# Office of president reinstated at SIU

ginning Sept. 1, 1971, the position of cellor at SIU will be abolished and men currently -occupying the -Robert G. Layer and John S. leman-will become university

midents.

This action was authorized by the ard of Trustees at its meeting Friday the International Room of the aversity Center at Edwardsville. The eventies session.

Layer, the interim Carbondale chandler; and Rendleman, the Edwardslik chancellor, will each be the chief min'strative officer of his campus d will be directly responsible to the sard.

and will be directly responsible 10 the Board.

According to Board Chairman Harold Fischer of Granite City, the move "establishes the autonomy of SIU at Carbondale and SIU at Edwardsville."

Fischer said the University by-laws will be changed at the Board's August meeting to authorize the presidencies and abolish the University Administrative arm of SIU since Delyte W. Morris was granted emeritus status in August, 1979.

The resolution also named Dec. 30, 1971, as the completion date for decentralization of university functions. To coordinate the process, the Board formed a Decentralization Committee, to be composed of the two systems vice presidents. the two university presidents (chancellors) and the chief of board staff, who would serve without vote as presiding officer.

The UAC, in its June 30 report to the Board, had recommended that June 30, 1972, be the target date for total reorganization of the university. Clarence C. Stephens, UAC chair-

Clarence C. Stephens, UAC chairman, had asked to be relieved of his position as: of Sept. 1, Fischer said.

The Chanceller Selection Committee (which will become the President Selection Committee on Sept. 1, announced the creation of a "chancellor selection advisory council." structured to "involve the Carbondale campus committy" in the selection process.

Committee and Board member Ivan A. Elliott Jr., who made the announced the selection in the selection process.

A. Elliott Jr., who made the announ-cement, suid the Chicago-based con-sulting firm of Richard Quaintance and Associates, which the Board hired last June to find candidates, will "soon be ready to submit names for selection."

He emphasized that the present committee has not screened any Quaintance candidates. The council will be comcandidates. The council will be com-posed of three-persons representing the faculty: three representing the students; one representing the Civil Service Employes; one representative of the deans and one member-at-large to be chosen by the selection committee

Elliott said the council will elect a three-man executive committee—two of whom shall have academic rank— which will be invited to attend meetings of the selection committee when candidates are discussed or interviewed

Elliott said he hoped to have the designees of the constituency groups that will name the council members by

**Board** defers action

# Renovation plan for stadium considered

By Pat Silha Daily Egyptian Staff Writer

The Board of Trustees deferred action Friday on a proposal by Chancellor Robert G. Layer for a \$1.8 million resovation program for McAndrew Stadium

Stadium.

The program—which would include artifical surfacing of the field: new scating and renovation of present scating; construction of a communications center and elevator and installment of a public address system—would be paid for from the Stadium Development Fund, which Layer said will contain the necessary funds by the end of fall quarter.

vill contain the necessary lunds by the old of fall quarter.

Dr. Martin Van Brown, Board ecretary, opposed the idea of "ren-ovating an old Works Progress Ad-ninistration (WPA) stadium and equested additional studies on whether o remodel McAndrew or build a new

### Woman teacher loses appeal on resignation

Layer said his proposal had the backing of Elmer Clark, dean of the College of Education, and Athletic Director Donald M. Boydston.

Last year's student government of ficials also opposed the idea of a new stadium—especially if built with student funds—Layer said. Layer said be would later recom-

mend the \$10 athletic fee be abolished and replaced by a \$9 fee, since student money would no longer be needed by the Stadium Development Fund Layer said he favored retaining

McAndrew stadium for several reasons, including its proximity to the large number of students living in the exisiting facilities that would be required at a new stadium; the threestory parking garage, proposed for the Student Center which is near the present stadium: and the proposed ar-tificial surfacing that would allow it to be used for intramurals, physical education and recreation.

Campus Architect Willard Hart and

Board Treasurer Robert Gallegly op-posed Layer's plan. Hart opposed rennovating McAndrew because of the "view it will give at the front door of the campus," and because of the desirability of the land, which is at the center of campus

# New reservoir could boost industry, recreation in area

By Dale McConnaughay Daily Egyptian Staff Writer

The decision to utilize Cedar Lake as the site of Carbondale's new reservoir may bring with it what Carbondale City Manager William Schmidt called a "pipe dream" of industrial and recreational expan-

industrial and recreational expan-sion to the area.

At Thursday night's public insetting, city officials indicated that consideration had been given in preliminary land use plans for using surphis. And leased proposets for

surplus and leased property for recreational area purposes. "If we are acquiring land for this project in line with the rules and regulations— and if we can appor-tion a part of this land that in some way will give back some revenue, we welcome that." Schmidt said. Carbondale Director of Public Works William Schweeman stated

Schwegman also mentioned con-struction of a convention center — costs to be shared with SIU has been

costs to be shared with SIU has been considered.

Schmidt said that in 1966 there had been some "very informal" discussions about the convention center with people at SIU. Schmidt added that a "general interest" was shown at that time but said he could not redail the names of the persons involved in the discussions.

involved in the discussions.

Further consideration of the city's plans to build facilities at Cedar lake would be given when revenue bonds were sold. Schwegman said the predicted that sale of these

consultants. Inc. of Muscatine, Iowa indicate that Cedar Lake would be capable of supplying up to 20 million gallons of water per day. This figure compares to the six million gallon per day maximum presently being supplied by the Crab Orchard reservoir.

This surplus water supply would be capable of supporting industrial expansion in Carbondale — a fact which city officials and contractors

"We had hoped that an industrial increase in Carbondale since 1968 would have been greater than it's been." said R.S.-Faulette, project manager for Stanley Consultants.

Carbondale Mayor Neas sickert said the city, at this time, could not possibly support additional in-dustry.

### U-Senate approves Expro in principle

# Reorganization of Daily Egyptian under study

By Fred Brown Daily Egyptian Staff Writer

The Internal Affairs Committee of the Provisional University Senate Priday manimously endorsed Ex-pro 2 in principle, but said the proposal for revision of the Daily Egoptian newsroom should be sub-mitted to an interim group for study. Committee members said the present Expro guidelines are too loose and need clarification before the proposal could be implemented. Bob Care, consulting of Expro-

Bob Carr, co-auther of Expro, said he could agree with the committee's recommendation. 'My basic concern is to get Expro implemented,' Carr, a senior in journalism from Rockford, said. 'Il can agree to the idea of study by an interim stream.'

The committee also heard two journalism students who opposed Expro's implementation under what they called "vague guidelines."

they called "vague guidelines." Cathy Speegle, a senior from San Antonio, Tex., and Daily Egyptan staffer said her main concern was the instability of having as large a volunteer staff as outlined in Expro

"I have great fears of volunteer staffers coming in for a week or two—then never coming back," she

said. Miss Speegle also said many students are not financially able to devote a great deal of time to volunteer work.

She also read a statement from Gene Wiggins, a graduate student in journalism from Forest, Miss., who works on the Daily Egyptian copy desk.

Wiggins cited an example of a university in Mississippi which adopted a proposal similar to Expro Within two years. Wiggins said, the volunteer staff idea had failed, and the paper had to be again

reorganized.

Bob Smith, a junior in journalism

Bob Smith, a junior in journalism from Chicago, raised questions as to actual implementation. "Under the present guidelines." Smith a student supervisor in the Daily Egyptian production area, said, "I wonder if we could even get a paper out. We would all come back the first day of fall quarter throw out all the new rules and exthrow out all the new rules and ex-pect the newly-elected editors to

make all the decisions needed to publish I don't think we could do

Smith also agreed that the sourdelines need to be more specific There is no way to tell what way the Daily Egyptian will go if Expro is

Daily Egyptian will go if Expro is adopted as is, Smith said. Committee member J W Yates, professor of guidance and educational psychology, said he was concerned as to who would have

concerned as to who would have overall responsibility for editorial content of the Egyptian. "What happens if one of the top student editors decides to drop out of school or quit working?" 'Yates asked "At least the University now has some control over those in charge (of the Daily Egyptian) If Expro was adonted how would the

charge on the Daily Egyptian' it Expro was adopted, how would the Board of Trustees have any sort of control over those in charge." Carr replied that the editor-in-chief would have overall respon-sibility for content. If conflict arose between the editor-in-chief and the executive editor, who would be responsible for implementing editorial policy the question would be referred to the Editorial Board.

which decides overall editorial

When time would not permit a meeting of the Edstorial Board, the

meeting of the Editorial Board, the editor-in-chief would make the necessary decisions. Carr said. Carr said he was more concerned with the idea of Expro, than the Jocument itself. He agreed that study by an interim board would be good. His only question was as to selection methods for the board. After discussion, the Internal Affairs Committee decided to recommit

fairs Committee decided to recom-

mend a board similar to the Editor Selection Board outlined in Expro. This seven-member board would be composed of three faculty mem-bers, two from the School of Journalism, three undergraduates, two from journalism, and one graduate student, not necessarily from jour-nalism.

The committee sugge group could be selected by mem bers of the Advisory Committee of the School of Journalism This 12 member committee consists of nine faculty members of the School of Journalism—two undergraduates and one graduate student in jour

Members of the Internal Affairs Committee and others who had ap-peared before them Friday basically agreed with Expro, but all felt more rigid guidelines need to be felt more rig worked out.

The Committee suggested that members of the interim group brappointed beginning October 1 and be required to give a progress report at the end of fall quarter. By the end of winter quarter, the Committee said, recommendations would be due. If they decided in favor of Expro, implementation would begin at the end of spring, 1972.

The Internal Affairs Committe unanimously approved the secon revision of a resolution concerning the status of women at SIU.

Both the Expro proposal and the approved resolution will go to the University Senate at its July 26

### **Operation doubles in four months**

# Student-owned jump business profitable

By Fred Brown Daily Egyptian Staff Writer

John Early and Tom Stewart teach people to fall ut of airplanes:

What a way to help put yourself through school

Early and Stewart, both SIU students, operate the
Rend Lake Para-Center at Benton. The Center
provides parachuting instruction and planes to jump

Parachute jumping is a sport fast growing in

Parachute jumping is a sport tast growing in opularity.
The growth of their business shows this. Since its sinding in February, Rend Lake has launched over 250 different jumpers. They recently purchased a second aircraft and rought in another SIU student, John Ellish, a junior najoring in aviation technology from Wheeling, to situate it.

pilot it.

They use ordinary Cessna airplanes, the kind many private pilots own. The only changes are removal of the door and all seats, except the pilot's Stewart, who is working toward a Ph.D. in school administration, estimates they have about 20 regular customers at Rend Lake, mostly SIU students. Neither Early nor Stewart are strangers to parachuting. Early, a senior from Benton majoring in journalism and government, became acquainted with the sport while in the Army from 1983 to 1988, ite was a parachute instructor for the Special Forces (Green Berets) and taught at the Airborne School at Pt. Benning, Ga., and in Vietnam. He has some 400 jumps to his credit.

Early handles actual jump instruction and acts as

jumps to his credit.

Early handles actual jump instruction and acts as jumpmaster and spotter for most jumps. As jumpmaster, he must oversee packing of all parachutes and make sure every jumper is properly equipped and ready to jump. Spotting a jump involves giving directions to the pilot and telling jumpers when to jump so they can land in the target area—a 60-yard circle of cleared dirt near the airport.

Stewart is the main pilot for the Para-Center He learned to fly at the University of Illinois in 1959. He transferred to SIU and began flying jumpers in 1962 for the SIU Sport Parachute Club. He was the club's first pilot. After serving in the Army, Stewart again flew for the SIU Club, and began jumping himself in 1967.

That year Stewart won first place in the nonce-

That year Stewart won first place in the novice class at the National Collegiate Parachute Meet. The last time he jumped was Memorial Day, 1968, when he took first place in a parachute meet held in St Louis.

Safety is stressed at Rend Lake Every jumper must carry two parachutes each time he jumps. One is the main 'chute, packed by the jumper. The other

Emily Twitty a senior from Sikeston Mo examines her parachute canopy

a reserve, which has been packed professionally. We have launched over 1,000 jumps here, "said

Early, "and we have had only two chute maltunc-tions. In one case, the jumper used his reserve chute. The other malfunction was so slight the jum-per, a novice, didn't even realize it. He used his main

per, a novice, didn't even realize it. He used his main chute and just had a hard landing."

Early's skills as spotter are used most when several jumpers attempt complex maneuvers. One such maneuver is a six-man accuracy stack in which six jumpers attempt to line up so that when their chutes open, they come down on a slope, each jumper some 300 feet from the one below him. In addition, they are all trying to hit a target the size of a

"This maneuver is not too hard with four jumpers (the normal load) in one plane, "Early said, "But with six jumpers in two planes, it is really tough." To complicate matters, such a maneuver must be done from a higher altitude than normal because of

the number of people involved.

Most jumping is done from around 3,600 feet, but a six-man stack must be done from 7,200 feet. The one advantage of the added height is that the jumpers escape the thermals which plague summer jumping. Thermals are pockets of warm, turbulent air which can throw the jumper off target as he falls. These are most common at 3,000-4,000 feet, according to Early Thermals are not as present in the cooler, drier air of winter, so the jumping is smoother. "We continue jumping all winter." Early said, "we just wear

Early has been teaching parachate jumping com-mercially for some time. He previously operated a jump school at the Sparta Airport. Around the first of this year. Stewart saw Early's advertisements and

got in touch with him

got in touch with him.
"Tom said he would buy a plane if I would pay half
its cost." Early said. "I agreed and we bought a
used Cessna 180 and went into business here (at Benton) on Feb. 28. "Since then, they have operated
every weekend and holiday, handling some 60-80
jumps per day. "We would be open more often if we
had the business." Stewart said. However, he added,
during school sessions his duties as a mathematics
teacher at Benton High School have first priority.
Early and Stewart both recommend jumping as a

Early and Stewart both recommend jumping as a great sport for anyone. "There are no great physical demands." Stewart said, "it's mostly mental strain You can make several jumps and never feel it, but you wonder why you're so tired at the end of the

Early agreed, adding "the shock to your nervous system is probably the hardest part of jumping."

system is probably the hardest part of jumping."
The initial cost of jump equipment is high, both admit, but thereafter the cost per jump is as low as \$2.50, for a jump from 3,600 feet; using your own equipment. Early and Stewart estimate a complete military surplus outfit can be purchased for about \$150. "This may seem high." Early said, "but a rig like this can last for years, if it's taken care of."

The future of Rend Lake Para-Center looks good. Although Early graduates and leaves at the end of the summer, he has been training one of his students.

the summer, he has been training one of his students to take over as jump instructor. Sometime in July, Stewart said, construction will start on a private hangar to house the Center's two planes.

So, if your thing is falling out of an airplane moving at 80 miles an hour at 3,600 feet, check out John Early and Tom Stewart. They'll be glad to see

#### Capital budget discussed

# **Board delays on salary increases**

Under next year's austere budget. Stephens said, it would be ex treenely difficult to proceed with salary adjustments and other programs of the University.

The \$66 million appropriation approved by Gov. Richard Oglivie includes \$8 million in the income fund, which is mostly generated from taition fees.

A tuition raise for SIU had previously been approved by the Board and is expected to generate an additional 54 million in the in-come fund. This money could make the salary increase possible, but it come fund. This money constitue, but it annot be spent until appropriated by the legislature.

The Bustra druged the legislature to ake emergency action October 5 to

The Board urged the legislature to take entergency action Nectober 5 to appropriate the full amount of the income fund, stating the Board's intestion to approve the salary adjustment as soon as possible following action by this legislature.

"The easiest way to save money is to cut or hold salaries, but we have to maintain and build quality at SIU and it can't be done this way," said William H. Allen, Board member.

way," and wimans is carried and a member. The capital budget request of 16.7 million approved by the Board will be sent to the Illimois Board of Higher Education (IBHE) according to its request that University capital budgets be submitted to the IBHE fellowing each university's July board meetings. Capital requests for SU at Carbondale, total \$34.25 million. Top priorities for Carbondale wave the remadeling and conversion of the ald Life Science Building, construction and equipping of a

the campus police and a Phase III -Heating Plant

The only other major building planned for the fiscal year was a \$5.8 million Natural Resources Building which has a priority of 20 among B items in the list of capital budget requests for Carbondale

among 81 items in the list of capital budget requests for Carbordale. Other items call mainly for remodeling, additions and utilities improvements. Layer proposes the expenditure of \$11.20 in Illimos Building Authority funds and \$12.60 million in general revenue. The Board also approved a request by Rendleman for \$18.50 million for Edwardsville. Improvements there are proposed at the main campus at Edwardsville the SIU School of Dental Medicine at Alton and the University's facilities in East \$1 Louis. The 31 improvements listed for Edwardsville would call for an estimated \$10.77 million from the IBA and \$1.20 million from general revenue, including requests for a Physical Education Building. Fine Arts Building and expansion of heating and refragevation facilities.

Campus Shopping Center 549-2835

agreed with the state board's recommendation that VTI be moved from its location eight miles east of Carbondale at Ordill to the Carbon dale campus

Principal expenditures are for a classroom and office building ap-proved by the IBA to replace the wooden building at VTI which was damaged by a fire last winter

Expenditures for the SIU Medical School Campus at Springfield of \$9.92 million will include \$7.7 million for medical Instructional Facilities Phase II and \$1 million for additional land acquisition

for additional land acquisition.

The Board discussed the necessition provide a flow chart of needstiming and amounts especially concerning major projects.

Martin Van Brown, secretary of Martin van brown, secretary or the Board questioned the low priority given to the golf course on Carbondale's list of requests. The golf course was the last of 81 items. He said that students would benefit most from the course and questioned the lack of student sup-

Let's get the Kids away from the beer halls and bars and get them onto the golf course, he said Brown suggested students seek mat-ching funds from the legislature that could be put toward a golf

Edward Hammond, assistant to the chancellor for student relations, pointed out that this was unlikely to be successful since students from the University of Illinois who had asked the legislature to match fund for scholarships were turned down

## Ivory to compete in televised meet

Among them will be Dr. Delano Meriwether and Jim Green in the 100 meter dash, Willie Deckard and Larry Black in the 220-meter dash,

Creckett, who placed fourth in the AAU 100, will compete on the U.S. 460-meter relay team.

He was the national AAU 100 champion in 1900 and 1970 and broke an SIU record in the prelims this year with a blistering 9.1 clocking

Top competitors on the African team include Kip Keino in the 1,000 and 1,500 meter steeplechase. Churles Asati in the 400-meter run, Olympic gold medalist Amos Biwott in the 3,000-meter Steeplechase, and Mohamed Gonnondi in the 5,000-meter. These

Competition in a number of romen's events will also be entured in the meet.

# Flynn Robinson will judge Afro pageant

Former SIU student Flynn Robin-son, now a professional basketball player, was recently chosen as noe of the judges for the Miss Black America beauty pageant Aug. 29 in New York.

Rubinson plays with the Los Angeles Lakers of the National Basketball Association and has for-merly teamed with the Milwaukee Bucks and Cincinnati Royals

He played basketball for the

University of Wyoming where he received his bachelor's degree but portions of his college days were at SIU. He attended high school in Elgin and grammar school in Murphysboro.

A family reunion dinner was held

recently for him in Carbondale

Jenkins hits homer

### Cubs rout Phillies, 11-2

CHICAGO (AP) - Ferguson

CHICAGO (AP) — Ferguson Jenkins walloped a home run and coasted behind a 16-hit attack Friday as the Chicago Cubs routed the Philadelphia Philies 11-2. Ron Santo's two-run homer, his 16th of the season, got the Cubs star-ted in the first inning after Glesn Beckett got the first of his four-singles:

Jenkins slammed his second homer of the year and eighth of his career to open a two-run third. The Cubs put the game well beyond

reach with four runs in the fifth and

Jenkins, who has eight losses, was nicked for four hits in the first three innings but then settled down and retired 12 straight butters before Don Money singled with two out in the seventh.

Santo, who also singled home a run, and Chris Cannizzaro with a double and a single, drove in three

Phils in the ninth with one runner aboard, spoiling Jenkins' shutout

#### Softball games planned

The following softball games have been scheduled for 6.15 p.m. Monday by the Intramural Office:

Field one: Peace Freaks vs. McDonalds; field two. Lions vs. Wall Street Jocks; Field three: Red Appe vs. Dues: field four Sons of the Soil vs. Bonaparies.

#### Sedik signs with Royals .

The Kansas City Royals of the American Baseball League has signed SIU's Bob Sedik as a free agent, it was reported Friday

Sedik, a senior, was a third-team All-American.

#### Bears waive Ron Bull

CHICAGO (AP) — Ronnie Bull, a nifle-year running back for the Chicago Bears, was placed on waivers Friday.

# Board accepts resignation of professor Canut-Amoros

"I have never resigned from SIU ind I never meant it to be under-lood that I had resigned. Mrs. 'anut-Amor told the Board. She explained that she had merely

requested to be transferred to another unit as a result of dif-ficulties within her department and had understood that resignation orm the school was the proper way

to do this.

She questioned the legality of her resignation in the first place because the letter accepted as her resignation is handwritten. She had also asked to withdraw her resignation after she learned that she had misunderstood. University procedure.

She protested the fact that her formal resignation form was not signed by her but had only her name typed instead of her signature.

She admitted her error in

resigning when a transfer had been all she wanted. "After seven years of service to SIU and 15 years of service in my profession an I to be penalized for a technicality." T Richard Mager.SIUlegal cou

sel, said her resignation was technically legal. "I am not a lawyer I am a scien-tist." she said. "Am I to be penalized for this."

\*After a 30 minute executive session, the Board announced it had reviewed the information and found

CDS revives 1966 newsletter

Community Development Services at SIU has revived its Newsletter, which has been out of circulation since 1966. The initial reactivated issue carried a May-

reactivated issue carried a May Jung dateline Richard M. Thomas, director of CDS, said the Newsletter will reflect the variety of CDS work in many Southern Illinois communities and other places in the United States and overseas.

Community Development Ser community Development Services is now organized around three functions (1) formal education. (2) research, and (3) training and consulting. More than 60 gradulate students are now enrolled in the Community Development Institute, an instructional unit.

Mrs. Cansit-Ameros asked if she could have an explanation of their decision. She also asked what had happened between this and the last meeting of the Board.

Her resignation had been on the Board's agenda at its last meeting but the American Association of University Professors (AAUP) had interceded on her behalf and the resignation was removed.

Mrs. Cansit-Ameros said she had thought the resignation was removed.

Mrs. Cansit-Ameros said she had thought the resignation was settled the this information from the University.

Walker repeated his motion that the meeting be adjourned.

William H. Allen, Board member asked if Walker was just moving the arm what had happened between the two Board meetings and asked for this information.

# Judy Collins makes hit at River Festival

nance will go to the Arsierican Friends' Association for Black draft estatance in St. Louis. This was met with a warm especial by the audience. Miss Collins seemed perfectly at ace with the audience throughout he two-and-one-half hours. Her aongs, ranging from Bob bylan to Leonard Cohen, were omewhat slow and servorbul. SIU Communications' workshop-ers were among those that heard are performance. There comments were varied, but they all felt it was put an experience. Racy McClare, debate, commend of "Her voice was fantantic, but or choice of music became very nonotonous."

yearbook.

Preceding one number. Judy Collins explained that her reason for performing it was that she had "a lot of love for a lady who used to sing it." She then let loose with Jamis Jophin's hit "Bibbie McGee."

Many did not like her presentation of it. Bill Lovin, debate, said, "Judy Collins did a good job of singing her kind of music, but I don't like soft rock. Too much soft rock melts your brain."

Miss Collins hacked up during the performance by Richard Bell, plano, Susan Evans, drums, and Gene Taylor, bass.

Born in Seattle, but raised in Deover, Judy Collins' sunging has brought her to travel many more places in this country. She started

piano lessons at the age of 40, and broke out on her own at 18.

Hee father was blind at the age of four, and she herself was atruck with philo when she was 42 years old. Then in 1962, she discovered that she had thereculosis. It was also the year that her marriage to Pete Taylor ended. All these missfur-tunes seem to lend themselves to the mood and tone of her songs.

Debater, Jackie Rook, noted, "I nought that the spirit there was antastic. I really felt a part of it."

"Her songs are easy to listen to."
ided Donna White, yearbook.

After constant clapping and shouts of "more" Judy Collins returned for one last song. Then, as if she had never been there, she sped away in a green and brown station wagon, leaving the multitudes to their own world.

### Birth control devices discussed at ZPG

"With 5,500 people born a day, the need has suddenly arisen to curb the population growth by a sure effec-tive means." stated an Ortho-representative at the quarterly meeting of the ZPG held last Tuesday night at Lawson Hall

### Museum shows exotic exhibits

Ethnographic materials from three counties are on display in a special mobile exhibit hall this sumspecial mobile exhibit hair unas summer because SIU has had no per-manent exhibit hall since Old Main

mere declaries of has had in permanent exhibit hall since Old Main burned two years ago. In the mobile exhibit hall are ethnographic materials from Afganistan. Thailand, and Nepal which were gathered by museum directer Dr. Basil Hedrick while on a collection tour.

The exhibit hall is open 9 a m. to noon and 14 p.m. Mondays through Fridays. Special weekend tours may be arranged.

"The mobile exhibit thall is a step up from the exhibit cases now displayed around the campus, but it still doesn't give the in-depth latitude that a permanent museum building would give us, "said Louis W. Sheiver, curator of exhibits for the University Museum.

Guest speakers for the evening in cluded Dr. Bruce Hector, Student Health Service. Dr. Mary Hicks Department of Child and Family, and an Ortho Pharmacutical Representative

Zero Population Growth was for-med about 30 years ago to help halt the population increase and to fur-ther educate the people on the sub-ject of contraceptives. This organization has become a nation wide group from coast to coast with approximately 200 charter groups and 2,000 devoted members.

Discussed at the meeting were the various types of contraceptives and their reliability and possible side of

Some contraceptives can be bought over the counter while others need a doctor's supervision. Simply because the contraceptives bought over the counter do not contain drugs, these do not require a physical or a case history of your

on contraceptives, many people are unaware that not only side effects occur in these medications, but in all types of medications. Even drug store or home remedies can cause side effects far more disturbing
