Kerner Will Not Meet With Protesting Group

Gov. Otto Kerner has refused to meet with SIU students about the housing and motor vehicle situation in Carbondale.

Rand Crosse, cochairman of the University Student Council, said the aide to Kerner told him by phone Tuesday that "at this time the governor doesn't feel he should be involved in the affairs of SIU."

Keneth Utz, an assistant in the governor's office, verified that Kerner does not plan to meet with students. Utz said Kerner feels that basically the housing and motor vehicle controversy is the concern of the SIU administration and the Board of Trustees, whom Kerner appoints.

Utz also denied a rumor that Kerner was in Carbondale Friday and held a meeting at the Holiday Inn on East Main street.

He said Kerner was in Chicago Thursday afternoon and all day Friday. He couldn't possibly have been in Carbondale Friday," Utz said.

Stan Hoye, manager of the Carbondale Holiday Inn, had no comment.

Grosse said a group of Senate to Discuss Reapportionment, SIU Seal Contest

Reapportionment and a report on the proposed University Seal contest are among the items to be brought up at the Campus Senate meeting at 7:45 o'clock tonight in Lentz Hall of the Thompson Point residence group.

Other items on tonight's agenda are naming a permanent proxy for Sen. Paul G. Schoen, the election of a chairman-pro-tem, and the Board of Trustees agenda for the special meeting.

A report will also be presented on a plan to establish a Xerox copying machine in the University Center for student use.

The Senate meeting is open to all students and faculty members.

SIU Registrar Again to Send Information to Draft Boards

The Registrar's Office has announced that it will again send information to Selective Service boards concerning full-time students.

A student has the option of deciding what part, if any, of this information is to be sent to his board.

A student should contact the Registrar's Office by Friday if he was not reported to his board or if he wants information sent, if he did not fill out the Selective Service information card when he registered for school or if he was previously reported and now wishes to discontinue all parts of the information to be sent.

Information to be sent to the boards for undergraduate students includes the full-time status of the student, the status period for which the report is being made, the current college period for which the quarter the student will complete his current college year and the expected date of graduation as indicated by the student.

Graduate student information includes the full-time status at SIU, the status period for which the report is being made, the current college period for which the quarter the student will complete his current college year and the expected date of graduation as indicated by the student.

Gus says the only thing connective to SIU is a walk through the woods.
Financial Aid

University City Plan To Assist Students

University City, an off-campus private dormitory, has established a three-point program to assist students caught in a bind because of the stricter enforcement of the unsupervised housing regulations.

The dorm will make about 60 jobs available to students on a part-time basis. Also, students who are bound by contract to unapproved housing for a part of the quarter may move into University City.

Grant Offered For Study

In Scotland

The Office of Student Work and Financial Assistance has announced a scholarship for graduate study at any university in Scotland.

The scholarship, for $3,000 a year, is available to a student with a good academic record and of Scottish descent, according to Fred Dakak, coordinator of student work and financial assistance.

Dakak said the student may select any area of study offered by Scottish universities. The money for the annual scholarship is derived from contributions of the Saint Andrew's Society of New York. Students may write to Saint Andrew's Society of the State of New York, 281 Park Avenue South, New York, N.Y., 10010, for application forms and further information.

Application deadline is Feb. 1, 1967, Dakak said.

VTI Clinic Offers Dental Services

To Students, Faculty

Students, faculty and staff can have their teeth cleaned without charge at the Vocational-Technical Institute's dental hygiene clinic, according to Dr. Eleanor Bushue, coordinator of the program.

Also available are x-rays, which will be released to the patient's own dentist upon request, and "patient education" — information on care of the teeth and mouth.

Appointments for the service should be made by telephone 68-20. Clinic hours are 9 a.m. to noon and 1 to 4 p.m. Monday, Tuesday, Wednesday, Thursday, Friday and Saturday.

Transportation to the VTI campus near Carbondale is available on the buses, which leave Carbondale on the half hour and return from VTI on the hour, and their room and board will be adjusted on a prorata basis of $3.70 a day, according to James G. Johnston, resident manager of the dorm.

That is, if a student moves into the dorm a month after the term has begun, he will only have to pay for the period he will actually live there.

University City will also credit a student with the amount of the advance payment he might have made for unapproved housing up to $50.

Finally, the dorm will no longer require students to sign three-quarter contracts. All contracts will be for only a quarter.

"It has been our experience that a student who is not happy here is not a good resident. In the past, we have released students if they didn't like the arrangement. Now they will only be obligated for a quarter at a time," Johnston said.

Johnston said the move to credit students for advance payments made to landlords was made to relieve some of the financial pressure on students. He said some landlords were not refunding deposits and advance payments to students who were being forced to move into approved housing.

Daily Egyptian

Published in the Department of Journalism Tuesday through Friday during the academic year except during University vacation periods, the newspaper is distributed throughout the Carbondale area.

Editorial and business offices located in Roop, Room 201.

To order single copies of The Daily Egyptian, call 523-2249.

Social Security Agency To Recruit on Campus

The Social Security Administration will give a test at 9 a.m., Oct. 22, 1967, for students interested in being a service representative.

All applicants must have at least two years of college to be eligible for the test.

Applications for this test should be made at the placement service.

Assigned to India

Tucker Joins Peace Corps

Michael Tucker, a former SIU student, has been named a Peace Corps volunteer after completing 14 weeks of training in Boston, Mass. Tucker attended SIU for 3 ½ years and majored in printing technology.

The 14-week training period was conducted by Harvard Business School in cooperation with the Organization for Social and Technical Innovation. Tucker will be assigned to India.

Tucker is one of 40 volunteers trained this summer to expand Peace Corps work with Indian small industries. The group, scheduled to leave for their assignments Oct. 17, will work in the states of Maharashtra and Kerala.

The group will join 1,130 volunteers already at work in India. The new volunteers will aid small businesses and entrepreneurs in improving production and marketing to increase India's industrial output.

During training in Massachusetts, Tucker studied the Marathi and Malayalam languages, Indian history and culture, U.S. history and world affairs. Technical training emphasized machine shop work, marketing and production techniques and three weeks of field work with small industrialists in the Roxbury section of Boston.

Movie, Sports Slated

The Navy recruiter will be on campus from 8 a.m. to 5 p.m. today in Rooms E and F of the University Center. Obleisk subscriptions will be on sale from 9 a.m. to 4 p.m. in Room H of the University Center.

Inter-Varsity Christian Fellowship will meet at noon in Room B of the University Center.

Audio Visual Nurn Movies will be shown at 12:10 p.m. in Morris Library Auditorium.

Women's Recreation Association hockey will be played at 4 p.m. on the Wall Park Field.

WRA Gymnastics Club will meet at 4 p.m. in Room 207 of the Women's Gym. Intramural flag football will be played at 4:30 p.m. on the practice field.

A meeting of the Nonacademic Employees Council will be held at 4 p.m. in the Morris Library Lounge.

Rehearsal for "That Was the Campus That Was" will be held at 7 p.m. in Music 505 Auditorium in the Agriculture Building.

The Dames Club will meet at 7 p.m. in Room 202 and the Lounge of the Home Economics Building.

Alpha Zeta, agriculture fraternity, will meet at 7:30 p.m. in the Agriculture Seminar Room of the Agriculture Building.

The American Marketing Association will meet at 7:30 p.m. in the Morris Library Auditorium and Lounge.

The Little Egypt Student Grotto will meet at 9 p.m., in Room C of the University Center.

Cap and Tassel will meet at 9 p.m. in Room E of the University Center.

TKE Names Bateman National Representative

Donald N. Bateman, faculty sponsor for Tau Kappa Epsilon social fraternity, was appointed assistant supervisor in Illinois for Tau Kappa Epsilon's national organization.

Bateman, assistant dean of the School of Business, will serve as national representative to the TKE chapters in Illinois.

A member of Tau Kappa Epsilon as an undergraduate at Parsons College, Fairfield, Iowa, Bateman received his appointment from TKE headquarters at Indianapolis, Ind.
The Bane of Policy

Perhaps the most discouraging feature of the Viet Nam business is the role played in American policy by what may be called the "Mesopotamian complex" or the collective-security fixation. According to this simple and dogmatic-outlook, wars are always caused by wicked aggressers, who, as a result of the indulgence of their sinful hearts as well as of the reasoning which they have equated with good, reason and morality. Hence the peace-loving and peace-guarding nations, the ones with the greatest moral and economic interests involved, who observing this contemptible challenge to peace must not only make the most of it but respond to meet the challenge with compromise, must be actively supported and offered the united arms until these criminals are rounded up and brought to justice.

May's mere historian be permitted, once again, to register dismayed objections to this caricature of history, this childish mentality which sees the affairs of the world as rather like an episode of "Bonanza"? (a) Most wars, the one in Viet Nam being far from an exception, are a complex of tangles of rights and wrongs, grievances and provocations. (b) The status quo can seldom be regarded as legally and morally "right", if we are not absurd in this case. (c) To put on the cloak of "protection" and brand the other side a criminal is to emblitter and prolong the war, and render settlement the more difficult.

Morris Loves Me

Morris loves me this know, The Student Handbook tells us. Without his gentle, guiding hand This would be the promised land.

For my own good, my hondo's gone. Any choice of housing went along. Now, they say there's no spring break Just what's left for them to take?

Office of the President

Dear Parents:

You may have heard complaints that "They are taking away our trailers, houses, apartments, and motorcycles at SIU." This letter is to present the technicalities behind long-standing rules which some parents feel are the abridgement of their children's freedoms. (Ridiculous! They don't have rights.)

In the first place, who are the "They" charged with the safety of our students? They are the Board of Trustees, the University Administrators, and the paid staff who are responsible for expending more than 60 million dollars on half-finished buildings, imported trees and rocks, and tearing up available parking lots, in order that 25,000 young men and women may further their high school educations. "They" also have the responsibility of seeing that the sizable amount of money you parents contribute directly each year for tuition and fees, board and room, is not wasted because a group of undergraduates speak out for their rights, disturbing an entire administration dedicated to its own survival.

In April, 1963, the Board of Trustees directed the university offices and the paid staff "to exercise such qualifications for an accepted physical facility shall encompass due consideration for safety, sanitation, health and recreation, supervision and the creation of an artificial environment." It further states that effective "September 1, 1963, single undergraduates will not be allowed to reside in such facilities on a single occupancy basis in any such accommodation." These requirements were incorporated with others we made up as we went along prior to 1963.

Southern Illinois University

"Student Rights are like Motherhood and Apple Pie." D.W.M. Spring '65

L.E.J.'s column

"L.E.J.'s column will not appear this week, as L.E.J. (according to the Southern Illinois) is leading a movement. (Where, we don't know.)" So said an Editor note in last week's KA. But if the administration has its way L.E.J.'s column will never appear again. "Why?" — (I hear three loyal readers cry.)

Well, it's a complex situation but it has been explained to me by George McClure, KA's faculty advisor that the administration is adhering to the notion that KA is a student organization and that staff writers are members of the "club" rather than employees, and no one can belong to a club unless he maintains at least a 3.00 over all anyway. A thing that I guess is too philosophical for the KA's to understand, is perhaps too much. It seems to me that the Board's action was completely consistent and in keeping with their past record. Also students were warned in plenty of time before the beginning of fall term, 2 or 3 weeks anyway.

In closing, if your son, or daughter, be one of those concerned with his rights, due process, or a good education, there is no reason for him to be prevented from going to another university.

Larry McDonald

"thoughts from a student with a 2.048"

DRAFT ENTITY'67

On June 30, 1967, the present militancy of the university student population will start to fade. There is quite a controversy surrounding what new system of selectivity will be substituted for the present one.

It is generally admitted that the Selective Service has many deficiencies and inequities, but the issue is a good moral one. Congress and the media must address themselves to this question: Should a nation permit the power to force its citizens to kill and be killed.

It is indeed a sad commentary on a society that its citizens have to be forced to defend it. If the people do not believe that there is a sufficient threat or national security, the people should not be forced to defend society. If there is a sufficient threat and the citizens do not act, then the society is not worth defending.

Constitution, in the present, is an indication of a totalitarian state, and is anti-social. It stands in the way of the concept of respect and freedom for the individual.

David Wilson

The Student Rebellion Wants You!

One clear point emerges from the limited success of the student union boycott; it was poised at the point of organization and demography.

Let's look at the demography of the situation, for example, Those who answered the Daily Egyptian's second survey were inspired, woolgum students heard speeches calling the student body a loyal supporter of Dr. L.E.J. which students were obviously impressed, few of us thought them in their academic careers they heard clear-cut proposals by which they could bring the Greek system to both order and popularity. To an oppressed people, anything short of oppression is real or imaginary — and I think it is a mixture which only if they are willing to the passions involved, to a people who feel that they are ruled, and not governed, pawns and not knights, concrete talking points implemented with legitimate and plausible courses of action, but so heady, in fact, that it sometimes introduced unforeseen and disastrous effects.

The boycott of the union was one of the most intense, on the better of organization, planning, and demographic reality.

There were at least 2,000 students at Thursday night's rally. There are 18,000 students in the student body, and the entire 2,000 converts all boycotted the union, it would take the maiming 18,000 unbelievers (or not-yet-believers) to reduce the effect of the boycott. But this is exactly what happened.

The student movement, in its organization, conception, and preparation was simply not prepared to effect political change. This is not to say that the leaders of the movement failed to effect boycott of the union, and to effect it with the force it was possible to achieve. A far wiser form of action this year has been a call for a student sit-in at the center.

This year, the students cannot effect a boycott by simply refusing to attend. In 1963-64, 2,000 students can create a boycott effect by say, purloining drinking water and taking 2-3 hours to drink that coffee.

Until the Student rights movement can slice through the labyrinth of evidence which allows President Morris to get away with what he has been getting away with for these many years. The leaders of the movement must use their numbers in effective, not visionary, ways.

Philip Weber
$7 Million Program

**Streets, Water, Sewage Plants Are First**

*On Carbondale’s Civic Improvement List*

By Laurel Werth

Carbondale’s civic improvement program, to cost in excess of $7 million, is aimed at alleviating some of the city’s headaches.

Major programs are the improvement of streets and of water and sewage treatment plants.

The first problems are planning and constructing plants. The first problem is the reservoir, treatment plant, from which water is taken from Crab Lake, a reservoir approximately nine miles southwest of town, is being explained:

Water pipes may be run from the reservoir to a water treatment plant. From the plant the water would be piped to the city.

C. William Norman, Carbondale city manager, explained:

“Financing the program will be our first step if such a program is to be a reality. We are applying for federal funds for the program which, if granted, would ease the cost of construction by 50 per cent.”

The possibility of getting a federal grant at present seems somewhat remote.

“The government is cutting back federal spending in many areas,” Norman said, “Whether or not funds for Carbondale’s program will be approved remains to be seen.”

The city now uses approximately three and one-half million gallons of water each day. The supply comes from the Crab Orchard Lake complex. The amount that may be taken from Crab Orchard depends upon a contract the city has with the federal government.

In the summer months, the city can take two million gallons from the lake and in the winter, four million gallons.

The water treatment plant now in operation has a capacity of four million gallons of water a day. The present program, to be completed sometime next year, will increase this yield to eight million gallons of treated water each day.

The Oak Construction Co., of Metropolis, was the low bidder to build the project at a cost of $768,000.

Planning of an improved sewage treatment plant for the city is 90 per cent completed, according to Norman.

The city is now served by two sewage treatment plants. This one is on the west side of town and has a designed capacity to serve 7,500 persons. There are no immediate plans to increase this.

The Oak Construction Co., of Metropolis, was the low bidder to build the project at a cost of $768,000.

Planning of an improved sewage treatment plant for the city is 90 per cent completed, according to Norman.

The city is now served by two sewage treatment plants. One is on the west side of town and has a designed capacity to serve 7,500 persons. There are no immediate plans to increase this.

The other plant, situated on the northeast side of town, has a designed capacity to serve 33,000 persons at the present time. Of this, an amount of treatment comparable to 10,000 persons is for industrial use.

Present plans call for the improvement of this plant to serve 42,000 persons. The plant is being designed so that its capacity can be expanded to 90,000 persons when needed.

A street improvement project is also under way. The project, referred to as 25CS, is made possible through a $1.5 million bond issue, Norman said.

Improvement is under way, or planned, on Mill, Wall, Willow, Oak, Walnut, Washington, Poplar and Oakland. The improvements include either resurfacing, widening, installment of storm sewers or rebuilding.

Reception Planned
For Emme Kemp

A coffee hour from 11 a.m. to noon in the River Rooms of the University Center will honor Emme Kemp after her Convocation performance Thursday.

She will appear at 10 a.m. and 1 p.m. in Shryock Auditorium.

Miss Kemp, who feels "music is such good company," will perform selections from "West Side Story," "Golden Boy," "Black Orpheus" and "Pete Kelly's Blues."

She has performed in nightclubs, in colleges and in concerts throughout the United States.

Roger Price, editor of "Grump Magazine," will be featured Oct. 20 in the University Convocation Series.

Firm to Interview
For Work Plan

A representative from the Sunbeam Corp., Chicago, will be on campus Tuesday to interview students who are interested in their cooperative-education program.

Students must have completed their sophomore year in school and be in good standing with the University.

The company is seeking engineering, production and business administration students to participate in the program. The students would be placed in work experiences that would be educational to their academic major.

Students seeking to interview with this firm should see Bruno Bierman or Leon­ard Lukasik at the Student Work Office before Friday.

From White House
Fraternity Gets 'Thank You'

The SIU chapter of Alpha Kappa Psi, business fraternity received a thank-you note from President Johnson and his wife for a congratulatory telegram they sent to Pat Nugent on his wedding day.

The fraternity sent the telegram because some of the members met Nugent in May at the Midwest regional Convention of Alpha Kappa Psi at the University of Wisconsin. He was a member of the fraternity at Marquette University.

Meeting Scheduled
By U.N. Committee

The steering committee for the 1967 Model United Nations Assembly will meet at 7 a.m. Thursday in the Student Government Office in the University Center.

Applications for committee positions are available at the information desk of the center.

The meeting has been called by Dennis E. Jordan, a graduate assistant in government, who is secretary-general of the February event.

"What Was Hiroshima Like, Jesus, When the Bomb Fell?"

The prayers of Father Malcolm Boyd are unlike any you've ever heard. They're modern prayers, for modern man. Troubled man. Alienated man. And they speak his innermost thoughts, in his own language.

They're prayers about sex and the bomb. Civil rights and mankind's writings. Love and hate. And Auschwitz. Guitarist Charlie Byrd's stunning original accompaniment heightens still further the dramatic intensity of each prayer on this unique LP. And the effect is devastating.

As you'll hear in "What Was Hiroshima Like, Jesus, When the Bomb Fell?" "Blacks and Whites Make Me Angry, Lord. " "It Takes Away My Guilt When I Blame Your Murder on the Jews, Jesus." " This Young Girl Got Pregnant, Lord, and She Isn't Married" and 18 others, equally trenchant, equally compelling.

Prayers like these don't happen often. They ought to.

Brown Asks Soviets To Start Peace Talks

UNITED NATIONS, N.Y. (AP)—British Foreign Secretary George Brown appealed to the Soviet Union Tuesday to support his detailed plan for a Viet Nam peace settlement. He also challenged the Soviet Union to join in a first step toward opening negotiations.

"There cannot be, nor should there be, a military solution to this conflict," Brown said in a major policy speech to the 119-nation U.N. General Assembly.

"We believe that the only feasible solution to a political settlement reached through negotiations."

Brown put new pressure on the Soviet Union by again inviting Foreign Minister Andrei A. Gromyko to join in a call to reconvene the 1954 Geneva conference.

U.S. Ambassador Arthur J. Goldberg welcomed the bid to reconvene the Geneva conference and said that at the negotiations the United States was prepared to consider all peace proposals for Viet Nam.

Hand in Hand with the United States, Goldberg, reflecting determination of both the United States and Britain to press for peace, said, "We persevere in the hope that after due reflection the reaction in other capitals will be as affirmative as our own.''

Peking rejected also proposals put forward by Secretary-General U Thant, saying their purpose was to induce the Vietnameses to end the war and accept peace talks in which the United States would gain the right to stay in South Viet Nam.

Gromyko was not present to hear Brown, but Brown arranged a late afternoon private meeting with Gromyko the second since Brown arrived in New York last Friday.

Gromyko returned to New York Monday night after a talk with President Johnson in Washington. Brown will be in Washington later this week.

The United Nations has offered to halt the bombing of North Viet Nam and agree on a timetable for supervised joint military withdrawals if there are signs of de-escalation by North Viet Nam.

POW Camps Called Decent

WASHINGTON (AP)—The United States now has some evidence that American pilots imprisoned in North Viet Nam are receiving decent treatment, government sources disclosed Tuesday.

In a series of interviews, U.S. officials concerned with prisoner of war problems described themselves as cau­tious in evaluating the information that more detention facilities are on the way that conditions are like in the North Vietnamese POW camps.

Although U.S. efforts to free the pilots are proceeding at a stepped-up pace—"We spend an awful lot of time trying to square the circle," as one high official said—the immediate goal no longer is always the release of the pilots.

Murphysboro Soldier Killed in Viet Nam

WASHINGTON (AP)—The Defense Department announced Tuesday the name of an Illinois serviceman killed in action in Viet Nam.

He was Pfc. Thomas D. Con­gardo, 917 N. 20 St., Mur­physboro.

Southern's # 1 address for young men!

Optimism Noted in Soviet-U.S. Talks

By Lewis Gulick

WASHINGTON (AP)—In a display of cautious optimism, the State Department reported Tuesday that the talks with Soviet Foreign Minister Andrei A. Gromyko here cleared the way for a “thought” to get peace talks going.

The Soviet Union accuses America of aggression in Vietnam, it supports Hanoi and has rebuffed repeated efforts to get peace talks going.

Frank Officer Robert I. McCloskey gave the U.S. report on the talks with Gromyko, which included some two hours with President Johnson late Monday and an evening dinner session with Secretary Dean Rusk at the State Department.

The Soviet foreign minister returned to the United Nations. He is expected to leave for Moscow in a couple of days. The State Department account seemed designed to give some hope for a breakthrough in the long-deadlocked effort for a nonproliferation treaty, while cautioning against expecting this to happen quickly.

"Important issues remain," McCloskey said with our defining them.

Other authoritative U.S. sources said still remaining is the main stumbling block: Soviet objections to any form of nonproliferation treaty which would allow Washington's proposed nuclear sharing among the Atlantic allies.

Amazed at Facilities

Lyle Gohn Joins SIU Staff
As Student Activities Head

By Sally Murphy

This is Lyle A. Gohn's first term at SIU, but he is already affecting the lives of many of the university's 18,000 students.

Gohn, 25, is the new head of student activities and coordinates all major campus events.

Gohn came to SIU in August from Purdue University in Lafayette, Ind. At Purdue he gained a wide background of experience in student matters.

His half-time graduate assistant positions included one year in the School of Agriculture and a year in the office of dean of men where he worked with foreign students and did general counseling.

At the same time, he worked in men's residence halls as a faculty sponsor where he handled activity, discipline and other matters.

Gohn said his biggest problem at the moment is getting accustomed to his new position at SIU. "I was amazed at the number of activities that take place here during the summer and on weekends," he said. "The facilities are exceptional."

Gohn explained that most activities at Purdue revolved around off-campus residence halls rather than the university-sponsored events at SIU.

Gohn said his goals as head of student activities are two-fold, "to plan, organize, and present activities that appeal to each student, and to work with students to develop them into well-rounded individuals."

Gohn said he does not feel that the students are using the facilities for activities to their fullest extent, but he says, "This is something we have to work with and hope to develop."

One solution he has in mind is taking more activities into the living areas. "Perhaps we can take more of these activities to the students rather than making the students come to them," he said.

Gohn does not feel that the recent curtailment of cars and off-campus housing will cause a marked increase in attendance at University-sponsored events. "If the demand for activities does become greater, we will answer it."

Scratch Paper Won't Do

Have Rooms, (You) Fill Forms

By Leonard Boscarine

Sunday evening, a group of students and faculty members came to the Agriculture Building for their organization's regular meeting.

They immediately noticed that something was wrong. Not only were the lights dimmed, but all the doors were locked.

A telephone call to the Physical Plant switchboard got the building opened but not until precious time had been lost, various members had gone elsewhere, and a Physical Plant janitorial foreman had left his family and driven from his home to the campus.

According to the Physical Plant janitorial office, instances similar to the above happen frequently and in almost every case could have been easily avoided.

"The primary cause of such scheduling problems is the disregarding of the time and paperwork necessary to secure a meeting area," according to Mrs. Frana Griffith, SIU faculty secretary.

"We sometimes get requests to open buildings in the form of letters, post cards, scraps of paper, or telephone calls. When this happens we try to notify these people of the proper procedure for securing a meeting place, but in a lot of cases this isn't possible and we get a bad name out of the deal," said John Gollner, Physical Plant janitorial foreman.

Meeting places may be secured at the Student Activities Office, the Extension Division, or the Area Services Division. Student groups must work through the Student Activities Office where Wayne H. Ericson, a graduate student, helps them.

"Sometimes a student group representative will come in on a Thursday and want a meeting place for the weekend," Ericson said. "In cases such as this there's little that we can do. If it is a case of dire necessity we can have them walk their forms to the various offices involved."

"Groups desiring meeting places can save everyone concerned a lot of trouble by planning for their organization's meeting places a year in advance. If this can't be done, come in and fill out the necessary forms at least a week ahead of your meeting date," Ericson said.

"I can't overemphasize the importance of filling out the proper forms early. Our office checks with the janitorial office early in the week to make sure that they have notification of the various meetings and can plan their work schedules accordingly," Ericson said.

Mattoon Doctor Joins Faculty Of Dental Hygiene Program

Dr. Frank A. Vandeveer Jr. has joined the dental hygiene faculty at VTI as an associate professor. A native of Mattoon, Ill., who received his degree from St. Louis University in 1951, Dr. Vandeveer came to SIU from private dental practice in Mattoon. He was formerly with the Continental Casualty Company as director of professional relations.

He is a member of the Illinois State Dental Society, American Dental Assn., Psi Omega Dental Fraternity, and the Illinois Academy of Dental Practice Administration. A veteran of World War II with service in naval aviation, Dr. Vandeveer is married to the former Kathleen Link of Mattoon. They have nine children.

The dental hygiene program at VTI, headed by Dr. Eleanor Busbee, is a two-year course leading to the associate in arts degree. It has a current enrollment of 60 students, 36 of them freshmen.

The course covers such subjects as anatomy, preclinical and clinical dental hygiene, dental assisting, and dental health education, as well as record keeping and typing-writing. Students also take general studies subjects which provide a broad educational background.

Graduates of the program are prepared for an extensive practical and written state license examination. They also are required to take a national examination and may work under supervision of a licensed dentist.

SIU Alumna Celebrates 100th Birthday

Mrs. Sarah E. McDaniel, who attended SIU in 1889 when it was still known as Southern Illinois Normal University, celebrated her 100th birthday Saturday.

Mrs. McDaniel attended Southern in 1886 and 1887. She returned in 1889 after which she left to teach in Wagener and Hickory Ridge, Ill., for many years. Her birthday was celebrated at the home of a daughter, Mrs. Virginia Wyatt of Murphysboro, by her family and close friends.

Mrs. McDaniel has 15 children and stepchildren, 31 grandchildren and step-grandchildren and nearly 100 great and step-great-grandchildren.

It came to the attention of the district Social Security director, Ray B. Cohee, that Mrs. McDaniel was not signed up for the hospital benefits of Medicare, which is still available.

Cohee visited Mrs. McDaniel, to sign her up for the benefits.

Mrs. McDaniel is also eligible for the special benefit from Social Security, although she had never worked under a Social Security Plan.

Yearbook Sales To End Saturday

Sale of the 1967 Obelisk will end at noon Saturday. The yearbook subscriptions will be on sale from 9 a.m. to 5 p.m., through Friday and from 9 a.m. until noon Saturday in Room H of the University Center.

Who is your ideal date? Thousands use Central Control and its high-speed computer for a live, flesh-and-blood answer to this question.

Your ideal date — such a person exists, of course. But how to get acquainted? Our Central Control computer processes 10,000 names an hour. How long would it take you to meet and form an opinion of that many people? You will be matched with five ideally suited persons of the opposite sex, right in your own area, or in any area of the U.S. you specify. Simply, send $3.00 to Central Control for your questionnaire. Each of the five will be as perfectly matched with you in interests, outlook and background as computer science makes possible.

Central Control is nationwide, but its programs are completely localized. Hundreds of thousands of vigorous and alert subscribers, still sharing the desire to meet their ideal dates, have found computer dating to be exciting and highly acceptable.

All five of your ideal dates will be delightful. So hurry and send your $3.00 for your questionnaire.

**Marketing Department Adds 2 to Staff; Perry, Hinderman Receive New Titles**

The Department of Marketing has announced further staff changes for this year.

Two instructors are newcomers. They are Lawrence J. Wonneberg, Wheaton, and John J. Wattler, St. Louis. Wonneberg graduated from SIU in August with an M.S. degree in marketing.

Assignment changes involve Donald L. Perry, who will serve as assistant director of the Business Research Bureau, and Charles H. Hinderman, who has been assigned as assistant dean for graduate programs in business administration.

Fun-Seeking SIU Freshman Designs Crossword Puzzles

Working crossword puzzles is a popular hobby, but in SIU's most recent freshman, he designs them. Hodl, who is interested in crossword puzzles dating back to his high school days, has been creating his own for years. His interest in crossword puzzles dates back to his high school days.

To give lecture on speech authority with the colloquium of the Northeast University School in connection with his research on deviant language, Hodl said. Hodl picks the long words or words which determine the size of his puzzle. Sometimes, he uses crossword puzzle dictionaries, blank paper, a dictionary, and an almanac, using his knowledge of world events and television programs to fill odd spaces.

Choosing the base words, those at the corners, is the first step in assembling a crossword puzzle, Hodl said. To do it, he arms himself with two dictionaries, two crossword puzzle dictionaries (to get the small two-to-six-letter words) and an almanac, using his knowledge of world events and television programs to fill odd spaces.

Selecting the right words also causes problems, said Hodl. "Highway" does not make as many additional matches as "high bat" does, and "option," would get priority over "optimism." With a six-letter limit, he said, dead ends may crop up in the progress, but rather than giving up, he removes an entire section of the puzzle and replaces different letters until he reaches a solution.

After finishing the puzzle, he sets up the word clues under the DOWN and ACROSS titles and draws up the puzzle board. "All that is left to do is to hope that the people solving crossword puzzles during their spare time are having as much trouble solving them as you had preparing them," Hodl said.

NOW BEING FORMED!
Plan right NOW to attend the free demonstration tonight

H.O.W IS THIS POSSIBLE?
Eighteen years ago Evelyn Wood, a Utah schoolteacher, made a startling discovery that led to the founding of Reading Dynamics, while working toward a master's degree she handed a term paper to a professor and watched him read the 80 pages at 6,000 words per minute—with outstanding recall and comprehension. Determined to find the secret behind such rapid reading, she spent the next two years tracking down 50 people who could read faster than 1500 words per minute, and studied their techniques. She read at these faster rates. Now, after years of experience in public schools and universities, she has made it possible for you to benefit from this great discovery.

DOES IT HAVE PROVEN RESULTS?
Results have been reported in Time, Newsweek, Business Week, and Esquire. Demonstrators have appeared on television with Jack Parr, Gary Moore, and Art Linkletter.

Describing Reading Dynamics' impact on some of our nation's legislators, Time said, "Washington has seen nothing like it since the days when Teddy Roosevelt read three books a day and ran the country at the same time."

SENATOR PROXMIRE
Wisconsin

I must say that this is one of the most useful educational experiences I have ever had. I am really convinced that what I have learned will be of great benefit to me.

Conventional rapid reading courses aspire to 450-600 words per minute. Most Reading Dynamics graduates can read between 1,500 and 3,000 words per minute, and many go even higher.

MONEY BACK GUARANTEE

We guarantee to increase the reading efficiency of each student AT LEAST 3 times with equal or better comprehension. We will refund the entire tuition to any student who, after completing minimum class and study requirements, does not at least triple his reading efficiency as measured by our beginning and subsequent tests.

SIT ON YOUR NOSES AND SEE THE WORLD!

Saluki Football Opponents

Were Winners Last Week

Four of the six remaining opponents on SIU's 1966 football schedule posted victories last Saturday, including this week's opponent, State College of Iowa.

The Iowa team downed Augustana 28-7 for its first victory of the season. State College of Iowa has lost three games.

North Texas State remained undefeated with a 41-6 victory over Tampa. The Eagles have won four and face tough Tulsa University this week.

East Carolina and Southwest Missouri were the other two who won. East Carolina beat Davidson 40-7 and Southwest Missouri defeated Washburn 21-6. East Carolina is SIU's homecoming opponent.

SIU opponents defeated were Northern Michigan, beaten 7-0 by Hillisdale, and Ball State, upset 38-24 by Northern Illinois.

Recreation for Disabled

Physically disabled students interested in participating in a campus recreation program will meet at 7:30 p.m. Thursday in Leven Hall Dining Room 3.

Salt Lake City was a world champion in the meet for its first victory of the season.

Augu 28-7 for its first victory of the season.

Saluki Trails Football Foes

In Most Offensive Statistics

The cumulative football statistics after four games show the Salukis trailing their opponents in most of the offensive categories.

With a 1-2-1 record to show for its efforts, Southern has been outscored 74-52.

The Salukis have been outscored 363 yards to 509 and out-passed 773 yards to 654. They closed the gap in the rushing department last week by gaining 212 yards. They also picked up 173 yards through the air against Youngstown.

The Salukis have been penalized 388 yards thus far with 303 yards being marched off against the opponents. The 45 yards of penalties against SIU Saturday was far short of the 88-yard average they carried into the game.

Punting has been a bright spot of late for the Salukis. The average is now up to 38 yards per kick.

Williamson and Roger Kuba are the rushing leaders. Williamson has carried 36 times for 204 yards and a 3.5 yard average. Kuba has 46 runs for 198 yards and a 4.2 average.

Quarterback Wally Agnew against Youngstown 105 times, completing 54 for 620 yards. He hit Tom Massey 18 times and John Perence and Roger Kuba 15 times each. At Youngstown on Saturday boosted the Salukis' total to eight for the season.

Three of the four fumbles were recovered by Youngstown's Dave Deltig, who has been out for the team a couple of weeks.
Freshmen Defeat Southern Missouri

By Mike Schwebel

For a group of freshmen who had hardly had time to know one another, the SIU Ish came pretty well acquainted on the football field Monday night, handing Southeast Missouri State a 6-0 lose at Cape Girardeau.

The tight score really didn't indicate the quality of play, for the Salukis dominated the contest.

In their first game, they managed to come away with 204 yards of net rushing, a strong defensive unit stopped the boil Indians, giving them only 26 yards rushing for the game.

Southern pulled off one of two interceptions of the night. The Salukis, although running well, couldn't turn a drive into a score. The ball moved deep into enemy ground, but an interception and another fourth-down pass failure ended both threats.

"I think they played a real good game," Coach Joe Lutz said in his locker room.

"This is the first time some of them have even played together, practicing with the variety." The first-year men will get a second second chance at McAndrew Stadium when they meet Memphis State.

Lutz will be faced with somewhat of a problem. He will be minus a number of top players who will be making the trip with the varsity to Cedar Falls, Iowa, and the SIU-St. College of Iowa battle.

Southern started a scoring drive from their own 38-yard line, where the Salukis got to the ball right back as the ball came loose from the ball carrier.

After the stout defensive squad stopped the Indians in the first series of downs, Southern started a scoring drive of its own 38-yard line.

With halfback Boon Binc and Pace leading the Saluki ground attack, the marchment to the Indian 30-yard mark and a fourth-down situation.

Quarterback Barclay Allen connected with a pass on the vital down, hitting Con­ dill at his 11. Boon Binc and Cuthill moved the ball to the eight and another fourth-down trial appeared. This time halfback Charles Coro left no doubt about the first down, slanting over on the right side for an eight­ yard scoping plunge.

Jim McBrian's conversion attempt was blocked as the clock showed 5:42 remaining in the first quarter.

Southern made another bid to score early in the second period, driving to the Indian 42. The drive ended on the four when a fourth-down pass play went incomplete.

Southern couldn't muster a serious bid to score throughout the game. The deepest penetration into Saluki territory went to the 31 where Ex-Saluki Played

Sunday for Cards

Ex-Saluki football star Sam Ziladar, is the man expected to take the Saint Louis Cardinal defensive series when the Cardinals take on the Dallas Cowboys in St. Louis.

Although the coaches are saying it's not the deciding game in any sense, the Dallas-St. Louis battle could prove to be the deciding contest of the season for the clubs. The winner takes sole possession of first place in the NFL Eastern Division.

The Big Red will be aiming for No. 6 without a loss and the Cowboys will attempt to take their fifth victory against no. 6.

The Cowboys will undoubtedly be the favorites, but the Cardinals promise to be a rugged affair.
By Tom Wood

Wally Agnew, SIU's starting quarterback, will not be available for Saturday's game against State College of Iowa, Coach Ellis Rainberger said yesterday.

Rainberger said Agnew suffered a pulled knee ligament in the Youngstown game.

Rainberger said Agnew's replacement will be determined by the performance at practice this week of Doug Mougey, Barclay Allen and Tim Kelley. All three will be given a shot at the starting position before Saturday.

Norm Johnson may be replaced at defensive halfback by Eddie Richards, due to ankle and knee injuries he has been nursing. Rainberger plans on giving Bob Roberts and Gerry Geisel starting assignments on defense this week.

Charlie Pemberton will start at linebacker and Geisel will be in the tackle slot.

The drive came after a pair of damaging fumbles late in the quarter, which enabled the Penguins to come from eight points back to take a commanding 21-13 lead. Rainberger mentioned this as one of the bright spots in the game.

Looking ahead to State College of Iowa, Rainberger said, "They are a tremendously improved team over last year and the first of this season."

Rainberger feels that Panther halfback Terry Fox is the best running back the Salukis have faced all year.

The Panthers have apparently found a passing game in the person of quarterback Ed Mulholland, who stepped out of anonymity to complete 16 of 20 passes in a 28-7 win over Augustana.
