Chen Hsiung Wu, SIU graduate student who has been indicted for smuggling, said the incident arose over his misunderstanding that antique carvings and jewelry could be brought into the United States without being declared to customs officials. An Associated Press story Wednesday afternoon incorrectly identified Wu as an assistant professor at SIU. (See AP story below.) Wu said that it is a custom in Hong Kong, China, that the family property be divided upon the marriage of the daughter.

"I was just bringing these to her (this daughter, who is also a student at SIU)," he said.

Wu said the jade and jewelry confiscated by customs agents were not being brought into the U.S. to be sold, but as a dowry for his daughter who is planning to be married this summer.

"I am attempting to protect or serve the interests of certain relatives off campus."

The proposed rules would restrict underclassmen to on-or off-campus dorms, living with parents, or living in a house where the owner also lives.

The Senate debated for approximately 30 minutes a proposal to obtain legal counsel and to investigate the possibility of bringing suit against to test the legality of housing and vehicle rules.

The bill was sent to the Senate Student Rights Committee. Another proposal to appropriate $1,000 to initiate the legal study was sent to the Finance Committee.

The proposed proposal centered around its practicality and the availability of funds. Lenzi contended that "there is no other alternative."

Wilbur Moulton, Dean of Students, said he does not want to see the students and the University become legal adversaries. He said he believes internal channels of settling disputes have not been exhausted.

"I believe," Senator from Thompson Point, emphatically expressed his support of the measure and he believes students and the University are in fact adversaries.

The Senate Internal Affairs Committee will study a proposal for a Student Conduct Review Board, to advise the vice president for student affairs on discipline appeals from the Dean of Students.

The Senate unanimously passed a resolution censuring the University for "its unlawful practices of withholding student paycheck." It was announced that some 3,000 women's hours questions of $10,000 printed have been returned. Final tabulation is hoped for by Monday, if the remaining questionnaires are turned in.

SIU Graduates Active In Vietnam Positions

U.S. Air Force Lt. Gary E. Dimig, son of Mrs. Irene Dimig of Highland, Ill., and 1944 graduate of SIU, has received the medal for extraordinary achievement as an F-4 Phantom pilot in southeast Asia. He was decorated with the Distinguished Flying Cross at Stewart Air Force Base, N.Y., where he is now assigned to a unit of the Air Defense Command.

U.S. Air Force Lt. Gary B. May of Benton, Ill., is now on duty at Da Nang Air Base, Vietnam. Lt. May, a former transportation officer in the Air Force, graduated from SIU in 1965 and was commissioned after completing the AFROTC program.

U.S. Combat Air Force Maj. Leslie G. Jackson, a 1955 graduate of SIU, is on duty at Nha Trang Air Base, Vietnam. Maj. Jackson, a former air controller, was assigned to Columbus Air Force Base, Miss., before leaving for Vietnam.

U.S. Capt. Robert W. Prowatt, 1966 graduate of SIU, is on temporary duty with the 425th Strategic Wing at U-Tapao Royal Thai Air Force Base, Thailand. Capt. Prowatt, a Strategic Air Command pilot, flies almost daily B-52 bombing missions against Viet Cong targets in Vietnam.

Coroner's Jury Rules

Youth's Death Homicide

A Williamson County cor-

oner's jury has returned the cause of death of Charles Edward Haynes, 13, Carterville, as homicide.

Coroner Paul Litton said the jury ruled that the boy died of a gun shot wound at the hands of Kenneth McKinney, 22, also of Carterville, on Jan. 19. The boy died of a .22 caliber gunshot wound.

Needlework Talk Set

For Museum Tonight

Thelma Berry, associate professor of home economics of the Depart-

ment of Clothing and Textiles, will give a lecture concerning the needlework exhibit at 8 p.m. tonight at the Univer-

sity Museum.

The exhibit of Victorian Needlework is from the Smithsonian Institution. The gallery will open at 7 p.m.

WONDER WHY being taped by the SIU Broadcasting Service.

TV Education Series Set

A new instructional tele-

vision series for area grade school children will be seen for the first time on Tuesday morning at 10:40 a.m. on WSUI-TV, Channel 8.

The show, "Wonder Why," is based on some fresh and innovative concepts of social studies, according to Carl Plante, the television coordinator of the SIU Broadcasting Service, pro-

ducer of the series.

Mrs. Cecelia Muckley, the studio teacher on "Won-
der Why" and a former teacher in Carbondale and Jonesboro elementary schools, de-

scribes the show's new con-

cept by saying: "We're trying to teach the kids how to under-

stand their lives in this rapidly changing world--how to re-

late, to infer, and to draw conclusions by the problem solving or discovery method.

"Our goal is to give the student a broad general un-

derstanding of social studies, rather than merely require them to remember lists of names, dates and places."

Assisting in the develop-

ment of the series is Rich-

ard Qualls, chairman of the SIU Department of Geogra-

phy, and Gene E. Roos of the SIU Department of Ele-

mentary Education. Studio producer-director is Stanley D. Tickton.

"Wonder Why" is a pro-

duction of the SIU Broad-

casting Service for the South-

ern Illinois Instructional Tele-

vision Association. SIU A

programs are utilized as part of classroom instruction by approximately 38,000 school children in 1,400 teachers in 150 school districts in the southern counties of the state.

County YMCA Aims for Gain in Members

The Jackson County YMCA hopes to gain 1,000 new family memberships during its drive Feb. 5-12, according to Joseph N. Goodman, publicity chairman.

There are presently 460 memberships, Goodman said. The memberships cost $10, $25, and $100. All three entitle the member to full privileges, Goodman said. The $25 "sustained" membership and $100 "century" membership include donations, he said.

Campaign workers have been divided into groups to cover the entire county, Chairman Dennis Burd, Mrs. Robert Spackman, Larry Havens, and Dea Ward are from the Carbondale area, Murphyboro chairman are five team captains. Each team has five workers.

Construction of the new $450,000 YMCA building on the west edge of Carbondale will begin "as soon as the weather breaks," Goodman said. Completion date is early 1969, he said.

The building will contain a 37x75 foot heated swimming pool, meeting and activity rooms, a supervised teen town. The pool will be open through June 6 and 8 p.m. and Saturday. 3:10 p.m. on WSIU (FM), London Echo Will Feature Program on Oxford Museum

Support Senate's Test Case Project

Test cases, whether planned or not, are very important to the Anglo-American concept of legal justice.

Student Senator Jerry Finney's request for funds to support a test case for SIU's housing and vehicle rules should get at least the support of the students. But will it? Finney and other student leaders have tried many times to get University rules changed, but they get the same old answer, "It's the law!"

Here is a chance for all students to break down the tiresome replies he receives when he questions the authority of the administration. Perhaps students who wish to donate to the cause could give to a Student Senate-controlled fund to support this meaningful project.

Until our senators know for sure whether such rules are "legal," they are handcuffed in their fight to place the student of a university into his proper legal perspective in the adult community.

Even if a senator believes the administration should have power to legislate and dictate indiscriminately over the adult student, he would have to agree that these are issues that need much clearer definition. The principle involved is invaluable to all students and the answer to these two questions proposed by our Senate are worth a dollar to any student.

Supporters who are short-funded should at least express their views to their senators. David E. Marshall

Not Economic

Second Great Depression

The United States, as it takes stock of itself at the beginning of a new year, may be experiencing a second great depression of the 20th Century. It is not an economic depression this time. It is a depression of the national spirit."

It's the gist of a provocative 3600-word analysis of the current U.S. political situation released sometime ago by a group which calls itself the National Committee for an Effective Congress. The committee is non-partisan. Its avowed goal is improvement of the quality of the national government through support of candidates for House and Senate who take positions that rise above local and special interests.

The committee seems to be saying that just as the well-intentioned Herbert Hoover was unable to end the national economic depression that followed the stock market crash of 1929, now another President with good intentions, Lyndon Johnson, seems unable to lead the nation out of its "depression of spirit." And the committee does not believe that there is much chance that the Republicans will offer a presidential candidate with capacity to raise the people's morale. It therefore looks to the Congressional elections of 1966, hoping that a Congressional bloc of statesmen may emerge that can set the country on a new and better course.

The National Committee for an Effective Congress makes some points that seem valid. There are indeed signs that "at all levels of American life, people share similar fears, insecurities and gnawing doubts to such a degree that the country may in fact be suffering from a kind of nervous breakdown." The committee correctly senses that political parties are failing to attract young people.

Thousands and thousands of young people earnestly desire to identify with meaningful movements that give promise of fulfilling the ideals of democracy, but many of these young people are convinced that both parties are suffering from a bankruptcy of ideas, especially in international relations. As the National Committee for an Effective Congress observes, Vietnam is the symbol and a cause of the spiritual depression.

Undoubtedly congress needs more men who take positions that rise above local or special interests. And Congress needs more men with deep understanding of the social revolutions that are developing at home and abroad. We should welcome a stronger Congress, but a stronger Congress cannot become an adequate substitute for great leadership in the White House that is missing.

Many Americans still are looking for a man who can play the role in our times that Franklin D. Roosevelt played in his. The kind of President many Americans hope for is one who not only understands the problems of contemporary society, but also has the ability to explain these problems in simple and convincing language, demolishing the false folk beliefs that keep public opinion in a state of confusion and compelling public respect in the process.

This is a big order. FDR in his fireside chats dealt mainly with pocketbook issues, which were simple domestic matters readily understood by the people. The social issues of our times, both domestic and international, are complex and not at all easy to grasp.

Letter

Show Them You Care

To the Editor:

Students, when you are going to react to the University policy you seem to cry about all the time?

We senators are anxious to direct your energies into effective communicating channels if you'll only bring the problems you have to the Student Government Office located in the University Center.

In light of this we are questioning your sincerity on something that intimately challenges and effects your rights as individuals.

Yes, I am speaking of women's hours which has only arouse a mediocre response and is read as such by our "Big Brother" administration. If you want student power with power meaning influence, then let's light the needed bonfire.

Beginning on the issue of women's hours. If you can't extend even a semi-active effort by checking and circling answers on a questionnaire you don't deserve any rights at all.

My suggestion at this time is to phone two friends and have them do the same, ensuring mass turn-out on the question of women's hours. Those students who have somehow missed getting a questionnaire should visit the Government Office and put their right to vote to work. Show the University you care.

Misquote Claimed

To the Editor:

Joseph Chu, of International Student Services, feels he was misquoted in the Jan. 20 issue of the Daily Egyptian.

He actually likes the British very much and feels that the article misrepresented his attitude toward these fine students.

Joseph Chu
Thank you for offering us the opportunity of making public re­ply to Mr. Bonhörn’s letter co­incident with the publishing of the letter in the Egyptian.

I am greatly impressed by the students, whom Mr. Bonhörn’s, charges in unfair treatment of over­charging students and have found to be a permanent problem, com­ing from a blooming pile of students. I am sure you recall others in the past, and that you probably remember the editor on the subject of prices, by Ron Sereg, published in the Egyptian Jan. 6, 1967.

About the Letter

Harry Weeks’ letter is printed here in reply to a student’s letter published in Wednesday’s issue. The letter from Carbondale’s city man­ager was also printed Wednesday and was not included in the letter in fair representation.

You may recall our rebuff­tal, as well, but in the event you do not, I am enclosing a copy of that rebuttal to alter your membership regarding it and as a reminder that I have sent copies of that rebuttal to the membership regarding it and as a reminder that I have sent copies of the letter to the membership of the Chamber of Commerce.

In commenting on Mr. Bonhörn’s accusations, I would say his letter was written hastily and with much more thought.

True, Carbondale does enjoy a considerable measure of pros­perity, and a large part of this prosperity is because of the 19,000 students enrolled in this Carbondale campus. No one denies this. Carbondale merchants appreciate the students. We have said, “Christmas, for Carbondale merchants, begins in September.” But Southern Illinois University students are not “paying for this prosperity,” as Mr. Bonhörn suggests. There is not one price charged students and charged other customers for the same merchandise.

I would suggest if Mr. Bonhörn really thinks he is being “cheated” because he is a student, that he ask someone, not a student, make his next purchase to him. I am sure he will find prices are no unfair for another resident.

I cannot agree with his “now that things are better, I want lower prices.” Some prices may be higher in Carbondale than in some other communities, although the several surveys made over the last few years do not show it. But if one is being cheated, it is because of the lack of student employment in the area. The education facilities are higher in Carbondale than in other towns, and some prices were slightly higher.

Gasoline and oil, according to the report, were $4 higher on a bimonthly basis in the area. Women’s wear was not included in the study because the students were the usual market for these items. The report did not find enough items of women’s wear for a representative price.

Men’s wear was included, however, in the study because the students were the usual market for these items. The report found that the average price in Carbondale was lower than the average price in the other towns where the area were surveyed.

In no instance, even where Car­bondale prices were higher than the over­all average, could Carbon­dale prices be considered ex­cessive, according to the letter. The summary report shows prices for food items included in the survey would cost $100.72 in Carbondale in comparison with a cost of $800 if purchased at the average price in the area.

And, by the way, I and other so­called residents are also comp­elled to walk in the streets where there are no sidewalks.

Finally, Mr. Bonhörn, the cus­tomer is always right. The mer­chant’s door is the person who keeps in business and helps us in our living, and the merchant knows this. He certainly is not going to overcharge or fleece anyone, because he wants the patronage of students and other customers, and wants them to return.

Honesty, Mr. Bonhörn, Car­bondale is not the bad guys you think. They will re­ciprocate friendship with friend­liness and courtesy with courtesy.

Consumer Survey Results

By Robert M. Hutchins

The motive that parents and publicists press home to the young for college, as they do in the economic: your chances of getting ahead in the world depend on the length of your education. According to this argument, education is an investment, and the return should be put in, the more you will get back.

No doubt there is something in it. One cannot help but be impressed by the number of young people who are likely to do very well unless he can do it, he must have a college education. It is not, however, not be required to read, write and figure very well. The vast numbers who graduate from our high schools in a state of semiliteracy can only be a warning of the simple and direct directions and make change. Some education is certain­ly necessary for survival.

It is also true that certificates and degrees are demanded for more and more jobs. Usually this de­mand has nothing to do with the content of the education for which the certificates or degrees are awarded. The only reason a person wants to know whether the applicant gradu­ated from high school. He does not care about any practical education if he had studied there. The requirement of a high school diploma is simply a convenient way of sorting out ap­licants.

As the number of people with certificates or degrees increases, the value of these documents de­clines. Jobs formerly open to high school graduates are now occupied by anybody without a college degree. Employers often look for people having Bachelor’s degrees insist on Master’s and Doctor’s. This is true all the way in the hierarchy.

Two professors from the Naval Postgraduate School in California, Arthur Carol and Samuel Parry, have now driven another nail in the coffin of the economic doctrine. They have shown that if you want to make money it will be better to cut off your education at a certain stage. This is because it costs money to go to a university, and at some point this money brings diminishing returns.

"In some cases," they say, "it is wiser from the point of view of investment to cut your teeth and have him leave school earlier rather than continue. In the late twenties the number of years he would have been interested in the together with the unused school expense, in the capital market." They find that tool and die makers can have higher lifetime income than the professor who continues his education. Since they never earn back the costs of undergraduate school costs at all.

When the costs of undergraduate school are added to the costs of graduate school, the future plumber will be better off than a college graduate.

The first step in making sense of American education is knowing what it actually means. Figures like those presented by Carol and Parry will force us to move in the right di­rection.
Department of State Official Begins International Festival

The International Festival will begin at 8 p.m., Feb. 11, in the Ballroom of the University Center. The Festival, sponsored by the City of State, will deliver the keynote address. Up to 300 foreign students will remain on campus through Feb. 14 to meet with classes and special groups.

Other on-campus activities celebrating the Festival are as follows:

R. Buckminster Fuller, designer of the geodesic dome and a research professor, and John McHale, research associate at the National Resources Inventory, will discuss "International Aspects of World Resources" at 8 p.m., Feb. 12, in the University Center Ballroom.

A program sponsored by INTERCULT, undergraduate program for international study,

British sociocologist Robert Thobald will discuss "The Human Situation: An Association of Diagnosis and Possibility" at 7:30 p.m., Feb. 13 in Furr Auditorium of the University of Illinois. This program is sponsored by the Activities Programming Board.

An International Music Festival featuring choral presentations, is scheduled for 8 p.m. Feb. 17 in the Ballroom of the University Center.

"Joose Marri and the Castro Revolution" will be discussed by Luis Baral, professor of philosophy, at 8 p.m., Feb. 14.

SIU Grad in Vietnam With AMA Program

An SIU graduate, David A. Martinez, is currently a senior at the University of Illinois Medical School in Chicago, and is working two months in Vietnam as a volunteer physician. Martinez is participating in a program sponsored by the American Medical Association, which involves service to the civil population of South Vietnam.

The Moo's Manager

Jack Baird

SIU Alumni
LATOIAN PRINCE WILL NOT ASK FOR U.S. HELP

WASHINGTON (AP) — President Johnson asked Congress Wednesday for
virtually the same civil rights program he sought last year.

The President called for:
1. Stronger federal criminal laws to protect citizens from violence while exercising such rights as voting and attending desegregated schools;
2. Greater authority for the Equal Employment Opportunity Commission;
3. Nondiscriminatory jury selection at both federal and state levels;
4. Open housing.

In his message, Johnson urged Congress not to use recent big city riots and the views of extremists as an excuse for refusing to enact the civil rights legislation.

“Lawlessness must be punished sternly and promptly,” he said. But the criminal conduct of some must not weaken our resolve to deal with the real grievances of all those who suffer discrimination.

Administration spokesmen explained that no basically new legislation was proposed because it is felt the time is nearing when at least legally all federal rights will have been guaranteed. The emphasis now is shifting toward gaining the opportunity that has been obtained, they said.

LAOTIAN PRINCE WILL NOT ASK FOR U.S. HELP

U.S. Still Searching for Lost H-Bombs

WASHINGTON (AP) — Pieces of one or more of four hydrogen bombs aboard an Air Force B-52 that crashed Sunday off Greenland have been found, the Pentagon reported Wednesday.

But Souvanna said that if full-scale hostilities are resumed he will seek help from the United States, Britain, the Soviet Union and other powers that guaranteed Laos' neutrality in the 1962 Geneva conference.

In an interview Tuesday, Souvanna did not spell out just what he wanted or would request but said he could envisage no circumstance that would compel him to request U.S. ground forces.

But "it still has not been determined whether parts of the plane or of the four nuclear weapons carried on the plane went into or through the ice," the Defense Department said. Left unanswered was whether the bombs are imbedded in the ice or on the surface.

This was the first official confirmation of reports that the number of nuclear weapons aboard the plane totaled four.

The announcement did not make clear precisely where the parts of the hydrogen bombs were found, but indications were that this was on the thick ice cover over North Star Bay where the plane went down.

The Pentagon said earlier search teams using dogs and helicopters found scattershot debris and fuel burn near the impact site about seven miles southwest of Thulé, Greenland.

In revealing that "pieces of weapons-associated hardware were identified among the debris," the Defense Department statement did not say whether significant amounts of the bombs were located.

FORMER SIU STUDENT KILLED IN VIETNAM WAR

A 20-year-old former SIU student from Christopher has been reported killed in Vietnam.

Sp. 4 Kerry Bugaszyak died in a heavy mortar attack on his base camp in the Chu Chi area.

His family was notified of his death Monday.

How to interview 130 companies in half an hour.

Talk to the man from General Electric. He represents 130 separate GE "companies" that deal in everything from space research to electric toothbrushes. We call them product departments. Each one is autonomous with its own management and business objectives. That's why a job at General Electric offers the kind of immediate responsibility you may expect to find only in a small business. Right from the start you get a chance to demonstrate your initiative and individual capabilities. And the more you show us, the faster you will move ahead. As you do, you'll find that you don't necessarily have to spend a lifetime working on the same job in the same place. We have opportunities all over the world. Chances are you'll get to try your hand at more than one of them. Our interviewer will be on campus soon. If you're wondering whether it's possible to find challenging work in big business, please arrange to see him. He speaks for 130 "companies."

Russia Refuses Negotiator Role in Pueblo Issue

WASHINGTON (AP) - The White House and other top officials warned Tuesday that the Soviet Union had passed the ominous word Wednesday to take position in the North Korean territorial waters in an escalation assignment for the U.S. Central Intelligence Agency. The broadcast quoted Bucher as saying his ship had spied on installations along the Soviet Union's east coast as well as in North Korea.

-Christians insisted that the Pueblo was in international waters when it was captured, "according to the best information that we have," State Department spokesman Robert J. McClosey also said the Pueblo was "out beyond" the 12-mile territorial limit claimed by North Korea.

-Buchers reported to have ordered his ship's highly sophisticated electronic gear destroyed, along with secret codes, when the North Koreans boarded his ship. There was no word here, however, as to whether all the equipment was destroyed. There also were reports that the firing of Explosive devices may have injured the four men aboard the Pueblo. There still were a number of key gaps in the story, including details on what kind of instructions, if any, were sent out from Washington to govern the skipper's conduct and actions when he was confronted by the North Korean challenge.

The direct Soviet reaction to the U.S. plea to act as go-between was a blow to American diplomacy that gave Communist leaders looking for a non-shooting solution. Sources said the United States has no evidence that the Soviets passed on the U.S. communications to the North Korean government.

It was understood that U.S. Ambassador to the Soviet Union, Lyndon B. Johnson was met with a frigid reception when he went to talk over the matter with Vasily Kuznetsov, Soviet deputy foreign minister, in Moscow Monday. It was said that the skipper of the Pueblo, Cmdr. Lloyd M. Bucher, had "confessed" that his vessel intruded deep into far northern North Korea's territorial waters on an espionage assignment for the U.S. Central Intelligence Agency. The broadcast quoted Bucher as saying his ship had spied on installations along the Soviet Union's east coast as well as in North Korea.

In Vietnam—SIU President Delyte W. Morris signs students' books on his arrival at Qui Nhon Normal College, South Vietnam, to inspect SIU educational advisory team working there. He is on round-the-world tour of SIU educational missions abroad. In background is Le Trong Vinh, South Vietnam's secretary of education.

MEETS GENERAL.—SIU President Delyte W. Morris meets with Gen. William Wemimoreland, U.S. military commander in South Vietnam, during a visit to SIU educational advisory teams working in Vietnam. Morris is touring University educational missions abroad. At left is William Webherrington, SIU deputy chief of party, and at right is SIU party chief Arthur Aikman.

VIETS SCHOOL—Delyte W. Morris (center), president of SIU, visits with Le Minh Tam, assistant director of Qui Nhon Normal College, while inspecting SIU educational missions abroad. SIU has 12 advisors working in Vietnamese schools under an Agency for International Development contract. The University also has missions in four other Asian and African countries. At right in Arthur Aikman, SIU chief of party in South Vietnam.

SIU Student Teachers

Two hundred sixty-three SIU students from 111 Illinois towns, six other states, and China and Japan are engaged in student teaching in Illinois schools.

Morris Feted in Mission Visit
SIU Field Staff Mans Vietnam School Posts

For the past six years, the most extensive job of elementary education and teachers training in South Vietnam has been handled by a school on the other side of the world. SIU's educational mission in South Vietnam has been operating under contracts with the Agency for International Development totaling more than $1,100,000 and the present 12-man SIU staff field is working in four locations.

At Qui Nhon Normal College, northernmost teachers training outpost in the country, two SIU advisors are helping educate Vietnamese grade school teachers. At Ban Me Thuot, in the central highlands near Cambodia, SIU adviser Jane Ford, a sociologist, has been assisting the educational effort in a small college for Montagnard tribesmen.

Two other teams are at work at Saigon's Normal College and National In-Service Education Center.

The SIU Vietnam missions were among international projects visited by University President Delyte W. Morris on a round-the-world inspection trip. SIU also has AID education and training contingent in the Himalayan kingdom of Nepal, in Afghanistan and Mali, and a Ford Foundation-sponsored unit in Nigeria.

While in Vietnam, Morris and the SIU chief-of-party, Arthur Aikman, visited with Ellsworth Bunker, U.S. ambassador in South Vietnam, and Gen. William Westmoreland, commander of U.S. military forces there. At every stop, students and teachers feasted him with gifts and good food (at Qui Nhon, it was roast pig). Morris made a personal gift of a television set to the In-Service Education Center in Saigon.

Morris is being accompanied on the trip by his wife. He is expected to return to SIU Jan. 31.

Wheelchair Students

SIU's Carbondale campus is planned to accommodate handicapped students in wheelchairs.
Taxpayers May Appeal Now

**Property Tax Board Ready**

John K. Morris, chairman of the new Property Tax Appeal Board of the State of Illinois, has announced the board is prepared to receive appeals, effective immediately.

The new state board was proposed by Gov. Otto Kerner and passed by the last session of the General Assembly to provide an agency other than the courts from which declinations of local Boards of Review might be appealed. Only taxpayers who have had bearing with the local Board of Review are eligible to appeal to the State Property Tax Appeal Board and then only if they seek this way rather than the court, as a means of further relief.

Morris pointed out that Attorney General William G. Clark has ruled that 1967 assessments are subject to the board's jurisdiction. Although the law calls for only a 15-day period for appeals, Clark has stated that in the case of 1967 assessments—which heretofore have been decided by local Boards of Review—this period might "properly be computed from the day announced by the board upon which appeals will be accepted," he said.

The board has officially established this date as Jan. 25. Thus the close for filing appeals for those counties in which the 1967 Board of Review has adjourned will officially be midnight, Feb. 10, 1968. For all decisions rendered by local Boards of Review after Jan. 25, the regular 15-day period established by law will prevail.

The board, with technical assistance from Director Theodore A. Jones of the Department of Revenue, has adopted its rules and regulations and has prepared forms for the taxpayer to use in seeking relief from the decision of the local Board of Review.

The rules and regulations:

- **Commuter Office Opens Dining Hall**

A dining hall which will be available to commuter students who bring their lunch and need a place to eat was opened at SSB W. St., College Square on last Wednesday. The dining hall will be available from 11 a.m. to 2 p.m., daily, and is maintained by the Office of Commuter Graduate, and Married Student Services.

The dining hall is located behind the commuter office which is open from 8-12 a.m. and 1-5 p.m. on weekdays and 8 a.m. to noon on Saturdays to advise any of the 6,000 such students on problems they might have.

According to Mrs. Loretta Ott, assistant dean of students, in the future the commuter office will provide housing lists, newsletters, and information handbooks for married and graduate students.

Two Officers Honored In ROTC Ceremony

Recently honored for their service in the U.S. Air Force were two regular officers in the APROTC detachment at SII during a ceremony before the entire cadet corps. Lt. Col. Robert M. Bullock was awarded first through third clusters to Air Medal and first Oak Leaf Cluster to Air Force Commendation Medal, Capt. Henry A. Staley received Air Force Commendation Medal.

Bullock received Air Medal Clusters for flying in more than 105 combat missions in the Vietnam area between June, 1966, and May, 1967, and his Commendation Medal for meritorious achievement in Vietnam other than for flying.

Staley received his Commendation Medal for meritorious achievement in the field of logistics in the Panama Canal Zone.

Both officers came to SIU in the summer of 1967. Bullock is a 1958 graduate of Marshall University in Huntington, W. Va., a city he regards as his home town. Staley is a 1961 graduate of Miami University in Oxford, Ohio. His parents reside in Lakewood, Ohio.

**SCHEDULED AT WELL**

A fine arts "Festival of Entertainments" will be held from 9 p.m. to 1 a.m. at the Well coffee house, 816 S. Illinois, on Feb. 3.

The program will consist of folk music, music from 'Jazz Unlimited', interpretive readings, poetry, interpretive dance, and folk music on display.

The public is invited and may participate or just listen. The program will be informal.

Wrestlers Face Test
With Oklahoma State

Coach Jim Wilkinson's wrestlers face their biggest test of the season when Oklahoma State, currently rated fourth in the nation, invades the SIU Arena tonight at 7:30 p.m.

The Cowboys have won 25 NCAA team championships since capturing the first NCAA meet conducted in 1924. They slumped to sixth last year in the nationals, the lowest finish for them since 1969 when they finished fifth.

However, this season they've come back stronger than ever, winning their own invitational and two dual meets while suffering only one dual meet loss.

"Our work's cut out for us," said Coach Wilkinson, "We'll have to really hustle and work to attain a respectable score." Oklahoma's awesome line-up includes Danos Keller (133), whom Coach Wilkinson calls "one of the outstanding wrestlers in the nation." Richie Lenardo (137), a runnerup in the Big Eight, Parker Hoadley (132), three-time Oklahoma high school champion, and Jerry Stone, another Big Eight Champ.

The featured match will be in the 177 pound division where SIU's Ben Cooper will take on the Cowboys' Fred Hozzard, who easily captured the NCAA championship last season.

Also a sophomore, has been outstanding in his own right, winning both his matches in dual meet competition and placing in every tournament Southern has participated in this year.

Cooper, a sophomore, has been outstanding in his own right, winning both his matches in dual meet competition and placing in every tournament Southern has participated in this year.

Wilkinson said that Cooper's match will give a good indication of the grappler's chances of placing in the NCAA finals this season.

"Hozzard's outstanding," Wilkinson said. "He should be a strong candidate for the Olympic team this year."

Southern's Al Bollow and Rich Selover, wrestling at 191 and the heavyweight division respectively, should also perform well for the Salukis.

In Oklahoma's Invitational both Bollow and Selover gained firsts.

SIU's 155-pounder Steve Sarossey is another one of Coach Wilkinson's hopefuls. "Steve looked real good Monday," said Wilkinson, "He was moving real well and showed a great deal of hustle."

The Cowboy's 115 pounder is a question mark. Against Iowa State last week they forayed that division due to injuries and failure to make weight. Dale Maden is the probable for this spot.

Oklahoma State has changed its style in recent years and, instead of a tradition of dual meets, they've been going for the fall, netting five points instead of a question mark. Against Iowa State last week they forayed that division due to injuries and failure to make weight. Dale Maden is the probable for this spot.

Shootputter Randy Matson Named Outstanding Amateur Athlete

LOS ANGELES (AP)—Randy Matson, a gargantuam Texan who holds the world’s shot-put record, was named Wednesday winner of the Sullivan Award as the outstanding amateur athlete of 1967.

The 25-year-old Texas A&M athlete from Pampa, Tex., beat his own world record last April 4 by 10 1/4 inches by hurling the 16-pound ball 71 feet, 1 1/2 inches. He also threw the discus 231 3/4 inches and the javelin 91 3/4 inches for the unofficial American marks.

In ballotting for the Amateur Athletic Union, Matson beat out three women in different fields—Billie Jean King of Long Beach, Calif., recognized as the world’s No. 1 women tennis player; Deborah "Babs" Meyer, 15-year-old swimming whiz from Sacramento, Calif., and Peggy Fleming of Colorado Springs, Colo., world figure skating queen.

Miss Fleming will be favored to win a gold medal in the winter Olympics next month at Grenoble, France. Miss Matson, however, and Miss Meyer almost certainly will compete in the Summer Games at Mexico City. Matson was silver medalist, second to Dallas Long, in the 1964 Olympics at Tokyo.

Matson is a massive athlete who stands 6 feet, 6 1/2 inches and weighs 260 pounds. David A. Martin, AAA president, in making the announcement said Matson completed 78 points under a system which awards five points for a first place vote, three for second and one for third. Mrs. King policed 57 points, Miss Meyer 52 and Miss Fleming 48.

Mrs. King forged to the top of women’s tennis by winning the Wimbledon and U.S. titles. She currently is seeking the Australian national crown.

Intramurals

There are only three games on tap tonight’s intramural basketball action, with all three games on court 1 at University School, 6:45 p.m.—Gamaohuvs vs. Warlocks, 8 p.m.—Bills vs. Old Men, 9:15 p.m.—Marlproj vs. Ridley’s Raiders.

Miss Meyer rewrote the record book in women’s freestyle swimming, setting world marks in the 400, 800 and 1,500 meters and 800 yards. The official Soviet Sport Union magazine voted her the woman athlete of the year.

The 19-year-old Miss Fleming won her second world figure skater’s crown last year and also the U.S. and North American championships.

SIU Bitten by Evansville ‘Vampires’

By Charles Springer

EVANSVILLE, Ind. — Most people don’t believe there is any such thing as a vampire, but SIU’s cagers came away Thursday night as convincingly defeated, losing to Evansville, 52-45, here at the Ford Center.

The Salukis ran into five of them in one half of a varsity basketball game. Evansville is one of the six cheerleaders pulling for the Salukis during Wednesday night’s Evansville game. (Photo by Dave Lunan.)

Aces Drop SIU Frost, 78-67

The SIU freshmen saw their three-game winning streak come to a screeching halt Wednesday night as they dropped a 78-67 decision to the Evansville freshmen.

It was a case of not getting the basket at the right time as the Saluki freshmen could only muster a cool .28 shooting percentage in the first half of a tight Evansville man to man press.

SIU’s Mike Heesack seemed to be the only yearling who could find the range as he hit for 12 points in a first half that saw Southern fall behind 37-29. The 6-15 center added another 14 points in the second half to finish the game with a high scoring average of 26.8 per cent. Southern hit only 26 of 88 for a dismal .28 percentage.

SIU outrebounded the Evansville hosts 59-58.

Elmore, who hit the floor hitting on 33 of 85 shoes for a .38 per cent while Southern hit only 26 of 88 for a dismal .28 percentage.

The loss dropped the season mark for the Salukis to 3-4.

With 4:22 left in the second period, the turning point came when Evansville regular Jerry Martin deflected a Keene pass intended for Garrett. He pulled the ball out of the air, ran half the distance of the court for an open layup and the Aces led 49-44.

Howard Pratt sank a free throw after being fouled by Jackson with 24 seconds left to put his team on top by five.

Layne Holmes followed with a pair of free throws after a Garrett foul with eight seconds remaining for the final score.

Garrett suffered his worst shooting night of the season, managing to hit only four of 19 attempts from the field and missing his only free throw for a meager total of eight points. He failed to score against MacMurtry in the second game of the season because of the flu.

Holmes and Pratt, both starters for Evansville, led the Aces with 13 points apiece. Willie Griffin was high man for SIU with 15.

Evansville Coach Arad McCuthan was contented with the performance of his vampires. "They scared me in the first half," he said, "but during the second half they proved they had the stuff."

The Salukis held a slim 27-24 lead at intermission after having led by ten points two minutes before the buzzer.

With the first appearance of the "Vampire Five" the Salukis had stretched a four point lead to 11. The regulars returned at 6:40 and took advantage of numerous Saluki floor errors.

Tom Niemeyer sank two free throws, Holmes two more, and Pratt followed with two field goals to cut the margin to 25-22.

With 20 seconds to go in the first stanza Garrett completed his third attempt from the field, SIU led 27-22 at this point only to have it cut to three again by Niemeyer’s top-in with 15 seconds remaining.

The loss ended a five game winning streak for the Salukis. They now hold a 9-3 record going into Saturday night’s game with Michigan State at Chicago Stadium.

SIU's Frosh, 78-67

EVANSVILLE, Jan. 23 — The Salukis fell to Evansville 52-45 in Wednesday night’s game. Evansville’s five "Vampire Five" outscored SIU’s five men. The loss dropped the season mark for the Salukis to 3-4.
