Nixon makes vow during inaugural to obtain peace

WASHINGTON (AP) — President Nixon took an inaugural vow Monday to "consecrate my office, my energies, and all the wisdom I can summon, to the cause of peace among nations."

Minutes after taking his oath as the 37th American president with hand resting on the Biblical adoration to beat swords into plowshares—Nixon told massed thousands in the Capitol Plaza:

"For the first time, because the people of the world want peace and the leaders are afraid of war, the times are on the side of peace.

"After a period of confrontation, we are entering an era of negotiation."

The 17-minute inaugural address was delivered rapidly and in low key. It was interrupted nine times by brief, almost perfunctory applause. There was strong applause at the close but no sustained ovation.

Nixon followed his text quite closely, reading with his head down and looking up for emphasis, emitting rarely. His breath was visible occasionally in the 35-degree chill.

The President promised to pursue at home the goals of full employment, better housing, excellence in education. But he warned that "we are reaching the limits of what government alone can do."

"What has to be done, has to be done by government and people together or it will not be done at all," the Republican President said. And the effort must be that of a united people, he emphasized.

"To go forward as all is to go forward together," he said, and added earnestly

"This means black and white together, as one nation, not two."

(Continued on page 9).

Gus Bode

Gus says a Presidential inauguration is like finding a snap course—each happens once every four years.
AFC may get involved in DuQuoin school dispute

The DuQuoin Board of Edu-
cation will meet next Monday to determine the services of Mrs. W. A. Smith, assistant principal, for the rest of the year. Mrs. Smith, who is not a native of DuQuoin, is expected to leave the school at the end of the year.

The meeting is scheduled for Monday night at 7:00 p.m. in the school board meeting room.

Pageant applications available

Applications are still available for the Miss Southern Beauty Pageant. To be eligible, a girl must be sponsored by a recognized school organization, club or group. Applications are being accepted by an individual entry fee of $10.

Ex-business director named SIU advisor

Gene H. Graven, formerly director of the Department of Business and Economic Development for the state of Illinois, has been named to the Edwardsville campus to serve as an advisor to President Dolly W. Morrison.

Graven previously served at Edwardsville as coordinator of the Edwardsville Community Development from 1958 to 1962. He left that position to join the state's economic development agency.

In another announcement, Graven said, "I will look forward to returning to the University and working with all of the students."

Daily Egyptian

ANNIVERSARY YEAR

There have been 40 years of publishing the Daily Egyptian. The Daily Egyptian is a student newspaper published by the University of Southern Illinois. The newspaper is available on campus and in many locations throughout the community.

The Daily Egyptian is a student-run publication. Its goal is to provide factual, accurate, and timely news to the University community. It is also a forum for the exchange of ideas and viewpoints. The newspaper is published five days a week, Monday through Friday, during the academic year.

The Daily Egyptian is published by the University of Southern Illinois and is funded by student fees. The newspaper is available on campus and in many locations throughout the community.

Lecture set on Israeli crime

Zul Hermann, from the Hebrew University in Jerusalem, will present a lecture at 8:00 p.m. Tuesday in the Morris Library auditorium. The lecture will cover the topic of "Crime Among Jews Before and After the Rise of Israel." A coffee hour will be held at 7:00 p.m.

Hermon, who will be on campus until the end of this month, will also participate in a group discussion on the "Problems of Integrating Hebrew-speaking Groups in Israel." The discussion will be held in the Morris Library lounge at 3:00 p.m., Friday, Jan. 24.

A guest of the Center for the Study of Crime, Delinquency and Corrections, Hermon has been speaking at the invitation of several departments about crime and other problems in his native country.

Hermon will also appear on the WSIU TV program "Ask the Professor" at 10:00 p.m., Wednesday, Jan. 29.
Activities on campus today

PEO Centennial Dinner: 6:30 p.m., University Center Ballroom B.
American Red Cross and University Center Blood Drive: 8 a.m.-2 p.m., University Center Ballroom B.
Companionship: construction of International Structure: meeting; 8-11 a.m., University Center Mississippi Room; luncheon, 12 noon, University Center Commerce Room.
Clarei: Free student time cards distribution, 8-10 a.m., University Center Ohio Room.
Department of Physics: luncheon, 12 noon, University Center Physics Room.
Graduate School: meeting, 3-5 p.m., University Center Kastak Keep.
Alpha Zeta: meeting, 8 p.m., Agriculture Seminar Room.
Department of Technology: staff meetings, 1-3 p.m., Agriculture Seminar Room.
Technology Club: meeting; 7-9 p.m., Technology Building A-122.
SIU Amateur Radio Club: meeting and lab, 9-11 p.m., Technology Building D-104.
League of Women Voters: Job Corps tutoring, 7:30-9:30 p.m., Communications Building Rooms 112 and 122.
Technical and Adult Education: meeting, 7-9 p.m., Furr Auditorium.
Model United Nations: meeting, 7:30-9 p.m., French Auditoium.
Department of Mathematics: seminars, 3-4 p.m., Technology Building A-120.
School of Agriculture: seminars, 4-5 p.m., Agriculture Seminar Room.

Angels Flight: dance practice, 7-9 p.m., Music Building.
Dance Studio: rehearsal, 5-7 p.m., University Center Mississippi Room.
SIGMA XI Lecture: "Extension of the Hypothesis of Continental Drift: a Path to a New Era," M. Hulsey, speaker, 8 p.m., Davis Auditorium.
Student Christian Foundation: luncheon meeting, 12 noon, (topic: "New Look at U.S. and International Issues").
Weight lifting for male students: 4-10:30 p.m., Pulliam Hall Room 17.
Free School classes: social biology, 9 a.m., Morris Library Auditorium; film, 5:30 p.m.; Morris Library Auditorium; Indian (East) culture, 7:30 p.m., University Center Room C; Narrad Experiment, 5:00 p.m., Southwest Corner University Center Cafeteria; and Alan Watts philosophy, 7:30 p.m., 212 E. Pearl.
Alpha Kappa Psi: meeting, 9-11 p.m., University Center Mississippi Room.
University Center Planning Committee: meeting, 7:30 p.m., Room E, University Center.

Student shopping trip planned for Saturday

The Student Government Activities Council will sponsor a shopping trip to St. Louis Saturday. Buses will leave from the University Center at 8 a.m. and return by 6 p.m. Persons wishing to make the trip must sign up by noon Friday in the Activities Office. Cost of the trip is $2 per person.

Free School resume

The first Free School class of the quarter, "A New Look At The U.S. And International Issues," will be held at noon Tuesday in the Student Christian Foundation, 913 S. Illinois.

Frank Sehnert, foreign student councilor at the Internationl Student Services, will be moderator.

The Rev. Allen Lang, Student Christian Foundation, stated that "a new look" means a look at the new administration.

Topics to be covered over the quarter are: Caucasia, Russia, and Eastern Europe; Castro Decade; The Middle East; and Dissent, Democracy, and Foreign Policy. Other meetings will be held at noon Jan. 28 and Feb. 4, 11, 15 and 25.

I don't want to wait for someone to die or retire in order to get promoted

We're with you. Because at IH we believe a promotion is something you earn. Not some kind of hand-me-down... not to fill an empty slot.
That's why you'll have to be a thinker. A doer. An innovator. The kind of guy who prefers to be promoted on his merits alone.
You'll need talent. Lots of imagination. And plenty of guts. The guts to make decision and fight for your ideas.
We, in turn, will give you plenty of freedom, and encouragement.
So you'll learn a lot. (Maybe even teach us a thing or two.)
What's more, if you join us, you'll be part of a diversified company. One where there's plenty of action in farm equipment, farm trucks, construction and toolmaking.
And you'll also find we're banking heavily on research. (We've got some pretty far-out ideas on computers, farm trucks, laser beam construction equipment, applications of solar energy, nuclear power.)
As a result, we're looking for test, design, manufacturing and research engineers. We need accountants and production management people. And we need sales people for our wholesale and retail operations.
So talk to your campus placement officer about us. He'll fill you in on the jobs we want to fill.
With minds, not bodies.

DANCING NIGHTLY
to the sophisticated rhythms of the "Buddy Rogers Trio"

Editorial

Action vs. words

The "ideas" for educational reform recently proposed by Chancellor Robert W. MacVicar are indicative of at least a surface goodwill in the response of the people facing needs changes.

But meaningful change must penetrate the institutional fabric of the educational institution. Superficial statements are of a limited value. We need a plan of appreciating discontented individuals and elements cannot suffice.

In the credibility of exposing liberal intentions and needed change soon reaches a point of extinction. The old cliché applies: actions speak louder than words. The social anomaly therefore persists. However, the deception is usually visible only to those persons directly involved.

For example, we are told that students are regarded by the University as young adults, but the concept of "in loco parentis" remains fundamental policy.

Our environment is that of free intellectual curiosity and expression. We are told, yet walk of conformity confront progressive faculty and students at every juncture.

University official policy purports a belief in the basic rights of human equality, yet racial and religious discrimination are reality. The chancellor has expressed a sympathy toward many of the leaders of the AULP "Joint Statement," but when it becomes a matter of incorporation he is unable, "to good conscience," to revolutionize.

The difference between the ideal and the reality is, and probably always has been, substantial. But this knowledge should not assuage the desire to oppose "the way things are." The chancellor's interest in involving various elements of the University community in the process of decision-making appears to be sincere. He has endeavored to do this on all the issues thus far.

Yet the question remains—Is Chancellor MacVicar truly personally devoted to updating institutional practices, or is he merely a clever and knowledgeable administrator? Only the chancellor can answer this question with any certainty. But one thing is clear. A positive response to the needs of this University exceed eloquent rhetoric. We have heard the "ideas," now let's see some action.

Jules Feiffer

The people responsible for finding entertainment for the students should think in a logical way when planning such events. An illogical way is by asking "Who's cheapest?" or "Who can we get on Saturday, Feb. 15th?". To get a star act, the people in charge should first ask the students to choose the five acts they would like to see most. With that list of five, they should go after the acts until they can get them to appear at SIU. What ever happened to the survey that Student Government took last quarter? What were the results? Where are the groups we were supposed to get?

If SIU is in business for the students, then when choosing entertainment for the students, they should keep the students' tastes in mind. Since 1965 when this writer came to SIU, they have done this only once. That was for the "Superswest" in the spring of 1967, when that group was at the height of its popularity. Did SIU make a deal with them? Yes. Did they make lots of happy people? Yes.

How about a repeat performance? No, not a repeat of the Superswest, a repeat of happy students.

There is only one way to do this, by choosing the acts students want. Donovan, The Doors, Jimi Hendrix, Canned Heat, Janis Joplin, etc. Don't waste your time on the nobodies.

A good policy in the future, Mr. Griggs, is to think before you book acts, isn't that simple?

Sherry Marlan

Letter

One Marching Saluki speaks out in defense

To the Daily Egyptian:

An open letter to Mr. Jack Griggs:
Where is your head? I'm sure it must be in a very secure place if you really just read the article in the Egyptian where the students were calling for a mini concert, "First Mini-concert Deserved Better Turnout." Did it? Maybe you think so, but the students know better.

First the author of the article says there was nothing better happening in Carbondale, so why didn't more people show. Here's what was happening, and these events didn't cost one cent, (and they were all better than paying $1.50 to see two 'no body' groups). One was the 'Free Film' at Davis, and the second was a live band, the Soup, at the Matrix. For a small amount of money, you could see "The Yellow Submarine" downtown. The really hard up could do Carrolls or the Rumpus Room. You see, there really was somewhere to go in Carbondale. For some reason, even "Wanton, Wayward Wench" sounds like more fun than Vicar and the Deacon.

Mr. Griggs was quoted as complaining, "After all the work, it's depressing to have such a poor turnout of students." Did it ever occur to Mr. Griggs while he was channeling all his effort into this "Mini-Concept" series that maybe he was wasting his time? That maybe his idea of a fun night of entertainment wasn't shared by all the students. Who did he plan it for, himself and his friends?

To the Daily Egyptian:

I would like to congratulate Pizza King for their great idea of Wednesday (Jan. 15). My wife and I were almost guests at this happy occasion; however, upon opening the door we were greeted by a politely smiling Pizza King employee with "go away, we're full..." Oh well, I guess they don't need any business.

Charles K. Longley

Letter

Re: Mr. Dubar

Your recent letter in which you stated that the performances of the Marching Saluki are elementary and superficially so, I realize, a matter of personal opinion. However, it is readily apparent that few share your opinions.

It would seem odd that a band, having the qualities you mentioned, was invited last fall to two professional football games, one being televised nationally and the other regionally. The band has received national popularity as is evidenced by numerous letters from all over the country praising the band. For these reasons, and others, the band has been dubbed goodwill ambassadors of SIU.

Concerning your reference to the band as a "nightclub act," I assume that you were referring to the tuxedo uniforms. These uniforms are meant to enhance the band's position as the creator of the new concept in marching bands. The band has successfully gotten away from the stale and tiresome military style.

Of course, most important to the band are the feelings and attitudes of the SIU students. The one's the band enjoys performing for the most. They are the ones who like and enjoy the band.

I suggest, Mr. Dubar, that you ask around and get the opinions of others concerning the band. I doubt that many will share your opinions.

A member of The Marching Saluki, Michael Williamson

Charley Sheeler: 1948-1968
By W. Allen Manning
Staff Writer

Although an Interfraternity Council proposal to expand the Greek system was defeated last spring, not on the Board of Trustees agenda for their meeting Wednesday, some decision regarding the extent of expansion could take place in the near future.

The present SIU policy calls for no expansion of fraternities and sororities. However, Chancellor Robert W. MacVicar could allow for some type of expansion without Board of Trustees action.

“If we are going to build (fraternity) houses, it would require Board action,” said MacVicar. “But recognition of colonies would not.”

MacVicar has focused on the expansion issue lately because of Student Senate approval for the IFC proposal, and the emergence of off-campus groups (colonies) which would like to become recognized social fraternities and sororities.

However, the question of expansion is not new. Recognition of the status of the Social Fraternities and Sororities at SIU was submitted to Delcyte W. Morris, SIU president, by the Commission on Social Fraternities and Sororities. A list of expansion recommendations put forth by the commission was presented at the bottom of this page.

Since the 1967 report other groups have considered the question. In January 1968 the Faculty Council made a report and issued recommendations to the University Council dealing with the above Commission report. Then in June 1968, an interim report was sent to the Dean of Students Office by Ken Varcoe, coordinator of fraternities and sororities.

“In the past two and one-half years there has been a real concern for the Greek system,” says Dean of Students Wilbur Moulton. “The process of evaluation has been slower than anticipated. The transition of government, from president to chancellor, has held up any concrete policy making.”

Moulton, Varcoe and Tom Connor, IFC president, attended the National Interfraternity Council convention in Miami in December which caused Moulton to comment “I discovered other places are having the same problems.”

On a national scale, fraternities are on a decline in the East, but are growing in the Midwest. Moulton cited Michigan and Indiana State as other institutions that can be compared to SIU. SIU students often use the University of Illinois as a comparison of fraternal systems, but the UI, of Ill., has added only three fraternities since 1934. The reason they haven’t expanded more is that virtually every national fraternity (about 50) is already represented on campus.

The question of the social fraternities on campus—Alpha Phi Alpha, Delta Chi, Kappa Alpha Psi, Lambda Chi, Alpha Sigma Phi, Tau Sigma Phi, Tau Kappa Epsilon and Theta Xi. Sororities are Alpha Gamma Delta, Alpha Kappa Alpha, Delta Zeta, Sigma Kappa and Sigma Sigma Sigma.

When discussing expansion, housing is one of the primary concerns. Beginning last quarter, a new policy of not placing non-members in the fraternity and sorority houses was instituted. At present Greeks may invite non-members to live in their houses, but non-members will not be placed there by housing officials unless the independents so desire. The houses, located at 5100 Grand, have been rented to individual students on a contract basis and are not rented as such to a fraternal group.

Housing is also a concern for the off-campus colonies.

“We need a place for supervised activities for the colonies,” says MacVicar.

At present there are five off-campus colonies—Omega Nu fraternity, Phi Beta Sigma fraternity, Delta Sigma Theta sorority, Sigma Gamma Rho sorority and Beta Tau fraternity. All but Beta Tau are members of the National Pan Hellenic Council, a predominantly Negro organization to which three recognized SIU groups (Alpha Kappa Alpha, Alpha Phi Alpha and Kappa Alpha Psi) belong.

The National Pan Hellenic Council differs from the National Interfraternity Council and National Panhelennic Council (for sororities) in that it recognizes metropolitan chapters as well as collegiate chapters. A metropolitan chapter is one which is not necessarily recognized by a college of universitv because not all members of the chapter have to be attending school.

Although Delta Sigma Theta is recognized by the National Pan Hellenic Council as a social sorority, it is recognized by SB as a public service sorority. The national president of Delta Sigma Theta, Frankie M. Freeman, was the featured speaker at last year’s annual Greek banquet last spring.

Since the present SIU policy does not allow for expansion, the administration has not accepted any applications from fraternities and sororities. They have received letters from about 40 groups that are interested in joining the fraternal system.

Greeks in general are hopeful that the system will expand. Several have commented that they sense an attitude change in their favor on the part of the administration. If faced with an absolute refusal on the expansion question, some may have discussed boycotting all student activities. This rumor has apparently been wide spread.

“We don’t expect that (an absolute refusal at all),” says Dan Fos, IFC vice president. “We can do the same thing, boycott selecting it, but nothing has been decided.”

It appears as though some type of decision will be made in the near future.

The number of Greeks on campus is about six to seven per cent and Moulton says “Institutions of comparable size don’t keep a fraternal system for such a small number of students.”
Engineering and Science at IBM

"You're treated like a professional right from the start!"

"The attitude here is, if you're good enough to be hired, you're good enough to be turned loose on a project," says Don Feistamel.

Don earned a B.S.E.E. in 1965. Today, he's an Associate Engineer in systems design and evaluation at IBM. Most of his work consists of determining modifications needed to make complex data processing systems fit the specialized requirements of IBM customers.

Depending on the size of the project, Don works individually or in a small team. He's now working with three other engineers on part of an air traffic control system that will process radar information by computer.

Says Don: "There are only general guidelines. The assignment is simply to come up with the optimum solution.

Set your own pace
Recently he wrote a simulation program that enables an IBM computer to predict the performance of a data processing system that will track satellites. He handled that project himself. "Nobody stands over my shoulder," Don says. "I pretty much set my own pace."

Don's informal working environment is typical of Engineering and Science at IBM. No matter how large the project, we break it down into units small enough to be handled by one person or a few people.

Don sees a lot of possibilities for the future. He says, "My job requires that I keep up to date with all the latest IBM equipment and systems programs. With that broad an outlook, I can move into almost any technical area at IBM—development, manufacturing, product testing, space and defense projects, programming or marketing."

Visit your placement office
Sign up at your placement office for an interview with IBM. Or send a letter or resume to Irv Pfeiffer, IBM, Dept. C, 100 South Wacker Drive, Chicago, Illinois 60606.

An Equal Opportunity Employer
Fuller to talk with military on new design

A representative of the Army's Surgeon General will meet Thursday at SIU with designer R. Buchminster Fuller to hear Fuller's ideas about "hospitals of the future."

Fuller, research professor of design at SIU, has proposed that hospitals, schools and other such facilities be designed as large, open spaces—similar to his own geodesic dome—with mobile interior partitions, instead of fixed room units.

The visitor will be Matthew Parrish, chief of psychiatry in the Office of the Surgeon General. While at SIU he will meet at 4 p.m. in Morris Library Auditorium with persons interested in community planning and development, mental hygiene consultation services and new concepts of social science.

Parrish is one of the founders of Community Consultants, Inc., a Washington, D.C., firm which uses his theories of total community effort in solving social problems, including those of delinquency and mental illness.
Former student

Marcia Braekmeyer, a former SIU student, was the stewardess Monday for a flight from Chicago to Carbondale on an SIU plane donated to the University.

SIU receives Viscount plane from United

SIU was presented with a Viscount four-passenger airliner Monday by United Airlines.

The plane's last commercial flight was Monday morning from Chicago to the SIU Airport where it was presented to SIU President Delbert W. Morris and Kenneth H. Miller, director of the SIU Foundation.

The Viscount was presented to SIU by J. P. Buczkital, president of line maintenance for United. Miller said, "The plane is in great shape." He said it would be used for Training Program Aviation Technology at SIU.

Marcia Braekmeyer, a former SIU student from Effingham, Ill., was the stewardess for the flight. The ten passengers aboard the flight were J. C. Attia, flight manager; D. M. Buckmaster, customs officer; E. P. Buczkital, H. Gould, consultant to United Airlines; T. Mccook, captain; T. Morgan, flight manager; E. J. Nelson, regional manager of personnel; R. J. Pollock, regional employment manager; A. W. Hood, line maintenance training coordinator and Miss Braekmeyer.

Other SIU personnel at hand for the presentation were Robert Hancock, dean of the school of business; Thomas Purcell, data processing; H. R. Large, placement service; Marvin Johnson, dean of the school of technology; Ernest Simon, dean of technical and adult education; Keith Hembly, Vocational Technical Institute; Edmund DaRose, VTI aviation technology; and L. E. M. Morris, president's office.

Botanist to speak

Botanist Harold C. Fritts, whose studies of tree rings have led to an understanding of past climates in the southwestern United States, will be guest speaker at SIU Wednesday day to the botany-physiology lecture series.

His public talk on "Tree Rings and Climate in Semi-Arid North America" will be at 4 p.m. in 101 Lawson Hall.

Fritts is a staff member at the University of Arizona Laboratory of Tree Ring Research.

Three new candidates file

Councilmen petitions due today

By John Durrbin

A flurry of activity at Carbondale City Hall Monday produced three new official candidates for 25 primary election of city councilmen.

The total number of official candidates in eight and incumbent Councilman Frank Kirk said Monday he plans to seek re-election.

Today is the day to file petitions for the election.

Filing Monday included incumbent Councilmen Randall Nelson, 704 West Cherry Street; James Smith Jr., 212 East Walnut Street; and Hans J. Fischer, 104 North Rod Lane.

Smith and Fischer could not be reached for comment.

A primary will be held because more than four candidates have officially filed for the two council seats.

The top four candidates in the primary will run in the April 15 general election.

Kirk was appointed to the then City Commission in 1964 by former Mayor D. Hlaney Miller. He was then elected for a two-year term of office in 1966.

The 42-year-old Kirk constructed and wrote the Model City Application which brought an $110,000 federal grant to Carbondale. He has also served as head of the Citizens Advisory Committee.

Kirk said two reasons — personal and public — made him decide to run again. "Weighting very heavily on my decision was the fact that I was urged to run from citizens from my neighborhood of the city," Kirk pointed out.

Another personal reason which influenced Kirk was that he hopes serving on the council and I appreciate the opportunity it gives me to apply my experience and training." He has experience in community development in Carbondale and other areas.

Kirk, consultant to the Community Development Service at SIU, said a public reason for his decision was due to the "great deal of progress for equal treatment of all citizens we have made and will continue to make in the future." He cited the control over zoning in the city as an example of "equal treatment for all citizens."

"We will continue to need outside help from state and federal agencies and this is where my experience will continue to be useful," Kirk explained.

Kirk said he is aware "there are powerful forces in the community who would like to turn back the clock. But I simply want to remain on the council and help preserve the gains we have made." Kirk acknowledged that there is room for improvement.

Concerning the petition to block the water and waste treatment project, Kirk said "It is evident that we have not been able to fully convince the citizens of the community of the great need for this project. We have looked at all of the possibilities and this is the most economical solution we could find."

Kirk said he hopes if a referendum is held on the bond issue, it will not delay the project and that the city will not lose the federal grants which are expected to finance about 50 per cent of the project.

Other candidates who have officially filed are Michael Altenhause, 662 Glenview Drive; Don Crabtree, 1300 West North Street; Archie Jones, 811 North Wall Street; Elmer Mullin, 409 East Walnut Street; and Fred Payne, 1713 Colonial Drive.
Nixon pledges peace, main goal during term

(Continued from page 1)

Some simple things are the ones that most need doing to restore national harmony, Nixon said—and one of them is "to lower our voices."

"We cannot learn from one another until we stop shouting," he said and went on to speak quietly enough so that our words can be heard as well as our voices."

He gave a promise: "For our part, government will listen."

"For all of our people, we will set as our goal the decent order, that makes progress possible and our lives more pleasant."

Internally the country faces "a crisis of the spirit," Nixon said, and one thing will be found in such simple virtues as "goodness, decency, love, kindness."

We have found ourselves rich in goods but raged in spirit, priding ourselves with magnificently in the state for the moon, but failing into raucous discord here on earth," the former vice president said.

"In a crisis of spirit, we need an answer of the spirit. To find that answer, we need only look within ourselves."

Shaw's trial starts today, Garrison still investigating

NEW ORLEANS, La. (AP)—Datsy, Jimmy Garrison did an about-face Monday and agreed to proceed without further delay in the trial of Clay Shaw, accused nearly two years ago of conspiring to kill President John F. Kennedy.

Garrison assistant James Alcock, told Judge Edward J. Hagerty in Criminal District Court that he was ready to go ahead as scheduled Tuesday. The trial will be the first connected directly with the assassination Nov. 22, 1963.

Alcock withdrew a state motion for a delay based on the claim that the federal government was withholding vital evidence.

The state had asked for a

Says destroy system inadequate

Pueblo skipper first witness

CORONADO, Calif. (AP)—The skipper of the USS Pueblo said Monday he could not work up equipment before North Korea captured his intelligence ship after the Navy "provided no explosive system."

The only means of destroying secret documents were an incinerator, a paper shredder and a papier mache Cnddr, Lloyd M. Bucher said. The first two were not used and there were not enough of the latter.

He added that the Navy didn't mount guns on the craft until a few weeks before seizure, the steering system gave trouble and the telephone system was inadequate and inadequate it would have taken 21/2 hours to scuttle the craft.

The Pueblo was seized Jan. 25, 1968, the North Korean coast and the crew spent 11 months in captivity.

Bucher was leadoff witness at a court of inquiry composed of admirals, who could recommend court-martial proceedings or courts martial to medals.

Bucher said the Pueblo, a former Army coastal freighter,

er, was not equipped with explosives to destroy secret electronic equipment, when it was scuttled at the Pusan Sound Naval Shipyard because the Navy felt there was not enough time or money.

"They said in order for the destroy system to be effective and safe, that is without having it go off unintentionally or intentionally without our orders, it had to be built as an integral part of the electrical equipment."

Bucher said.

"They said as the equipment was assembled it was not possible to include the destroy system without a great deal of expense and time."

After a Navy intelligence ship was attacked in the Arabian, the Navy ordered two 30-millimeter guns for the Pueblo.

fication and last Friday after a judge in Washington, D.C., declined to enforce a Garrison subpoena of Kennedy's autopsy photographs and X-rays taken after the assassination in Dallas.

The autopsy reports were turned over to the National Archives by the Kennedy family, who said they shall be withheld from the public.

Atty. Gen. Ramsey Clark released last week a report by four experts who checked the autopsy material and agreed with the Warren Commission that President Kennedy was shot from the rear.

Garrison has insisted there were other shots from the front.

Russia eager to start talks on limiting nuclear missiles

MOSCOW (AP)—The Soviet Union and President Lyndon B. Johnson know Monday it is easier to start talks on a halt to nuclear tests and States on limiting nuclear missile systems, and to cooperate in reducing the threat to world peace.

In a congratulatory message to the U.S. and its President, Premier Aleksei K. Kosygin said the Soviet Union and the United States must do all that is needed to achieve self-defense, disarmament and non-aggression.

"And," they added, "through joint efforts with other states the Soviet Union and the United States must do all that is needed to achieve self-defense, disarmament and non-aggression."

In reporting Nixon's announcement, the official Soviet news agency TASS, emphasized, in turn, the American Government's calls for negotiations, peace and openness in the lines of communications with other nations.

The Soviet leaders' message dominated a flood of letters of congratulations from leaders around the world.

Red Cross seeks blood donors

The St. Louis Chapter of the American Red Cross bloodmobile will be on campus January 21 and 22.

The drive, which is being sponsored by University Park, will be open each day from 11 a.m. until 4 p.m. The Billiards of the University Center will serve as a drive coordinator of the drive.

Miss Merle Fischer, field representative for the Red Cross, recently spoke to volunteer workers at University Park where she advised, “by giving blood, the donors will not only be offering blood that will save countless numbers of lives, but they would be protecting the blood needs of their entire family.”

Miss Fischer also added that the Red Cross asks that several medical regulations be observed. All donors must be between 18 and 59.

All males under 21 must have written parental permission.

Forms for this purpose are available at all on-campus living areas and from the pamphlet rack in the University Center opposite the TV Room.

The procedure requires about an hour and entails giving some medical information, a brief physical examination, the actual blood donation and a short recuperation period. Miss Fischer added that the Red Cross is eager to come to Southern because she feels that the blood drive will be a success and a rewarding experience for the students.

Student Government prints first issue of weekly Crypt’

The first issue of a Student Government Activities Council newspaper which is expected to be published weekly appeared on campus Monday, January 7. The newspaper informs its readers of its purpose to provide "a concise representation of student activities on this campus."

According to Don Kapral, vice president for student activities, the newspaper will be published every Monday and will be distributed at the University Center. It will be distributed free of charge. The newspaper will contain news of student activities and events.

The Student Activities Council which was reorganized under an all-man chairmanship program.

Another article concerned a "coffee house circuit" with entertainment nightly in the Roman Room of the University Center beginning Jan. 27.

The band is scheduled for a five-day stand. Admission will be 50 cents.

"Mr. Kabachio" will be crowned this weekend at the "Winter Masquerade" dance sponsored by Alpha Kappa Al- pha, social sorority. The dance will also announce the Ivy Leaf Sweetheart, an ivy leaf being a pledge to Alpha Kappa Alpha. These vying for the crown of "Mr. Kabachio" are (from left to right) in the bottom picture) Paul Purnell, Eric Grant, Eddie Knox, Ladhar Gentry and Edgar Hawkins. The Ivy Leaf Sweetheart Court consists of Gerald Kimble, Albert Coleman, and Robert Smith (sitting), Elvis Roland and Stephen Blackley (standing).

Alpha Kappa Alpha, social sorority, will host a "Winter Masquerade" dance Saturday night where their sweetheart, "Mr. Kabachio," will be named.

Also announced at the dance will be the sorority pledge sweetheart.

The dance will be held from 9 a.m. to 1 p.m. at the Uni- versity Center Ballrooms with the Ford Gibson Ensemble providing music.

Enzyme won't get prize

The feat of reproducing a chemical enzyme in the laboratory—achieved almost simultaneously by research teams at Rockefeller University and the Mercru, Sharp and Doane laboratory—has been described by SIU microbiologist Maurice Ogor as "quite thrilling but not a scientific landmark of Nobel Prize dim- ensions." Ogor likened the man-made enzyme achievement to the transition from subsonic to supersonic flight. "If it should be regarded, however, as an achievement like discovering the principles of flight or going from prop to jets," he said.

The achievement was announced Thursday in the Jour- nal of the American Chemical Society. Teams made up of Robert Burnett and Bernd Gute at Rockefeller and Ro- bert Demkowitzer and Ralph Hitchcann at the Mercru fac- ulty produced ribonucleases, one of hundreds of enzymes which are the keys to life in all plants and animals. The ribonuclease molecule is chemically constructed of a chain of 123 amino acids.

Ogor, whose cancer re- search has involved studies of enzymes critical to cell respi- ration, said details of the ribonuclease structure—"its bricks and arrangements"—have been known for some time. He said the teams that duplicated the arrange- ment in the test tube, working from the known blueprint, suc- ceeded in building a house slightly larger than the one built two years ago when Univer- sal States and Chinese teams announced the synthesis of insulins, a hormone, in the labo- ratory.

"It's exciting in that it shows we have the capacity to attack more complex building jobs, it shows a high order of technical achievement and I'm thrilled by it. But I've called Nobel Prizes pretty accurately in the past few years and I wouldn't bet on this one..."
Seeking a lost past
Carl Kuttuff, left, salvage archaeologist for the SIU Museum, uses a whisk broom and trowel to reclaim a long-buried fish bone in an archaeological dig near New Athens. John Scott of Glen Ellen uses a shovel to deepen the excavation of a prehistoric Indian house.

Grant for museum approved

The National Park Service has approved a $7,500 grant for SIU's Museum to finance continued archaeological field work in the lower Kaskaskia River basin, which will be flooded by the projected "canalization" project.

A Museum field crew worked last summer at the Marty Coullidge site near New Athens.

The 1969 summer explorations will be at the same site, according to Phil C. Weigand, curator of North American archaeology, Carl Kuttuff, who directed the field work last summer, will again serve as supervisor, Weigand said.

The Museum also received a $575 grant recently from the National Park Service, matching a grant from the Women's Army Corps to discuss programs.

A Women's Army Corps team will be in Carbondale today and Wednesday to discuss programs available to females.

The programs are open to female high school graduates, licensed practical nurses, and junior college and college graduates.

For complete information on the available programs, students may visit the selection team at the Army Recruiting Station, 418 E. Main, or phone 540-6714.

Churches endorse legalized abortion

The Illinois Council of Churches closed out its 1969 legislative meeting in Carbondale by supporting a fresh grape boycott by seasonal farm workers in California, and extension of legal grounds for therapeutic abortion.

In a barbed wind-up of the two-day meeting in the University Center, the Council's General Assembly also:

- Adopted a spending budget for 1969 of $152,027 by nominal reduction from the 1968 budget of $154,007.
- Extended a social action task force and broadened its operations to include cooperation with similar groups from the state's six Roman Catholic dioceses.

Voted a long range planning program to include a "high level consultation of all Christian bodies" in Illinois to consider the needs of the world and Christian response, a study of the council structure and interested commissions and consultation with other church councils in the state to determine meaningful conciliar relationships.

American candidates adopted by the 225 member General Assembly were those:

- Poverty—a pledge to work for radical changes in the legal and welfare systems to benefit the less-fortunate, improved housing for the poor (including a comprehensive fair housing law in Illinois in 1969), adequate education programs for all and adequate pay for public service employees.

- Racism—a resolution "to bend our will away from racial prejudice and material conflict toward reconciliation with people of all races."

The first orientation meeting 

First harpsichord major at SIU to present graduate recital Jan. 26

First in line to complete a harpsichord major at Southern Illinois University, Mrs. Frances Bedford, in the Department of Music, will be presented by the department in its public recital on Saturday, Jan. 26.

Bedford, a graduate of the University of Missouri, mother of three grown children and Weissel of an SIU doctoral student, began her studies on this 15th century instrument about a year and a half ago, when the University acquired its concert harpsichord.

A number of students have studied harpsichord under Wesley Morgan, professor and musicologist, but Mrs. Bedford, who hopes to complete the master's degree in June, will be the first to complete degree requirements.

At her concert, to be given at 3 p.m. in the Diercke Building conference hall, Prof. Morgan will join the performance of the JS Bach "Partita in C Major" and "Toccata all' Amicizia" by Vittorio Rieti.

"Most of the music for harpsichord in the Baroque era," Mrs. Bedford explains, "is of special interest in the instrument music."
Then we were soaring into the clouds...

By Mary Fraser

Staff Writer

What would it be like? Could I do it? Was I scared? Did I want to change my mind?

Before I could find answers to these questions, the controls of the aircraft, Cessna 172, were turned over to me.

I had been invited by a member of the SIU Saluki Flying Club to a 45-minute flight, with 15 minutes at the controls, over the Carbondale and Marion areas on a Saturday afternoon.

Piloting the plane was Carson Greene, sophomore from Evanson, Ill., who received his private pilot's license through the Club, Little League.

Routine steps and precautions taken on the ground before the plane was taxied to the airfield would amount to an extremely thorough safety inspection in a car, I suspect.

The first step in preparing to put a plane in flight actually involves standing on the runway as the plane decides apparently at its own discretion to soar off into the air.

Other thậps mentioned in the top ten of the respective events are Peter Seter in the breaststroke, Steiner in the 500 yard freestyle, Bob Schoo in the 200, and Schoo, Tim Haxton and Dasch in the 100.

The 400 and 800 meter freestyle relay teams also rank among the top ten.

Coach Ray Ealick said these results are "extraordinary," and "only a result of the hard work put in by the swimmers and coaches over the season."

SIU swimmers Bruce Steiner and Vern Dasch are listed as having achieved the second fastest times in the nation in the 1000 and 200 yard freestyle respectively, by the statistics compiled by "Swimming World Magazine."

Improvements in Technique

Other Salukis mentioned in the top ten of their respective events are Peter Seter in the breaststroke, Steiner in the 500 yard freestyle, Bob Schoo in the 200, and Schoo, Tim Haxton and Dasch in the 1000.

They were Greene's comments as he went down the check-list. I was certainly relieved everything met with our pilot's approval but I wasn't even sure yet he was talking about a plane.

Getting ready for take off, I reached for my safety belt and braced myself only to "relax" again during a slight delay due to plane traffic.

Finally, we were off, taxiing down the runway at what seemed a phenomenal speed—65 miles per hour. Then we were soaring into the clouds a smooth take off.

When my turn at the controls came, I was certain we would descend on not so smooth a flight, just as fast as we had come up. For some reason, all went well and I was maneuvering the plane in mid air.

I relinquished the controls as we prepared to land. We touched earth with the same ease as we left her, decreasing our speed slowly to touch the runway evenly and glide back to our parking place.

My flight was a preview of similar air excursions to be offered to students, faculty and staff by the Saluki Flying Club.

Area H of the University Center to offer students an opportunity to sign up for a 45 minute flight, including 15 minutes at the controls, for $4.

SIU women's cage teams win at Eastern for 8-0 record

The Paducah Junior College Indians, ranked 15th in the nation, scalped the Saluki freshmen cagers 86-66 Monday night at Paducah.

John Garrett led the Salukis with 31 points and a perfect percentage on the charity stripe, nine for nine.

Judo Clubs takes a first

The SIU Judo Club came away with a first and a third place in the first annual Floris-

rians Valley Community Col-

lege Judo Shilts, held Sunday to Florissant, Mo.

Paul Armeris, sophomore, took first place honors in the 160-pound and over Brown

Belt competition, and Drew

Wickham took third in Brown

Belt lightweight division, fail-

ing to Scott Davies of Bell-

ville, eventual winner of the
class.

Making the trip, but no scoring were Henry Armenta and Hito Saito.

According to Paul Armeris, the meet had more than 300 competitors, most of whom

attended a Judo clinic held in Florissant on Saturday.

The instructional clinic was conducted by six degree black belts from the Chicago area,

and Joseph Saccaron, third degree Black Belt and holder of national records.

The club will send representatives to the Collegians National in Newark, New

Jersey in April and to the Midwestern Regional in Chicago in March.

Coach Ray Essick’s swimming

squad extended their dual meet record to 3-0 Saturday by giving the 100 and 200 yard

medley relay team a record (3.45.5) and by Peter Seter in the 500-meter breaststroke

(2.20.1).

Bob Shobs was the only dual winner, capturing the 100- and 200-yard freestyles.

Other Saluki winners were Scott Cochran in the 100-yard freestyle, Tom Ulrich in the

200-yard backstroke, Tim Hixson in the 100-yard breaststroke, Peter Reid in the

200-yard individual medley and

Henry Hays in the 200-yard backstroke.

"Right now we are where we

want to be and anyone that stage of the season," stated Coach Essick.

Homer Sardina injured

By Mike Klein

Persistence paid off Saturday night as the Saluki gymnasts, who were nervous to a degree by more than 1.15 points, and were without the services of Homer Sardina defeated Iowa State 162.675 to 162.43.

Trailing from the outset, the Salukis lost Sardina when he was injured in pre-meet warmups. Sardina usually places about second in floor exercise and first in vaulting. Head Coach Bill Meade described Sardina's injury as 'possible torn or badly stretched ligaments of the right knee.' He added that Sardina will be lost for the year if the ligaments are torn since surgery will be necessary. If they are merely badly stretched, it will be lost for at least three weeks.

This was not only a very important meet for the now 3-1 Salukis but one that Sardina had been looking forward to for over a year. Sardina transferred to SIU from Iowa State and was thus ineligible for a year.

Because of his injury, Sardina was replaced only on the participants in floor exercise but Coach Meade had praised for Mark Randall, who competed for Sardina without any warmup in vaulting and garnered an 8.975 average.

The Salukis were also at somewhat of a disadvantage since Don Locke on parallel bars and Larry Lenie, entered only on the vaulting both competed while recovering from injured elbows. Locke came through with a 9.1 and Cloeckowski managed a 7.95.

Meade was also forced to withdraw Pete Hemmlinger from the floor competition because he had suffered from the flu all week and was not up to par physically.

Meade said he felt that Hemmlinger would be able to do better in the near future and would be more valuable in "other events where he could help us more." While competing in every other event, Hemmlinger did a 9.3 on high bar, a 9.15 on parallel bars and a 9.1 in floor exercise.

Because of the injury, Meade called the "fastest team performance on one event in my 14 years at Southern." The Salukis were able to catch and pass Iowa State during the high bar competition. The high bar team made up the 1.15-point difference by netting 118.26 compared to 117.115.

Turning in outstanding performance for the Salukis were Sue Smith with a 9.4, Hemminger with a 9.3 and Mark Davis whose 9.6 won the meet for the Salukis. Mark Davis gotten anything less than a 9.4, an excellent score in itself, SIU would have lost.

Other fine performances were turned in by Ron Alden with a 9.3 on side horse, and Wayne Borkowski who won still rings with a 9.1.

A visibly disappointed Edward Gagnet, head coach at Iowa State, said that although his 'boys were up, they were beaten by a better team.'

This express praise for Dennis Mazur, Dave Butzner, and Frankie Sarnoff.

With a team that has only one senior, two sophomore and the rest freshman, Gagnett said he felt that they were definitely molded into a national championship team within the next two to three years. Relating the team will be Mazur, who, although only a freshman, won the parallel bars at the Midwest Open, the Eastern National Gymnastics Clinic and the Big Eight Invitational.

The walls came tumbling down for the SIU wrestling team Saturday night as they were overpowered 35-4 at Kishwaukee College, suffering their first loss in four meets in the process.

 Ranked fourth in the nation, the Spartans completely dominated the me, allowing the Salukis only two draws at the 113-pound class with Mike Zuwerg and at 167 with Aaron Holloway.

Both men managed 4-4 draws against their opponents.

The Salukis were victorious Friday night, handing Eastern Michigan State an almost identical loss 30-9. The meet featured five pins by the Saluki grapplers.

Winners by pins at Eastern Michigan were Tony Magon (130), Loren Vantreese (145), Rich Casey (152), Holloway (190) and Ben Cooper (177).

"Michigan State was the best coached and physically fit team that we have met this year," Coach Linn Long said. "I think that the boys would like to weigh in and wrestle them again tonight—and I think that maybe the scores would change."

"I don't think that we got whipped because we didn't try," Linn added. "We were too tight—too tight from trying too hard or maybe it was fear, but I'd like to think that in 90 per cent of the cases it was from trying too hard. They made us wrestle their style, and took advantage of little mistakes that we have been getting away with before."
