Storage permits to be handed out on need basis

DECATS: Parking Division to change the way green stickers are handed out to students.

Paul Teoh
DAILY EGYPTIAN REPORTER

Green storage parking permits will not be issued on a first-come, first-serve basis for the 2009-2010 decal year as was the case last year.

Green storage permits will once again be available only to freshman and sophomore students who reside on campus and are eligible for a red overnight parking decal. Green storage permits are issued to students who reside on campus and are not eligible for a red overnight parking decal.

According to the Parking Division, legitimate need includes an academic major or documented situation that requires attending classes off campus, service in the National Guard or Reserves, documented off-campus employment and special need with approved documentation. Exemptions are not granted automatically and availability is not guaranteed.

The deadline for applying for an exception is Aug. 3.

Marilyn Hogan, coordinator of Parking and Traffic, said the Parking Division is merely returning to its original policy.

"Last year was just a trial run with the first-come, first-serve basis," she said. "It created a lot of problems. There were students who had jobs who couldn't get decals.

Hogan said the original policy is the fairest system because it is based on need.

"This is not comfortable, but we've had a great deal worse situations in past years."

The heat has been responsible for deaths in the U.S., 22 people in Louisiana, nine in Missouri and about 150 in Oklahoma, and one each in California, Arizona and Missouri. The Northeast is the next area expected to suffer from miserable temperatures.

The National Weather Service forecast near 100-degree temperatures for Tuesday with an afternoon heat index of 105 to 115 degrees. Wednesday's forecast calls for a chance of thunderstorms, so do forecasts for Thursday and Friday.

A Carbondale Memorial Hospital spokesman said Monday afternoon there had been no heat-related deaths there during the past week. The heat that emergency room personnel had treated "a couple" of heat-related illnesses Monday afternoon, but said the hospital does not officially track such illnesses.

Portions of the SRC Communications Building were without air conditioning during the weekend and Monday after a malfunction caused some air conditioning systems to quit. Harry Warr, director of the SRC Plant and Service Operations, said the University will comply with any requests from AmerenCIPS if it becomes necessary to reduce the electrical load to avoid power outages.

"They haven't asked us directly to do that last day or two, but it certainly wouldn't surprise us if we had to do that," Warr said.

"As soon as we get a call from CIPS indicating that we need to start reducing the load that we have, we do that, which means we'll shut fan systems off, and it'll get warm in the buildings."

Ed McDowell, spokesman for A Carbondale Memorial Hospital spokesman said Monday afternoon there had been no heat-related deaths there during the past week. The heat that emergency room personnel had treated "a couple" of heat-related illnesses Monday afternoon, but said the hospital does not officially track such illnesses.

Sheriff's department pondering ways to save money

$55$: Placing ads on squad cars one idea Jackson County officials have to defray costs.

CASSIUS MANNING
DAILY EGYPTIAN REPORTER

Sheriff's department pondering ways to save money

The Jackson County Sheriff's Department is considering advertising for local companies on squad cars in exchange for services or money in an attempt to make better use of funds and defray costs.

Jackson County Sheriff Bill Kilquist has approached two cellular phone companies, proposing that they advertise on the outside of squad cars in exchange for free or discounted police air time for all squad cars. He said one company expressed interest and said it would pick up the cost of painting the advertisement on the vehicle.

"You can't become complacent and think that you're going to get along, because you can't," Kilquist said. "Everything is costing more and the resources are just not there.""Defraying the amount spent on cellular phones would allow the department to spend that money on other things to make their services more efficient.

Kilquist said he has also considered advertising for alarm or construction companies, but he said he does have boundaries. He will not advertise for alcohol, tobacco, guns or to anyone with a felony record.

"It might at first sound offensive to some people, but we're getting eaten up with rising cost and dwindling resources and we've got to try some different things and go out and do some different hustles," he said. "It is no more offensive to see the Nike logo on college and high school jerseys, he said. "The difference is that Nike is trying to further its image and the game when we do this in this case the department is trying to provide the best services for its resources."

"Unless they're standing in my shoes and sitting in my seat and trying to run this organization, they shouldn't have a gripe," Kilquist said.

Kilquist said they are looking to provide...
JUST PEACHY: Farmer's Market vendor Lorene Lingle (left) helps customer Leiloni Ahino; a graduate student in psychology from Hawaii, pick out the perfect peach Saturday during the Customer Appreciation Day at the Carbondale Farmer's Market.

SATURDAY SPECIALS: Fresh, handpicked goods available for 23 years at Farmer's Market.

Lorene Lingle greets customers with a smile when they approach her tables of home-grown tomatoes, home-baked goods, and homemade crafts at the Carbondale Farmer's Market in the Westmen Mall parking lot every Saturday morning from 8 a.m. to noon.

Lingle has been a Farmers' Market vendor for 23 years and is the only charter member. She describes the Farmers' Market as a "big family." "People enjoy coming out to visit," she said. "And they can get things cheaper and fresher." The Farmers' Market started in 1975 with five farmers selling their produce. It was started by a conference sponsored by the Hunger Action Program of the United Church of Christ in a response to hunger problems. Today it has grown to 26 farmers, and features art and crafts vendors.

ART: Sweeney, an SIUC alumnus from Carbondale and Farmers' Market president, has been selling organically grown vegetables, flowers and herbs at the market for 15 years. "The flavor and quality of produce is the best people can get in the area," Sweeney said.

This Saturday, the market showed its customers how important they think they are by celebrating Customer Appreciation Day. Vendors wanted to let the customers know they would not be able to make a living without them.

Customer Appreciation Day is a good promotional effort," Sweeney said. Customer Appreciation Day is special because live music is played and prizes are given away. Customers can sign up to win a basket of variety produce from each vendor.

Amy Wu, an SIUC student in management from Taiwan, is a regular customer of the Farmers' Market. "I came to enjoy the music and win prizes," she said. "I like the fresh vegetables and fruits sold at the market."

Winters said, "I think the process will be much smoother now." Winters said the administration and the faculty were very much aware of the sites and the things that are changed by the contract. The contract was written to try to avoid any interpretation problems, but that isn't guaranteed, Winters said.

"Obviously we are careful to say every possible problem that might arise during the interpretation process," Winters said. "We wrote the contract to try to avoid problems, but it doesn't always work the first time."

Winters said they will make true of any problems that arise during the interpreting process and those problems will be considered when the next negotiations begin.

The action by the Board of Trustees closes more than a year of negotiations. The sometimes contentious negotiations brought two visits from federal mediations, an initial labor practice charge, an informational picket and the threat of a faculty strike.

The contact offers a compensated financial package involving lump-sum payments, across-the-board adjustments, and merit pay increases which will provide an average 13 percent increase over the three year duration of the contract for about 740 tenured and tenure-track faculty.

The contact also contains provisions for a new grievance procedure ending in binding arbitration and greater levels of shared governance.

SARA BEAN
DAILY EDITION REPORTER

The SIU Board of Trustees' Executive Committee approved the contract agreement late Wednesday spelling the end to sometimes turbulent collective bargaining negotiations for a faculty contract.

The committee approved the contract after the faculty association approved it earlier Thursday. The faculty approved the proposed contract by an overwhelming majority of 50 percent in favor. Eighty two percent of the eligible faculty voted.

The action by the Board of Trustees closes more than a year of negotiations. The sometimes contentious negotiations brought two visits from federal mediations, an initial labor practice charge, an informational picket and the threat of a faculty strike.

Lawmakers discuss school violence policies

**CONCERN:** House members form statewide campaign to try and solve recent problems.

**ALICE JOHNSON**
**DAILY EGYPTIAN REPORTER**

After several horrific examples of school violence in neighboring states, legislatures met with school, police and social service officials as one part of a statewide campaign by House Republicans to discuss school violence within communities.

State Representatives Ron Stephens, R-Troy, Mary Lou Cowlishaw, R-Naperville, Brent Hassert, R-Romeoville and Mike Bost, R-Murphysboro, attended the meeting. Members of the police force, school officials and social service officials voiced their personal observations and experiences in dealing with troubled youths and camaraderie.

Representative Brent said House Republicans will work on legislation concerning school violence when they go back into session in the fall.

"A lot of this right now is collecting the information, so that as we move forward we can be as well-informed as possible to see what legislation needs to be done so we don't blindly go out and create legislation in a reactive mode," Bost said. "But we would actually do something that would help the local communities."

Phil Trapani, Principal of Murphysboro High School, said dealing with school violence is a responsibility schools share with communities.

In 1995, Thomas Johnson used the Internet to display some of information quicker than libraries that students may have missed in class or even study guides to future exams. The Individualized Learning Programs in Continuing Education use the Internet to display some of their independent studies. Students can get access to courses they may need to take over the Internet and communicate to the professors through e-mail.

"In my experience there has been a tremendous growth in just a couple of years," Johnson said.

The dominant reason why people use the Internet is that there is a vast amount of information that can be accessed easily and cheaply.

Johnson usually requires his classes to sign up for a Listserv. A Listserv is a group e-mail. A Listserv allows Johnson to send the students messages or the students can send messages to each other.

OVER ONE MILLION OF THE BEST MINDS IN AMERICA HAVE ALREADY CHOSEN THE BEST RETIREMENT SYSTEM.

TIAA-CREF.

When it comes to planning a comfortable future, America's best and brightest count on TIAA-CREF. With over $200 billion in assets, we're the world's largest retirement company, the nation's leader in customer satisfaction, and the overwhelming choice of people in education, research and related fields.

The reason? For 80 years, TIAA-CREF has introduced intelligent solutions to America's long-term planning needs. We pioneered portable benefits. We invented the variable annuity and helped popularize the very concept of stock investing for retirement planning.

Today, TIAA-CREF's expertise offers an impressive range of ways to help you create a comfortable and secure tomorrow. From the guarantees of TIAA's top-rated Traditional Annuity to the additional growth opportunities of our variable investment accounts, you'll find the flexibility and diversity you need to help you meet your long-term goals. And they're all backed by some of the most knowledgeable investment managers in the industry.

To learn more about the world's premier retirement organization, speak to one of our expert consultants at 1 888 219-8310 (8 a.m.-11 p.m. ET). Or better still, speak to one of your colleagues. Find out why, when it comes to planning for tomorrow, great minds think alike.

Visit us on the Internet at www.tiaa-cref.org

Ensuring the future for those who shape it.

*Based on a survey of 2000, and in 1997 by an independent organization in which 96.7% of respondents expressed overall satisfaction with TIAA-CREF.

**TIAA is one of only a handful of companies that regularly hold the highest marks from the nation's leading independent rating agencies for reliability, soundness, safety, creditworthiness, ability, and overall financial strength. AA = A.M. Best Co., A.M. Best Co., Inc.; Moody's Investors Service; Standard & Poor's. TIAA-CREF is not banked.

In plain-English policy. These surveys are of TIAA as an insurer company. See all CREF-CREF certificates and insurances in all TIAA. Final exams are conducted by TIAA/CREF Individual and Institutional Services. For more complete information including charges and expenses, call 1-800-842-0723, extension 2185, for the prospectuses. Read them carefully before you invest or send money.
**WORKER continued from page 3**

He said he doesn't anticipate any problems with power plant operations or transmission systems.

"Unquestionably, with Monday's very warm and humid conditions we are expecting very high usage, but we expect to supply the power required by our customers," he said. McDowall said there have been no heat-related power outages in the Carbondale area during the past two to three years.

**MONEY continued from page 1**

"One easy step to take is to replace salt and minerals lost during sweating by drinking sports drinks and juices; • avoid strenuous activities during the hottest hours of the day," Horsley said. The American Red Cross recommends that students take precautions or other heat-related illnesses by adhering to the following tips:

- drink plenty of cool water, two to four glasses an hour;
- wear light clothing, hats and sunglasses to protect your skin.

Horsley said there have been 135 days since 1900 that have had temperatures higher than 100 degrees. The hottest day on record was in 1954 when the temperature climbed to 117 degrees. But he notes that this decade was 103 degrees on Aug. 18, 1955. Horsley said the temperature this year has yet to hit 100 degrees.

"Somehow in our mind, 100 degrees is a special mark that is noticeable," Horsley said. "We sweat at 76 or 79 Monday morning, but in terms of high temperatures, everyone was around 98 to 99." Kilquist said.

The seats will be rebuilt, the floors re-carpeted and the car can be returned to a like-new condition for half the cost of a new vehicle.

Kilquist said the budget would have allowed these new squad cars, but with this program six can be refurbished.

Shawnee Motors in Michigan will fix the cars, but Kilquist talked with local companies to give them a chance and keep the money in the county.

Ideas for money saving measures are shared at national meetings of small town police chiefs and sheriffs.

We're always looking for bigger bang for the buck," Kilquist said.

RAiders sign draft choice

WASHINGTON POST

NAPA, Calif. — The Oakland Raiders have called a news conference to announce the signing of Heisman Trophy winner Charles Woodson, ESPN is reporting.

Woodson was the No. 4 overall draft pick and would become the highest draft choice to sign to a four-year deal.

Primarily a cornerback, Woodson also played receiver and punt returner during his Michigan career, becoming the first predominantly defensive player to win the Heisman Trophy.

When he was drafted back in April, Woodson said he wanted to play more than just corner for a while.

Oakland had the NFL’s worst defense last season, in large part due to problems in the secondary.

To go make an extra buck while... walk away. The remarkable easy win in a car owned by her stepmother, Teresa, moved the 23-year-old, third-generation driver to the front of every statistical category in Busch Grand National.

She took only about the first three of 110 laps, after positions had been detoured to play college basketball, eventually will over world records in the 100, 200 and long jump but will... 300 at California Speedway... the 100 race and the flat mile in Milwaukee.

Raiders sign first-round pick

Wooden to contract.

**Men's Basketball**

SIUC signs third new recruit of '98 off-season.

Saluki men's basketball coach Bruce Weber signed Glaucius McCreary last week. McCreary is the third signee by Weber this month.

The 6-foot-4 shooting guard out of Los Angeles Valley College immediately will be the point guard for SIUC. He hit 45 percent of his three-point attempts and averaged 17.4 points a game in his two years at Los Angeles Valley College.

The signing of the shooting guard could be the last recruiting point guard Brandon Noll from Memphis and Ricky Gutium from Kankakee Community College.

White Sox outfielder Belle in trouble with law

Chicago White Sox outfielder Albert Belle was arrested and charged with assault on Sunday night. The arrest stems from an incident in a Chicago suburb two years ago.

Belle posted $100 bond and was released Sunday night. The incident coincides with Belle's most productive period of the season. The 31-year-old Belle is hitting .307 with 12 home runs and 39 RBIs. His numbers run 12-11 in games since the All-Star break.

The latest incident is another in a line of alterations for the volatile outfielder. Belle reached an out-of-court settlement last month with the跨州的cross country and track team from 1989-94. Belle was a three-sport athlete and was named twice to the all-conference team in cross country.

Reed had his best showing as a sophomore when he placed in the top five at the Missouri Valley Conference Cross Country Championships.

The Saluki coach said Reed deserves the promotion and has shown her loyalty.

"I gave her full responsibility of the distance runners and the kids responded real well," DeNoon said. "She has been right there with us as an athlete and continues to do that for us."

**NEW PERSONAL:**

Leann Reed takes over spot once reserved by Tina Debro.

Former Ranger coach named to top position

Former New York Rangers coach Colin Campbell will replace Brian Burke as the head coach of the Arizona Cardinals and president of hockey operations.

Campbell coached the Rangers from the beginning of the 1980s to the end of last season before being fired midway through last season. Campbell also served as an assistant coach for the Rangers and was head coach of the club's American Hockey League affiliate in Binghamton, N.Y. Campbell will also assistant coach for the Detroit Red Wings the last five years.

Campbell, 45, played 11 NHL seasons with Pittsburgh, Colorado, Edmonton, Vancouver and Detroit.

SIUC's Cycling Club has spent grueling hours pedaling through Southern Illinois trails and terrain. The thousands of miles and sweat that day. I thought maybe I could give the team an edge at upcoming relay and race events.

The club is preparing for a 12-hour relay at Pelos Park in Chicago. The mountain bike race will in three main teams and the team that accomplishes the most laps will prevail.

Mike Tripp, club president and medical school student at Southern Illinois University, said the team is confident the team will do well in Chicago.

"It will be long and interesting," Tripp said. "We have a good team and we have been consistently riding, trying to get ourselves acclimated to the heat."

Tripp said the training also consists of climbing hills to build endurance. Since the relay is on mountain bikes, it will be more difficult and will demand more endurance.

Three members Tripp, Todd Shaw and Julie Matuson, a graduate student in physiology from Los Angeles, are participating.

The team is getting ready for the Collegiate Mountain Bike Series races which start in September. Tripp said the team will compete in at least three races in the Midwest series.

"I hope to get some members do some of these races," Tripp said. "Maybe together we'll do well in Chicago."

**Advertisements ruining purity of sporting world**

T

That old saying, "Everything has its price," is true these days because for the right amount you can get anybody to sell anything, and the world of sports is not the best market.

On a recent evening to see a football game, I was slipped in the stands. I was trapped in an obsession of making as much money as possible.

I counted five instances where companies compete against each other both advertised side by side, such as Target and Walgreens. The right amount you can get the Cardinals are going, "you might be seeing advertisements on the players' uniforms."

How would you like to see a great big Budweiser advertisement on the back of a Cardinals jersey? Big Budweiser would like to advertise.

The perfect ad for McGwire. I'm picking on the Cardinals, but I will admit that they are by far not alone in this prostitution of America's finest form of entertainment. Just a couple of weeks ago, the grandaddy of all of them, the Rose Bowl sold out to AT&T. The bowl game, which is one of the biggest college bowl games yearly, having to give into the corporate sponsorship, will be known as the Rose Bowl presented by AT&T.

It's bad enough that I have to wake up on New Year's Day with a hangover, but now this year I watch my favorite football game.

I want to know how AT&T can actually represent the Rose Bowl. Are 35-year-old operators going to play offensive line for Michigan, while the out-of-state telephone requirements play defensive backs for UCLA?

The National Hockey League has advertisements directly on the ice. In every sport there are at least a handful of arenas or stadiums that are named after corporate sponsors.

We're a pretty small team compared to other universities, but we still do very well. We're a tight group and are always trying to help each other improve.

Matuson has participated in the races in the past and is looking forward to the Chicago relay and the fall season.

"The competition at the races is good," Matuson said. "So much effort and time goes into preparing for races."

Matuson said year-long road trips preparing beginning cyclists to move up to mountain bikes, cross-country and keeps the advanced cyclists in shape.

"A good way to start is real-realy riding because once you get up to mountain biking," Matuson said. "That way you'll be better trained and fit."

"We're not alone in this prostitution of America's finest form of entertainment. Just a couple of weeks ago, the grandaddy of all of them, the Rose Bowl sold out to AT&T. The bowl game, which is one of the biggest college bowl games yearly, having to give into the corporate sponsorship, will be known as the Rose Bowl presented by AT&T."
