ROTC Plans to Revamp Cadet Instruction Policy

Drills to Be Cut, Thinking Stressed

The Air Force ROTC program next fall will begin a two-year updating designed to allow advanced cadets to dispense with pat answers and

force them into independent thought.

Col. James F. Van Ausdal, assistant professor of air science, said the biggest change would be in the advanced courses where the cadet is pushed "to arrive at his own answers, to test these answers against the judgment of his peers and instructors, and to develop practical programs for placing them into effect in a military framework."

The "updating" will take two years to implement, according to the colonel.

Van Ausdal said the formal and showpiece elements of military training were being de-emphasized in the new curriculum.

Sexton to Discuss Audio-Visual Aids

James Sexton, assistant director of Audio-Visual Service, will discuss the use of audio-visual aids in the classroom at a meeting of student-teachers today.

Some 100 student-teachers are expected to attend the training session in Studio Theater starting at 10:20 a.m.

Today's session will wind up the two-day conference on Health and Audio-Visual Aids.

The opening session Monday concentrated on health programs in public schools. Each program is followed by a question and answer session.

"Specifically, we are re-evaluating, in terms of contemporary military utility, such exercises as military drill," he said. "Today's Air Force has little time or need for yesterday's emphasis on drill. As rapidly as possible we expect to move these military exercises off the campus and to transfer to the summer camp as much of them as is retained."

He said the hours formerly used for extensive drilling "will be employed in physical conditioning and in practicing techniques relevant to contemporary warfare, such as survival and counterinsurgency."

The freshman course OE 100 (Officer Education replaces the Air Science course designations) will begin in the 1965-66 school year. It "explores the causes of present world conflict as they affect the security of the United States," Van Ausdal explained.

He said the freshman course would analyze democracy and communism, explain the American power position in world politics, describe the role of the armed forces as an instrument of national policy, discuss the function and mission of the USAF, and place the citizen student in proper relation to international commitments of the United States.

The sophomore course, OE 200, will begin next fall. It will compare world military forces. The course will compare Free World land, sea and air forces with Communist forces and discuss systems and trends in the development and employment of military might.

"These two courses constitute the basic program," Col. Van Ausdal said. "They will both be compulsory, as in the past."

He said the main emphasis in the "new, updated curriculum" would be in the advanced course.

"This course is the source of our professionals, and their preparation for a career of officership is our main concern," the colonel said. "The new advanced course was developed independent of the

(Continued on Page 8)

Appointments With Advisers Thursday Only

Appointments to see academic advisers for advance registration for the fall quarter can be made Thursday only, according to Jack Graham, coordinator of Academic Advisement.

The appointment desk will be open to all students from 8 to 11:30 a.m. and from 1 to 4:30 p.m. in the Olympic Room of the University Center.

General Studies students who have passed at least 75 hours by the end of the spring term, have selected a major, have a C average, and plan to transfer to a college or school prior to the time of their appointment should make the appointment in a college or school.

The appointment desk will be closed from June 26 through June 28, Graham said. And from June 29 through August 14 appointments for all academic units will be made at the Advisement Center, Building T-65.

Graham said students on scholastic probation may advance-register for the fall quarter.

To make an appointment a student must present his ID card, know if he is in General Studies or a college or school, know his major and the name of his adviser.

A student may make an appointment for one additional student, if the second ID card is presented, Graham said.

Dean's OK Needed To Register Late

Students desiring to register late or add a course must now acquire special permission from their academic deans, according to the Enrollment Center.

Deadline for deferred payment of tuition and fees is 3:30 p.m. Friday. Registration for students who have not paid their fees by that time will be canceled and the student will be dropped from the University.

RAZING CONTINUES - The work of razing buildings south of the University Center is progressing. The buildings are being removed to make way for new construction. This was the Talbot Abbott house purchased by the University for \$68,000 and sold for less than \$1,000 in order to clear the site. Abbott was formerly dean of the College of Liberal Arts and Sciences.

106 Is June 21 Record

Meteorologist Has Super-Heated Answer: Hot Weather Is Caused by 'Warm High'

Two words were cited to explain the current June weather in Southern Illinois: "Warm High."

Loren H. Waite, meteorologist in charge of the U.S. Weather Bureau Station at Cairo, said this is the brief terminology for describing a high pressure area over the southeastern states.

When this fairly stationary area develops, he explained, this causes a flow of warm air from the Gulf of Mexico to move northward up the Mississippi Valley.

The result can be near-record temperatures like Sunday's 97 degrees in Cairo,

which is 58 miles south of Carbondale. The all-time record at Cairo for June 21 was 98 degrees set in 1933.

The SIU Climatology Laboratory has temperature records for Carbondale dating back to 1910.

According to its records, the all-time June high for Carbondale was 106 degrees set on June 19, 1936, and on June 29, 1931.

The high reading recorded Sunday at the laboratory was 93 degrees, Saturday, the laboratory recorded 92 degrees but the official reading, from the Carbondale sewage disposal plant, was 94, Friday,

the laboratory recorded a high of 89 and the sewage disposal plant, 91.

The Carbondale record for June 21 was 101 degrees established in 1933; the June 20 record was 103 degrees set in 1936.

Waite said the all-time record for June at Cairo was 104 degrees set on June 27, 1954, and June 29, 1952.

Records at the station go back to 1871.

He said it is not unusual for temperatures to average six to seven degrees above normal in summer when one

College Girls Marry Late, Have Fewer Babies

Girls who attend college marry considerably later than those who do not.

This is true even though quite a few coeds marry before they graduate.

These are pronouncements of the Population Reference Bureau, Inc., Washington 36, D.C.

Robert C. Cook, president, said, "It may seem paradoxical that a college education delays marriage for a girl since she is constantly in contact with boys her own age. One can imagine several reasons for this. Familiarity with many young men may breed -- if not contempt -- at

least a more choosier, critical attitude.

"Furthermore, while a good many young college men marry in school, the majority do not. The amorous goings-on on college campuses have been the subject of wide discussion in recent months. But these changing campus mores seem not to have caused the college marriages to skyrocket," Cook said.

Surveying marriage trends and the prospect of about 1.8 million marriages in the United States this year, the Population Reference Bureau issued this "hot tip" for worried parents who hope that their daughters will stop, look,

and listen before taking an impulsive plunge into matrimony: Get her into college fast!"

On the average, PRB announced, "a college career delays a girl's marriage about four years."

The findings stressed the word "average" and took account of the many campus marriages, a far cry from the day when undergraduate marriage would have meant expulsion from school. In fact, almost one-fourth of this year's college graduates are already married, PRB announced.

Cook said the average age of

marriage has been declining in the United States for the past 50 years. More women marry at 18 than at any other age, and more men at 21, PRB found.

"Girls who graduate from high school tend to marry somewhat later, though the marrying high school student is no longer a rarity. Girls who attend college marry considerably later than those who do not. This is true even though a goodly number of coeds marry before they graduate," Cook said.

He also noted that college graduates who delay marriage tend to have fewer children than women who marry earlier.

Gus Bode

Gus says he is one guy who knows what is going to happen to his income tax savings. . . higher tuition.

20 Named to Steering Unit To Map Summer Activities

Twenty students have been named to the Summer Steering Committee by the Activities Development Center.

They were picked from volunteers who are interested in student activities.

The committee is responsible for educational, cultural, social and recreational activities. Members also are in charge of trips and excursions that the University sanctions for its students.

Members of the committee are:

- Kenneth Wilkening
- James W. Hartford
- Maggie Sanders
- Mickey Antoniono
- James E. Carrow
- John H. Huck
- Jill D. Siwicki
- Shirley Hollinger
- Judith A. Wolfe
- Roy R. Harnetiaux
- Kay Slisz
- Claudette Morse

Adequate Pasture

Stressed in Article

Howard H. Olson, associate professor of animal industries at SIU, has published an article, "Is Your Pasture Adequate?" in the June 10 issue of Hoard's Dairyman.

The article points out the importance of fertilizing pasture land. This produces greater yields per acre making necessary fewer acres per cow. Underfeeding plants, as underfeeding cows, is false economy, he said.

Olson joined the SIU staff in 1954 after serving as head of research with the Curtiss Farms' artificial dairy breeding program at Cary, Ill. He received both his master's degree and doctorate from the University of Minnesota.

Photo Assignment Turns Into Display

Eight students have photography on display in the Magnolia Lounge of the University Center. The displays are pictorial interpretations of the city of Carbondale.

Picture any two aspects of Carbondale. That was the assignment given the students by C.W. Horrell, instructor in photography.

Full interpretations of Carbondale's schools and hospitals, churches, streets and traffic, construction, entertainment, and housing are on public display.

Students who took part in the Carbondale photography project are Les Ross, Bob Miller, Don Heiberger, Sam Leek, Larry Crouse, Walt Waschick, Keith Hackleman and Larry Gregory.

Virologist Receives Research Grant From U.S. Navy

An SIU virologist, Isaac L. Shechmeister, has received a \$39,971 grant from the Office of Naval Research to continue a research project related to animal viruses.

The two-year grant is a renewal of previous awards from the naval research agency. Shechmeister, associate professor of microbiology, received an initial grant for the study in 1960 with a two-year renewal the following year.

His research deals with the effects of white blood cells from normal and immunized animals as agents of resistance to certain viral diseases in animals.

DAILY EGYPTIAN

Published in the Department of Journalism daily except Sunday and Monday during fall, winter, spring, and eight-week summer term except during University vacation periods, examination weeks, and legal holidays by Southern Illinois University, Carbondale, Illinois. Published on Tuesday and Friday of each week for the final three weeks of the twelve-week summer term. Second class postage paid at the Carbondale Post Office under the act of March 3, 1959.

SETS READIED - Members of the Southern Players are shown here at work on preparation of sets for "The Mousetrap," an Agatha Christie mystery opening Wednesday at 8 p.m. It will run through Sunday night at the Southern Play-

house. Left to right are Brenda Spicer, Ramona Nail, Darwin Payne, the staff designer, and Robert Pevitts (foreground). Note the paint on Pevitts' hand.

Summer Theater Begins Wednesday

Murder Mysteries Plague Playhouse In Season-Opening Christie Thriller

A gun emerges from behind a half-closed door. Lights flick off. A shot. A scream. Beginning Wednesday night at 8 p.m., Agatha Christie's "The Mousetrap" will suspend audiences in disbelief. The play is the first presentation of the tenth SIU summer theater season. It will be staged nightly, Wednesday through Sunday, in the air-conditioned Southern Playhouse.

The internationally popular "whodunit" opened in London nine years ago and is still playing. After watching an evening of suspenseful tension and intrigue build into a blinding climax, most audiences agree that Agatha Christie deserves her niche as queen of the mystery novel and play.

A series of murders sweep through an isolated Victorian boarding house. And until Miss Christie in one of her switch finishes reveals the killer, it is virtually impossible to guess the outcome.

"The Mousetrap" cast is from the summer company at the Southern Playhouse. The group was selected from applications received from all over the United States and Canada.

Playing Officer Trotter is Phil Potter from Evansville College. He has formerly

played Dan in "Night Must Fall," Mike in "Philadelphia Story" and Hector in "Thebes Carnival." Potter has also done TV work in Henderson, Kentucky.

James Keeran has the role of Christopher Wren. Keeran has done the parts of Dion in "The Great God Brown," Torvald in "The Doll's House" and Pater in "The Diary of Anne Frank." At SIU since last September, Keeran is working toward a master's degree in theater.

From Southeast Louisiana College, Ramona Nail came to SIU in January for graduate work. In this production she plays the part of Mrs. Boyle. She appeared during the South-

ern Player's winter season as Mrs. Martin in "The Bald Soprano."

Miss Nail's major roles at Kansas State University, Little Theater at Daytona Beach, and Millsaps College have included Eliza in "Look Homeward Angel," Anna in "The King and I," Mary in "Long Day's Journey," and Rosemary in "Picnic."

Director of "The Mousetrap" is Charles Zoecler. The set designs are by Darwin Payne.

Season tickets for the summer theater's five productions are available for \$3.50. Individual admission is \$1.25. Curtain time for all productions is 8 p.m.

McCoy to Talk to Librarians On SIU's Automated System

Ralph E. McCoy, director of SIU libraries, will take part in an Institute of Automation in Libraries, Wednesday through Saturday, at the University of Missouri, Columbia.

He will speak Friday on "Computerized Circulation Work: Case Study, the 357 Data Collection System."

The institute comes immediately before the annual meeting of the American Li-

brary Association which opens Sunday in St. Louis.

During the past year the SIU library staff has prepared master cards for the library's 600,000 volumes for use in charging out and checking in books electronically.

Under the new system each day's check-out cards and returns will be processed by electronic computer in the University's Data Processing Center with a daily print-out of everything in circulation.

It is expected that by the time the fall quarter opens Sept. 23, all problems encountered in use of the electronic check-out equipment at the circulation desk will have been ironed out so that the system can be placed in full operation.

Plan A Goes to New Quarters; House Open 5 Days a Week

The Plan 'A' office has moved into its new air-conditioned quarters at the southeast corner of the intersection of Forest and Mill Streets.

Plan A House will be open five days a week, Monday through Friday, from 8 a.m. to 10 p.m. All Plan 'A' students and staff are invited to make full use of the new facilities. Any new student who has been approved for Plan 'A', whether or not he has completed registration, is welcome.

A non-credit course in semantics will be offered at 3 p.m., on Mondays, Tuesdays, and Thursdays, beginning to day. Anyone, whether he is

SIU Press Books Reprinted by Dutton

Two books, originally published in hardback form by the University Press, have recently been published as paperbacks by E. P. Dutton and Co., Inc., according to Vernon Sternberg, director of the University Press.

The books were edited by Harry T. Moore of Southern's Department of English for the University Press' "Cross-current" series.

The paperback editions, which were reprinted by Dutton under license by the University Press, are "Essays by Lawrence Durrell" and "The Language of Self, Fredrick J. Hoffman" by Samuel Beckett.

Last Month's Rainfall Total Found Subnormal for Area

May was a dry month, according to the SIU Climatology Laboratory headed by Floyd Cunningham, geographer.

All 16 communities reporting to Cunningham fell below the average rainfall for the month, most of them by two to four inches. Marion recorded the lowest May rainfall in its history, 1.45 inches as compared to the average of 4.58 inches. The greatest amount of rainfall was at Golconda with 3.40 inches, which still fell below the average by half an inch.

The lack of rain had adverse effect on corn and soybean germination, causing uneven stands. The dry weather also took its toll of seedlings that managed to break through the

Two SIU Juniors Get Scholarships

Two juniors in the School of Home Economics at SIU have been awarded scholarships for 1964-65.

Jacqueline Page was selected as the recipient of the \$100 Mary Louise Barnes Scholarship, established by alumni of the school in honor of a retired faculty member.

Judith E. Turnage was awarded the \$50 Delta Theta Tau Scholarship in Home Economics, supported by several area chapters of the sorority.

in the Plan 'A' program or not, is welcome.

Every Wednesday evening at 7 there will be a lecture and discussion.

SIU Coed Raped; 3 Men Sought

Jackson County sheriff's office reported few leads late Monday in their investigation of a rape case involving an SIU coed.

Sheriff's officers said no description of identification was furnished by the girl, who was seized and assaulted by two men while a third restrained her escort, according to the report to the sheriff's department.

The girl and her escort told authorities they had parked on a side road leading to a farm house in an area about five miles west of Murphysboro.

They said their car was approached by another; it could not pass and its driver backed away. A short time later, three men approached the couple's car on foot and seized the girl's escort.

One held the escort while the other two assaulted the girl. The victims reported the attack at 12:25 a.m. Monday, shortly after the three men had left the scene. The attackers threatened both with harm if they resisted, officers were told.

The girl was taken to a local hospital for examination and treatment.

soil. Preemergence herbicides applied for weed control were less effective than ordinarily because of the lack of precipitation needed for them to work properly, according to Lloyd Sherwood, SIU weed and herbicide specialist.

Although rainfall was below average, temperature was above the normal for May by two to four degrees. Average maximum temperatures in the low 80's did not help plants to survive with the minimum of moisture they received.

May rainfall totals as compared to the long range average for the reporting communities are: Anna, 2.31 as compared to 5.20 inches; Benton, 2.56 and 4.07; Brookport Dam, 2.41 and 4.24; Carbondale, 2.19 and 4.68; Chester, 1.86 and 4.47; DuQuoin, 2.36 and 4.15; Elizabethtown, 2.36 and 4.74; Glendale, 2.71 and 3.99; Golconda, 3.49 and 3.97; Harrisburg, 1.74 and 4.01; Marion, 1.45 and 4.58; McLeansboro, 2.86 and 4.13; Mt. Vernon, 3.33 and 4.36; New Burnside, 2.49 and 4.79; Shawneetown, 2.44 and 4.19 and Sparta, 3.22 and 4.44.

LITTLE MAN ON CAMPUS

"AN ON A CLEAR WARM DAY WE HAVE A MOST UNUSUAL VIEW OF ALL TH SUN DECKS IN TH NEIGHBORHOOD."

An Otter, Figaro, Philosophy Highlight WSIU-TV Tonight

Eye on the World will feature an award-winning study of man and nature at 8:30 tonight on WSIU-TV, Channel 8. It is a story of two small farm boys who rescue an otter and attempt to keep it as a pet.

Other highlights:

- 4:30 p.m. Industry on Parade.
- 5 p.m. What's New: This program shows how animals are physically suited to their environments. The viewer sees some good examples of camera pictures telling a story.
- 6 p.m. Encore: Championship Debate 1964.

Marjorie Lawrence's Workshop Taking Opera to Hot Springs

The SIU Department of Music will present its Summer Opera Workshop under the direction of Marjorie Lawrence, professor of music, in Hot Springs, Ark., this summer.

The program, which consists of sacred operatic selections, will first be presented at 7:30 p.m., July 5, in the First Methodist Church. The final performance of the program will be given July 21, in the Crystal Ballroom of the Arlington Hotel.

Participants in the Summer Opera Workshop are: Sopranos, Teresa Andersen, Patricia Anderson, Ruth Adele Batts, Ann Fischer, Kay Gnaul, Aviva Halaban, Dora Jane Ledgerwood, Janet Proctor and Katrina Williams.

7 p.m. Religion and the Arts: This program surveys the spirit of worship as it is manifested in the arts of a number of culture and historic periods.

7:30 p.m. Concert: "The Marriage of Figaro" -- This program was video taped last February and shows Miss Marjorie Lawrence's Opera Workshop rehearsing musical numbers for the student production of "The Marriage of Figaro."

8 p.m. Basic Issues of Man: "The Sentence is Life" -- Using a play format, this program probes the question of whether or not philosophy is of any use to most of us.

WSIU Radio Drama By Bronson Howard

America on Stage will feature "Shenandoah" by Bronson Howard at 2:30 p.m. today over WSIU Radio.

Other programs:

- 10 a.m. Tasters, Toasters & Roasters.
- 10:30 a.m. Pop Concert.
- 1 p.m. Afternoon Serenade.
- 3:30 p.m. Concert Hall.
- 6 p.m. Music in the Air.
- 7:30 p.m. Forum: Should We Concern Ourselves With British Foreign Trade with Both Red China and Russia? Part II.
- 8 p.m. Concert: Schumann "Waldscenen"; Copland "Appalachian Spring"; Dvorak "Symphony No. 4 in G Minor."

Rose Padgett Attending

2 National Conferences

Rose Padgett, chairman of the SIU Clothing and Textiles Department, is attending two national professional conferences this month, the first in Detroit ending Saturday. The National Clothing and Textile Conference there will be followed on Sunday by a field trip to a designer house. She will then go to Chicago for the annual meeting of the American Society for Testing and Materials, scheduled for Monday through June 26.

Convictions of Negro Sit-Ins Overturned by Supreme Court

WASHINGTON—The Supreme Court overturned Monday conviction of 12 Negroes on trespass charges for a sit-in demonstration in Hooper's Restaurant in Baltimore, Md.

Justice William J. Brennan said the court based its decision on the fact that a significant change has taken place in the applicable law of Maryland since the convictions were affirmed by the Maryland Court of Appeals.

"Under the Supreme Court's settled practice in such circumstances," Brennan said, "the judgments must consequently be vacated and reversed and the case remanded so that the state court may consider the effect of the supervening change in state law."

Justice Hugo L. Black wrote a dissenting opinion, in which Justices John M. Harland and Byron R. White joined.

They protested the refusal of the majority to decide the constitutional question.

"We think," said Black, "that the question should be decided and that the 14th Amendment does not forbid this application of a state's trespass laws."

The Supreme Court reached several other decisions Monday.

--It overturned conviction of two Negroes for a sit-in demonstration at a lunch counter in Columbia, S.C.

Justice Brennan, in announcing the court's decision, said the state had punished them for conduct that was not criminal at the time they committed it, and hence there was a violation of the constitutional requirement of due process of law.

--It ruled unconstitutional a section of the Subversive Activities Control Act that denies passports to members of officially designated Communist organizations.

Justice Arthur J. Goldberg, speaking for the court majority, said that the section "too broadly and indiscriminately restricts the right to travel and thereby abridges the liberty guaranteed" by the Constitution. The section, as written, cannot stand, he said.

The decision was given on appeals by Elizabeth Gurley Flynn, national chairman of the Communist party of the United States, and Dr. Herbert Aptheker, editor of "Political Affairs," a party organ.

Soviet Angry Over Flights To Berlin

MOSCOW—The Soviet government said Monday recently inaugurated flights of Pan American World Airways planes from the United States to Berlin are unlawful. It warned that security of the flights could not be guaranteed.

The Soviet position was stated in a note delivered to the U.S. Embassy here.

The Soviet news agency Tass reported a similar note was handed to the British Embassy.

The note declared the flights were regarded as unlawful because they were not agreed upon by the government of East Germany.

Pan American has been operating commercial flights from West German cities to Berlin since World War II. It recently introduced the new direct link from the United States, flying over Communist East German territory.

College Queen Contest Won by Vermont Entry

NEW YORK--A Vermont entry has won the National College Queen contest.

She is Alice Flores Ruby, a junior at Bennington College and the daughter of Mr. and Mrs. Myron M. Ruby of South Orange, N.J.

bert Aptheker, editor of "Political Affairs," a party organ.

Mrs. Flynn, who made an eight-month tour of Communist countries in 1960, and Aptheker were notified in 1962 that their passports were revoked. They sued in U.S. District Court here to have the passports reissued and asked that the law be declared unconstitutional.

--It barred use of a statement obtained by Chicago police from a murder suspect after he had denied the right to see counsel during the police investigation.

The 5-4 decision applied to Danny Escobedo, who was convicted of murder in the shooting of his brother-in-law, Manuel Valtierra. Escobedo was sentenced to 20 years' imprisonment.

Justice Goldberg delivered the majority decision. He said that, under the circumstances of the Escobedo case, refusal by police to honor a suspect's request to consult with his lawyer during the course of an interrogation amounted to a denial of assistance of counsel, in violation of the Constitution's 6th Amendment.

Nothing in the majority opinion would bar the state from putting Escobedo on trial again.

Rights Bill Fight Begins in House

WASHINGTON--The House started procedure Monday that will bring the civil rights bill to the point of final action in 10 days.

As expected, a Southern objection to immediate concurrence with the Senate version of the bill sent it to the Rules Committee where it can be delayed, but not more than 10 days.

A chorus of "I object" came from Southerners after Rep. Emanuel Celler, D-N.Y., chairman of the House Judiciary Committee, made his unanimous consent request to bring up the bill.

The next step is for three members of the committee to write to Chairman Howard W. Smith, D-Va., asking for a meeting.

Smith will have three days to act. Then he can set the meeting not more than seven days from that time.

Johnson Greets Inonu

WASHINGTON -- Prime Minister Ismet Inonu of Turkey arrived Monday for crucial talks with President Johnson, who wants to head off a possible Greek-Turkish military showdown over Cyprus that could wreck the Atlantic alliance.

FOXHOLE

Bruce Shanks, Buffalo Evening News

Kennedy's Condition Described As 'Extremely Satisfactory'

NORTHAMPTON, Mass.-- Sen. Edward M. Kennedy's condition was described Monday as "extremely satisfactory" by his attending physician.

Dr. Thomas F. Corriden, who has been caring for the senator since he suffered a broken back in an airplane crash Friday night, said in a morning bulletin that Kennedy is "bright and alert and asked to see the morning newspapers."

Sen. Birch Bayh, D-Ind., and his wife, who suffered less serious injuries in the accident, are also hospital patients. They were expected to remain at the Cooley Dick-

inson Hospital the rest of the week.

Bayh said Sunday that Kennedy did not have on a seat belt at the time of impact and was half standing talking to his aide, Edward Moss, 41, one of the two men killed in the crash.

The senator is resting on a special canvas rigging instead of a regular hospital bed.

Judge Orders Gov. Bryant To Hearing

ST. AUGUSTINE, Fla.--A federal judge Monday ordered the governor of Florida to show cause why he should not be held in contempt of court for banning night demonstrations in St. Augustine.

U. S. Dist. Judge Bryan Simpson set hearing in his court at Jacksonville at 9:30 a.m. EST Friday on the order.

It was issued in response to a petition by Negroes whose demonstrations at nighttime in St. Augustine were banned by Gov. Farris Bryant as a safety measure after Simpson struck down a St. Augustine municipal ban on nighttime demonstrations.

Named with Bryant in the order were Atty. Gen. James W. Kynes, two officials of St. Augustine, St. Johns County Sheriff L.O. Davis and a state highway patrol officer.

The judge acted shortly after a new clash between Negroes and whites at a public beach in St. Augustine, which has been beset by racial troubles in recent weeks.

Nineteen integrationists waded into the surf at the beach and were immediately attacked by a gang of about 20 white men and youths.

Cubans Order British Buses

LONDON--Cuba placed an order Monday for 300 more British buses--a further installment of a deal that provoked American displeasure earlier this year.

Cuban government officials signed the contract here with Leyland Motors, Ltd., the firm which previous agreed to supply 450 buses to Fidel Castro's government.

The original deal for 450 buses at a cost for \$11.2 million specified that Cuba should have an option on an additional 1,000 buses.

The initial contract, concluded in January, was criticized by the U. S. State Department.

So far, the British government has refused to ban the bus shipments, asserting that buses do not amount to strategic materials.

Architects Told To Design for Handicapped

Future construction must be planned for the handicapped as well as the healthy, an official of the National Easter Seal Society, told an SIU audience recently.

Thomas A. Stein, Chicago, director of the architectural barriers program of the Society, urged persons attending to keep an eye on future construction in their communities, and see that it is planned for use by all people.

"You must do this during the planning stage and not after the plans are drawn," he said. "Be sure your architects are aware of the need of this kind of planning."

Stein, who said one of every eight or nine individuals is disabled physically, counted the aging who are finding it harder all the time to move around.

He said it is predicted that during the next 40 years there will be as much construction developed in the United States as has been built since the days of Columbus.

Stein pointed to steps, narrow doors, and lack of ramps as some of the things overlooked when buildings are planned. Main objectives of his program, he stated, are to determine the extent of these barriers by communities, to build up an awareness program, and try to motivate people into action.

Generally speaking, he said, no excessive cost is involved in constructing buildings with the handicapped in mind.

Stein was introduced by William J. Tudor, director of the Division of Area Services at SIU, which aided in sponsoring the seminar.

Dinner meeting speaker was Timothy J. Nugent.

Doran Takes Part In Safety Meeting

Peter C. Doran, instructor in health education, is in Washington today to take part in the ninth biennial President's Conference on Occupational Safety.

President Johnson will open the meeting which is being attended by leaders from all parts of the nation to study ways to reduce occupational accidents.

The meeting lasts through Thursday.

The Conference theme is "Mobilizing Leadership for a Safety Breakthrough." It recognizes that the Nation's job safety efforts have reached an apparent plateau.

Overall accident rates have remained close to the present level in recent years. In 3 plenary sessions and 13 workshops, the participants will try to devise new techniques, and new applications of tested procedures, to start accident rates again on their long-time downward trend.

They will hear President Johnson restate his interest in the problem. New insights into its various phases will be given by scientists and leaders of business, labor, and education.

W. Willard Wirtz, Secretary of Labor, is general chairman of the Conference. Reed O. Hunt, chairman of the board of Crown-Zellerbach Corporation, is executive director. More than 100 volunteer leaders of business, labor, government, and other fields are engaged in planning the many sessions.

PEACE CORPS VOLUNTEERS MUST FIRST LEARN TO FILL OUT FORMS

Traipsing Off to Unknown

Trainees Sold on Peace Corps, But Parents Are Cool to Idea

By Leonor Wall

"But you won't be coming home on weekends anymore" is a familiar cry of mothers heard often in the homes of the Peace Corps trainees who are spending 12 weeks on campus this summer.

Did this attitude have a negative effect on their decision to enter the Corps?

Indeed not. The fellows as well as the girls are a determined group willing to face 21 months abroad to fulfill their ambitions of excitement, travel and the opportunity to help humanity which, they feel, can be theirs through the Peace Corps.

It was a hot muggy day when the first busload of trainees arrived at SIU. The girls, despite the weather, looked handbox fresh as they stepped down on the campus of Southern. They were just as excited as freshmen students coming to school for the first time.

But being pros at dormitory living, they quickly settled themselves in their new surroundings and began getting acquainted.

The routine here will be a little different from their college days; classes will begin at 7:30 a.m., and continue to 9:30 p.m. They will be studying physical education, health training, world affairs and Communism, area studies, sensitivity training and American studies, in addition to improving their French and learning the native languages of Hausa, Wolof and Pular.

David Cook, a tall, tanned and handsome, Californian from Los Gatos, might have a linguistic edge on some of his fellow associates because his major at the University of California in Berkeley was French, which he improved by a year's study at the University of Bordeaux. He also speaks some German and a little Russian.

Showing signs that the weather was getting to him, Cook explained that he was not accustomed to our humidity. Since he is going to Niger, which he says is hot and dry like California,

he believes he will feel right at home after SIU.

Entering the Peace Corps seems to be a family affair with the Cooks. Dave's brother will be training this summer in California preparing for an assignment in Ghana.

How do parents feel about their sons and daughters going into the Peace Corps? Well, if the answer from Margaret Branham of North Vernon, Ind., is typical, "They don't like it, but they won't say so."

An outspoken parental comment was recalled by one of the girls: "With a college diploma in hand, children

should go out and make money and own a car instead of traipsing off into an unknown world making a nominal salary."

Like girls everywhere, a big problem facing them is "What am I going to wear?" They are allowed 190 pounds of luggage, but have trouble getting in a two-year supply of lipstick, mascara, personal items and clothing.

6 Articles Written By Miss Padgett

Three articles in each of two professional journals have appeared this spring under the byline of Rose Padgett, chairman of the SIU Clothing and Textiles Department.

In the June issue of Institutions magazine, she contributed articles entitled "Facts About Flooring," "Choose Carpets with Care" and "Rating Resilient Floors."

Another magazine, Purchasing Guide for Institutions' Interior Planners, published Miss Padgett's articles on "Selecting Perfect Cover-up Upholstery Fabric," "Make Flammable Fabrics Safe" and "The Inside Story on Upholstered Furniture."

Renzaglia Appointed

To Publication Board

Guy A. Renzaglia, director of the SIU Rehabilitation Institute, has been appointed by the executive committee of the American Personnel and Guidance Association to a three-year term on the editorial board of The Personnel and Guidance Journal, a publication reaching nearly 20,000 professional people in responsible assignments.

SIU Chemist Gets \$32,661 Cancer Grant

Roger E. Beyler, SIU chemistry professor, has been awarded a \$32,661 research grant by the American Cancer Society.

The grant, covering a 20-month period beginning July 1, will finance a study of steroidal alkylating agents. The study involves preparation of steroid compounds for testing against cancer.

Beyler has been working with steroids -- compounds secreted by the endocrine glands, such as sex hormones -- for 15 years. His cancer research also will involve study of alkylating agents, a class of compounds that can interfere with cell metabolism.

Working with Beyler in the study will be George H. Gass, associate professor of physiology and director of the SIU Endocrinology Laboratory. Gass also is conducting cancer research under a \$21,720 grant from the National Cancer Institute.

Beyler, who earlier this year was awarded one of 20 American fellowships given by the Organization for Economic Co-operation and Development for research and study in Europe, was a research chemist for 10 years with Merck & Company, Inc., Rahway, N.J., before joining the SIU faculty in 1959.

A native of Nappanee, Ind., he received his bachelor's degree from North Central College, Naperville, and master's and Ph.D. degree from the University of Illinois.

"Just off Campus"

Influence Like Spokes of Wheel

Complain a Little

"To exalt beauty, to advance learning, to forward ideas and ideals, to become a center of order and light..." These are the words on the high marble in Morris Library. These are the goals of SIU.

Goals, however, are achieved not because things just happen, but because things are made to happen. SIU is making more things happen today in more places than ever before, for as SIU grows, so grows the scope of its influence.

The scope of SIU's influence is becoming worldwide.

This summer, for example, faculty members Harvey I. Fisher and Julian H. Lauchner are in Aleppo, Syria, helping establish a school. Anthropologist Philip Dark is making an archaeological dig in New Guinea, while Walter W. Taylor of anthropology is investigating prehistoric Indian cultures in Mexico.

Fourteen faculty members remain in Viet Nam in an advisory capacity to that government's education program. In addition, SIU is preparing to send a faculty team to Mali. The list of faculty in far-away places goes on and on, with names such as London, Tokyo,

and Athens commonly mentioned.

Students are getting around, too. Fifty-seven are studying at Oxford University in England this summer. Another group is studying in Mexico City. Another group is touring U.S. military bases in the Caribbean. In addition, the Peace Corps has chosen SIU as a training place for its missions to Niger and Senegal.

The name "SIU" is getting around. More and more are its influences expanding. More and more is SIU becoming the hub of a wheel, and the spokes run in all directions.

IRVING DILLIARD

Court Deserves Cheers

Every American citizen ought to be shouting, "Three Cheers for the Supreme Court!" Every one of us ought to be applauding Chief Justice Warren and his colleagues who have made possible last Monday's historic decisions in the equal representation and 5th amendment cases.

But not every citizen will be cheering. Those who have been beneficiaries of the rotten borough system in almost every state and of the double standard in criminal justice will be sorely displeased. They will not want to give up the advantages which have been theirs under the present scheme of things.

These two decisions are of such transcendent importance that it is pointless to try to say one is more important than the other. Each will have profound consequences. Each recognizes needs too long ignored by our elected lawmakers and executives. We can be glad the Supreme court has acted with judicial statesmanship in handling these cases appealed by representative citizens.

Redistricting Strikes Hard

The legislative redistricting decision has received the larger headlines and that is wholly understandable. The 6-3 majority opinion, written by the chief justice and joined by Justices Black, Douglas, Brennan, White, and Goldberg, strikes hard at the

unequal representation that has characterized legislatures, notably state senates.

Applying the equal protection clause of the 14th amendment, the decision puts it up to the states to arrange all legislative districts, senatorial as well as representative, on a basis of "substantially equal" population. Were state legislators faithful to their oaths of office, they would redistrict at intervals without any prod from the courts. But the lawmakers from small, rural districts have been unwilling to give up their unfair advantage.

Faces Bitter Opposition

This decision on the side of equal votes in our legislative process will be bitterly opposed but to no avail. The 1954 public school desegregation decision also was bitterly opposed and also to no avail. In each instance moral and procedural right is on the side of the decision.

The 5th amendment ruling, handed down by Justice Brennan in an opinion supported by Warren, Black, Douglas, and Goldberg, also reverses long-standing precedent. For what this decision does is to say for the first time that the entire Bill of Rights is applied to the states by the 14th amendment.

Now the states must be just as scrupulous in observing the right to fair and speedy trials and the other privileges of accused persons as in guaranteeing the 1st amendment freedoms of speech, religion, press, and assembly.

Irving Dilliard

Chicago's American

So you think 45 cents is too much to pay for a single slice of ham at the Roman Room Cafeteria. So you think that SIU's rock planters and tree movers aren't being fair to the squirrels in Thompson Woods. So you stepped on a fishhook in Campus Lake.

Complain. Complain and write the Daily Egyptian about it. Animosities well-stated is much more formidable than

the rather common, run-of-the-mill, unvoiced type.

There may be times, of course, when you have something good to say about somebody or something. We welcome these expressions of good will as well.

However, whether you're filled with hate or filled with benevolence, try to keep letters to 250 words or less. But let's have some letters.

WW

Book Review

British Politics During Crisis

British Politics in the Suez Crisis, by Leon D. Enstein. Urbana: University of Illinois Press, 1964.

This book is offered as an examination of the way in which the British political system functions. The Suez issue provides the subject matter but this is treated as a case study in which some of the most important elements in the system can be identified and examined.

The bulk of the work consists of an examination of the conflict over policy on Suez in Parliament, in the constituencies and in the wider public sphere. This section is preceded by two important chapters; one gives a concise account of the policy record up to the crisis and after, and the other provides a discussion on the imperial element in British political activity.

The book concludes with a chapter in which certain generalizations concerning the British political system are tested against the behavior of the system during the Suez crisis.

This book is undoubtedly the best example of what might be described as the case study approach to the understanding of the working of a political system that this reviewer has seen. The chapter on the British Imperial Legacy shows an awareness and understanding which it is difficult for any foreign commentator to achieve.

The chapters which follow are developed logically and in

a most satisfactory manner. The one which deals with the Parliamentary Conflict shows a great appreciation for the complexities of the political system, and the one on M.P.s and their constituencies is detailed and is a significant contribution to the understanding of the varying relationships between the two.

The main element which emerged from the crisis, that being the rigid partisan division of opinion on the Governments' action is well documented and investigated. The work also benefits greatly from the very full use made of footnotes and references throughout.

The least satisfactory part of the book is perhaps the last chapter in which the system is examined in the light of its behavior during Suez. This chapter consists of only ten pages and contains some generalizations which may be disputed. One such generalization refers to the supposed increase of power of the prime minister; the complexity of the question is not in doubt but it may safely be said that in no way is the behavior of Sir Anthony Eden at this time to be taken as representing the modern norm.

Nevertheless, observations are seriously made and are not to be dismissed lightly. This study of the British political system provides an excellent introduction for a more detailed analysis for which it surely whets ones appetite.

At SIU for 33 Years

Coach 'Doc' Lingle, 63, Dies; Started Track Program Here

LINGLE HELPS A POLE VAULTER IMPROVE HIS AIM

Funeral services for Leland P. "Doc" Lingle, who coached track at SIU for 33 years, were conducted Monday in Carbondale.

He died in his sleep Friday night. His wife, Dorothy, discovered his death at 6 a.m. Saturday at their home at 424 W. Jackson St.

Lingle had served as track coach until 1960, but he remained on the staff as an associate professor in physical education.

He was born in Cobden on Feb. 25, 1901. His nickname is believed to have come from his physician-father. After graduation from Cobden High School in 1919, he enrolled at Southern and played football and basketball for two seasons.

His coaching career started in Sikeston, Mo., where he was also principal. He returned to Southern in 1926 as a coaching assistant to William McAndrew, who headed Southern's athletic

program after its founding in 1913.

As McAndrew's assistant Lingle started a track program at Southern in 1927. Over the years, his team won 13 conference titles in track and three in cross country.

One of his top athletes was Phil Coleman, who participated in the 1956 Olympics in Australia. Friends of Lingle raised \$1,700 to finance his trip to Australia to watch Coleman run.

In 1952, Lingle was honored for 25 years of service to SIU, and last year, he was named to the Helms Foundation Hall of Fame.

Surviving are his wife, Dorothy; a daughter, Dorothy Anne Ittner of Normal; a sister, Kathryn Turner; and a granddaughter.

Funeral services were conducted at 1 p.m. Monday at the Huffman Funeral Home with the Rev. Charles E. F. Howe officiating. Burial was

in Cobden Community Cemetery.

The family suggested remembrance through an SIU scholarship fund in his name.

LELAND (DOC) LINGLE

Warm High Blamed For Hot Weather

(Continued from Page 1)

of the "warm highs" settles over the southeast.

The five-day outlook for today through Saturday calls for temperatures to average three to eight degrees above the seasonal normal; the normal high is 90 degrees and the normal low is 70 degrees, Waite said.

The record high for June 22 in Cairo was 101 degrees, set in 1960, Waite added.

Cairo is the nearest Weather Bureau station, others are located in St. Louis, Evansville, Ind., and Memphis, Tenn.

Center to Sponsor Trip to St. Louis

The Activities Development Center will sponsor a bus trip to St. Louis and the Municipal Opera production of "Show Boat" Saturday.

The \$2.50 price includes the bus and a ticket for the musical by Jerome Kern and Oscar Hammerstein II.

A bus will leave the University Center at 4 p.m. for the trip. Those wishing to go should sign up in the Student Activities Office by noon Friday.

LINGLE CONFERS WITH HIS RUNNERS. HE STARTED SIU'S FIRST TRACK TEAM IN 1927

3 Tennis Classes To Be Organized

Free tennis classes will be offered to three different groups this summer, according to Carl Sexton, varsity tennis coach and instructor in health education.

There will be a meeting at 9 a.m. Thursday at the tennis courts for women interested in free tennis classes at that time each Tuesday and Thursday, Sexton said.

At 2:30 p.m. Thursday, there will be a meeting for the tennis courts for all boys and girls over nine years of age interested in tennis lessons.

And there will be a meeting at 7 p.m. Friday at the tennis courts for all men and women interested in taking free lessons at 7 p.m. on Tuesdays and Fridays.

Sexton said rackets and balls will be available. Persons taking the lessons must wear flat-soled tennis shoes.

Bus Ride Planned For Baseball Game

The Activities Development Center will sponsor a bus for those wishing to watch the St. Louis Cardinals-Philadelphia Phillies baseball game Sunday.

The bus will leave the University Center at 10 a.m. The cost is \$1.50 for the bus. Those going will buy their own tickets at the box office.

Woods Places 2nd In NCAA Shot Put

George Woods, SIU's stand-out track star, placed second in the shot-put Saturday in the

winning throw was measured at 61-8 which eclipsed his old meet mark of 61-5 set in 1963.

Woods, who failed to qualify for the NCAA meet last year, recorded a hefty throw of 61-2 earlier this season for his career high.

The 6-2, 230-pounder, who almost had his career cut short by a hunting accident two years ago, had won two 1964 NCAA meet titles prior to Saturday's action.

Woods was the only Saluki to participate in the Oregon event.

ROTC to Revamp Training Program

(Continued from Page 1)

basic course, and the basic course is in no sense a prerequisite."

The junior course, OE 300, which will begin next fall, deals with the nature of war, the development of U.S. air power, the organization and mission of the Defense Department, Air Force concepts, doctrine and employment, space and astronautics operations, and future developments in aerospace power.

The senior course, OE 400, will begin in 1965-66. It "provides a study of professionalism, leadership and management as these relate to Air Force officership," the colonel said. "The focus of this year's work is on personal identification of the cadet with his career."

Porter Undergoes 6-Week Training

Jack Porter, curator of education for the SIU Museum, is one of 18 museum specialists selected for a six-week training institute currently under way at the University of Nebraska.

Objective of the program is to enable the museum personnel to round out their backgrounds in the various areas of museum work. Emphasis at this institute is on paleontology, according to Melvin L. Fowler, acting director of the SIU Museum.

Porter, a native of Peoria, joined the SIU Museum staff last December, coming from a position as director of the Historical Museum of South Florida. Holding the bachelor of arts and master of arts degrees from the University of Arkansas, he had served as assistant curator of the University of Arkansas Museum in 1961-62.

SIU Awards Prize In Design Contest

Eugene Lee, a student at Goodman Theater of the Art Institute of Chicago, has been awarded the \$100 undergraduate prize in the third annual Intercollegiate Scenic Design Competition conducted by the SIU Theater Department.

Honorable mention went to Marguerite Seethaler, a student at Long Beach State College, Calif.

The annual competition is sponsored jointly by SIU and the Hub Electric Co. to stimulate students in the art of scenic design and provide scenic designers in the educational theater with an opportunity to exhibit their work, according to Archibald McLeod, chairman of the Theater Department.

EUROPE BOUND - Participants in the SIU-Oxford Summer Program left last week by plane from St. Louis for their flight to Europe. The plan offers either a summer instruction program

at the British university, or transportation for travel in Europe. Participants are shown here preparing to board the airliner that took them to Europe.

Archaeological Team Excavating Indian Sites In Area to Be Flooded by Kaskaskia Dam

Archaeological salvage work in the Carlyle Reservoir by a team from the SIU Museum started June 15 under the supervision of Ross Morrell, research archaeologist.

Last summer's excavations revealed sites occupied by a village of the Middle Woodland culture, which is believed to date back to 2,000 years ago. Other sites represented the Late Woodland culture, dating approximately 800 to 1,000 A.D.

This will be the sixth summer that SIU Museum parties have worked the area to be flooded when the Kaskaskia Dam is completed.

Morrell will be assisted by nine SIU students in anthropology, including Michael D. Southard, David E. Ward, Larry L. Bowles, Sue Palmer, and Lynn Zimmerman, all graduate students, and Nancy Harper, Richard J. Orlandini, Susan Fields and Jerry C. Cummings, undergraduates.

Morrell, whose home is in Panama City, Fla., holds a bachelor's degree from Florida State University and the master's degree from the University of Alabama. For the past three years he has been assistant archaeologist at Mounds State Monument in Alabama, and spent the sum-

mers in field work for the University of Alabama. He had previously done archaeological field work in Florida and Georgia.

He plans to work toward the doctoral degree in anthropology at SIU. His wife and daughter will remain in Panama City, Fla., this summer.

Report Will Be Given On SIU Forestry Study

Robert Merz of the Forest Research Center at SIU will give a report on "Maple Yield Study" at the Hardwood Action Council in Madison, Wis., June 30-July 1.

GEORGE WOODS

National Collegiate track and field meet at Eugene, Ore.

The big Sikeston, Mo., junior chucked up a respectable throw of 60 feet, 4 3/4 inches behind New York University's defending NCAA champion, Gary Grubner. Grubner's

Howards Selected To Attend Stanford Research Institute

Irving Howards, acting director of the SIU Public Affairs Research Bureau, is one of 25 sociologists and political scientists from throughout the nation invited to a six-week research training institute at Stanford University, beginning July 13.

The institute, sponsored by the Social Science Research Council, is designed to introduce new mathematical theories, concepts and methods applicable to participants' respective fields of research, and to strengthen their backgrounds in basic mathematics to provide tools for a more scientific analysis of human behavior.

Topics of study include models of social interaction, theories of rational decision, theories of power allocation and theories of political representation. Related instruction will be offered in underlying principles of mathematics.

Graduated Athlete Joins CCHS Staff

Larry Wagner, former SIU football player, has been named head wrestling coach at Carbondale Community High School.

Wagner, who received a bachelor's degree in physical education at last week's commencement, will also be assistant football coach.

A native of St. Louis, he was graduated from Ritenour High School, Overland, Mo., and played varsity football at SIU three years.
