OUR WORD

Where we've been; where we're going

After all the semesters of friends, books, teachers and tests, it's hard to believe this is the end of our undergraduate college careers. As we cross that stage to receive the piece of paper telling the world we know something of value, our sense of completion will surely be blurred by misty-eyed nostalgia.

Where we've been is a place of knowledge. But these hallowed halls have been about more than just book learning. Within these confines we have, hopefully, learned what it takes to be an adult. As they drilled facts, figures, theorems and concepts into our brains, our professors and administrators have constantly been sending out an underlying message — it's time to grow up. And with all of our collegiate experiences, who among our class can say we haven't changed since we first arrived in Carbondale?

When we first step onto campus, we're indistinguishable parts in a puzzle of new places and faces. In time, some of those faces would become the friends we'll cherish for the rest of our lives. For all our friends not in cap and gown beside us and to those moving onto careers that will take them out of our immediate lives, you will be missed, but never forgotten. Without your friendship, college would have been an incomplete experience. As we graduate, we should remember that our friends will be there long after we've forgotten the fundamentals of argumentative logic and how to find the circumference of a circle.

And let's not forget the institution itself. SIUC, even in its transition state, is a great place to go to school. As we pass through life and people ask where we earned our degrees, we should proudly proclaim to be Salukis to the bone. SIUC, just like any other experience, depends on what you make of it. If you've learned your lessons well, you know our University is as good as you allow it to be. If you haven't, then you're most likely not ready to cross the stage, and this graduation column

probably doesn't even apply to you — yet.

SIUC is now, and always will be, our home away from home. This campus has provided for us an education, not just for life, but about life.

Truly, the real lessons to be learned in college have little to do with books; and our degrees mean much less than what we actually choose to do with them. Our world is a dynamic place wrought with darkness and light. We have the unique duty of being the first graduates to face a new era. (The year 2000 isn't the millennium, but it's close enough.) We have the duty to be the leaders of a new generation of hope. It is our task to make our degrees be more than money makers, but also idea generators so that we can make a difference in the lives of others. If every life has a purpose, then the universal mission should be to affect at least one person's life in a positive way. Do this and we will be not just part of the world, but the leaders of it.

So as we leave the Disneyland of college life behind and turn to face an unpredictable future, we must not forget what we've learned at SIUC — both in terms of our minds and our hearts.

First, follow your heart in all aspects of your life, and you'll never be unfulfilled in what you do.

Second, never forget where you've come from and how you got to be who you are. Do this and you'll never betray your beliefs. And finally, just like in college, life is a never-ending process of growth and discovering who you are and what you're capable of.

Where we're going is a place and time where indifferent thoughts and apathetic perspectives have no place. As we party like it's 1999, we've now become the future of the world everybody said we would eventually evolve into. Congratulations to the last class of 1999, the best that's yet to come is now at hand.
