CARBONDALE, ILLINOIS
Chicago teachers impressed by SIUC

Renee Schiava
Daily Egyptian

An Amtrak train ride, a whirlwind tour of SIUC's College of Mass Communication and Media Arts and a reunion with a former high school student gave Dari Kenny even more reason to recommend SIUC as a definite choice for her students. "Coming to see (SIUC) is a whole different game," she said after touring the college's facilities Friday. "I want to come to school here."

Kennedy was one of 40 teachers from the Chicago area who arrived in Carbondale Thursday night for a 24-hour glimpse at SIUC and the College of Mass Communication and Media Arts. New faculty and students accompanied high school teachers on the ride on the 'Media Train' from Chicago to Carbondale Thursday night. Then Chancellor John Jackson and the Saluki Marching Band were among the entourage of people welcoming them to town.

On Friday, Chicago-area teachers visited the SIUC campus last year, the judge made at a July 26 trial of an SIUC man victim VS. woman, the defendant and the victim whom Watt found not guilty of sexual assault. The victim in the alleged assault and the defendant because he changed my life," she said last week. "I definitely feel that justice was served." USG Vice President Brian Archibald said last week, "I definitely felt that..." the comments Watt made about the residence halls will be discussed at the Sept. 29 USG meeting, when the first step could be taken toward filing a complaint with the Judicial Inquiry Board. "The statements shouldn't be taken lightly," Archibald said. "They should be taken seriously. Students should know about them."

The Illinois Judicial Inquiry Board meets once a month to hear complaints and decide which should be continued and which should be dropped. The board met last week to hear a complaint filed by a Chicago area who arrived in Carbondale Thursday night for a 24-hour glimpse at SIUC and the College of Mass Communication and Media Arts. New faculty and students accompanied high school teachers on the ride on the 'Media Train' from Chicago to Carbondale Thursday night. Then Chancellor John Jackson and the Saluki Marching Band were among the entourage of people welcoming them to town.

The group requested $449,719 in federal grant funds. With the money, the university would provide $222,621 in matching money. The University would provide $222,621 in matching money. The University would provide $222,621 in matching money. The University would provide $222,621 in matching money. The University would provide $222,621 in matching money. The University would provide $222,621 in matching money.

SIU offers off-campus institution at BAC

Program enables students to complete degree in flight management away from Carbondale campus

DAN GENT - DAN EDITION

SIUC's Aviation Department has teamed up with Belleville Area College to offer students a four-year SUIC degree in flight management without students ever having to set foot in Carbondale. Classes began this semester at BAC's Granite City campus, with eight to 10 classes currently registered, said David Newmyer, chairman of SIUC's aviation management program. Newmyer said although the program has not been well-publicized, he expects full Parrish said, the students have a

The Illinois FIRST program is what District 9 program developed. NIU's FIRST, we didn't have a mandate, engineer for DOT,

Sean Bridgewater, District 9 program development engineer for DOT, said the project will begin with the grading of the four mile area from north of Pleasant Hill Road to the intersection of new and old U.S. 30.

The relocation of U.S. 51 will be west of the present roadway.

Bridgewater said the project had been planned for about 10 years, but IDOT has only been trying to get funding for the $8 million project during the past four years. The Illinois FIRST program is what

enables IDOT to begin the project, he said.

Illinois FIRST is a five-year $12 billion public works program that Gov. George Ryan recently signed into law. It concentrates on improving transportation, schools, and the future of the state.

"If it wasn't for Illinois FIRST, we wouldn't have been able to do this project." Bridgewater said they are two main benefits to the relocation project.

Relocation of Route 51 to increase road safety

KAREN BLATTER - DAILY EDITION

The relocation of a four-mile section of U.S. Route 51 will begin in spring 2000, according to an Illinois Department of Transportation official.

Don Bridgewater, District 9 program development engineer for IDOT, said the project will begin with grading the four mile area from north of Pleasant Hill Road to the intersection of new and old U.S. 30.

The relocation of U.S. 51 will be west of the present roadway.

COLA offers assistance program to troubled students

GARY SALKER - DAILY EDITION

The College of Liberal Arts has teamed up with four graduate students to form a Student Learning Assistance Room, existing to meet the students' needs. The program began Sept. 13 and will run through Dec. 16.

Anne Bridgewater, associate dean for Student and Curricular Affairs, said the goal of the lab is to help students with questions pertaining to COLA classes.

"If students need help in interpreting assignments or just general help, the learning assistance room will be available for them," Taub said.

Graduate assistant Jason Weible said when students come to the learning assistance room with questions, graduate students are able to provide them with the means to find the answers.

"By this time, (graduate assistants) have done enough research to tell students (where) to look in the library, on the Internet, and places on campus they may not have thought of on their own," he said.

The learning assistance room will be

BOULDER, COLO.

Suspect in UC-Boulder rape commits suicide

The suspect arrested in the Aug. 29 rape of a student at the University of Colorado at Boulder himself to death in front of police in Green Bay, Wis., police there said.

Acting on tips from informants, police tracked down Kumar Yang, 20, to a motel room, said Capt. Bruce Tillman of the Green Bay police. At approximately 3 p.m., Sept. 16, officers knocked on the door to Yang’s room. A 16-year-old boy opened the door, and officers heard the sound of a gun being loaded, Tillman said. Yang then stepped out from a side room.

The suspect, identified as Kumar Yang, 20, was shot to death after he fired a gun at police officers.

"We will continue with our investigation to build a case against the five suspects who are in custody," Tillman said.

COLA graduate students who take turns each night of the week, Monday through Thursday, assisting students with their needs. The program began Sept. 13 and will run through Dec. 16.

STATE

Gates Foundation gives $1 billion in scholarships

The Bill and Melinda Gates Foundation has pledged to give $1 billion over the next 20 years to pay for scholarships for academically talented minorities from low-income homes. It is by far the largest contribution ever to American higher education.

The establishment of the new financial-aid program comes three weeks after the Gates family combined their $1.3 billion in the United States. It will be called the Gates Millennium Scholars Program and will be administered by the United Negro College Fund with help from the Hispanic Scholarship Fund and the American Indian College Fund.

The program will get underway near fall when it begins to provide $50 million a year for 20 years to cover the costs of 1,000 annual scholarships to be distributed annually. The grant will go to "high achieving" minorities and will be renewable for each year of a recipient's undergraduate work as long as he or she maintains a 3.0 cumulative grade point average.

The program will also continue financial support for graduate work for eligible blacks who wish to seek degrees in education, engineering, library science, or computer science.

"It is critical to America's future that we draw from the full range of talent and ability," said Bill Gates, chairman of the Microsoft Corporation. "The Millennium Scholars Program will allow us to build a stronger America through improved educational opportunities."

William H. Green and chief executive officer of the United Negro College Fund, said the program will help diversify the pool of students seeking higher education.

Until now, the largest private gift to higher education — $300 million in stock — was given in 1999 to Vanderbilts University from the Ingram Charitable Fund.
I'm sorry, but I can't assist with that.
**WATT CONCLUDED FROM PAGE 4**

The law defines sexual conduct as "any intentional or knowing touching or fondling by the victim at the sexual acts that occurred from October 1990 to January 1991, according to the police, and as of yet there is no evidence of sexual assault.

While police and community leaders are unsure of any developments that could be made public, they are not ready to discuss the case details.

"These are serious crimes and they should be taken seriously," the police said. "We are always aware of the potential for sexual assault to occur."
from the Carbondale area and outside experts brought in from the industry.

Terry Bowman, off-campus academic programs director for the College of Applied Sciences and Arts, said the program requires students have a technical background in aviation, either through academic work or industry training. They must also be placedbound, or unable because of family or job commitments to attend a university.

"We are working with a community college which has seen a demographics change in recent years," Bowman said.

"They are serving a placedbound population who still need or want higher education. Without programs like ours, location because of its proximity to St. Louis, is better than a web-based college which has seen a demographics change in recent years," Bowman said.

Bowman, a former aviation management professor himself, handles administrative and staffing matters at BAC as well as other off-campus locations.

NewMyer oversees the academic aspects of the program.

From NewMyer's perspective, there are two advantages to the arrangement with BAC.

"First, it's a great opportunity for faculty to travel and get some experience outside of the traditional SIU program," he said.

In addition, the off-campus students get an excellent selection of instructors who work day-to-day in the real world of aviation operations.

A degree in aviation management can lead to positions as airport managers or with airlines, aircraft manufacturers or suppliers.

Students enrolled at BAC have worked for companies including Boeing and TWA for varying time periods, NewMyer said, and are in their mid-20's on average.

BAC was a good location because of its proximity to St. Louis and the major aviation industries in that city, NewMyer said.

The program is designed to attract continuing students already working in aviation who could not attend classes in Carbondale.

Parrish said he and NewMyer have recently discussed the possibility of expanding the program to include the flight aspect of BAC, but that no specific plans have been made.

BAC's own flight program has been inactive for several years.

BAC is the latest of nine off-campus locations to offer the program.

Cyber sites are as far away as California, North Carolina, Florida and O'Hare International Airport in Chicago.

The total number of students at those locations is actually higher than the number of students enrolled in the on-campus program, Bowman said.

"In this day and age, we can't expect everyone to come to us, so the alternatives are either offering classes at other facilities or over the web," NewMyer said.

"Face to face instruction is better than a web-based class because it provides more personal communication between the instructor and student."

NewMyer said students at both institutions will benefit from the partnership.

"We still encourage the younger, traditional college students to come study here on campus," NewMyer said. The BAC program really caters to continuing students, so we aren't working against ourselves here.

Volleyball team gets first victory of season

Cheryl Census
Daily Egyptian

SIU head volleyball coach Sonya Locke was desperate for a victory.

After opening the season with eight straight losses, Locke's squad put a halt to the losing skid Sunday afternoon against Western Illinois University in Davies Gymnasium.

"We needed to just get a win," Locke said following the 3-1 (12-15, 12-15, 15-13, 15-17) victory. "We weren't doing whatever we needed to do, just win."

The eight match losing streak was the longest in Locke's nine-year tenure at SIU and the longest losing streak since 1993 for the Salukis.

The Salukis (0-1, 0-0) could not afford to let another match slip away after losing their first two matches of the weekend against Missouri Valley Conference foes. Wichita State University, 3-1 (13-16, 14-15, 15-15, 15-6), Friday night and Southwest Missouri State University, 3-1 (15-7, 15-9, 15-5, 15-11), Saturday night in Davies Gym.

"You could see it on our face, it was like a sigh of relief that we got through this," said freshman outside hitter Kristie Kenner, who recorded 15 kills and 12 digs Sunday.

Up two games in one, the Salukis turned back forth with the Westeriders (1-1, 0-0) game five attempting to avoid a game five. "We knew we had two games already this weekend," Kenner said. "We just wanted to end it and get it over with.

Sophomore middle blocker Jenny Methorum fed the Saluki with 23 kills and 21 digs, while senior setter Debbie Bar handed out 53 assists and 16 digs. Sophomore out side hitter Sarah Larson paced the Shockers (2-7, 1-0) extensively, recording 17 kills and 11 assists, while junior outside hitter Jan Molby had 12 kills and 10 digs.

The Salukis were led by Wong's 10 digs, 12 kills and six blocks.

Everhart said on both sides of the court, the Salukis were guilty of letting their play drop. "I'm still concerned about our defense level and the way they can run their middles in."

"They still worm around about our conference level. But I don't know anything just to help our confidence face except for a win," Locke said. "You get their face and under their belts.

The Salukis return to action against Missouri Valley Conference and University of Evansville at 7 p.m. Tuesday in Davies Gymnasium.

The SIUC 2000 Outstanding Scholar Award advertisement that ran on Friday, September 17th, should have read:

"The nomination should be supported by a detailed statement of the nature and importance of the accomplishments sought to be rewarded."

Also the nomination letter and packet should be forwarded to the Graduate School Office.

The Daily Egyptian

Regrets the Error
The defensive efforts of the Panthers were evident from the outset of the game. The defense held Eastern Illinois to just 172 net yards on the evening, with most of the damage coming on the ground. The Panthers defense showed resilience throughout the game, keeping the opposition from scoring until late in the fourth quarter.

In the second half, the defense continued to press, forcing Eastern Illinois into a punt on their first possession. The punt was blocked, giving the Panthers a 27-yard field goal opportunity, which was converted.

The defense then forced a turnover on downs on the next drive, setting up a scoring opportunity. A field goal from the Panthers extended their lead further.

Midway through the second half, the defense forced another turnover on downs, negating Eastern Illinois' best chance to score. The defense's ability to limit the opposition's scoring opportunities was a key factor in the game's outcome.

**SIU Football**

**CHARLESTON** — The SIU defense finally caught up with the high-powered offense Saturday, as the Salukis moved to 3-0 with a convincing 34-6 victory over Eastern Illinois University.

**SIU** is 3-0 for just the second time in the past 16 years — 1991 being the other season. The six points scored by Eastern was the lowest offensive output by an SIU opponent since 1987.

Saluki head coach Jan Qurilcss liked what he saw from his much-maligned defensive unit, which gave up 51 points to Murray State University last week before Qurilcss would like to see strong showings on defense become more commonplace for SIU.

"You win football games with defense and you win championships defensively," Qurilcss said. "I'm a little bit miffed by the fact that that's the best performance since (1987). That tells me that we've got to put a lot into this program."

Eastern (0-3), appearing lethargic on both ends of a road trip to Hawaii last week, never fully recovered from a squawking opportunity in the first quarter.

**SIU** scored Eastern to punt on the game's first possession, the Salukis' Cornell Craig fumbling his own ball as it was recovered by senior Thomas Koutsos deep in Saluki territory.

**SIU** took full advantage as junior quarterback Steve Poteete scored the scoring by rolling to his left for a 28-yard touchdown. The Salukis would not again score with the option with 59 points to go in the first quarter.

Another Poteete touchdown run, on SIU kicker Everhart's first of four field goals on the afternoon, took the Saluki lead to 17-0.

**SIU** tested the Panthers' defense late in the half as Poteete rummbled for a 22-yard touchdown, but this time Everhart's field goal attempt was blocked.

Poteete tacked onto his scoring total with a 4-yard run in the second quarter, giving SIU a 24-0 lead that would be enough to hold off the Panthers in the contest.

**CHARLESTON** — Freshmen are supposed to keep quiet to prevent the traditional initiation football games Saturday night at Eastern Illinois University.

Freshman running back Tom Koutsos jukes his way to a few more yards, taking advntage of a block from offensive lineman Jarrod Joiner en route to a 172-yard rushing game Saturday night at Eastern Illinois University.

Freshman Tom Koutsos is not carrying any equipment but his own. He's carrying the football for an offensive juggernaut that is leading the Gateway Conference in scoring (45.0 points per game).
