guest speaker at a joint chemistry-physics colloquium scheduled from 10 a.m. to 4 p.m. Friday in Neckers 240. The seminar, cosponsored by the Department of Chemistry and Biochemistry, Department of Physics, School of Medicine and Department of Molecular Science, is entitled "Hydrogen Bonded Chains in Bioenergetics."

A workshop entitled "What's Left to Eat?" will be held from 10 a.m. to noon Friday in Activity Rooms C and D to discuss facts about food. Natural food snacks will be served. The program is cosponsored by the Student Wellness Resource Center, New Horizons and Eta Sigma Gamma.

Douglas Scott, director of the Institute of Natural Resources at Montana State University, will present a lecture entitled "Color Discrimination by American Wapiti—a Representative Member of the Deer Family" at 10 a.m. Friday in Lawson 101. Scott, a former SIU-C faculty member, will discuss his research into the question of whether elk perceive the brightly colored clothing that hunters wear.

A travel-study program in Western U.S. Ecology will be offered in May and will feature a month of travel in New Mexico, Arizona, Utah and Colorado. Sites to be visited by the class include the Grand Canyon, Mesa Verde and Rocky Mountain National Parks. The group will leave SIU the week following final exams. A meeting will be held at 4 p.m. Friday in Life Science II 325 for

students interested in the course.

Donald C. Kimmel, North American director of the United Nations Food and Agriculture Organization, will speak on agricultural-developmental work programs and opportunities sponsored by the United Nations from 3 to 4 p.m. Friday in the Agriculture Building 209.

HILL HOUSE 1981 MEMBERSHIP DRIVE APRIL 13-17

Hill House, an intensive, long-term, therapeutic community for people with behavioral, personal, and drug problems which has operated in Carbondale since 1970 has been cited by the executive director of the dangerous drugs commission as the outstanding facility in the state for the population it serves.

In order for Hill House to provide services, it is important that there be regional and community support. You can aid in efforts to rehabilitate people by joining other persons in the community and area as members of "Friends of Hill House."

During the week of April 13-17 Hill House board members and staff will be making phone calls to solicit memberships. The following types of tax-deductible memberships are available:

Life Member	\$250
Affiliate Member	\$ 50
Associate Member	\$ 20
Subscribing Member	
Individual	\$10
Family	\$15

Other types of community support are needed such as donations of household items, furniture, food commodities, services, etc. For additional information, phone 549-7391 or 529-1151.

Add your name to the list of concerned individuals who make up "Friends of Hill House." Your support would be appreciated.

Science fiction conference features Hugo award winner

By Coleen Murphy
Student Writer

A one-day conference on teaching, reading and writing science fiction is planned for science fiction lovers at 9 a.m. Saturday in Ballroom A of the Student Center. Featured speakers will include highly-acclaimed science fiction author Philip Jose Farmer, and Martin Greenburg, an in-

ternationally-recognized authority on science fiction.

Farmer, author of "The Lovers," "Riders of the Purple Wage" and "The Riverworld Series," has won the Nebula Award from the Science Fiction Writers of America and was presented the Hugo Award as the most promising Science Fiction Writer of 1983.

Greenburg has published several works of science fiction

criticism, and has edited many science fiction anthologies.

Speakers from SIU-C will include Robert Fester, graduate assistant in General Academic Programs, Creath Thorne, visiting assistant professor of English; and Robert Zitter, professor of physics and astronomy.

A reception will follow the workshop at 7 p.m. at the Holiday Inn.

Campus briefs

Harry Allen, associate professor in the rehabilitation institute, will speak at a proseminar from 2 to 3:30 p.m. Friday in Lawson 151, on the rehabilitation counselor's response to a client's death. Allen will present the initial report of a study presently being conducted with counselors working in the Illinois Department of Rehabilitation Services, focusing on the frequency in which counselors experience the death of a client, preparation in dealing with the death and the impact of the client's death upon the counselor.

Miller beer and Southern Illinois Wholesale will sponsor a car wash from 10 a.m. to 4 p.m. Saturday at the Standard service station, corner of Grand and Wall. A car wash will be \$2 and proceeds will go to the High Roller Road Rally, a fund raising event for the Special Olympics.

For the Children Inc., a group collecting funds to aid the investigation of the Atlanta children slayings, will sponsor a program of one-act plays at 7 p.m. Saturday at Thomas School, 1025 N. Wall St. Tickets are \$1.50 for adults and \$1 for children under 18 and can be obtained at the door.

"Introduction to Weight Training," a clinic for women only, will be held from 9:30 to noon Saturday at the Recreation Center. All participants must be eligible Recreation Center users or pay \$1.50 guest fee. There is a limited enrollment of 50 women for the clinic.

The 1981 Central Section Intercollegiate Cycling Championships will be held at 2 p.m. Sunday and will start in front of the Recreation Center. The 40-mile race will be held on a one-mile street loop. Intramural and citizens' races will begin at 1 p.m. Persons interested in entering the intramural race may pick up an entry form at the Recreation Center or Phoenix Cycles. The intramural race consists of five miles.

The Council of University Scholars picnic-elections will be held from 3:30 to 6 p.m. Sunday in the first geodesic dome east of the beach house by Campus Lake. The cost is \$1.

The African Student Association will present a "cultural festival" Friday and Saturday in celebration of African Week. A film and symposium will be held from 7 to 10 p.m. Friday at Morris Library Auditorium. Saturday Locksley Edmondson, of the Division of Social and Community Services, and Cecil Blake, of Howard University, will lecture from 10 a.m. to 2 p.m. at the Lutheran Student Center, 700 S. University. A buffet dinner of African cuisine will be served after the lecture.

Board of Trustees ratifies list, grants 62 faculty promotions

The SIU Board of Trustees ratified the annual promotions list, giving 62 SIU-C faculty members a boost in rank. A total of 45 SIU-C faculty were also awarded tenure by the board on Thursday. The promotions will become effective this summer—some as of July 1 and others as of Aug. 16.

The promotions by rank and department are as follows:

From associate professor to professor: Richard M. Blumenberg, cinema and photography; Yoginder Paul Chugh, mining engineering; James A. Cox, chemistry and biochemistry and Anthony Joseph Cuvo, Rehabilitation Institute.

David F. Duncan, health education; William E. Eaton, educational leadership; Lawrence R. Jauch, administrative sciences and George Kapusta, plant and soil sciences.

Charles B. Klasek, curriculum, instruction and media; Horst R. Conrad, medicine; David F. Koster, chemistry and biochemistry and Iqbal Mathur, finance.

James C. Parker, educational leadership; Ronald R. Schmeck, psychology and Norman G. Soler, medicine.

From assistant professor to associate professor: George John Agich, medicine; John R. Allen, recreation; Marcia Anderson, vocational education studies and Paul E. Andrews, technology.

Dorothy R. Bleyer, commercial graphics; Brooks M. Burr, zoology; Lowell A. Carmony, mathematics and

Barbara Cordon, special education.
William C. Coscarelli, learning resource services;
John C. Crelling, geology;
Elizabeth Dawson-Saunders, medicine and Ronna F. Dillon, guidance and educational psychology.

Stephen J. Dollinger.

psychology; David L. Edgingfield, engineering mechanics and materials; Mark S. Ellinger, zoology and Linda R. Gannon, psychology.

Transit plan to be included on USO ballot

By David Murphy
Staff Writer

A proposal asking students if they would be willing to pay \$10 a semester to fund a mass transit system for the University and Carbondale will be included on the Undergraduate Student Organization elections ballot Wednesday according to USO President Paul Matalonis.

A study of the feasibility of such a system, conducted by Robert Sagendorf, head of the USO's commission of campus development, was submitted to Matalonis this week.

The proposal calls for the creation of a bus system to be controlled by the American Transit Corp., of St. Louis, which now operates transit systems at Northern Illinois University and the University of Tennessee at Knoxville.

Four different routes, to be serviced by six buses two or three times an hour, are proposed in the study. Routes would include all campus residence areas, University Mall, Murdale Shopping Center and several other areas.

The cost for operating the system through the fall and spring semesters, according to the study, would be about \$100,000. This amount would be raised by the new student fee.

"This plan would eliminate parking problems on campus, and it would also provide student jobs for the drivers on the buses," Sagendorf said.

Officials of ATC, who visited the University during the commission's investigation, have said that they would hire about 30 SIU-C students to drive the buses after completion of a training course.

One of the greatest advantages of the proposed system, according to Sagendorf, is its flexibility.

"If there's one line that isn't getting riders, you can easily eliminate it or put a line wherever else you might need it," he said.

Payment of the fee would provide clear and tangible benefits, Sagendorf said.

"You pay the athletics fee for instance, and you don't see anything for it," he said. "Here, though, you would pay the fee, and anytime you wanted to ride a bus somewhere, you just show your student identification."

The contract for the system would be signed for three years, with options to renew by a student referendum, according to the study.

The operation of the system would be carried out by a Mass Transit Commission composed of students, faculty members, administration and city officials, according to the study.

If a majority of students who vote approve the proposal, the proposal will be submitted to President Albert Somit for his approval, according to Sagendorf. If Somit approves it, the plan would go to the board of Trustees for approval.

When you need \$65 fast, you find out who your friends are.

It's the middle of the night and everyone has an excuse. Then, finally, you get the one person who, even though he's not very happy about it, will come through. And you think, "I knew it. Why didn't I just call him in the first place?"

So when the crisis is over, he's going to deserve something a little special. Tonight, let it be Löwenbräu.

Löwenbräu. Here's to good friends.

USO

from Page 3

At that time, Kevin Jans, an East Side senator, called for adjournment. USO Vice President Bob Quane, who presides over senate meetings, adjourned the meeting.

Quane and other senators, however, were highly critical of the move of the senators.

"Jans and his followers made a mockery of the point of this senate," he said. "I could have continued to call for a recount of the roll to keep us in session, but I didn't want to be in the same ethical category with them."

One senate source said that the senators who walked out could face dereliction of duty charges.

USO President Paul Matalonis, who was present at the meeting, was highly critical of the senators who walked out.

"When you abuse the rules like this to exert your beliefs, and ignore the beliefs of others, there's something wrong," he said. "I think it was a very irresponsible action."

In defense of the move, Jans said that he and the other senators did not defeat the resolution, but gave the senate more time to consider it.

"The people who walked out didn't defeat this thing," Jans said. "Unfortunately, we think the senate just didn't have enough time to properly consider it."

COAL

budget.

Simon also is looking for private financiers to back the synthetic fuel project. He will discuss the possibility with Synthetic Fuels Corp. about such prospects, Hull said.

The project already receives about half of its funding from private sources through the Illinois Coal Gasification Group, he said.

Reagan hopes to leave hospital this weekend

WASHINGTON (AP) — President Reagan, having his best day since he was wounded by gunfire, vowed Thursday to "suit up and come off the bench as soon as possible" to defend his economic program against alternatives shaped by House Democrats.

A doctor said the president "looks super" and "moves right along," and most likely will be ready to leave George Washington University Hospital over the weekend. Speculation focused on Sunday as the likely homecoming.

Aides said the chief executive had his "best day yet" in the hospital and is spending about two hours a day at work. A refurbished solarium is ready for his White House convalescence, they said.

Meanwhile, James S. Brady, the White House press secretary who was shot in the head during the assassination attempt, was said to have joked with an aide to Vice President George Bush about going shark fishing this summer.

Brady's deputy, Larry Speakes, said his recovery so far was "really nothing short of miracle." He reported that Dr. Dennis S. O'Leary, a top hospital official, was "extremely optimistic that Brady could return to his profession."

But doctors have said it could be a year before the full effects of Brady's head wound and emergency brain surgery are known.

Synchronized swim club set to compete in national meet

By Randy Schoeck
Student Writer

The Synchers, SIU-C's synchronized swim club, will open their 1981 spring season this weekend with a trip to William and Mary College in Williamsburg, Va., to participate in the National Institute of Creative Aquatics annual meet. The meet, which will bring together 25 swim clubs from across the nation, will place more emphasis on creativity than competition, according to Mary Heitman, club vice president.

"The NICA is a group of people who enjoy synchronized swimming from a creative viewpoint, whereas the AAU puts emphasis on competition and skill level," she said.

Heitman said the Synchers will exhibit two compositions at the meet, which will also feature workshops for skill improvement.

"It will be pretty much a cooperative effort because all the clubs will share ideas," Heitman said.

Makanda to host reenactment of Civil War battle

Makanda's annual Civil War weekend is set for Saturday and Sunday, and will include a civil war battle reenactment, arts and crafts, food and live entertainment. All events are free.

Events will get under way at 8 a.m. Saturday with a flag raising ceremony and a pancake breakfast. A drill, camp and cavalry competition, as well as a shooting contest between the troops with muskets, pistols and cannons, also are planned for Saturday.

Sunday's activities will be highlighted by a battle reenactment between troops representing the Union and Confederacy at 1 p.m. at the intersection of U.S. 51 and Makanda Road, eight miles south of Carbondale.

The Synchers have had to raise most of the funds for the trip themselves. A swimathon in December was the biggest money raiser. They also have held bake sales and candy sales to help raise the \$1,500 necessary for the trip.

Also on the Syncher agenda is a trip to the International Association of Aquatic Arts meeting May 2 in Northbrook.

The trip to Northbrook will be optional for any of the Synchers, Heitman said. However, because May 2 is so close to finals, she said definite plans would not be made for the club as a whole.

The Synchers will hold their annual spring performance, entitled "From Bach to Rock," April 23 and 24 at the Student Recreation Center pool.

"The show will highlight all different types of music," Heitman said.

The Synchers consist of 25 women, 20 of whom are going to Virginia, according to Heitman. School conflicts were to blame for the five girls not going along on the trip, she said.

The club had a male member in the fall, but he graduated in December, Heitman said. And although they had hoped to draw more men into the club, that didn't happen, she added.

Mets' fourth-inning home runs doom Cubs in season opener

CHICAGO (AP) — Lee Mazzilli and Rusty Staub crashed solo fourth-inning home runs and Pat Zachry and two other pitchers combined on a six-hit shutout Thursday to lead the New York Mets to 2-0 victory over the Chicago Cubs in the National League opener for both teams.

It was the seventh straight season-opening triumph for the Mets and came at the expense of right-hander Rick Reuschel.

Reuschel had allowed only a third-inning double to Doug Flynn before Mazzilli homered into the left field basket to open the fourth. After former Cub Dave Kingman, booed loudly, struck out for a second time, Staub drove a deep fly to right. When a fan reached out from the stands and touched the ball,

umpire Bruce Froemming ruled it a home run.

Zachry worked out of constant trouble. Leon Durham walked to open the second but was caught stealing. Ken Reitz followed with a triple as Kingman crashed into the wall, but Reitz was stranded.

Durham singled with one out in the fourth and Reitz followed with a double, but both runners were left aboard as Scot Thompson popped out and Tim Blackwell grounded out.

Steve Henderson walked to open the Chicago sixth but Durham hit into a double play. Reitz then walked and Thompson singled. That brought in reliever Tom Hausman, who picked Reitz off second to end the inning.

Reitz, making his regular season debut with the Cubs since being obtained in a trade with St. Louis, had two doubles besides his triple. *going 3-for-3*

Tracksters go north for invitational

By Cindy Clausen
Staff Writer

The Saluki women's track team returns to Champaign, Ill. this weekend, after competing in a triangular last week, for the annual Illini Invitational consisting of a 12-team field.

Coach Claudia Blackman has entered her team in the meet in the past, but last year chose to attend the Murray State Invitational in Kentucky instead.

"After comparing the meets last year, I could see the competition was better at Illinois so I opted to go to it again," Blackman said.

The meet will be a mixture of large and small, with Big Ten schools such as Purdue, Ohio State, Minnesota and Illinois matched against Bradley, Loyola, and SIU-Edwardsville.

Blackman believes that in addition to the Big Ten powers, Indiana State and Eastern Illinois will be contenders among the top five.

According to Blackman, large meets such as this one make it difficult to determine who will do well.

Teams often knock out top contenders of other teams in some events, allowing scoring to be spread out. Thus, the fact that Illinois beat the Salukis by a margin of nearly 80 points last

weekend does not necessarily mean it will do so again.

Blackman hopes her team can finish in the top half of the field, but is wary of the depth of Indiana and Eastern as well as the strength characteristically displayed by the Big Ten schools.

"I think this weekend, weather permitting, we could find a couple more school records," Blackman said.

The coach especially wants to see her sprinters continue to bring their times down. She

expects the 400-meter relay team to improve on their record-setting performance of last weekend.

"Debra Davis can place in the top six in the 400-meter run. Just how close she is to the top depends on how she handles the pressure. She has the ability to run with all of these girls, though," Blackman said.

Lindy Nelson, running the 5,000-meter run, should be within the top three placers, according to Blackman.

Yankees' power thumps Rangers

NEW YORK (AP)—Bucky Dent ripped a three-run homer and Bobby Murcer slugged a dramatic pinch grand slam homer as the New York Yankees defeated the Texas Rangers 10-3 Thursday before 55,123 fans, the largest opening day crowd in the 58-year history of Yankee Stadium.

Dent's second-inning shot staked winner Tommy John to an early lead and then Murcer responded to a standing ovation from the crowd with his pinch homer in the seventh. It was the sixth grand slam of his career and his fourth as a Yankee.

Texas had nipped John for a run in the top of the second on a two-out infield single by Jim Sundberg, but Dent erased that lead with his homer into the left field seats in the bottom of the second.

A's 5, Twins 1
BLOOMINGTON, Minn. (AP)—Oakland ace Mike Norris stopped Minnesota on six hits as the A's defeated the Twins 5-1 Thursday in the American League opener for the two clubs.

A record opening day crowd

Illini sign forward to letter of intent

CHAMPAIGN (AP)—Florida prep basketball player Jay Daniels is expected to move into the starting lineup at the University of Illinois next season.

SIU-C, meanwhile, did not sign any recruits for the second straight day. Wednesday was the first day players could sign national letters of intent.

The 6-foot-7 forward, who signed a national letter of intent with Illinois, will join Florida neighbor Derek Harper, a guard, on the Illini team. They lived just four blocks apart in the community of Lake Worth.

"Jay has an excellent opportunity to win a forward position next season," said Illinois Coach Lou Henson. "When a young player is sound fundamentally, when he has advanced skills in the areas of passing and dribbling, and he also shoots well, his chances of playing early are greatly enhanced."

Henson, who needs forwards to replace Mark Smith and Eddie Johnson, signed three this week - Daniels, 6-foot-8 George Montgomery of Chicago and 6-foot-8 Anthony Welch of Grand Rapids, Mich.

of 42,658 jammed Metropolitan Stadium to witness the Twins' final season opener at the Met. In 1982, the Twins are scheduled to move into a new domed stadium in downtown Minneapolis.

Norris, who won eight of his final nine games en route to a 22-9 record a year ago, had a no-hitter going until Mickey Hatcher beat out an infield single in the bottom of the fifth.

Expos 6, Pirates 5
PITTSBURGH (AP)—Gary Carter snapped a ninth-inning tie with a run-scoring single off reliever Kent Tekulve to lift the Montreal Expos to a 6-5 victory over the Pittsburgh Pirates Thursday in their National League opener.

After pinch-hitter Jerry White tied the game with an

RBI-single off Grant Jackson in the eighth inning, Andre Dawson led off; the Montreal ninth with a single to right off Tekulve. Dawson followed with

his second stolen base of the game, took third on a groundout by Ellis Valentine and scored when Carter rapped a single up

the middle that eluded Tekulve and second baseman Dale Berra, who both made diving attempts.

Tigers 6, Blue Jays 2
DETROIT (AP)—Richie Hebner belted a three-run homer in the seventh inning Thursday to lead the Detroit Tigers to a 6-2 victory over the Toronto Blue Jays in the season opener for both teams.

Southbound trackmen favored in meet

By Greg Walsh
Staff Writer

It looks like the Salukis have to be the odds on favorite to win Saturday's six team meet at Arkansas State in Jonesboro, Ark.

The Salukis do not have the best overall outdoor record in the field of six. Host Arkansas State does.

But in dual competition, both have beaten the same team, Illinois State, by radically different margins.

The Salukis (3-1) thrashed the Redbirds, 116-50, two weeks ago at McAndrew Stadium, Arkansas State (3-0) won less handily, 88-61, over ISU.

Other teams attending will be Notre Dame, which has not

competed in a scoring meet outdoors this season; Mississippi, which has competed in four relay meets but had no team totals available; Memphis State, whose season record was unavailable (but the Tigers boast Terron Wright, the 1981 NCAA indoor high hurdling champion); and Southwest Missouri State, 0-3 for the outdoor season.

SIU-C Coach Lew Hartzog feels confident his trackmen can win after their 91-63 loss to Indiana last week.

"We think we can win it as a team," Hartzog said. "Our overall balance should be enough to win it."

The 21-year coach said SIU-C will be stronger than at last week's dual meet with the

Hoosiers. Hartzog explained: "We were emotionally down (for Indiana) after running three meets in the wind, and after we burned, literally burned, Illinois State."

David Lee, SIU-C's in-house Olympian and NCAA outdoor 400 intermediate hurdling champion, is also rested after contending with last week's hectic weekend, when he competed in Austin, Texas, Friday, then in Bloomington, Ind., Saturday.

This weekend, "No one of David's caliber will be running" in the intermediates, Hartzog said.

"That doesn't matter anymore," Hartzog said. "David is old enough now that he runs well without having

people chasing him."

Sprinters Javelle Heggs and Tony Adams will also return to action for the Salukis after missing a week for spring football practice.

None of the teams here seem to have as much balance in the field and on the track as SIU-C, Hartzog said.

"Memphis State has a strong running team, but falls short in the field events," he said. Currently, the Tigers have posted better times in the 1,600-meter and 400 relays, according to Hartzog.

He added that all events may be contested by top individual performers on each team. For example, Notre Dame's Chuck Arigon has already run a sub-four minute mile indoors, and

posted a 4:01.2 last week in the Sun Devil Classic at Tempe, Ariz.

Host Arkansas State has the 1990 Track and Field News male high school athlete of the year, Steve Stubblefield, in its ranks. Stubblefield, a pole vaulter, has jumped 17-6 indoors, but injured a hamstring early in the indoor season and will be competing for the first time outdoors.

Mississippi and Southwest Missouri State are both in the rebuilding process. Mississippi's track program was just started two years ago, and Southwest Missouri State is trying to get some kind of program started after going through four track coaches in two years.

MVC baseball starts for SIU against improving Indiana St.

By Dave Kane
Associate Sports Editor

The preliminaries are over. The Missouri Valley Conference season is here for the SIU-C baseball team, and the 15-8 Salukis will take to the road this weekend to open their MVC schedule against Indiana State in Terre Haute, Ind. The Sycamores and Salukis will play doubleheaders both Saturday and Sunday.

Although there are 16 conference games for SIU-C during the regular season, there will be only two opponents—Indiana State and Bradley. The Sycamores, Braves and Salukis make up the Valley's Eastern Division, while national power Wichita State, New Mexico State and Creighton make up the Western Division.

At the outset of their affiliation with the MVC, the Salukis were the class of the conference. The last few years, however, have seen other programs—Wichita State's in particular—catching up with SIU-C's. The Shockers brought the Saluki season to an end last year when they took a 12-1 win over SIU-C in the MVC Tournament.

In the Eastern Division, Bradley and Indiana State have built teams that are very capable of contending with the

Salukis. ISU finished with a 39-18 mark last year compared to SIU-C's 34-16. The Sycamores went 2-2 against Bradley in two doubleheaders played last weekend in Terre Haute and are 23-13. And yet, the Sycamores have only beaten SIU-C once in the past five seasons.

"I'd say in the past two or three years it's been either you (SIU-C) or us," said ISU Coach Bob Warn in regard to the Eastern Division. "But Bradley's improved and will be a factor. I didn't expect them to hit that well. They're the kind of team that could be a spoiler."

"It used to be that SIU would jump all over us, but now it's a real rivalry. It should be an exciting weekend."

Warn, a former Saluki, is hesitant in evaluating his team and its season thus far. Although a majority of last year's starting lineup is back, the experience has been overshadowed by injuries.

"We've been up and down this season," Warn said. "One day we're tough, and the next day the players wonder what a baseball is."

According to Warn, the most critical injury was the shoulder dislocation of potential All-America shortstop Pete Piskol. Piskol was the No. 7 hitter in the nation last season with a .471 average. Catcher Dave

Browning is just coming back from an injury, as is center fielder Marty Martino. Some players are picking up the hitting slack.

"Mark Walberg has really delivered in the clutch," Warn said. "He's hitting .417 and has six home runs. Doug Myers has hit three homers in the past 10 games or so."

Myers has a game-winning, grand-slam home run against Wisconsin to his credit, and his three-run homer helped defeat Bradley.

SIU-C's base-stealing ability should meet its first test this weekend. Sycamore opponents have tried stealing against Browning and reserve SIU-C catcher Brian Dorsett only nine times this season. They've been successful twice.

"We'll still try to run on them and see what happens," said Saluki Coach Itchy Jones. "It's bound to be a good series."

The Salukis have stolen 81 bases in 85 tries thus far, and if that rate continues, they should easily break the SIU-C single-season record of 139 set by the 1971 Salukis. Shortstop Mike Mesh is 19-for-19.

Warn said he'll start left-hander Terry Lychak in one of Saturday's games and righthander Mark Walberg in the other. Lychak is 5-2 and Walberg 4-2.

Staff photo by Rich Saal

Junior pitcher Rob Clark should throw for the Salukis in one of the games of their doubleheader Saturday at Indiana State. Clark pitched two innings against Southeast Missouri State Wednesday and has SIU-C's best record at 5-0.

Softball team splits against SEMO

By Michelle Schwent
Staff Writer

The women's softball team split a doubleheader with Southeast Missouri State Wednesday and the schedule doesn't get any easier this weekend because the Salukis travel to Normal to play in the Illinois State Invitational.

Wednesday, SEMO shut out the Salukis, 5-0, on a one-hitter by senior Linda Ridgely in the first game. SIU-C won a come-from-behind game, 2-1, in the second game.

The Otahkians scored one run in the fourth and four runs in the fifth in the first game. SEMO loaded the bases in the fourth on a single, a sacrifice and two walks. Kathy Rediger reached on a fielder's choice when SIU-C second baseman Karen Tonks elected to throw home with her throw, but the runner on third beat the throw for the first run.

In the fifth inning, Margaret Schelich and Jo Ann Betts hit back-to-back

singles. Herrin native Jayne Creek delivered the key blow when she blasted a triple to score two runs with no outs. SEMO scored four runs in the inning on four hits.

Ridgely struck out five and walked three for the win. Karen Koltnow got the only Saluki hit when she singled up the middle in the fourth inning with two out. Donna Dapson took the loss and gave up five hits, five walks and struck out one. Her record dropped to 1-4.

Coach Kay Brechtelsbauer said the loss was due to facing a tough pitcher which SIU-C had not faced previously. SEMO had beaten SIU-C, 5-2, at the Southwest Missouri Invitational over the weekend.

The second game was more encouraging to Brechtelsbauer because the Salukis came from behind for the win.

"We hit the ball better in the second game," Brechtelsbauer said. "It was a very positive game because

it was the first time we've been behind in a game and battled back to win."

The Otahkians scored their lone run, an unearned run, in the first inning. Monica Buehrle singled while Schelich and Betts both reached on fielder's choices. Buehrle scored when SIU-C's Linda Brown tried to pick her off third but threw the ball away.

The Salukis scored both of their runs in the sixth. Lisa Norman singled to lead off the inning. Pat Stang popped out but Koltnow singled and Debbie Duncan singled scoring Norman. The Salukis scored an unearned run as Brown hit a sharp shot to SEMO shortstop Judy Struckoff, who bobbed the ball and allowed Koltnow to score from third.

Freshman Meredith Stengel took the win for the Salukis and improved her record to 2-0. She gave up six hits, and one walk and struck out one.

Vanderbilt edges men netters

By Rod Furlow
Staff Writer

Tied with Vanderbilt until the final set of Wednesday's indoor match at Carbondale, the men's tennis team lost, 5-4.

The SIU-C doubles team of Steve Smith and Lito Ampon lost the final match of the contest 6-1, 1-6, 6-4, to Charles Batt and Robert Lorndale.

With the score tied, 3-3, Ampon made three consecutive good shots. He rushed the net to flick a soft shot over, ran past the baseline to make an over-the-shoulder lob, and drove a one-bouncer past batt for the point.

The Salukis began the three doubles matches tied, 3-3, after singles play.

"Usually, our doubles are our strong point," Coach Dick LeFevre said. "Any time our team wins three singles, we should win the match."

The 6-10 Salukis have a 22-20 match record in doubles and are 30-52 in singles.

Ampon, Smith, and David Fier won at singles Wednesday for the Salukis, Smith's win being his fifth in a row.

"Now that he's healthy, he's doing a good job," LeFevre said. "Earlier this season he had cases of mono and strep throat, and his feet blistered during our spring trip."

LeFevre admitted he was disappointed in losing to 6-11 Vanderbilt, but he was still in a good mood from news he had received Tuesday—that he had become a grandfather.

His daughter, Linda, of Gainesville, Fla., gave birth to Christopher James Stephens Tuesday morning.

"I found out about it at 5:30 Tuesday morning," LeFevre said. "It really feels good to be a granddad."

LeFevre won't get a chance to break away from his schedule to see the baby for at least three days, as the Salukis play at Murray State Friday, come home to take on Memphis State Saturday, and go to Indiana Saturday.

All matches will be outdoors. Saturday's match will be at 1 p.m. at the University courts.

The Salukis beat Murray State, 6-3, earlier this season in a home indoor meet, winning all three doubles matches.
