'Nixon napalming' planned for boycott

By Randy Thomas
Daily Egyptian Staff Writer

A napalming of President Nixon effigy is the first activity planned for Friday's general boycott of classes.

Early Thursday afternoon, nearly 20 members of the Student Strike Committee crowded into the Student Government Offices for a press conference and released a list of plans for Friday.

Nathan Gardels, a representative of the Southern Illinois Peace Committee, said a manikin representing Nixon will be napalmed at noon on Friday near the flagpole between Woody Hall and the Home Economics Building to protest the recent escalation of the bombing of North Vietnam by the United States.

Afterwards, he said, the group will move to the lawn in front of Pulham Hall to hear speeches on the University's complicity with the war, political repression at SIU and the escalation of the war and its implications. Gardels said that teach-ins are scheduled for the remainder of the afternoon as well as a continuous slide show on the air war in Vietnam in Ballroom D of the Student Center.

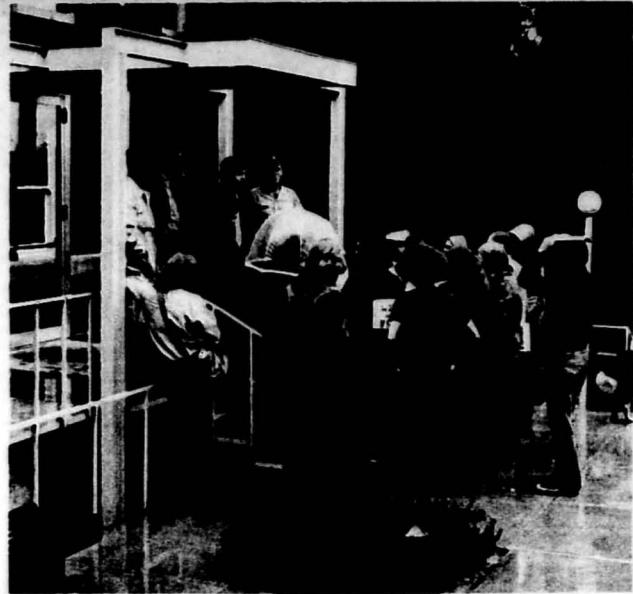

Friday night activities will include street theater in the closed off portion of Rt. 51 and the slide show.

Those groups represented at the press conference include, the SIPC, The Young Socialists Alliance (YSA) The Committee to Defend the Right to Speak (CDRS), the Student Mobilization Committee (SMC), and the Student Government.

John Center, of the YSA, said he will demand Friday an end to United States complicity with the war, removal of the Center for Vietnamese Studies and AFROTC from campus, and an end to all University compliance with the war. Center also criticized the University's interim policy on demonstrations calling it "a politically repressive document."

Jon Taylor, a candidate for president of the student body, said the University must strive for academic excellence. He said the Center for Vietnamese Studies has never met this goal. For this reason Taylor said he completely endorses the strike.

Rainy days

About 15 members of the Student Strike Committee gathered in front of Anthony Hall in Thursday's rain in an attempt to speak with SIU President David R. Derge. On Wednesday, the group sent a letter to Derge requesting that he denounce the Vietnam war and all personal ties with President Nixon. Derge was out of town, but reportedly has agreed to meet with the group on Monday. (Photo by John Lopinot)

Southern Illinois University

Community street party slated for tonight

By Barry Cleveland
Daily Egyptian Staff Writer

Carbondale's first community-wide street party will get underway--weather permitting--Friday evening, with at least 36 activities and concessions on the agenda.

The festivities will begin shortly after 8 p.m., when a section of South Illinois Avenue between College and Walnut streets will be closed to traffic and the booths will be set up.

However, a spokesman for the U.S. Weather Service at Southern Illinois Airport said Thursday afternoon an 80 per cent chance for rain exists for Friday, decreasing to 50 per cent late Friday night.

If the festival is rained out Friday, it will continue on schedule Saturday night, and, if rain intervenes, then the party will simply be next weekend, according to Steve Hoffmann, local liquor dealer and a member of the task force coordinating the six-weekend festival.

Food, games, gospel singing, handicraft concessions and religious and political literature will be available.

Among the games approved are "nail in the log," "pie in the face," "shoot the basket," "skill pool," "frisbee fling," "baseball throw,"

"nickel-on-the-dot toss" and "bust the bust."

An dunking booth with Carbondale police as targets will also be featured.

Submarine sandwiches, popcorn, snow-cones, health food, ice cream, sandwiches and soft drinks represent part of the menu to be offered.

Among the non-food concessions will be pot belts and pillows, "funny" photographs, records, leather goods, army surplus goods and imported rugs.

In addition, the New Burnside Community Church will present a gospel sing. The Christian Science Organization, Student Mobilization Committee and Young Socialist Alliance will distribute literature.

One would-be concessionaire failed to win approval from the task force, whose job is to screen all applicants. He proposed to fill balloons with "laughing gas" and sell them to customers, who would then suck the gas out of the balloons and presumably "get their jollies," Hoffmann said.

A local dentist informed the task force that the gas could be dispensed only with a prescription, so the petitioner's request was turned down, Hoffmann said.

Those who would like to see themselves on television will be able to do so through the use of Merlin's special closed-circuit system.

The booths will be spread along the length of the blocked-off area, primarily on the west side of the

street in parking spaces. Parking on the section of South Illinois Avenue affected will not be allowed after 5 p.m. Hoffman said.

Parking space will be available in city lots and in areas normally accessible to parking.

Public consumption of alcohol will not be allowed, nor will the use of drugs, propagation of loud music or the destruction of private property. City and campus police will patrol the area until the festival closes at about 3 a.m.

Other activities will be planned for later weekends if the initial experience is successful, Hoffman said. Among the ideas which have been proposed are outdoor movies, folk or jazz music and art and drama shows.

Most University chiefs react coolly to strike, say classes as usual

By Pat Nusman
Daily Egyptian Staff Writer

A student strike scheduled for Friday protesting the resumption of the Vietnam war drew unenthusiastic response from SIU administrators Thursday, with most indicating that classes would continue as usual.

"The University is here for students who want to go to school," Dan Orescanin, executive assistant to President David R. Derge, said Thursday. "We're going to stay open for those students who want to go to school."

"But it's their decision, their privilege to decide not to go," Orescanin added.

A spot check of various departments within the University indi-

cated most chairmen will follow the executive office's lead and hold classes on Friday, despite a resolution passed by the Student Senate Wednesday night calling for a general boycott of classes by both faculty and students for the purpose of participation in educational antiwar activities.

T.B. Jefferson, dean of the School of Engineering and Technology, issued a memorandum Thursday directing the faculty to "adhere to the Spring Quarter Calendar and to conduct business as usual."

"Unless something different

comes from the President's office, instructors are supposed to hold classes," M. Browning Carroll, chairman of the history department, said. "But this is a big department and I'm not going to go around checking on people."

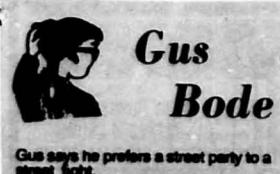

According to a spokesman for the accounting department, there will be no specific policy. And the agriculture department reported it will conduct classes as scheduled.

"We don't have one (policy)," said Edwin A. Cook, acting chairman of anthropology. "We haven't discussed it."

Fords get free tune-ups at VTI

A free tune-up and emission control clinic will be offered Monday through Thursday evenings April 24-27, at the SIU Vocational Technical Institute.

Scheduled from 7:30 to 9 p.m. in shop building 2, the clinic is open to auto mechanics, service station personnel or any other interested persons, according to L.D. Willey, supervisor of the automotive technology program.

The clinic will cover the entire Ford line through 1972 models, Willey said. It is being offered by VTI in cooperation with Ford Motor Company, and will be conducted by Eric Swanson, St. Louis district service manager for Autolite-Ford Parts Division.

There are no registration requirements or fees, and the clinic is open to anyone interested in attending, Willey emphasized.

Film Odyssey to feature 'Orpheus' on Channel 8

Friday afternoon and evening programs on WSU-TV, Channel 8: 3 p.m.—Sports tempo; 4:30—A Public Affair-Election '72; 4—Sesame Street; 5—Evening Report; 5:30—Mister Rogers Neighborhood; 6—Electric Company; 6:30—Wall Street Week; 7—Washington Week in Review.

7:30—A Film Odyssey, "Orpheus." The production is based on the legend of the Greek myth of Orpheus the poet. In the myth, Orpheus' wife Eurydice was kidnapped into the underworld. The film is set in Paris, involving a French poet and his love, a motorcycle gang and a patroness of the arts. The film is full of analogies, and unusual mirrored images. The film is in black and white with English computerized subtitles.

9:30—Footnote To Odyssey. 10—The Movie Tonight. "The Happy Time." Charles Boyer and

of Latin America," 7:30 p.m., Lawson 231. W.H.A.: Recreation 7-10 p.m., Gym 114, 207, 208. Philosophy Club: Meeting, 7-10 p.m., Home Economics Family Living Lab. Southern Repertory Dance Company: "Poor Polluted ME," 8 p.m., Furr Auditorium.

Committee to discuss GS program recommendations

General recommendations regarding the General Studies program will be considered when the general standing joint standing committee meets at 9 a.m. Friday in Communications 1052.

The recommendations were prepared by Grace Weshinsky, the committee's secretary. The recommendations deal with two areas: instruction and courses. If approved, the recommendations will accompany the committee's final report to the Faculty Council.

Strike committee tells of boycott activities

(Continued from page 1)

Jim Peters, vice-president of the student body, said the action taken by the Student Senate in approving the strike shows that students at SIU are concerned about the escalation of the war. He said he encourages as many people as possible to attend the demonstrations.

Gardels said after the conference that Friday's strike is in no way an attempt to shut down the University. Instead, he said, it is designed to provide an educational experience for students interested in learning more about the recent developments in Vietnam and the University's compliance with the war.

Friday's strike here is in conjunction with a national campus strike called for by the National Student Association.

On Wednesday a group of students from the strike committee attempted unsuccessfully

fully to personally present SIU president David Derge with a letter requesting him to renounce the war and all hostilities with President Nixon. Thursday morning, the same group gathered in front of Anthony Hall in another attempt to speak with Derge. They were told instead by Ed Hammond, Dean of Student Relations, who told them Derge had received their letter. Hammond said that Derge has agreed to meet with three students from the group early Sunday morning.

Derge was in Springfield Thursday attending a hearing with Internal Revenue Service officials about his disputed salary increase.

When members of the committee were asked if there might be a connection between their group and a bomb threat which caused evacuation of the Home Economics Building Thursday morning, they appeared shocked and completely disavowed any ties or implications.

Allen hung

In an apparent counter to Friday's planned strike, someone hung Douglas M. Allen, assistant professor of philosophy, in effigy in a tree near Woody Hall. The figure was found abandoned there, with no clue as to those responsible. (Photo by Nelson Brooks)

SIU chiefs negative to strike plan

(Continued from page 1)

According to Charles R. Snyder, chairman of the Department of Sociology, "we just leave it up to the individuals involved."

"No, we have no policy," said a spokesman for the Department of English, "as far as I know the classes will go on as usual."

"We have no independent policy," said Randall Nelson, chairman for the Department of Government, "whatever the

University policy is and the art college policy is, that will be the government department policy."

The Carbondale Federation of University Teachers (CFUT), however, issued a statement Thursday supporting the strike effort.

The statement said:

"It is imperative at this time that the University recognize the legitimacy of student and faculty protest against current political and military policy in Vietnam.

"The right to strike in the name of grievances against the government is a political right at the cornerstone of democratic government.

"In joint the protest against the escalation of the war the Federation is calling for the preservation and maintenance of democracy in American political life."

Mass transit needed

Within the last few months, there has been an increase in the number of reported rape incidents in Carbondale. Since January there were seven cases reported compared to only three reported incidents during the same period in 1971.

What is the reason for the increase in these rape incidents? Some people calculate that it is due to lack of foot patrols, while others blame it on the lack of mass transportation forcing coeds to hitchhike. And still there are others who agree to both statements.

The real question here should not be, "Why has there been an increase in rape cases," but rather, "How or what can be done about the situation."

There have been a number of responses to the solution of curtailing these incidents: ranging from the Daily Egyptian articles presenting warnings about hitchhiking to letters concerning patrols and transportation.

These warnings will not really take hold unless something can be accomplished to discourage hitchhiking. The solution—mass transportation.

For the last few years, SIU did maintain a bus service. But for probable economic factors, the service has ceased.

Although SIU's bus system was a good idea, a better one should have been devised to incorporate a bus system not only to serve the campus, but also to include Carbondale and possibly Murphysboro and the outlying cities of this area.

Some of the rapes have occurred along Route 13—between Carbondale and Murphysboro. This mass transit could eliminate the chances of being raped.

What about the cost? In order for this program to work successfully, the University and the cities utilizing this operation would have to share the expense of providing this transportation.

Instead of investing \$2.5 million in the proposed monorail, which many believe to be a "white elephant," the University could use this money to support a transportation program.

A transportation program could be a long way off and the longer we wait for something to happen, the more likely it is for some coed to be raped while hitchhiking.

'Many unhappy returns'

Letters to the editor

Housing or offices?

To the Daily Egyptian:

Whether you know it or not, those of you who are remaining in campus housing are in serious trouble; at least that is the indication we are getting. If you haven't noticed it already, the squeeze is on, and just might get burned.

Last week, the University announced that most of the fraternities and sororities would have to leave Greek Row before next fall. Apparently more offices are going to be erected, perhaps to justify some of the administrators' increasing salaries. In another similar move, Housing B.S. (and I don't mean "Business Services") announced that the University Trailer Court will close by fall. In the latter case, the reason has been the "economic unfeasibility" of replacing water pipes. Residents of the court have shown that pipe replacement would cost a total of \$2682.80 after H.B.S. quoted the price at \$25,000!!! It makes you wonder who's doing the work. Apparently, H.B.S. wants to convert the court into an overnight parking lot for East Campus residents. However, the East Campus Executives Council passed a resolution to keep the court open. This will have no effect, of course, on the University decision.

These occurrences lead me to ask, "Who's next?" on the University's list? Closing Greek Row and the University Trailer Court leaves only Brush Towers, University Park, Thompson Point, Evergreen

Terrace, and Southern Hills.

Who knows how long they will last? As fast as the University creates new offices, it's not totally unfeasible that one or more of these areas may be closed during the next year. The indication seems to be that SIU is getting out of the housing business, fast, and you might be next. Maybe you had better think before you sign that contract. While you are "signing your life away" for three more quarters, H.B.S. might be dropping the floor out from under you!

Stephen C. Kukla
Junior, Occupational Education

Drudgery?

To the Daily Egyptian:

Your issue of April 6 carried a picture of students studying on the lawn outside Morris Library with the caption underneath which began, "Nothing can relieve the drudgery and boredom of studying, but pleasant settings seem to help." How about trying the excitement and stimulation of learning? Believe it or not, that is something that can be experienced either indoors or out.

Opinion & Commentary

EDITORIALS The Daily Egyptian encourages free discussion of current issues through editorials and letters on these pages. Editorials, labeled Opinion, are written and signed by members of the student news staff and by students enrolled in journalism courses and represent opinions of the authors only.

LETTERS Readers are invited to express their opinions in letters which must be signed with name, classification and major or faculty rank, address and telephone number. Letters should be typewritten and their length should not exceed 250 words. Letter writers should respect the generally accepted standards of good taste and are expected to make their points in terms of issues rather than personalities. Acceptance for publication will depend on limitations of space and the timeliness and relevance of the material. Unsigned letters will not be accepted, and authorship of all letters must be verified by the Daily Egyptian. It is the responsibility of the Daily Egyptian to determine content of the opinion pages. Other materials on pages four and five include editorials and articles reprinted from other publications, syndicated columns and articles, and interpretive or opinion articles authored locally.

Police brutality

To the Daily Egyptian:

No one can deny the problem of police aggression and brutality that goes on daily in the ghettos of our cities.

Through the original Black Panthers of Oakland, white middle-class America was exposed to enormous police brutality via the Oakland Police Force (even though most people ignored it as they do now), who have been notorious for racism and brutality, treating people with contempt and regarding them as less human than themselves.

Also, no one can deny that it was from the ghetto that young, white, middle-class society, as part of their own culture, assimilated dope, ghetto jargon and other ways of doing things and kept it endemic alive.

As that culture became more reactionary, trying to get people to understand its positive values, the police not only in the ghettos but everywhere, became more hostile and aggressive only to maintain control over their own authoritarian empire.

And that is what happened in front of Merlin's April 8. Another example of police hostility.

Goro and Busch were doing their duty. Fine. But they had no business extending the powers of their duty to the point where they had to bust the kid's chin open. Then on top of that charge him with resisting arrest along with illegal consumption of alcohol.

I think Mr. Schmidt missed the whole point. It wasn't a law that necessarily seemed unfair and it wasn't a matter of the public supporting it or not. It was clearly a matter of how the pigs inimically handled the situation.

I, too, want to thank Goro and Busch for further opening my eyes and again exemplifying justice in America, even though they didn't split my chin open.

Charles Gainey

'Snake eyes'

President Nixon recently characterized the North Vietnamese offensive as "the last throw of the dice." Right now, it looks like that may come up "snake eyes" for the South Vietnamese.

John Kohler
Student Writer

Candidates give views on campus issues

Editor's note: the following are the candidates who did not submit campaign statements for publication:

President: Thomas Johnson, Independent; **vice-president:** Mike Lewis, Majority; **Majority:** Jan Takchara, Independent; **Senate:** Glenn Levinfeld, Action; Judy Shain, Unity; Nelson Tate, Unity, Janice Rakita, Action; George Tervale, Unity; Mike Carr, Action; Mike Fergus, Action; Bob McCormick, Action; Kenneth Hadler, Unity; Jo Ann Peebles, Majority; Tom Krause, Independent.

Laural Lyman, Action: Tom Otravito, Action; **Keith Devers, Unity:** Richard Stark, Unity; Joe Kowalczyk, Independent; Dennis Kristi and Steve Mischakay, Independents.

Student body president: Wade Hudgens

There comes a time when voters, student or otherwise, demand an honest voice to represent them in government. The team of Wade Hudgens and Mike Lewis plans to deliver exactly that, should we become the students' choice for student body president and vice-president, April 26.

We propose to limit the General Studies program to one year or less for declared majors, recognizing the fact that students are often required to take many courses which are irrelevant to their particular interests and course of study. We also believe that something must be done immediately to improve the lighting of campus as a protective step against the recent rise of assaults on students. We cannot allow this problem to persist any longer.

We also take issue with the present University policy requiring freshmen and sophomore students to live in University owned housing. This ruling is unconstitutional and severely violates the rights of students, as recently exemplified by a ruling of the Texas Supreme Court.

Students have the right to qualified leadership and this is what we promise to give them. We, Hudgens and Lewis, stand on the following principles: concern, honesty, rights, integrity, students and teamwork. Thank you for your votes and support. Together we can make a difference for you.

Jon Taylor
Unity

In unity there is strength. It is this idea that has guided and developed myself and Ms. Susan Collett in our experiences of serving the people. The occasion is rare when a student body may collectively be able to rely upon its officers to be "real" and human enough to personally deal with immediate problems. However, this ideology is exactly what I and the Unity Party wish to make a reality.

To be quite honest, we all know that there is little or no excuse for such problems as poor health and safety codes, childless housing regulations and insufficient activities programs. We also should realize that in the most important issues concerning our campus and community, our incumbent representatives have been too involved with "machine-type politics" to even investigate student needs.

So it has become evident what must occur. We must unify, not only to solve problems, but also to aid in creating a more resourceful student community. This, most definitely, requires strong leaders who care about people first, rather than personal gain. For our entire welfare, students must come together and bring forth a new day. As in the past, we may prove that, "in unity there is strength."

Mark Siebert
TEA

The TEA Party was formed last year by divine inspiration and the "stoned majority" and dedicated to the proposition that absurdity is a sacred entity in student government. This idea is based on the fact that the central accomplishment of the Senate in four years consists of the stuffing of a case of "Trojans" into envelopes stamped "V.D. Kit." Evidently the Senate who boasts of such progressive social reforms has not been in a public men's room for the past two decades. Such an incident only testifies to the fact that student government is the victim of a power vacuum. Only 3 per cent of the enrollment ever votes and the other 97 per cent should be bombarded. However, we all unwittingly give away over \$4,000 a year to a couple of guys whose only apparent function is "rubber" stuffing or platitudinous spouting. Therefore, the TEA Party pledges on Monsieur Zig Zag's picture to return all salaries to the students in the form of a big celebration; and mostly, to bring some worthwhile entertainment to SIU. The TEA Party hopes to consolidate the old "Apathy" Party and the "Who gives a shit?" Party into a monumental victory by beating the political freaks at their own game.

Jim Peters
Action

This year, we, as students, have a chance to progress. In the past, as student government changed from one administration to another, much was lost as far as continuity was concerned. As with any program, continuity in student government is very important. As new administrations come in, it means new and inexperienced personnel and there is certain to be a period of adjustment and learning.

This year, as vice-president of the student body, I have experienced this adjustment period and now I am building on that learning experience. Because of my term in office, I believe that I can offer to the students something that we never had in the past—a continuous, ever-growing, and strong government.

I look upon student government officials as an investment made by the student body. Now you have the opportunity to build on an investment. We do not know for sure what continuity will mean but we are certain that the results will be very positive. Give us a chance to grow and build... give yourself a chance to progress.

Student body vice-president:
Susan Collett
Unity

The main job of the vice-president of the student body is the control of the Senate and the channeling of the budget. Student government has always had the funds necessary to

implement needed reforms and implement change, but it has never channelled it in the right direction. With some effort, I believe it is possible to supply the needed funds to the sources which would effectively utilize it. Also, the student senate has more potential than being just a zoo or playground. It is possible that the senate can have positive results. Through cooperation and dedication the student senate can work for the good of the student body.

Jon Taylor and I have always been working for the people of Carbondale, and have been instrumental in establishing several services and programs to aid Carbondale. Through the offices of president and vice-president, we can more efficiently coordinate the University with the community. There has been, up to now, insufficient interaction along these lines.

Student needs and interests have been grossly overlooked. Among these are such things as the lack of good, cheap entertainment, disregard for student welfare and seemingly misplaced University priorities.

We feel the students should be the paramount interest of any University. Past history has proven this not to be so at SIU. Jon and I, working together with the student senate, intend to put student interest, welfare and safety number one on the list of University priorities.

Our platform shows we are aware of the problems. Our past shows we are willing to deal with them. It's a new day, and it's time to unite for the common good.

Gary Dickerson
Action

Next year will be a pivotal year for the welfare of students and youth in general. The student vote in this year's elections will force the lawmakers to turn their ears to students views more than ever before. This is why long overdue liberalization of abortion legislation, marijuana laws, and other needed reforms are beginning to come about.

Students must pursue this avenue to gain still more advances as well as to forestall further tuition increases.

On campus, there is badly needed reform in the making in the areas of academics, health service and dormitory living conditions to name a few.

These improvements will fall flat unless competent and hardworking students are elected to pursue these interests. SIU needs a student government that is willing to push and prod within the "system" or, if the present administration remains as unresponsive as it is, the producing may have to take more unconventional forms.

Whatever gets done can only be accomplished with wide spread student support, so please vote next Wednesday. You can make a difference.

Greg Brugler
TEA

Why does anyone run for an office? Stupidity or corruption. Gregory Van Brugler is amply qualified in both aspects. He is stupid enough to believe that student government can be run in such a manner that it will serve the student. He is corrupt in the respect that he is in it for the money. He needs the \$2,000 the vice-president receives for his job. The money is needed by him to continue eating, drinking, going to school, and other such frivolous activities.

East Side Dorm
Dennis D. Kaegi
Action

Two major problems on our campus today are those of transportation and parking. If elected, I will totally support reduction of parking sticker fees, expansion of parking areas and the formation of a dependable, inexpensive mass transit system between dormitory and university.

Other issues I will support include the appointment of students to the Board of Trustees, free athletic events, more and better celebrity nights and a quarterly revised student directory available to all students at no cost.

It would be my goal as student senator to make campus life more enjoyable and less restricted, yet preserve the university academically.

University Park
Owen Marienthal
Action

I am seeking the office of student senator from University Park because I am a person who wants to get involved. I am serving as head of the East Campus Films Committee where I have worked to get decent flicks for the area and I have also served as a student senator for the last quarter. I will need your support. I can't do this job alone. I will do my best to investigate your individual problems and find workable solutions. We can show this administration that student government does mean something and that the administration will have to listen to us. If you don't vote in this election you will have no right to complain that student government isn't doing anything for you. So get out and vote on April 26 and show people that students are a group that must be listened to.

Gail Walowitz
Unity

As a west side non-dorm senator, I would reinstitute University buses for students as well as other members of the community, in an effort to provide dignified transportation, free from the threat of rape and other harassment. I would also like to see self-defense classes for women.

Another issue I view as central to the function of a student government is the improvement of the Health Service. The attitude which most people feel towards the Health Service is one of extreme caution. Most people try to avoid the Health Service if at all possible. There have been several tragic incidents involving incompetency which must no longer continue. We also need more liberated dorms and self-determination for all students.

Vincent J. Swartz
People's

I am seeking your vote for the senatorial seat representing the west side non-dorm district. Realistically, one can see the abhorrent condition of student government on this campus. Also, it is obvious that I cannot personally change this situation. However, I will work toward truer representation of the people in my district, and will strive for academic freedom for instructors and students alike. The People's Party is working toward a student oriented university community. With your help we can achieve this goal. Vincent J. Swartz can, with your vote, I again, ask for that vote and thank you.

Joan Smith
Independent

Student government's goal in the next year must be to initiate changes that make the students' college life more rewarding. Many issues concern the student body. Categorically speaking, measures must be taken in the realm of health, safety, housing, academics and campus activities to serve student needs. I believe that my membership on the New Student Orientation Steering Committee, my student work position and my nearly two-year residency in the west side non-dorm district will give me the necessary experience to identify with students' problems. I want student government to serve as a functional outlet for student opinion. And as a student senator my vote will reflect the needs of this off-campus district's constituents.

West side non-dorm
Linda Berl
Unity

What the Senate should do next year, being responsive to student needs, is establish a bus system in the districts where it is desperately needed. This is especially important for women because of the high rates of rape in the past year. Another urgent need is self-defense classes open to women. The Senate must institute progressive change to meet the needs of the University Community and the city of Carbondale.

Landlords are a constant source of grief for students. This is especially prevalent on the west side because it is a highly concentrated area of students. The action of the Senate should therefore be to establish an effective working Student Tenant Union serving the needs of the students. It may even involve the University hiring a lawyer to deal only in housing matters. The students should no longer be treated as second-class citizens.

Brush Towers
Y.C. Cottigham
Action

After I'm elected, I won't wait until fall quarter to begin my duties. I'll be here all summer working on all aspects of student government. The main things I'll be working on are the repeal of the Dram-Shop Act, self-determination of vaccination and a student-faculty board to advise the Board of Trustees. I'll also research state statutes concerning the board and the possibility of revising these statutes.

(Continued on page 6)

Student senate hopefuls air platforms

(Continued from page 5)

We need a more responsive senate. To get this, we need more responsive senators. For this reason I invite anyone with ideas or suggestions about student government to call me (6-1123) anytime.

Garry Barker
Independent

I am a candidate for senator because many of the students are dissatisfied with the policies of this university. It's obvious that administrators have been apathetic to particular desires of the students and their best interests. It's time for us to start taking some action! I am a member of the House Council and the area executive council's committee for self-determination of visitation hours. Besides more liberal coed visitation, I can foresee such things as beer on the campus, more music concerts and better parking availability. At the same time, the most important issue must be representation of the students. I can provide that representation!

Commuter
Gary Kasper
Independent

I will stand on my record and that is 1) worked numerous hours with Buzz Talbot in order to get liquor on campus. Contrary to a recent editorial in the Daily Egyptian, we have a state representative who will introduce a bill to amend the Dram Shop Act. 2) Spent three and one-half hours in one sitting alone with Mr. Lonergan discussing the monorail. Working with the Senate-Campus Physical Facilities Committee (which I'm a member) and Mr. Lonergan, we will be starting to inform everyone on campus to what the monorail is.

3) I'm running independent in order to keep strings away. 4) I'm endorsing Peters and Dickerson for executive offices. I admit neither one will ever win a "Personality of the Year" award, but they know

what needs to be done, if it can be done and I believe they are the ones who know how to get things done. 6) If you want a senator who doesn't just sit around, give me your vote on April 26.

Timothy R. Nuhfer
Action

Major issues are few concerning commuter students and those which are important involve all students.

Parking, supposedly, will be alleviated by a new mass transit project. But I maintain that such parking lots would be a better facility if dispersed along the perimeter of campus rather than concentrated by the Arena.

I also support the present book rental service with hopes that students be made more cognizant as to the importance of good future reference books.

It is senseless to buy a book that your instructor would rather page through once in an outhouse, much less expect a sales price many times greater than that of toilet paper.

Monte Anderson
Independent

Southern Illinois University is faced with problems of long standing. One of the reasons we continue to have old problems is because communications have been incomplete and actions of both student government and the administration have been based on too little information. The problems are serious enough that all students should be heard from, not just the few who are willing to be vocal. As a student senator I will push for the development of an effective procedure which will get feedback from all the students, utilizing heavy student representation in a continuing process of problem identification, analysis and solution.

Marianne Rosenzweig
Unity

Any student who drives a car and

must park on campus knows what a problem it is trying to find an empty parking space. By supporting the reinstatement of the SIU bus service more students who live on the outskirts of town and who now find it necessary to drive could leave their cars at home and thereby make more parking spaces available to those who must drive in the commutes. Unity Party supports the reinstatement of the bus service and other issues such as an abortion referral service and no restrictions on housing which give the student a chance to make his/her own decision. In Unity there is strength.

Jim Barnhart
and
Steve McCurdy
Independent

Have you, as a commuter, ever tried to dodge the pot holes in the parking lots with your car and fail to do so? Have you ever had trouble finding a parking space in a full red lot and become disturbed because the blue lot next to it is empty? Have you ever gone back to your car after a class and find wheels, tape deck, tapes, and any other car accessories ripped off? We feel a need for an improvement in our parking system is needed. If we are elected we will try to get these and other changes made.

Larry I. Roth
Unity Party

My basic purpose for running is to express the ideas of the USJP (Young Socialists for Jenness and Pulley) of which I'm a member. This is a program of student-faculty control of a university and not the control of capital interest. This includes a real Student Center, control of the Daily Egyptian, reforming book rental, establishment of a women's studies department, protection of free speech and housing regulations for landlords, not students. I want an end to university complicity with the Southeast Asian War. This includes abolition of the Vietnamese Center, military recruiters on campus and ROTC.

June Graduates Immediate Opening

'The Boy Friend', now at the Fox, lacks plot and appears overdone

By Glenn Amato
Daily Egyptian Staff Writer

"The Boy Friend," at the Fox, is, at first glance, director Ken Russell's affectionate tribute to the musical comedies of the '20's and '30's. It isn't long, however, before we see the film for what it really is—Russell's affectionate tribute to Russell.

A Review

Those who admire his flamboyance—and those who saw "The Music Lovers" and "The Devils" might wonder if "flamboyance" is an understatement—will find much to admire here. His film-within-a-film technique is crammed with Busby Berkeley-style production numbers. Tap dancers explode into their routines like cannon fire, and Sandy Wilson's music and lyrics have been decked out with suitably gaudy orchestrations.

Others, like myself, however, are bound to wonder why Russell loaded—overloaded, in fact—the basic materials of "The Boy Friend" with so many extras.

Henry Jackson blasts bombing

Sen. Henry M. Jackson of Washington deplored the American bombings of Haiphong Thursday, saying they come "about six years late." Arrival for the Democratic presidential nomination, Gov. George C. Wallace of Alabama, said he favors the bombings "if they are necessary to protect our servicemen."

Class sketches to be displayed

in Gallery 51

A collection of pencil and charcoal sketches by members of a drawing class will go on display in Gallery 51 Friday.

The 15-20 sketches were done by students enrolled in Art 441, a studio in art course, winter quarter. People from all over the community served as models for the drawings, with the exhibit designed to provide a look at the many facets of life in Carbondale, according to Dan Wood, instructor in art, who taught the course last quarter.

Gallery 51 is located in the north end of the Student Center on the ground floor, near the bookstore. The exhibit will continue to May 5.

Edwardsville choir to sing

The SIU-Edwardsville "Concert Chorale" will appear Sunday at the First United Methodist Church in Carbondale. Lee C. Moorehead, pastor of the church, said Wednesday.

The 55-voice choir will perform five anthems at the 10:45 a.m. service, which will be followed by a dinner in the church. The public is invited to attend.

"Concert Chorale" is winding up a tour of area schools and churches with the Carbondale performance, Moorehead said.

The premise is fun and begins with a deliberately clichéd situation. A hammy British repertory group is presenting a matinee performance of "The Boy Friend," and the rambunctious stage manager (Twiggy) is rushed in to replace the leading lady, who has broken her ankle. A Hollywood producer, DeThrill, watches the show from a stage box and fantasizes how he would stage the group's production numbers on film. Meanwhile, Twiggy gets her leading man both onstage and off.

What goes wrong, horribly wrong, is that Russell has left the original story—a charming Riviera romance between two rich kids in disguise—in shreds. What passes for a plot concerns the actors performing the musical and their increasingly coarse attempts to attract DeThrill's attention. This is funny for a short while, but not very sentimental, and since the emotion has been drained, practically everyone and everything turns stupid and insensitive.

The actors, for the most part, are shot in giant closeup so we can see how petty and spiritually and physically ugly they are. Russell has perceived them in one dimension—either as clods or whores or queers—and in doing so he has made the entire period unattractive. It's hard to figure out his rationale in doing these things, and since this line of reasoning is unclear, one must assume that he has

no great affection for period styles. If he did, I don't think he would have lathered "The Boy Friend" over with this slick and emotionally empty contemporary sensibility. This in itself raises another question: why did he bother filming it at all?

It gives Twiggy a chance to act—very simply and naturally, although one has to strain to catch her throwaway lines—and sing—her voice sounds uncannily like those on 78 RPM records—and dance, which she does best of all. Her leading man, Christopher Gable, is of the standard pretty-boy variety, and the rest are just assorted unpleasant blobs.

The one exception to this is Glenda Jackson, who is unbilled and has quite a bit to do as she alternates between Rita, the star, and an obnoxious chorus girl. Ms. Jackson is very comfortable and very funny outside dramatic roles, and when she taps, or skewers the audience with a look, or simply is in a scene itself, she knocks everything and everyone on its collective ears.

Those who like their musicals fast and loud—and those who like Russell's kind of hyperactive direction, which substitutes energy for invention—won't be disappointed. Those who want to see a sentimental film version of "The Boy Friend" and a nostalgic recreation of the period's comparative innocence should forget it, because Russell's heart beats fast and hard, like so many tap dancers.

Dancers due here April 30

An act from 'Biljana,' a Celebrity Series attraction will be presented in Shryock Auditorium at 8 p.m. April 30. It is to be staged entirely on a plastic ice called 'slick.' Tickets are on sale at the Central Ticket Office in the Student Center.

Biljana show replaces "Three Penny Opera"

Paul Hibbs, coordinator of special events, has announced cancellation of the "Three Penny Opera," scheduled to appear Friday, April 28, in Shryock Auditorium.

Hibbs said the Celebrity Series performance will be replaced by the Biljana ice show on April 30. In addition, Duke Ellington and his orchestra have recently been scheduled to perform May 14, closing out the series.

The Biljana, better known as the International Folk Spectacular, is a company of 50 skaters from countries in eastern Europe. They will perform on plastic ice called "slick," which will be laid in sections on the Shryock stage.

"They will incorporate fervor and frenzy, laughter and love, while performing in brilliant costumes," Hibbs said, quoting a news release.

Ellington and his orchestra, which recently returned from a European tour, are considered an "extra event" by Hibbs.

"They were not on our original schedule," Hibbs said. "We were lucky to get them."

Ellington's orchestra has globetrotted through two dozen European countries on tour, and in 1969 was named ambassador of good will in music. "Ellington himself holds 10 degrees conferred on him by universities in the U.S. and Britain," Hibbs said.

When asked if he was glad to make the Celebrity Series switch in favor of the new bookings, Hibbs said, "Well yes, in a way, but we would have been glad to have had the Three Penny Opera."

"The opera was cancelled because of funding," Hibbs said. "To make the tour, they were depending on federal funding. That's what they tell us. I had misgivings about it anyway," Hibbs said. "We weren't sure all along whether or not we would get them."

Irish journalist says IRA worsens conflict but British bear blame

By Monroe Walker
Daily Egyptian Staff Writer

Irish journalist Vincent Sullivan spends seven or eight months of each year in Northern Ireland and he relates, with details, some of the horrors of the civil war.

He talks about a bombing in Belfast that blew people to bits, blood sticking to the walls and sidewalks and finally dogs coming along to eat the particles of human flesh.

He talks about an 11-year-old boy being "picked up and beaten by the British troops."

"British troops have killed 306 Irish Catholics, 28 within the past month alone, and 39 British troops have been killed by the Irish Republican Army (IRA)," he said. "Who's winning the war?"

He said that the situation has been going on for 50 years in Northern Ireland.

"It's all hatred," he said. "Political hatred and oppression."

Sullivan said Catholics are systematically deprived of social and political justice, forced to live in urban ghettos and are denied jobs.

He said that some Catholics have never worked in their lives because they are not permitted to work.

"You must be accepted by the Royal Orange Order before you can be given a political position in Parliament. He said that the Orange Order was a Society comprised of Protestants who are "loyalists or unionists." Catholics are barred from joining either one."

He said that the relationship tends

to be very similar to the racial problem in the United States, except that distinctions are made on the basis of culture rather than color.

"It's a political rather than a religious conflict, religion is just the smokescreen for the political implications," he said.

Sullivan, who has connections with the IRA, is working on a book about the Irish movement.

"The IRA is very overrated," he said.

He contends that the IRA is composed of about 150 men and that some of the bombings and terror tactics are conducted by the Ulster Volunteer Force (UVF).

"Of ten explosions over a three week period," he said, "the IRA was responsible for six and the UVF was responsible for four."

According to Sullivan, the UVF has no specific leader and its mission is to "make unification impossible."

He said that Protestants would like to join the Catholics, but British troops will not allow meetings and fraternization and that the IRA was "worsening the situation because no man has a right to kill. But if it wasn't for the IRA, he added, there would be more murders."

He said that the situation in Northern Ireland was "strictly by the British government and no other excuse can be made."

He said that if the British troops withdrew, there would be bloodshed but not a massacre.

When asked if he feared for his life while in Northern Ireland, Sullivan replied, "At first I did, but

Vincent Sullivan

not anymore because I had these pictures close to my heart."

From his inside coat pocket he took out a picture of Jesus and a picture of the Virgin Mary. The caption read, "Jesus, I trust in thee!"

SIU fraternity sponsors Boy Scout camporee

The SIU chapter of Alpha Phi Omega is sponsoring a boy scout camporee in the Shawnee National Forest Friday through Sunday.

Nearly 150 boys from the Egyptian Council of Scouts are expected to participate in the interpatrol competition, advancement workshop, and the other scouting activities planned for the weekend.

According to Chuck Kmiec, APO representative, the Egyptian Council is not financially capable of sponsoring a camporee such as this, so the scouting affiliated fraternity is giving the troops of the area an opportunity to display their camping skills.

Interpatrol competition will highlight the weekend's activities on Saturday. The scouts will test their knowledge and abilities in areas of orienteering, nature identification, first aid, pioneering (knots and ropes), and measurement of trees, fields, etc. Plaques and badges will be awarded to the participants.

A Friday evening campfire and tree planting project on Sunday are also planned.

Court dance set for Sunday

By University News Service

Authentic 15th and 16th century court dances will be recreated on the stage of Shryock Auditorium at SIU at Carbondale when a group of performers from Southern Repertory Dance Company joins the Collegium Musicum in the final section of its spring concert Sunday.

Scheduled at 2 p.m. at the request of the Illinois Federation of Music Clubs, concluding its convention on the University campus, the concert is open to the public without charge.

The dances, directed by Nancy Lewis, dance instructor in the theater and women's physical education department, are drawn from "Orchesography," published in 1589, by Thoinot Arbeau, a scholarly French churchman and Canon of Langres, "who at the ripe age of 69 compiled his recollections of court dances as he knew them during his youth," according to John Boe, Collegium conductor. "Arbeau not only described and diagrammed the dances but usually supplied the traditional tunes," Boe, assistant professor in the School of Music, explained.

Earlier sections of the program will present singers and instrumentalists of the Collegium in Bach's "Prelude and Fugue in D Major for Organ" with Marianne Webb, University organist, as soloist; a Bach cantata with John McFadden, baritone soloist; a Henry Purcell motet, and Claudio Monteverdi's "Psalm for Three Voices" and "Contunio Lauda, Jerusalem."

McFadden and John Little, tenor, both graduate students in music, will be soloists in the two latter compositions. Dan Pressley, assistant professor of voice, also will sing tenor solo in the Monteverdi anthem.

SIU student files complaint

An SIU student who claims Carbondale police mistreated him during an arrest April 9 Thursday filed an official complaint against the two officers involved.

Howard Blair, 20, Carbondale, delivered his written complaint personally to city hall more than a week after he originally said he mailed it.

The Board of Police and Fire Commissioners will review the complaint and probably will set a hearing date in the near future, Sandy Mathews, secretary to the board, said Thursday.

Ping-pongers give gifts

UNIONDALE, N.Y. (AP) - The U.S. ping-pongers lined up to swap gifts with their guests from Communist China Thursday. The red-suited Chinese blinked, but showed no emotion.

The U.S. gifts were ornamental cigarette trays. The Chinese don't smoke. The Chinese had nothing to give in return. They had run out of buttons.

Spring concert

The Collegium Musicum, dedicated to playing ancient forms of music, will play 15th and 16th century court sounds in its spring concert Sunday at Shryock Auditorium. The Southern Repertory Dance Company will join the Collegium in performing court dances. Before the court dancing, though, the Collegium will play numbers by Bach, Henry Purcell and Claudio Monteverdi.

'Bravo' performance offered by dance company

By Sue Millen
Daily Egyptian Staff Writer

A lively group of eight Spanish dancers invaded the Arena Thursday afternoon and provided the Convocation audience with a gay, lusty performance.

The first dance featured everyone in the company, except Jose Molina, company leader. It was a light, happy dance with the musical accompaniment coming from the Spanish operetta, "La Boda de Luis Alonso."

It wasn't however, until Molina came on stage, that the excitement the company had to offer really emerged. Molina did a dance called

A Review

the "Jondo," which was pure dance. Molina put heart and soul into this dance and caused one member of the audience to comment, "he looks angry enough to kill a bull."

Fiesta spirit

The torrid, lusty dancing of this señorita turned on a Convocation audience in the Arena Thursday. She and seven other Spanish dancers of the Jose Molina Dancers injected the audience with the excitement and exhilaration of their performance. To the accompaniment of spirited Spanish music, the colorful dancers swirled and gyrated relentlessly. (Photo by John Lopinot)

Strawberry
Pie
is back!!

Listen to the WIDB Caesar's Giveaway

The third number was without question the highlight of the show as each of the members of the company performed in the "Cuadro Flamenco." In this dance, the individual dancers compete against each other in good natured fun. Carmen Dominguez stole the show on this number as she teased the audience in her sensual manner.

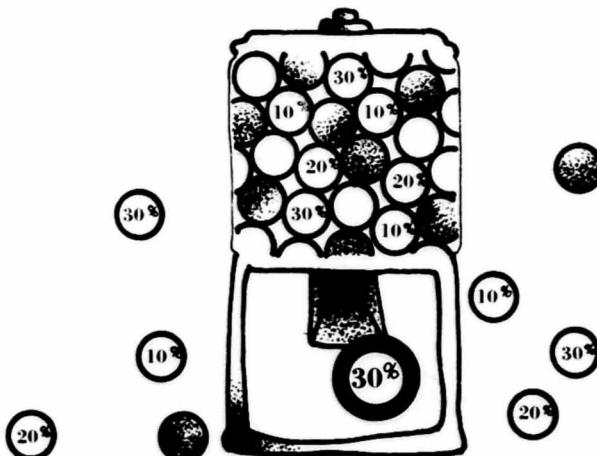

A red rose resting on the crown of her head provided a little spicy comedy as she wrestled— trying to get the thing on her head. She finally gave up and stuck it down the front of her dress. The audience went wild when she finished.

When Molina came on he did a solo, which also delighted the audience. As he finished his number he invited Ms. Dominguez to do a

duet with him. The two of them deserve a special bravo for that playful number.

By this time it was nearing 2 p.m. and a good deal of the audience had to leave. However, the show continued. Francisco Espinoza then gave a solo on the guitar and when he finished the audience called him back for an encore. Both pieces were done expertly.

Enemy mounting Saigon threats

SAIGON (AP) — Waves of enemy troops in overpowering strength seized a 50-mile stretch of Highway 1 in eastern Cambodia Thursday, posing another potential threat to Saigon, 40 miles down the road.

At the same time, North Vietnamese troops and tanks struck savagely at An Loc in a renewed attempt to seize that provincial capital, 60 miles north of Saigon.

Cambodian officers suggested that the enemy aim is to seize all of Svay Rieng Province in eastern Cambodia, thereby reestablishing border bases for joining the offensive in South Vietnam. The Viet Cong has made no secret of the fact that the ultimate aim of the offensive is to capture Saigon.

The collapse of a large part of Svay Rieng Province opened a new

route for enemy forces either to threaten Saigon from the west, or to push southward into the Mekong Delta.

The fallen Cambodian positions included Prey Phau, close to the point where Highway 1 crosses the border into South Vietnam 40 miles west of Saigon. The province capital of Svay Rieng, 25 miles farther west, was under heavy enemy pressure, Cambodian officers reported.

Much of the Cambodian sector had been patrolled by Saigon troops until March 30, when the North Vietnamese opened their general offensive, forcing the pullback of South Vietnamese forces.

In the battle for An Loc, enemy troops attacked South Vietnamese rangers and paratroopers north and southeast of the city following a day-

long, 1,000-round shelling Wednesday.

Field reports said there was close combat around an airborne unit fire base called Hill 169, lying 2½ miles southeast of An Loc.

A score of U.S. B52s dropped 500 tons of bombs on three sides of An Loc, trying to break up North Vietnamese concentrations.

While fighting raged on the two fronts, U.S. officials said all signs point to a shift of North Vietnam's general offensive to the central highlands in the next 48 hours.

The loss of several South Vietnamese outposts and villages is being assessed by some officials as a diversionary move to draw off reinforcements and open the way to Communist command strikes at Dak To, a district town and Kon-tum, a provincial capital.

John Paul Vann, the senior U.S. adviser in the second military region, said the campaign is expected to last about two months. He predicted it would concentrate on three provinces: Kontum and Pleiku in the highlands and Binh Dinh on the central coast, 75 miles to the east.

House Democrats order bill for complete U.S. withdrawal

WASHINGTON (AP) — House Democrats described the bombing of North Vietnam as a dangerous escalation of the war Thursday and ordered the prompt drafting of a bill calling for complete U.S. withdrawal from Indochina.

The resolution, approved 144 to 58, was the strongest antiwar action taken so far by the House Democratic Caucus.

Adoption of the resolution, which also denounced the North Vietnamese offensive, was by far the biggest victory yet scored by the antiwar forces in the House and is evidence of their growing strength.

Previously end-the-war measures have passed the Senate only to be buried in the House.

In the view of supporters of the resolution, the vote binds Democratic members of the House Foreign Affairs Committee to produce an end-the-war bill within 30 days so the House can vote on it.

But at least two members of the committee who voted against the resolution said they don't consider themselves bound, and caucus Chairman Olin E. Teague, D-Tex., shared their view.

Chinese trade minister condemns U.S. bombing

SANTIAGO, Chile (AP) — China condemned U.S. bombing raids in North Vietnam and told a 140-country U.N. trade meeting here Thursday it supports the underdeveloped Third World against American "plunder" and profiteering."

Chinese Deputy Commerce Minister Chou Hua-min stated his country's position in a speech to 3,000 delegates attending the UNC-TAD III Trade and Development Conference. His words seemed to dim the glow that had surrounded U.S.-China relations after President Nixon's trip in February.

"The Chinese government and people strongly condemn U.S. imperialism for its criminal acts of war expansion" in North Vietnam, Chou said, pledging his country's "all-out support" for the North Vietnamese and Viet Cong "in their war against U.S. aggression."

This was China's first appearance at UNC-TAD since the organization was formed in 1964. There was applause when he finished.

"China is a developing country and belongs to the Third World," Chou said. "Since the founding of the People's Republic of China, the Chinese people have broken through a tight blockade imposed by imperialism, withstood terrific foreign pressure and built our country into a socialist state."

"However, imperialism and reactionaries are bound to obstruct the struggle for complete independence waged by the developing countries," he added. "The United States of America...has carried out aggression and expansion everywhere...in a vain attempt to stamp out the revolution of the oppressed peoples and achieve world

A resolution by Sen. Barry Goldwater, R-Ariz., to condemn the North Vietnamese offensive and declare Senate support for U.S. government policy in Vietnam was placed on the Senate calendar Thursday after Goldwater abandoned his plea for immediate Senate action.

At the Pentagon, a spokesman said North Vietnamese army engineers are running a vital tank and truck fuel pipeline across the Demilitarized Zone into south Vietnam.

"There is no evidence of movement back across the DMZ by the invasion forces," said spokesman Jerry W. Friedheim.

Also in Washington, a broad coalition of peace groups tentatively announced plans for a series of peaceful antiwar demonstrations May 4 patterned after the Oct. 15, 1969, Moratorium Day.

While several members of Congress denounced President Nixon's Vietnam policy at the peace group's news conference, Nixon gained support for his policies from Frank E. Fitzsimmons, president of the Teamsters union.

"In spite of a flexible approach, many concessions and many alternative proposals made by the President to North Vietnam leaders, Hanoi to this day exhibits a callous disregard for an honorable settlement," Fitzsimmons said.

Guard in control at U of Maryland

By The Associated Press

National Guardsmen took control of the University of Maryland campus Thursday, after three consecutive nights of violent student protest against the renewed bombing of North Vietnam.

After one false start in which a busload of guardsmen had to be recalled from the university grounds, Democratic Gov. Marvin Mandel declared a state of emergency and ordered the soldiers into the campus in force.

"I'm fed up with this violence and destruction of public and private property, and I fully intend to see that it ends," Mandel said earlier, blaming "a handful" of the university's 35,000 students for the disorders.

The campus had been reported fairly quiet in the hours before the guard took over. A noon antiwar rally failed to materialize, and students strolled to and from classes in muggy 80-degree temperatures.

Under Mandel's emergency decree, a 9 p.m. curfew was imposed on the campus proper and adjacent areas. The guard was ordered to limit access to the campus to persons with official business, thus providing for the arrest and detention of anyone not having a legitimate reason for being there.

In New York City, antiwar activists defied a court order and blocked entrances to eight buildings on the Columbia University campus. Four other classroom buildings remained open.

Antioch College students took part in an attempt to block two of the five gates into Wright-Patterson Air Force Base at Fairborn, Ohio. More than 125 demonstrators were arrested.

The protest delayed many workers en route to their jobs at the air base. Traffic was diverted to three unimpeded gates. Estimates of the number of demonstrators ran as high as 500. The demonstration had been scheduled during an Antioch campus rally Tuesday.

In Amherst, Mass., 15 University of Massachusetts students held a sit-in at the ROTC building. They were identified as members of the Vietnam Veterans Against the War and the Women's Caucus.

Overlin, Ohio, college president Robert W. Fuller headed a group of 50 students and faculty en route to Washington with 1,300 antiwar letters for presentation to Rep. Charles Mosher, R-Ohio.

The mayor of Ann Arbor, Mich., Robert J. Harris, University of Michigan Regent James L. Waters, and several professors were among 16 persons who offered to go to North Vietnam as "peace hostages."

Black council honors former coach

The Black Faculty and Staff Executive Council presented an award Wednesday to Robert L. Ledbetter, former assistant coach at SIU.

The award "in recognition of outstanding achievement in athletics at SIU and for significant contributions to the black community of Carbondale," was presented by Gossie H. Hudson, president of the council, to Ledbetter's wife, Delores.

Ledbetter is leaving SIU for a position as head football coach at Norfolk State University. Also, during the council meeting, it was announced that Malvin Moore, professor of Educational Administration and Foundation, is willing to accept the position as president of the council. Hudson is vacating the seat when he leaves SIU this summer to take a new position as dean of the History Department at Lincoln University in Missouri.

Gossie H. Hudson, president of the Black Faculty and Staff Council, presents an award for Robert L. Ledbetter, former assistant coach at SIU. Ledbetter's wife, Delores, accepted the award Wednesday during the council's regular meeting. Ledbetter was unable to attend.

Qualified workers needed

Qualified workers are needed to fill approximately 24 available jobs, according to Benson B. Poirier, assistant to the director of Student Work and Financial Assistance.

The greatest demand is for skilled typists, Poirier said. He defined skilled typist as someone who could type 50-60 words per minute with a reasonable degree of accuracy.

Also needed, he said, are students to work in such areas as horse-back riding instruction, life saving, in the machine shop, as softball and volleyball officials, and in meteorology.

The student should have a work block of 3 to 4 hours either in the morning or in the afternoon, preferably from 8-12 in the morning or 1-4 in the afternoon.

The student must have a Family Need Analysis (ACT) Form on file before he will be considered for a job, Poirier said.

The student financial situation, however, as shown on the ACT form, does not usually effect the students chance for getting a job, he said. Only when there is a shortage of jobs will the financial situation of the student be considered. "If someone wants to work I'll try to find them a job no matter what their financial situation", Poirier said.

There is no abundance of unskilled jobs at this time, he said, but the usual large turnover at the end of spring quarter should make available many more jobs, both skilled and unskilled.

Students seeking work should contact the office of Student Work and Financial Assistance in Washington Square for more information.

Davis love notes become evidence

SAN JOSE, Calif. (AP) — A Superior Court judge ruled Thursday that a series of love letters from Angela Davis to Soledad Brother George Jackson may be introduced at her murder-kidnap-conspiracy trial.

Among the letters was one Miss Davis wrote to Jackson on July 8, 1971, the day the prosecution says they engaged in a "close, passionate and physical involvement."

The state contends passion to free Jackson led Miss Davis to her alleged involvement in an Aug. 7, 1970, escape attempt at the Marin County Civic Center in which four persons died.

Woman charges University with sex discrimination

Editor's Note—This is the first of two articles exploring the issues and complexities of one example of a new kind of problem which higher education officials here and elsewhere recently have found facing them: A University woman's complaint of sex discrimination in personnel policies and practices.

By Sue Roll
Daily Egyptian Staff Writer

Carolyn Weiss, staff assistant in the Cartographic Laboratory, has filed a sex discrimination complaint against the University with the Department of Health, Education and Welfare (HEW).

The second woman from SIU to publicly disclose her complaint, Ms. Weiss' complaint is one of seven now being investigated by the Chicago Civil Rights Office of HEW. A compliance review team from the HEW will be at SIU Monday to review Ms. Weiss' complaint and others.

The other women have requested they not be publicly identified for fear of intimidation and harassment at their jobs. In addition to these individual complaints, HEW is currently conducting an overall compliance review of the University, including several class action suits.

In March, HEW made a finding against the University upholding the sex discrimination charges of Marisa Canut-Amoros, former professor of applied science.

Ms. Weiss' case is an example of the confusion and complication that surrounds most sex discrimination cases. Involved are questions of competency, by whom or how this can be evaluated accurately and whether this treatment is a result of sex discrimination or the result of personality friction and incompetency. Then there is the problem of getting satisfaction from the University, both in grievance procedures leading to the formal complaint and in remedies, should sex discrimination be found to be the case.

Ms. Weiss was among those who received termination notices Dec. 15. Her complaint charges the University with sex discrimination regarding her dismissal, her failure to attain the rank of instructor and to receive continuing appointment.

She said she also wants assurance she will not be harassed by the University because of her complaint.

Jury rules suicide in student death

A Jackson County Coroner's jury ruled Thursday night that the death of SIU student George W. Ganster was suicide.

Ganster, a graduate student in Community Development, died Feb. 16, apparently of an overdose of tranquilizing drugs.

George Simmons, a staff member of the Carbondale Model Cities program who said he was a close friend of Ganster said Ganster had been depressed for some time over marital problems. Simmons said Ganster attempted suicide on Dec. 4, shortly after returning from the Dominican Republic, where his ex-wife lives.

Clarke said Ganster was admitted to the Health Service about 4:15 p.m. Feb. 14, after Simmons and two friends found Ganster unconscious in his apartment in Hurst. He was examined at the Health Service and transferred to Doctors Memorial Hospital about 4:30 p.m.

About noon on Feb. 15, Ganster began to respond to treatment and was returned to the Health Service at 10:30 p.m. At 4:25 a.m. on Feb. 16, Ganster was readmitted to Doctors Hospital, where he was pronounced dead at 5 a.m.

Carolyn Weiss

She said there is a disparity between her salary and that received by other male staff assistants with her qualifications, but that this was not an initial charge in her complaint.

Ms. Weiss has been employed as a staff assistant in the Cartographic Laboratory since September, 1970. She received her M.A. degree from McGill University in Montreal and worked for five years at the University of Florida and Clark University in Massachusetts in the fields of geography, cartography and remote sensing before coming to SIU.

Ms. Weiss claims that her overall treatment at the lab and in the Department of Geography and in the University as a whole has been marked by sex discrimination.

First, she cites her initial dismissal letter from Dan Irwin, manager of the lab and assistant professor of geography, in which she was notified her contract would not be renewed as of Jan. 1, 1972.

In this letter, she said, Irwin criticized her technical abilities, her involvements in remote sensing, her attempts to upgrade her rank and her working relations with him, student workers and clients.

Two months before receiving this dismissal notice, she said, a joint letter from Irwin and Frank Thomas, chairman of the geography department, was sent to Vice Chancellor Willis Malone requesting her reappointment for fiscal year 71-72 calling her position a "critical element to the continued successful operation" of the lab.

Ms. Weiss appealed to John Olmsted, dean of the Graduate School, and Ronald Hansen, associate dean of the school. It was decided that the dismissal notice had been handled inappropriately.

"I was told by the people in the graduate school that I did the hiring

and firing," said Irwin, "but apparently I wasn't. The letter should have come down from above. Because of the confusion, they agreed to give her a whole year's contract."

In a summary of her complaint, Ms. Weiss says that her work and character have been denigrated orally and in writing by Thomas and Irwin. She reports that in a conversation with Irwin, he told her that "there are ways of getting rid of you."

Although the issue regarding the dismissal notice from Irwin was settled, Ms. Weiss was notified on Dec. 13 that her term appointment would not be renewed. The cartographic lab was among low priority items of the priority lists to the Illinois Board of Higher Education. Olmsted and Hansen explained that funds were withdrawn from the lab because it basically provided service rather than research functions.

"I cannot see that this amounts to discrimination," said Hansen. "It was a simple fiscal decision to terminate the cartographic lab. And they obviously decided they did not need anyone of her particular talents in the department. It says nothing of her as a person."

Ms. Weiss contends that the

geography department is planning to continue using the lab facilities and incorporate Irwin completely with the department, implying that funds for the lab are available.

Douglas Carter, present chairman of the geography department, said the fate of the lab was still unknown but that since the equipment is here, he hoped it could be used. He pointed out that since Irwin has tenure, a continuing appointment and the fact that he teaches a class in the department, his case is different from Ms. Weiss'.

Carter said the question is one of competency rather than sex discrimination. "Would I want to hire her as a faculty member of the Department of Geography? No," said Carter.

Another problem in Ms. Weiss' case and other such cases is that during the time in which complaints are pursued personnel may change. Thomas, former chairman of the geography department, has resigned from this post and is now on leave on the East Coast. He was involved in much of the activity which Ms. Weiss' complaint concerns.

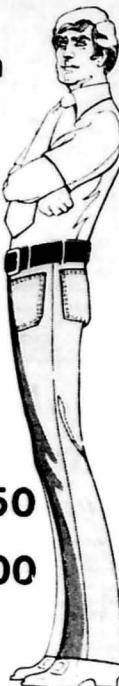

Ms. Weiss took her complaint to the SIU Affirmative Action Office

when she made her formal complaint to HEW. But she considers her experience with the office "a total waste of time."

Tomorrow—The Affirmative Action Office role in the case, its aims and its conclusions.

Mark-Almond to jam tomorrow in DuQuoin

The British rock group Mark-Almond, along with REO Speedwagon, will appear in concert at 5 p.m. Saturday at the DuQuoin State Fairgrounds.

Tickets for the concert, sponsored by Camelot Productions, are \$4 in advance and \$5 at the gate. Advance tickets may be obtained at Discount Records, 611 S. Illinois, and at Merlin's, 315 S. Illinois.

Mark-Almond's music is described in a press release as a "unique blend of rock, jazz, blues, soul and classical."

Formed in 1970 by Jon Mark and Johnny Almond, the five-man group has recorded two albums for Blue Thumb Records, Inc.

The first, "Mark-Almond," featured a concept built around the city. Their current album is called

"Mark-Almond II," and, according to the press release, a third album will be released this summer.

All five members of the band have had experience with other performers. Mark began his career as a songwriter for Marianne Faithful, and also saw experience as a session guitarist for Dusty Springfield and the Rolling Stones. He later joined the blues band of John Mayall, of which Almond was then a member. While they were with Mayall, Mark and Almond met pianist Tommy Eye, formerly of Joe Cocker's Grease Band, and bass guitar player Roger Sutton.

Soon afterward, they formed what is now "Mark-Almond," and in 1971 added an American drummer.

Business fraternity to honor merchants

By University News Service

Three local businesses will be cited for outstanding service to the community and the students at an awards banquet at 7 p.m. Friday sponsored by Alpha Kappa Psi, a professional business fraternity at SIU.

Mayor Neal Eckert will be on hand to present the awards to Lowe's Repair, University Cleaners and Hellene's Furniture, and SIU President David R. Derge will deliver a short address after an honorary membership in the fraternity is conferred on him.

Other award recipients include Mark Lavelle, past treasurer of the fraternity who is being cited for his outstanding leadership in fraternity projects, and Roy Short, president of AKP who will receive an

Tull ticket lines formed; sales start Tuesday

By Daryl Stephenson
Daily Egyptian Staff Writer

Tickets for the Jethro Tull concert at 8 p.m. May 4 in the SIU Arena will go on sale at 7:30 a.m. Tuesday at the Central Ticket Office in the Student Center. Bill Searcy, assistant manager of the Arena, said Thursday.

Searcy said that tickets will be priced at \$3.50, \$4.50 and \$5.50 with 50 cents discount available for students on the top two prices.

Opinions on city wanted

By Barry Cleveland
Daily Egyptian Staff Writer

About 300 questionnaires designed to determine how the people of Carbondale feel about their city will be distributed throughout the coming week. Donald Monty, coordinator of the Goals for Carbondale program, said Wednesday.

Members of several government classes at SIU and at least five townpeople will distribute the surveys to a random sample of citizens, Monty said.

Residents will be asked questions to determine what they feel is wrong with the city and how its problems can be solved. They will also be asked to fill out a four-page questionnaire and mail it to the goals program in City Hall, Monty said.

The survey is intended to supplement goals subcommittee hearings currently being held for a similar purpose, Monty said.

"We realized that the hearing structure does not give access to a really representative sample of the people of Carbondale, and we think this will help remedy that," he said.

Results of the questionnaires and the hearings will be evaluated by the goals steering committee during May, June and July and then submitted to the city council.

The steering committee will meet with subcommittee members May 1 for progress reports and an exchange of information, Monty said.

Four subcommittees plan to hold hearings within the next two weeks:

Facility planning and utilization and physical environment: 7 p.m. May 1, Newman Center.

Human relations, community interaction and social concern: 8 p.m., May 2, Carbondale Savings and Loan Building.

Government structure, revenues and economic growth: 7 p.m., May 1, Carbondale Savings and Loan.

Transportation systems and urban design: 7 p.m., April 24, Carbondale Savings and Loan.

The public is invited to attend any of the hearings or to submit written statements to the Goals for Carbondale program in City Hall.

Remaining tickets, he said, will go on sale Wednesday at the Arena, Penney's, Sav Mart and Tempo.

Mildred J. Porter of the Student Center Central Ticket Office said that lines began forming as early as Wednesday. Ms. Porter said that a group of students from Schneider Hall, headed by Tom Draske, president of the ninth floor, have organized a ticket control line.

A table has been provided by the Student Center, said Ms. Porter, and students who wish to reserve a place in line can sign for either individual tickets or block tickets.

Roll calls will be made four times

a day, at 8:15 a.m., 2:15 p.m., 7:15 p.m. and 11:15 p.m. In order to keep his place in line, a student must only be present for two of the four roll calls each day.

Ms. Porter stressed that neither the Student Center nor the Arena have anything to do with the control line. "We'll be selling the tickets on a first-come, first-serve basis," she said. "This is entirely independent student operation."

Also appearing with Jethro Tull, said Searcy, will be Wild Turkey, a new English group on their first U.S. concert tour.

Jethro Tull's music is built

around the work of Ian Anderson, who in addition to playing flute writes most of the songs.

The group's first album, "This Was," jumped to the top ten of the British album chart. One year later, the readers of Melody Maker, a British rock magazine, voted them

In 1971, Jethro Tull was awarded two gold albums, one for "Benefit" and the other for "Aqualung," a

biting, controversial look at modern day religion.

Other members of the group include Martin Barre on guitar, John Evan on piano and organ and two new members, Jeffrey Hammond on bass and Barriemore Barlow on drums.

They are currently at work recording a new album which is due to be released soon.

Conduct code committee approves panel eliminations

By Richard Lorenz
Daily Egyptian Staff Writer

A motion to eliminate hearing and constituency panels at the trial level was approved Wednesday by the Community Conduct Code Committee.

The vote on the proposal was 3-2 with two abstentions. This is the second time the committee has reversed itself on this matter. Originally, trial-level proceedings

were conducted only by a hearing officer. This was altered to include the possibility of hearing and constituency panels.

Following the elimination of the panels, approval was granted, 5-0 with two abstentions, to a motion stating that only a hearing officer will conduct proceedings at the trial level.

The hearing officers will be appointed by some agency within the University under uniform stan-

dards. Exactly which agency it will be is still undetermined. All the members of the University will be eligible to become a hearing officer. A chief hearing officer who will assign hearing officers will be chosen from and by the officers. The term of office will be one year for the chief officer.

The committee, with some modification, approved a proposal dealing with the use of temporary sanctions.

Lunar explorations begin

HOUSTON (AP) - Two American astronauts landed safely on the moon Thursday night to begin an expedition that was temporarily threatened by a failure in the main engine of the Apollo 16 command ship, Casper.

Astronauts John W. Young and Charles M. Duke Jr. thus achieved man's fifth landing on the moon and began a three-day scientific exploration on a plateau high in the lunar mountains.

After a delay of almost six hours Young and Duke guided their lunar lander in a long curving descent from orbit and brought it to rest among the Descartes Mountains.

They were the 9th and 10th Americans to make a lunar landing but the first to do so in a mountain region.

The third Apollo 16 astronaut, Thomas K. Mattingly II, remained in lunar orbit aboard the command ship.

The main engine problem in his ship had been isolated in a back-up steering motor, and Mission Control ordered the moon landing delayed while the problem could be studied.

Cheerleaders clinic to be conducted

Varsity cheerleaders will conduct a cheerleading clinic from 6 to 7 p.m. April 25-27 in the Women's Gym Room 208 for all girls interested in trying out for next year's cheerleading squad.

Tryout procedures, cheers and requirements, will be discussed at these times. Any girl wishing to tryout for the squad must attend at least one of these clinic sessions.

Tryouts will be held at 2 p.m. Sunday April 30 in the Women's Gym. Coaches, football and basketball players and women's representatives will judge the contestants.

Seven cheerleaders will be chosen for the squad.

A go-ahead for the landing was given shortly before 7 p.m. CST, and Young and Duke began their powered descent to the moon's surface during their 16th lunar orbit.

The astronauts' planned first moon excursion was delayed until 10:30 a.m. CST Friday. It was not immediately decided by Mission Control what other effect the late landing would have on the second and third surface excursions.

Young and Duke are scheduled to deploy an atomic science station near the landing site. They will also use an electric car to roam the surface in search of evidence of volcanoes thought to have convulsed the moon billions of years ago to form the bright, rugged mountains which cover most of the lunar surface.

Young and Duke ignited the powerful descent engine on their spindly-legged lander and began the dive toward the moon. Because of the delay and the rotation of the moon under the spacecraft, the landing site was 20,000 feet off the moon lander's path.

A powerful rocket firing corrected the problem, slowed the craft and sent it curving downward.

The astronauts were unable to see their landing site until, at 52,000 feet, they rotated the ship and glimpsed their target for the first time.

Young throttled the rocket engine to full power and began the final, almost vertical, ever slower descent.

The engine throbbed for 12 minutes, gently lowering the craft to a landing among billowing clouds of dust.

In case the president or his designee has reasonable cause to believe that a clear and present danger to the safety and well-being of the members and property of the University community will be present if a person is permitted to remain, an interim or temporary sanction could be imposed. The sanction would be imposed only after a preliminary hearing is provided.

If a hearing is impossible prior to the use of a temporary or interim sanction, a hearing will be provided at the earliest possible date. The purpose of the hearing will be to give the accused a chance to persuade a hearing officer that there is a case of mistaken identity, extreme provocation or other compelling

justification for withholding the sanction.

Members of the University community will be given a full hearing in accordance with disciplinary procedure. Nonmembers will be given the opportunity for a full hearing.

The committee endorsed, but did not approve the idea of a barring sanction. The sanction would be effective to both members and non-members of the University community. Specific language is expected Wednesday.

The committee discussed, but did not approve, part of a time table for appellate procedures.

The committee did not take up the matter of search and seizure due to the lack of any proposal. A proposal is expected Wednesday.

Graded answer sheets stolen from scooter

About 50 graded answer sheets were stolen from a University vehicle parked in the Neckers Building breezeway Wednesday afternoon.

The answer sheets, scheduled to be returned to GSC 354 students Thursday, were taken from the seat of a Cushman scooter about 2:15 p.m. while the student driver was inside the building.

SIU Security Police also reported the theft of four bicycles from students in southeast Carbondale.

John R. Marvin, 20, Schneider Hall, reported the loss of his blue, 10-speed Raleigh Record valued at \$90 from the Schneider Hall bike rack. Marvin said the bicycle was apparently taken Tuesday night or Wednesday morning.

Evangelist-writer to conduct church services

SIU students are being invited to "hear the good news of Jesus Christ" at the Carbondale Church of Christ, 1400 W. Sycamore, April 24-30, according to Larry Dyer, campus minister of the church.

First Lady welcomes pandas to U.S.

WASHINGTON (AP)—The two giant pandas, gift of friendship from the Communist Chinese, were welcomed today by First Lady Pat Nixon, who pronounced them "adorable endearing creatures."

In separate air-conditioned quarters behind glass walls, Ling-Ling and Hsing-Hsing appeared before a crowd of reporters and photographers, a Chinese delegation, the First Lady and officials of the Washington National Zoo.

Unable to hear much through their glass homes, the pandas happily ate gruel, nibbled on bread, soaked with honey for the occasion, and climbed up on a pile of oak legs.

Committee expansion considered

By Richard Lorenz
Daily Egyptian Staff Writer

A legislative proposal to expand the size of the presidential advisory group studying tenure, salary and promotion will be considered when the University Senate meets at 7 p.m. Monday in Lawson 201.

The proposal asks the group be expanded to 12 people, six students and six faculty with an equal number of male and female members from the students and faculty. The scope and authority of the group would be expanded to include research for possible new creative and innovative teaching methods.

Currently, the advisory group consists of 10 faculty, only one of whom is a woman.

If the proposal is adopted, it will be forwarded to President David R. Derge. In accordance with the governance document, Derge will have to accept or reject the whole proposal within four weeks, unless the executive committee gives him more time.

If Derge accepts the proposal, it will be policy. If he rejects it, the proposal will return to the senate for reconsideration. If the senate approves the proposal without alteration or amendment by a two-thirds vote of those members present and voting and if the total which approves is 26 or more, then the proposal will be implemented without the president's approval.

The senate will also consider a legislative proposal dealing with the establishment of a community fee. The fee would be used for university-wide projects and services, such as the Daily Egyptian, the Health Service, campus recreational facilities and the U. Senate.

The operating budget subcommittee of the planning committee would be charged with the tasks of determining the scope of the fee, the devising of means of assessing the fee and the determining the amount of the fee.

A third legislative proposal asking for a differential rate system for the use of the Student Center will be discussed.

Janice Cain, a staff member of the Student Activities Office, reported the theft of her billfold containing \$20 in cash and several identification cards from her office Tuesday morning.

Woods conducts more than 35 of these meetings a year and has more

than 100 promised ahead. He is an active religious debater, an amateur radio enthusiast and a member of the bar, although he has never actually practiced law.

Students are invited to any of the daily sessions, said Dyer.

Ling-Ling reached up to nibble a tempting morsel of bamboo.

Mrs. Nixon lingered to watch them with evident delight.

Like the two musk oxen the U.S. gave to the People's Republic of China, Ting said, the animals would remain as "a symbol of friendship."

Committee approves changes in GSB courses

By Richard Lorenz
Daily Egyptian Staff Writer

The general studies joint standing committee Wednesday approved 12 recommendations dealing with courses offered in section B of General Studies.

Under courses taught by the history department, the committee recommends that: 1) GSB 100 a and b, Western Tradition in World Context, be dropped and be replaced by a proposed course called the Contemporary World; 2) the proposed new 200-level courses dealing with the history of western civilization be offered as history courses; 3) GSB 300 a, b, and c, History of the United States, be kept in general studies as individual courses with new titles

and new numbers and be taught on a general level; 4) GSB 309, Contemporary Far East, be returned to the department; and 5) GSB 300a, East Europe, be returned to the department.

GSB 102a, Man and His World, is to be given a new number and name and retained in the General Studies program. A common syllabus is to be developed for the course. The course is taught by the anthropology department.

Under courses taught by the geography department, the committee recommends that: 1) GSB 102b, Man and His World, be retained in General Studies and be given a new number and name and 2) GSB 355, Geography of the United States, be

retained and given a new title to make the course more attractive.

The committee delayed action on GSB 353, Geography of Resource Management. Douglas Carter, acting chairman of the geography department, will be asked to appear before any action is taken. Previously, the committee returned GSB 354, Industrial Economic Geography, and GSB 356, Geography of Sub-Saharan Africa, back to the geography department.

GSB 109, Black American Studies, was recommended to use the standard grading system or become mandatory pass-fail. Currently, students must pass 90 per cent of the material to receive an A. If the student does not complete this material, an incomplete is given. The committee also recommended a greater emphasis on staffing this course, especially the use of teaching assistants. It was recommended that the course be retained.

Concerning courses taught by the sociology department, the committee recommends that: 1) GSB 321, Socialization of the Individual, be retained and the number of sections increased also the course should not count toward the major and if it does that the course be returned to sociology; 2) GSB 325, Race and Minority Relations, be retained and number of sections be increased; 3) GSB 341, Marriage, be returned to sociology where it can be counted toward major.

The committee delayed action on GSB 201b, Behavior and Society, until Charles Snyder, sociology chair-

man, and Jerry Gaston, general studies coordinator for sociology, have talked with the committee.

GSB 201c, Behavior and Psychology, was recommended to be given a new title and number and be retained.

The committee based its work on a report made by a subcommittee consisting of Howard Olson, professor in animal industries;

David Jones, professor in geography; David Erlanson, graduate student in English; Jim Chapin, teaching assistant in psychology; and Craig Anderson, undergraduate in government. Olson served as chairman.

The recommendations will be included in the committee's final report which will be sent to the Faculty Council.

GSC may take action against state director

By Richard Lorenz
Daily Egyptian Staff Writer

Discussion and possible action concerning the possibility of suing Alan Drazek, state director of personnel, will take place when the Graduate Student Council (GSC) meets at 3:30 p.m. Friday in the Student Center auditorium.

According to the council's agenda, a motion could be made that the council request the Illinois Federation of Teachers (IFT) to initiate a suit against Drazek on behalf of all graduate assistants. The purpose of the suit would be to define the assistants as "employees" under the state health insurance program.

Charles Newling, a GSC member, has said there are six reasons why assistants cannot be covered by the plan: 1) the broad discretionary powers of the law give to Drazek, 2) the fact that the possibility of including graduate students was not discussed when the law was written, 3) the fact that Drazek claims teaching assistants and research assistants are not under his jurisdiction, 4) there is no money to include graduate students and if there was it would be used to improve the program, 5) the insurance is not suitable for grad students and 6) graduate students were not included in past insurance plans.

The agenda states IFT lawyers in Chicago are reviewing the matter. Garth Gillan, president of the Carbondale Federation of University Teachers (CFUT, a branch of the IFT), has said if the IFT decided a suit is practical it will initiate a suit upon request, will pay all related expenses and will not require the GSC to support its membership drive as a pre-condition.

The question of unionization also will be discussed. Terry Provo, southwest regional organizer of the American Federation of Teachers (AFT); Gillan, and Herbert Donow, CFUT secretary, are expected to attend.

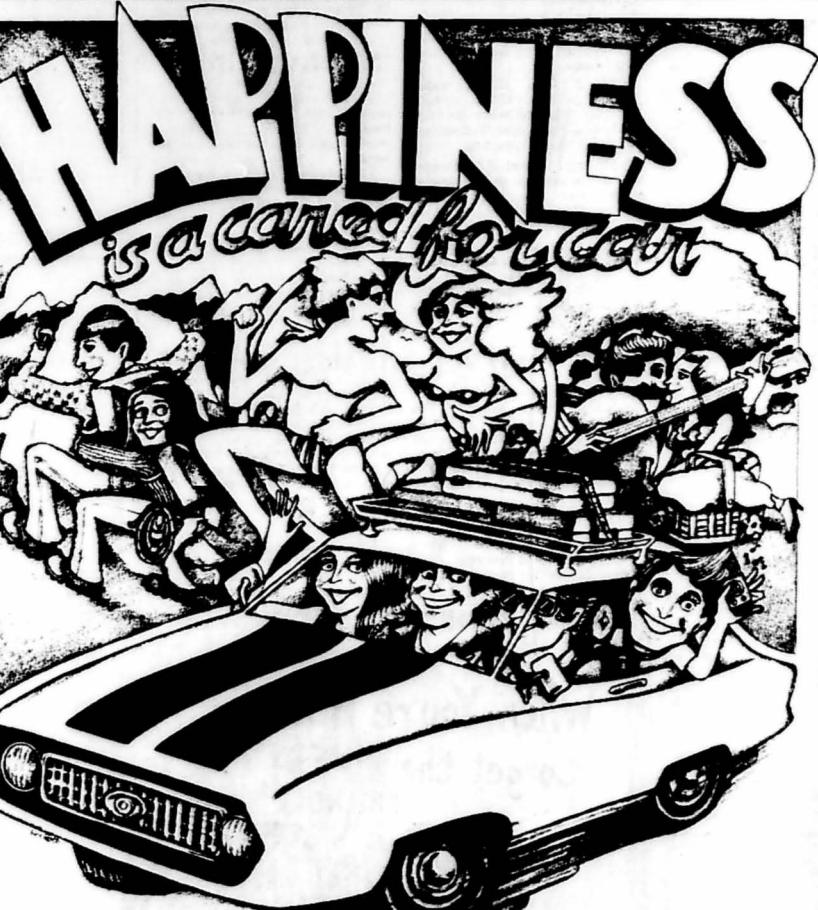

Representatives from the IFT have requested support from the GSC in unionizing graduate assistants. The three representatives have been invited to attend in order to answer questions and present information.

If the GSC decides to join the IFT,

Official house threatened

LONDON (AP)—No. 10 Downing Street, the official residence of British prime ministers since 1733, was built in 1660 and a new danger now threatens the old house. Dry rot has set in behind the famous black door and fungus has attacked timbers in several rooms.

The street was developed by Sir George Downing, master spy, turncoat and a 1642 Harvard graduate.

If you count on your car for lots of good times, why not give it the best care you can? One way is using Standard gasolines.

Standard's Lead-Free Amoco, the new car gasoline, not only helps cut down on air pollution, but tests prove it can double the life of your muffler and tail pipe compared to fully leaded gasolines. Makes your spark plugs last longer, too.

It's a fact—more drivers in the Midwest care for their cars with Standard gasolines than any other brand. And they keep coming back. Isn't that the truest test of quality?

You've got a lot of money in your car. And you count on it for lots of good times. So take good care of it ... with Standard.

You expect more from Standard and you get it.™

Golfers seek title in upstate tourney

After four years of dormancy, the Illinois State Invitational golf tournament becomes a reality again Saturday.

And Lynn Holder hopes to improve by one notch in the tournament last held in 1968.

The University of Iowa defeated SIU for the first-place trophy.

Holder, Southern's golf coach, feels many of the 14 schools participating in Saturday's affair have an equal chance of winning the championship. But he gives host Illinois State the favorite role due to the Redbirds' familiarity with their home course.

But Holder conceded, "If we can jell them we have a good shot at first. But the boys have to shoot par in order for us to win."

Some of the other schools that Holder sees in the race for top honors include the University of Illinois, Illinois Wesleyan and two other Midwestern Conference foes - Ball State and Indiana State.

"Actually, our conference should make a good showing at the meet," he said. "Illinois State, Indiana State and Southern finished one-two-three in the South Classic."

The tourney will consist of 36 holes with the five best

scores on the six-man squads counting towards the final team tallies.

Golfers accompanying Holder on the trip north are Geoff Young, Vito Saputo, Jock Olson, Brad Miller, Jay Wilkinson and Richard Tock.

In Wednesday's intrasquad match at Crab Orchard golf course, Tock and Wilkinson led the rest of the pack with a one-under-par 70. Following them were Miller (71), Dave Perkins (73), Saputo (74) and Olson at 77 in the 18-hole round.

Another intrastate tourney awaits the Saluki golfers the following Saturday in Champaign. Southern hopes to better last year's fourth-place finish at the University of Illinois Invitational Tournament.

Southern's biggest threat for a first-place weekend lies in shot putter Jolene Swoboda.

The team's action will be the following weekend in the Ozark Invitational at SIU-Edwardsville.

No big invitationals are in store for the women's golf team this weekend. However, the linksters face a strong foe in Bloomington, Ind., Saturday.

According to the coach,

Ms. Blackman cites two factors which greatly limit the team's winning potential.

"First of all, all four opponents have been practicing since last fall while we just began our first workouts of the year. And second," she explained, "girls living in the South have the advantage of competing in high school. Those in Illinois usually don't compete until college."

According to the coach,

the team's winning potential.

Currently, Kathy Rowlett, Judy Auld and Mug Putnam hold down the top three spots in the lineup. Coach Sarah Cotten indicated she will send eight girls to this Saturday's triangular.

Meanwhile, in Kentucky, the SIU women's tracksters face strong challenges from four schools in the Murray State (Ky.) Invitational. Teams

competing in Saturday's affair include SIU, Murray State, Memphis State, Eastern Kentucky and the University of Tennessee at Knoxville.

Memphis State solidly defeated Southern in the latter's season opener, 76-28, and,

according to track coach

Claudia Blackman, prospects aren't so bright.

"If any of our girls can place first in an event," she said, "that would be a big accomplishment for us."

According to the coach,

the team's winning potential.

SIU's International Soccer Club has released its final spring schedule.

The slate consists of home

games against the University

of Alabama - Huntsville at

2 p.m., April 28, and Eastern

Illinois University at 2 p.m.,

April 29.

On the road the booters will

participate in a four-team

round robin tournament at

Illinois May 6. The other three

teams in the tourney are the

University of Wisconsin, Mi-

chigan State and an African

team called Uhuru.

Second Thoughts

sports writer

Inspirations and brainstorms about Southern Illinois' apparently-dated membership in the Midwestern Conference.

Our opinion after three years observation--the SIU Board of Trustees should approve a quick getaway when it meets Friday in Carbondale.

But judging from past board performances, especially concerning McAndrew Stadium, it's likely the matter will be tabled, postponed for further study or otherwise delayed.

Why should the docile mule turn rambunctious quarter horse?

Nevertheless, SIU president David Derge told us he'll recommend the board take action Friday. Derge declined to voice his opinion on conference membership, saying he'd present a resolution at today's 9:30 a.m. meeting in the Student Center.

Former proxy Robert G. Layer spoke out emphatically when contacted at home late Thursday. "We can do better," Layer said concerning athletic membership.

And the ex-president said Southern Illinois hasn't greatly benefited from Midwestern Conference academic membership either.

During his tenure as "The Man" Layer remained silent on this issue. But now he's sided with numerous campus groups that support moving away from the league which first popped its little head over the horizon on Sept. 22, 1969.

Holding that opinion are the Intercollegiate Athletic Committee, the University Senate and varsity coaches. The U-Senate voted 18-14 with eight abstentions.

Early indications are Derge will join up with dissenters when he speaks to the board today.

Only the Faculty Council has offered support for the league. Even that was a weak gesture. The Council recommended SIU pull out pending further study of the academic conference.

SIU could cease league athletic functions but retain academic membership. Any withdrawal must be completed by July 1, 1973. SIU would compete within the league next year, then revert to independent status. Layer cited SIU's athletic superiority and criticized federally funded programs at other league schools that supersede normal entrance requirements.

Southern Illinois has captured 13 of 16 awarded conference championships.

Layer said federal programs for minority groups are "alright in terms of their original goals and aims. But if athletes compete who wouldn't meet scholastic requirements otherwise, then it's unfair."

League basketball champion Northern Illinois remains notorious for its use--or misuse--of the program. Three NIU cagers, including Sporting News All-America center Jim Bradley, were admitted to NIU under a minorities program.

Sources wishing to remain anonymous tell us Bradley scored a little old five on his American College Testing entrance exam. I don't think he could have gotten into SIU during summer with a little old five.

Overall, the wee five wears a sour frown.

There's no need to remain woe-ful, SIU's choice seems obvious. Hopefully, the Board won't tarry.

A gopher's view

Whose shoes are these? None other than Bill Meade, son of Bill Sr., gymnastics coach. The freshman is member of SIU's golf team, who found his feet firmly planted on green turn at a practice Wednesday afternoon at Carb Orchard Golf Course. Next meet for the linksters is Saturday at the Illinois State Invitational. Story is on page 21.

(Photo by Jay Needelman)

Salukis face crucial weekend; Indiana State, Vanderbilt here

There's a possibility the Midwestern Conference baseball opener will get underway at 3 p.m. Friday when the Salukis host Indiana State—but only a slight possibility.

The SIU baseball squad faces one of the busiest weekends with a single game today, a doubleheader Saturday with the Sycamores, plus a single game at 2 p.m. Sunday against Vanderbilt.

However, the Salukis will also face an 80 per cent chance of rain today diminishing to 50 per cent tonight and Saturday, according to the U.S. Weather Service.

In another development, somebody forgot or neglected to cover the diamond after Wednesday's game and the rains soaked the bare surface Wednesday night and Thursday. The field was finally covered Thursday afternoon.

If the weather clears, the Salukis will battle a team SIU coach "Itch" Jones

calls the most improved in the conference. He has said on several occasions that Indiana State is the conference team he worries most about.

The Salukis are defending Midwestern Conference champions, but Indiana State was the only team to defeat SIU in 12 conference games all season.

Sycamore pitcher Tom Lewandowski, who had the best conference record (3-0) last season, will probably go for the Sycamores. He is 3-1 this season.

Indiana State catcher Jerry Pollins is hitting an unbelievable .467, followed by Jim Rueser with .385 and Bill McCallum with .33. The Sycamores won their first seven games this season, dropped the next five, but took a tripleheader from Eastern Illinois Thursday.

According to conference rules, teams must play each other three times during the season. It has to happen in one weekend—a nine-inning game

Friday, followed by a doubleheader Saturday with a seven-inning opener and a nine-inning nightcap Sunday can be a makeup day.

An SIU athletic official said if the Friday or Saturday games are rained out, SIU might have to cancel the Vanderbilt game to play Indiana State.

Jones feels the weekend series is crucial in order for SIU to get an invitation to play in the NCAA district tournament. Winning the Midwestern Conference title will not automatically put SIU in the NCAA meet.

"If we're to get a district bid, we'll have to win conference and at least the majority of our games against tough teams like Vanderbilt," Jones said.

If Vanderbilt and the Salukis do get together for that Sunday doubleheader, SIU will face a team that has defeated No. 1 ranked South Alabama. Vanderbilt was 22-8 going into this week's action.

Netters face three-team road stint

With an unblemished record—and four players with perfect slates—the SIU tennis team faces three weekend foes on the road.

The Salukis will take their 8-0 regular season mark to Cincinnati Friday for an afternoon match against the Bearcats. Cincinnati is 11-7, including a narrow 5-4 decision over Notre Dame.

Last weekend Southern defeated the same Irish squad, 9-0, at Terre Haute, Ind. The Salukis also beat Indiana State 8-1, in a match played indoors and out.

While in Cincinnati, the Salukis will compete against Miami University (Ohio) on Saturday before going to Ann Arbor to face Michigan Sunday.

The match with the Wolverines is bound to be the netters toughest to date. Michigan is going for its fifth straight Big Ten championship. It has also won 13 of the last 17 looo titles.

The Wolverines returned five of six starters from last year's squad which beat SIU, 6-3, at Ann Arbor.

Daily Egyptian Sports

The returning players are headed by No. 1 singles man Joel Ross, who has defeated four times in nine outings this season.

At No. 2 will be Jeff Miller, a highly-touted freshman who was ranked as the fifth best junior pla-

Correction

It was incorrectly reported in an editorial appearing in Thursday's Daily Egyptian that Donald Boydston, head of Intercollegiate athletics at SIU, was present in Chicago when the Midwestern Conference was formed in 1969.

Former SIU chancellor Robert MacVicar represented Southern Illinois at the conference debut meeting.

yer in the country last year. He has also seen action on the U.S. Junior Davis Cup team.

If coach Dick LeFevre sticks with the same lineup which was so successful against Indiana State last weekend, Graham Snook will be heading the netters at No. 1 singles.

Snook, along with Mike Clayton, Chris Greendale and Ray Briscoe is undefeated. Snook and Clayton are 8-0 while Greendale and Briscoe have won seven and five matches respectively.

The rest of the Salukis lineup will show Jorge Ramirez at No. 2, Greendale at No. 3, Chris Gunning at No. 4, Clayton at No. 5 and Briscoe at No. 6.

NHL playoffs

Boston 10, St. Louis 2; Boston leads best-of-7 series, 2-0

New York 3, Chicago 2; New York leads best-of-7 series, 3-0
