The Undergraduate Student Government is sponsoring a voter registration drive in hopes of registering students for the upcoming mayoral and city council elections.

USG will have voter registration tables set up in all three dining halls during dinner hours on Tuesday, Wednesday and Thursday.

Susan Hall, coordinator of the voter registration drive, said the deadline to register to vote in the city elections is Jan. 30, 30 days before the primary election on Feb. 28.

Currently 11 candidates are running in the primary, and only four will make it onto the April 5 ballot. Hall encouraged students to vote in the primary otherwise choices might be limited in the general election.

USG will be doing other activities to register students besides setting up tables in the cafeterias. Hall said.

A phone number database, which is being set up by Drew Hendrickis, a USG member working on the drive, will enable registration workers to call students to remind them to register or to confirm whether they are registered at the correct address. Hall said students who have moved over break will need to fill out a change of address form so be eligible to vote.

Setting up registration tables at meetings of other organizations will also be done, said the. Vice president club will be one of those clubs. Hall said that there are at least 700 departmental office and GRPC offices that could register voters.

She said she believes the number of students voting has gone up, Hall said that the student councils that are being set up by Drew Hendrickis, a USG member working on the drive, will enable registration workers to call students to remind them to register or to confirm whether they are registered at the correct address. BOSNIA PRISONER EXCHANGE F ReES 100 FRIDAY
SARAJEVO, Bosnia-Herzegovina—On his first day of freedom after months inside a Serbian prison, Iftet Hadzic went straight to see him as the former rebel Serbs and the Muslim-dominated government as part of a four-month cease-fire agreement signed Dec. 31. The release of 100 prisoners late Friday represented the only element in the cease-fire fulfilled thus far. There have been repeated violations of the cease-fire and continued disputes over the demilitarized zone.

CHECHNYA FIGHTERS COMMUTING TO BATTLE
VEDENO, Russia—Shirvani Basayev stood up after dinner, donned a flak jacket stuffed with grenades, flares, ammunition and daggers, and climbed into a full-size house parts still missing the top. It was 10 p.m., time to get back to the war. Basayev, a district commander in southeast Chechnya, had to deliver a supply truck to fighters defending the separatist republic's capital, Grozny, against Russian troops. The 36-mile journey winds down icy roads from his farm home 8 kilometers up in the Caucasus Mountains for six weeks now. Chechens in pickup trucks and beat-up sedans have waged a "communist war.

WIND, RAIN RAKE EARTHQUAKE-STRICKEN KOREA
KOBÉ, Japan—Winds and rains began pelting weary residents of this quake-stricken city Sunday, triggering fears of landslides that abruptly sent hundreds of new evacuees fleeing to relief centers already overwhelmed by 300,000 refugees. The grim weather, landslides and warnings of possible new torrential rain sent relief workers scurrying to protect food supplies and battered homes of the 1,000 victims who had endured Japan's worst earthquake disaster in 70 years.

Nation
MAN COULD GET 25 YEARS FOR STEALING PIZZA
LOS ANGELES—Jerry Dewayne Williams— a small-time street criminal described by his girlfriend as a man with a taste for "stupid, stupid crime"—was found guilty Friday of stealing a single slice of pepperoni pizza and now faces 25 years to life in prison under California's sweeping "three strikes" law. Word of the Superior Court verdict sent in to Tia Johnson for a chant the same day he was held a prison news conference on his allegations the day he was delivered to the war. Basayev to the war. Basayev, a district commander in southeast Chechnya, had to deliver a supply truck to fighters defending the separatist republic's capital, Grozny, against Russian troops. The 36-mile journey winds down icy roads from his farm home 8 kilometers up in the Caucasus Mountains for six weeks now. Chechens in pickup trucks and beat-up sedans have waged a "communist war.

QUAYLE ACCUSER TO GET SUPREME COURT EAR
WASHINGTON—At a particularly delicate moment for former Vice President Dan Quayle, the U.S. Supreme Court Friday agreed to hear the appeal of a man who claims to have sold him marijuana. The court ruled it would hear the appeal by another former inmate Brett Kimberlin that his "First Amendment and civil rights were violated when prison officials put in solitary confinement on the eve of the 1986 presidential election. Kimberlin, then serving a 51-year sentence on drug dealing and explosives charges, was to have held a prison news conference on his allegations the day he was put in solitary confinement five days before Quayle was elected vice president. The court will hear oral arguments in April and probably announce a decision by the end of June, drawing negative attention to Quayle while he is in the midst of a crucial fund-raising effort for his campaign for the 1996 Republican presidential nomination.

ROSTY WANTS CORRUPTION TRIAL IN CHICAGO
WASHINGTON—Former representative Dan Rostenkowski, D-IIl., wants his trial on corruption charges moved to his native Chicago because he and many of the witnesses in the case no longer live in Washington. Rostenkowski's lawyers asked U.S. District Judge Norma Holloway Wednesday to have held a prison news conference on his allegations the day he was put in solitary confinement five days before Quayle was elected vice president. The court will hear oral arguments in April and probably announce a decision by the end of June, drawing negative attention to Quayle while he is in the midst of a crucial fund-raising effort for his campaign for the 1996 Republican presidential nomination.

**Audit assistance**

Law, accounting students in tax clinic to offer clients guidance

By David R. Kazak

Daily Egyptian Reporter

The daily sort through the junk mail comes to an abrupt halt. There it is, as an envelope with the dreaded words in the upper left-hand corner - Internal Revenue Service. It is an audit notice. The pulse quickens. Maybe that new stereo system shouldn't have been claimed as an entertainment expense. Where did those receipts go? Is jail in the future? Bankruptcy?

SIUC's School of Accountancy, in conjunction with the School of Law, now can help those who have received an audit notice. In late November of last year, the school received tax clinic status by the IRS, and this tax season, the program will be put to the test.

Randy Hale, faculty advisor for the tax clinic group, said when someone receives an audit notice in the mail, they also will receive a letter informing the recipient of the tax clinic. The program will volunteer students from the School of Law and the School of Accountancy to help clients prepare for an audit by going over problem areas in income tax returns. Hahn said.

Some students also will be able to represent the clients at meetings with the IRS, he said.

Ahmed said many legal issues will arise concerning domestic violence. The study will be overseen by Nafiza Ahmed, research specialist for SIUC's Internal Revenue Service.

Hale said the study will have no effect on the students involved in the program. He said he did not know how much work they will have to do, but they are prepared.

**Future brides gather ideas at wedding 'Extravaganza'**

By Kellie Huttes

Daily Egyptian Reporter

Every woman has a different picture of her perfect wedding, and for three brides-to-be attending Sunday's Bridal Extravaganza at SIUC's Student Center ballrooms plans made and ideas were shared.

Stephanie Tallman envisioned her dream wedding as a child. A beautiful white gown and a large church with stained-glass windows were images in her mind before her fiance proposed last Valentine's Day. Now a wedding date is set for July and the plans are almost complete.

Tallman, a 1994 SIUC graduate, and her mother Valerie were joined by 506 attending the event.

"You need to allow at least a year to plan for a wedding day," Tallman said. "There are so many things that can happen and change from the engagement in the (wedding) day.

Tallman said her mother has been involved with the planning of her wedding and has provided her with much advice.

"We keep selling each other that it is our day," she said.

"It's a wonderful time for us to get together, lunch and go shopping," Tallman said.

**International students focus of violence study**

By Michael D. DeFord

Daily Egyptian Reporter

A study will be conducted among members of the international community in February in an effort to generate awareness of domestic violence.

Heading the study will be Nafiza Ahmed, research specialist for SIUC's Internal Revenue Service.

Ahmed said the study is the first of its kind to be conducted at SIUC. She said it will be used to determine the needs and concerns of both male and female students of the international community.

"The issue of domestic violence is not just a women's issue," Ahmed said. "It is a human rights issue, a health issue and a crime-and-safety issue. It is an issue that needs to be addressed by both men and women.

"Addressing the issue of domestic violence is in my opinion, not about breaking up families, but about making them whole," she said. "Domestic violence has no witnesses - even though marriages sometimes can be unfaithful bonds.

First Firestein of Women's Services at SIUC said there is a definite need for the study and believes it will increase the awareness of domestic violence in Carbondale.

"I am pleased to see the study being conducted and I feel comfortable there is a need to assess the level of family violence here," Firestein said.

"I think the survey itself will have an impact of increasing the information of domestic violence among international students," she said.

According to James Quisenberry, director of International Programs and Services, the information on domestic violence among international students is very limited.

"Our perspective here at IPS is that there is a big blank screen that doesn't have any information at this point, and we are very concerned with the lives of our international students," Quisenberry said.

"I feel very strongly about this because people will be made more aware of what domestic violence is and what their options are," Shirmistha Ghose, a graduate student assistant, said.

Goals include increasing awareness, information and service geared to aid international students who are victims of domestic violence.

"Depending on the response to the survey, relevant units on campus and in local communities may collaborate to create programs which will address or alleviate this problem," she said.

"We would urge all SIUC students - male and female, international and U.S. - to think about and respond to these observations. I am very open to discussions with all interested persons," she said.

The grant supporting the study has been furnished through the 1994-95 Women's Studies Competition here at SIUC.
IBHE realizes need, improves assistance

IN A TIME WHEN STUDENTS ARE FINDING IT increasingly harder to pay for their college educations, the Illinois Board of Higher Education should be commended for recognizing and acting upon this problem.

The board, which monitors spending at Illinois colleges and universities and also recommends budgets for the individual institutions, which are subject to separate approval by the state Legislature, is recommending an $11.1 million increase in funding for need-based scholarships.

STUDIES CONDUCTED BY THE BOARD DURING the past several years have shown a shift of the cost burden for funding a college education from the shoulders of the state government to the shoulders of students and their families. Steady increases in tuition, such as SIUC's 3.5-percent undergraduate student hike for fall 1995 after a 3-percent increase in 1994, are testimony to this trend.

By recommending an increase in funding for need-based scholarships, the board has acted upon the information it has gathered. Now an additional 3,000 scholarships will be available to students at SIUC alone, with the maximum award increasing from $3,800 to $3,900.

THE BOARD HAS TAKEN A POSITIVE STEP TO open the doors of higher education to many who would otherwise be unable to fund such a service. The new scholarship opportunities are still subject to approval by the Illinois General Assembly, however, and we can only hope that the politicians in Springfield welcome this proposal with open arms.

Chung controversy lacks real relevance

IT IS UNFORTUNATE THAT ONE WORD CAN consume so much national attention for so long.

In a recent interview, Connie Chung coaxed House Speaker Newt Gingrich's mother into repeating her son's unflattering private description of Hillary Clinton on national television. The resulting controversy overshadowed the rest of the interview and turned a potentially enlightening personality profile into yet another mindless sideshow in America's three-branch media circus.

Since the beginning of the semester, the Daily Egyptian, student government leaders, and many other students have been criticizing student trustee Mark Kochan for what they call quitting on students. I disagree with both the Daily Egyptian and student government leaders for a number of reasons. Kochan is not a quitter. On the contrary, Mark Kochan is a hard worker and a faithful servant for the students of SIUC.

First, Mark Kochan has made many difficult decisions during his two-year term as student trustee. These decisions, including decisions on tuition increases, POP and others, were not decided for the benefit of Mark Kochan, but for the benefit of the over 30,000 students who attend SIUC. Mark Kochan gets nothing out of his decisions, so why would he make decisions not benefiting the general population of SIUC?

Second, Mark Kochan had to take an internship in order to fulfill a requirement in his master's degree program. While some may argue that Kochan knew he would be gone during the spring semester, they cannot prove what Kochan's plans were. Kochan is doing what is required of him to obtain a master's degree in public administration from SIUC. While the Daily Egyptian and student leaders criticize Kochan for not having his priorities straight, I believe he does have his priorities in correct order. Some of our esteemed student leaders may believe that education comes second to extra-curricular activities. If student leaders truly believe that, then they should not be student leaders. Students are students in order to earn an education. Mark Kochan, like us, is a student and is earning an education by taking this internship.

Third, more than any other student leader by far, I believe Mark Kochan can both serve his internship and open the doors of higher education to many who would otherwise be unable to fund such a service. The new scholarship opportunities are still subject to approval by the Illinois General Assembly, however, and we can only hope that the politicians in Springfield welcome this proposal with open arms.

Kochan can serve effectively

Since the beginning of the semester, the Daily Egyptian, student government leaders, and many other students have been criticizing student trustee Mark Kochan for what they call quitting on students. I disagree with both the Daily Egyptian and student government leaders for a number of reasons. Kochan is not a quitter. On the contrary, Mark Kochan is a hard worker and a faithful servant for the students of SIUC.

First, Mark Kochan has made many difficult decisions during his two-year term as student trustee. These decisions, including decisions on tuition increases, POP and others, were not decided for the benefit of Mark Kochan, but for the benefit of the over 30,000 students who attend SIUC. Third, more than any other student

The director of the Office of National Drug Control Policy was quoted as saying that this new marijuana was so powerful that it caused problems in terms of judgment, learning, and driving. I was reminded of some of the warnings from recent decades about what was then being called "killer dope." There was one question not addressed, however, which was raised by the seriousness of this matter — namely, where? Where is this dangerous super-potent marijuana? Those of us who would like to avoid this increasing new threat to public safety and personal well-being will have an interest in knowing, as precisely as possible, where this stuff is.

Armed with such knowledge, it will be much easier to avoid the dangers it poses. The DE and the LA Times are to be commended for bringing this matter to our attention, but how about filling us in a little further?

Brian Aker
Graduate student, department of plant biology

Article on new marijuana strains overlooks significant information

An article on the front page of Friday's DE issue caught my attention, and I thought I would write to lend my voice to the concerns expressed.

"I am referring to the feature, "Young-adult drug use increasing," in which the SIUC students are described as "new strains of marijuana up to 10 times more potent than previous varieties" that are "sweeping the country."

If this were not alarming enough, it was further noted that this marijuana had "potential ... to seriously impair judgment.

The director of the Office of National Drug Control Policy was quoted as saying that this new marijuana was so powerful that it caused problems in terms of judgment, learning, and driving. I was reminded of some of the warnings from recent decades about what was then being called "killer dope."

There was one question not addressed, however, which was raised by the seriousness of this matter — namely, where? Where is this dangerous super-potent marijuana? How to submit a letter to the editor:
Imaginative invention allows youths to experience aviation

By William C. Phillips III
Daily Egyptian Reporter

A local aviation association is helping youths soar to new heights by turning ordinary school desks into educational pilot seats.

Charles Rodriguez, faculty advisor of the association, said he is trying to both motivate and make youths aware of aviation.

"One of their main goals is to promote aviation education," he said.  

Joan Foster, president of Rotor and Wing association, said he enjoys working with children.

Rodriguez said the desks are primarily used to motivate students to performance aeronautics in the classroom.  

"If youngsters develop good homework habits it might last them a lifetime."  

Teresa Rodriguez, a third grade teacher at McElvain School, said the donated desk has had a significant effect on the students.  

"The atmosphere in the classroom has changed; students are turning in their homework on time," she said.  

Rodriguez said every Friday a student's name is pulled from a container. The student picked to sit at the desk has their picture taken. Only those students who have turned in homework on time or who have avoided disciplinary problems in the classroom are allowed to sit at the desk.

The Rotor and Wing Association does more than just build aerodynamic desks to make students aware of aviation.

"A whole buffet of gadgets and gimmicks are used to attract and educate students about aviation," he said.  

"We want to do our part and participate in the community."  

Bost continued from page 1

Committees on Transportation, Agriculture and Conservation, Higher Education, and Appropriation-Education.  

"You've a tough job, sir," Bost said of his committee appointments.  

"I am very committed I asked for," of the appointment to the Committee on Agriculture and Conservation, Bost said he has been involved in agriculture through his family's trucking business which hauls grain and cattle.

"Farming is still a major industry here," he said.  

He also agrees with Gov. Edgar's proposal to combine much of the state's bureaucracy, by doing away with some departments or combining them with others in a similar areas. However, he will continue to fight for Southern Illinois interests during the consolidation of state departments.

Bost said he believes the state government will continue downsizing.

"I would hope to focus on good, efficient government and get rid of the fat and excess," he said. "I am a strong believer in the Jeffersonian theory: Less government is better government; local government is better government."  

Bost said his agenda will focus on education, economic development, building the line on taxes and crime control.

"He said he believes the fast track legislation on workers compensation reform will help the area's economy.

"We need to make sure we bring our insurance rates down but not cut the benefits to the employees," Bost said of the legislation.  

"We want to get rid of the hoop holes which allow for frivolous suit suits."  

Bost said although the state wants to cut on insurance, the state has simply created a shifting of tax dollars and gambling boats create a transfer of money.  

"Neither generate new revenue for the state," he said.  

Bost said the state will not see creation of a new product-producing industry.  

"I have to create manufacturing jobs to increase the wealth," he said.  

Research for a toll highway in the area is underway and Bost is reviewing the feasibility study and data that has been compiled.

Bost said he will push for the SWIFT (Southwest Illinois Freeway Team) legislation, which proposes a four-lane toll way connecting Southern Illinois and metro St. Louis and will add to economic development.

"I believe this tollway is an essential part of the process we need to move Southern Illinois towards the economic growth we are all striving for," Bost said.  

"I will work with the parties involved to make sure we can achieve our goal in the most timely and effective manner."  

Bost said he plans to spend as much time as possible in the Southern Illinois area. He resides in Murphysboro with wife Tracy, sons Steven, 14, and daughters Casey, 13, and Kailin, 6.

Bost said that the high negative campaigning of last fall's election was harder on his family than him.

As for the future of Bost's political career, he said he is not sure.  

"I just want to do a good job right here and see what happens," he said.

Calendar

Today

STUDENT ALUMNI COUNCIL  
will meet at 6 p.m. in the Ohio room of the student center. For more info. call Robison at 549-1679.

ALPHA KAPPA ALPHA sorority will have its final meeting at 7 p.m. in hallway A of the student center. For more info. call 536-1001.

Tomorrow

OUTDOOR ADVENTURE program will hold a free rock climbing clinic from 6-8 p.m. For more info. call 536-2541.

STUDENT ORIENTATION committee will hold its first meeting at 7:30 p.m. in the Kaskaskia/Missouri room of the student center. For more info. call Christine at 549-5714.

SIU RIDING CLUB will hold a meeting at 6 p.m. in room 153 of the Agriculture building. For more info. call Shelly at 549-3408.

SIU CHESS CLUB will be playing chess in room 117 of the student center from 6:30-11:30 p.m. For more info. call Frank at 457-0666.

PRE-MEDICAL PROFESSIONS association will hold its semi-annual medical school admissions at 7 p.m. in the student center auditorium. For more info. call Grenze at 549-4007.

AMERICAN ADVERTISING federation will have a meeting for new members at 7 p.m. in hallway A of the student center. For more info. call Kim at 549-2343.

CAKELAND POLICY - The deadline for Calendar items is three to four publication days before the event. Items should be typed, double-spaced, include time, date, place, admission cost and sponsor of the event and the name and telephone of the person to contact. Items are available in the Daily Egyptian office for drop off or mailed to the Daily Egyptian office, 1204 University room 1247. No calendar information will be taken over the telephone.

HOW TO PLAY COMEDY CENTRAL'S
State of The Union: Undressed
DRINKING* GAME

TO PLAY, CUT OUT THIS AD and assemble in a bar, dorm room or anywhere else you can get COMEDY CENTRAL. Then watch State of The Union: Undressed, DENNIS MILLER'S live sarcastic play-by-play of the President's big speech, and follow the rules below.

* Note: When playing, please drink the beverage of your choice. COMEDY CENTRAL prefers 2% low-fat milk. If you choose alcohol, drink responsibly and please don’t drive.

When Bill makes his favorite thumb gesture:
You make it, too; then raise a glass and say (with false sincerity): I share your pain.

When Hillary appears on screen:
Stand at attention and salute the commander-in-chief; drink.

When Newt appears on screen:
Say Newwwwwt! drink conservatively from the right side of your mouth.

When Tax Cut is said:
Cheer, then take 2 drinks (1 for you; 1 for the IRS).

If Bill resigns during the speech:
Go straight home and pray Al Gore stays healthy because Newt will be a heartbeat away from the Presidency.

Still Thirsty?
When Bill says Bipartisan: Women and men alternate buying each other drinks.
When Bill says Crime Bill: Attempt to pick pocket of person sitting to your left; if successful, buy a round with his/her money; return wallet.
When Ted Kennedy appears: Take a drink (preferably Chivas); drop your pants.
When Bob Packwood appears: Grab a** of person at your left; offer him/her a drink.

State of The Union: Undressed
Live Tuesday, January 24, 9 p.m. EST, 6 p.m. PST
the fund-raising as a joint project, with more than just one organization doing the work.

"Anyone can be a part of it," Russum said. "The whole idea is that everyone is working as a whole."

Chirag Shah, co-chair of the fund-relief task force, said the project is important in localizing world problems.

"The theme is 'One World, One Campus,'" Shah said. "We are using this theme so students can unite and overlook race and language differences."

Through the fund-raiser, has had a good start, it still lacks a few things which are needed, Shah said.

"We lack manpower," Shah said. "We want to try and get as much of the student body together to integrate as people and help."

Many University groups and some local businesses have offered their help to the task force, but Shah said more would be appreciated.

The task force has benefited from the help of Student Programming, International Programs and Services, the Recreation Center and McDonald's, just to name a few.

STUC Athletic Director Jim Hart and the athletic department have also offered to help, Shah said.

"Jim Hart has given us permission to collect donations at the women's basketball games, and said the proceeds from the Hoop-athon at halftime during the STUC-Taba game would go towards the relief," Shah said.

Shah also said others have offered to let the task force hold fund-raisers at their places.

Yumiko Yoshimura, vice president of the Japanese Student Association, said they have already taken steps to find where the money is needed.

"Masaki Wada, the president of the Japanese Student Association, went to the Japanese Embassy in Chicago to see where the money is needed in Japan," Yoshimura said.

Yoshimura said the really appreciates the help they have received and will appreciate more help.

"I was really happy when they came to me and got me involved," Yoshimura said. "I really appreciate the people who have gotten involved already and to those who plan to.

The task force will be holding a meeting Wednesday at 7 p.m. in the Cambria Room of the Student Center. Shah said everyone is welcome to attend and to help out with the relief fund.
Hey kids, here it is! This is your chance to give your vote for the best and worst of rock 'n' roll over the past year of 1994. You think Green Day is a joke, let us hear about it. You think Kiss should make a comeback, let us hear about it. You think K.D. Lang is the sexiest individual, let us hear about it. Whatever you think about 1994, let us hear about it!

It's very simple. Grab a pen or pencil fill in the blanks with the answers. PLEASE PRINT. Turn in the Daily Egyptian Rock & Roll Poll at any of the following locations: Lentz Hall, Trueblood Hall, Grinnell Hall or the Information Station in the Student Center by the elevator. If those locations are inconvenient, you can drop it off or mail it to the Daily Egyptian at Communications Building SIUC. There will be a ballot box provided, please place ballot in box. Deadline for the Rock & Roll Poll is Friday, Jan. 23, 1995. Results will be published in the Entertainment section of the Daily Egyptian on Thursday, Feb. 2, 1995.

Scientists: 'Quake due here

By Aaron Butler
Daily Egyptian Reporter

The recent devastation in Japan caused by last week's earthquake may serve as a reminder that the Mississippi Valley has its own history of seismic activity. However, university officials said SIUC is well prepared for a disaster like the one in Japan.

In the winter of 1812, scientists believe as many as four earthquakes, averaging a magnitude of 8.0 (compared to the Japanese earthquake of 7.2), shook the Mississippi Valley, sending vibrations as far northeast as Boston. The ground-originated fault, the New Madrid fault, part of which runs near Carbondale.

Harvey Henson, research staff scientist in geophysics at SIUC, said the geophysics department has been intensively studying the New Madrid fault for 20 years, and most scientists believe an earthquake in the 6.5 magnitude is due to strike the region sometime within the next few years.

"These quakes seem to happen every 90-100 years, and our last quake was in 1890," he said.

Henson said a fault line looks different from what people often imagine.

"When people hear the word fault, they picture a single line," he said. "Actually it is a series or web of faults, with new ones being discovered all the time.

"When we speak of a fault like the New Madrid fault or the San Andreas fault (in California), we are really talking about areas with many faults," he said.

Henson said because SIUC has been studying the New Madrid fault for 20 years, it will do very well in an emergency situation. "We have tested their ability to pass information to their people," he said.

Ritzel said being able to deal with an emergency situation without outside help is critical in cases of widespread disaster such as earthquakes, and the committee has been working to improve its self-sufficiency.

Henson said because SIUC has been studying the New Madrid fault for the last 20 years, it will have a lot to learn, and the only way to deal with the possibility of earthquakes is to be prepared.

Ritzel said one of the most important things the university has taken to prepare for emergency situations is to have a computer database, which would enable staff to coordinate the different units and resources they have to offer.

"We now have a record of what each SIU faculty member has in the way of resources such as four-wheel-drive trucks, chain saws, emergency water or cellular phones—anything that might be useful in an emergency," he said.

Those coordinating an emergency operation would then have access to all those resources.

"Even though there is much more involved in a real disaster than in any simulation, I think we will do very well in an emergency," he said.

Coverage continued from page 1

provide continuous coverage of the trial, complete with commentary from legal experts and gossip columnists.

Along with a serious approach, most networks have opted to keep viewers informed with hourly updates of the trial without preempting regular programming. The strategy to back away from extensive live coverage is a departure from previous options that were tried in the past.

Among the possibilities pondered were a "loop" in which a brief report on the trial would be inserted into a rotation among ABC, CBS and NBC.

The continuous broadcast of the trial's week-long preliminary hearing resulted in lost ad revenue of $1 million per network, as well as prompting an uproar from soap opera fans who were upset that story lines were interrupted.

INDIVIDUALIZED LEARNING PROGRAM
Division of Continuing Education

INDIVIDUALIZED LEARNING PROGRAM COURSES
CARRY OUT RESIDENTIAL CREDIT APPLIED TOWARD DEGREE

ILP courses have no enrollment limits, and students can register throughout the semester. Students may use a study guide developed by an SIUC instructor as the course framework and study at a time and place of their choosing. To register in an ILP course, on-campus students need to bring a registration form signed by their advisor to our office at Washington Station. Off-campus students should contact the ILP office directly. We must receive payment of $65 per credit hour when you register.

### SIUC Program to Prevent the Use of Illicit Drugs and the Abuse of Alcohol by Students and Employees

#### Standards of Conduct

- Faculty, staff, and students must adhere to a code of conduct that recognizes the unlawful manufacture, sale, delivery, unauthorized possession, use, or use of any drug is prohibited on property owned or controlled by the SIU Board of Trustees or as part of any University activity.
- The use, including the sale, delivery, possession, and consumption of alcoholic beverages on or in property owned or controlled by the University or as part of any University activity in streets previously occupied except as otherwise provided in the 'Regulations Governing Alcoholic Beverages at SIU'.
- The University's goal is to provide an environment in which the use of alcoholic beverages on University premises shall be conducted in a manner that will be safe for all members and will avoid harmful effects on the individual or those around them.
- The University reserves the right to institute concurrent discipline, considering where appropriate, the termination of the individual's association with the University.

#### Health Risks of Alcohol and Other Drugs

Alcohol is the most abused drug in society as well as on college campuses. Alcohol, which is used by 80% of SIUC students and approximately 70% of employees, is directly involved in many injuries, assaults, and deaths. Here are some health risks associated with alcohol:

Drug

I. Classification

A. Schedule I

1. First offense: 5-10 years imprisonment, plus $250,000 fine, plus 5 years supervised release.
2. Second offense: 10-20 years imprisonment, plus $500,000 fine, plus 10 years supervised release.
3. Third and subsequent offenses: life imprisonment, plus up to $1,000,000 fine, plus 20 years supervised release.

B. Schedule II

1. First offense: up to 20 years imprisonment, plus $250,000 fine, plus 5 years supervised release.
2. Second offense: 20-40 years imprisonment, plus $500,000 fine, plus 10 years supervised release.
3. Third and subsequent offenses: life imprisonment, plus up to $1,000,000 fine, plus 20 years supervised release.

C. Schedule III

1. First offense: 1-5 years imprisonment, plus $10,000 fine, plus supervised release.
2. Second offense: up to 10 years imprisonment, plus $25,000 fine, plus supervised release.
3. Third and subsequent offenses: life imprisonment, plus up to $500,000 fine, plus supervised release.

D. Schedule IV

1. First offense: up to 1 year imprisonment, plus $100 fine, plus probation.
2. Second offense: up to 2 years imprisonment, plus $500 fine, plus supervised release.
3. Third and subsequent offenses: up to 10 years imprisonment, plus $5,000 fine, plus supervised release.

E. Schedule V

1. First offense: up to 1 year imprisonment, plus $100 fine, plus supervised release.
2. Second offense: up to 2 years imprisonment, plus $500 fine, plus supervised release.
3. Third and subsequent offenses: up to 5 years imprisonment, plus $2,500 fine, plus supervised release.

II. Penalties

A. Schedule I

1. First offense: up to 20 years imprisonment, plus $1,000,000 fine, plus 10 years supervised release.
2. Second offense: up to 40 years imprisonment, plus $2,000,000 fine, plus 20 years supervised release.
3. Third and subsequent offenses: life imprisonment, plus up to $5,000,000 fine, plus 30 years supervised release.

B. Schedule II

1. First offense: up to 20 years imprisonment, plus $100,000 fine, plus 5 years supervised release.
2. Second offense: up to 40 years imprisonment, plus $200,000 fine, plus 10 years supervised release.
3. Third and subsequent offenses: life imprisonment, plus up to $500,000 fine, plus 20 years supervised release.

C. Schedule III

1. First offense: up to 10 years imprisonment, plus $25,000 fine, plus supervised release.
2. Second offense: up to 20 years imprisonment, plus $50,000 fine, plus supervised release.
3. Third and subsequent offenses: life imprisonment, plus up to $100,000 fine, plus supervised release.

D. Schedule IV

1. First offense: up to 1 year imprisonment, plus $100 fine, plus supervised release.
2. Second offense: up to 2 years imprisonment, plus $500 fine, plus supervised release.
3. Third and subsequent offenses: up to 5 years imprisonment, plus $2,500 fine, plus supervised release.

E. Schedule V

1. First offense: up to 1 year imprisonment, plus $100 fine, plus supervised release.
2. Second offense: up to 2 years imprisonment, plus $500 fine, plus supervised release.
3. Third and subsequent offenses: up to 5 years imprisonment, plus $2,500 fine, plus supervised release.

III. Distribution

A. First offense: up to 20 years imprisonment, plus $100,000 fine, plus 5 years supervised release.
B. Second offense: up to 40 years imprisonment, plus $200,000 fine, plus 10 years supervised release.
C. Third and subsequent offenses: life imprisonment, plus up to $500,000 fine, plus 20 years supervised release.

IV. Unlawful Distribution/Manufacture of Illicit Drugs

A. Distribution

1. First offense: up to 20 years imprisonment, plus $250,000 fine, plus 5 years supervised release.
2. Second offense: up to 40 years imprisonment, plus $500,000 fine, plus 10 years supervised release.
3. Third and subsequent offenses: life imprisonment, plus up to $1,000,000 fine, plus 20 years supervised release.

B. Manufacture

1. First offense: up to 20 years imprisonment, plus $250,000 fine, plus 5 years supervised release.
2. Second offense: up to 40 years imprisonment, plus $500,000 fine, plus 10 years supervised release.
3. Third and subsequent offenses: life imprisonment, plus up to $1,000,000 fine, plus 20 years supervised release.

V. Federal Miscellaneous Laws

A. Sale, Gift, or Delivery to Persons Under the Age of 21

1. First offense: up to 5 years imprisonment, plus $25,000 fine, plus supervised release.
2. Second offense: up to 10 years imprisonment, plus $50,000 fine, plus supervised release.
3. Third and subsequent offenses: up to 20 years imprisonment, plus $100,000 fine, plus supervised release.

B. Distribution to Persons Under the Age of 18

1. First offense: up to 5 years imprisonment, plus $25,000 fine, plus supervised release.
2. Second offense: up to 10 years imprisonment, plus $50,000 fine, plus supervised release.
3. Third and subsequent offenses: life imprisonment, plus up to $1,000,000 fine, plus supervised release.

C. Distribution to Persons Under the Age of 21

1. First offense: up to 5 years imprisonment, plus $25,000 fine, plus supervised release.

looked on nervously as their only daughter, Nikki, and her fiance, Regan Kampe, both SIUC graduates, registered for gifts at the extravaganza.

"It (the wedding) ain't gonna happen for a while," French's father said. "The good thing about it is that she'll take her hand out of my pocket and put it into his (Kampe's)."

French and Kampe were engaged Christmas and plan an October wedding.

Laura McCague, a senior in hotel and restaurant management from Herrin, sat between her mother, Barb, and her future mother-in-law, Shirley Franklin, and watched a performer from Nashville sing popular wedding songs.

"I'm still looking for someone to sing at my wedding," she said. "Our song is 'I Swear'"

McCague, who has been engaged since Valentine's Day, has involved her mother and Franklin in plans for her June wedding.

"We haven't had any fights yet. It's really been a fun time," Franklin said. "I have a big mouth and told them I would suggest a lot, but they don't have to go by any of it."

Although many brides-to-be have their own ideas for their wedding, more than 30 vendors were at the Student Center to offer suggestions. Kendra Richardson, a bridal consultant from Illinois Center's Dillard's store in Marion, said many women were signing the bridal registry, a gift wish list.

"The registry is a good idea for a couple to sign up for to tell guests what they want for their home," she said.

Richardson said china, crystal and flatware are popular gift items along with lingerie, bed and bath linens.

Tax clinic continued from page 3

Hahn, who estimated that there are approximately 25 to 30 business schools across the nation with tax clinic status, said, "This is really a feather in our cap."

Hahn, Cundiff and Sanders all said there would not be any competition with local accountants who work with audited clients on a regular basis.

"The people who will come to us are those who either can't afford a professional CPA or have not had their taxes prepared by a professional," Sanders said.

Cundiff said, "Although we technically can help out anyone who asks, we will have an initial meeting with the client in which we will determine whether they can best be served by us or a professional in the field. If that is the case, we will tell them," he said.

Sanders said, "We will be working on civil tax cases only. Any cases involving criminal activity will be passed on."

Cundiff said getting the tax clinic running was more difficult than he expected, but they are now functional and ready to take on clients.

Strong finishes too little to carry day for Salukis

By Cynthia Sheets

Strong finishes were not enough to pull the SIUC men's and women's swimming and diving teams past the opposition Saturday as the water Dawgs split the meet with Notre Dame and Purdue.

The SIUC men's swimming team defeated the Irish, 144-95, but lost to Purdue, 162-81.

A first-place tie was established by the 400-yard freestyle relay team, and second-second place finishes were taken by Jeff Clark (100 Free), Steve Mueh (200 Back), Tyler Calhoun (200 Breast) and Chris Pelant (200 Free). The 400-yard medley relay team also had a strong showing.

SIUC men's swimming coach Rick Walker said the team did a terrific job coming off its Christmas break training. He was pleased with the second-place finishes against Purdue.

"Purdue is not a top-25 ranked team, but I think they should be," Walker said. "They are the strongest team by far we have met this season, with the exception of number one ranked Michigan." Walker said that it will come away with the win.

"I had hoped the team would perform better than they did," Kluemper said.

Kluemper said he looks to the remainder of the Irish team to carry day for Salukis.

By Wednesday, SIUC will take on Kentucky, Alabama and St. Louis University. The Saluki squad consists of 14 women and 12 men.

By Saturday, SIUC will take on Kentucky, Alabama and St. Louis University. The Saluki squad consists of 14 women and 12 men.

Rivalry continued from page 20

cursed his team during the indoor and outdoor seasons. Cornell said the negative mental attitude cost the Salukis a few points, caused him to sit out the Booster Invite, and said his hamstring is hurting.

"Jessie Tai goes to the training room and says his hamstring is hurting," she said. "Frankly, I was very worried just for that reason. Jessie Tai goes to the training room and says his hamstring is hurting," she said. "Frankly, I was very worried just for that reason."

Salukis cut down Sycamores, 83-68

By Grant Deady
Daily Egyptian Reporter

So much for Southern hospitality. First-year Indiana State head coach Sherman Dillard made his inaugural trip to Carbondale Saturday night and was greeted with an 83-68 drubbing from the Saluki men's basketball team.

SIUC put four players in double figures and received solid overall play from five, which turned out to be too much for the 5-10 Sycamores to handle.

Dillard had some high praise for Saluki head coach Rich Herrin and this season's version of the inner-city rivalry that took place after the white after the game.

"I think Rich has assembled a fine ballclub," he said. "Probably talented-wise, they are better than anyone we've faced so far. We knew we'd have to play a near perfect game to stay in this one.

"SIUC led by as many as 17 in the first half, but ISU was able to come within 11 before the Dawgs pulled away for good.

Saluki forward Scott Burzynski came off the bench and hiked back-to-back three-pointers midway through the second half to highlight the balanced SIUC attack.

Burzynski finished the game with a season-high 11 points and said he's feeling good after suffering from an ankle sprain earlier in the season.

"My back is fine. For a while there I was hurting a lot, but right now there's just a little pain," he said. "I'm getting into the open spots right now and fortunately they're (shots) going in. Hopefully it will continue." SIUC was paced by senior swingman Marcus Timmons, who poured in 16 points and swished 15 rebounds.

"I think Rich has assembled a fine ballclub," he said. "Probably talented-wise, they are better than anyone we've faced so far. We knew we'd have to play a near perfect game to stay in this one.

"SIUC led by as many as 17 in the first half, but ISU was able to come within 11 before the Dawgs pulled away for good.

Timmons, #40, scores against the Indiana State University Sycamores in a game held Saturday night at the Arena. The Dawgs defeated the Sycamores 83-68. The Salukis travel to Roberts Stadium tonight to take on the Evansville Aces. Tip-off is at 7:35 p.m.

Women's hoopsters scalp Lady Braves, look ahead to Indiana St.

By Doug Durns
Daily Egyptian Reporter

For one half, Bradley controlled the pace and kept SIUC out of rhythm, but the Saluki women played their style of game in the last 20 minutes and ran away with a 71-60 victory at Carbondale, Saturday.

The Salukis soared in the second half to a 12-0 run, including seven points from Kasia McClendon, and held on to send the Lady Braves back to Bradley with a loss.

SIUC head coach Cindy Scott said at halftime she told her team to "push the ball and go out to be too much for the team.

"We just talked a little bit about playing with some pride and our team and our program and what were trying to do and where we're going to try to get," she said.

With the 26th consecutive win over Bradley, the Saluki women improved to 9-5 overall and 4-2 in the Missouri Valley Conference, while the Lady Braves fell to 5-5 in the MVC and 7-7 overall.

Kasi Gilmore led the Salukis with 30 points and six assists. Ecuri Hassell added 14 points, including four clutch free throws down the stretch, and Kasia McClendon.

For all season long distance runner Rodney White said he noticed the team started to lose focus on Friday's bus trip to Illinois.

"We had a good attitude in practice, but that attitude started to change on the bus," he said. "There was a lot of joking and goofing around going on and that's okay to some extent, but there is a limit.

"Almost everyone had a bad performance," sophomore long distance runner Sion DeMarrar said. "Maybe most athletes are tired from last week's meet (Saluki Booster Invitational).

Corriell pointed to three explanations for the sluggish performance.

"Even though we runner Marcus returned after missing last weekend's Booster Invite, two other key athletes pulled out just prior to the meet due to injuries.

Senior long jumper Jessie Tai backed out due to a nagging hamstring injury and freshman long jumper Orlando McGee pulled out at the last minute claiming a sprained foot, which chipped in with 12. And with an 83-68 pounding in addition to her 12 points, pulled down eight rebounds and had five steals, said more fatigued than ever before.

"We just fed off her speech at halftime," she said. "And just woke up in the second half.

"All the momentum built from the SC3SOn. With the 26th consecutive win over Bradley, the Saluki women improved to 9-5 overall and 4-2 in the Missouri Valley Conference, while the Lady Braves fell to 5-5 in the MVC and 7-7 overall.

For one half, Bradley controlled the pace and kept SIUC out of rhythm, but the Saluki women played their style of game in the last 20 minutes and ran away with a 71-60 victory at Carbondale, Saturday.

Business Revolving Loan Fund

The City of Carbondale has a Revolving Loan Fund (RLF) to assist with job creation and job retention in the City. This fund was created when the City received grants from the Illinois Department of Commerce and Community Affairs (DCCA) to make loans to some local businesses. As these loans are paid back, the funds go into the Revolving Loan Fund (RLF). The original source of the funds from DCCA was the Federal Government.

Consequently, when the City makes a loan from the RLF, it must do so in conformity with Federal and State laws and regulations. Compliance with these laws and regulations is also required of loan recipients.

The Loan Application Process: The City has a standard loan application form. Items on the form include the legal identity of the applicant, the project description, project cost, funding, information on job creation and retention and a justification for RLF assistance.

Among the required attachments to the application are a history of the business, market information and a marketing plan, financial statements of the business and persons associated with it, sources of financing other than the RLF, and a projected cash flow for three years. Once an application is received it is reviewed by the City’s Finance and Legal departments. If the application is complete and meets the technical requirements of the State and Federal regulations, it is referred to the City’s Loan and Grant Review Board (a committee comprised of citizens knowledgeable about business practices and financing).

The Board then makes a recommendation to the City Manager who makes the final decision. If a loan is approved, an environmental assessment is performed, the necessary legal documents are prepared and executed, and funds are dispersed.

Uses of Loan Funds: Loans may be made to for-profit or non-profit businesses for fixed assets including land, buildings, machinery and equipment (including new construction or renovation of facilities) and to provide working capital. RLF loans cannot be used to refinance existing debt from another source.

Loans cannot be used to refinance existing debt! Thus, finance the relocation of equipment (including new construction) funded with any of the RLF. Lender loans are possible. There is a State requirement that at least one job must be created or retained for each $10,000 of RLF funds invested in a project.

Interest Rate: The RLF loan interest rate will be no lower than necessary to facilitate the business project. Loans will be made for no less than 3% interest rate.

Loan Security: All RLF loans must be secured with a mortgage, security agreement, promissory note, financing statement or other assignment of rights of title of the assets of the business. The City may require personal guarantees of the owners of the business.

Justification for RLF Assistance: Under Federal regulations an RLF loan can only be made if one of the following circumstances exists and has been verified: 1) The loan applicant can raise only a portion of the necessary funding from private or public sources. 2) The business is considering multi-state location options and RLF funds are needed to equalize cost variation between states. 3) Full financing is available from private or other public sources, but the rate of return is insufficient to make the development proceed.

Job Creation: The purpose of the loan program is to create jobs for low and moderate income persons. As noted above, at least one job must be created for each $10,000 of RLF funds invested in a project. Also at least 51% of all jobs created or retained as a result of an RLF loan must go to low or moderate income persons. The results of job creation/retention must be documented by the completion of forms provided by RLF, and the results must be reported quarterly to the City once the loan is approved.

Application Form Availability, Program Information, and Submission of Applications: RLF application forms and information are available from the City's Finance Department, City Hall Room 222, 609 East College Street, P.O. Box 2047, Carbondale, IL 62902-2047. Phone (618) 457-3233. Completed applications are to be submitted to Mr. Monty.
**Manager's Corner**

Jeff Doherty, City Manager

City’s Plans for 1995: Continued Progress!

The Carbondale Community has enjoyed considerable growth and progress during recent years due in large part to the City's cooperative effort by local government and the business community.

We have witnessed the rennovation and expansion of the University Mall, Downtown redevelopment, the establishment of the Enterprise Zone, that encourages new businesses and the expansion of existing businesses, a successful public-private partnership through the Carbondale Business Improvement Corporation, the retention of tax tape, etc., the revival and growth of the Parks and Recreation efforts, the expansion of Carbondale’s health industry, the annexation and development of new housing subdivisions, the development of positive community events, and the completion of the City’s new water treatment plant. The Carbondale Community’s needs well into the 21st century.

1995 offers Carbondale tremendous opportunities to continue its growth and progress. The expansion of the City Hall/Civic Center will begin and will serve as an important focal point of the Community’s Downtown redevelopment efforts. Already, this project is generating other interests for Downtown private development. The City will continue its aggressive Capital Improvements Program that enhances the Community’s infrastructure and allows for new and expanded business and residential developments.

We have witnessed in 1995 include the Mill Street Underpass, the Emerald Lane - Route 67 Improvement, the Old City Reservoir Spillway reconstruction, North Washington Street improvements, completion of the new fire station, and the ongoing renovation efforts including renovation of the old ICRR Passenger Depot, sanitary replacement on College Street and Kent Drive, the reconstruction of East Fisher Street and the expansion of its Technology Building.

Additional housing subdivisions are planned for 1995, and we will witness the continued development of area shopping centers such as the Walmart. The construction industry will remain busy in Carbondale throughout 1995.

Economic development continues to be a high priority with the City. The City supports CBDC to develop new jobs in the Community.

In 1995, the City and CBDC will work closely to attract businesses to the Bicentennial Industrial Park and the old lace tape property.

Another important priority with the Carbondale Police Department will continue its efforts to implement Community Policing through the establishment of new programs. The Carbondale Fire Department will expand its education program with the introduction of the Smoke House. The City prides itself on delivering quality services to the public.

In 1995, the City will maintain its property tax levy with no increase. This action along with the anticipated increase in the equalized assessed valuation will result in a lower tax rate and lower taxes in the city government line item on tax bills.

The Carbondale Community has accomplished a great deal during the past few years. We remain committed to the middle of the projects and programs that are important to our Community and considerable work will be accomplished. We also continue to struggle with issues that are controversial and have a great deal of conflict. In 1995, the City does exist a renewed Community Pride and a willingness among Carbondale citizens to work on Community projects and tolerate the best answers to those difficult questions our diverse Community faces.

Mark Your Calendars

Holiday Trash Pickup For 1995

The City’s sanitation crew picks up household waste four days a week, Monday through Thursday. When a City holiday falls within this four-day schedule, trash pickup is set back one day for everyone who has City refuse service.

If the City observes a Holiday on Monday: Trash pickup will occur Tuesday through Friday of that week.

If the City observes a Holiday on Tuesday: Trash pickup will occur Monday as usual; Tuesday’s route will be picked up on Wednesday; Wednesday’s route on Thursday; and Thursday’s route on Friday of that week.

**VOLUNTEERS NEEDED**

Maybe it’s that a few held the fortunes and destinies of many in their efforts to serve. Maybe it’s that a few held the fortitude to hold in check inexorable natural/mannesque forces that would wreck havoc with their fellow citizens. Maybe it’s just the need of a few to feel challenged and to have expanded their energies one hundred and four percent in a heroic cause.

If you are one of the few, then the City of Carbondale Emergency Management Services has an opening for you. Every year the city is faced with fires, floods, tornadoes, the threat of an earthquake and other natural disasters. There are also the manmade threats of chemical, biological and nuclear releases. Thousands would be affected. The City of Carbondale Emergency Management Services (EMS) cannot change destiny; however, with the help of the few, we can make life possible.

This is not a calling for everyone, only the few. It takes commitment, preparation, training, and good health. The call to action may come with no notice, it may come at any hour or season. If you have what it takes to be part of the few, contact your local EMS Coordinator, Jeffery Anderson at 609 East College Street, Carbondale IL Room 325 or call 457-3245.

**COMMUNITY SERVICES EVER HAD A DISPUTE WITH A NEIGHBOR?**

Well - Guess What!

Residents of Carbondale have soon have assistance available to help them resolve their own disputes. The City of Carbondale is working with the Alternative Dispute Resolution (ADR) Clinic at the SIU School of Law to develop a program called Dispute Resolution Center. The Center will offer a Mediation Service for residents who are involved in a variety of disputes.

Examples include disputes between neighbors (noise, property, weeds, etc.) and landlords and tenants.

Mediation is a process designed to help people who are in conflict communicate more effectively about their conflict. In mediation the disputants sit down with a neutral third party, a mediator, who is trained to help the parties talk and listen to one another productively. The mediator does not make any kind of decision, but instead guides the parties through a structured process toward their own resolution.

The focus in mediation is not on who is right or wrong, but on how the parties can work together to resolve the problem with which they are dealing. The process also gives the parties a structure for dealing with future conflicts that may arise out of the same relationship or circumstance.

The Center’s planning team includes: (from the City) Community Relations Officer Cleveland Mathews, Assistant City Attorney Dan Trester, Planning and Zoning Officer Cross and Building and Neighborhood Services Manager Morris McDaniels, and from the SIU Law School’s ADR Clinic ADR Project Coordinator Suzanne Schmitz, Assistant ADR Project Coordinator Alice Hill, and law students Sean Smoot and Tony Harriman. The planning is in its initial stages, but the team aims to have the Center operational sometime in the spring of 1995.

The SIU Law School ADR Clinic has received funding for this project through the federal Learn and Serve America: Higher Education Grant.

**Police Department Adds To Its Staff**

Jasper, the Police Department’s new canine, was welcomed to the force on Thursday, May 23, 1995. He is a member of the Citizen’s Police Academy at the University Mall and to serve in an honorary capacity at Carbondale Elementary schools. Jasper was “sworn-in” in ceremonies at the Carbondale Elementary schools.

Jasper is trained to search for lost persons and narcotics, recover evidence, search buildings, and track fugitives. On his first night on the job, Jasper recovered over 900 grams of marijuana, and has made several other “sniffs” since then. Jasper’s handler is Ptl. Doug Brinkley.

**Citizens Appreciation Day Underway**

This event is sponsored by Carbondale Community Services, Carbondale Early Bird Kiwanis, Kiwanis Club of Carbondale, Jackson County Chapter American Association of University Women, Parent-Teacher Carbondale Rotary Club, Carbondale Chamber of Commerce, and University Mall. On Saturday, February 25, 1995, from 10:00 a.m. to 3:00 p.m. City by groups and agencies offering services, membership or information of particular interest to senior citizens. At Noon a ceremony will be held to honor those seniors nominated for recognition for their volunteer service in the community and senior citizens. Community services, membership or information of particular interest to senior citizens. At Noon a ceremony will be held to honor those seniors nominated for recognition for their volunteer service in the community and senior citizens.

Available to attend the Saturday, April 8, 1995, installation ceremony at the University Mall and to serve in an honorary capacity at Carbondale Elementary schools, will be held at the University Mall. Booths will be set up on the Mall from 10:00 a.m. to 3:00 p.m. by groups and agencies offering services, membership or information of particular interest to senior citizens. At Noon a ceremony will be held to honor those seniors nominated for recognition for their volunteer service in the community and senior citizens.
COUNCIL COMMENTS

Upcoming City Council Primary Elections

By: Councilman John A. Yow

I know of no better way for one to serve their community than giving their time and talents by serving as a member of the Carbondale City Council.

Because of the number of individuals interested in becoming candidates in the February 28, 1995, City Council primary elections, I felt it would be timely to make a few comments about being elected for the first time to our City Council.

If the number of petition packets picked up at the City Clerk's Office by or for individuals who wish to be candidates in the primary elections are any indication, this primary should be quite interesting.

A number of individuals have asked if I was willing to serve on the Council this time around. The answer is no. I was re-elected to serve a four-year term in April of 1993. Consequently, I have more than two years to serve.

I do not want to encourage or discourage anyone from being a candidate in the primary election, but would like to perhaps educate those candidates who have never served on the Carbondale City Council and may have attended very few council meetings (if any). As a volunteer, I have observed various candidates attending two or maybe three council meetings before the election.

However, after the votes are counted, I seldom see those candidates who did not get elected attending Council meetings. This makes me wonder if some candidates are truly interested in our city government. It would be great to see some of the candidates who did not get elected continue in attendance at some of our Council meetings when possible.

Serving on the Carbondale City Council is not a matter that should be taken lightly. It is a responsibility that requires considerable time and personal understanding. Then you have to make the decisions that you can live with. All of this and much more goes with the job and most of the time you get little and, at times, no appreciation at all from the general public. Some individuals may be the first to make the impression that Carbondale City Council elections are of partisan politics. Our Council elections are non-partisan. There is no information on the ballots relative to Democrat or Republican affiliation.

Campaigning, some candidates may make promises or indicate that, if elected, they will make changes in particular Council codes or dismiss a particular City employee, or make City staff changes. Well, should any candidate have this in mind, they had might as well forget it.

Under Carbondale's form of City Government, the Mayor or any one Council person does not have the right or authority to dismiss, or to hire an employee, make changes in City codes or make City staff changes. The City Manager and City Clerk are appointed or dismissed by the majority vote of the City Council.

The City Manager has the responsibility of hiring or dismissing all other City employees.

I am hopeful that all the candidates are wholeheartedly interested in our city government continuing to move forward in a positive manner. I trust they will always be mindful of those things that are in the best interest of our City and its citizens. A public official must serve to the best of his/her ability by always placing public good above individual or special interest groups.

Carbondale is comprised of a very diverse population. Serving on the City Council requires a high standard of integrity and public confidence which will respond to citizen concerns with fairness and loyalty. People are Carbondale's most valuable asset. United we can find workable solutions to present and future challenges facing our City.

Things happen for the better, when we work together.

Tune in to Cable Channel 16 and watch Carbondale City Council Meetings LIVE: beginning at 7:00 P.M. every 1st, 3rd and 5th Tuesday each month.

CRITTER CORNER

By Cindy Nelson, Animal Control Officer

NUISANCE WILDLIFE

The presence of wild animals in urban areas reflects our need to adapt to replacement of fields, trees and streams by lawns, ponds, gardens and chimneys. Animals may be found in our neighborhoods because of new environment at the expense of their human neighbors, creating a disturbance or causing property damage. For example, many wild animals are behaving naturally, not acting with malicious intent.

It is illegal to live-trap or kill most wild animals without appropriate permits from the Illinois Department of Conservation. The City of Carbondale has an Animal Control Officer who is authorized to live-trap and remove an offending animal. Also, commercially licensed animal removal services can be recommended by the Illinois Department of Conservation.

RECOMMENDED PROCEDURES

To discourage an animal from an indoor domicile: Eliminate the animal's food supply as much as possible and leave a loud radio playing 24 hours a day. Maintain clean areas and remove all food. If the animal is still there, the sound may be kept on for 24 hours. If it's unattended, the animal has vacated. Make repairs immediately.

To assist an animal out of a window well: Lower a rough-surfaced board (tackled with carpet, etc.) into a window well at an angle. Nocturnal animals climb out after dark.

To discourage garbage-raiding: Garbage attracts animals-dogs, cats, raccoons, skunks, oppossums and crows. To effectively discourage garbage-raiding, store garbage cans where they can not be reached by use cans with lids which can be tied or locked in place.

To discourage ammonia-soaked rags can be placed on top of garbage before securing the lid.

Trapping and relocating animals: This is not recommended, even when legal. Removing one animal does not eliminate the presence of others. Relocation causes stress for the animal, for any young left behind, and for the existing population at the place of release.

It is illegal to relocate wild animals to any forest preserve.

IMPORTANT: When ammonia is recommended, do not use it during the breeding season.

It will injure infant wildlife which are too young to escape.
Dear Resident:

The City of Carbondale is the franchising agent for the area's cable service provider TCI of Illinois, Inc. In accordance with the franchise agreement the City of Carbondale is conducting this survey to measure satisfaction with cable television service. Please take a few minutes to let the City know how you and members of your household feel about your service. Even if your household has never subscribed to cable, you can still help by completing the first four questions.

You will also have an opportunity to voice your opinions at the public hearings following this survey.

Thank you for your opinion.

1. What is the subscriber status of your household?
   - Currently subscribe to cable
   - Previously subscribe to cable
   - Never subscribed to cable

2. If you don't presently subscribe to cable, what are the reasons? (Please check all that apply)
   - Rates too high
   - Don't watch much TV
   - Customer service is poor
   - Satisfied with broadcast TV
   - Installation cost too high
   - Other reasons (Please list)

3. How many persons live in your household?

4. How many in your household are preschool aged?
   - Elementary School
   - Jr./Sr. High School

For current and former subscribers only

5. On a scale of 1 to 10, with 1 being terrible and 10 being outstanding, and without considering price, how would you rate TCI's overall customer service? (Customer service means installation, repair, billing and telephone response, but not programming)

6. On the same scale and without considering price, rate TCI's overall customer service.

7. On the same scale and without considering price, rate GTE Telephone's overall customer service.

8. Using the same 1 to 10 scale, please rate the following aspects of TCI's service:
   - Picture/sound quality
   - Repair service
   - Billing practices
   - System reliability
   - Telephone response
   - Programming
   - Converter device
   - Installation

(Please explain as needed.)

9. Have you found any of the following to be a problem with TCI's service within the last two years? (Check all that apply)
   - Self-help
   - Technical support
   - Billing practices
   - System reliability
   - Customer service
   - Billing service
   - Installation

(Please explain as needed.)

10. Currently, TCI is the only company franchisee to provide cable TV service in the City of Carbondale. Do you think that the City should try to encourage more than one cable TV provider to serve it?
   - Yes
   - No
   - Don't Know

11. Do you believe that rates and services would improve if there were competition between two or more cable companies?
   - Greatly improve
   - Somewhat improve
   - Uncertain
   - Greatly worsen
   - Somewhat worsen

12. How would you rate the prices charged by TCI?
   - Very high
   - Somewhat high
   - Right amount
   - Somewhat low
   - Very low
   - Uncertain

13. Would you favor the regulation of TCI's prices if the City had authority to do so?
   - High favor
   - Somewhat favor
   - Uncertain
   - Somewhat oppose
   - High oppose

14. The City operates Governmental Access and Educational Access on Channel 16. How often do members of your household watch this channel?
   - Very often
   - Sometimes
   - Often
   - Seldom
   - Never

15. Do members of your household consider the Governmental and Educational Access Channel to be worthwhile?
   - Very worthwhile
   - Somewhat worthwhile
   - Not worthwhile
   - Not at all worthwhile
   - Don't know

16. Which types of programs would you like to see more on the Governmental and Educational Access Channel? (Please check as many as apply)
   - Local sports
   - Community issues
   - General education
   - Institutional/Classroom
   - Senior Citizen
   - Arts
   - Community events/fairs
   - Public affairs
   - Business & Economy
   - By or for Kids
   - Government meetings
   - Weather/Outdoor activities
   - Community group meetings

17. Are there any cable channels not presently offered by TCI that you would like to see made available? (Please list)

18. If you have any comments regarding TCI's service in the City of Carbondale, please include them here. Or feel free to send further comments on a separate piece of paper to the address below.

Thank you for your cooperation in completing this survey. Fold, and drop in the mail to:
