Congressional hopeful outlines platform to seek Simon’s seat

By Karen Terry

Declaring that “It’s time we have a representative who can truly represent our district,” James Griffith of Sandoval on Thursday became the first Curtis congressman to announce his candidacy for the 22nd District congressional seat.

Griffith, 38, an independent-architectural and engineering inspector, said U.S. Rep. Paul Simon, who is forecasting his congressional post to run for the U.S. Senate, has not staked close enough touch with his constituents.

“I feel that he has exercised a lot of views that were not particularly representative of Southern Illinois,” Griffith told reporters outside the Marion Country Court House in Salem.

“It’s time for a change.”

If elected, Griffith said he would have a toll-free telephone number in his district office which constituents could call to discuss problems and opinions on issues. He said those opinions would determine his actions in Congress.

“I don’t have all the answers,” said Griffith. “I’m going to try to depend on the people to give me the answers.”

Developing the coal and petrochemical industries is a key problem facing Southern Illinois, according to Griffith who said he will support federal legislation to promote the use of coal.

Griffith said the environmental impact of using high-sulfur coal should be more readily evaluated. He said there is no need to sound like an environmentalist, but “I’d be lying saying their banner.”

A Pennsylvania native who moved to the Sandoval area in 1975, Griffith said he plans to seek clear of special interest groups “as much as is feasible” during his campaign and will accept no contributions from political action committees.

“We don’t have the monetary resources to conduct a massive campaign,” he said, remarking that he will devote a “considerable amount of time” to campaigning.

Griffith, who has never held elective office, said he considers it a challenge, not a disadvantage, to seek election against opponents who have name recognition and experience in government.

“I have as much chance and opportunity as anyone who chooses to throw his hat in the ring,” Griffith said. “State Sen. Kenneth Buchter, D-Carbondale and former U.S. Rep. Ken Gray, of West Frankfort, both have declared their candidacies for the Democratic nomination.”

Reagan names new secretary of the interior.

WASHINGTON (AP) — President Reagan on Thursday named his national security adviser, William P. Clark, to succeed James Watt as secretary of the interior.

“Watt is a good-looking Westerner, a four-generation rancher, a person I trust and I think he will be a great secretary of the interior,” Reagan said.

The president made the announcement at the end of a talk to seven leaders of Christian religious organizations.

“I think he is succeeding a very fine secretary of the interior,” the president said.

Reagan told his audience that “I want to share with you a decision that I’ve just made. After examining the records of more than two dozen fine potential nominees for the position of secretary of the interior, I have decided to turn once again to someone who has been a trouble shooter and a result-oriented professional.

“Watt is a good man of pleasure. I tell you that I regret accepting his resignation for national security affairs. Judge Bill Clark, be my nominee for the interior,” Reagan said.

Clark once was Reagan’s chief of staff when Reagan was governor of California. Reagan See INTERIOR, Page 2

Murder charges added in arson case.

By Jennifer Phillips

Two Murphysboro residents, already facing federal arson charges, were charged Thursday with murder of a 68-year-old man who lived on Jan. 15 in a blaze which swept through a block-long Murphysboro business and apartment complex.

The victim, Ralph H. Wayman, lived in the top apartment at 12th and Sth St. and, because of arthritis in his feet, was unable to flee the fire, which occurred Jan. 15. Jackson County State’s Attorney John Clemens said the murder charges, added to the case, were the result of a “look-into” which occurred Jan. 15.

Kenneth Ellis, 29, and Margaret Lee, 43, both of Murphysboro, were charged with causing Wayman’s death and attempted murder.

Ellis was indicted for arson by a federal grand jury in March and is still in federal custody under $1 million bond. His trial is scheduled within the next two weeks at the U.S. District Court in Benton.

Lee was arrested about 10 a.m. Thursday in Murphysboro, Clemens said, and is low in See CHARGES, Page 2

An electrical problem of unspecified nature was reported by Capt. Lester Smith before the twin-engine Air Illinois commuter plane went down Tuesday night near Pinedale, killing 12 of the 14 people on board, a federal official said Thursday.

Paul Furman, a spokesman for the National Transportation Safety Board, said the 44-passenger craft, dropped down to a 1,000-foot altitude after a few moments, at that time he reported an electrical problem to the control tower at the Springfield airport.

Starting the point that investigators lacked complete data.

Staff Writer

An electrical problem of unspecified nature was reported by Capt. Lester Smith before the twin-engine Air Illinois commuter plane went down Tuesday night near Pinedale, killing 12 of the 14 people on board, a federal official said Thursday.

Paul Furman, a spokesman for the National Transportation Safety Board, said the 44-passenger craft, dropped down to a 1,000-foot altitude after a few moments, at that time he reported an electrical problem to the control tower at the Springfield airport.

Starting the point that investigators lacked complete data.

Illinois State Police Cpl. Don Hayes helps pull a John and Arilla Fisher from the muddy waters of a pond on the property of neighbors. The plane crashed Tuesday at 9:10 in the morning and the only survivor was Fisk, 3 miles northeast of Pindale.

NTSB arrived at the farm of John and Arilla Fisher. They began the process of marking off areas that were covered with hints of the plane. They lay down the distinguishing parts.

By Thursday afternoon representatives of Rolls Royce, maker of the engines used in the small prop jets, the plane’s manufacturer, British Aerospace; the Aviation Administration; and an investigator from the Air Traffic Control Center at Hannibal, Mo., had begun to decipher the mangled metal.

According to Goldman the “black boxes” — the voice and flight data recorders — were found by local residents and have been sent to Washington. The tapes inside the voice and flight data recorders were interpreted but not made public for several weeks.

The crew will begin looking at these magnetic tapes, which See CRASH, Page 3
Investigators work to identify last two plane crash victims

By Anne Flaza

Eight of the 10 bodies of those killed in the crash of Air Illinois Flight 710 were positively identified late Thursday, and seven of those eight have been released to their homes, a spokesman said.

George Poston, associate professor of mortuary science, said the Perry County Coroner's Office and a three-man FBI team specializing in identification have identified the bodies through fingerprints and dental records.

Those who have been positively identified are:

- Richard Baker, 47, coo-ordinator of the SIU-C Rehabilitation Institute Administrators Program.
- Regina Poll, 32, of Chicago, a retraining coordinator for the Teamsters Local 743.
- Capt. Lester Smith, 32, Route 5 Carbondale, employed by Air Illinois since 1978.
- Barbara Huffman, 29, Rural Route 4 Murphysboro, a senior flight attendant employed by Air Illinois since March, 1979, of St. Louis, Mo., owner of a computer software company that fired him out of his home in Barrington.
- Judy Chantos, 36, of Springfield, and her 2-year-old son Jonathan.
- Jerome Brown, 32, of Homewood, assistant supervisor for the Illinois Department of Labor.
- The body of Jerome Brown, identified late Thursday afternoon, is expected to be released Friday morning.
- Poston said he could not estimate when positive identification of the two remaining bodies would take place. They are believed to be those of Gerneno Lorenz, 29, director of the SIU-C Rehabilitation Institute.

American goods, the United States has responded with similar sanctions on that nation's products.

The United States should not be used as a show of force against an independent country, Griffith said, emphasizing that he is not against American intervention in Lebanon, but opposes what he called the "handcuffing" of troops. "They're supposed to be defending the country, but they're not allowed to defend themselves," Griffith said. "They can't keep them at home," he said. Otherwise "we're wasting millions of dollars!"

"Personally, I am opposed to communism," Griffith said. "The communists are using armed mercenaries to impose their will upon other people..."

CHARGES from Page 1

federal custody in St. Clair County after an initial court appearance in Benton.

Bond for the arson charge was set at $100,000, the Jackson County murder charge, according to Clements.

Six people were injured in the fire and at least 14 businesses and 10 apartments were destroyed. Seventy-five to 100 firemen from 12 fire depart-

compared with the time it took to extinguish the blaze, which caused $75 to $100,000 in damage.

The damaged area was located at Wall Street, between 10th and 11th Streets, across from the Jackson County Courthouse.

Clements said the investigation was a good example of federal and state agencies working together to solve a case.

News Round-Up

More than 1 million mourn leaders

SEOUH (AP) — With tears and wailing, incense and flowers, at least 1 million South Koreans massed under sodden skies Thursday for the funeral of top officials killed in the bombing. The government called it a "heinous atrocity" carried out by Communist North Korea.

Sirens sounded across the nation as rainy morning to signal a moment of silent tribute at the start of the funeral in a plaza on Yodda Island in the Inon River that runs through Seoul. Among those killed in the Rangum bombing Sunday were four Cabinet ministers.

Show helps parents find children

LOUISVILLE, Ky. (AP) — A 3-year-old boy has been reunited with his mother after an 11-month separation, bringing to at least two the number of missing children returning home because of a TV movie about child abduction shown earlier this week.

Phyllis Clark and her Justin returned home Thursday, one day after their reunion in Georgia where authorities located the missing boy with his father.

Justin was last seen at his Bardstown home on Nov. 11, 1982, when his father, Owen Douglas Clark, picked him up for a weekend visit as part of a ruling in a custody battle.

Israeli finance minister resigns

JERUSALEM (AP) — Finance Minister Yoram Aridor resigned Thursday, hours after he proposed a revolutionary scheme that would have linked the Israeli economy to the American dollar.

Aridor's plan to solve Israel's economic crisis was immediately assailed from all sides. Opposition said it would surrender Israeli independence and turn the country into "remote U.S. satellite." The Cabinet called an emergency session to discuss it, and a few minutes after the meeting began Aridor emerged and announced his resignation.

Protestors blockade U.S. base

BREMENHAVEN, West Germany (AP) — Mounted riot police dragged away 255 anti-nuclear protesters Thursday but demolished six anti-atom bombs. One protester said it would surrender Israeli independence and turn the country into "remote U.S. satellite." The Cabinet called an emergency session to discuss it, and a few minutes after the meeting began Aridor emerged and announced his resignation.

The demonstration was the start of a three-day protest against NATO deployment of new U.S. nuclear missiles in Western Europe. It marked the start of a series of anti-nuclear protests scheduled around West Germany in the next 10 days in what the peace movement bills as its "bellbottom."
The Chicago suburb of Homewood: Regina Polk, 33, of Chicago; and Dallorh Barrington.

According to investigation team member Paul Baker, the plane was heading in a northerly direction when it went down. The crash site, which spanned an area some three-fourths of a mile long, was 25 miles north of Carbondale.

Prior to the crash several area residents reported hearing noises that sounded like "the engine cutting out." Baker declined to comment on why the plane may have been flying in the opposite direction of its destination nor of why the craft may have circled the area.

A memorial service for Baker, 47, are being handled by Huffman Funeral Home, 210 W. Old St. in Carbondale.

The son of James and Cody (Collins) Baker, he was born in Pittsburgh, Pa., and married Yolanda T. Garcia in 1982, replacing Richard V. Baker of Knoxville, Tenn. and Kristopher Baker of Carbondale; a daughter, Kimberly A. Baker of Dallas, Texas; his parents in Biltmore, N.C.; a sister, Suzanne Magine in Deerfield and a brother, Col. John Corley in Salinas, Calif.

A memorial service at the funeral home will follow cremation. A specific time has not been set. There will be no visitation.

Arrangements for 37-year-old Capt. Lester H. Smith, who was in charge of the plane when it crashed, are being handled by Lawrence B. Baker, funeral home in Arlington Heights.

Born in Mount Prospect, he is survived by his parents, Joe and Mary Smith of Mount Prospect; a sister, JoAnne DesRochers of Colorado and a brother, James Smith of Wyoming.

Memorial service planned Sunday for SIUC employees

INTERIOR from Page 1

appointed him in 1973 to the California Supreme Court.

In 1981, early in Reagan's presidency, Clark was summoned from California to become the deputy secretary of state. This placed a long-time Reagan confidant in a key job under then-Secretary of State Alexander M. Haig.

He was named national security adviser February 1982, replacing Richard V. Allen.

Watt resigned on Sunday, pending the nomination and confirmation of a successor.

The interior secretary, besieged for a remark 18 days earlier about "a black ... a woman, two Jews and a cripple" on a coal loading dock, was no longer able to perform his job.

Others killed in the crash Tuesday were: Mrs. Judy Martin, 36, of Springfield and 2-year-old son, Jonathan; Jerome Brown, 52, of the Chicago suburb of Homewood; Regina Polk, 33, of Chicago; and Dallorh Barrington.

According to Cpl. Don Mayes, of State Police District 13 in Du Quoin, that the divers were working in two-man teams for two-hour periods throughout the search.

USAR had a total of five divers from around the state at that time.

Bodies of the ten victims were removed Wednesday to the mortuary science laboratories at the 5-hotel of Technical Careers on the SIUC campus.

Among those dead were two administrators from the University's Rehabilitation Institute, Jerome Lorenz, 39, director of the institute, and Richard Baker, 47, coordinator of the institute's Rehabilitation Administrators Program.

Also dead as dead were the three members of the flight crew: Capt. Lester Smith, 36, of Route 4 Carbondale; First Officer Frank Tudor, 28, of DeSoto; and flight attendant Barbara Huffman, 29, of Chicago.

Arrangements for 28-year-old Frank S. Tudor of De Soto, was a native of Bradenton, Fla. His funeral arrangements are being handled by Shannon Funeral Home in Bradenton.

In Bonsberg, Ky., to Mary and Tudor May, he is survived by his parents; a brother, Frank Tudor of Tallahassee, Fla.; his fiancée, Jonnie Sue Measels of Champaign and his maternal grandmother, Mrs. Claude Wall of Richmond, Ky.

Visitation will be from 4 to 9 p.m. at St. Emik's Church in Mount Prospect. Burial will be at All Saints' Cemetery in Des Plaines.

Who's on first?

RESPONSIBILITY for taking the next step toward acquiring a library storage site rests on the shoulders of SIU-C officials, who are advising the state Capital Development Board to agree on a price with one of three buildings listed as possible sites for library storage. These include the Bracy Building in Marion, the Wal-Mart building in Carbondale and the Baptist Student Center building on a corner of Campus Drive.

But CDB officials say they can't make an offer to any owner until the Bureau of Land Management steps up to the plate and says they won't release the funds until the University states its preference for a specific site.

The University, in turn, says it has done this — by making clear in a prior list that Bracy, a grocery warehouse, was SIU-C's first choice.

So who's on first?

A CinemaScope saga of ads ... and anger

I am writing this letter not to engage the ad from a firm that has been involved in a battle in the editorial page, but simply to render an aspect of Ad Land. I am a 24-year-old man who has spent six years in the Armed Forces. I have traveled to 16 different countries and have visited many of the great sites. Of course, I know what it means to enjoy the simplicity of life and freedom. I read the DE every day at lunch and I feel it is time for an observer's viewpoint.

It seems that the editorial page is becoming a bastion for fundamentalist Christians and homosexuals. Though they are not the only battle that has or is being fought, it does seem that their issues are prevailing. It would be very redundant to say we should all try to live together in peace and harmony or that love makes the world go 'round. It would also be naive of me to be the fundamentalist Christian who he lashes out at his fellow man if he has the love of God in his heart, or why a homosexual

ashes out towards a person who is close-minded in this society when the gay community is trying to be accepted in the mainstream society. They rank so high that they are not doing this just to be in the minority, but to influence peers by being an example to others.

No, I am sure they believe in a cause more than that. It will steer around these questions.

I would like to commend you guys on your beliefs and your voice in your fellow Americans. You realized that the average observer is too open-minded and intelligent to be a negative opinion about every fundamentalist Christian or every homosexual they come in contact with just because you stand up for your beliefs in the editorial pages of the DE. Why, if they did something like that, why, that's un-American! So keep the battle roaring, you are making progress. (A man once said, "Help me, Lord. I am about to die.") — Joseph Snyder, J-Better, Accounting.

University Studies gets big 'thnx you'

As the "Woody Hall shuffle" gets geared up for another semester and someone takes to moment to illuminate a calm area in Woody Hall — the University Studies Office.

Those of us who are majoring in English, drama, film, journalism or any other program celebrating its 10th birthday — find registration a painless experience. As a senior I am graduating senior I'd like to put in a big thank you to Dr. Kiker, and her staff, for making Woody Hall a "home away from home" — Joyce Fliger, Senior, University Studies.

An attention-getter?

Here at First Presbyterian Church we've been wondering how we could publicize our new series of noon Sunday informal worship services. I just had an idea. I'm going to suggest that our pastor, Duane Leitcher, hold one at the north end of the Student Union, and the one in L.A. is not in service.

This means one of three things: either the outfit folded, moved or is so busy that it disconnected its phone to avoid any new business. At any rate, veiled "movements" are suddenly a bit harder to get. "We're not moving. Just hold on and we will have to stop piping up about them, at least until they can find the jeep company they're so mad at.

The ad said they had an office in New York and one in Los Angeles. Well, they don't have a phone listing in New York, University, and the one in L.A. is not in service.

Students suffer alcohol results, study shows

By John Racine
Staff Writer

Between the ages of 18 and 25, most people consume more alcohol than during any other student experiences some sort of academic problem related to alcohol use and attitudes at SIU-C.

One of the chief engineers of that study—which covered the years 1978 to 1980—is Jack McElti.

McElti, who also acts as an associate professor of psychology, said the report is still a valid reflection of college alcohol use and attitudes at SIU-C.

Liquor producers promoting idea of using alcohol moderately

By John Racine
Staff Writer

It's similar to the warning on a pack of cigarettes, but this label is now on many of the country's most popular bottles of liquor.

For one distiller the message is simply, "Enjoy it in moderation."

That simple slogan can be found on the back label of many of the country's most popular bottles of liquor.

For one distiller the message is simply. "Enjoy it in moderation." That simple slogan can be found on the back label of any bottle of Bacardi Imports Inc. products - makers of the America's largest selling brand of rum.

Liquor producers such as Seagram Distillers, an acknowledged industry leader in promoting moderation, suggest moderate consumption in its year-round advertising.

Earlier this year, Rep. George Brown, R-California, introduced legislation to prohibit a business tax deduction for any liquor advertising. At the same time he reintroduced legislation that would require the following warning: "Warning: Using this product too fast may cause sickness or death, may impair driving ability, may create dependence or addiction and during pregnancy may harm the unborn."

Gideon Rabin, a spokesman for Seagram Distillers Inc., said, moderation has been part of his company's advertising programs since the repeal of Prohibition in 1931. Traditionally, Seagram's has concentrated its warnings in advertising during holiday seasons such as Christmas, New Year's Eve and Independence Day but more recently has added a warning to several of its major advertisements.

"We've always been concerned about misuse," Rabin said, "but now I think so is society in general, especially in the area of drunk driving." Duncan Cameron, a spokesman for the industry's trade association, Distilled

See LABELS, Page 7
Spirits Council of the United States, says that the move to add a warning label can be recognized as a move to show that distillers are ready to shoulder some of the responsibility for the dangers of their products.

"I think what is essentially happening is that we realize that as an industry, we can only be as healthy as our customers," he said.

In the past the Distilled Spirits Council has undertaken the task of spreading the message of moderation. Now the trend calls for individual distillers to spread the message against overindulgence.

"I think what is essentially happening is that we realize that as an industry, we can only be as healthy as our customers," he said.

Joe Jackson — "Mike's Murder Soundtrack"

The narrative around the new Michael Jackson album has been dominated by the release of "Thriller," which sold over 10 million copies in the first week. However, another album that has received critical acclaim is "Mike's Murder Soundtrack." This album was released on November 18, 1980, and features a collection of songs that were written by Jackson in the late 1970s.

Jackson's presentation of his music is a departure from his previous work, which has been characterized by a more upbeat and dance-oriented sound. "Mike's Murder Soundtrack" is a darker and more introspective album, with songs that explore themes of love, loss, and the struggle for identity.

The album opens with "Becky's Dead," a song that features a piano and a guitar riff. The song's lyrics are a meditation on the loss of a loved one, and the singer's struggle to come to terms with their death. The song's melody is haunting, and the vocals are both powerful and vulnerable.

The second song on the album is "The Great Unknown," which features a more upbeat rhythm and a catchy hook. The lyrics speak to the uncertainty of life and the desire to know what lies ahead.

"The Great Unknown" is followed by "The猎手," a song that features a powerful drum beat and a soaring vocal line. The song's lyrics explore the idea of hunting for love, and the singer's determination to find their perfect match.

"Mike's Murder Soundtrack" also features a duet with Boy George, "Love Is a Wonderful Feeling," which is a soulful and romantic ballad. The song's lyrics speak to the power of love, and the singer's desire to make the world a better place.

The album concludes with "I'm a Mother," a song that features a driving beat and a powerful vocal performance. The song's lyrics are a meditation on the role of a mother, and the singer's commitment to providing for their family.

"Mike's Murder Soundtrack" is a critically acclaimed album that has received widespread praise from both critics and fans. The album's release was a turning point for Jackson, and it helped to solidify his reputation as a talented and innovative musician.

‘Never’ is merely 20 years of reruns

By Robert A. Howard
Student Writer

Twenty years ago Sean Connery fascination the world with his portrayal of Ian Fleming’s suave, dynamic and womanizing secret agent 007, James Bond.

The first film, released in 1962, was titled “Dr. No” and involved an evil scientist bent on destroying the world, only to have his plans foiled by 007.

Five films later and the plot still remains the same, with Bond saving the world so many times that he fell in a close second behind John Wayne.

Tired of playing the role, Connery gave way to British actor Roger Moore, after the release of “Diamonds Are Forever” in 1971.

But before Moore, two other British actors were 007 for a movie each: David Niven in the first film, “Casino Royale” (1967), and George Lazenby in “On Her Majesty’s Secret Service” in 1969. So the really big hype of the Bond franchise was Connery.

The first thing I noticed about this film was that it was not produced by Albert R. Broccoli and Harry Salzman, who put out the majority of Bond films.

This film is produced by Kevin McClory, who also produced my personal favorite, “Thunderball.” The film was based on a story by McClory, Jack Whittingham and Ian Fleming — and so is “Never Say Never Again.”

First, let me say a word or two about the plot of “Thunderball.” It is the story of one of SPECTRE’s (Special Executive for Counterintelligence, Terrorism, Revenge and Extortion) top agents, Largo, who uses his mistress to get access to her brother, a military officer, so that he may steal two atomic devices and use them to extort money from the world by means of nuclear threat.

In “Never Say Never Again,” a SPECTRE agent by the name of Largo (Klaus Martin Brandauer) uses his mistress to get access to her brother, a military officer, so that he may steal two atomic missiles and use them to extort money from the world by means of nuclear threat.

At this point I must say, I love an original script. And perhaps the next time Connery plays Bond they’ll find one. Since he hasn’t played the role in 12 years, he decided to remind everyone of that point by dragging through the role the way I get out of bed with a hangover. But who could blame him? I mean, let’s face it, he really had to do was show up for work.

His name is what carries the film. And speaking of showing up for work, Max Von Sydow’s portrayal of Ernst Stavro Blofeld, the man who always stroked the white cat, but whose face you never saw, was so pathetic it didn’t deserve to be shown.

But no Bond movie review would be complete without mentioning the ladies in the film. Actress Barbara Carrera, and I use that term lightly, is baring good that beauty has nothing to do with talent. But I must admit she looked good in some costumes that look as if they were designed by a kindergarten finger-painting class. One of the highlights of the film, besides the previews of the next “JAWS” movie in which Bond they’ll find one.

The rest of the film you’ve already seen — if you caught “Thunderball” on television a couple of weeks ago.

As a film reviewer and not a critic, I refuse to say whether the film is good or bad, as that is entirely a matter of personal taste. But I will say that I’ll never see “Never Say Never Again” again.

Collegiate Talent Showcase
seeking entertainer entries

From rock to classical, rhythm and blues to Gospel, to comedy, dance to drama and variety, the American Collegiate Talent Showcase offers opportunities to talented college students in every area of the performing arts.

This year marks the third year of the American Collegiate Talent Showcase at New Mexico State University. Entries are being accepted through Feb. 24.

Participating students become eligible for cash and scholarship prizes, live performances, television appearances, travel, and college tours and auditions.

ACTS judges represent the industry’s most noted talent agencies, management companies, record companies, trade magazines, publishing companies, public relations firms and entertainment oriented organizations.

The national finals will be held at the American Theatre Company, campus organizations and faculty and staff members also have the opportunity to obtain scholarship money for their students by becoming involved.

Persons desiring more information may contact: ACTS, Box 3ACT, New Mexico State University, Las Cruces, N.M. 88003.

CAN YOU BUY GOOD TASTE?
Yes! Now you can acquire good taste for a couple of bucks. Just wear shirts and visors that say "Dos Equis." After all, those foreign words and alligators have good taste.

So, order your kind of good taste in Dos Equis sports wear today. And remember to eat your peanut butter and jelly sandwiches over the sink.
McDonald's widow is frontrunner

ATLANTA (AP) - Opponents accuse Kathryn McDonald of exploiting her husband's death and hiding from debates. But she is still considered the front-runner in next week's special election for his unexpired congressional term.

Larry McDonald was among 269 people who died when a Korean Airlines jumbo jet was shot down Sept. 1 by a Soviet fighter plane. His 34-year-old widow, dressed in somber colors of mourning, told voters in a recent television ad: "I want the world to remember Larry McDonald and what he stood for. I need your vote to carry on."

McDonald, an ultraconservative Democrat who was president of the John Birch Society, was serving his fifth term in Congress.

Mrs. McDonald, backed by her husband's key supporters, is one of 19 candidates for the seat from Georgia's 7th Congressional District, a conservative enclave stretching from Atlanta to the Tennessee line.

With a well-known name and ample funding, Mrs. McDonald is expected to run strongly in next Tuesday's nonpartisan election. But the ballot is so crowded that no candidate is considered likely to win a majority, meaning there would be a runoff Nov. 8.

Most of the other candidates have avoided direct attacks on Mrs. McDonald. But George Pullen, a Rome junior college history professor, last month charged that one of her fundraising letters was "one of the most cynical uses of a tragedy with a well-known name and for political purposes ... in the history of this state."

School board incumbents gain teachers’ endorsement

Two incumbents seeking reelection to the Carbondale High School District 105 Board of Education have won support from a district teachers group. They were re-elected Board candidates to be endorsed Wednesday by the Carbondale High School Committee on Political Education.

Michael K. Altreker, Gb Gerlach and incumbent Arthur A. Black were endorsed for four-year terms. Don Boone and incumbent Larry Young were endorsed for two-year terms.

This is the first time in about 10 years the teachers group has campaigned in support of superintendent, Emmie said. He said the large number of seats up for reelection was one reason for issuing endorsements this year. Lee Taylor, president of the committee, said in a press release that the candidates “represented an excellent blend of experience and fresh ideas.”

Nine people seek election to the board. The five receiving support were chosen in a vote by 62 of the district’s 84 teachers.

Emmie said all the candidates were given an opportunity to submit a questionnaire to the teachers and attend a question-and-answer period held Wednesday night.

Incumbent Board President Robert Brewer, who is running for a four-year term, and board member Barbara Bennett did not receive endorsements.

Japanese school offers free housing for American prof

Kansai Gaidai University of Foreign Studies in Osaka, Japan, is offering free housing and utilities to one or two professors who would like to teach in Japan for one semester or one year.

The subjects taught do not have to be related to Asia or Japan. Anything except natural sciences will be acceptable. The courses will be offered to students enrolled in the Asian Studies Program.

Interested professors should send a list of curriculum to be taught at Gaidai and the proposed period of stay to President Keiichi Ogura, Hirakata City, Osaka, Japan or may call 0728-51-8751.

Soccer tourney set for weekend

The first round of the third International Soccer Tournament at SIU will kick off at McAndrew Stadium this weekend. Sponsored by the Wellness and Recreation centers, the event is scheduled to begin at noon Saturday with a match between Malaysia and China.

Ten teams will participate in the tournament, which will be divided into two competing groups. The winning teams from each group will play for the championship. On Saturday the matches are scheduled as follows:

- Malaysia vs. China at 12 a.m.
- U.S.A. vs. Greece at 2 p.m.
- Venezuela vs. U.N. at 3:30 p.m.
- Pakistan vs. Greece at 4 p.m.

On Sunday the matches are scheduled as follows:

- Malaysia vs. Palestine at 12:30 a.m.
- Venezuela vs. Japan at 2 p.m.
- China vs. Greece at 3:30 p.m.
- U.N. vs. Africa at 4 p.m.

The semifinals of the tournament will take place on Nov. 12.

Rec Center offers aerobics; exercises set to popular music

By John Stewart
Staff Writer

A group of nearly 80 people - mostly women - stretch, jump, dance and otherwise confort their bodies in an effort to feel better. The exercises are called aerobics and it increases oxygen and blood flow in the body and improves the condition of the heart.

The Recreation Center offers 11 aerobic dance classes weekly, giving students an opportunity to increase their fitness and work off stress and tension, according to Sue Johnson, a senior in public relations and an aerobic dance instructor.

"Aerobics are a great tension reliever," said Johnson, who leads the aerobic exercises set to popular music Monday and Wednesday nights. Johnson said aerobic dance develops flexibility, coordination, and cardiovascular strength. Aerobics can aid in weight reduction and in developing clearer thinking by allowing more oxygen to reach the brain, she said.

Aerobics are a great source of relief from other obligations. "When I'm having a bad day aerobics pick me up," Johnson said. Exercise also improves one's attitude and motivation, she said.

Johnson's exercise routine alternates between standing and floor exercises, while she tries to work on every major muscle group. She usually starts the hour-long sessions with stretching, then works to sidebends, leg exercises, and all kinds of other aerobic-dance moves.

Johnson's dance classes work out to songs from "Flashdance," Michael Jackson's "Thriller," the Eurythmics, and several others.

See AEROBICS, Page 13
Said her job going when they’re tired, she said. Motivated, but the music helps. She said that sometimes when the group starts into a difficult exercise she hears moans, “but I know they’ll do it.” This month dance class is fun-raising for the American Heart Association. Sponsors will donate money to the AHA based on how many hours participants dance in a given week. The “dance for heart” program is a locally implemented part of a nationwide fund drive to provide money for heart research and treatment, according to Brian O’Brien, AHA spokesman.

Dance classes are open to all students and start at 3 p.m., 4 p.m., and 5 p.m. on Mondays, 3 p.m. and 4 p.m. on Tuesdays and Wednesdays, 4 p.m. and 6 p.m. on Fridays, and 3 and 4 p.m. Saturdays.

The idea for SOS originated with President Albert Somit, she said. Harry Wirth, director of Service Enterprises, and Debbie Lindrud, director of Placement Services, put together SOS.

Several people have called to ask about the service, Koehler said, but no one has been hired yet.

“She’s also gotten excited. People are telling employees that they hadn’t had in the past,” Koehler said. Departments can interview prospective office help or SOS can send the person it determines as the most qualified for the job.

AEROBICS from Page 12

"Sweet Dreams," the Talking Heads, and the Archies. About 60 percent of the dancers in Johnson’s classes are women.

"Men think the class is mainly dancing, like ballet, but aerobics are really quite different," she said. Aerobics aren’t unmanly at all, she said, as many professional football players use aerobics to keep in shape during the off-season. She concedes that many of the leg exercises are difficult for men.

Consistency and regularity are keys to getting the most from aerobics. Most dancers start to feel remarkably better after a month of three-times-a-week aerobics sessions.

"You don’t notice being in shape until you run up a flight of stairs and you don’t breathe heavily," she said.

Dance instructor Johnson said her job is gratifying. Her role is to help dancers keep going when they’re tired, she said.

"I have to keep them motivated, but the music helps." She said that sometimes when the group starts into a difficult exercise she hears moans, “but I know they’ll do it.”

TEMPORARY CLERICAL POOL

By Debra Colbun Starr Writer

Departments seeking secretaries or clerical workers don’t need to search any longer. Short-Term Office Service, a program designed to meet short-term service needs of campus departments began Monday.

It is used to take a minimum of five days for offices on campus to hire an extra clerk. Now, under SOS, an employee can usually begin the next day or even the same day in emergency cases.

Under SOS, a pool of 15 applicants is available for hire at a rate of $4.69 to $5.44 an hour and their employment period can last up to four weeks. Departments can interview prospective office help or SOS can send the person it determines as the most qualified for the job.

Aerobics aren’t unmanly at all, she said, as many professional football players use aerobics to keep in shape during the off-season. She concedes that many of the leg exercises are difficult for men.

Consistency and regularity are keys to getting the most from aerobics. Most dancers start to feel remarkably better after a month of three-times-a-week aerobics sessions.

"You don’t notice being in shape until you run up a flight of stairs and you don’t breathe heavily," she said.

Dance instructor Johnson said her job is gratifying. Her role is to help dancers keep going when they’re tired, she said.

"I have to keep them motivated, but the music helps." She said that sometimes when the group starts into a difficult exercise she hears moans, “but I know they’ll do it.”

This month dance class is fun-raising for the American Heart Association. Sponsors will donate money to the AHA based on how many hours participants dance in a given week. The “dance for heart” program is a locally implemented part of a nationwide fund drive to provide money for heart research and treatment, according to Brian O’Brien, AHA spokesman.

Dance classes are open to all students and start at 3 p.m., 4 p.m., and 5 p.m. on Mondays, 3 p.m. and 4 p.m. on Tuesdays and Wednesdays, 4 p.m. and 6 p.m. on Fridays, and 3 and 4 p.m. Saturdays.

The idea for SOS originated with President Albert Somit, she said. Harry Wirth, director of Service Enterprises, and Debbie Lindrud, director of Placement Services, put together SOS.

Several people have called to ask about the service, Koehler said, but no one has been hired yet.

"She’s also gotten excited. People are telling employees that they hadn’t had in the past," Koehler said. Departments can interview prospective office help or SOS can send the person it determines as the most qualified for the job.

Parents Educating Parents unit tries to aid handicapped needs

By Sheila Rogers
Staff Writer

It can be difficult for parents to provide for the special needs of a handicapped child at home and at school, said Priscilla Presley, co-director of Parents Educating Parents.

The Parents Educating Parents project, funded through the Department of Education, was established to assist parents of handicapped children in dealing with problems at home and at school, Presley said. PEP offers workshops, group meetings, informational flyers and materials at no charge to parents or school personnel interested in working with parents of the handicapped.

The goals of the project are to inform the parents of the handicapped child of the child's educational rights and of the parents' responsibilities for their child's education under federal and state laws.

Getting parents to take an active role in educational programming and planning for their child is another goal of the PEP. Parents are assisted in developing parent-school relations and learning how schools function in providing services to the child. Parents who volunteer will learn how to teach other parents of handicapped children about the special needs of a handicapped child. Presley, visiting assistant professor in the Department of Special Education, said the best teachers for parents of handicapped children are another parent.

The workshops will entail ways in which parents can deal effectively with schools and provide educational programs, teaching strategies and techniques that can be used with the child at home. The workshops have no definite schedule yet, Presley said.

In addition, workshops will be scheduled for which topics are suggested by the parents. These will be scheduled according to priority, Presley said. Topics that have been suggested are stress management, psychological testing, terms used in special education, different types of handicaps, assertiveness training and simplification of government regulations. Presley said a list will also be compiled of services available in the community.

"We will provide them (parents) with emotional support and we will help them in any way that will be of service," Presley said.

A loan library will be set up, probably in the Department of Special Education, Presley said. The library will have teaching materials and learning activities for parents to use in their homes. Also, audio-visual aids, articles and pamphlets relating to handicapped children, special education rules and regulations and parent group information will be included.

The counties which the project covers are Johnson, Pulaski, Alexander, Massac, Jackson, Union, Perry, Williamson, Franklin and Jefferson. Presley said that if the project goes into a second year, the project may expand to northwest Kentucky and southeast Missouri.
New Orleans trip scheduled during break

The Office of International Education is offering a six-day trip to New Orleans during Thanksgiving break. The trip is $135 and includes round-trip bus fare, hotel accommodations and admission to the French Quarter, Louisiana Superdome and the International Trade Mart. The group will visit various sites including the French Quarter, St. Louis Cathedral, Pontchartrain Beach and the Mississippi Museum of Natural Science. Registration is being held at ISU's Student Union, 910 S. Forest St.
BLACKS INTERESTED In Business will have a bake sale from 9 a.m. to 3 p.m. Friday on the first floor of Crisp Hall.

THE LATTER Day Saint Student Association will meet at noon Friday in the Theses Room.

A NACHO and bake sale will be held by Head Start from 8 a.m. to 1 p.m. Saturday at Lakeland School, 925 Giant City Road.

A FLKA market will be held by the Friends of Carbondale Public Library at 9 a.m. to 2 p.m. Saturday at 1025 East Main Street.

THE FRIENDS OF Carbondale Public Library are sponsoring a bake sale to be held from 9 a.m. to 3 p.m. Saturday in the old library, 304 W. Walnut St.

THE ORIENTEETING Club will participate in a meet at noon Saturday at Stonfort in Giant City. Anyone who needs a ride may meet at 11:30 a.m. in front of the Student Center.

THE AUTOMOTIVE Technology Organization will sponsor a free car clinic from 9:30 a.m. to noon Saturday at the University Mall parking lot adjacent to the Firestone Auto Center. Club members will cover a 40 point automobile maintenance check for winter.

THE JAMECOC County Historical Society will meet to elect officers at 2 p.m. Sunday at the Society's Volunteer Center in the basement of the Post Office in Murphysboro. After the meeting, the Carbondale Community Historical Society will give a presentation titled "Abraham Lincoln and the Emancipation Proclamation."

A FALL festival of faith will be held by the Southern Baptist Churches of Carbondale at 7:30 p.m. Sunday through Friday at Murdale Baptist Church, 2701 W. Main St.

THE SOCIETY for Creative Anarchism will meet at 2 p.m. Sunday in the Lutheran Student Center.

REGISTRATION CLOSING Monday at Woody Hall B-204 for the Test of English as a Foreign Language, which will be held Wednesday, Nov. 19.

INTRAMURAL SPORTS wrestling tournament entries close at 5 p.m. Wednesday, Oct. 28 at the Recreation Center Information Desk.

BLACKS INTERESTED In Business is sponsoring a presentation by Tom Kublicha of Osco Drug at 7 p.m. Monday in Ballroom C.

THE HILL House annual banquet will be held from 7 to 9 p.m. Monday at 408 W. Mill St. Robert Mendelsohn, syndicated newspaper columnist, will give a speech titled "Confessions of a Medical Heretic."

APPLICATIONS FOR Lifeguard positions at the Recreation Center pool will be available Monday through Saturday in the Recreational Sports Office. Applicants should have a current ACT on file.

ENVIRONMENTAL WORKSHOPS is sponsoring moonlight canoe rides from 7 to 9:30 p.m. Wednesday on Little Grassy Lake. Anyone who would like to go may call Jim Jordan at 529-4181.

Political irony: Women candidates are on GOP side

WASHINGTON (AP) — The irony in the woman-for-vice president boomlet is that it’s the Democrats who have the opportunity but the Republicans who have the candidates.

The nationally known, office-holding women in America happen to be Republicans. The two women who sit in the Senate are Republicans. The first and only woman on the Supreme Court is a Republican and Ronald Reagan has two women in his Cabinet, one at the United Nations.

All have the credentials to serve as his running mate, but Reagan already has one, and it would look cynical to dump George Bush in favor of a woman.

He couldn’t get away with it even if he selected Mrs. Bush. But while the Democrats have plenty of brainy, experienced and energetic women, they don’t have a woman governor or senator, and no one woman stands out as a compelling vice presidential choice.

It just worked out that way. Democratic women ran for the governorship of Iowa and a Senate seat in Missouri in 1980 but lost. A Democratic woman gubernatorial candidate lost earlier this year in Mississippi.

Customarily, the vice presidential nomination goes to someone who holds high office and brings geographical or ideological balance to the ticket.

Then, it’s a little late, but there’s no harm in planting the idea now. Happy Birthday from the glued to the television. COOL!

Good Luck

able to answer the call. Taylor was optimistic after the practice, saying, "We would probably miss only two days of practice." Although she thought, said Taylor that she was still being bothered by the injury, Taylor's knee was X-rayed, but there were no tears in the knee, Dempsey said.

He's more doubtful for Saturday's game than anyone else," said Taylor. With Terry cut, it cuts down on our defense. A guy like Terry can cover you all over the field. Tony, though, used to start here before he can play with everybody.

Without the extra depth in the secondary, the Salukis will still have to try to create more turnovers in which would affect another department — offense. In the game with the Salukis, the state's teams have scored opponents 226-73. Saluki opponents, though, have averaged 72.2 points per game, almost eight more than the Salukis.

"If there's been a weakness this season, and one I don't like, is that we fumble and bring in a ball or are intercepted," said Dempsey.

Another reason, Dempsey said, is because of the way the team plays. He ranks third in the overall scoring with 36 points. Tailback Derrick Taylor is tied for fourth in overall scoring with 36 points. Tony Anderson has averaged 29.5 yards per kickoff return, which ranks third. Darell Ramsey also holds the career yards, which places him ninth on the career yards, which places him ninth on the career yards, which places him ninth on the career yards, which places him ninth on the career yards list.

Southwest Missouri State Coach Rondha Ridinger returns eight starters from last year's 18-3 team which claimed the MVC Conference Championship at SIU-C.

The Bears have strengthened their schedule this year and have tied third-ranked Iowa, 1- and 14th-ranked California, 2-2. They dropped a 41-10 decision to 12th-ranked Stanford.

right inner. Meade, who played her best game in the season Saturday in a 2-1 tie against 14th-ranked Davis and Elkins College, suffered the injury in a freak accident when she stepped on her roommate's foot.

"It sure didn't happen at a good time," said SIU-C Coach Julie Iller. "The injury is serious and it looks like she'll be out another game."

Belltran, a reserve halfback, suffered a bone chip on her ankle earlier in the season and was out for 10 days. Williams, who had been in McAuley Iller switched from a 4-3-3 alignment to a 4-2-1 defense. Numerous players change positions in the starting lineup.

Back Dore Weil was moved to the center back position to take up the slack with Nadine Simpson moved to left link.

Simpson will join center link Mindy Thorne and right link Sue Delimine in the midfield. It will be the first time Eller has started three freshmen in the midfield in her 14 years at SIU-C.

"From 1976 to 1980 when we were really strong it was rare to have more than one freshman start," said Iller. "I don't like to start freshmen in big games."

"I think the rest of the players have to make up the slack with the injuries. Some of the substitutions are going to get playing time. I kept telling them if they are patient they will get a chance and they will be getting it this weekend."

Southwest Missouri State Coach Rondha Ridinger returns eight starters from last year's 18-3 team which claimed the MVC Conference Championship at SIU-C.

The Bears have strengthened their schedule this year and have tied third-ranked Iowa, 1- and 14th-ranked California, 2-2. They dropped a 41-10 decision to 12th-ranked Stanford.

Netters to close season at home

By Daryl Van Schouwen
Staff Writer

The women's tennis team will play in the 84 schedule this weekend, playing host to Ball State, Murray State and Kansas at the University Courts.

The Salukis will need two wins to earn half of Coach Judy Auld's season goal of 20. Auld and Mary Pat Kramer have the tools to stymie SIU-C's aspirations for ten fall victories. Auld said, and Ball State can't be taken lightly, either.

The Salukis open the weekend action with a 9 a.m. match against Ball State. Friday's game was 5-15 last year and returns three seniors in Ann Voors, Deanna Witsken and Angie Palmer.

Saturday one of the stronger teams in the tournament, though, and the Salukis will need to play the percentages. The game is a matter of poise and confidence again.

The Salukis open the season at home with No. 1 singles player April Horning of Harrisburg and No. 2 Jerome 84 of Illinois. Liz Hensley, Maureen Rankine, Sherri Outland and Dora Durovec have flipped-flopped in the three through six positions.

Kansas has dealt Murray State its only setback of the season. The Salukis and Murray State have faced one similar opponent this fall, Memphis State, a 7-2 victor in both matches.

SIU-C and Murray State will continue an ongoing rivalry. Last year the two teams split a pair of matches.

"We love to beat them and they love to beat us, it's as simple as that," Auld said.

Kansas comes to Carbondale with an 8-4 mark, suffering losses to four quality teams - Wichita State, Nebraska, Minnesota and Drake. Minnesota and Drake finished one-two in last weekend's SIU-Edwardsville Invitational. The Salukis finished fifth in that tournament.

Kansas is headed by Laura Runnels, 4-3 at No. 1 singles, and Barbara Imman, 1-6 at No. 2. Runnels and Imman will pair up as Kansas' 1-2 doubles tandem.

Christine Parr, 3-4, will be at No. 3 and Cindy Bregan, 9-4, at No. 4. Debbie Coleman, 1-6, and Janelle Bolen, 0-7 will occupy the No. 5 and 8 positions.

Auld will go with her customary lineup. Alexandra Menzies, 8-7, will play No. 1 singles for SIU-C, and Heidi Eastman, 7-9, will be at No. 2.

Mary Pat Kramer will put her solid 11-3 mark on the line with No. 3 and Amanda Allen, 5-16, will play No. 4. Stacy Sherman, 5-6, and Maureen Harney, 12-4, round out the Saluki order.

No relief for pitchers' Series

By John Nelson
AP Sports Writer

PHILADELPHIA (AP) - In 1971, the Baltimore Orioles started 21-5; Mike Boddicker, 8-7; Carl Mays, 20-8.

Among them, the four star­

ners were Dave McNally, 21-5; Mike Cuellar, 26-9; Jim Palmer, 29-9, and Pat Dobson, 20-8. Never had a major league team produced four 20-game winners in a single season.

Among them, the four star­

ners were Dave McNally, 21-5; Mike Cuellar, 26-9; Jim Palmer, 29-9, and Pat Dobson, 20-8. Never had a major league team produced four 20-game winners in a single season.

SPIKERS from Page 24

Saturday evening Lamar isn't one of the stronger teams in the tournament, though, and SIU-C should be able to dispose of the Cardinals.

On the other hand, the Salakis have dropped decisions to several other teams this season that they should have beaten. Hunter said she has had difficulty pinpointing the source of her team's slump, but youth might be the crux of the problem.

"The youth of the team might be taking control over the players with experience," Hunter said. "I'm confident this thing won't plague us forever, and I think we can come out of it.

"I don't know when, but I know they'll start playing with poise and confidence again.

"We need to smooth out the fundamentals. The game is a matter of being consistent and playing the percentages, it relates to the ability to keep control of the ball and let the other team make the mistakes. "The players hear and understand that, but they don't execute at a quick-decision time. They're impatient, and they want to score right away. If they don't, they feel like they've failed and they didn't maximize an opportunity."

World Series. So far in the best­

of-seven game Series, which is tied at one victory apiece, Orioles pitchers have allowed only two earned runs and eight hits, three of them by Joe Morgan.

While the Orioles' staff in­

cludes two Cy Young Award winning pitchers who will face each other in Game 3 of baseball's 80th World series Friday night. Orioles left­

hander Mike Flanagan, who won the American League Cy Young in 1979 with a 25-9 record, will oppose Philadelphia's Steve Carlton, who has won the National League Cy Young Award a record four times.

This has become a pitchers' series, with each team having its own world-class pitcher.
Women harriers try to keep streak alive

By David Wilhelm
Staff Writer

After two consecutive dual meet victories over Eastern Illinois and Murray State, the women's cross country team will try to continue its winning ways Saturday when it travels to Edwardsville to compete in the Illinois Intercollegiates.

The harriers will be running against seven teams, including four rival conference squads. Besides Eastern Illinois, Western Illinois, Bradley and Illinois State, the Salukis will compete against Illinois, Northwestern and SIU-E.

Coach Don DeNoon said that Northwestern will be the favorite, but admitted he has "absolutely no idea" how the race will turn out.

"I haven't seen SIU-E or Western," DeNoon said. "Western lost their No. 1 runner, but they have depth. They could be there. Illinois State hasn't run their No. 1 and 2 runners the last two weeks. I have seen Bradley's runners the last two weeks. I am looking at seven teams, including four rival conference squads. Besides Eastern Illinois, Western," has't."

It's important but we won't go for all the marbles with the girls till the last meet. DeNoon said.

"All seven athletes are ready to run at their best," DeNoon said. "We're still seeing improvement. I haven't let up on the girls. We're looking for a sound performance this weekend. It's important but we won't go for all the marbles with the girls till the last meet."

"I'd like to see some individuals do real well," DeNoon continued. "If half the athletes perform individually well, that's great. I'd like to see all seven run their best. We have the potential to do that. If five or six can do that, we can be competitive."

The seven Salukis who will run Saturday are Lori Ann Bertram, Catherine Doeling, Tina Dorow, Chris Hangren, Bonnie Helmiek, Odette James and Lisa Reimund. DeNoon said that all of them have had good workouts this week and are ready to go.

"Northwestern is favored in this meet," said DeNoon. "I saw them once and have seen other results from them. They're running well. They have a team of five good runners, but the sixth runner drops off drastically. If they've lost a runner by this point in the season, they could be competed against."

Illinois State will also represent a tough barrier for the harriers. The Redbirds have defeated the Salukis every time the teams have met this season.

DeNoon said that Saturday will be a good opportunity for the Salukis to get a look at some of the competition they will face in the conference championship Oct. 29 at SIU-C.

"It will be an interesting weekend," DeNoon said. "We'll see four of the 10 conference schools and we'll get a preview of the conference championships."

Sports Car Club to sponsor autocross at Arena Saturday

By John E. Izumi
Student Writer

Rally-inspired drivers have a chance to compete in a Sports Car Club of America-inspired autocross in the Arena parking lot at noon Oct. 15.

The Saluki autocross gets its inspiration from the SCCA, where drivers compete in driving and handling skills against the clock.

Procedures for entering are minimal. A safe car, valid driver's license and $2.50 entry fee are all that will be required. Safety inspections and orientation begin at noon, and vehicles will also be classed into categories at that time.

Trophies will be awarded to the top contestants in each category. Drivers compete in heats with a minimum of two laps. A competitor will usually run five to six heats per day, depending on the number of contestants.

The major problem is trying to get people involved, according to Autocross Vice President Jeff Babcock.

"Our main objective is to bring people together with similar interests," he said. "Autocrossing is also a way to relieve the 55 mph syndrome in a safe and controlled environment."

Babcock said the Saluki Sports Car Club has been in existence for four years, but participation was minimal at the first event of the season two weeks ago.

The SCCA holds its bimonthly meetings on the day of competition. Topics range from test news on performance-related maintenance to where to buy performance parts.

Anyone who has an opinion about or interest in autocross is welcome to attend the meetings, and the club is open to everyone. More information is available at 657-6867.
Salukis must reduce turnovers to win

By Jim Less
Staff Writer

Only four NCAA Division I-A and I-AA football teams have 4-0 records this season—Nebraska, North Carolina, Jackson State and SIU-C. Saturday at Southwest Missouri State, the I-AA No. 2-ranked Salukis will try to improve their record to 7-0, which would be the best start for a Saluki squad since 1960. For SIU-C to keep winning, reducing turnovers is important, Saluki Coach Roy Dempsey said.

The Salukis have lost 17 of 20 fumbles and have thrown nine interceptions, which averages to just more than four turnovers per game. Saluki opponents have lost 13 of 17 fumbles, while throwing 14 interceptions. The Salukis have one-turnover edge in this department, but Dempsey said that is not good enough for his squad.

“We have to get the turnover ratio down,” Dempsey said, “so that we are creating more turnovers and getting them and we aren’t fumbling the ball or having the ball intercepted.”

That’s one area where we’re not doing well. I believe if we had had that straightened out until now, we would have won another game,” Dempsey said. The turnovers would not bother him as much if his team ran an offense such as the wash/bone. In the wishbone, the offense pitches out the ball quite a bit and will take a lot of chances, which could create fumble-type situations.

“We’re not that kind of team,” Dempsey said. “I think we have way too many turnovers.”

The team record for fumbles in a season is 48 set in 1972. That squad also lost a team-record 24 fumbles.

The Salukis are chasing the team interception record of 20, which was tied last year. They need only seven more to break it, but an injury to cornerback Terry Taylor may stall the effort somewhat.

Taylor, SIU-C’s career interception leader with 13, injured his knee when he tried to tackle a Drake ball back early in the second quarter Saturday. Tony Haywood, Dempsey said, will play Saturday against Southwest if Taylor will not be.

By Steve Knolos
Student Writer

At stake will be 3 share of first place in the Gateway Collegiate Athletics Conference for the Salukis field hockey team this weekend.

SUH, which is in second place in the GCAC with a 2-1 record and 6-2-2 overall, faces first-place Southwest Missouri State Friday in a second game of a doubleheader in Springfield, Mo. The game will start at 2 p.m. and is part of a three-game SIU-C trip.

The Salukis will face Colorado State Friday in the first game of the doubleheader at 10:30 a.m., and GCAC opponent Western Illinois (4-4 in the GCAC and 9-7 overall) Saturday in Macomb at 12 p.m. That game will be CU’s first game of the year.

Spikers must build steam in tourney

By Sherry Chienhai
Sports Editor

It’s now or never for the Saluki volleyball team.

Coach Debbie Hunter’s club will play four games over the weekend in the Texas-Arlington Classic and SIU-C must use the tournament to build momentum going into the heart of the conference schedule next week if the team is to contend for the conference title.

Hunter likens the weekend to a crossroad, where the team will have to go one way or the other. For the Salukis, that mean either starting the climb upward or falling further into their slump.

SU-C will open Friday against Houston, a team similar to the Saluki squad in back troubleshooting and experience, according to Hunter. The Salukis will also face Louisiana State Friday night. LSU has dropped SU-C once this season, and Hunter admitted her team will have to play far above what it has been to stay on the court with the Tigers.

The match the Salukis will be keying on, though, will be Saturday morning. Hunter’s club will take on host Texas-Arlington, and nothing would be sweeter for the Salukis than a little revenge.

At the Brigham Young University Preview three weeks ago, the Salukis had set their sights on a top eight finish, only to have Texas-Arlington, play the spoiler by clobbering SU-C in the early going.

The loss to the Mavericks was the pivotal match that dropped SU-C to the bottom of the finishers’ slate. Hunter said her team played a sloppy and sluggish match against the Mavericks in her FIAC, and her team is more than happy to have a second shot at Arlington.

Hunter said her club is gearing for the Mavericks and the Salukis have fire in their eyes.

To finish their stint in Texas, the Salukis will take on Lamar at

The going gets only tougher for the men’s cross country team. Last weekend the Salukis finished first among eight teams at the Indiana Invitational. Saluki runners will go up against 11 teams as they try to take the title this year’s Illinois Intercollegiates in Edwardsville.

Coach Bill Cornell expects the Salukis’ main competition to come from the University of Illinois. Another quality team, but one Cornell expects to defeat, is North Central. NC was the Division II national champion last year, and, according to Cornell, is looking strong.

Other teams traveling to Edwardsville are DePaul, Eastern Illinois, Bradley, Loyola, Western Illinois, Benedictine, Louis, SIU-E and Illinois-Chicago.

“Illinois is the one we’re concerned about,” Cornell said. “Their coach is fired up to get us. It was close enough last time that they could beat us.”

The last time the runners faced the Illini, the Salukis defeated them in a close 25-26 meet. SIU-C took the No. 1, 3, 4, 8 and 9 positions. The Illini grabbed 2, 5, 7 and 10.

“That those spots could be reversed if we don’t run tough,” said Cornell. “Illinois is up and ready. They didn’t compete last year, but I think they will be a two-team battle for the championship.”

Cornell is still not content with the performances of his runners. He is looking for consistency at the Indiana Invitational.

“I’d like to be with my back men until they are up with the fourth man,” Cornell said. The Salukis’ top runners are Chris Runyan, Eddie Wederburn and Mike Keane, are still running well, according to Cornell. He can always count on good performances from them. The others’ success will be seen Saturday.

“I’m hoping Brent McClain is over his mishap of over-training and injuries,” Cornell said. “He should be back in form. That’s what we’re hoping for.”

David Behm, who Cornell said ran the “race of his life” Saturday, will be needed again over his mishap of over-training and injuries. “He’s close,” Cornell said. “He’s convinced that he can.”

Cornell said the course on the campus of SIU-E is “very demanding,” with twisting turns and rolling hills.

After Saturday’s meet, the Salukis take a two-week break before competing in the Missouri Valley Conference Championships in Peoria.

Fielders face No. 1 team in conference

Other than the loss to the Mavericks, will have to go one way or the other. For the Salukis, that mean either starting the climb upward or falling further into their slump.

SU-C will open Friday against Houston, a team similar to the Saluki squad in back troubleshooting and experience, according to Hunter. The Salukis will also face Louisiana State Friday night. LSU has dropped SU-C once this season, and Hunter admitted her team will have to play far above what it has been to stay on the court with the Tigers.

The match the Salukis will be keying on, though, will be Saturday morning. Hunter’s club will take on host Texas-Arlington, and nothing would be sweeter for the Salukis than a little revenge.

At the Brigham Young University Preview three weeks ago, the Salukis had set their sights on a top eight finish, only to have Texas-Arlington, play the spoiler by clobbering SU-C in the early going.

The loss to the Mavericks was the pivotal match that dropped SU-C to the bottom of the finishers’ slate. Hunter said her team played a sloppy and sluggish match against the Mavericks in her FIAC, and her team is more than happy to have a second shot at Arlington.

Hunter said her club is gearing for the Mavericks and the Salukis have fire in their eyes.

To finish their stint in Texas, the Salukis will take on Lamar.
