Reagan urges allies to fight against terrorism

WASHINGTON (UPI) - President Reagan said Monday he will press reluctant U.S. allies at the Tokyo summit to plan stronger action against terrorism. Reagan also criticized France for not allo. g Q. U.S. warplanes to fly o from French airspace as they flew to their attack on Libya last week.

In a 30-minute interview with United Press Inter national and three other news agencies that was dominated by the subject of terrorism and the attack on Libya, Reagan said he hoped the economic summit of in dustrialized nations in Tokyo May 4-6 would "have a Kinshasa-like getting down to this problem" and that France's denial of its airspace to American plans is a "subject that must be" denounced. He revealed that some European nations already are talking about a "wider-based and more all-out effort" against Libya.

Reagan was referring specifically to France. France said it could not support the U.S. attack because it was not a strong enough response to Libyan leader Moammar Khadafy and suggested that an even more devastating attack be launched.

The Washington Times reported Monday that French President Francois Mitterrand told U.S. officials he would support a U.S. strike only if it were strong enough to ensure that Khadafy would be cased as a result. Quoting from "The New York Times," the report.

It was Reagan's first ex tensive defense of the raid on Libyan targets a week ago, in which civilian as well as Moammar Khadafy's 15-month-old adopted daughter, were killed.

"We've tried not only diplomacy, but then tried trade sanctions and so forth, and the violence not only kept on, but our intelligence revealed it being stepped up," Reagan said. "I decided they had to discover why they were doing it."

In criticizing France, Reagan said it will does not know why it refused the right of American warplanes to fly over its airspace -- forcing the attacking jets to fly a cir culus route over Spain.

Greek Council stiffens liquor laws

By Lisa Eisenhower

Staff Writer

In an attempt to prevent alcohol-related problems from occurring at Greek social gatherings and to improve the image of Greeks on campus, the Inter-Greek Council has tightened its policy on alcohol consumption.

According to an IGC resolution passed Thursday, the 24 groups governed by the council must have four members monitoring events where alcohol is served to prevent underage drinking. Groups are also now required to provide a safe place or a home and to quit serving alcohol at 2 a.m.

The purpose of the IGC resolution, according to its text, "is not only to increase the alcohol awareness among our chapters, but also to provide a greater self-regulation and responsible attitude to alcohol usage and abuse."

Mark Glassford, president of the council, said the resolution was initiated by faculty ad visers who said they were getting complaints about behavior at some Greek gatherings. The resolution was passed by ICG members by a ratio of at least 7 to 1, Glassford said.

Under University law, fraternity or sorority mem bers who live on Greek Row or the centers may possess and consume beer and wine in the house chapter room and in a private study area.

Eight of the groups represented on the IGC have houses on Greek Row and four have houses off campus. In all, approximately 750 students are members of Greek organizations, Glassford said.

Bruce Swinburne, vice president of student affairs, said he spoke to Brown about the discrepancy and was informed by her that not only was that fact irrelevant to the challenge but that if the law students didn't feel they were properly represented they didn't have to but "heads" on the issue, why get out of the GPSC election?

Slayden said that at the officer elections the list of eligible voters who voted did not contain the names of the GPSC officers. A constitutional rule that says an eligible student must be added to the list without a written challenge was waived so that the officers, who had been elected, could be added.

After receiving a challenge, the election commission's decision was "irrelevant to the challenge but that if the law students didn't feel they were properly represented they didn't have to but "heads" on the issue, why get out of the GPSC election?"

W. Berlin disco bombing suspect arrested

By Catherine Edman

Staff Writer

A challenge to the validity of the Graduate and Professional Student Council election, submitted by six law students last week, will be withdrawn because the students don't want a "tooth-and-nail fight" over the challenge, said Student Senate President Dan Slayden.

The challenge, presented Wednesday, questioned the validity of the election held April 3 because it did not question the election commission's decisions regarding student voting eligibility.

At the time of the new resolution passed Thursday, the 24 groups governed by the council must have four members monitoring events where alcohol is served to prevent underage drinking. Groups are also now required to provide a safe place or a home and to quit serving alcohol at 2 a.m.

The purpose of the IGC resolution, according to its text, "is not only to increase the alcohol awareness among our chapters, but also to provide a greater self-regulation and responsible attitude to alcohol usage and abuse."

Libyan diplomat arrested in Rome for murder plot

ROME (UPI) — Police said Monday they arrested a former Libyan diplomat and were investigating at least one other Libyan suspected in a plot to assassinate the U.S. Egyptian and Saudi Arab ambassadors to Italy last year. The plot was uncovered last year but was kept quiet while police sought additional suspects, officials said. Authorities broke their silence on the plot Monday after seizing former diplomat Aref Mohamed Furti in Rome late Sunday.

U.S. ambassador's car bombed; no one hurt

LIMA, Peru (UPI) — A car bomb set by a pro-Cuban rebel group acting “in solidarity with the Libyan people” blew up in front of the residence of U.S. Ambassador Davi lo Jordan early Monday, causing some damage but no injuries. Raids on other Cuban-registered police sources as saying a man and woman set off the car bomb with an electronic detonator and escaped on a motorcycle. The car, carrying what police said was the equivalent of 30 sticks of dynamite, exploded at 5:10 a.m.

Majority of oil ministers agree to cut output

GENEVA (UPI) — A majority of OPEC oil ministers agreed Monday to reduce the cartel’s production to boost oil prices but failed to sway three dissident members who were seeking deeper cuts. In their final communiqué, the ministers said 16 members agreed to limit production to an average of 16.7 million barrels per day for 1986 but OPEC hardliners Algeria, Iran and Libya rejected that as too high to restore prices to the $25-per-barrel level.

Supreme Court rules in favor of news media

WASHINGTON (UPI) — The Supreme Court gave the news media a major victory Monday with a 5-4 ruling that the First Amendment rights of newspapers engaged in public debate are more important than the rights of individuals. The court ruled in favor of the publishers the Philadelphia Inquirer, who have been battling charges they libeled operators of a beer and beverage company with reports they had links to organized crime.

Administration says some tax increases OK

WASHINGTON (UPI) — The administration said Monday it can accept increased levies on gasoline, alcohol and tobacco if it is done in the name of tax reform, but other witnesses complained the increases would hurt the poorest people. Treasury Secretary J . Roger Mertz told the Senate Finance Committee the administration prefers that the panel concentrate on closing loopholes in its effort to draft a major tax reform bill. He noted that excise taxes on beer and wine have not been raised since 1953.

South African police fire on protesters

JOHANNESBURG, South Africa (UPI) — The bodies of two black men burned to death in “necklaces” of gasoline-filled tires were discovered by police Monday in a ghetto near Cape Town, bringing to 19 the death toll since Friday night. In other violence, police blamed white Afrikaners of the outlawed Afrikaner Resistance Party for two landmine explosions Monday that injured three black and white men on farm roads about 125 miles east of Johannesburg. President Fie ter Botha was quoted as saying Mandela would not be released from jail until he renounces all links to organized crime.

Anti-nuclear demonstrators charged with trespass

FALUNGE, Sweden (UPI) — Anti-nuclear demonstrators were charged with trespassing after a weekend of demonstrations against Swedish nuclear plants. Several thousand demonstrators were arrested after the demonstration ended Sunday night.

Flying team soars to 3rd place

By Jim McBride
Staff Writer

The Flying Salukis placed third in national competition at the 38th Annual Intercollegiate Flying Association meet held last weekend in Waco, Texas.

The Salukis finished third in overall competition behind University of North Dakota and San Jose State of California. Twenty-six schools from around the nation competed in the event.

The Salukis, national champions in six of the past 10 years, tied for first place with San Jose State in flying events and one team member took home a national individual title, said coach Terry Wendling.

Jeff Alexander '90 first place and Dean Haviland placed third in power-off precision landings. Darryl Harter placed 10th in the pre-flight inspection competition and Andy Allen placed 15th in the pre-flight inspection competition.

Wendling said Geoffrey Foster won a $6,000 scholarship from Beechcraft Corporation and special awards were presented to Randy Augspurger and Daryl Harter. The three were among 10 individuals in the nation who qualified to compete for four $6,000 Beechcraft scholarships, which were awarded on the basis of character, flying ability and grade point average.

The team also presented its Outstanding Team Member Award to Julianne Fuller. The award is based on an evaluation of the year's activities and is decided by a vote from team members.

Wendling said SIU-C was chosen as hosts of the 1987 national competition, scheduled for April 20-25. The event is expected to draw about 1,500 in 2,000 student flyers and ground personnel. SIU-C was host for the competition in 1973.

Competition at this year's event was "pretty tough," said Wendling, who added that the team may have worked "too hard" to return the national title to SIU-C.

"We worked awful hard and had a heck of a lot of fun doing it," Wendling said. "When you finish third in the nation it's no small thing. I'm pretty proud of these young people."

Five students find corpse near campsite

By Jim McBride
Staff Writer

Five SIU-C students Sunday discovered the body of an apparent suicide victim sought by Indiana police on rape charges.

The body of Keith Payton, 56, was found in the back seat of his car in Shawnee National Forest by the students, Saline County Coroner Wendell Lambert said.

Payton was sought by Park County, Ind., authorities in connection with a rape that occurred April 7, Lambert said.

Lambert said a "suicide-type" note was discovered in the car near the body.

Initial investigations were unable to reveal the cause of death, he said, and added that "violental microscopic and toxicological tests will be conducted to verify the cause of death."

The five students — Harvey Alter, junior in food and nutrition; Randy Long, junior in business administration; Dan Mading, junior in zoology; Katie Beert, junior in plant and soil sciences; and Kevin McKinney junior in photography — Friday noticed a yellow car parked near their campsite in the Garden of the Gods Recreation Area and became "suspicious" after the vehicle had not been moved for two days, Alter said.

The students found the body while leaving the campsite and contacted police, Alter said.

Environmental issues focus of 'Earth Week'

It's "Earth Week" across the nation and the Student Environmental Center has organized a week of events on campus to prompt discussion of environmental issues.

The film "Brown Rice" will be shown at noon Tuesday in the Student Center Orion Room.

At 7 p.m. in Agriculture Building Room 122, the film "Fate of the Forest" will be shown.

A lecture by Gerald Austerlitz, associate professor of forestry, on the environmental effects of acid rain is set for 7 p.m. Wednesday in Ag Building Room 622.

SEC members will hand out biodegradable trash bags at noon Thursday and had a cleanup of Thompson Woods. The documentary "Power Struggle" will be shown at 7 p.m. Thursday in Ag Building Room 622.

After the film, Robert Paul, director of the city's energy division, will hold a discussion on the same topic.

A club show titled "We've Got the Power" is slated for noon Friday in the Student Center Missouri Room. The show compares non-renewable energy sources, such as nuclear power, to alternative sources, such as solar power.

At 7:30 p.m. Friday, three panelists will participate in a discussion titled "Environmental Ethics and Spirituality with the Earth."

The discussion will focus on the development of human relationships with the Earth.

Panelists are Paul Yambert, professor of forestry; John Hayward, professor emeritus in religious studies; and Judith Casaudy, graduate student in speech communications.

A potluck picnic from 3 to 10 p.m. Saturday at Evergreen Park will round out the week's events. Picnickers are asked to donate $5.
Israel walks in Hitler's footsteps?

Mr. Trubitt, Don Smith's letter was not an obviously seditious letter, because Israel is to blame for terrorism in the Middle East and all over the world. All Israeli terrorist activity gets covered up real fast. A good example was the Sabra and Shatella massacre, where two refugee camps were attacked and over 3,000 women, children and elderly people were killed. This massacre wasn't publicized more than a day or two on television, but when one Jew got killed on the Achille Lauro, we didn't hear the end of it. That was on television for over a week.

I think that's a good example of what Mr. Smith means by Jewish-Zionist ownership of ABC, CBS, the New York Times and the Washington Post. All this makes Israel innocent and the Palestinians the terrorists.

Another terrorist act by Israel was the attack on an Iraqi nuclear plant in 1979 for no reason but to stop Iraq from improving and expanding their technology. Another Israeli terrorist act took place in Koffa Quassen and Dare Yassen, this led to the Genocide of the Oromo defense minister in 1982, killed hundreds of civilians for no reason at all. Some of the things that the Israeli government does encourages the two villages makes me sick to my stomach but for you, Mr. Trubitt, I am going to mention: 1) the incidents, where solder's grabbed pregnant women and opened their stomachs and killed the fetuses.

What's happening in Palestine reminds me of Hitler in Germany when he had Jews wear the same clothes with numbers on their shirts to be recognized right away. Today the Jews are giving Palestinian cars different colored license plates than the Jews, so they can be stopped and searched while the Jews are waved on.

Also, a Palestinian can't grow a tree without getting the Jewish approval or he will be sentenced to one year in jail. What happened to the Americanideal of freedom and justice? I would want to happen to anybody, especially the Jews. But no, now that the Jews have this part of the world, especially the Jews. No, but now that the Jews have this part of the world.

I hope Trubitt can "personally see how this can be" now. He says, "So don't the Israelis deserve a homeland of their own?" Sure they do, and the Europeans put their own, but why at the expense of the Palestinian land, lives and Zionist terrorist acts against Palestinians. So how could you even begin to call a Palestinian a terrorist for fighting for his right to his own land, and to live his life? I think you are blind to the real problem. I'm asking to stop the U.S. military aid to Israel.

Maha Abdallah, senior, Pre-Med.
said Monday he was not aware of the IGC resolutions or that he had ever been consulted on them.

Under the IGC resolution, monitors must check the IDs of guests at Greek gatherings if alcohol is being served and stamp the hands of guests of legal drinking age.

The resolution also states that monitors must “maintain a high level of order at the social gathering, dismissing people for violations of ‘highly inappropriate behavior’” and see that any underage drinkers are asked to leave.

In addition, the groups must allow guests to enter the gathering through only one entrance and establish a line

The arrest was the first clear breach of the accord. Until Monday, West Berlin police had said they had no firm clues to the identity of the culprit in the nightclub bombing.

The United States, citing secret intelligence evidence, was not aware of the groups being involved in the attack.

The Greek government has not been told about the raid or the icy conditions of the first clear breach of the orders.

The raid was the largest of its kind in the region.

Modern thinking to be talk topic

The need for a philosophical approach to current world problems will be the topic of the inaugural University Honors Society Distinguished Lecture by Paul A. Schlipp.

Schlipp, a distinguished American philosopher, will speak on "Thinking in the Nuclear and Cold Ages" at 8 p.m. Wednesday in the Morris Library Auditorium.

Thinking becomes "even more critical" in the nuclear age, Schlipp says, philosophizers from Socrates and Plato on down have tried to explain.

A case in point, he says, is the American bombing of Libya April 14, which shows that more thinking ought to have been done, not just emotion. Schlipp, professor emeritus at SIU-C, founded the "Library of Living Philosophers" series and edited it from 1938 to 1981. Each volume focuses on a contemporary philosopher.

Schlipp was born in Dillingen, Germany, in 1887. After coming to America, he was educated at Baldwin-Wallace College, Northwestern University and Stanford University, where he received a doctorate in 1921. He taught at Northwestern and the University of the Pacific before joining SIU-C in 1965.

He is author of "Kant's Pre-Critical Ethics," "The Quest for Religious Realism" and "The Crisis in Science and Education."

His lecture is open to the public without charge.

Enterprise group off to promising start

By Darci Allen
Staff Writer

What started out as a sister organization to the Society for the Advancement of Management has turned into an award-winning group. In January, Students in Free Enterprise was formed because "we wanted to broaden the scope of activities" people can take part in, says Ken Kraft, associate professor of management and one faculty advisor to SIFE.

SIFE, which is made up of students in the course Management 480A, took part in regional competition last week in St. Louis and returned to Carbondale with first place honors and $1,400 for its efforts.

The chapter was also named Rookie Chapter of the Year and earned a place in the national competition to be held May 19-21 in Memphis, Tenn. Although SIFE is a class and membership is now primarily management students, those who would like to participate don't have to enroll in the course, says Bill Gardner, assistant professor of management and the group's other faculty advisor.

During the St. Louis competition, SIFE groups were judged on their annual reports, and earned a place in the SIU-C. The group is open to the public without charge.

SPC contest to provide winners a bird's-eye view of Springfield

by Patrick Edwards Staff Writer

Fancy the chance of coating through clouds in a hot air balloon? Then buy one!

Student Programming Council has created a contest in which the two people who come nearest to guessing how many balloons are in a jar will win a ride in a hot air balloon.

Guesses cost 25 cents each and must be submitted before Friday. The chances can be purchased in the Faner breezeway Monday and Tuesday from 11 a.m. to 2 p.m.; at the Springfield teashop in the Free Forum Area on Wednesday, Thursday and Friday from 11 a.m. to 2 p.m.; and all week in the SPC office on the third floor of the Student Center from 2 to 4:30 p.m. The charge for the chances will help pay for the rental cost of the balloon.

The winners will be announced from the main stage at 2:30 p.m. on Saturday. Winners must be present to win.

The multi-colored balloon is scheduled to launch between 4 and 7 p.m. in the Free forum Area or between Quigley and Wheeler halls, depending on the wind.

Colleges need global view, speaker says

By Patricia Edwards
Staff Writer

Higher education should assume a global perspective in the humanities, says philosopher Glenn A. Olds, president of Alaska Pacific University.

"Without that presumption it is fragmented, parochial and limited," Olds said. "Higher education should be concerned with nothing less than the ultimate perspective, he says.

Olds, Alaskan Democratic candidate for U.S. Senate, spoke Thursday at the combined observances of Founders Day and the George S. Counts Lecture.

His speech, "Humani Nihil Alieniurn." (Nothing Human is Alien to Us), was footnoted in the context of "Higher Education and the Citizenry, Reciprocal Responses."

"The drop in oil prices has hit hardest the Alaskan school system, which receives 60 percent of Alaska's oil revenues. "In this climate and in this context, I would say we have been virtually totally preoccupied for the last several years in Alaska with natural resources," Olds said.

"The problem with the price of oil has virtually nothing to do with the economics of the North Slope or of Alaska," he said. "It has to do with the perpetual ignoring of the unresolved Palestinian problem in the Middle East."

Olds recommended that people use urgency and interest in global revolution today to break out of parochial panic.

Olds said that according to reports on education, the United States is a nation at risk because it is alienated from a wider international community.

"The perplexity of the task of higher education," Olds said, "is the integration of parochial and global perspectives and the integration of public and private lives."

Also at the lecture, the George S. Counts Doctoral Student Award was granted to Caroline Ryan, assistant dean of students at Illinois College. She is a doctoral candidate in the Department of Educational Administration and Higher Education. Her doctoral thesis is titled "George S. Counts, Global Vision for the New Cultural Pluralism."
Atom bomb scientist eyes future through molecular science study

By Mary Lung
Staff Writer

Morris Cohen is a man with an eye on the future. A world-renowned materials scientist, Cohen is one of the most influential materials scientists — used in high technology. And although his work concerns improvements for mankind, Cohen was one of the developers of a force that may ultimately cause its downfall.

He was an associate director of the Manhattan Project, the World War II venture that resulted in the atomic bomb.

As a professor emeritus at the Massachusetts Institute of Technology, Cohen studied internal structures, such as electric, atomic and crystalline, and external properties and performance of new materials, which can be used in jet engines, nuclear reactors and integrated circuits. During the second annual SIU-C Molecular Science Lecture Thursday, Cohen discussed the "Rapid Solidification and Structure Property Relationships of Materials." The properties and strengths, through grain refinement, of rapidly cooled alloys.

THE FIELD of material science, Cohen said, is a multidisciplinary science that utilizes physics, chemistry, electrical, mechanical and chemical engineering properties very important roles. The SIU-C faculty has shown considerable interest in starting a molecular science program, he said.

The materials-and-mankind relationship has been evolving for some 50,000 years, Cohen said, with man stilling wood, stone, metal, textiles and the like throughout history.

A BASIC MATERIALS

Modern Chinese art to be top of Herbert Fink

Herbert Fink, a professor in the School of Art, will discuss modern Chinese art at 3 p.m. Wednesday at the Carbondale Public Library, 400 W. Main Street.

Fink will also introduce the work of Zuo Yifeng, an artist teacher in the People's Republic of China who is now a student at SIU-C.

The lecture will be augmented by slides of modern Chinese art.

Zuo, 32, has taught in Liaoning and Changchun, China, and is a member of the Jilin Artists Association. He paints mostly with oils and will share his works at the meeting.

The program is free and open to the public.

BOMB, from Page 9

nuclear bomb, Cohen said. His own feeling was that the United States should have stopped the Japanese by way of a test what the bomb could do, but history records that three-quarters of Hiroshima and Nagasaki people were killed and 94,000 injured.

On the day of a personal pilgrimage to Hiroshima 25 years after the bombing, he toured the city, rebuilt, he said, and heard no criticism of the U.S. involvement after it was revealed that radiation patients in the U.S. hospitals have.

"It's happened," he said. "The main thing is to let it happen again."

SCIENTISTS working on the project knew that the development of an atomic bomb would change the world. Cohen said, not only from the standpoint of energy, but how nations would relate to each other. President Reagan's Strategic Defense Initiative, commonly known as "Star Wars," would supposedly make nuclear weapons obsolete, Cohen says, and has no scientific merit.

"It's turning things upside down. Now there is testing of nuclear weapons for high-powered Star Wars lasers," he said.

The whole "Star Wars" idea, Cohen says, was "dumbed up" by Reagan himself, with no research into the effectiveness of the plan. "I think it is a very wrong thing to do," he said. "I think we're on a very dangerous course."

Oil businessman to receive honors for job excellence

Ronald E. Hall, president and chief executive officer of Cito Petroleum Corp. in Houston, has been named Executive of the Day by the college of Business and Administration.

Hall will accept the honor Thursday. He will deliver a speech in the morning and at one at 8 p.m. in the Student Center Ballroom D. The evening lecture is free and open to the public.

Hall, a marketing strategist for Cito, is a former resident of Johnston City. He received a bachelor's degree from Bradley University and a master's degree from Columbia University.

Women's track team member to compete in Drake heptathlon

By Toby Eckert

Saluki women's trackster Sue Anderson will participate in a heptathlon competition Monday and Wednesday in Des Moines, Iowa, as part of the upcoming Drake Relays.

"I think she'll be competitive in the event," Saluki Coach Don DeNoo said Monday. "Some of the best heptathletes in the country will be there. We'll look for her continued improvement and see where she finishes." Anderson currently holds a personal record of 4,083 points in the heptathlon.

DeNoo had hoped that Kathy Raskie, a sophomore from Calumet City, would also be able to compete in the event. However, even though Raskie has turned in decent performances in the pentathlon, she has never competed in the heptathlon and Drake officials were not willing to take a chance on a first-time performer.

"They just would not let somebody into the meet on speculation that they could do it," DeNoo said. "They had to have a performance beforehand."

The heptathlon competition is a preview of the larger Drake relays, which will get underway Friday. The meet is one of the largest in the nation, with over 70 teams being represented.

FATE OF THE FOREST

This film discusses the chain of ecological problems threatening the world's tropical forest as a direct result of deforestation and slash and burn practices. It concludes that only when land is used more productively and alternative energy is provided cheaply will the threat to the tropical forest be overcome.

Women's basketball team signs pair of top-notch recruits

By Anita J. Stoner

Regina Banks, a star of the John A. Logan Lady Volun-
teers, and Eileen Richardson, of Indianapolis North Central High School, have signed with the women's basketball Salukis for next season.

For the first time in four years, a junior college player will transfer into Coach Cindy Scott's program.

The Lady Vols won national respect with a third-place finish in the NAIA tournament, powered by forward Banks, who averaged 12.1 points and 7.4 rebounds during the year.

Banks, from Madison, leaves Logan as the fourth All-American in the Lady Vols' history. Scott said Richardson will add quickness to the Saluki backcourt, describing her as a highly recruited, very fast, good ballhandler.

Banks narrowed her decision down to SIU or Indiana over Northern Iowa, Cincinnati, Ball State and Louisville, and told Scott Monday.

The Saluki staff awaits decisions from other recruits, who are still making campus visits.

"It's hard to say what position we'll try Eileen at," Scott said. "I think it depends on the rest of the recruiting."

Banks and Richardson join two other signees, Cindy Farr, a 5-10 guard from Opelika, Ala., and Deanna Kibekis, a 5-11 forward from Midlothian, Illinois, Michigan State, Miami (Fla.), Florida International and many Division II schools.

Banks has played with several Salukis in the Prairie State Games and in AAU competition.

Richardson, a 5-8 swing or point guard, averaged 18.0 points and 7.0 rebounds. Scott said Richardson will add quickness to the Saluki backcourt, describing her as a highly recruited, very fast, good ballhandler.

Regina Banks and Eileen Richardson have signed with the Salukis for the upcoming Drake Relays, which will get underway Friday. The meet is one of the largest in the nation, with over 70 teams being represented.

A's hurlers break strikeout record

SEATTLE (UPI) — The major-league record for total strikeouts in a game stood for 102 years before Jose Rijo of the Oakland A's took the mound Saturday night against the Seattle Mariners.

By the time Rijo completed 150 pitches and left the game after eight innings, he had fanned 16 Mariners.

Reliever Bill Mooneyham struck out two more Mariners, which added to the 12 strikeouts by Seattle pitchers brought the total for the game to 30.

strikeout record

13 intramural records
fall at track meet

By Toby Ecker
Sun Staff Writer

The Office of Intramural-Recreational Sports Monday released the results of the intramural track and field meet held Saturday at Mt. Andrew Stadium in which 13 SIU intramural records were set.

The records were set by Ellen O'Brien in the shot put (37.44); Jim Woodward in the discus (177.4); Carmen Robins in the long jump (16.11); Sheldon Knight (11.82) and O'Brien (13.08) in the 100-meter dash; John Dimicelli (23.08) and Robins (27.45) in the 200-meter dash; Lee Halbert in the 400-meter dash (53.13); Colleen Wright in the 1,500-meter run (5.04.90); BC and Co. in the men's and women's 400 (44.69, 54.6) and 800-meter relays (1:33.56, 2:00.54) and Express Ltd. in the coed 400-meter relay (51.89).

Buddy Goldammer, coordinator of intramural-recreational sports, said he was pleased with the level of competition at this year's meet. "The quality of the participants was excellent," he said. "There were some very good athletes."

Participation was up in all the events, he said, adding that the numbers probably would have been higher if it not been for the bad weather on Saturday.

In other intramural news: — Softball and ultimate frisbee championships are scheduled for May 1. Probabilities in those events got underway Monday.

— Deadlines for entry in the final two sporting events of the spring intramural season are fast approaching. The deadline for entering the canoe races is Wednesday. hockey season ends Sunday.

The Salukis took the third doubles match in the 7-16 record 2 p.m. Tuesday and Wednesday when the Salukis play host to Tennessee-Martin at the Arena courts.

Netters down

Indiana 5-3 for

5th win in row

The Salukis and Indiana University did not let the rain spoil their Sunday tennis meet, as they brought it indoors to the Sports Center where SIU-C topped the Hoosiers 5-3 for its fifth-consecutive victory.

The Salukis took four of six singles matches, losing only at No. 1 and 2.

Nos. 3-6 singles players Jairo Aldana, Lars Nilsson, Fabiano Ramos and Juan Martinez each won in two sets, with Aldana's being decided by two tiebreakers.

SIU-C and IU split the two doubles matches they played, with Per Wadmark and Rolle Olleens losing at the No. 1 slot, (6-1, 6-2), and Aldana and Chris Visconti winning the No. 2 match, (6-3, 6-4).

Since court time had expired, the third doubles match could not be played.

Saluki coach Dick Lenvé thinks the team will add two more wins to its 7-16 record this season.

The title we have in the State Police is "Special Agents of the Division of Criminal Investigation." That about says it. We work big crimes - narcotics, homicides, fraud, missing and exploited kids, D.J., Won't even consider you until you've already become a Trooper. Then there's six weeks of intensive training. And then you're just beginning to learn the job. Not everyone wants to do it. Not everyone can. But for us, hey, it's like a chance to play in the big leagues.

The Illinois Department of State Police is now taking pre-employment cards for its June examinations. They must be received no later than April 25. To see if you can qualify, contact:

Trooper Franez Lewis or Special Agent Clarence Banks

Dogs hone bats for Billiken rematch

By Ron Warnick
Staff Writer

The St. Louis Billikens, which play the Salukis in a 3 p.m. Tuesday game at Abe Martin Field, have continued their reign of terror but aren't as bad as when the Salukis beat them almost a month ago in the Gateway City.

When Dale Kisten and the Dogs walked the Billikens 7-1 on March 27, it was St. Louis' 19th loss in 23 games. The team was batting an anemic .380, with outfielder Tom DuBois leading the team with a .256 average. The Billiken pitching staff had a fence-breaking 10.55 earned run average.

The Billikens have hit the ball a little more often since with a .249 team average, but the bat-blasting of the pitching staff has continued, as evidenced by a 5.98 ERA.

Their win-loss column hasn't improved much either, as St. Louis is winless in eight Midwestern Collegiate Conference games with a 9-37 record.

Understandably, Saluki coach Richard "Boby" Jones has decided not to waste the energy of one of his better throwers. Instead, he will send rookie pitcher Tim Hollmann to the hill.

Hollmann started his first game at SIU-Edwardsville last Thursday. He tossed seven and one-third innings, allowed nine hits, walked three, struck out two and gave up five earned runs. Although a fair performance, as he reduced his season ERA from 13.50 to 8.74, he suffered the loss in an 11-1 blowout.

"His inning was amazing going well," said Hollmann. "I had very well at Edwardsville," Jones said. "He deserved to win."

The likely starter against Hollmann is Matt Boxdorfer, who is 1-4 with an 8.45 ERA. He has been the victim of four shutouts this year.

The Billikens no longer have to rely on DuBois as the crux of their defense. Third baseman Phil Catalfamo has recovered from an early season slump and has joined, a fine season with 10 home runs, 41 RBI and a .363 average. He was batting just .140 a month before.

Designated hitter Chike Vogt leads the team with .375 average with five homers and 16 RBI. DuBois has continued a consistent hitter with a .290 average and a team-high seven stolen bases.

Sports

Rugged ruggers

Saluki-C inside center John Broadhead pitches the ball down the line just before an Elgin Rugby Football Club player tackles him. The 3-7 SIU-A side was defeated 15-7 Saturday afternoon by Elgin at the rugby pitch behind Abe Martin Field. The only scorers for SIU were Art Brown, who scored one try, and Craig Johnson, who converted.

IAAC meets to continue March slate

By Steve Merritt
Sports Editor

The Intercollegiate Athletics Advisory Committee will meet at 1 p.m. Tuesday to continue its March 25 meeting.

According to chairperson Margaret Matthews, the meeting will be continued on the same agenda and will pick up where the last meeting left off. The purpose of these meetings will probably not include a discussion of the women's basketball committee passed a motion to accept athletics director Jim Livengood's proposal to recommend dropping the program at the end of this fiscal year.

IAAC meets to continue March slate

Still on the agenda under new business are topics of ticket prices and the booster club's role in intercollegiate athletics. Old business will include discussions on a philosophy on intercollegiate athletics and structure of the athletics departments.

Matthews said that due to previous plan Livengood will not be able to attend.

By Ron Warnick
Staff Writer

The baseball Salukis dropped to a third-place tie in the Missouri Valley Conference when they lost three of four doubleheaders at Wichita State last weekend.

Coach Richard "Boby" Jones cited a lack of hitting as the reason for SIU-C's subpar weekends, as evidenced by just 13 runs scored in the four games.

"We played well. We just didn't hit with men on base," Jones said. "It wasn't a problem with our defense and pitching."

On Sunday, we put 42 men to the plate and struck out 16 times. So we put the ball in play only 24 times. We just couldn't advance our base runners," he explained.

However, the Salukis lost no ground to MVC leader Indiana State, which also dropped three of four games to Bradley, which won three of one run decisions. The Dogs, 6-4, remained two games behind of 8-4 Indiana State.

Bradley, which the Dogs beat three out of four two weekends ago, moved into sole possession of second place with a 7-5 record.

Illinois State's pitching staff had a fence-breaking 10.55 earned run average.

The Billikens have hit the ball a little more often since with a .249 team average, but the bat-blasting of the pitching staff has continued, as evidenced by a 5.98 ERA.

Their win-loss column hasn't improved much either, as St. Louis is winless in eight Midwestern Collegiate Conference games with a 9-37 record.

Designated hitter Chike Vogt leads the team with .375 average with five homers and 16 RBI. DuBois has continued a consistent hitter with a .290 average and a team-high seven stolen bases.

6-7 forward picks SIU-C, former coach

By Steve Merritt
Sports Editor

The waiting is over and the reunion can begin.

Juniors Jon Myers, 6-7 power forward from Benton High School announced Monday morning that he will attend SIU-C and thus be reunited with coach Dick Reimrich.

Schaefer had signed a letter of intent in the fall signing period but was unsure if he would choose SIU-C or the Air Force Academy. Had Schaefer decided on the Air Force, he would have not been bound to SIU-C by the letter.

The 3.8-grad point and rebounder for this year's Elgin Bobcats, Myers averaged 16 points per game in 35-percent field goal shooting and pulled down 9.6 rebounds per game.

Leaving the tutelage of Ron Herrin, Rich's brother, Schaefer will once again be playing for Rich, who coached the new Saluki during his freshman and sophomore years.

Schaefer was a selection to the Illinois State Basketball Association Class AA South team.

Another apparent addition to the Saluki recruiting list is Erik Griffin, a 6-4 guard and All-State selection for Carrol Mills. Griffin, who was also considering the Air Force, has verbally committed to Herrin and is expected to sign now.

Schaefer will return home Wednesday for a non-conference twinni with Sea Gulls, a nationally-ranked Division II school, was swept by the Salukis last week in a doubleheader at Cape Girardeau. SIU will return to Gateway action this weekend, when they travel to Illinois State and Indiana State for doubleheaders.

Salukis 3rd in MVC; Sycamores lead

By Ron Warnick

The Salukis return home Wednesday for a non-conference twinni with Sea Gulls, a nationally-ranked Division II school, was swept by the Salukis last week in a doubleheader at Cape Girardeau. SIU will return to Gateway action this weekend, when they travel to Illinois State and Indiana State for doubleheaders.

The Salukis are fourth in the MVC with 19-12 record while preseaon favorite Bradley is 0 for a sorry slow start, tying in at fifth with a 5-13-2 record.

Southeast Missouri seniors! Our first 13 games, has cooled and ranks sixth with a 4-6, 23-10 record. Westica, Northern Iowa, Drake and Western fill out the second half of the Gateway standings.

Softball team on hot streak; Panthers next

The Salukis, who fell out of the top 20 rankings, have continued their resurgence, sweeping four out of four conference games.

"This thing's up for grabs," Jones said. "But when we get down to the Valley tournament, I'm confident we can win it."
