Student Senator to Ask For Legal Inquiry Funds

The Student Senate will be asked Wednesday to appropriate $1,000 possibly to finance a test case on the legality of University housing and vehicle rules.

A bill to be submitted by Senator Jerry Finney proposes to establish a special committee to investigate the possibility of lodging a suit against the University. Finney says he hopes the committee would consider hiring a lawyer or seeking help from the American Civil Liberties Union.

Test cases also would have to be solicited by the committee, Finney said.

The Student Senate at Edwardsville said in a bill passed 6-4 last week that it believes housing rules for those over 21 are in violation of rights of individuals.

A separate bill at Carbondale authorized two senators to seek legal aid which could be used if necessary to change the rules.

Expenditures for legal aid would have to be approved by the fiscal officer for the Student Senate, who in turn would be the Student Senator representing the student activities.

Giannelli could not be reached for comment as to whether existing budgeted funds would cover such an expenditure.

The Action Party executive committee passed a resolution Monday night endorsing the proposed bill and urged the Senate to give its full consideration to the matter.

Not All Cabs Post Rates, Reporter's Inquiry Shows

By John Durbin

Despite a city ordinance which requires all taxicabs operated in the city of Carbondale to have a map of the city and their zone fares posted, not all of Yellow Cab Co.'s 12 taxis do.

According to George Fleerlaje, city attorney, Section 21 of City Ordinance states that: "There shall be conspicuously displayed in each taxicab operated in the city a map of the city clearly indicating the various zones and fares to be charged for each zone."

The inquiry regarding the zone charges arose after a number of reports were received by the cab company parking lot and the reporter observed that neither a map of the city nor a list of the zone fares was posted.

Asked if the map or zone fares were posted, the driver replied, "Not in this cab." Yellow Cab Co. is one of two taxicab firms which have asked the Carbondale City Council for permission to increase their rates. A special committee of City Councilman Joseph Ragdalle will hear evidence presented by the companies as soon as it is compiled.

According to Ragdalle, the evidence from the cab companies has not as yet been sent to him.

Edward James, manager of the Yellow Cab Co., had previously told the reporter that the zone fares and maps in the city were posted in all of the taxicabs.

Later, James admitted that some of the maps and zone fares had been turned over and the company was unable to replace them because the city had not sent them more maps and zone fare posters.

According to Fleerlaje, city ordinance 1327 does not require the city to issue maps and zone fare posters to the cab companies. He said that the city may be issuing them to the cab companies despite the fact it is not required by law.

The city ordinance, which makes no mention of whether baggage, bags and packages may be charged to the passenger's fare, likewise does not state that the cab companies must post the rates charged for percent.

Philip Kemmel, president of Yellow Cab Co., said that the parcel rates which are assessed passengers will not be posted in the taxicabs. "We're not going to and we don't have to," he said.

Bill Vivan Parmer, dispatcher for the Home Cab Co., said that all the taxicabs had the maps and zone fares posted as of the first of last week.

She said they may not all be posted now because some are torn out, William Reid, owner of the cab company, was out of town and unavailable for comment.

Student Board president Ray Lenzi, and that he wanted to know what enthusiasm and intelligence directed towards some worthwhile project.

The next meeting between the two groups will be held in Feb., 13 at 3 p.m., by city hall.

Senator Jerry Finney said he thought the meeting was profitable. He said the Senate established a rapport with the city officials.

Gus says he was doing all right until he signed his section appointment card on the back and cashed it.

Police Chief Jack Hazel said that according to Webb's statement, Fligg refused to leave. Webb said he walked around the bar and picked up a .32 caliber pistol from under the bar on his way to put Fligg out.

Witnesses said they saw the two men leave but could not see either of them at the time of the shooting, Hazel said.

According to Webb, Fligg grabbed him and hit him. Hazel said Webb said he shot the other man in self defense. He has not reported him on a complaint below an eye.

Witnesses said Webb came back into the club after they heard the shot, then left. Hazel said Webb walked across East Main Street to the Police Station and reported the incident.

Hazel said Fligg was alive at 9:10 p.m., when the police arrived and was taken to Doctors Memorial Hospital where he died at 10:38 p.m.

The chief said the gun Webb said he fired was found in the kitchen of the club.

The VFV club, has had its charter suspended until the investigation of the local club has been completed by the VFV district commander.

A Look Inside
**Motorists Eye Speed Limits**

*As City Begins Radar Patrol*

More Carbondale motorists are driving at the proper speed limits since the city's new radar unit went into operation last month, police officials say.

They report fewer speeding tickets have been issued during the past few weeks than before the radar unit was first put to use.

From Dec. 16, the day the city began using radar, to the end of the month, 10 speeding tickets were caught, but so far in January only 38 tickets have been handed out.

Richard Wilhelmy, Carbondale public safety director, said that speeding, particularly along Mill, Wall and Walnut Streets, where the radar unit patrols most frequently, has declined noticeably in recent weeks.

Just because local drivers have eased up on their accelerators, the police are not necessarily going to reduce the use of radar. Chief Jack Hazel said the unit will be used as an aid in conducting traffic studies, Hazel said.

**No Charge Filed Following Fight**

Police said no charge has been filed in connection with a fight reported Jan. 19, involving four Carbondale High School youths aboard a school bus.

Chief Jack Hazel said one boy was treated at Doctors Hospital after the incident. Hazel refused to release the names of the youths involved because of "their ages."

"Puppets of Kinosuke"

Creative Person will feature "The Puppets of Kinosuke" from Japan at 8:30 p.m. today on WSIU-TV, Channel 6.

School Commission

Meeting Rescheduled

A meeting of the Illinois School Problems Commission has been rescheduled for the morning of Feb. 23 in Morris Library Auditorium at SIU. The subject was the formation of a Winter Academy and the need for extension services. The meeting will be rescheduled to 8:30 a.m., Feb. 23, in Room H of the University Center.

Reasons Cited for Omission of Names

The omission of some students' names in the 1967-68 student directory may be due to one of two reasons, according to Earl Parkhill, head of Central Publications.

Parkhill said that one reason why some names did not appear was probably because some late registrations were not processed until after the cut-off date for publication.

The other reason may have been due to some students' inability to fill out the necessary IBM cards properly, Parkhill said. He said that only students' cards that are properly filled out are sent to Data Processing where the directory is published.

He doubted whether an omission of names may have been an oversight by an office worked a significant role in the absence of names in the directory.

Language Analysis

Topic on WSIU(FM)

Topics to be discussed on the BBC Science Magazine on WSIU(FM) show range from language analysis by computer to the problem of foot and mouth disease.

Other programs:

10 a.m. - Pop Concert.
12:30 p.m. - News Report.
2:05 p.m. - Search for Mental Health: Dr. Alexander Weech will discuss "Narcotics Addiction."

English Students

Set London Trip

This summer, a group of SIU English History students will fly to Birkbeck College at the University of London as a part of SIU's European Travel and Study Program. Courses in English Constitutional History and Twentieth-Century Britain will be offered by J. M. Haas of the SIU Department of History.

Edwardsville. Students will meet with spokesmen from British government and industry to discuss aspects of contemporary Britain. The group will leave June 17 and return August 27.

Further information may be obtained from University Extension Services, 113 Anthony Hall.

Rendleman to Talk

At Potluck Dinner

John S. Rendleman, vice president for business affairs, will be featured speaker at a meeting of the SIU Newcomers' Women's Club at 6:30 p.m. Thursday in the Home Economics Building lounge.

The meeting, which is for first and second year Newcomers, will include a potluck dinner.

Chairman for the event is Mrs. Dick Towers. Members are asked to bring a covered dish for ten and their own table service.

American and Russian Rebels

From the Christian Science Monitor

"Sweden grants sanctuary to four American deserters who jumped ship in Japan to protest the Vietnam war."

"Trial of four young dissidents opens in Moscow."

Here are two separate developments, reported in the same day's newspaper, each involving young men bitterly out of sympathy with the policies of their respective governments. To add to the significance, those two governments are the most powerful and influential on the globe's face, each being one of the world's two military and economic superpowers.

Yet, should he be quickly pointed out, neither foursome has joined "the other side," although the four American sailors did stop in Moscow, and did make strong statements against current American policy while there, in the end they wished to leave the Soviet Union. As for the four young Russians, there is no reason to think that they are non-American-Arabic or basically anti-Russian, however bold they may have been in protesting against the present lack of intellectual freedom within the Soviet Union.

Doubtless, there are many fascinating comparisons and conclusions which can be drawn from these simultaneous episodes. Three American writers whose work is particularly noteworthy are a) the similarity in depth of feeling which apparently animated the young Americans and the young Russians, b) the lengths to which each foursome was ready to go to make its point, and c) the degree to which both the American and the Russian public reject the methods chosen by the protestors. Clearly, there is a great deal that many of either American or Russian youth would endorse the actions of their contemporaries, each, in however exagerrated form, bespeaks the underlying frustration and concern of so much of today's youth.

The American course, however, overriding differences in the act of the young Americans and that of the young Russians. The former were rebelling against the decisions of an administration which they felt were amoral; the latter were protesting against the policies of their respective governments. To add to the complexity of the two sets of developments, there are ample avenues of lawful protest; the young Soviets were protesting against an administrative policy, democracy, where no adequate means of dissent are open, yet they have alternative channels for both developments, which cannot fall extra scholarships to any interested in today's youth.

Foreign Students Don't Need More Help

To the Editor:

More scholarships to foreign students attending SU was suggested in a Jan. 18 letter written by Peter Doeshi. He contended that these scholarships and any other considerations "would tend to enhance America's image" and would be "Investments in future foreign relations."

Actually these international students are already financially well off. About 300 of the some 800 of them have received some kind of US grant-in-aid. Although their parents don't pay federal or state taxes, they did pay the benefit of a publicly-supported university.

Why should we bend over backwards to assist foreign students into our state universities, while thousands of Americans don't have the opportunity either through lack of funds or lack of room in the colleges?

The reason is that it is traditional for the United States to play the role of Santa Claus, the air of American government in the last 25 years has been to buy the goodwill and friendship of other nations. It has appropriated billions of dollars in foreign aid and loans.

Foreign countries accept our generous help, but there is little gratitude or thanks said. In the same Daily Egyptian which contained Doeshi's letter was an article describing an Anti-US Japan newspaper with 200 supporters.

During the recent Israeli-Arab war, the Egyptian government showed open hostility to the United States, a neutral government. It has appropriated billions of dollars in foreign aid and loans, but there is little gratitude or thanks said.

An Editor's Outlook

The Church's 'New Militancy'

By Jenkin Lloyd Jones
General Feature Corp.

If fervor were the same as wisdom, and communion in the name of the God the same as friendship, then, Eastman says, the 16th century should have greatly enriched the soul.

Unfortunately, the altars were stained with honest blood and the inquisitions led men to hang with unprovable savagery.

The point should never be forgotten. The man of religion has no more right to take leave of his brains than the businessman on a trip. There is no heaven-sent dispensation for churchly idiocy. All human beings must be prepared to answer for their mistakes. The clergyman cannot demand absolution on the grounds that, if he loused things up, he did it in the interest of the soul.

In a recent issue of The Christian Advocate, the Rev. Charles M. Crowe, retired pastor of the Wilmere, Ill., Methodist Church, raises some questions concerning its plans for funneling $3 million into "organizations of the poor," part to be spent on "priorities they, themselves, have set."

While the church says it will give nothing to groups which advocate violence, it adds: "neither the Episcopal Church nor the Executive Council of any of the missionary groups which advocate violence, it adds: "neither the Episcopal Church nor the Executive Council of any of the missionary groups which advocate violence, shall undertake to exercise any surveillance or control whatsoever on any group once made, or the administration and execution thereof by the recipient, or the recipient's purposes sought to be attained thereby."

Hmmm...

"Priorities of the poor!" has a fine alliterative ring. But in riots there seem to be more liquor stores broken into than bookstores.

Father James Groppe, the Pied Piper of Milwaukee, is certainly leading his children around in vigorous marches. But marching is not enough. The direction of the march is a proper public concern. Does it lead toward the promised fairland or just into the mountain rush?

Mr. Crowe, however, is as legitimate as the Church Contemplative. Jesus drove the moneychangers from the temple. But his militancy was both reasoned and selective. He didn't drive everyone out of the temple or burn the temple down to clear it. In his quest for social justice, some churchmen come up with double standards of behavior that produce hatred and backlash on the one hand and violence and irresponsibility on the other, they cannot plead innocence or account of deep spiritual feeling. No one has a right to rip up the fabric of society and law in an activism that may be essentially an effort to exercise one's own personal devils.

The sociological theories of a church leader are just as subject to public examination as those of any other influential citizen. Zeal is less worshipful than common sense.
The GOLDEN BEAR IS OPEN

The Golden Bear Restaurant and Pancake House cordially invites “you” SIU students and faculty to enjoy a delicious meal; served with speed and congeniality.

The atmosphere and menu are designed especially to suit your tastes. We at Golden Bear are proud to become a part of your SIU community and are looking forward to a warm relationship with each of you.

The Golden Bear Restaurant offers accommodations for business meetings, parties, etc.

Should you be unable to come to the Golden Bear personally - we are emphasizing our complete “carry out” service. Just pick up your phone and your order will be ready when you arrive at the Golden Bear Restaurant and Pancake House, corner of Wall and Walnut Streets.

You’ll like these hours...
Mon. - Thurs. 6 a.m. to 1 a.m.
Fri. - Sat. 6 a.m. to 3 a.m.
Sun. 7 a.m. to 1 a.m.

We’re located at...
Wall & Walnut Streets
(Across From Eastgate Shopping Center)
Was It Really a Crime?

Saluki Suspect Unidentified

Local law enforcement officials seem to agree that the latest robbery of the Saluki Curren at Exchange at Campus Plaza, is most unusual.

A suspect, described to police as a "little old lady" allegedly walked into the exchange Jan. 17, handed the cashier a note telling her to "put all your money in the bag and hurry."

The robber left the exchange with $1,100 in the brown paper bag.

Carbondale police had one suspect from a composite drawing made by the State Police, but the cashier at the exchange was not able to make positive identification, Police Chief Jack Hazel said.

Hazel said Monday, however, the department had another suspect, but the cashier has not had a chance to identify her.

Ella Fitzgerald Show Tickets

Available at U.Center, Arena

Tickets are still available for the Ella Fitzgerald Concert at 8 p.m., Sunday in the Arena. This may be purchased at the University Center Information Desk or reserved by Kaplan Plans Trip

Howard M. Kaplan, chairman of the Department of Physiology at SIU, will attend a meeting of the National Academy of Science in Washington, D.C., Jan. 26.

Kaplan is a member of the board of governors of Laboratory Animal Resources of the academy, calling Arena Ticket Office at 3-3541.

Miss Fitzgerald, queen of female jazz vocalists, will perform the songs of "three Ellas," Tupe, Siss, and Ella Ella, on the lessons of male jazz artists such as Duke Ellington will be sung by one Ella. Two new life will be given to forgotten Broadway masterpieces by a second Ella. In addition, contemporary selections will be offered by the Ella who swings.

A favorite among college students, Miss Fitzgerald will present "Outstanding Female Jazz Vocalist" on campus in 1964, 1965 and 1966.

Hazel said his department has the note the woman is said to have handed to the cashier.

He said the note does not threaten violence, but "there's little doubt that a crime was committed."

"I wouldn't even talk to the judge and jury," said Hazel, "to interpret the meaning of the note."

The chief said he had "never run into a case like this before."

Jackson County States Atorney. Richard Richman also called it an "unusual case."

Richman said that from the evidence he has received, there is "nothing to indicate a crime has been committed."

Richman said he had not seen the note but did not say what evidence, if any, he did have.

 Theta Xi Fraternity

Beta Delta Chapter

Theta Xi was founded April 29, 1864 at Rensselaer Polytechnic Institute, Troy, New York. Here at Southern Illinois University, Theta Xi was founded as the Gamma Delta Alpha in 1933 and became a charter of Theta Xi in 1951. Nationally, Theta Xi has over 35,000 members in 73 chapters. At SIU our membership ranges from 50 to 75 actives and pledges. We choose not to lose our strong bond of brotherhood or our identities by becoming larger. Therefore, we strive for the highest quality in our selection of members. This can be seen by the outstanding leadership on the part of the group and individuals for the fraternal system, the college, and the community.

The quest for Theta Xi is a quest for brotherhood. This is, of course, the cornerstone of every fraternity. Yet, brotherhood is much more than a mere definition of a word—especially at Theta Xi. How much more one can't be told; that's something only you can discover for yourself. It encompasses many feelings and meanings; close bonds of friendship, ideals, teamwork, social life—all of these and more will have a personal significance to you as part of Theta Xi.

In the present era of changing conditions, the fraternity will continue to serve a true and real purpose. The purpose and objectives of Theta Xi are centered around building men, and providing these men with a truly cultural, intellectual, and spiritual college home environment in which to live, work, and grow.

To some, Theta Xi means just another fraternity. Yet, to us who know, Theta Xi means a way of life, fellowship and spirit of brotherhood that extends far beyond the years of college life. We invite you to share this meaning with us.

Informal Rush Open House

When: Wednesday, Jan. 24; 7:30 p.m. to
Where: Theta Xi Fraternity, 114 S.G.H.
Who: Anyone interested in finding out about fraternities.
**U.S. Admits Cambodian Border Crossing**

WASHINGTON (AP) — The United States said Monday that a U.S. -Vietnamese military confrontation in Cambodia's border territory "will be one of the heart of battle" with Viet Cong allies in Cambodia.

The State Department said it sent formal regrets for any Cambodian casualties that may have resulted from what it called an "unintended" incident in the Cambodian border territory last Thursday.

Prince Norodom Sihanouk, Cambodia's chief of state, has said that the international war control commission investigating the violence of his border and the killing of three Cambodians during the fight, known as Westmoreland Warns Against North Vietnam Bombing Halts

SAIGON (AP) — Gen. William C. Westmoreland condemned the bombing halt in the bombing of North Vietnam after a weekend of sharp North Vietnamese attacks.

Westmoreland gave his views for showing by the National Broading Co. on Monday, and he said that a background of renewed calls for a halt in the bombing could be over.

President Nguyen Van Thieu spoke similar views Monday in a lunar new year message to Vietnamese living abroad. He claimed solicited recent attacks on North Vietnam have been a political strategy to keep up infiltration and attacks in South Vietnam.

Thieu expressed the belief, however, that the Communists had now found their strengths in the halt in the bombing. Westmoreland said the halt now was starting "to a point of political and military war," and will continue their dark schemes until the end of this year.

Thieu added: "But I think that the fighting will stop. Our forces have been able to gain advantages over the enemy." Westmoreland said that the halt was not an impact in North Vietnam. Westmoreland speaking of the ground, said the North Vietnamese have what he termed "considerable" artillery inside the demilitarized zone ready to hit allied positions along the North-South frontier.

"I think there will be considerable shelling of the demilitarized zone by the North Vietnamese, but I don't think they will be able to get through the Cambodian lines," Westmoreland said. "This will be a psychological victory for us and the Vietnamese promoters in South Vietnam will be able to continue the fighting." Westmoreland said he had seen the fighting and the North Vietnamese were being able to gain advantages over the enemy. Westmoreland said that the halt was not an impact in North Vietnam. Westmoreland speaking of the ground, said the North Vietnamese have what he termed "considerable" artillery inside the demilitarized zone ready to hit allied positions along the North-South frontier.

Supreme Court to Hear Case Defining Relation of Sex Behavior and Welfare

WASHINGTON (AP) — The Supreme Court agreed Monday to decide whether the states must make welfare payments to needy children even though the states labeled "substitute father" is living in the home.

The test case was brought to the court by Alabama after a federal court in Montgomery ruled that such regulations unconstitutionally punished children for the sexual behavior of their mothers.

U.S. Launches Lunar Module

CAPE KENNEDY, Fla. (AP) — A powerful Saturn rocket, which was grounded Monday for a second time because of an American message, apparently from President Johnson, lifted off from Kennedy Space Center and immediately set down the Krellin for substantive tests.

Neither British nor Soviet officials would specify what world problems were covered in the 90-minute opening meeting but Vietnam, Cambodia and the Soviet-American talks on missiles were known to be on the list of topics for Wilson's 51-hour tour of the area.

They would only say that Thompson requested the meeting. That meant he had a message to deliver. The subject was not disclosed.

It was Thompson's first meeting with Kosygin since last Feb. 18, when he delivered Johnson's proposal for Soviet-American talks on limiting offensive and defensive nuclear weapons. The Soviet union has not agreed yet to begin talks, and the missile race has speeded up in the last year.

Diplomatic observers suggested Thompson might have seen Kosygin about Vietnam or about Cambodia, and Wilson would be discussing both subjects. Wilson is expected to report his findings here to Johnson during a Washington visit Feb. 8-9.

Wilson tried in vain to get the two visit here in 1966 to win Soviet agreement to reconvening a Geneva meeting, but the Russians said they lacked authorization to represent Hanoi in such an action.

Air Force B52 Bomber Crashes in Greenland

WASHINGTON (AP) — An Air Force B-52 bomber, which was believed to have four engines, was reported crashed in flames off Greenland after taking off from Air Force Station Thule.

The Defense Department statement did not say how many nuclear bombs were aboard nor whether they were lost, but it said none of the devices were armed "so there is no danger of a nuclear explosion at the crash site." It also said the crash occurred "in the immediate vicinity of the 90th parallel".

DAILY EGYPTIAN

Prime Minister Harold Wilson

MOSCOW (AP) — Premier Alexei N. Kosygin began a discussion Monday with British Prime Minister Harold Wilson Monday shortly after a U.S. emissary delivered a message that the United States was arming the Kuomintang rebels in Taiwan.

Temperatures in the area were well below zero.

The leader of the American delegation was White House aide William E. Thompson, who was active in the Krellin and immediately sat down the Krellin for substantive tests.

The space agency originally had hoped to launch Lunar Module 1 at 2 p.m. EST Monday, but the countdown clock was stopped to resolve two problems with ground-based equipment, including a Freon supply needed to control spacecraft temperatures and a power unit needed to permit electronic tests to be run between the blockhouse and Saturn I rocket.

The same type booster, smaller than the mighty Saturn V which successfully flew its first test flight last November 9, is scheduled to lift America's first three-man Apollo astronaut crew into earth orbit about August.

Two of the pilots for that first man mission, Navy Capt. Walter M. Schirra Jr. and Walter Cunningham, a civilian, witnessed the booster's thundering departure. Sixteen other astronauts who may some day ride atop a Saturn I or fly a Lunar Module also observed the launching.

Air Force B52 Bomber crashed in Greenland.

Prime Minister Harold Wilson
For Better or Worse?

July 21 Completion Date Set

For Forestry Research Lab

By Tom Kerber

Construction of the $66,000 federal Forestry Research Laboratory about 30 yards southeast of the Agriculture Building is progressing on schedule, according to Clifford Labelle, construction superintendent, and R. Construction Co. of Alton, Ill., contractors for the project.

"The weather has slowed us down a bit," Labelle said. "We lost 21 days because of rain. The building will be completed by July 15.

Labelle said the concrete pour on the basement floor of the building was finished Jan. 18, and the men are working on the upper floors. Funds for the construction of the building come from a $500,900 appropriation to the U.S. Department of Agriculture. The $81,000 above the building cost is allocated for supervisory fees and for some drainage, utility and site work not included in the construction contract.

The building will provide much-needed laboratory and office space for the Carbondale forestry unit under the jurisdiction of the North Central Forest Experiment Station at St. Paul, Minn.

Chemistry Lunch Hosts

U of I Chancellor

Dr. Herbert Carter, vice chancellor at the University of Illinois, will speak at a Department of Chemistry luncheon Friday at noon in the Illinois-Old Main Room of the University Center.

Charles En gland will preside over the affair at 4 p.m. in Patton 204.

Application Deadline Feb. 1

2,000 State Grants Still Available

Although 150 applied last week for scholarships available through the Illinois State Grant Program, approximately 2,000 scholarships are still available for SIU students.

The applications occurred following a news story in Friday's Daily Egyptian. Charles Gray, assistant coordinator of financial assistance, reported that 150 students applied last week for scholarships available through the Illinois State Grant Program. The response kept two employees busy all day Friday and Saturday screening applicants.

"However, we still have a long way to go," Gray said. "We are about 1,900 short of our quota, and we would like to meet the quota." Gray pointed out that only 10 days remain until the Feb. 1 deadline for submitting applications. He urged all students who might be eligible to pick up a questionnaire in Room 211, Building B at Washington Square.

"To be eligible SIU students must be citizens of the U.S., residents of Illinois, not on academic or disciplinary probation for the coming year, full-time undergraduates, not presently receiving a state scholarship, and able to demonstrate financial need," Gray said. He said this program excludes those on state teacher's, military, SIU, and state vocational rehabilitation scholarships.

To be eligible SIU students must be citizens of the U.S., residents of Illinois, not on academic or disciplinary probation for the coming year, full-time undergraduates, not presently receiving a state scholarship, and able to demonstrate financial need.

Gray said this program excludes those on state teacher’s, military, SIU, and state vocational rehabilitation scholarships.

Museum Office Closed

Administrative Offices of the University Museum will be closed through Wednesday for moving into new offices in Old Main, rooms 213 and 214. The new administrative office phone number is 453-5388.

'Threepenny Opera' Musical

To Be Staged March 6-10

"The Threepenny Opera," the most popular musical satire in the modern theatre, will be staged March 6-10 at 8 p.m. in the Experimental X Theatre in the Communications Building. It was written by Bertolt Brecht and Kurt Weill.

Dennis Immel, graduate student in theatre, is staging the play. Immel staged "Earnest in Love" in 1964.

Tickets for "The Threepenny Opera" will go on sale at the University Theatre box office and Information Desk in the University Center on Feb. 21. Ninety unreserved seats at $1 will be available the night of the play.
“Want a company where you can really put your education to work? See IBM February 1st or 2nd.”

"Some of the engineers who graduated before me complained that their education didn’t mean much in their jobs. That’s not what I wanted,” says IBM’s Jim Carr. (Jim is a Manager of Mechanical Process Engineering.)

“At IBM I knew I’d be using what I learned. There’s so much diversity here that you can usually work in the specific area you choose. In my own case, I majored in Mechanical Engineering and minored in Metallurgy. Today my ME degree means more than ever. And I often use my metallurgical background. For example, I’m now working on a process development program that requires a knowledge of machine design, metallurgy, heat transfer, and chemistry, all of which I studied in school.

“Another good thing about IBM’s diversity is that it creates an interdisciplinary environment. You get a chance to work with and learn from people in many different fields. Since our industry is growing so fast, the people you talk to are likely to be working at state-of-the-art levels or beyond.”

There’s a lot more to the IBM story than Jim has mentioned. We’d like to tell you about it when we’re on campus. We’ll be interviewing for careers in Marketing, Computer Applications, Programming, Research and Development, Manufacturing, and Field Engineering.

Sign up for an interview at your placement office, even if you’re headed for graduate school or military service. And if you can’t make a campus interview, send an outline of your interests and educational background to Mr. C. J. Reiger, IBM Corporation, 100 South Wacker Drive, Chicago, Illinois 60606. We’re an equal opportunity employer.
On Campus Job Interviews

The following are on-campus job interviews scheduled by the University Placement Services. For appointments and additional information, students may call 435-2391 or stop by the Placement Office located at 511 South Graham, College Square, Building B.

January 29, 1968

PITTSBURG PLATE GLASS: Accounting, management, and other business majors, industrial safety engineers and industrial safety majors.

UNIVERSITY OF SPIRER RAND: Sales and systems analysts.

January 30, 1968

ELMURST SCHOOL DISTRICT, Elmhurst, Illinois: K-6, grade 6 — man coaching, jr. high, jr. high math, jr. high science, jr. high French and Spanish coor. for grades 5 and 6, jr. high girls P.E., home ec., P.E. coaches, visiting counselor, special ed. coordinator.

SPECIAL EDUCATION COOPERATIVE OF SHELBY COUNTY: Special education, Belleville, Illinois: Educable mentally handicapped, speech correction, learning disabilities maladjusted.

SCHOOL DISTRICT OF UNIVERSITY CITY: University City, Missouri: All levels of elementary and secondary school.

LINCOLN EAST HIGH SCHOOLS, Lincoln, Illinois: All elementary levels, junior high, social studies, language arts/social studies, and science/math.

OAK PARK SPECIAL EDUCATION: Oak Park, Illinois: All levels of special education.

ROADWAY EXPRESS: General business, management.

FIRESTONE TIRE & RUBBER COMPANY: Auditors, chemists, accountants, production, maintenance, industrial, mechanical and electrical engineers, sales management, retro production management, and credit and distribution accounting.

MEAD JOHNSON & COMPANY: Cost accountants, business accountants, internal auditors, business intern, organic chemist, analytical chemist, biochemists, industrial and production engineers, production supervisors, production engineers, production managers.

OAK PARK SCHOOL DISTRICT: Oak Park, Illinois: All areas of elementary school, junior and senior high shop, math, science, English, music.

DUQUON PACKING COMPANY, DuQuoin, Illinois: Management trainees, will accept any major, prefers business or agriculture majors.

January 31

U.S. STEEL CORPORATION: Business Management program and production management program.

ILLING BELLE TELEPHONE COMPANY: Marketing-sales, management trainees, customer service workers, management trainees.

HILTON HOTELS CORPORATION, Chicago, Illinois: Management trainees, consider candidates from business administration, personnel, personnel, marketing, accounting, sales, and general management.

WESTERN ELECTRIC COMPANY: Engineering, technology, accounting and mathematics.

RALSTON PURINA COMPANY: Marketing and management trainees, sales associates, product management trainees, advertising management.

INDIANA BELLE TELEPHONE: Management trainees, and marketing-sales.

BELL TELEPHONE LABS: Electrical, mechanical engineers, math, physics, engineering Physicists, chemists, and liberal arts.

PEORIA TRACTOR AND EQUIPMENT COMPANY: Diesel mechanics and engineers.

BELLE & HOWELL COMPANY: Sales management trainees, accountants, production management trainees, industrial management.

FMC CORPORATION—CHICAGO PUMP DIVISION, Chicago, Illinois: Pump design engineers, plant design engineers and inventory management.

FMC CORPORATION, Hoosier, Illinois: Design, development or production engineers, general accounting, selling food service equipment.

February 1

OLIN MATHIESON CHEMICAL CORPORATION, East Manville, New Jersey: Accounting, Sales, Production Supervision.

IBM CORPORATION, Chicago, Illinois: Marketing, systems analysts, engineering graduates, field engineering, non-technical sales, office products engineering.

FORD MOTOR COMPANY, Indianapolis, Indiana: Industrial supervision.

ILLINOIS BELLE TELEPHONE COMPANY: Marketing-sales, management trainees, customer service management (women), mathematics, commercial representatives (women) for public relations.

WESTERN ELECTRIC COMPANY: Engineering technology, accounting and mathematics.

RALSTON PURINA COMPANY: Marketing and management trainees, sales associates, product management trainees, advertising management trainees.

INDIANA BELLE TELEPHONE: Management trainees, and marketing-sales.

BELL TELEPHONE LABS: Electrical, mechanical engineers, math, physics, engineers, Physicists, chemists, and liberal arts.

February 2

EASTMAN KODAK COMPANY, Rochester, New York: Computer programming, electronic data processing service and research, statistical forecast management systems development, sales, production planning.

IBM CORPORATION, Chicago, Illinois: Refer to February 1, 1968 date.

BUREAU OF COLLECTIBLES, CHICAGO, Illinois: Accountants.

ALLIED MILLS, INCORPORATED, Joliet, Illinois: Sales (agriculture majors).

UNIVERSITY OF CHICAGO, INCORPORATED, Joliet, Illinois: Chemical engineers, chemists, mathematics, accounting, data processing, business administration, physics, personnel and training, industrial relations, traffic management, and nursing.

THORNTON TOWNSHIP SCHOOL ASSOC., South Holland, Illinois: All levels of education mentally handicapped, trainable mentally handicapped, training correction, maladjusted (types A, B, C), school psychologists, and social workers.

Fifteen States Involved in Training Course

An eight-week Officers Training Institute to help state and local law enforcement agencies develop increasingly effective tools and programs for correctional institutions has been conducted by the Department of Justice in 15 states. Illinois is not represented.

The course held at SIU's Center for the Study of Crime, Delinquency and Corrections is being conducted in cooperation with the Office of Law Enforcement Assistance, a part of the U.S. Department of Justice.

Robert J. Brooks, LEA project director, said that the goal of the institute is to provide staff training officers with up-to-date information on human behavior, learning and instruction, preparation of teaching materials, and management of training resources.

This information is intended for use by officers in the designing of test training materials under professional supervision.

WESTERN ELECTRIC COMPANY: Engineering, technology, accounting and mathematics.

RALSTON PURINA COMPANY: Marketing and management trainees, sales associates, product management trainees, advertising management.

INDIANA BELLE TELEPHONE: Management trainees, and marketing-sales.

This information is intended for use by officers in the designing of test training materials under professional supervision.

HEADS VTI POLICE PROGRAM—Robert A. Allen, left, engineering manager of the two-year associate degree program in corrections and law enforcement at VTI, confers with E.J. Simon dean of technical and adult education.

Prison Administrator Added to VTI Staff

Veteran police and prison administrator Robert A. Allen has been named faculty chairman of a two-year corrections and law enforcement program at the SIU Vocational-Technical Institute.

A native of Reidsville, N.C., Allen came to SIU from Washing­ton, D.C., where he had served since 1966 as task force director of the U.S. Joint Commission on Correctional Manpower and Training.

Allen, 54, will be in charge of the associate degree program started last fall at VTI to train police, prison and probation personnel. He will also direct short courses for municipal police officers and other non-credit training in the field conducted by the SIU Division of Technical and Adult Education.

He is a graduate of the National Police Academy of the Federal Bureau of Investigation, holds the bachelor's degree in sociology and business administration from Atlantic Christian College at Wilson, N.C., and did graduate work at North Carolina State University, Raleigh.

Allen entered law enforcement as a patrolman in the Reidesville Police Department in 1937 and was chief when he left in 1940 to work as special agent for the North Carolina Bureau of Investigation. In 1951 he was ap­pointed warden of the North Carolina State Prison and sub­sequently served as assistant director and director of re­search of the state prison department.

Veteran Green Bay Packers Voice Calls Sports Announcing Tough Job

By Rick Schwab

Sports announcer Ray Scott, who calls the play-by-play of the SIU-Wichita State regional telecast, took the 200-yard freestyle in 2:21.8. Dasch took the 200-yard freestyle with a time of 1:46.4 and the 500-yard freestyle in 5:01.0.

“We swam well,” said Coach Essick. “We did a good job of controlling the meet and I was pleased with the results.”

“We've shown steady improvement and are at the level I'd anticipated us to be at this time of the year,” added Saluki Bruce Steiner, who was out the last three weeks with a pulled chest ligament, returned to the lineup and responded with a first in the 200-yard freestyle in a respectable time of 2:05.5.

Other individual firsts for the Salukis were three for a freshman, who won the 200-yard butterfly in 2:03.3, and Bruce Jacobson, who captured the 200-yard breaststroke in 2:24.0.

New Mexico and St. Boniface both have much in common with its becoming - inferred - from this story, but it has a lot to offer. Created in an attempt to stimulate spectator interest and gain assistance in bringing prestige gymnastic events to the SIU campus, the Club now boasts a membership of over 150 members.

FUTURE CAGER?—This little girl, holding a basketball almost as big as she is, seems pretty interested in the action on the court during Saturday's SIU-Wichita game. (Photo by Nathan Jones)

Future Cager?—This little girl, holding a basketball almost as big as she is, seems pretty interested in the action on the court during Saturday's SIU-Wichita game.
Come-from-behind victories are becoming a habit of a part of a SIU gymnastics tradition as winning.

Southern was down by 2.0 points after the first two events in Friday night's victory over Michigan State, but two events later, the Salukis were leading by 2.05 points, and went on to win, 188.90 to 187.45.

"I was pleased we were able to come back from two points down," SIU Coach Bill Meade said. "I'm glad the boys didn't get discouraged.

"It's becoming a habit of a part of a part of a part of a part of a part of our tradition as winning."

"I really felt great about winning in the still rings, Meade said. "MSU Coach George Szypula feels that he has one of the best ring teams in the country, and we wiped them out."

The Salukis captured the top three spots in the rings, scoring a total of 27.90 to 27.00 for Michigan State.

The star for MSU, as expected, was Dave Thor, who scored above 9.5 in five events.

"Thor's performance was very good," Meade said. "He looked better than in previous years at this time. His rings are still weak, but he had a pretty good performance overall.

"The routine was also looking to Thor as a candidate for the 1985 Olympic team, of which Meade is the coach."

The individual performances for SIU were led by Gene Kenber, a normally consistent winner in free exercise for Southern, scored only 9.05 for fourth. Mayer scored a 9.1 for third and Peter Heminger a 9.65 for sixth, Toby Towsan and Thor of MSU finished one-two in the event.

Side horse proved another downfall for the SIU gymnasts as only Mayer scored in the top four, getting a 9.1 second. Dennis and SIU Smith scored 9.0 and 7.9 respectively for fifth and sixth. Thor took the event with a 9.3, SIU scored a sweep of the top spots in rings with Dennis getting a 9.4, Wayne Borkowski a 9.3 and Jack Hultz scoring a 9.2.

The Salukis outscored the Spartans on the floor 23.25 to 24.30. To achieve this, SIU took a 108.05 to 106.00 lead.

Again the Salukis swept the top spots with Dale later scoring a 9.5, Joe Dupree a 9.5 and Skip Ray an 8.6. The performance by Harder was a big change from his 8.2 performance at Iowa State last weekend.

In the long horse SIU padded its lead again with Mayer tying Thor for top honors with a 9.1. Harder and Heminger took spots in the event with scores of 9.0 and 8.8. Hemingrter was part of a three-way tie for second in parallel bars with 9.0, Bert Schmitt and Dennis took fifth and sixth with 8.5 and 8.7 respectively.

Going into the high bars the Salukis were up by 2.35 points, an almost impossible total for MSU to overcome. Hemminger and Dennis tied each, third with a score of 9.2. Smith finished sixth with 8.4.

The gymnasts' next meet is today against Northwestern Louisiana. This meet will be a "dual dual" meet, featuring both the men's and women's gymnastics team in dual meet competition.
Rivalry Renewed,
Salukis Meet Aces

Approximately 13,000 fans are expected to crowd into Roberts Stadium in Evansville Wednesday night to witness the renewal of the 42-year-old rivalry between the Salukis and the Purple Aces. SUI currently holds a 21-19 edge over Evansville, which includes a 21-18 victory when the teams first met back in 1926.

With the memories of an 81-72 loss to Ball State fresh in the minds of Coach Arad McCutchan’s cagers, they should easily be up psychologically for the meeting with the Salukis.

Earlier in the season, the veteran mentor said he would press the Salukis and run the ball as much as possible. With a veteran team to work with, McCutchan should lose much less sleep than when the two teams met last season.

En route to an 8-17 season record, the Purple Aces fell to SUI currently holds a 55-41 and 80-53. This year Evansville boasts an 11-2 record and 9-2 in the OVC, indicating the possibility of a SUI upset.

Frosh Score
Kiel Victory

SUI freshman basketball Coach Jim Smelser probably would like to play the rest of his games at Kiel Auditorium in St. Louis, following the frosh’s smashing of Forest Park Community College on Sunday, 104-54.

It was the highest point total for the frosh this season.

Four of the Saluki starters scored in double figures, although only playing about half the game.

Terry Baas led the outings with 20 points, followed by Mike Heswick with 18, Roger Westbrook with 17, and B.J. Trickey with 14. Reserve guard Gene Cross scored ten.

Rounding out the scoring for SUI was Tom McBride with eight, Marty Bradley with six, Larry Payton with three and Doug Bohmier with two.

The frosh’s next game is Wednesday against Evansville.

College Basketball Scores

Boston U., 112, Trinity 74
Mississippi St., 87, Alabama 69

A LITTLE HELP PLEASE—SUI’s Willis Griffin (28) got plenty of help from his teammate Butch Butchko (52) on this lay-in during the second half of the SIU-Wichita encounter. Griffin was credited with two points as he went on to score 29. Butchko accounted for 10.

Wichita Coach Surprised
As Butchko Ends Slump

Wichita had lost to SIU, 81-72, Saturday. Terry Hartman referred to two springs as having influenced the game’s outcome—Warren Armstrong of Wichita and SUI’s Butch Butchko.

“The key to our situation is Armstrong,” Thompson said. “He’s our dominating player. When he has a poor game, we’re hurting. And he played poor.”

Armstrong hit only four of 19 shots from the field but did hit six of seven free throws to account for 14 points. “Butchko’s outcourt shooting was a surprise,” Thompson continued. “We (Wichita) sluffed off on Butchko until he hit four of five from around the free throw circle. Our reports indicated he wasn’t that good from the outside,” Thompson said.

Butchko finished with 10 points. He shot about 10 minutes of the second half. “Butchko wasted,” said SUI Coach Jack Hartman said after the game. “He did a real good job. He had been in a slump lately with his out-court shooting, but he found it again and looked pretty good.”

In just about all conversations concerning the SUI basketball squad, the talk soon turns to the Salukis’ versatile guard, Dick Garrett.

“He’s just too good from the outside,” Thompson remarked in thinking of Gar­ rett’s 28 points. “I haven’t found a weakness in him yet,” Hartman also sang the praises of Garrett.

“Our guys go to Garrett when the going gets tough,” Hartman continued. “We still want to have balance on the team, meaning not having one man the opposition can key on, but we’ve got to go with strength, and Garrett can sup­ ply the basket when we need it.”

Chuck Benson caused some concern among the fans when he left late in the game because of a nose injury. He did return to the game when Wich­ ita started to close the gap on the Salukis, and should be ready for the Evansville game Wednesday.
