## Dwight David Eisenhower

*"As long as free men cherish their freedom, Dwight Eisenhower will stand with them, as he stood during war and peace, strong, confident and courageous. Even in death he has left us a great spirit that will never die."*

Richard M. Nixon

*"A giant of our age is gone . . . I was proud to serve him when he was President, I respected him as a wise and valued counselor during my own days in the White House. I treasured him always as my close and lasting friend."*

Lyndon B. Johnson

*"He led the great military crusade that freed Western Europe from Nazi bondage and then commanded the Allied Forces that stood guard over the liberated lands while they regained their strength and self-reliance . . . he must be long and gratefully remembered."*

Harry S. Truman

Dwight D. Eisenhower as he was seen addressing the 1968 Republican Convention by television

### SIU to mark Ike's death

SIU will cease all activity for five minutes at noon Monday (March 31) as students and employees pay their silent respects to the memory of General Dwight D. Eisenhower, former president of the United States.

Upon learning of Mr. Eisenhower's death University President Delyte W. Morris said:

"General Dwight D. Eisenhower was a great leader in war and in peace. His many contributions to the United States of America and to the freedom-loving nations of the world are an important part of our history. In his death the nation has lost a distinguished citizen."

Carbondale Mayor David Keene said, "Eisenhower led a good and unusual life in public service. The country trusted him and will miss him."

## Ike dies from heart trouble

Gus Bode

WASHINGTON (AP) — Ike is dead. Soldier, president, and one of the revered figures of American history, Dwight David Eisenhower succumbed Friday at 12:25 p.m. EST in Walter Reed Army Hospital.

His death ended a heroic struggle against a long series of major illnesses — with a heart weakened by repeated attacks.

He was 78 years old. He had led the mightiest armed force ever assembled to victory over the German Nazis in World War II.

He was the architect of D-Day — the invasion of the European continent that broke the back of enemy resistance.

He was the 34th president of the United States during eight Cold War years.

His was an administration of domestic tranquility.

The five-star general of the Army died peacefully and quietly, the commanding general of Walter Reed Hospital said, "after a long and

heroic struggle."

The nation will pay final tribute to the general in a state funeral that will span three days in the nation's capital before the body is borne by slow train to his boyhood home in Abilene, Kan.

There, near the Eisenhower library, he will be buried Wednesday.

President Nixon, who was Eisenhower's vice president for eight years and who assumed some presidential duties during the President's illnesses, formally announced the death in a proclamation.

Designating next Monday a national day of mourning, Nixon said his mentor had exerted for a quarter of a century "a moral authority seldom equaled in American life."

"As long as free men cherish their freedom," the President said, "Dwight Eisenhower will stand with them, as he stood during war and peace: strong, confident, and courageous. Even in death he has left us a great spirit that will never die."

By presidential order, the American flag will fly at half-staff across the world for 30 days.

First word of the general's death came from Brig. Gen. Frederick J. Hughes Jr., commandant of the Army hospital that had been Eisenhower's home since last spring. He suffered his fifth, sixth, and seventh heart attacks there during 1968 and was believed near death last August.

The blow that ultimately brought him down was congestive heart failure, diminishing the flow of blood through his weakened body.

His wife, Mamie Doud Eisenhower, and members of the immediate family were nearby when Eisenhower died in his third-floor presidential suite.

President Nixon canceled all appointments for the next five days and went immediately from the White House to the hospital with his wife and eldest daughter, Tricia.

Gus says that, regardless of his politics, he still likes Ike

# SIU physical growth linked to city sewage issue

Future expansion of SIU could depend to a large extent on additional sewage treatment facilities in the city, according to Paul Isbell, assistant to the chancellor.

Carbondale citizens vote April 8 to decide the fate of a \$2.3 million revenue bond issue to construct a new treatment plant. The city is now working at capacity in one of its two plants, according to city officials.

Isbell said high-volume sewage producing units such as new student residence halls or family apartments—University or private—will be "virtually out of the question" unless the city's treatment capacity is increased. Evergreen Terrace, a new

300-unit SIU family apartment project southwest of the main campus, is served by a six and one half acre sewage lagoon which was created by damming off part of a campus lake.

Isbell said the University would be reluctant to maintain the lagoon permanently for two reasons: the State Department of Public Health approved it provisionally in the first place, and the outside chance of odor problems could make it undesirable.

R. E. Favreau, regional engineer for the department, said the SIU lagoon was okayed contingent on the completion of additional treatment facilities in Carbondale. It was

agreed that when the new city plant is in operation, SIU would connect its own sewer lines to the Evergreen Terrace area and discharge wastes into the city system. If the lagoon was retained, it would have to be modified considerably, with extra stages and chlorinating equipment.

Sewage lagoons operate by biological stabilization of organic matter fed into them. The process depends on a healthy growth of algae. In some rare instances, Favreau said, odor can result with the growth of a type of blue-green algae. Another odor-causing condition can result from an early spring breakup of ice cover following a period of cloudy days.

The revenue bond issue would build a new treatment plant in the northeast corner of Carbondale, where an existing plant is running at capacity—sometimes over it. State restrictions on new sewer line extensions tributary to this plant have been in effect since August of 1966.

Another treatment plant on the northwest side of town is operating at two-thirds to three-fourths of capacity, Favreau said.

The bond issue provides for improvements to the old

northeast facility as well as construction of its new neighbor. Favreau said both will have to be operational in order to bring the city back up to standards able to meet city and SIU development demands. Proponents of the bond issue

point out that it will not involve any new taxes. The plant will be funded from sewer rate income and additional federal money.

## THE SERGEANT

A compelling story, heart-gripping intensity.

SHOWN SUNDAY 1:30 - 5:10 - 8:50

\* Here is an unforgettable journey into the depths of human desire. A brutally tough sergeant is gripped by an obsessive passion for a tortured youth who hates himself for every step taking him closer to the abyss. And through it all, a tender young French girl in love with the youth must helplessly watch the nightmare love affair unfold before her eyes as her man descends into a world of profane passion.

"A novel which effectively probes the hidden depths of an abnormal relationship."

# Class studies effects of confinement

By Bob Metz

"Please don't stare at the animal!" This might be the way a sign in a zoo would read if the animals had their way, according to George Waring, professor in animal industries.

Waring recently took a group of students on a field trip to the St. Louis Zoo to study the effects of captivity and confinement on behavior of animals.

Waring said the primates are especially sensitive to being stared at. "Once the animal is habituated to the zoo, he generally pays little attention to the zoo visitors unless he is intimidated," he said. "This varies in different species, but most animals ignore the activity going on around them unless it is very unusual.

"When we made the trip to St. Louis, we were looking for abnormal behavior in various animals," Waring said. "This may seem relative, but we were looking for actions and movements of an animal which did not occur in such frequency in an animal not in captivity."

Waring said his students had already studied the various kinds of behavior previous to making the trip and that the visit to the zoo provided a resume of the course.

"We studied the kinds of behavior and then went to the zoo and looked for the abnormal behaviors in live organisms," Waring said. "We observe more in one day at the zoo than we could on numerous trips out into the field.

"When we go to St. Louis, I give the students an assignment sheet with a listing of all the behaviors. They use their own judgment on where they will find the particular behaviors.

"The student might remember that on a previous trip to a zoo he had observed a bear or a lion possessing a particular behavior. He may then go directly to where the bears

or lions are, observe, and make note.

"I ask for a description of behavior and in which animal it was observed," Waring said. "Some may see a certain type of behavior in a fish, while others might observe it in a mammal, a bird, or a reptile."

Confinement has different effects on the behavior of various animals, Waring pointed out.

"When we observe the behavior of an animal, we note its movements," Waring said. "One of the more obvious movements of an animal that has been in captivity involves the stereotype. You might see this in a polar bear as he is constantly waving back and forth or is consistently pacing the floor.

"Another characteristic of an animal in captivity is an increase in dullness or laziness. The opposite is also true as some animals that have been in confinement for a period of time. These animals sometimes become overly aggressive and can be dangerous and must therefore be kept out of striking distance of zoo visitors."

Waring said that lack of parental care in a zoo might also cause a distinguishable behavior trait in an animal.

"An animal's natural nesting facilities might not be available in a zoo which might result in the parent not giving adequate attention to the young," Waring said. "This might also cause the parent to avoid the nesting area which might result in the small animal not getting the sufficient diet and in turn not developing fully."

The trip to the St. Louis Zoo is a regular project of the animal behavior class at SIU, and is made during the winter and summer quarters, which is the only time the course is taught.

# Activities on campus Monday

Department of Music: student recital, Jo Anne Gunter, flute, 8 p.m., Davis Auditorium.

Central Registration: 8 a.m.-5 p.m., Arena.

Payroll Division: student time cards distribution, 8:30 a.m.-4:30 p.m., University Center Mississippi Room, Zone 8 Advisory Council for Mental Retardation: dinner-meeting, 7 p.m., University Center Illinois and Sangamon Rooms.

# Season causes fishermen to head for Campus Lake

By William Douglas

Every year, with the regularity of the changing seasons, the warm breezes and the sunny, spring days lure a particular species of human being—the fisherman—from his winter haunts and out to the lakes.

Long before SIU coeds don their bikinis and muscle-men begin roaming the campus beach, SIU fishermen will begin to converge on Lake-on-the-Campus.

For the ardent fisherman—and for those coeds who wonder what swims in the lake other than muscle-men—the word is out that the 40-acre campus lake does indeed have an abundance of fish.

The lake was created more than 80 years ago by a man named Thompson. The original purpose of the lake was to provide ice for the summer months. About 10 years ago, Thompson's pond was drained, cleared of accumulated debris, refilled and restocked with fish. Since then the fish population has steadily increased.

There is no practical way of knowing exactly how many fish lurk in the lake. However, Don Johnson and Wayne Chapman, both research assistants with the Cooperative Fish Research Laboratory, have gathered some information. Their research, basically about the feeding habits of Mr. Large Mouth Bass, has provided some insight into the lake's "fish demography."

"Large mouth bass, bluegill and red-eared sun fish are the most abundant fish," Chapman says. "Green sun fish are of medium abundance."

## Teacher recruitment begins in early April

Teacher recruitment is beginning to step up at SIU's Placement Services, with interviewers coming during the first half of April from 30 school systems and junior colleges of Illinois, Indiana, Missouri, Michigan and Pennsylvania.

Positions for which SIU June graduates will be sought are open in all areas of public school teaching.

Junior college openings usually require a master's degree. They range from commercial art to data processing, from dental hygiene and nursing to metallurgical engineering.

There are limited numbers of crappie and bullheads."

The fish researchers use electronic shock to temporarily stun the fish and bring them to the surface. The fish are then netted, inspected and returned to the lake unharmed.

Chapman says he's seen a lot of large bluegill and red ears. "There's an awful lot of large mouths, 90 per cent are in the seven to 10-inch range."

The shock method doesn't give an entirely accurate picture of the lake's population. Certain species and certain sizes are more susceptible to the shock.

"Occasionally," Johnson says, "we even shock up a snake or a muskrat."

Another research assistant at the fish lab, Roy Heidinger, has fallen for the fish business hook line and shocker.

When he's not out shocking fish, he's back at the lake trying to hook a few. He claims the red ears are hard to catch but the large mouth are easier to hook.

Heidinger—and remember he's done research on the large mouth's feeding habits—says, "I like to fish with an artificial worm and reel him in very, very slow."

There is no catch limit on the lake except for the large mouth bass, which have a ten-per-day limit. Any SIU student, faculty or staff member can fish in the lake once they have purchased a valid Illinois fishing license, which costs \$2.25.

But enough talk. It's time to wet a line. The research assistants at the fish lab have assessed Lake-on-the-Campus: over-abundant with fish—needs to be fished more.

# Lentz Hall being remodeled

Lentz Hall, Thompson Point's cafeteria, is currently undergoing a \$16,000 remodeling project which is already half completed.

The project involves enlarging the TV lounge into an area much like that at the University Center, decreasing the snack bar eating area in half and increasing the size of the student government office, game room and library. In some areas such as the TV lounge the ceiling will be lowered.

Half of the money for the project is coming from area funds provided by students such as old RHA money according to Bob Bullard, a member of the Thompson Point President's Council which approved the remodeling. The other half is coming from the administration.

Target date for completion is three weeks.

# Draft counseling session set today

The SIU Draft Information Service will hold a workshop draft counseling from 10 a.m. to 5 p.m. today in Room C of the University Center.

Frank Cihlar, professor at the St. Louis University School of Law, will speak on "Legal and Ethical Implications of Draft Counseling" and other areas relating to the draft law.

Linda Quint of the American Friends Service Committee will present general information for draft counselors, and will participate with Cihlar in

a panel discussion from 3 to 5 p.m.

The discussion will center around particular questions raised by those attending the workshop.

The workshop is open to the public, although it is being held primarily for those interested in being draft counselors.

The Draft Information Service will hold an information session from noon to 3 p.m. every Wednesday this quarter in Room C.

# Accounting students to be honored

Selected SIU accounting students will be honored at a dinner in the University Center at 6:30 p.m., Wednesday. The event will honor students chosen from a group selected by their instructors on

the basis of ability and potential in accounting, as demonstrated by classroom performance. The event is sponsored by the SIU Chapter of the National Association of Accountants in cooperation

with the SIU Department of Accounting.

The program will be highlighted by John F. Keydel who will speak on the challenges and opportunities in the field of accounting.

# Job interviews at VTI

The following employers have scheduled visits for interviews at VTI. Graduating students at VTI should stop by the VTI Placement Office or call extension 343 at VTI for appointments.

Tuesday, April 1

McDonald-Douglas Aircraft: St. Louis: commercial art, machine drafting and design.

Wednesday, April 2

Bell Telephone Laboratories: Naperville: electronics, industrial and scientific data processing, business data processing.

Thursday, April 3

Bell Telephone Laboratories: Naperville: machine drafting and design, electronics, business data processing, industrial and scientific data processing.

Associated Spring Corp. Mattoon: accounting, machine drafting and design, cooperative retailing, tool and manufacturing methods.

Thursday, April 10

Mead Johnson and Co.: Evansville, Ind.: medical secretarial, stenographic, dental laboratory, industrial and scientific data processing.

Friday, April 11

The Swiss Colony: Monroe, Wisc.: cooperative retailing.

Wednesday, April 16

Illinois Department of Personnel: Springfield: legal secretarial, medical secretarial, stenographic, automotive, accounting, bookkeeping-clerical, welding, business data processing, correction and law enforcement, dental hygiene, executive secretarial, industrial and scientific data processing, practical nursing.

Friday, April 18

Sarkes Tarzian, Inc.: Bloomington, Ind.: accounting, electronics, bookkeeping-clerical, stenographic, machine drafting and design, printing.

# Lecture series planned by Indian musicologist

Antsber Lobo, composer and musicologist from the University of Bombay, India, has joined the SIU School of Fine Arts staff as artist-in-residence for the spring quarter.

Lobo will conduct a series of lectures and demonstrations on music of India, starting April 2 on "The Scaletic Systems of India."

Other topics will include: April 16, "Indian Shrutees"; April 28 and 29 (repeat), "Indian Entertainment"; May 1, "History of Goan Music"; May 15, "Indian Raga vs. Western Melody"; May 29, "Styles and Forms of Indian Music."

Both presentations of the program on "Indian Entertainment" will be given in Furr Auditorium starting at 8 p.m. The other seminars will be held in the Old Baptist Foundation Chapel starting at 7:30 p.m.

Lobo, a University of Bombay graduate in science, is a performing radio artist as well as an authority on Goan folklore and music. He is the inventor of the "Syllabo-Phonetic Notation" system now adopted as the standard Indian notation on music.

His lecture-seminars at SIU will be open to the public without charge.

# Morris writes preface for government report

SIU President Delyte W. Morris is the author of the preface to a 78-page research report just published by the Joint Commission on Correctional Manpower and Training of Washington, D.C.

The publication is entitled "The University and Corrections: Potential for Collaborative Relationships." It deals with the growing need for programs of professional education for persons in law enforcement, corrections and rehabilitation.

In his remarks, Morris said: "The involvement of the university in training, research and innovative demonstration on behalf of the needs of the correctional system appears to be crucial. Equally important is the university's task of reshaping curriculum to meet the needs."

"While the universities must consider their roles in the larger perspective of present and future public

needs, it appears to be certain that the involvement of the university for an education adequate to the task of corrections is vital to success."

The SIU Center for the Study of Crime, Delinquency and Corrections is a leader in correctional education, working closely with local, state, and the federal government in providing training and continuing education for professionals in the field, as well as turning out students trained in a number of corrections oriented specialties.

# Block ticket sales for 5th Dimension to begin Tuesday

Block ticket sales (20 or more) for the 5th Dimension concert will begin at 2 p.m. Tuesday in Room 115 of the SIU Arena. Individual tickets (19 or less) may be purchased beginning 9 a.m. Wednesday at the Information Desk of the University Center.

The singing group, winner of four Grammy Awards for 1968, will appear at the Arena April 19.

# Eisenhower great American government professors say

By Richard McCann  
Staff Writer

Although Dwight David Eisenhower may not be remembered as a great president, he will always be counted among great Americans, according to four SIU professors who were asked to do some reminiscing on the Eisenhower years.

"President Eisenhower was probably the least controversial president of this century," said Randall Nelson, professor of government. "His personality radiated confidence. His personal popularity, even in the midst of presidential politics, was seemingly indestructible. His critics lamented his failure to translate his personal popularity into political power."

Melvin Kahn, associate professor of government specializing in political parties and pressure groups, agreed that Eisenhower "missed the boat" in not building a strong Republican party.

"He didn't start to understand party politics until he was out of the presidency," said Kahn. "He could have built a strong party if he had accepted the role of titular leader of the party. He didn't campaign very hard in off-year elections. He sent Nixon, and there's a big difference in having Nixon's or Eisenhower's name on the program. I don't think he was a strong legislative leader, either."

Kahn felt that Eisenhower's greatest contribution to the party was in unifying various elements and in moving the party closer to the center politically.

"He surprised a lot of people by showing that he was quite conservative," said Kahn. "He got along well with the conservatives and was an effective 'broker-mediator' as we say."

"His view of the presidency was oriented toward his role as a chief of state rather than that of a political innovator," added Nelson. "His assignments as supreme commander in Europe and of NATO demonstrated an appreciation of his unique ability to achieve accommodation under the most difficult of circumstances. As president, he provided further proof of this ability by working effectively for six years with a Democratic Congress."

Howard Allen, associate professor of American History, felt that the Eisenhower Administration will be particularly remembered for underwriting the changes begun during the New Deal.

"The Eisenhower Administration was the first time Re-

publicans had a chance to repeal New Deal legislation. They didn't roll back the New Deal, but actually improved Social Security, which was considered radical by Republicans in the 1930's."

Frank Klingberg, professor of government specializing in American foreign policy, graduated from the same high school as Dwight Eisenhower. Klingberg was most impressed with Eisenhower's character and with the high standards of moral principle he exhibited, particularly during the Suez Crisis.

"He stood against our allies then, choosing to honor the principles of the United Nations charter and to apply the same principles to friends as to enemies. He felt that moral principles must be followed and had in mind that he had to treat both sides with an even hand."

"Another important thing was that this great soldier was also a strong man of peace. He had the ability to persuade leaders and people of different countries to work together as a team for peace."

Klingberg felt that Eisenhower was able to continue his influence on the American people as an elder statesman after leaving the presidency. His advice was sought by presidents and he provided moral guidance at a time when moral renewal was needed.

"In his farewell address in January, 1961, Eisenhower warned the nation against too much power wielded by the military-industrial complex. I think that's something to honor him for," said Klingberg.

Will Eisenhower be remem-

bered as a great president? "In a sample of prominent historians, his overall rating as a president was fairly low," said Allen. "But we have to bear in mind that most historians tend to be Democrats and liberals. Eisenhower's administration was not regarded as being very liberal."

"I guess I'd say his claim to greatness lies in his military commands in World War II. He was a great administrator and planner and played a great role in the military victory. The decisions he made, by and large, were wise and justifiable."

"I have a tendency to admire him myself," said Klingberg. "One feels that Eisenhower's greatness will increase as time goes on—that is, the acknowledgment of his greatness will increase."

"I think he will be rated above average as a president, but not as a great president," said Nelson. "I think, however, there is no question but that he will go down in history as a great American. I think his overall record should entitle him to that recognition."

## Student reaction:

# Ike great general, not great president

By Terry Peters  
Staff Writer

A number of students were interviewed Friday after the announcement of Dwight D. Eisenhower's death. The general sentiment was that Eisenhower was a great man and a great general, but not a great president.

"He should be remembered as a general," said Michael K. Fosse, a senior from Dartford, Great Britain, majoring in theater.

"He was a puppet of the Republicans," Fosse said, "but as a general he was fantastic. He was the only man who could have gotten Bradley, Montgomery and Patton to work together."

"It would be hard to call the '50s the Eisenhower years," Fosse said. "They should be called the Republican years."

"Eisenhower was just a figurehead, comparable to (Ulysses S.) Grant. Generals don't make good presidents."

"He was a valiant fighter," said Mary Ann Missing, a graduate student from Tampa, Fla., majoring in history.

Anita Jane Barger, a junior from Harrisburg majoring in home economics education, said Eisenhower was "the reassurance America needed after the war."

"He was a great leader, and he was like an institution," said Anita L. Rodriguez, a senior from Belleville majoring in dental hygiene. She said she didn't think anyone would replace him as the "grand old man" of the Republican Party.

"He accurately reflected the mood of the '50s don't get involved," said Paul Wheeler, a senior from Marion majoring in German.

"Eisenhower's death will

free Nixon, give him more options," Wheeler said. "But he won't have Eisenhower's reassurance, and it leaves him more open to criticism."

Wheeler said he thought Nixon and Sen. Everett Dirksen, R-Ill., were the only two men who might assume Eisenhower's father image in the Republican Party.

"Eisenhower's presidency was a stagnant period—he didn't move in any direction," said Richard J. Togliatti, a senior from Coal City, Ill., majoring in anthropology.

"Eisenhower wasn't a politician or a statesman," Togliatti said. "He should never have been president."

"He died with honor," said Nowell C. Wisch, a freshman from Winnetka majoring in photography.

Wisch said he thought it was good that Eisenhower died as a person rather than as an idol or myth.

"At least he didn't die with the American people jumping down his throat," Wisch said.

# Pope appoints 33 new cardinals in grass roots move

VATICAN CITY (AP) — Pope Paul VI appointed 33 new cardinals Friday in a move regarded as a shift of some Roman Catholic Church powers from Vatican headquarters to the grass roots.

Among the new princes of the church are four Americans, bringing U.S. representation in the Sacred College to an all time high of 10.

When the cardinals-designate are invested at a secret consistory April 28, the college also will reach a new high—134 members.

The pontiff's selections were seen as a major move to increase the prestige of diocesan bishops around the world and to give developing nations a more prominent place in the highest council of Roman Catholicism.

The new American cardinals are Archbishops Terence Cooke of New York, John Darden of Detroit and John Carberry of St. Louis and Bishop John Wright of Pittsburgh.

Archbishop Cooke told newsmen in Washington where he had gone on a mission that "I am aware that this appointment belongs to the people of New York more than to me personally."

"I thought I was much too young," he added, "and I know of others through the world I felt more deserving."

Bishop Wright told a news conference in Pittsburgh, "The identification with Rome means a lot to me. It means civilization itself."

Bishop Wright will take a post in the Vatican Curia and probably leave his bishop's seat. He will be the only American in the Church's central administration.

His specific post was not announced, but it was speculated that he might be named to head the new Theological commission formed by the Pope.

The elevation of four Americans to the purple underlined the growth of the Roman Catholic Church in the United States which 61 years ago was still considered a missionary land by the Vatican.

The 10 Americans will be the third largest group of cardinals in the expanded Sacred College, behind France with 11 and Italy with 41.

# Big Four U.N. powers to discuss Middle East

UNITED NATIONS, N.Y. (AP) — Diplomatic sources said Friday that the Big Four U.N. ambassadors would start joint meetings on a Middle East peace settlement next Thursday.

The word came as Britain and France called on the Security Council for general support of the big-power efforts.

The informants said the ambassadors of the Soviet Union, the United States, Britain and France would hold their first four-power meeting at the French U.N. mission in New York.

Later meetings will be held at other missions. They are expected to go on for months. France proposed such talks Jan. 16, the United States called on Feb. 5 for bilateral talks for a preliminary understanding and they have been going on since Feb. 11.

The four ambassadors will talk about how to carry out the council's resolution of Nov. 22, 1967. That resolution calls for a settlement of the Arab-Israeli war of the previous June including Israeli withdrawal from occupied Arab territory and Arab acknowledgment of Israel's existence.

# Eisenhower to be saluted during three day funeral

WASHINGTON (AP)—The U.S. government will render a final salute to Dwight D. Eisenhower in a solemn three-day funeral before a train carries the late president and war leader to his resting place in the Kansas plains.

Under tentative funeral plans, the body will be taken to Washington National Cathedral an hour before noon today to lie in state.

Just before noon Sunday, Eisenhower will be transferred to the traditional horse-drawn caisson which will lead a solemn procession from the Ellipse near the White House up Constitution Avenue to the U.S. Capitol where he will lie in state.

In line of march will be a company from each of the armed services, a company of cadets and midshipmen from each of the service academies, National Guardsmen, reservists, and national commanders of some 32 veterans organizations.

Cars carrying the dignitaries will fall in line behind and Air Force planes, according to the plans, will appear and fly over the procession as it approaches the foot of Capitol Hill.

Arriving at the plaza in front of the Capitol's east entrance, the casket will be carried up the long flight of steps between a military "honor cordon."

Leading the way will be members of the Joint Chiefs of Staff serving as a special honor guard.

A battery of guns will open up with a 21-round salute, each round coming at 51 second

intervals. Meanwhile, the Army band will play a hymn in the background.

Awaiting the casket in the Capitol rotunda will be a reception committee of members of Congress. A eulogy will be spoken after the casket is placed on a catafalque and a military guard is posted around the coffin.

At this point, the presidential wreath will be placed near the casket.

According to the plan, members of the Eisenhower family will decide whether the casket will be open or closed while the public files past.

Eisenhower is to lie in state about 21 1/2 hours.

On the third day of the funeral, at about 1 p.m. EST, the casket will be carried from the Rotunda amid military honors and placed back in

bearse and driven back to the National Cathedral.

The great main cathedral will be filled with military and civilian leaders, Washington city officials, comrades and friends of Eisenhower for the funeral service expected to last about 30 minutes.

Once the service is ended, Eisenhower's casket will be borne from the cathedral and the cortege will drive slowly to Union Station, a few blocks from Capitol Hill.

Here, he will receive another 21-gun salute accompanied by more "ruffles and flourishes" and "Hail to the Chief."

The casket will then be placed on the train and with the Eisenhower family will leave for burial in Kansas.

The Military Districts of Washington, in charge of funeral plans, said burial will be Wednesday in Abilene.

1 You sure are my kind of folkinger' Fran.

2 I think maybe you and me could uh possibly.

3 Oh a lovely minister I'm sure it to be.

4 A singin' my song to humanity.

1 I've always admired you.

2 Forever to roam is my destiny.

3 And I was hoping that perhaps someone the feeling might be mutual.

4 Without any need for company.

1 But I guess you're just wrapped up with your own.

2 None you alone (sounded).

3 I'd just like to be around to see you just the way you are.

4 I'd just like to be around to see you just the way you are.

# Baseball club ends Southwestern tour

(Continued from page 11)

two days the SIU team downed Wyoming 8-0 and 5-0.

In the final game of the tour, three SIU pitchers couldn't hold off the Arizona State offensive effort and lost 4-3. ASU batters dropped hits just over the heads of SIU infielders, and SIU missed the services of the hard-hitting Rogodzinski who rode out the game in bed with the flu.

After the game, Lutz said, "The game should have been a 1-0 contest in our favor. Mental errors lost us the game."

The Salukis returned to Carbondale Thursday night and left again Friday morning for three games with Florida State.

# On-campus job interviews

Following are on-campus job interviews provided by the University Placement Services, 511 S. Graham, College Square B. For additional information and appointments, call 453-2391 or stop by the Placement Services Office.

Monday, March 31

**Bakersfield City School District, Bakersfield, Cal.:** elementary, kindergarten through eighth grade; particularly interested in interviewing those for kindergarten through sixth grade; positions in junior high are limited.

Tuesday, April 1

**Leo Burnett and Co., Inc.:** seeking advertising, journalism, and marketing majors for media planning; initial assignment and training is in either the media or research department.

**Liberty Mutual Insurance Co.:** underwriting-management training program, analyzing and pricing of risks (policyholders or potential policyholders) to determine acceptance or rejection and/or desirability; will also speak to candidates interested in actuarial, sales, claims or loss prevention engineering work; any majors, especially liberal arts; underwriting candidates should have a good math and English background.

**U.S. Air Force:** Seeking men and women for office candidates in USAF.

**Checkers, Simon and Rosner, CPA's:** junior auditors for medium-sized Chicago based certified public accounting firm; practice limited almost exclusively to Chicago area.

**Automatic Electric Co. and Lab., Inc.:** BS or BA in math, accounting, computer science.

**Power Controls Div., Midland Ross Corp.:** positions open in engineering (design, research, and development, and sales engineer); plant in Paris, Tenn., Michigan and Hamilton, Ont., Canada.

**Lehn and Pink Products Co.:** BS or BA degree candidates in business or industrial engineering to fill positions as management trainees, the job will entail exposure to all departments at the Lincoln Plant and could ultimately lead to supervisory and/or administrative responsibility.

**Eastern Ill. Development and Service Unit, Charleston:** all areas except history, social studies and home economics; this organization represents 40 schools in East Central Illinois.

Wednesday, April 2

**McDonnell-Douglas Corp.:** technology, business administration, accounting, physics, math, and accounting majors for positions in engineering, research, manufacturing, product support, fiscal, automation center.

**Leo Burnett and Co., Inc.:** refer to April 1. **R. R. Donnelley and Sons Co.:** accounting, business trainees, finance, management, locations in Illinois, Connecticut, Indiana and Pennsylvania.

**Lever Brothers Co.:** management trainees; large consumer goods company with nationally advertised products desires industrious men, ages 21-29, to start in retail sales leading into management; salesman will call on the drug and grocery trade while learning modern marketing techniques; car, expense account, bonus plus salary, profit sharing plan, etc; applicant must be willing to relocate and be draft exempt.

**Chevron Chemical Co., Ortho Division:** interviewing business, marketing, and all agriculture majors for career in sales of agricultural chemicals, fertilizers, or lawn and garden products; upon completion of a five week training course in San Francisco, individuals will be assigned to one of nine sales regions for five months of on-the-job training in all aspects of ag-chemical marketing; assignment of sales territories comes after successful completion of training; salesmen are provided with a company car and business expense account.

**J.J. Case Co.:** district manager sales trainees, services representative trainees, credit representative trainees.

**Community Unit School District #2, Mattoon:** special education, EMH intermediate level, EMH trainable mentally handicapped; elementary, principal, grade six, two, four, and five; elementary vocal music, elementary and junior high vocal music, junior high English, senior high, economics, Spanish-French combination.

**Waukegan Township High School, Waukegan:** business ed., home ed., ind. arts, English, math, boys P.E., girls P.E., driver ed., biology, social studies, special education (slow learners), special education (EMH), director of testing (MS), school social workers (MSSW), guidance (MS).

**Forman Community Unit, Mantio:** Grades 2, 4, 6, 5-6 combination.

**Iena-Winslow Community Unit Schools, Iena:** vacancies in nearly all areas in elementary, junior high and senior high except social studies and phys. ed.

**Lake Park High School, Roselle:** check with Placement Services.

Thursday, April 3

**Uniroyal, Inc. (Gillet Army Ammunition Plant):** chemical engineering, mechanical engineering, management, computer science.

**American Cyanamid:** chemistry majors (BS, MS, and Ph.D. levels).

**Lake Park High School, Roselle:** check with Placement Services.

**Collinsville Community Unit 10, Collinsville:** shop, elementary, teachers, girls P.E., social studies, math, special education, journalism, speech, science, English.

\*Citizenship Required

# Bahan headlines 'interesting' cast

"Mr. Highpockets," the prize winning comedy about Abraham Lincoln which will be presented by Southern Players, under the direction of Christian Moe, April 11-13 and 18-20, features an interesting cast.

Lincoln will be played by Paul Bahan, his last role at SIU before entering the armed forces. Theatre goes will remember Bahan as George in "Who's Afraid of Virginia Wolf?" Claudio in "Measure for Measure" and as the Friend in the first production of "Mr. Highpockets" seen here last summer. In the forthcoming production Bahan will move to the title role and David Hardin, a graduate theatre student from Morgantown, W. Va., as the Friend.

The cast also features a great variety of ages. William Hammack, 52, a doctoral candidate in theatre and Jackie Anderson, 10, daughter of John Anderson, dean of International Services at SIU, will both be in the changing crowd that points up Lincoln's relationship to the people of his time.

This production will also feature a new musical score by Robert Mueller, who collaborated with Christian Moe, the director, on Moe's "Make Her Wilderness Like Eden."

Other cast and production members are: Arthur Burns as Dr. Stygian Sticks, James Wearne as The Big Man, Hugh Smith as The Short Man, John Davis as The Dark Man, Billy Padgett as The Light Man, Keith Moe as The Boy, Sylvia Sinner as The Dark Woman, Elizabeth McAnich as The Light Woman, Libby Smith as The Small Woman, Barbara Bristol as The Big Woman.

The production is designed by Darwin Payne. Stage manager is Lois Stewart; lighting is designed by Thomas Anderson. Choreographer is W. Grant Gray.

Coupon holders are reminded that mail order reservations are now being accepted in the Theatre Box Office, Communications Building, phone 453-2759.

# Your Psychology professor lives with his mother?

Think it over, over coffee. The Think Drink.

For more information, contact your local distributor or write to The Think Drink, Dept. B, P.O. Box 500, New York, N.Y. 10005. The International Coffee Organization.

# New graduate catalogs may now be obtained

Graduate School catalogs for SIU's Carbondale and Edwardsville Campuses have come from the press and may be obtained from Central Publications, SIU, Carbondale, Ill., 62901.

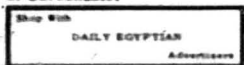

Listed for the Carbondale Campus are doctor of philosophy degree programs in 19 subjects. The master of arts degree is offered in 31 fields, the master of science in 32, the master of science in education in 14. In addition, the master of business administration, the master of music and the master of music education degrees are offered.

At the Edwardsville Campus, a graduate student may seek the master of arts degree in nine subjects, the master of fine arts in art, the master of music education,

the master of science in seven fields, and the master of science in education in 17 areas.

As basic research resources for the graduate student, the Carbondale Campus has its one-million volume Morris Library, an Office of Research and Projects and an extensive Data Processing and Computer Center, in addition to the facilities of the various departments.

The Edwardsville Campus provides the Elijah P. Lovejoy Library of more than 300,000 volumes plus special collections, and has access to the Morris Library as well. It also possesses a Data Processing and Computing Center and rapid access to the one at Carbondale.

Davis, right, assistant professor of geology at SIU, and Charles Mayfield of Bloomington, check out geophysical equipment presented to the University geology department by Esso Production Research Company. Mayfield is a board member of the SIU Foundation, non-profit agency for accepting such gifts to the institution.

## Southern Illinois counties get millions in SIU cash

From Xenia on the north to Brookport on the south, from Chester west to Carmi east, SIU is pouring millions in cash into the Southern Illinois economy through wages paid its employes.

A look at figures provided by the SIU Personnel Office for the Carbondale Campus alone shows \$2,066,808 was paid to 4,284 University employes for the month of January, 1969, the latest breakdown available. The \$2 million-plus was just the take-home pay, which means it was money left when tax, retirement, insurance and other items were withheld. It also means cash that is being channeled, for the most part, into the communities where the employes reside.

Not all of the employes are administrators and teachers. In fact, the occupations listed are those one would find in most any community: Included are carpenters, painters, sheet metal workers, brick masons, policemen, groundskeepers, secretaries, clerks, cooks, building custodians, key makers, engineers and architects.

The data showed SIU Carbondale Campus employes make their homes in 56 communities of 18 Southern Illinois counties. The counties of Clay, Clinton, Gallatin, Pope, Pulaski, Wabash and White had only one employe each at SIU and their total January take-home pay was \$2,261.

Sizable chunks of money, the figures revealed, went into Williamson, biggest beneficiary next to SIU's home county of Jackson, and into Franklin,

### Keep the devil out

The Maginot Line was started in 1929 under War Minister Andre Maginot. The fortifications stretch more than 200 miles through eastern France from Switzerland to Belgium. Maginot vowed, "We must build a wall the devil himself cannot get through."

Union, Perry, Saline and Johnson.

Obviously, Jackson County, and Carbondale in particular, have by far the most employes. More than three-fourths of the take-home pay total of \$2,066,808 for January, \$1,671,100, went to 3,389 Jackson County residents, of whom 2,857 live in the Carbondale community. The Carbondale group received a net \$1,426,453.

Murphysboro's 363 SIU employes took home \$166,087, and the balance for the county was spread into Ava, 8 employes and \$3,804; DeSoto, 55 and \$21,946; Dowell, 6 and \$2,781; Elkhart, 12 and \$3,459; Makanda, 84 and \$44,644; and Gorham, 3 and Grand Tower, 1, \$1,896.

The number of employes by community in the other counties:

Williamson: \$255,158 for 563 employes—Cambria, 29 and \$11,130; Cartersville, 217 and \$108,572; Colp, 12 and \$3,757; Creal Springs, 3 and \$1,331; Energy, 7 and \$2,298; Herrin, 106 and \$48,896; Hurst, 29 and \$12,109; Johnston City, 28 and \$12,133; Marion, 129 and \$53,647; Pittsburg, 3 and \$1,285.

Franklin: \$49,791 for 120 employes—Benton, 17 and \$7,975; Christopher, 6 and \$1,850; Royalton, 18 and \$6,671; Mulkeytown, 4 and \$1,402; West Frankfort, 43 and \$20,207; Zeigler, 28 and \$9,979; and Thompsonville, 3 and Sesser, 1, \$1,707.

Union: \$44,632 for 102 employes—Anna, 36 and \$14,814; Alto Pass, 8 and \$3,247; Cobden, 41 and \$19,912; Jonesboro, 15 and Dongola, 1 and Wolf Lake, 1 for \$6,659.

Perry: \$20,486 for 54 employes—DuQuoin, 49 and \$18,803; Pinckneyville, 5 and \$1,683.

Saline: \$71,865 for 24 employes—Harrisburg, 21 and \$10,287; Eldorado, 2 and Carrier Mills, 1, \$1,578.

Johnson: \$5,840 for 14 employes—Vienna, 6; Goreville, 6; Ozark, 1; and Buncomb, 1 for \$5,840.

Randolph: \$2,158 for Chester, 3 and Steeleville, 1.

Jefferson: \$1,338 for Mt. Vernon, 3.

Massac: \$1,150 for Brookport, 1 and Metropolis, 1. Wayne: \$1,032 for Fairfield, 1 and Wayne City, 1.

## Cross-cultural session planned

A meeting will be held at 4 p.m. Tuesday in the International Center, south wing of Woody Hall, for students interested in participating in a cross-cultural living-center program.

The program, which is tentatively scheduled to begin fall quarter, would utilize an "international house," where American and foreign students would room together. A location on Thompson Point is

presently being considered for the house.

According to Frank Sehert, international student consultant, response to the program among foreign students has been poor, but there has been "heavy" American student interest. A total of 50 students have expressed initial interest in the program, Sehert said.

Sehert said that Tuesday's meeting will be concerned with hearing student reaction to the program.

**NEW**

## Engineering and Science at IBM

# "The interdisciplinary environment keeps you technologically hot."

"Working in data processing today pretty much means you work in a broad spectrum of technologies," says Nick Donofrio.

An Associate Engineer at IBM, Nick is a 1967 graduate in Electrical Engineering. He's using his technical background to design circuits for computer memory systems.

"Circuit design used to be a narrow job," he says. "Today it can take you into the front yard of half a dozen different fields in my job, for example, I work with systems design engineers, chemists, physicists, metallurgists, and programmers."

Nick describes a hypothetical case history. "A memory systems man comes to me with memory circuit requirements. Before I can start designing the circuit, I go to see a physicist. He helps me select an appropriate technology for the monolithic circuit."

"As the design develops, I work with a test group and also check back with the systems and semiconductor people to make sure I'm on the right track."

### Keeping up

The interdisciplinary environment at IBM helps you keep up to date technologically. As Nick puts it, "You're constantly exposed to what's happening in other fields."

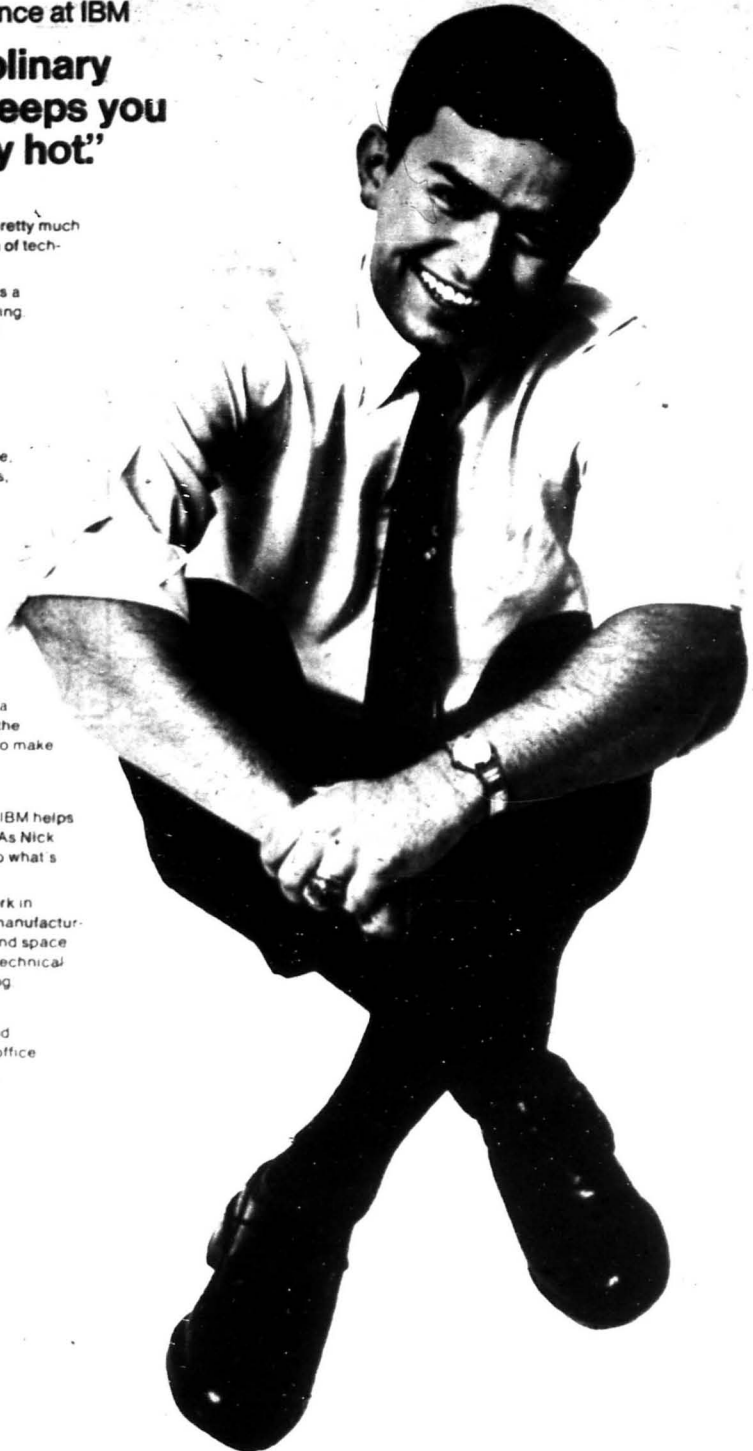

IBM needs technical graduates to work in research, design and development, manufacturing, product test, field engineering, and space and defense projects. We also need technical people in programming and marketing.

### Check with your placement office

If you're interested in engineering and science at IBM, ask your placement office for more information.

An Equal Opportunity Employer

## Southwestern tour successful-Lutz

Mike DeDonker accompanied the SIU baseball team on its Southwest tour, returning to Carbondale with the team on Thursday.

By Mike DeDonker  
Staff Writer

Standing in the darkness of Phoenix Stadium March 26, Coach Joe Lutz told his SIU baseball team that, overall, they had done a fine job on their Southwest tour.

The Salukis had just finished that tour with a night game loss to Arizona State, 5-3.

"We played a close ball game tonight," Lutz told the players. "And the kind of baseball that produces a close game brings the men to the front and leaves the boys behind."

Lutz said, "I don't expect this team to lose more than three or four games for the rest of the year. This team is coming along fast. I want this to be a team that will see how many games it can win in a row, and I want you to win both during the rest of the season and in the post-season. I know, right now, that you can do it."

The loss to Arizona State brought the Salukis' season mark to 8-2-1.

The team started its tour on the wrong foot. After three straight wins over Louisiana State on the previous weekend, SIU dropped the first game of the tour to the University of Texas at El Paso 2-1.

In that game, March 19, El Paso pitcher Marc Bombard silenced SIU bats almost completely for eight innings on

the way to a two-hit victory. Barry O'Sullivan was the only SIU player to reach first before the ninth inning when he hit a line shot that hand-cuffed El Paso shortstop, Ron Rush, in the fifth inning. Rush was charged with an error.

El Paso got the lead early when consecutive singles with a run in the second. Their other rally came in the seventh when Rush drove a broken bat single through the hole between second and short, moved to second on another single and scored on a line drive that glanced off the glove of shortstop Gene Rinaldi.

No runs, no hits, one error was the extent of the SIU line score until catcher Bob Sedik led off in the top half of the ninth.

Sedik collected SIU's first hit by placing a shot between third and short for a single. He was forced at second on a grounder by Bob Blakely and Blakely was on first with one out.

After another out, Mike Rogodzinski hit a drive down the right field line that bounded crazily off the wall for a triple that sent Blakely home with SIU's only run. Lee Pitlock went the distance for SIU giving up 10 hits and two walks while striking out six.

On the following day, SIU overcame a number of early mistakes and held off a late rally by El Paso for its fourth victory of the season, 9-7.

"We made more errors (four) and more mental and physical mistakes in the first three innings than a good team should make in a whole

season," said Lutz. "Mistakes like not covering bases on hits to the outfield will cost us games if we keep making them."

The difference in the game came in the top of the fifth inning when SIU unloaded five of its 14 hits in the game and began a parade to home plate that saw Rogodzinski, Bill Stein, O'Sullivan, Blakely and Bill Clark score.

Starter Jerry Patzhold took the win for SIU.

SIU then moved on to Las Cruces, New Mexico, March 21, to meet New Mexico State.

In that game, home runs by O'Sullivan and Jerry Bond powered SIU past New Mexico State, 8-2.

Bond's homer was a three-run shot over left center field that scored Sedik and Terry Brumfield. O'Sullivan's blast was good for two runs in the fourth after Stein had doubled to right center.

SIU came back the next day and used a four-run scoring binge in the third inning to beat New Mexico State 7-3.

In the third inning of that game a walk to Bond, an error by New Mexico's shortstop that let Stein reach first, and home runs by Rogodzinski and O'Sullivan accounted for the four runs.

The victory was the first of the trip for Steve Webber who went the distance for SIU. The game was called at the end of seven innings because of a dust storm that made seeing difficult and breathing nearly impossible.

After the New Mexico dust storm, the SIU squad left for Phoenix and a three-game

series with the University of Wyoming.

The first game ended in a 6-6 tie after Wyoming hitters tied off against Pitlock for an early lead and SIU battered around the score against Wyoming's Roger Mackenzie.

The game was called at the end of regulation play because of darkness.

Lutz let the players know that he was displeased with their initial showing against Wyoming, and on the following

## Decision to hold tennis match depends on weather conditions

Today's scheduled tennis match with Murray State, set for 2 p.m. on the SIU tennis courts, may be postponed, according to Coach Dick LeFevre.

Should weather conditions require it, the match will not be held. The decision will be made early today by the two team coaches.

SIU's tennis team completed its spring tour Thursday with a 6-3 loss to Georgia. Wednesday's match with Princeton was postponed because of rain.

Mackey Dominguez and Ray Briscoe were the only winners against Georgia. Dominguez defeated Brant Bailey 6-0, 6-3, 7-5, and Briscoe won over Sam Fuller 6-0 by default.

The other singles matches were as follows:

Bill Shippey (Ga.) beat Fritz Gildemeister (SIU) 6-1, 8-6

Danny Birchmore (Ga.) beat Bill Lloyd (SIU) 6-6, 7-5  
Norm Holmes (Ga.) beat Chris Greendale (SIU) 6-0, 6-2

Mike Cmaylo (Ga.) beat Kermit Masten (SIU) 6-1, 6-1

Southern dropped all three doubles matches with Shippey-Holmes (Ga.) defeating Gildemeister-Lloyd (SIU) 13-11, 6-2; Birchmore-Bailey (Ga.) beating Briscoe-Greendale (SIU) 6-3, 6-2 and Cmaylo-Fuller (Ga.) topping Dominguez-Masten (SIU) 6-3, 6-2.

Although the Salukis lost all seven of the matches, Coach Dick LeFevre said that the trip was successful because the players did get into shape.

"This past eight days has given me a chance to look at the boys and see what they can do. I now feel that we are ready to start the regular season."

## Baker wins road race at Atlanta International

ATLANTA, Ga. (AP)—Penny Buddy Baker, sidelined for two days by a balky engine, returned with a vengeance Friday and recorded the fastest lap ever at Atlanta International Raceway.

The 225-pound, 6-foot-4 Baker was clocked at 158.730 miles per hour during his sizzling turn around the one-and-one-half mile oval. His time was almost two miles faster than the two-day old track record set by Ford's David Pearson.

Baker's Dodge Charger thus will start 17th in the 40-car field for Sunday's Atlanta 500 stock car race which carries \$109,000 in prize money.

The Charlotte, N.C., driver blew an engine during practice on the first day of time trials Wednesday. The next day,

a \$5 part in the oil pump malfunctioned, causing internal damage to a second engine. His crew had to spend Wednesday night rebuilding it.

Baker's official time for the top lap was 34.207 seconds. But his second qualifying lap, 156.931 mph, also was better than Pearson's pole-winning speed of 156.794.

## Alcindor to sign with Milwaukee

NEW YORK (AP)—Law Alcindor, possibly the most sought after college basketball player in history, has decided to sign with the Milwaukee Bucks of the National Basketball Association, he disclosed Friday night in an interview on a New York radio station.

"I had to weigh two decisions, the ABA American Basketball Association and the NBA, and the NBA seemed most solid and sound," Alcindor told sports announcer Chip Cipola last Tuesday in a taped interview made public Friday night.

Alcindor, the 7-foot-1 1/2 three-time All-American from UCLA, did not reveal the terms of the contract, which was rumored to be a multi-year pact approaching \$1 million.

"My decision was based mainly on the fact that it was the best situation for me financially," he said.

"It would have been a lot easier playing in New York, all things being the same. But as it was things were not the same."

## Division of state high school basketball tourney proposed

SPRINGFIELD, Ill. (AP)—A small school Illinois coach advocates putting the state high school basketball tournament on two different classifications for naming state champions.

Chuck Rolinski, athletic director and basketball coach at Toluca High School, said the present system of having one title winner for all 780 schools was unfair to those with small enrollments.

Rolinski expressed his views to a meeting Thursday of the Illinois High School Athletic Directors Association.

Under the existing system, small schools are assigned to district tournaments as the first step in the state championship series.

The District champions advance to the regional tournaments where larger schools compete in the eliminations.

"The biggest single problem facing the small school in regard to basketball is the present system," said Rolinski, coach of a school with 170 enrollment.

"We should have a class system in Illinois with the smaller schools playing in the

districts in Class B and those going directly to the regionals to be in Class A."

"We district schools have to qualify just to play in the regional," Rolinski said. "I hate to use the word discrimination so I'll say that we sometimes feel like being fed into a grinder to make hamburger."

Under his suggestion, Class A and B state tournaments to name champions of the two divisions would be held at the same time.

No formal action on Rolinski's recommendations was taken at the meeting. Many of the athletic directors said if the system were to be changed, a three-class state tournament might be better than the two divisions suggested by Rolinski.

The athletic directors also discussed the possibility of holding intrastate tournament series in football, a sport which does not name an Illinois champion.

A committee was named to present a format to the Illinois High School Association.

## Summer happens at Southampton!

What a way to learn! Located in one of the country's best-known summer fun areas, Southampton College is surrounded by magnificent beaches, yachting and sailing centers, golf courses, art colonies, theatre activities and more and more!

Accredited undergraduate courses in Humanities, Science, Social Science, Business Administration, Marine Science, and Education, plus limited graduate offerings, during two 5-week sessions: June 23-July 25; July 28-August 29. Courses are open to visiting students who are in good standing at their own college.

Three, four and five-week workshops in sculpture, music, painting, drama and films. Concerts and lectures will be given by resident musicians and visiting experts. Dormitory accommodations are available for students in academic courses and workshops.

For further information, mail coupon today.
