Enrollment Up Over Last Summer

Biology Talks

Start On 24th

Jacob Lorch, visiting professor from Hebrew University, Jerusalem, will deliver the first of six lectures for biology teachers enrolled in the National Science Foundation workshop.

Isaac L. Sheehemeister, professor of zoology, has announced the lectures are open to the public. Lorch will speak on the "Relation Between Biology and Nazi Ideology, 1933-1945." He received his Ph.D. and master's degree from Hebrew University.

One of Lorch's special interests is the history of biology.

The lectures are scheduled for Thursday evening at 7:30 in Morris Library Auditorium.

Other speakers and their subjects are:

July 2--L. J. Paulissen, University of Arkansas, "Bacteria, Viruses and Cancer."

July 3--Raymond L. Cook, professor of botany, "The Energy Budget in Aquatic Habitats."

July 22--Harvey I. Fisher, professor and chairman of the Department of Sociology, "Suddening It's Summer -- One of the nicest signs of Summer -- Besides bright sunshine -- in an Egyptian photographer went girl-watching at the Lake-on-the-Campus beach recently. (Photo by Rady Clark)

How Do You Get a Date?

SIU Offices Discover That Inquiring Minds Sometimes Ask Some Pretty Dumb Questions

By Joe Cook

In its quest for knowledge, youth traditionally has turned to the colleges and universities.

Daily these scholars-to-be roam the groves of academe searching answers to questions that puzzle them and their fellow men.

What do they want to know? A recent campus survey indicated that there isn't one question that is repeatedly asked unless it's "What grade did you get?" at the end of each term. But a number of offices readily supplied lists of questions they have been asked by the inquiring young minds at SIU.

The SIU Activity Office, for instance, has this record:

- Nearly a thousand questions were asked at the Student Activity Office in a recent week. Here is a sample:
- Is tennis going to be taught this summer?
- How do you get a date for a dance?
- What do you say to a girl?
- Can I get a babysitter?
- Can you give me any information on the Middle East conference held in Washington, D.C.?
- What kind of course would I like to take?... 

Coleman Honored as Great Teacher

"I never dreamed of getting this award." This was the reaction of Claude Coleman, this year's recipient of the Great Teacher Award at SIU. He received it from the SIU Alumni Association at its annual banquet.

Coleman is professor of English and director of the Plan A curriculum at SIU. His selection was the honor, which carries a stipend of $1,000, was announced at the June 12 alumni meeting.

Coleman agreed that "flabbergasted" described his reaction. He said his principal feeling about the honor was one of humility, from the expression of the alumni involved in the voting.

Previous winners were Douglas E. Lawson, F. G. Leach, J. F. Casey, Georgia Gantt Winn, and Robert Lentz.

Coleman was awarded his A.B. degree in English in 1924 from University of Wisconsin; his M.A. degree in English in 1927, and, meanwhile, worked summers on his M.A. at the University of Wisconsin. He received this degree, in English, in 1927.

Finally, he was awarded his Ph.D. in English at the University of Wisconsin.

He was on the faculty of Southern State College at Albin, Tex., from 1936 to 1940, when he joined the Department of English.

Late Registration

To Begin Today

Summers at SIU are usually long and hot, but this one promises to be different.

Last year's summer enrollment hit an all-time high of 6,018 students at 1,607 at Edwardsville. This summer's figure is expected to be even higher, according to Leslie J. Chamberlin, director of admissions.

"We'll go over last summer's enrollment by 20 percent," said Mr. Chamberlin. "So far this year's summer program has shown signs that it will be higher than last year's enrollment.

Late registration begins today and will continue through Saturday. A late registration fee of $2 will be assessed to anyone registering after the $5 fee is July 2.

This quarter will mark SIU's complete transition to year-round operations.

The move started two years ago when the school's second summer session was lengthened from five weeks to seven weeks.

SIU officials said year-round scheduling of classes would make the school more attractive to serve greater numbers of qualified students and make more use of its physical plant. At the same time it will enable the university to accelerate their degree programs.

Students Zero in on SIU Suggestion Box,
Call for Parking, Pizza, Beach, No Bugs

One student’s gripe is another student’s suggestion. The tiny blue padlocked suggestion box on a shelf behind the information desk at the University Center has been gobbling up slips of suggestions for many months. Some suggestions pull no punches, while others mince absurd words.

Digging into the suggestion box, this reporter came up with the following student views, ideas, opinions and suggestions on a myriad of campus topics.

"Why not a color TV in the Center? I’m sure you can afford it." (A TP resident)

"Can’t you please do something about the ‘coffees’ sold at the cafeteria and grill? All they would have to do would be to run out the pot after every use. It doesn’t take much time and I’m sure that there are enough people who are drinking that to make it worth their while. Please see what you can do, OK?"

"I suggest that the information desk counter be cleaned once in a while—this means the back one and the shelf the suggestion box is on.” "I suggest that a coffee machine and a soda machine be put in the library. A ‘study break’ often is the end of study for the evening when one has to walk to the Center for coffee. Educational research shows that one can’t go on studying indefinitely without a break. But, besides, the library is usually so hot that it’s hard to stay awake after an hour or two. The major buildings on campus have coffee machines... why not the library?"

"As I write this, bugs are walking across my face. I’ve turned off my desk lamp but it doesn’t help. When I see all the damn leaves fall on 24 hours a day around this campus and see where we have bothered to move a 50-ton rock up from Giant City to be used as a ‘hill’... don’t you do something about the bugs? A few ultraviolet lights outside each dorm would do the trick. I speak for myself.” (A TP resident)

One student wanted pizza served in the University Center. The same student requested that Paige Nealy sing solo at Music Under the Stars next year.

"I suggest that the University build another beach, separate from the old one... for faculty adults and little kids... and use the old one for students, since there is such a large population of them during the summer. Faculty members seem annoyed at the shouting and so-called 'messing' that the students apparently cause.”

Other students desired abolishing the University Center Programming Board and student government; more style shows; a dictionary in the Magnolia Lounge; a more special bus service; a bookshelves in the University Center; two free telephones in the Center; more publicity for off-campus; more beach parties; and free parking in the University Center parking lot for working students.

The last, and perhaps one of the best suggestions, was a proposal for the student body to establish a "Forum Views Programme." Says the student suggesting the idea: "I would like to see a turnout of students and faculty members to discuss current headlines at either local, national or international levels. This program would give the student a better feel and reasoned interpretation of current issues through specialized faculty and through discussion."

HAND WOVEN COAT — Mrs. Edith Karlin, graduate art student, displays her husband’s sport jacket for which she designed and wove the wooden material. This was one of the items from her loom which she showed in her graduate art exhibit.

Grad Student Weaves Leaves
And Jacket for Her Husband

A sport jacket for her husband, for which she designed and wove the wool was one of the featured exhibits at Edith Karlin’s graduate art exhibit. She is the wife of Robert Karlin, coordinator of the SIU Reading Center.

Mrs. Karlin, who is a graduate of New York University, has almost completed her master’s degree at Southern, specializing in weaving.

Her other work shown in the exhibit included a linen luncheon cloth and napkins, wall hangings, several stoles, pillow tops, rugs and other fabrics.

One of the more unusual pieces is a large natural-colored linen wall hanging in which real leaves are inserted in "pockers" made by long warp threads.

The transparent leaves, imported from Taiwan, have been treated to remove all the outer covering, leaving only the delicate "skeleton" and a single layer of tissue cells. They have been tinted in pale shades of blue, green, yellow and pink.

Mrs. Karlin arranged the leaves in a design to suggest rambling vines, with dark threads for the leaves to "grow" on.

Geology Students
On Field Trip
In Missouri, Illinois

Twelve SIU geology students will soon visit the Ozark uplift area around Ironon, Mo. The last three weeks will be spent studying sedimentary rock formations in the hills of Southeastern Missouri and Southern Illinois.

The students are enrolled in Geology 450, a regular summer field course for all geology majors. Donna H. Amos, assistant professor of geology, is in charge.

On Monday the students began three weeks of studying igneous rock deposits in the Ozark uplift area around Ironon, Mo.

The course carries nine hours of credit.

Trips, Flicks, Dances Planned for Summer

The Summer Programming Board has met and begun to plan trips and activities for students at SIU this summer. Among the activities planned for this week are children's movies, the Friday Cinema Classics series, lectures, a trip to the Muni Opera in St. Louis, a baccanalian and a Saluki Safari to Shawneetown. The tours to St. Louis will begin Saturday. A bus will leave the University Center at 4 p.m. Tickets and bus transportation cost $3.00.

The musical now showing at the Opera is "Guys and Dolls," one of the most popular musical comedies of all time. Macdonald Carey will star in the production. Other members of the cast include Frank Manis, Frank Wilson, Lawrence Belanger and Steve Goodwin.

Mrs. Joyce Sturm Crouse of Murphysboro has been awarded the first Letitia Walsh doctoral fellowship in home economics at SIU and was presented an award by Eileen E. Ogilvie, dean of the School of Home Economics. The committee of the Board of Trustees made the announcement.

Mrs. Crouse is an instructor in the Department of Food, and Nutrition at Southern Illinois University, having taught in this department since 1938, with the exception of a year spent in Chicago.

She is a 1954 graduate of the University, majoring in home economics, and completed the master's degree in geography in this field here in 1958. For two years after receiving the bachelor's degree, she taught home economics at the Elliceville High School.

Mrs. Crouse is a member of the American and Illinois Home Economics Association, the Illinois Vocational Homemaking Teachers Association, and the American Association of University Women. She is married to George T. Crouse and is the mother of three children, Deborah, Lisa and Susan.

The Walsh fellowship fund was established last winter by a $25,000.00 cash gift from Letitia Walsh, former visiting professor in the School of Home Economics. Miss Walsh had served for 18 years as head of the department of home economics education at the University of Illinois before accepting the SIU position in 1964.

Foundation Honors Morris, John Dill

Service Recognition Awards of the SIU Foundation have been presented to John D. Dill, of St. Petersburg, Fla., and President DeLbert W. Morris, who lived in Carbondale from 1908 to 1931, was one of the organizers of the foundation and its first president. President Morris is an ex-officio member of the Board of Directors of the Foundation, and a member of its real estate committee and other committees.

The awards were made June 12 at the annual meeting of the University Center. The widow of the former State Sen. R.G. Crisenberry was committed to the board to fill the vacancy created by the death of her husband in May.

Dorothy Holmes of Springfield, who heads the Illinois Teachers Retirement System, was elected president to succeed Charles Mayfield of Bloomington.

Training Meeting, Movies Set Today

A training meeting for pre-service teachers will be held at 3 p.m. today in Auditorium of University School. The students' movies will be shown at 8:30 p.m. at Southern Hills. "Alice in Wonderland" and "The Mouse in Summer," will be shown.

Robert Jacobs

Working in India

On School System

Robert Jacobs, dean of International Services, is now in India evaluating institutes for secondary school and college teachers for the U.S. Agency for International Development. The institutes, which involve 200 American academic people who assist with the program, were established by AID. Jacobs was associated with AID before coming to SIU in the fall of 1965. Institutes for higher education and research are planned for India, Pakistan, and other countries in Asia. The institutes, for teachers of mathematics, physics, and biology at both levels of instruction, are held in various locations in India. They are set up to acquaint the Indian teachers with new knowledge in their respective fields and to introduce new methods of teaching science. Jacobs, a native of New York, has participated in the AID program and served as consultant during the three years he has been in existence in India.

Karen A. Robinson Finally Reaches That Big Moment — a Degree
Air Assaults on Viet Cong Bases

Continuing; Marines, Reds Clash

SAIGON, South Viet Nam (AP) - U.S. and South Viet­
namese planes attacked four Viet Cong bases near
Moc Quy and Moc Chau, among primary targets in
a daylong series of raids.

A U.S. Marine was killed and three wounded in one
attack, in which the strategic hamlet of the village of
Da Nana was hit.

Marines also drew fire from a guerrilla band
northeast of Saigon. Results were not immediately
reported.

The attacks were part of a series of operations
that have been under way since the strategic
bombing of the area.

The Viet Cong were reported to have
killed 27 government soldiers and wounded 31 in the
operations. These were ambushes of a joint U.S.-
Army convoy on the Hai Phong-Thai Hoa highway and
attacks on two government posts in the northeast
of Saigon and the other 80 miles north of the city.

Thousands Homesteads

Rampaging Arkansas River

Cuts Swath Through Kansas

KINSLEY, Kan. (AP) - Thousands of Kamans were
homeless Monday and thousands more prepared to flee
from the path of the rampaging Arkansas River, a 5-
mile-wide, 73-mile-long torrent moving across the state.

Adding to the misery was a forecast of locally heavy
rain, dangerous wind and hail.

Johnson Signs Bill

Cutting Excise Tax

WASHINGTON (AP) - President Johnson signed Monday the bill to repeal $4.7 billion in excise taxes and called it "a bright day for all Americans."

The cuts will be made in stages starting today.

CROWD WATCHES BLAZE - Hundreds of bystanders watch bum­
ing car which was overturned and set afire in rioting near La­
cania, N.H., over the weekend. Riots involved a number of
projects that had come to New Hampshire for four days of
motorcycle racing. (AP Photo)

Algiers Students Riot,
Supporting Ben Bella

ALGIERS (AP) - Angry youths took to the streets of Algiers Monday for the second time in two days to protest the ouster of President Ahmed Ben Bella. Police and troops were called in to disperse them.

Between 300 and 300 persons, mostly students, gath­
ered in the square in front of the University of Algiers, chanting "Yahia Ben Bella!" and "Long live Ben Bella!" and the French version, "Viva Ben Bella!" as troops bore down on them.

Tough Algerian security police gunned the student quar­
ters and others armed with sub­
machine guns were posted in front of the Central Bank of Algeria and other public buildings.

Some arrests were made but the demonstrators broke
away before police and troop charges.

It was a re-enactment of demonstrations Sunday night when police broke up a group of youths only to find that the disturbance had attracted others and spread from there.

The demonstrations were not immediately regarded as serious by Westerners, but they seemed symptomatic of a rising discontent—espe­
cially among the young—against the military coup which sent the 43-year-old president into arrest and detention.

It was certain to plague U.S. official Raoult Boumedienne, key figure in the Revolutionary Council now governing this

country of 12 million.

And it showed a certain
defiance despite the firm mili­
tary grip he holds over the

country by virtue of his post as minister of defense.

The rioting was contained, but there were indications of more activity. Rampaging heavy squads of police and

sentry forces patrolled the downtown area at 11.

Boumedienne re­acted quietly. While in the first demonstra­
tions Sunday and clamped a virtual curfew blacking out just before dawn, he relaxed it bit by bit during the day but outgoing communications were generally shaky.

Japan, Korea

To Sign Treaty

TOKYO (AP) - Japan and South Korea are set to formal­
ize today historic treaty and various agreements that will rescue the normal diplomatic relations for the first time in 60 years.

The signing of the docu­
ments, however, will not im­

dicate a true thaw in long festering tensions that have plagued the two countries for years.

The document will be signed by the foreign ministers of the two countries.

The treaty, expected to be signed today, will provide for the restoration of normal relations between the two countries.

Johnson pays tribute to
Bernard M. Baruch

NEW YORK (AP) - President Johnson led the nation in a
tribute Monday to Bernard M. Baruch, a brief and simple
funeral service was scheduled for Wednesday for the financier and conservative. The body will be

be on public view.

In a statement in Washington, Johnson said: "Bernard Baruch was in the robust tradi­
tion of the philosopher-politi­
cian: one who thought and

shaped mightily about the

course of his country, but who did not shrink from activity

doing what needed to be done for his country."

He added: "He loved his nation and he lived for it and that was enough to

enroll him in an aristocracv

as a brief and

throughout the twenty years of his life.

He served his country of 12 million.

SILL’S Vincen Signs With Frisco Team

Former Saluki pitcher-first baseman Gene Vincent is hoping for Giants baseball success.

Jolly Gene Giant

St. Louis University will be Southern’s opponent here Friday when the Salukis start play in the newly formed Midwestern Collegiate Summer Baseball League.

Southern was scheduled originally to play the Billikens four games in St. Louis last weekend, but a lack of players forced Coach Abe Martin to cancel.

The games will be made up at the end of the season.

Martin’s plea for players was well received last week, and the Saluki mentor expects to have 30 players on hand for Friday’s game. None are from this year’s varsity team that recorded a 20-1 record.

Southern is one of four teams in the new league, Parallel for area athletic coaches and trainers of the St. Louis Browns.

San Diego, Los Angeles, and Kansas City.

THE EAGLE

The Eagle - owned by the student body of Southern Illinois University, Carbondale - a weekly year-round newspaper

Injuires to Athletes Studied in Course

A summer workshop on the "Care and Prevention of Athletic Injuries" is being offered by the Department of Physical Education for Men. The workshop began Monday and runs through July 31.

The course is being taught by SIU athletic trainer Robert R. Enoch Jr., an assistant professor of physical education.

It is held from 7:30 to 9:45 a.m. Monday through Friday. It offers three hours of undergraduate credit.

The course is designed for area athletic coaches and physical education majors.

At the conclusion of the workshop, Ench will be the assistant trainer of the St. Louis Browns baseball club. He is in his eighth year as a trainer with SIU.

DAILY EGYPTIAN CLASSIFIED ADS

The classified advertising rate is five cents (5c) per word with a minimum charge of $1.00. Deadline is 2 days prior to publication of Tuesday paper which will be noon on Friday. Call 453-2354 for details.

FOR RENT

Girl’s Air conditioned apartment for four or small dorm with kitchen at 419 S. Washington. Available for summer term. $49-1328.

Mizzou Dorm Air conditioned apartments, furnished, cooking privileges, private bath, private entrance. Special rates summer term. Call 499-8609 or 495-4259.

The BIG Inch

The BIG inch - linealme by itself, but when incorporated into a DAILY EGYPTIAN classified, it is mighty big. Let’s see, 1 inch times 7500 (that’s our circulation) is 7500 inches. At a rate of only $1.00 for 20 words, that’s nearly 7500 inches for $1.00!

Who will read your 7500 inches? Students just like you - faculty members just like you - families just like yours - people just like the people you know.

You can plainly see that if you have something for sale, a service to offer or have merely lost your favorite roommate, the DAILY EGYPTIAN’s the best place to look.

Better place your ad today, but hurry, deadlines are 2 days prior to publication or noon, except for Tuesday’s paper which is noon Friday. Call 453-2354 for details.
Player Downs Nagle Three Strokes in St. Louis Tournament

ST. LOUIS (AP) — Gary Player's putter was a blade of destruction Monday and the blade master from Johannes­burg carved out a three-stroke victory over demoralized Kel Nagle of Australia and be­came the first foreigner in 43 years to win the National Open Golf Championship.

Player, deadly on the greens, fired a one-over-par 71 and Nagle, going from hard­ship to disaster, shot 74 in the third Open playoff in the last fall for the title Sunday at Bellerive Country Club.

The triumph placed the nerveless, black-clad South African on a pinnacle with immortals Gene Sarazen and Ben Hogan as the only men to complete a professional grand slam—the Masters, American PGA, U.S. and Bri­tish Opens—in their lifetime.

Player won the British in 1957, the Masters in 1961 and the PGA in 1962.

"This is the realization of a dream for me," the 29­year-old mechanical man said afterward, his brown eyes welling with traces of tears.

"I feel I have reached my goal."

The playoff match, played in sweltering heat before a small gallery of 6,700 over the exasperatingly long and tough Bellerive Country club course, was over almost be­fore it started.

"I am just glad it is over," Player said.

A scalar of 73 in the final round, he came through the break Monday with a 101.5 for 274, the championship score set by Doug Sanders in 1960.

Carr, 46.7.

In NCAA Finals

Goal: To place in the NCAA track and field championships, Berkeley, Cali., for the fourth consecutive year.

It was disappointing. Southern's only entries, the mile relay team and Bill Cor­nell in the mile, failed to qualify for the finals.

The championships, held during the break between terms were especially dis­appointing for Cornell, who was trying to close out his career with another great race.

As a sophomore, Cornell received national recognition with a 4:04.5 performance in the mile to win NCAA runner­up honors.

With 220 yards to go in this year's race, he became boxed in by other runners.

The Sabuki quartet of Cor­nell, Robin Covemey, Jerry Fendrich and Gary Carr turned in a time of 3:12.3, only good enough for fifth place behind the University of Oregon, Drake University, Abilone Christian College, and the University of Houston. Only the top four teams qualify for the finals.

Covemey clocked 49.3, Cor­nell, 47.7, Fendrich, 48.8 and Carr, 46.2.

The quarter's best time during the season was 3:09.2.

Coleman Honored

As Great Teacher

(Continued from Page 1)

of English at SIU. He has been associated with Plan A, the program for gifted undergraduates, since its inception in 1960.

The association also pre­sented its Alumni Achievement Awards to Fred R. Eagle, formerly of Marion, Arthur H. Doerr Jr., a native of John­ston City; and Louis P. Shanno,n, formerly of St. Louis. State Sen. John L. Gilbert of Carbondale was given an award for service to SIU.

Inquiring Minds

Pose Questions

(Continued from Page 1)

in the book section of the store kept track of a few unusual ones.

Some come in wanting "Roget's College Thesaurus," but it invariably comes out "Roget's Treasury," Cor­nell said. One student even asked him for a chemistry book "Enemies and Fra­ctions," instead of "Energy and Particles."

And at this time of the year, the Registrar's Office is busy answering that oft-repeated question "How do I get back into school?"
